BIOL 6760 MAMMALOGY (4) LEC. 3. LAB. 3. Departmental approval. Characteristics, origins, ecology, behavior, reproduction, physiology, and diversity of mammals. Labs include survey or current literature, fieldtrips, data analysis and report preparation.
BIOL 7000 ADVANCED PARASITOLOGY (3) LEC. 3. Pr. BIOL 6110 or BIOL 5110. Departmental approval. Interactions of organisms with their environments and characteristics of populations, communities, and ecosystems. Eight hours of Biology.

BIOL 7010 FUNDAMENTALS OF TEACHING BIOLOGY (1) LEC. 1. SU. Course may be repeated for a maximum of 6 credit hours.

BIOL 7030 ADVANCED ICHTHYOLOGY (6) LEC. 6. LAB. 3. Pr. BIOL 6380 or FISH 6380. Survey of the biodiversity of freshwater fishes in the southeastern United States through intensive field trips and sampling. Credit will not be given for both BIOL 7030 and FISH 7030.

BIOL 7060 ADVANCED MAMMALOGY (4) LEC. 3. LAB. 3. Pr. BIOL 6760. Current literature in mammalogy, collections management, and professional aspects of mammalogy. Labs include preparing specimens, curating research collections, fieldtrips, library work, data analysis, and report preparation.

BIOL 7125 COASTAL ECOSYSTEMS DYNAMICS (2) LEC. 2. Investigation of the basic principles of ecosystem structure and function. Biological Oceanography, Advanced Marine Ecology, Fisheries Oceanography recommended.

BIOL 7160 SYSTEMATIC ICHTHYOLOGY (3) LEC. 3. Pr. BIOL 6380. The principles of systematics and their application to the study of the evolution of fishes. Emphasizes individual and group work with faunistic literature and museum material.

BIOL 7170 POPULATION GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. Examination of the theories relating to maintenance of variation in natural populations of plants and animals.

BIOL 7200 EVOLUTIONARY BIOLOGY (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Topics of current interest in evolution. Readings and presentation required.

BIOL 7225 FIELD MARINE SCIENCE - MAINE (2) LEC. 1. LAB. 4. Field study in Maine emphasizing rocky intertidal, kelp bed, and eel grass habitats.

BIOL 7270 ULTRASTRUCTURE PLANT CELLS AND MICROBES (5) LEC. 3. LAB. 4. Departmental approval. Theory and practice of transmission and scanning electron microscopy and their applications to the biological sciences. Credit will not be given for both BIOL 7270 and CMBL 7270.

BIOL 7280 PLANT HORMONES (2) LEC. 2. Pr. BIOL 6130. Synthesis, physiology, and mode of action of the major plant hormones including abscisic acid, auxins, cytokinins, ethylene, and gibberellins.

BIOL 7290 EVOLUTIONARY GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 6170. Departmental approval. The role of population processes as mechanisms for evolution; and evolution at the molecular level. Credit will not be given for both BIOL 7290 and CMBL 7290.

BIOL 7330 MOLECULAR BIOLOGY OF PLANT DEVELOPMENT (2) LEC. 2. Pr. BIOL 6130 and BIOL 7280. Departmental approval. Physiological, biochemical, and molecular aspects of plant growth and development. Credit will not be given for both BIOL 7330 and CMBL 7330.

BIOL 7370 STREAM ECOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Physical, chemical, and biological aspects of stream ecosystems emphasizing effects of natural environmental factors and human influences on stream biota, and quantitative methods used to study stream ecology.

BIOL 7380 ECOLOGY AND MANAGEMENT OF RIVERINE SYSTEMS (4) LEC. 3. LAB. 3. Pr. BIOL 7370. River systems within a landscape ecology and ecosystem management context. Laboratory sessions stress techniques for assessment and management.

BIOL 7440 ADVANCED CELL BIOLOGY (3) LEC. 3. Pr. BIOL 4100. Examination of current areas of research in cell and developmental biology by directed reading and discussion. Credit will not be given for both BIOL 7440 and CMBL 7440.

BIOL 7490 PHYSIOLOGICAL ECOLOGY (3) LEC. 3. Pr. BIOL 3060 A study of the physiological adaptations that allow animals to survive in unusual environments. A course in ecology required.

BIOL 7515 OCEANOLOGY OF THE GULF OF MEXICO (3) LEC. 3. Departmental approval. Graduate level. A descriptive study of the oceanology of the Gulf of Mexico and adjacent waters including coastal zone, continental shelf, and deep ocean. Taught at GCRL.
BIOL 7530 ADVANCED SYSTEMATIC BOTANY (3) LEC. 3. Morphological and molecular approaches to modern systematics of plants.

BIOL 7540 PROFESSIONAL ASPECTS OF BIOLOGY (3) LEC. 3. Departmental approval. Instruction on practical aspects of a career in biological sciences.

BIOL 7560 PLANT/ANIMAL INTERACTIONS (3) LEC. 3. Pr. BIOL 3100 and BIOL 3060. Departmental approval. Overview of ecological and evolutionary interrelationships between animals and plants, including pollination biology, dispersal ecology, carnivory, and plant-herbivore interactions.

BIOL 7620 MICROBIOLOGY OF EPIDEMICS (3) LEC. 3. Pr. BIOL 4200. Departmental approval. Epidemics of communicable disease outbreaks are analyzed according to the hosts, modes of transmission, environment, and pathogenesis of the agents.

BIOL 7705 TROPICAL BIOLOGY: ECOLOGICAL APPROACH (8) LEC. 4. LAB. 12. Pr. At least 15 credits each with a minimum grade of C in BIOL 6000-8990 An in-depth introduction to the principles of ecology in the tropics. Orientation and introductory lecture in San Jose, Costa Rica, followed by field work during an 8 week period. 15 hours of graduate level biological science.

BIOL 7715 TROPICAL AGRO ECOLOGY (8) LEC. 4. LAB. 12. Pr. At least 20 credits each with a minimum grade of C in BIOL 6000-8990 Application of ecological principles to tropical agricultural systems with emphasis on research training. Orientation in San Jose, Costa Rica followed by visits to 3 main habitats.

BIOL 7720 PROKARYOTIC GENE REGULATION (3) LEC. 3. Pr. BIOL 6210 and (BIOL 6180 or CHEM 6180). Discussion of gene expression in bacteria using the current literature.

BIOL 7950 MASTERS THESIS SEMINAR (1) LEC. 1. SU. Departmental approval. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 2 credit hours.

BIOL 7960 SPECIAL PROBLEMS (1-4) LEC. Pr. P/C BIOL 6220. Oral presentation and discussion of recent scientific publications from a selected area molecular biology. Credit will not be given for both BIOL 7960 and CMBL 7960. Course may be repeated for a maximum of 4 credit hours.

BIOL 7970 SPECIAL TOPICS (1-4) AAB. Departmental approval. Instruction and discussion in a selected current topic in botany, microbiology, molecular biology, or zoology. A different topic for advanced study will be selected each semester this course is offered. Course may be repeated for a maximum of 8 credit hours.

BIOL 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

BIOL 8950 DOCTORAL SEMINAR (1) SEM. 1. SU. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 3 credit hours.

BIOL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topic.

Cell and Molecular Biology Courses

CMBL 4150 HUMAN GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and (CHEM 2080 or CHEM 2087). Study of the biological interaction of genes, effects of mutation and changes in gene frequency in human populations. Emphasis on molecular approach to study evolutionary changes in human gene pools.

CMBL 5190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and BIOL 4220 and CHEM 2090. The study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic and biochemical approaches.

CMBL 5500 IMMUNOLOGY (3) LEC. 3. Pr. BIOL 3200 and (BIOL 3000 or BIOL 3003). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms and medical immunology.

CMBL 5501 IMMUNOLOGY LAB (2) LAB. 4. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions and antibody production.

CMBL 6190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and BIOL 4050 and CHEM 2090. Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic and biochemical approaches. Credit will not be given for both CMBL 6190 and BIOL 6190.
CMBL 6220 INTRODUCTION TO MOLECULAR GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4510. Advanced principles of gene expression including replication, transcription and translation; structure and regulation of genes; detailed concepts and techniques in recombinant DNA. Credit will not be given for both CMBL 6220 and BIOL 6230.

CMBL 6230 VIROLOGY (4) LEC. 4. Pr. (BIOL 3000 or BIOL 3003) and BIOL 3200 and BIOL 4520. Molecular mechanisms of virus biology including virus-cell replication, assembly and release pathogens. Credit will not be given for both CMBL 6230 and BIOL 6230.

CMBL 6320 PLANT GENE EXPRESSION (4) LEC. 4. Pr. BIOL 5320. Departmental approval. Genetic expression of genetic elements in plants from the recent literature. Credit will not be given for both BIOL and CMBL 6320.

CMBL 6500 IMMUNOLOGY (3) LEC. 3. Pr. BIOL 3200 and (BIOL 3000 or BIOL 3003). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology.

CMBL 6501 TECHNIQUES IN IMMUNOLOGY (2) LAB. 4. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions and antibody production.

CMBL 7070 PLANT BIOTECHNOLOGY (4) LEC. 2. LAB. 4. Pr. BIOL 3000 or BIOL 3003. Plant biotechnology, including plant tissue culture technologies and genetic transformation and applications to horticultural crop improvement.

CMBL 7080 MOLECULAR ENDOCRINOLOGY (2) LEC. 2. Pr. VBMS 7070. Departmental approval. Examination of the literature of hormonal synthesis, secretion and mechanism of action with emphasis on receptors, second messenger systems and gene regulation.

CMBL 7270 ULTRASTRUCTURE OF PLANT CELLS AND MICROBES (5) LEC. 3. LAB. 4. Departmental approval. Theory and practice of transmission and scanning electron microscopy and their application to the biological sciences. Credit will not be given for both CMBL 7270 and BIOL 7290.

CMBL 7290 EVOLUTIONARY GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 6170. Departmental approval. Examines two major topics: the role of population processes as mechanisms for evolution; and evolution at the molecular level. Credit will not be given for both CMBL 7290 and BIOL 7290.

CMBL 7330 MOLECULAR BIOLOGY OF PLANT DEVELOPMENT (2) LEC. 2. Pr. BIOL 6130 and BIOL 7280. Departmental approval. Physiological, biochemical and molecular aspects of plant growth and development. Credit will not be given for both CMBL 7330 and BIOL 7330.

CMBL 7400 PLANT VIROLOGY (4) LEC. 3. LAB. 2. Pr. (PLPA 3000 or PLPA 3003 or PLPA 6000) and CHEM 6180. Departmental approval. Introduction to plant viruses and the diseases they cause; virus particle structure and replication strategies; disease identification by symptoms and detection of pathogen; transmission, ecology, epidemiology and control.

CMBL 7440 ADVANCED CELL BIOLOGY (3) LEC. 3. Pr. BIOL 4100. Examination of current areas of research in cell and developmental biology by directed reading and discussion. Credit will not be given for both CMBL 7440 and BIOL 7440.

CMBL 7460 BACTERIAL PATHOGENESIS (3) LEC. 3. Pr. VBMS 7510 or BIOL 4520. Departmental approval. Molecular and cellular basis of virulence of bacterial pathogens of animals.

CMBL 7480 METHODS IN IMMUNOLOGY (5) LEC. 1. LAB. 8. Departmental approval. Theoretical concept underlying immunological methods combined with practical hands-on immunological experimentation focused on application to research in the biological sciences.

CMBL 7510 MOLECULAR GENETICS I (5) LEC. 5. Pr. CHEM 7200. Bacterial, bacteriophage, and eukaryotic genetics, with a focus on gene structure, and molecular mechanisms regulation expression. Critical review of current literature will be emphasized.

CMBL 7520 MOLECULAR GENETICS II (5) LEC. 5. Pr. VBMS 7510. Genetic mechanisms by which eukaryotic cells replicate, communicate and differentiate. Current literature will be used extensively.

CMBL 7530 ADVANCED SYSTEMATIC BOTANY (3) LEC. 3. Pr. BIOL 6120. Morphological and molecular approaches to modern systematics of plants.

CMBL 7540 CURRENT TOPICS IN MOLECULAR VIROLOGY (3) LEC. 3. Pr. VBMS 7510 and VBMS 7520. Viral gene expression and evasion of host defense mechanisms.
CMBL 7660 MOLECULAR GENETICS AND BIOTECHNOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3000 or BIOL 3003. Departmental approval. Principles and applications of DNA fingerprinting technologies, gene mapping, genetic information and analysis using internet tools, transgenic technologies. Credit will not be given for both CMBL 7660 and FISH 7660.

CMBL 7960 READINGS IN MOLECULAR BIOLOGY (1) RCT. 1. Pr. P/C BIOL 7220. Oral presentation and discussion of recent scientific publications from a selected area of molecular biology. Credit will not be given for both CMBL 7960 and BIOL 7960. Course may be repeated for a maximum of 4 credit hours.

CMBL 8160 LABORATORY TECHNIQUES IN MOLECULAR VIROLOGY (4) LEC. 1. LAB. 9. Pr. BIOL 4520 and BIOL 4530. Isolation, purification, and identification of viral nucleic acids and proteins. Credit will not be given for both CMBL 8160 and POUL 8160.

CMBL 8880 PHYSIOLOGICAL AND MOLECULAR PLANT PATHOLOGY (3) LEC. 2. LAB. 2. Pr. PLPA 6000 and CHEM 6180 and BIOL 4230. Comprehensive coverage of physiology and molecular biology of plant-pathogen interactions.

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the *Bulletin*.

2. Students who complete a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.

3. If a LIT sequence is chosen, this course must be a CORE SOCIAL SCIENCE. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.

4. Choose from PHIL 1010, PHIL 1020, PHIL 1030, PHIL 1040, PHIL 1050, PHIL 1060, PHIL 1070, PHIL 1080, PHIL 1090, PHIL 1100 or HONR 1007 or HONR 1017.

5. See list of approved Biology electives.

6. All courses taken at a Summer Marine Lab must receive departmental approval.

**Total Hours:** 15 15

---

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.
2. Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
3. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.
4. Choose from PHIL 1010, PHIL 1020, PHIL 1030, PHIL 1040, PHIL 1050, PHIL 1060, PHIL 1070, PHIL 1080, PHIL 1090, PHIL 1100.
5. Biology Electives: See advisor for approved course listing.

Total Hours: 122

---

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.

2. Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
3 If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.
4 Choose from PHIL 1010, PHIL 1020, PHIL 1030, PHIL 1040, PHIL 1050, PHIL 1060, PHIL 1070, PHIL 1080, PHIL 1090, PHIL 1100 or HONR 1007 or HONR 1017.
5 A list of approved Biology electives is available from the COSAM Student Services webpage.
6 This course must be taken the semester of graduation.

Chemistry & Biochemistry

BS curriculum in Chemistry and BS curriculum in Biochemistry
These curricula, accredited by the American Chemical Society, prepare students for careers in pure and applied chemistry with a dual emphasis on classroom and laboratory experience. A flexible senior year allows student to tailor the program to individual professional goals. Graduates are prepared to enter the profession immediately or continue for advanced degree programs. The senior research program introduces students to modern advanced techniques and approaches to chemical research in an area of their interest by having them complete an individual research project in conjunction with a faculty adviser.

BA curriculum in Chemistry
The BA curriculum in Chemistry provides a strong background in chemistry while allowing students to specialize in areas of interest. It is especially well suited for students leaning towards medical sciences while allowing more flexibility than that allowed in the American Chemical Society accredited biochemistry curriculum. The program allows for great versatility in the junior and senior years, allowing the curriculum to be tailored to individual goals. The curriculum prepares students for professional careers in chemistry or biochemistry and advanced degree programs in chemistry, biochemistry and medically related fields.

Clinical Laboratory Sciences
The Division of Clinical Laboratory Sciences has two curricula leading to the degree of bachelor of science in laboratory technology or bachelor of science in medical technology. These curricula prepare students for medical laboratory careers in fields such as public health, bacteriology, environmental testing, industrial quality control, research and forensic science. Graduates may choose to qualify as certified medical technologists, which is accomplished by successfully completing a 12-month training period (rotating hospital internship) in an accredited school of medical technology and passing a national certifying examination.

Majors
- BA Chemistry (p. 1062)
- BS Chemistry (p. 1063)
- Biochemistry (p. 1064)
- Laboratory Sciences (p. 1065)
- Medical Laboratory Sciences (p. 1066)

Biochemistry Courses
BCHE 3180 NUTRITIONAL BIOCHEMISTRY (3) LEC. 3. Pr. CHEM 2030 or CHEM 2080 or CHEM 2087. Departmental approval. Fundamental pathways of carbohydrate, lipid, and amino acid metabolism in human beings. Credit will not be given for both BCHE 3180 and BCHE 3200.

BCHE 3200 PRINCIPLES OF BIOCHEMISTRY (3) LEC. 3. Pr. (BIOL 1010 or BIOL 1020 or BIOL 1030 or BIOL 1027 or BIOL 1037) and (CHEM 2030 or CHEM 2070 or CHEM 2077 or CHEM 2080 or CHEM 2087). Structure and function of biomolecules, enzyme catalysis, processing of genetic information, bioenergetics and metabolism, and regulatory mechanisms in cellular processes.

BCHE 3201 PRINCIPLES OF BIOCHEMISTRY LABORATORY (1) LAB. 2. Coreq. BCHE 3200. Fundamental theory and techniques used in the isolation, characterization, and study of biomolecules.

BCHE 5180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways. Bioenergetics.

BCHE 5181 BIOCHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C BCHE 5180 or P/C CHEM 5180. Laboratory techniques required for identification and quantification of compounds of important biochemical classes.

CHEM 1030/1033 FUNDAMENTALS CHEMISTRY I (3) LEC. 3. Science Core. Atomic and molecular theory, chemical equations, stoichiometry, gas laws, thermochemistry, bonding, electronic structure, molecular geometries, solids, liquids, properties of solutions, problem-solving techniques. Credit will not be given for both CHEM 1030 and CHEM 1110 or CHEM 1117.

CHEM 1031 FUNDAMENTAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1030. Science Core. Laboratory experiments emphasizing course material in CHEM 1030. Credit will not be given for both CHEM 1031 and CHEM 1110 or CHEM 1118.

CHEM 1040 FUNDAMENTAL CHEMISTRY II (3) LEC. 3. Pr. CHEM 1030 or CHEM 1110 or CHEM 1117. Science Core. Chemical kinetics; chemical equilibrium; acids and bases; calculations of pH; equilibrium constants and thermodynamical properties; electrochemistry; descriptive chemistry. Credit will not be given for both CHEM 1040 and CHEM 1120 or CHEM 1127.

CHEM 1041 FUNDAMENTAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 1040 and (CHEM 1031 or CHEM 1111 or CHEM 1118). Science Core. Laboratory experiments emphasizing course material in CHEM 1040. Credit will not be given for both CHEM 1041 and CHEM 1121 or CHEM 1128.

CHEM 1110 GENERAL CHEMISTRY I (3) LEC. 3. Pr. P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617. Science Core. Chemical principles for chemistry and related majors. Atomic and molecular theory, periodicity, chemical reactions, Stoichiometry, gases, thermochemistry, bonding, molecular geometries, liquids, solids, and solutions. Credit will not be given for both CHEM 1110 and CHEM 1030 or CHEM 1117.

CHEM 1111 GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1110 or P/C CHEM 1117. Science Core. Laboratory experiments emphasizing course material in CHEM 1110. Credit will not be given for both CHEM 1111 and CHEM 1031 or CHEM 1118.

CHEM 1117 HONORS GENERAL CHEMISTRY I (3) LEC. 3. Pr. Honors College Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1110, but covered in more depth. Credit will not be given for both CHEM 1117 and CHEM 1030 or CHEM 1110.

CHEM 1118 HONORS GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. Honors College. CHEM 1117 Science Core. Laboratory experiments emphasizing course material in CHEM 1117. Credit will not be given for both CHEM 1118 and CHEM 1031 or CHEM 1111.

CHEM 1120 GENERAL CHEMISTRY FOR SCIENTISTS AND ENGINEERS II (3) LEC. 3. Pr. CHEM 1110 or CHEM 1117. Science Core. Continuation of CHEM 1110. Chemical kinetics, chemical equilibrium, acids and bases, thermodynamics, electrochemistry, representative element and transition metal chemistry. Credit will not be given for both CHEM 1120 and CHEM 1040 or CHEM 1127.

CHEM 1121 GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (P/C CHEM 1120 or P/C CHEM 1127) and CHEM 1111 or CHEM 1117. Science Core. Laboratory experiments emphasizing course material in CHEM 1120. Credit will not be given for both CHEM 1121 and CHEM 1128.

CHEM 1127 HONORS GENERAL CHEMISTRY II (3) LEC. 3. Pr. Honors College. CHEM 1117 Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1120, but covered in more depth. Credit will not be given for both CHEM 1127 and CHEM 1040 or CHEM 1120.

CHEM 1128 HONORS GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. Honors College. CHEM 1118 and CHEM 1127 Science Core. Laboratory experiments emphasizing course material in CHEM 1127. Credit will not be given for both CHEM 1128 and CHEM 1041 or CHEM 1121.

CHEM 2030 SURVEY OF ORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Structure, nomenclature and reactions of the functional group classes of organic compounds polymers, and molecules of biological interest. Credit will not be given for both CHEM 2030 and CHEM 2070.

CHEM 2070 ORGANIC CHEMISTRY I (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. In-depth study of organic chemistry including structure, nomenclature, reactions, reaction mechanisms, stereochemistry, synthesis and spectroscopic structure determination organized by the functional group approach. Considers alkanes, alkenes, alkynes, alkyl halides, alcohols, ethers, and aromatic compounds. Credit will not be given for both CHEM 2070 and CHEM 2030.

CHEM 2071 ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. (P/C CHEM 2070 or P/C CHEM 2077) and (CHEM 1041 or CHEM 1128 or CHEM 1121). Laboratory for CHEM 2070.
CHEM 2077 HONORS ORGANIC CHEMISTRY I (3) LEC. 3. Pr. Honors College Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2070, but covered in more depth. Additional credit will not be given for CHEM 2070. Member of the Honors College or CHEM 1110 with grade of A or B or CHEM 1040 with grade of A.

CHEM 2078 HONORS ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 2070 or P/C CHEM 2077. Laboratory experiments emphasizing course material in CHEM 2077. Additional credit will not be given for CHEM 2071. Course may be repeated for a maximum of 3 credit hours.

CHEM 2080 ORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 2070 or CHEM 2077. Continuation of CHEM 2070. Aldehydes, ketones, amines, carboxylic acids, esters, amides, anhydrides, polymers, carbohydrates and amino acids.

CHEM 2081 ORGANIC CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (CHEM 2070 or CHEM 2071 or CHEM 2077 or CHEM 2078) and (P/C CHEM 2080 or P/C CHEM 2087 or P/C CHEM 2088). Laboratory for CHEM 2080.

CHEM 2087 HONORS ORGANIC CHEMISTRY II (3) LEC. 3. Pr. Honors College or departmental approval. Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2080, but covered in more depth. Additional credit will not be given for CHEM 2080. Member of the Honors College or CHEM 2077.

CHEM 2088 HONORS ORGANIC CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 2080 or P/C CHEM 2087. Laboratory experiments emphasizing course material in CHEM 2087. Additional credit will not be given for CHEM 2081. May count either CHEM 2081 or CHEM 2088. Course may be repeated for a maximum of 3 credit hours.

CHEM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH IN CHEMISTRY (1-3) LAB. SU. Individual problems course. Students will work under the direction of a staff member on some problem of mutual interest. Departmental approval required. Only Freshman or Sophomore. Course may be repeated for a maximum of 6 credit hours.

CHEM 3000 CHEMICAL LITERATURE (1) LEC. 1. Pr. CHEM 2080 or CHEM 2087. Chemical literature with emphasis on primary and secondary sources and the various computer data bases available.

CHEM 3050 ANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Theory and application of volumetric, potentiometric and photometric chemical analysis.

CHEM 3051 ANALYTICAL CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 3050. Analytical techniques applied to chemical analysis.

CHEM 3160 SURVEY OF PHYSICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127). The principles of physical chemistry.

CHEM 4070 PHYSICAL CHEMISTRY I (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and MATH 2650 and (PHYS 1610 or PHYS 1617). Principles of chemical thermodynamics, principles of application to problems of chemical interest.

CHEM 4071 PHYSICAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 4070.

CHEM 4080 PHYSICAL CHEMISTRY II (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and MATH 2650 and (PHYS 1610 or PHYS 1617). Principles of quantum mechanics and spectroscopy; application in molecular structure and in statistical thermodynamics.

CHEM 4081 PHYSICAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 4080. Laboratory for CHEM 4080.

CHEM 4100 INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 4080 or CHEM 3160. Principles of inorganic chemistry emphasizing periodic properties, bonding, structure and symmetry, the solid state, acid-base theory and coordination chemistry.

CHEM 4101 INORGANIC CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 4100. Synthesis and characterization of a variety of inorganic compounds.

CHEM 4110 INORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 4100. Departmental approval. Survey of main group, transition metal and organometallic chemistry.

CHEM 4111 INORGANIC CHEMISTRY LABORATORY II (1) LAB. 3. Pr. CHEM 4101 and P/C CHEM 4110. Laboratory for CHEM 4110.
CHEM 4130 INSTRUMENTAL ANALYSIS (3) LEC. 3. Pr. P/C CHEM 3050. Fundamental concepts used in instrumental analytical chemistry emphasizing spectrophotometric, electroanalytical and chromatographic analysis.

CHEM 4131 INSTRUMENTAL ANALYSIS LABORATORY (1) LAB. 3. Pr. P/C CHEM 4130. Laboratory for CHEM 4130.

CHEM 4950 UNDERGRADUATE SEMINAR (1) LEC. 1. Oral presentation and discussion of research in the area of specialization.

CHEM 4980 UNDERGRADUATE RESEARCH IN CHEMISTRY (3) LAB. 9. Departmental approval. This is an individual problem course. Each student will work under the direction of a staff member on some problem of mutual interest. Course may be repeated for a maximum of 9 credit hours.

CHEM 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Departmental approval. Honors College Members Only; Course may be repeated for a maximum of 6 credit hours.

CHEM 5180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Molecular Structure: classification, structure and reactions of the major constituents of living matter. Also includes binding phenomena and bioenergetics. Credit will not be given for both CHEM 5180 and BCHE 5180.

CHEM 5181 BIOCHEMISTRY I LABORATORY (1) LEC. 3. Pr. P/C CHEM 5180 or P/C BCHE 5180. Identification and quantification of compounds from the important biochemical classes. Examples include amino acid chromatography, dipeptide sequencing, glucose concentration etc. Credit will not be given for both CHEM 5181 and BCHE 5181.

CHEM 5190 BIOCHEMISTRY II (3) LEC. 3. Pr. CHEM 5180. Metabolism: survey of design and regulation of the major catabolic and biosynthetic (including photosynthesis) metabolic pathways. An overview of the flow of genetic information. Credit will not be given for both CHEM 5190 and BCHE 5190.

CHEM 5191 BIOCHEMISTRY II LABORATORY (1) LEC. 3. Pr. P/C CHEM 5190 or P/C BCHE 5190. Partial purification, Kinetic studies and characterization of enzymes and nucleotides from various plants, animals and bacteria. Credit will not be given for both CHEM 5191 and BCHE 5191.

CHEM 5280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 5310 LEARNING ASSISTANT PEDAGOGY (1) ST1. 1. Departmental approval. The Learning Assistant Pedagogy course is a special topics course reserved for students (undergraduate or graduate) serving as learning assistants in active learning classrooms. This seminar style class incorporates literature on student-centered learning with reflective writing and discussion.

CHEM 6180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Molecular Structure: classification, structure and reactions of the major constituents of living matter. Also includes binding phenomena and bioenergetics. Credit will not be given for both CHEM 6180 and BCHE 6180.

CHEM 6190 BIOCHEMISTRY II (3) LEC. 3. Pr. CHEM 6180. Departmental approval. Metabolism: survey of design and regulation of the major catabolic and biosynthetic (including photosynthesis) metabolic pathways. An overview of the flow of genetic information. Credit will not be given for both CHEM 6190 and BCHE 6190.

CHEM 6280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 7100 ADVANCED INORGANIC CHEMISTRY (3) LEC. 3. Departmental approval. Current concepts of inorganic chemistry with an emphasis on theory, structure, bonding and reactivity.

CHEM 7110 PHYSICAL METHODS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Or equivalent. Theory and application of techniques for obtaining information inorganic compounds including magnetism, multinuclear nmr, mass spectrometry, x-ray diffraction, vibrational and electronic spectroscopies.

CHEM 7120 ORGANOMETALLIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Main group and transition metal organometallic chemistry.

CHEM 7160 ADVANCED TOPICS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Currently active research areas in inorganic chemistry. Course may be repeated for a maximum of 12 credit hours.
CHEM 7200 ADVANCED ORGANIC CHEMISTRY I (3) LEC. 3. Departmental approval. Structure and mechanism in organic chemistry.

CHEM 7210 ADVANCED ORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 7200. Physical organic chemistry including spectroscopic methods.

CHEM 7260 SPECIAL TOPICS IN ORGANIC CHEMISTRY (1-3) LEC. Pr. CHEM 7200. Advanced course in a research area in organic chemistry which is of mutual interest to graduate students and the instructor. Course may be repeated for a maximum of 6 credit hours.

CHEM 7300 ADVANCED PHYSICAL CHEMISTRY (3) LEC. 3. Topics of general and current interest; may vary from year to year.

CHEM 7330 CHEMICAL KINETICS (3) LEC. 3. Theoretical and experimental aspects of reaction rates. The mathematics and characterization of chemically reacting systems.

CHEM 7350 QUANTUM AND STATISTICAL MECHANICS (3) LEC. 3. Pr. CHEM 7300. A quantum mechanical and statistical approach to molecular structure and chemistry.

CHEM 7370 SPECIAL TOPICS IN PHYSICAL CHEMISTRY (1-3) LEC. 3. Pr. CHEM 7300. Modern topics in advanced physical chemistry. Course may be repeated for a maximum of 3 credit hours.

CHEM 7380 MOLECULAR SPECTROSCOPY (3) LEC. 3. Pr. CHEM 7300. Theory and application of optical and magnetic resonance spectroscopy.

CHEM 7500 ADVANCED ANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical principles, applications and methods, mathematical interpretations and current developments.

CHEM 7510 ELECTROANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical applications of electrochemistry.

CHEM 7520 SURFACE CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Basic concepts in surface chemistry and surface analytical methods.

CHEM 7530 ADVANCES IN BIOANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical Chemistry of microfluidic devices and "Lab on a chip." New methods of miniaturization of separations and analysis with emphasis on bioanalytical applications.

CHEM 7750 FORMAL PRESENTATIONS IN MODERN CHEMISTRY (1) LEC. 1. Oral presentations skills will be developed with a focus on the dissemination of new discoveries in the field of Chemistry. Course may be repeated for a maximum of 6 credit hours.

CHEM 7930 DIRECTED INDIVIDUAL STUDY (1-15) IND. Credit to be arranged. Course may be repeated for a maximum of 15 credit hours.

CHEM 7950 SEMINAR (1) SEM. 1. SU. Course may be repeated for a maximum of 6 credit hours.

CHEM 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CHEM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Laboratory Science Courses

LBSC 2010 BASICS IN LABORATORY SCIENCE (2) LEC. 1. LAB. 1. Basic laboratory skills, quality control and assurance, standard precautions for biohazard testing; requirements for careers in medical and laboratory science.

LBSC 4050 CLINICAL IMMUNOHEMATOLOGY/PARASITOLOGY (5) LEC. 3. LAB. 6. Pr. (CHEM 2070 or CHEM 2077) and (BIOL 1020 or BIOL 1027). Immunogenetics, clinical significance of blood group antigens and antibodies, theory and techniques of serological study of human blood groups. Human parasites, life cycles and disease processes.

LBSC 4250 CLINICAL BIOCHEM INSTRUMNT (4) LEC. 3. LAB. 3. Pr. BCHE 5180 or BCHE 3200. Biochemistry/physiology of systems in the body of elements in body fluids during the normal and abnormal processes. Theoretical and practical application of Lab techniques, atomic absorption, gaschromatograph-FID, HPLC, spectroscopy, spectrophotometry, ion selective electrodes and RIA used in analysis of body fluids.
This curriculum provides a strong background in chemistry while allowing students to specialize in areas of interest. It is especially well suited for students leaning towards medical sciences while allowing more flexibility than that allowed in the American Chemical Society accredited biochemistry curriculum. The program allows for great versatility in the junior and senior years, allowing the curriculum to be tailored to individual goals. The curriculum prepares students for professional careers in chemistry or biochemistry and advanced degree programs in chemistry, biochemistry and medically related fields.

Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.

CHEM 1030/CHEM 1031 and CHEM 1040/CHEM 1041 sequence can substitute for CHEM 1110/CHEM 1111 and CHEM 1120/CHEM 1121. See advisor for details.

CHEM Electives are defined as any CHEM course 3000-level and above. A maximum of 3 hours of CHEM 4980 may be counted as a CHEM elective. Additional hours may be used as general elective.

This course must be taken the semester of graduation.

Geosciences

The curriculum in geology provides a background in the geosciences and opportunity to specialize in an area of interest (i.e., environmental geology, paleontology) through elective major or related courses. It is designed for those interested in preparation for graduate studies or employment in the field of geology.

The curriculum in geography promotes geographic literacy as an indispensable element in any educational program. It focuses on spatial relationships and the view of the Earth as the home of humankind. Geography readies students for careers in public services, consulting companies, state or federal agencies, utilities and other professions, as well as for graduate studies in geography.

Majors

• Geography (p. 1075)
• Geology (p. 1076)

Geography Courses

GEOG 1010/1013 GLOBAL GEOGRAPHY (3) LEC. 3. Social Science I Core. Spatial and locational context for analyzing change in the contemporary world, including elements of both physical and cultural environments.

GEOG 1017 HONORS GLOBAL GEOGRAPHY (3) LEC. 3. Pr. Honors College Spatial and locational context for analyzing change in the contemporary world, including elements of both physical and cultural environments.

GEOG 2010 HUMAN GEOGRAPHY (3) LEC. 3. Spatial perspectives on modern society such as population change, economics, politics, urban development, and local culture, and geography’s approach to solving problems using case studies and issues.

GEOG 2020 PHYSICAL GEOGRAPHY (3) LEC. 3. Selected elements of the earth’s physical system to include such items as landforms, basic weather elements, soils and vegetation.

GEOG 2800 GEOGRAPHIC METHODS AND TECHNIQUES (4) LEC. 3. LAB. 2. Pr. COMP 1000 or COMP 1003. Departmental approval. Key geographical concepts and production of basic geographical tools for portraying spatial data through laboratory exercises.

GEOG 2850 MAP READING AND ANALYSIS (3) LEC. 2. LAB. 2. Introduction to basic concepts and techniques used to interpret map symbols and to analyze geographic patterns.

GEOG 3000 SPORTS GEOGRAPHY (3) LEC. 3. Geographical basis of sports at different spatial scales, including locational strategies, sportive nationalism, and the urban political economy of sports.

GEOG 3110 UNITED STATES AND CANADA (3) LEC. 3. Survey of the region incorporating physical and cultural elements, providing a synthesis of the economic and political processes of the U.S. and Canada.

GEOG 3120 ALABAMA AND THE SOUTHEAST (3) LEC. 3. Study of the physical and cultural environments of the state.

GEOG 3130 LATIN AMERICA (3) LEC. 3. Survey of physical and human landscape of the region including historical geography, natural resources, economic development and problems and prospects affecting major countries.

GEOG 3140 AFRICA (3) LEC. 3. Analysis of the relationships among diverse population groups and the physical environments of sub-Saharan Africa.

GEOG 3150 EUROPE (3) LEC. 3. Survey of physical and human landscape of the region including historical geography, natural resources, economic development, and problems and prospects affecting several of the major countries.

GEOG 3160 ASIA (3) LEC. 3. Survey of the physical and cultural landscape of Asia, including its development and spatial distribution of resources, with a focus on major countries.

GEOG 3300 INTERNATIONAL TRAVEL AND TOURISM (3) LEC. 3. Environmental and cultural patterns that characterize places attractive to tourists. Provides realistic situations for developing travel plans and programs.

GEOG 3810 CARTOGRAPHY AND GRAPHICS (4) LEC. 3. LAB. 2. Pr. GEOG 2800. Departmental approval. Techniques of map production including relevant computer graphics applications and related laboratory exercises.
GEOG 4740 SENIOR SEMINAR (3) LEC. 3. Pr., Geology/Geography majors with upper-class standing. Individual research by geoscience undergraduates is coupled with improved written and oral communication skills and resume - ePortfolio development. May count either GEOG 4740 or GEOL 4740.

GEOG 4920 INTERNSHIP (3) LEC. 3. Opportunity to apply classroom experience to real job setting. Course may be repeated for a maximum of 6 credit hours.

GEOG 4930 DIRECTED STUDIES (1-4) IND. Departmental approval. Conferences, reading, research and/or reports may fulfill course requirement. Course may be repeated for a maximum of 4 credit hours.

GEOG 5010 URBAN GEOG AND SUSTAINABILITY (3) LEC. 3. Senior standing or Departmental approval. An introduction to the field of urban geography and urban sustainability. Basic principles and processes that constitute the growth of urban areas, history, impact of urbanization, adaptation and mitigation towards a sustainable future.

GEOG 5210 CLIMATOLOGY (3) LEC. 3. Pr., Senior standing or departmental approval. An introduction to the field of climatology. Basic principles and process that constitute the earth's climate system (e.g. surface-atmosphere energy budge, the hydrologic cycle, and atmospheric motion) as well as climate change and sea level rise.

GEOG 5220 GEOMORPHOLOGY (3) LEC. 2. LAB. 2. Basic concepts, terms, and techniques used to identify landforms and their evolutionary processes. Study of the origin of landforms with emphasis on the eologic processes and structures that generate the landforms and applications of landform analysis. Two all-day weekend trips are required. Two one-hour classes and one two-hour laboratory per week.

GEOG 5300 ADVANCED REGIONAL STUDIES IN GEOGRAPHY (3) LEC. 3. Departmental approval. Spatial patterns of socioeconomic development of Latin America and the Caribbean.

GEOG 5310 GEOGRAPHY OF RURAL CHANGE (3) LEC. 3. Examination of the patterns and processes associated with population levels and distributions, natural resource management systems, economic development, and cultural landscapes of rural communities. Credit will not be given for both GEOG 5310 and GEOG 6310.

GEOG 5350 ECONOMIC GEOGRAPHY (3) LEC. 3. Departmental approval. Economic Geography in a global context. Spatial aspects of resource use, agricultural development, manufacturing production and services.

GEOG 5380 POLITICAL GEOGRAPHY (3) LEC. 3. Examination of political processes over space, from local to the global levels. The course examines the development of political space, geographies of voting, the role of identity in shaping nationalism, and the geopolitical relationship between power and place.

GEOG 5400 GEOGRAPHY OF NATURAL HAZARDS (3) LEC. 3. Geography of natural hazards and their impacts on society. Credit will not be given for both GEOG 5400 and GEOG 6400.

GEOG 5510 HUMAN-ENVIRONMENT INTERACTION (3) LEC. 3. Departmental approval. Investigation of the inter-relationships between humans and their natural or physical environments.

GEOG 5550 GEOGRAPHY OF WATER RESOURCES (3) LEC. 3. Study of water use, management, law, and conflicts at local and international scales. May count either GEOG 5550 or GEOG 6550.

GEOG 5600 GLOBAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. Departmental approval. Global environmental problems such as climate change, ozone and deforestation and international public agencies and private volunteer movements protecting our global commons.

GEOG 5700 QUANTITATIVE METHODS AND SPATIAL ANALYSIS (3) LEC. 3. Pr. STAT 2510 or STAT 2513. Pr., STAT 2510 or similar statistics course. Applications of quantitative methods and spatial statistics to environmental, urban and economic systems and implementations of these techniques in GIS and statistical software. Credit will not be given for both GEOG 5710 and GEOG 6710.

GEOG 5710 GEOGRAPHIC FIELD METHODS (3) LEC. 1. LAB. 4. Geographic methods and techniques used to conduct field research investigations of human and physical characteristics of the landscape. Credit will not be given for both GEOG 5710 and GEOG 6710.
GEOG 5720 PANAMA STUDY ABROAD-CLIMATE CHANGE AND ENVIRONMENT (3) LEC. 3. Departmental approval. Four-week course intended to give students a general understanding of the potential impacts of climate change on Panama's environment via a mix of lectures, hands-on activities and field trips.

GEOG 5800 GEOGRAPHIC THOUGHT (3) LEC. 3. Departmental approval. Develops effective thinking skills, evaluates written materials in geography, reviews geographical research and produces written reports and papers related to geographic issues.

GEOG 5820 AERIAL PHOTOGRAPHY AND REMOTE SENSING (4) LEC. 3. LAB. 2. Departmental approval. Aerial photo and satellite digital interpretation, photogrammetry, remote sensing technology and photogrammetry and related laboratory exercises.

GEOG 5830 GEOGRAPHIC INFORMATION SYSTEMS (4) LEC. 3. LAB. 2. Introduction to concepts and techniques used in developing a geographic information system (GIS) for evaluating spatial distribution patterns and spatial relationships.

GEOG 5850 GEOGRAPHIC INFORMATION SYSTEMS APPLICATIONS (3) LEC. 3. LAB. 3. Pr. GEOG 5830 or GEOG 6830. Introducing the concepts and implementations of the geographic information analysis and integrate GIS with real-world applications. This is a follow-up course of GEOG 5830/GEOG/6830.

GEOG 5860 ADVANCED CONCEPTS IN CARTOGRAPHY (3) LEC. 2. LAB. 2. Pr. GEOG 3810. Advanced techniques of map design and production including relevant computer graphics applications and related laboratory exercises. Credit will not be given for both GEOG 5860 and GEOG 6860.

GEOG 5870 ADVANCED REMOTE SENSING (3) LEC. 2. LAB. 2. Pr. GEOG 5820. Explores advanced topics of remote sensing for use in research and analysis. Credit will not be given for both GEOG 5870 and GEOG 6870.

GEOG 5880 ADVANCED GEOGRAPHIC INFORMATION SYSTEMS (3) LEC. 2. LAB. 2. Pr. GEOG 5830. Advanced concepts and techniques used in the collection and analysis of data for evaluating spatial patterns and process. Credit will not be given for both GEOG 5880 and GEOG 6880.

GEOG 5970 SEMINAR IN GEOGRAPHY (3) LEC. 3. Development of modern geographic thinking with attention to applied research topics. Course may be repeated for a maximum of 6 credit hours.

GEOG 6010 URBAN GEOG AND SUSTAINABILITY (3) LEC. 3. Pr., Graduate standing. An introduction to the field of urban geography. Basic principles and processes that constitute the growth of urban areas, history and impact of urban footprint. Urban development is placed in the contemporary scenario of anthropogenic activities molding the urban environment (e.g. climate change).

GEOG 6210 CLIMATOLOGY (3) LEC. 3. Pr., Senior standing or departmental approval. An introduction to the field of climatology. Basic principles and process that constitute the earth's climate system (e.g. surface-atmosphere energy budget, the hydrologic cycle, and atmospheric motion, as well as climate change and sea level rise.

GEOG 6220 GEOMORPHOLOGY (3) LEC. 3. Basic concepts, terms, and techniques used to identify landforms and their evolutionary processes. Credit will not be given for both GEOG 5220 and GEOG 6220.

GEOG 6300 ADVANCED REGIONAL STUDIES IN GEOGRAPHY (3) LEC. 3. Departmental approval. Spatial patterns of socio-economic development of Latin America and the Caribbean.

GEOG 6310 GEOGRAPHY OF RURAL CHANGE (3) LEC. 3. Examination of the patterns and processes associated with population levels and distributions, natural resource management systems, economic development, and cultural landscapes of rural communities. Credit will not be given for both GEOG 5310 and GEOG 6310.

GEOG 6350 ECONOMIC GEOGRAPHY (3) LEC. 3. Departmental approval. Economic Geography in a global context. Spatial aspects of resource use, agricultural development, manufacturing production and services.

GEOG 6400 GEOGRAPHY OF NATURAL HAZARDS (3) LEC. 3. Geography of natural hazards and their impacts on society. Credit will not be given for both GEOG 5400 and GEOG 6400.

GEOG 6500 GEOGRAPHY OF ENVIRONMENTAL MANAGEMENT (3) LEC. 3. Departmental approval. Understanding and application of the theories and methods for the United States' version of environmental impact assessment.

GEOG 6510 HUMAN-ENVIRONMENT INTERACTION (3) LEC. 3. Departmental approval. Investigation the inter-relationships between humans and their natural or physical environments.
GEOG 6550 GEOGRAPHY OF WATER RESOURCES (3) LEC. 3. Study of water use, management, law, and conflicts at local and international scales. May count either GEOG 5550 or GEOG 6550.

GEOG 6600 GLOBAL RESOURCES AND THE ENVIRONMENT (3) LEC. 3. Departmental approval. Global environmental problems such as climate change, ozone and deforestation and international public agencies and private volunteer movements protecting our global commons.

GEOG 6700 QUANT METH & SPATIAL ANALYSIS (3) LEC. 3. Pr. STAT 2510 or STAT 2513. or similar statistics course. Applications of quantitative methods and spatial statistics to environmental, urban and economic systems and implementations of these techniques in GIS and statistical software. Credit will not be given for both GEOG 5700 and GEOG 6700.

GEOG 6710 GEOGRAPHIC FIELD METHODS (3) LEC. 1. LAB. 4. Geographic methods and techniques used to conduct field research investigations of human and physical characteristics of the landscape. Credit will not be given for both GEOG 5710 and GEOG 6710.

GEOG 6720 PANAMA STUDY ABROAD-CLIMATE CHANGE AND ENVIRONMENT (3) LEC. 3. Departmental approval. Four-week course intended to give students a general understanding of the potential impacts of climate change on Panama's environment via a mix of lectures, hands-on activities and field trips.

GEOG 6800 GEOGRAPHIC THOUGHT (3) LEC. 3. Departmental approval. Develops effective thinking skills; evaluates written materials in geography; Reviews geographical research and produces written reports and papers related to geographic issues.

GEOG 6820 AERIAL PHOTOGRAPHY AND REMOTE SENSING (4) LEC. 3. LAB. 2. Departmental approval. Aerial photo and satellite digital interpretation, photogrammetry, remote sensing technology and photogrammetry and related laboratory exercises.

GEOG 6830 GEOGRAPHIC INFORMATION SYSTEMS (4) LEC. 3. LAB. 2. Departmental approval. Introduction to concepts and techniques used in developing a geographic information system (GIS) for evaluating spatial distribution patterns and spatial relationships.

GEOG 6850 GEOGRAPHIC INFORMATION SYSTEMS APPLICATIONS (3) LEC. 3. LAB. 3. Pr. GEOG 5830 or GEOG 6830. Introducing the concepts and implementations of the geographic information analysis and integrate GIS with real-world applications. This is a follow-up course of GEOG 5830/GEOG/6830.

GEOG 6860 ADVANCED CONCEPTS IN CARTOGRAPHY (3) LEC. 2. LAB. 2. Pr. GEOG 3810. Advanced techniques of map design and production including relevant computer graphics applications and related laboratory exercises. Credit will not be given for both GEOG 5860 and GEOG 6860.

GEOG 6870 ADVANCED REMOTE SENSING (3) LEC. 2. LAB. 2. Pr. GEOG 6820. Explores advanced topics of remote sensing for use in research and analysis. Credit will not be given for both GEOG 5870 and GEOG 6870.

Geology Courses

GEOG 7980 CAPSTONE RESEARCH (1-3) RES. SU. Departmental approval. enrolled as GEOG MS non-thesis student. Literature, field and/or laboratory research directed toward the completion of capstone project for non-thesis option. Course may be repeated for a maximum of 3 credit hours.

GEOG 7990 M.S. RESEARCH AND THESIS (1-10) RES. Research and Thesis. Course may be repeated with change in topics.

GEOG 7930 DIRECTED STUDIES (1-3) IND/RES. Departmental approval. Individualized literature, field and/or laboratory research not available through regularly offered coursework. Subject matter and credit hours shall be determined by student and directing faculty. Course may be repeated for a maximum of 3 credit hours.

GEOG 1100/1103 DYNAMIC EARTH (4) LEC. 3. LAB. 2. Coreq. GEOL 1101. Science Core. General physical geology. Survey of the important minerals and rocks. Origin and classification of geologic structures, earthquakes, and landforms. Study of geologic maps. Credit will not be given for both GEOL 1100 and GEOL 3150.
GEOL 1101 DYNAMIC EARTH LABORATORY (0) LAB. 2. Coreq. GEOL 1100. General physical geology. Survey of the important minerals and rocks. Origin and classification of geologic structures, earthquakes, and land forms study of geologic maps.

GEOL 1107 HONORS DYNAMIC EARTH (4) LEC. 3. LAB. 2. Pr. Honors College or Departmental approval. General physical geology for Honors students and Geology majors. Topics similar to those in GEOL 1110 but covered in greater depth. Science Core.

GEOL 1108 HONORS DYNAMIC EARTH LABORATORY (0) LAB. 2. Pr. Honors College or Departmental approval. General physical geology for Honors students and for Geology majors. Topics similar to those in GEOL 1101 but covered in more depth. Science Core.

GEOL 1110/1113 EARTH AND LIFE THROUGH TIME (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Science Core. Physical and biological history of the Earth, with emphasis on the interaction between life, the atmosphere, rocks, and oceans.

GEOL 1111 EARTH AND LIFE THROUGH TIME LABORATORY (0) LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Coreq. GEOL 1110. Examination of rock, fossil, and related data sets bearing on the geological development of the earth with emphasis on North America.

GEOL 1117 HONORS EARTH AND LIFE THROUGH TIME (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107 or Departmental approval. Physical and biological history of the Earth, with emphasis on the interaction between life, the atmosphere, rocks, and oceans. For Honors students and Geology majors. Science Core.

GEOL 1118 HONORS EARTH AND LIFE THROUGH TIME LABORATORY (0) LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107 or Departmental approval. General historical geology for Honors students and Geology majors. Topics similar to those in GEOL 1111 but covered in greater depth. Science Core.

GEOL 1200 MARINE TECHNICAL METHODS (2) LAB. 8. Departmental approval. Introduction to procedures utilized aboard marine research vessels; physical, biological and geological measurements and sampling techniques. Taught only at Dauphin Island Sea Lab. Summer.

GEOL 1220 COASTAL CLIMATOLOGY (2) LEC. 7. Departmental approval. Controlling factors and features of world climates, with attention to coastal areas; application and interpretation of climate data. Taught only at Dauphin Island Sea Lab. Summer only.

GEOL 2010/2013 MINERALOGY AND OPTICAL CRYSTALLOGRAPHY (5) LEC. 4. LAB. 2. Pr. CHEM 1040. Departmental approval. Physical and chemical properties of minerals, classification and roles with emphasis on natural systems, materials science, health, and environment. Credit will not be given for both GEOL 2010 and GEOL 2013.

GEOL 2020 MARINE GEOLOGY (4) LEC. 2. LAB. 4. Departmental approval. Geology of ocean basins; special emphasis on continental shelves, their sediments and the sedimentary process at work there. Taught only at Dauphin Island Sea Lab. Summer only.

GEOL 2100 ENVIRONMENTAL GEOLOGY (4) LEC. 3. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Emphasis on geology as an environmental science; applied geology, geological hazards and environmental regulations as applied to geologic environmental remediation.

GEOL 3100 TERRESTRIAL VEGETATION THROUGH EARTH HISTORY (3) LEC. 2. LAB. 2. Pr. GEOL 2200 and (BIOL 1020 or BIOL 1027). Plants are primary producers and are the foundation upon which the global ecosystem is based. This course focuses on the development, evolution, and application of the plant fossil record to problems in earth history.

GEOL 3150 ENGINEERING GEOLOGY (3) LEC. 2. LAB. 2. Fundamental geologic principles, materials, and processes that affect engineering projects and programs. Emphasis on pre-construction geological analysis to recognize potential hazards and problems. Credit will not be given for both GEOL 3150 and GEOL 1100.

GEOL 3200 INTRODUCTION TO PALEOBIOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 1110 or GEOL 1113 or GEOL 1117. The nature of the fossil record, applications of that data to geological and biological questions with emphasis on the concepts using examples from all biotic groups.
GEOL 3300 EVOLUTION AND EXTINCTION OF THE DINOSAURIA (3) LEC. 2. LAB. 2. Pr. GEOL 1100 or GEOL 1103 or GEOL 1107. Departmental approval. Survey of the dinosaurs, their evolution and extinction. Southeastern U.S. dinosaurs.

GEOL 3650 FIELD CAMP (6) LEC. 1. LAB. 10. Pr. GEOL 3400. Instruments and methods used in geological field mapping, interpretation of sedimentary, igneous and metamorphic rocks and deformational analysis. Summer only.

GEOL 4010 SEDIMENTARY PETROLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 2050. Detailed description and classification of sediments and sedimentary rocks with emphasis on interpretation of origins, transport histories, depositional environments and diagenetic histories.

GEOL 4210 ECONOMIC GEOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 3400. The origin, distribution and classification of mineral deposits formed by igneous, metamorphic and sedimentary processes. Introduction of methods of exploration and development.

GEOL 4260 INTRODUCTION TO GEOCHEMISTRY (3) LEC. 3. Pr. CHEM 1040 and GEOL 2050. Principles governing the distribution of major, minor and trace elements within the earth; differentiation of elements due to geologic processes and the hydrosphere.

GEOL 4300 GEODYNAMICS (3) LEC. 3. Pr. GEOL 3400 and (MATH 1620 or MATH 1623 or MATH 1627) and PHYS 1510. Structure and dynamics of the earth deduced from seismology, gravity, heat flow and magnetism.

GEOL 4740 SENIOR SEMINAR (3) LEC. 3. Geology majors with upper-class standing. Individual research by geoscience undergraduates is coupled with improved written and oral communication skills and resume - ePortfolio development. May count either GEOL 4740 or GEOG 4740. Departmental approval.

GEOL 4920 INTERNSHIP (1-3) INT. SU. Geology majors with upper-class standing (juniors or seniors). An opportunity to apply classroom experience to a real job setting. Course may be repeated for a maximum of 6 credit hours.

GEOL 4930 DIRECTED STUDIES IN UNDERGRADUATE RESEARCH (1-3) AAB. Departmental approval. Directed studies in areas of geology not covered by an existing course or to supplement knowledge gained from an existing course. Course may be repeated for a maximum of 3 credit hours.

GEOL 4980 UNDERGRADUATE RESEARCH METHODS (1-3) IND. Departmental approval. Active participation in original research under supervision of a senior investigator. Course may be repeated for a maximum of 3 credit hours.

GEOL 4997 HONORS THESIS (2-4) LEC. 3. Pr. Honors College May incorporate library, field or laboratory research in any proportion. Written thesis and thesis defense required. Course may be repeated for a maximum of 4 credit hours.

GEOL 5060 INVERTEBRATE PALEONTOLOGY (4) LEC. 3. LAB. 2. Pr. GEOL 3200 and (BIOL 1030 or BIOL 1037). In-depth coverage of one aspect of the fossil record, focusing on preservation and paleaeology, laboratory/discussion sessions and field trips included.

GEOL 5100 HYDROGEOLOGY (3) LEC. 2. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107) and CHEM 1030 and (MATH 1610 or MATH 1613 or MATH 1617) and PHYS 1510. Departmental approval. Fundamentals of groundwater flow in porous media, hydrodynamic dispersion, determination of aquifer properties and geological aspects of groundwater occurrences.

GEOL 5220 GEOMORPHOLOGY (3) LEC. 2. LAB. 1. Study of the origin of landforms with emphasis on the eologic processes and structures that generate the landforms and applications of landform analysis. Two all-day weekend trips are required. Two one-hour classes and one two-hour laboratory per week.

GEOL 5240 COASTAL GEOMORPHOLOGY (2) LEC. 5. LAB. 4. Departmental approval. Introduction to coastal sediment processes and applied coastal geomorphology; emphasis on waves, tides, sediments and their impact of anthropogenic influences. Taught only at Dauphin Island Sea Lab. Summer only.

GEOL 5300 BASIN ANALYSIS (3) LEC. 2. LAB. 2. Pr. P/C GEOL 4010. Study of analytical techniques of sedimentary basin fills, including thermal history, litho and biofacies analyses, depositional systems, subsurface logs, seismic reflection, provenance history, evolution, sedimentation and subsidence history.

</table>
GEOL 7260 AQUEOUS AND ENVIRONMENTAL GEOCHEMISTRY (3) LEC. 2. LAB. 2. Pr. CHEM 1040 and GEOL 2050. Departmental approval. Study of water-rock reactions that control the chemical composition of groundwater; aqueous geochemistry of trace elements; groundwater pollution, remediation and geomicrobiology.

GEOL 7300 CYCLES THROUGH EARTH HISTORY (3) LEC. 2. LAB. 2. Pr. GEOL 4100 and GEOL 4260. Discussion of the fundamental processes controlling sedimentary cycles at different physical, biotic, and temporal scales.

GEOL 7310 ISSUES IN PALEONTOLOGY (3) LEC. 3. Pr. GEOL 3200. Advanced applications of paleontological data sets to topics that may include taphonomy, biogeochemistry, evolution, asymmetric functional morphology, paleoecology, paleoclimatology and biostatigraphy.

GEOL 7400 ADVANCED ECONOMIC GEOLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 4210. Departmental approval. The practical and theoretical aspects of economic geology as applied to exploration and development of natural resources.

GEOL 7410 GEOLOGY OF ORGANIC MATTER (3) LEC. 2. LAB. 2. Pr. GEOL 4010 and GEOL 4110. Departmental approval. The origins, classifications, taphonomy of organic matter, modern and ancient processes and environments of deposition of organic-rich strata, including hydrocarbon- source rocks and coals. Laboratory and field trips required.

GEOL 7450 MINERAL RESOURCES AND THE ENVIRONMENT (3) LEC. 2. LAB. 2. Pr. CHEM 1040 and GEOL 2050. Overview of geology and geographic distribution of mineral resources; economic aspects affecting their extraction; environmental impacts and cost of mineral resource extraction.

GEOL 7550 ADVANCED GEOPHYSICAL METHODS (3) LEC. 2. LAB. 2. Pr. GEOL 6600. Departmental approval. Advanced treatment of geophysical methods, data interpretation and modeling. Applications to resource development and environmental assessments will be explored, with emphasis on seismic methods.

GEOL 7600 PETROLOGY (3) LEC. 2. LAB. 2. Pr. GEOL 2050 and GEOL 4010. Departmental approval. The description, classification, formative processes, and petrologic interpretation of igneous, metamorphic and sedimentary rocks.

GEOL 7610 STRUCTURAL AND METAMORPHIC ANALYSIS (3) LEC. 2. LAB. 2. Pr. GEOL 2050 and GEOL 3400 and GEOL 3650. Quantitative analysis of dynamic, kinematic and chemical responses of rocks and minerals to crustal movements and dynamo thermal metamorphism.

GEOL 7650 FACIES ANALYSIS AND SEQUENCE STRATIGRAPHY (3) LEC. 2. LAB. 2. Pr. GEOL 4010 and GEOL 4110. Departmental approval. Systematic analysis of modern and ancient deposition facies, and their interpretation in a sequence stratigraphic context. Laboratory and field trips required.

GEOL 7930 DIRECTED STUDIES (1-3) LEC. 3. Departmental approval. Directed studies. May incorporate literature, field and/or laboratory research in any proportion. Subject matter and credit hours shall be determined by student and directing faculty. Course may be repeated for a maximum of 3 credit hours.

GEOL 7980 CAPSTONE PROJECT (1-3) LEC. SU. Literature, field and/or laboratory research directed towards completion of capstone project required for non-thesis option. Course may be repeated for a maximum of 3 credit hours.

GEOL 7990 RESEARCH AND THESIS (1-10) MST. Departmental Approval. Course may be repeated with change in topics.

Total Hours: 124

Courses in BOLD will be used to calculate GPA in major.
Options for courses labeled CORE are in the Auburn University Bulletin (www.auburn.edu/bulletin) under Core Curriculum.
1 Geology Electives: 12 hours required. Geology electives may be selected from the following groups of courses with NO MORE THAN 4 hours coming from group B.

**GEOL Group A Electives:**
- GEOL 4210 (3) Economic Geology
- GEOL 4260 (3) Geochemistry
- GEOL 5060 (4) Invertebrate Paleontology
- GEOL 5100 (3) Hydrogeology
- GEOL 5300 (3) Basin Analysis
- GEOL 5600 (4) Applied Geophysics
- GEOG 5220 (3) Geomorphology

**GEOL Group B Electives:**
- GEOL 3060 (3) Lunar and Planetary Geology
- GEOL 4930 Actualistic Paleontology
- GEOL 4930 Ichnology
- GEOL 4930 (1) Carbonate Depositional Systems
- GEOL 4930 Unspecified Directed Study (no more than 2 hours)
- GEOL 4980 Unspecified Research Methods (no more than 2 hours)

**Technical Electives:** The following courses are approved. Other courses may be permitted with prior approval of the GEOL advisor. Students must meet with their Geology advisor and have technical electives approved in advance. An approval form must be on file in the Dean's office in order to be cleared for graduation.

- AERO 3040, 5320
- AGRN 3040, 3100,5000,5080,5150,5300
- ANTH any 2000+ course
- BIOL2015, 2415,2420,2425,3030, 3060,3075,3200,4010,4020
- CI\TL2010, 3210, 3310, 3120,4210, 4310, 5330, 5340
- CHEM 2070, 3050, 3200, any 3000-5000 course
- COMP 2200, 2210, any 2000-3000 course
- GEOG any 3000-5000 course
- MATH any 2000-5000 course
- MECH any 3000-5000 course
- PHYS any 2000-5000 course
- STAT any 2000-5000 course

2 GEOG 1010 Global Geography is suggested for majors.

---

### Mathematics & Statistics

The Department of Mathematics and Statistics offers degree curricula in mathematics and in applied mathematics (with its various options), as well as minors and a minor in statistics. Majors acquire a firm foundation in mathematics preparing them for further study, or for careers in mathematics or statistics, and related fields. For a minor in MATH or STAT see the “Minors” heading earlier in this section.

This curriculum of Mathematics provides students with a general background in Mathematics preparing them for graduate studies in Mathematics, or careers that require mathematical knowledge and problem solving skills, and is well suited for students who wish to pursue career in teaching Mathematics in a university/college, or who desire more flexibility or emphasis in liberal arts.

The Department of Mathematics and Statistics offers three options in the field of Applied Mathematics. The option in Applied Mathematics is suitable for students who are preparing for graduate work in mathematics, or applied mathematics, as well as for those anticipating careers which are supported by significant applied mathematics such as engineering, physical sciences, or computer science, and the more recently mathematicized fields of biological, behavioral, or managerial sciences.

The option in Discrete Mathematics prepares students for graduate work in mathematics or theoretical computer science, and for careers in industry supported by discrete mathematics dealing with problems in graph theory, operations research, discrete optimization, computer science, communications and information sciences.

The option in Actuarial Science prepares students for a career in the insurance industry and in other businesses relying on the expertise of actuaries, but is at the same time flexible enough to allow its graduates to enter graduate programs in mathematics and related areas.
Starting with the Fall 2015 semester incoming students will be required to earn a "C" or better in certain prerequisites to take the follow-on course. The follow-on courses are: Pre-Calculus Algebra and Trigonometry, Calculus I, Calculus II, and Calculus III.

Students should consult the departmental advisor to determine appropriate technical electives for the emphasis of their choice.

**Majors**

- Actuarial Science (p. 1096)
- Applied Discrete Mathematics (p. 1097)
- Applied Mathematics (p. 1099)
- Mathematics (p. 1095)

**Minors**

- Mathematics (p. 1096)
- Statistics (p. 1100)

**Mathematics Courses**

**MATH 1000/1003 COLLEGE ALGEBRA** (3) LEC. 3. Fundamental concepts of algebra, equations and inequalities, functions and graphs, polynomial and rational functions. Does not satisfy the core requirement in mathematics. Students who have previous credit in any higher-numbered math course may not receive credit.

**MATH 1100 FINITE MATH AND APPLICATIONS** (3) LEC. 3. Pr. A02 score of 22 or S02 score of 520 or MATH 1000 or MATH 1003 or MPP score of 034 or MPA2 score of 034 or MPME score of 052. Mathematics Core. Overview of finite mathematics and its applications. Graph theory, matrices, finite and conditional probability; descriptive and inferential statistics, voting methods, game theory.

**MATH 1120/1123 PRE-CALCULUS ALGEBRA** (3) LEC. 3. Pr. A02 score of 22 or S02 score of 520 or MATH 1000 or MATH 1003 or MPP score of 048 or MPA2 score of 048 or MPME score of 052. Mathematics Core. Preparatory course for calculus. Basic analytic and geometric properties of trigonometric functions. Complex numbers, De Moivre's Theorem, polar coordinates. No credit is given to students with higher-numbered math course. Credit for only one of MATH 1120/MATH 1123.

**MATH 1130/1133 PRE-CALCULUS TRIGONOMETRY** (3) LEC. 3. Pr. A02 score of 23 or S02 score of 540 or MATH 1120 or MATH 1123 or MPP score of 056 or MPA2 score of 056 or MPME score of 060. Mathematics Core. Preparatory course for the calculus sequence. Basic analytic and geometric properties of the trigonometric functions. Complex numbers, de Moivre's theorem, polar coordinates. Students who have previous credit in any higher-numbered math course may not receive credit. Students may receive credit for only one of MATH 1130/MATH 1133.

**MATH 1150/1153 PRE-CALCULUS ALGEBRA AND TRIGONOMETRY** (4) LEC. 4. Pr. A02 score of 23 or S02 score of 540 or MPP score of 064 or MPA2 score of 064 or MATH 1000 or MATH 1003 or MPME score of 060. "C" or better in MATH 1000 or MATH 1003. Mathematics Core. Algebraic functions, Exponential Logarithmic functions. Analytic and geometric properties of trigonometric functions. Students with previous credit in any higher-numbered math course may not receive credit. Students may receive credit for only one of MATH 1150/MATH 1153.

**MATH 1151 MATHEXCEL PRECALCULUS WORKSHOP** (2) LEC. 2. SU. Coreq. MATH 1150. Appropriate score on the mathematics placement exam or grade of C or better in MATH 1000. Workshop for MATH 1150. Two 2-hour sessions per week. Fall, Spring.

**MATH 1610/1613 CALCULUS I** (4) LEC. 4. Pr. A02 score of 26 or S02 score of 600 or (MPQ score of 100 and MPP score of 072 ) or (MPQ score of 100 and MPA2 score of 072 ) or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1130 or MPME score of 076. "C" or better in MATH 1130, MATH 1133, MATH 1150 or MATH 1153. Mathematics Core. Limits, the derivative of algebraic, trigonometric, exponential, logarithmic functions. Applications of the derivative, antiderivatives, the definite integral and applications to area problems, the fundamental theorem of calculus. Students may receive credit for only one of MATH 1610/1613/1617/1710.

**MATH 1611 MATHEXCEL CALCULUS WORKSHOP I** (2) LEC. SU. Coreq. MATH 1610. Workshop for Math 1610. Two 2-hour sessions per week.
MATH 1617 HONORS CALCULUS I (4) LEC. 4. Pr. Honors College and a minimum MPP score of 72 and a minimum MPQ score of 100 and a minimum MPA2 score of 72 and MATH 1130 and MATH 1150 and MATH 1133 and MATH 1153 and MATH 1130 and a minimum A02 score of 26 and a minimum S02 score of 600 and a minimum MPME score of 76 "C" or better in MATH 1130, MATH 1133, MATH 1150 or MATH 1153. Mathematics Core. This course covers the same material as MATH 1610 but in a greater depth appropriate for honors students. Credit will not be given for both MATH 1617 and MATH 1680. Students may receive credit for only one of MATH 1610, MATH 1617, or MATH 1710.

MATH 1620/1623 CALCULUS II (4) LEC. 4. Pr. MATH 1610 or MATH 1613 or MATH 1617 or MATH 1710 or MATH 1610. "C" or better in MATH 1610. MATH 1613, or MATH 1617. Techniques of integration, applications of the integral, parametric equations, polar coordinates. Vectors, lines and planes in space. Infinite sequences and series. Students may receive credit for only one of MATH 1620, MATH 1627, or MATH 1720.

MATH 1621 MATHEXCEL CALCULUS WORKSHOP II (2) LEC. 2. SU. Coreq. MATH 1620. Workshop for MATH 1620. Two 2-hour sessions per week.

MATH 1627 HONORS CALCULUS II (4) LEC. 4. Pr. Honors College. MATH 1610 and MATH 1617 and MATH 1710 and MATH 1613 and MATH 1610 "C" or better in MATH 1610, MATH 1613, or MATH 1617. The same material as MATH 1620, but in greater depth appropriate for honors students. Students may receive credit for only one of MATH 1620, MATH 1627 or MATH 1720.

MATH 1680/1683 CALCULUS WITH BUSINESS APPLICATIONS I (4) LEC. 3. LEC. 2. Pr. A02 score of 25 or S02 score of 580 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MPP score of 072 or MPA2 score of 072 or MPME score of 068. Students in College of Business. Mathematics Core. Differentiation and integration of exponential and logarithmic functions, applications to business. Functions of several variables, partial derivatives, multiple integrals.

MATH 1681 MATHEXCEL BUSINESS CALCULUS WORKSHOP I (2) LEC. 2. SU. Coreq. MATH 1680. Workshop for MATH 1680. Two 2-hour sessions per week.

MATH 1690 CALCULUS WITH BUSINESS APPS II (3) LEC. 3. Pr. MATH 1680 or MATH 1683 or MATH 1610 or MATH 1617 or MATH 1613 or Departmental approval. Probability, random variables, probability distributions. Further topics in calculus: integration, functions of several variables, applications to probability. Applications to business and related areas. Credit will not be given to majors in Engineering or Math or Physics.

MATH 1691 MATHEXCEL BUSINESS CALCULUS WORKSHOP II (2) LEC. 2. SU. Coreq. MATH 1690. Workshop for MATH 1690. Two 2-hours sessions per week.

MATH 1710 CALCULUS FOR ENGINEERING AND SCIENCE I (4) LEC. 4. Pr. A02 score of 26 or S02 score of 600 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1130 or MPME score of 076. Credit will be given for only one of MATH 1610/1613/1617/1710. Credit will not be given for MATH 1680 and MATH 1710. Mathematics Core. Vector algebra, limits, derivatives and antiderivatives of real and vector valued functions and applications. The fundamental theorem of calculus. MATH 1710 and MATH 1720 include and re-order the material of MATH 1610 and MATH 1620, and MATH 1720.

MATH 1720 CALCULUS FOR ENGINEERING AND SCIENCE II (4) LEC. 4. Pr. MATH 1710. Exponents and logarithms, L'Hopital's rule. Techniques of integration, work and energy, line integrals, the gradient and directional derivatives, the curl. Credit will be given for only one of MATH 1610, MATH 1627, or MATH 1720.

MATH 2630 CALCULUS III (4) LEC. 4. Pr. MATH 1620 or MATH 1627 or MATH 1720 or MATH 1620 or MATH 1623. "C" or better in MATH 1620, MATH 1623 or MATH 1627. Multivariate calculus: vector-valued functions, partial derivatives, multiple integration, vector calculus. Credit will be given for only one of MATH 2630, MATH 2637, or MATH 2730.

MATH 2637 HONORS CALCULUS III (4) LEC. 4. Pr. Honors College. MATH 1620 and MATH 1623 and MATH 1627 and MATH 1620 and MATH 1720 "C" or better in MATH 1620, MATH 1623 or MATH 1627. The same material as MATH 2630, but in greater depth appropriate for honors students. Credit will be given for only one of MATH 2630, MATH 2637, or MATH 2730.

MATH 2650 LINEAR DIFFERENTIAL EQUATIONS (3) LEC. 3. Pr. P/C MATH 2630 or P/C MATH 2637 or P/C MATH 2730. First and second order linear differential equations including the solutions by infinite series, applications.

MATH 2660 TOPICS IN LINEAR ALGEBRA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Matrices, row-reduction, systems of linear equations, (finite-dimensional) vector spaces, subspaces, bases, dimension, change of basis, linear transformations, kernels, orthogonality, Gram-Schmidt.
MATH 2730 CALCULUS FOR ENGINEERING AND SCIENCE III (4) LEC. 4. Pr. MATH 1720. Optimization and Lagrange multipliers. Linear, spherical, cylindrical, polar transformations. The Jacobian. Surface integrals and integrals over solids. Divergence, Stokes' Theorem, Gauss' Theorem. Students may receive credit for only one of MATH 2730, MATH 2630/2637/2730.

MATH 2790 MATHEMATICS OF INTEREST THEORY (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Mathematical foundations of the theory of interest necessary as preparation for the Society of Actuaries examination on the theory of interest.

MATH 2850 MATHEMATICS FOR ELEMENTARY EDUCATION I (3) LEC. 3. Departmental approval. Mathematical insights for elementary school teachers. Sets, the structure of the number system (integers, fraction, decimals). For Elementary Education majors or by

MATH 2860 MATHEMATICS FOR ELEMENTARY EDUCATION II (3) LEC. 3. Pr. MATH 2850. Departmental approval. Mathematical insights into measurement and geometry for elementary school teachers. Shapes in two and three dimensions. Similarities, congruences and transformations. For Elementary Education majors or by

MATH 2870 MATHEMATICS FOR ELEMENTARY EDUCATION III (3) LEC. 3. Departmental approval. Mathematical insights into probability, data analysis and functions for elementary school teachers. Uncertainty, probability spaces and an introduction to statistics. Relationships, functions and change. For Elementary Education majors or by

MATH 3010 HISTORY OF MATHEMATICS (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Departmental approval. The evolution of modern mathematics from its motivational roots in the physical sciences; the lives and contributions of outstanding mathematicians; the parallel development of mathematics and western culture.

MATH 3100 INTRODUCTION TO ADVANCED MATHEMATICS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Teaching of the fundamental abilities necessary for the pursuance of mathematical studies. Logic and set theory, mathematical induction, basic number theory, basic analysis. Credit will not be given for both MATH 3100 and Math 3710.

MATH 3710 DISCRETE MATHEMATICS (3) LEC. 3. Pr. MATH 2660. Methods of proof, induction, counting, inclusion-exclusion, discrete probability, relations, partial orders, graphs, trees, languages, grammars, finite state machines, automata. Credit will not be given for both MATH 3710 and Math 3100.

MATH 4410 ADVANCED LOGIC (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Advanced topics in logic. For example: soundness, completeness, incompleteness, set theory, proof theory, odel theory, non-standard logics. May count either MATH 4110 or PHIL 4110.

MATH 4790 ACTUARIAL SEMINAR IN THE MATHEMATICS OF FINANCE (3) LEC. 3. Pr. MATH 2790. Intensive seminar in the mathematical aspects of finance, and the theory of interest primarily intended as preparation for the Society of Actuaries Course 2 examination.

MATH 4820 ACTUARIAL SEMINAR IN PROBABILITY (3) LEC. 3. Pr. STAT 3600. or equivalent. Intensive seminar in calculus, probability, and risk theory primarily intended as preparation for the Society of Actuaries Course 1 examination.

MATH 4930 DIRECTED STUDIES (1-3) IND. Study of individual problems or topics of interest to students. Course may be repeated for a maximum of 3 credit hours.

MATH 4970 SPECIAL TOPICS (1-4) IND. Departmental approval. An individual problems course. Each student will work under the direction of a staff member on a problem of mutual interest. Course may be repeated for a maximum of 4 credit hours.

MATH 4980 UNDERGRADUATE RESEARCH (1-3) IND. Departmental approval. Directed research in the area of specialty under faculty supervision. Course may be repeated for a maximum of 3 credit hours.

MATH 4997 HONORS THESIS (1-6) IND. Pr. Honors College Course may be repeated for a maximum of 6 credit hours. Membership in Honors College.

MATH 5000 MATH MODELING CONTINUOUS (3) LEC. 3. Pr. MATH 2650 and MATH 2660. Introduction to mathematical models and related techniques. Includes general principles involving continuous deterministic problems and a detailed, specific term project. : Programming ability.
MATH 5010 VECTOR CALCULUS (3) LEC. 3. Pr. (MATH 2630 or MATH 2637 or MATH 2730) and MATH 2660. Departmental approval. Vector-valued functions, vector fields. Gradient, divergence, curl. Integral theorems: Green's Theorem, Stoke's Theorem, Gauss' Theorem. Tensors and differential forms. Applications.

MATH 5030 COMPLEX VARIABLES WITH APPLICATIONS I (3) LEC. 3. Pr. MATH 2650. Complex functions and their elementary mapping properties; contour integration and residues; Laurent series; applications to real integrals. MATH 5030-5040 are appropriate for students of engineering or science.

MATH 5040 COMPLEX VARIABLES WITH APPLICATIONS II (3) LEC. 3. Pr. MATH 5030. Linear fractional transformations; conformal mappings; harmonic functions; applications to boundary value problems; analytic continuation; entire functions. MATH 5030-5040 are appropriate for students of engineering or science.

MATH 5050 MATRIX THEORY AND APPLICATIONS (3) LEC. 3. Pr. MATH 2660. Canonical forms, determinants, linear equations, eigenvalue problems.

MATH 5060 ELEMENTARY PARTIAL DIFFERENTIAL EQUATIONS (3) LEC. 3. Pr. MATH 2650. First and second order linear partial differential equations with emphasis on the method of eigenfunction expansions.

MATH 5120 INFORMATION THEORY (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Information and entropy, information rate optimization and channel capacity, variable-length codes, data compression (Kraft-McMillan inequality, Huffman's algorithm), maximum likelihood decoding, Shannon's Noisy Channel Theorem.

MATH 5130 CALCULUS OF VARIATION (3) LEC. 3. Pr. MATH 2650. Fundamental concepts of extrema of functions and functionals; first and second variations; generalizations; sufficient conditions; constrained functionals; the general Lagrange Problem; optimal control.

MATH 5140 DATA COMPRESSION (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Lossless compression methods, including static, dynamic, and higher order Huffman and arithmetic encoding, interval and recency rank encoding, and dictionary methods; lossy transform methods (JPEG).

MATH 5150 ALGEBRAIC CODING THEORY (3) LEC. 3. Linear codes, Hamming and Golay codes, BCH codes, cyclic codes. Random error detection and correction. Burst-error correction. Decoding algorithms. Credit will not be given for both MATH 5150 and MATH 6150/6156.

MATH 5180 CRYPTOGRAPHY (3) LEC. 3. Pr. MATH 2660. Classical cryptosystems, the Data Encryption Standard, one-way functions and relevant number theoretic problems (factoring, primality testing, discrete logarithm problem), RSA and other public key cryptosystems.

MATH 5190 INTRODUCTION TO APPROXIMATION THEORY (3) LEC. 3. Pr. MATH 2650. Approximation of functions by polynomials, spline functions or trigonometric functions, expansions in series.

MATH 5200 ANALYSIS I (3) LEC. 3. Pr. MATH 3100. or equivalent course, subject to departmental approval. Real numbers, infima and suprema; sequences and series of real numbers, convergence and limits, Cauchy sequences and completeness; topology of the real line, Bolzano-Weierstrass and Heine-Borel theorems; real-valued functions of a real variable, continuity and uniform continuity; intermediatevalue and extreme-value theorems. Emphasis on proofs.

MATH 5210 ANALYSIS II (3) LEC. 3. Pr. MATH 5200. Sequences and series of functions, modes of convergence, power series, elementary functions; derivatives and antiderivatives, the mean-value theorem; Riemann integration and the Fundamental Theorem of Calculus; R^n and abstract spaces, functions of several variables. Emphasis on proofs.

MATH 5280 SYSTEMS OF DIFFERENTIAL EQUATIONS AND APPLICATIONS (3) LEC. 3. Pr. MATH 2650 and MATH 2660. Linear systems of differential equations, stability, phase portraits; non-linear systems, linearization, qualitative properties of orbits, Poincare-Bendixson Theorem; numerical methods; applications.
MATH 5300 THEORY OF DIFFERENCE EQUATIONS (3) LEC. 3. Pr. MATH 2660. Linear difference equations, initial value problems, Green's functions, boundary value problems, systems, periodic solutions, nonlinear difference equations, models.

MATH 5310 INTRODUCTION TO ABSTRACT ALGEBRA I (3) LEC. 3. Pr. MATH 3100. Departmental approval. Groups, Groups of Permutations, isomorphisms and homomorphisms; Cyclic Groups, Quotient Groups, The Fundamental Homomorphism Theorem.

MATH 5320 INTRODUCTION TO ABSTRACT ALGEBRA II (3) LEC. 3. Pr. MATH 5310. Theory of rings and fields, Ideals and Homomorphisms, Quotient Rings, Rings of Polynomials, Extensions of Fields, Galois Theory.

MATH 5330 COMPUTATIONAL ALGEBRA (3) LEC. 3. Pr. MATH 5310. Introduction to computation in multivariate polynomial rings and finite fields. Topics include Groebner bases, Buchberger's Algorithm, kinematic/robotics problems, symbolic manipulation software.

MATH 5370 LINEAR ALGEBRA (3) LEC. 3. Pr. MATH 2660. Introduction to the theoretical foundations of Linear Algebra including vector spaces, basis, dimension, linear transformations, fundamental subspaces, matrix representations, eigenvalues, eigenspaces.

MATH 5380 INTERMEDIATE EUCLIDEAN GEOMETRY I (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Fundamental concepts and theorems of Euclidean geometry, introduction to higher dimensions. Regular polygons and polyhedra, symmetry groups, convexity, geometric extremum problems. Geometric transformations and their invariants.

MATH 5390 INTERMEDIATE EUCLIDEAN GEOMETRY II (3) LEC. 3. Pr. MATH 5380. Planar graphs and Euler's theorem. The symmetry group of a set, homotheties and similitudes, path, arcs and length of curves, advanced theorems on the circle.

MATH 5460 PERTURBATION METHODS I (3) LEC. 3. Pr. MATH 2660. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods.

MATH 5470 DYNAMICAL SYSTEMS I (3) LEC. 3. Pr. MATH 2650. One dimensional dynamics. The logistic equation, bifurcation theory, chaos, hyperbolicity, symbolic dynamics, Sarkovskii's Theorem, maps of the circle, homoclinic points and the theory of kneading sequences.

MATH 5480 DYNAMICAL SYSTEMS II (3) LEC. 3. Pr. MATH 5470. Higher dimensional and complex dynamics. Lorenz map, Henon map, toral automorphisms, stable and unstable manifolds, strange attractors, quadratic maps of the complex plane, Julia sets, Mandelbrot set.

MATH 5500 INTRODUCTION TO TOPOLOGY (3) LEC. 3. Pr. MATH 3100. Departmental approval. Metric spaces, topological spaces, continuity, compactness, connectedness, product and quotient spaces and local properties.

MATH 5620 MATHEMATICAL COMPUTATION AND SCIENTIFIC VISUALIZATION (3) LEC. 3. Pr. MATH 2650. and a programming language, or departmental approval. An introduction to the computational modeling process, numerical programming tools for large-scale scientific computation, parallel and cluster computing, and to scientific visualization techniques.

MATH 5640 INTRODUCTION TO NUMERICAL ANALYSIS II (3) LEC. 3. Pr. MATH 2660. Programming ability. Numerical solutions of systems of linear equations, numerical computation of eigenvalues and eigenvectors, error analysis. Written programs using the algorithms.

MATH 5650 THEORY OF NONLINEAR OPTIMIZATION (3) LEC. 3. Pr. MATH 2650 and MATH 2660. Kuhn-Tucker conditions, quadratic programming, search methods and gradient methods, Lagrangean and penalty function methods.

MATH 5670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both MATH 5670 and STAT 5670.

MATH 5680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 5670 or STAT 5670. Multivariate distributions. Central Limit Theorem, Laplace transforms, convolutions, simulation, renewal processes, Continuous-time Markov Chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both MATH 5680 and STAT 5680.
MATH 5690 INTRODUCTION TO CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Stochastic properties of random phenomena in computational complexity, data analysis, chaotic nonlinear systems. Computer simulation and experimenting within Mathematica, supported by Internet resources. Credit will not be given for both MATH 5690 and STAT 5690. Basic programming.

MATH 5730 ENUMERATION (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Using generating functions and Polya theory to do sophisticated counting. Permutations and combinations, inclusion-exclusion, partitions, recurrence relations, group actions, Polya theory with applications.

MATH 5770 COMBINATORIAL DESIGNS (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Latin squares, mutually orthogonal latin squares, orthogonal and perpendicular arrays, Steiner triple systems, block designs, difference sets and finite geometries.

MATH 5810 ACTUARIAL MATHEMATICS II (3) LEC. 3. Pr. MATH 5800. A development of the mathematical theory of life insurance and annuities. Utility functions, mortality models, life tables, insurance plans, premiums.

MATH 5840 FOUNDATIONS OF NUMBER THEORY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. Divisibility, Diophantine equations, congruencies.

MATH 5850 NUMERICAL ANALYSIS FOR SECONDARY TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. The numerical solutions of selected problems arising in calculus and algebra along with the programming techniques. Computer familiarity.

MATH 5860 FOUNDATIONS OF NON-EUCLIDEAN GEOMETRY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637 or MATH 2730. B.L. geometry, hyperbolic geometry, absolute geometry, parallel postulates.

MATH 5870 FINANCIAL MATHEMATICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and (MATH 1620 or MATH 1623 or MATH 1627) and MATH 2650 and STAT 3600. Options and spreads, pricing of such options in accordance with the Black-Scholes Equation, and the binomial pricing model.

MATH 5970 SPECIAL TOPICS (1-3) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 3 credit hours.

MATH 6000 MATHEMATICAL MODELING: CONTINUOUS (3) LEC. 3. Introduction to mathematical models and related techniques. Includes general principles involving continuous deterministic problems and a detailed, specific term-project. Programming ability.

MATH 6030/6036 COMPLEX VARIABLES WITH APPLICATIONS I (3) LEC. 3. Complex functions and their elementary mapping properties; contour integration and residues; Laurent series; applications to real integrals. MATH 6030-6040 are appropriate for students of engineering or science.

MATH 6040 COMPLEX VARIABLES WITH APPLICATIONS II (3) LEC. 3. Pr. MATH 6030 or MATH 6036. Linear fractional transformations; conformal mappings; harmonic functions; applications to boundary value problems; analytic continuation; entire functions. MATH 6030-6040 are appropriate for students of engineering or science.

MATH 6050 MATRIX THEORY AND APPLICATIONS (3) LEC. 3. Canonical forms, determinants, linear equations, eigenvalue problems.
MATH 6060 ELEMENTARY PARTIAL DIFFERENTIAL EQUATIONS (3) LEC. 3. First and second order linear partial differential equations with emphasis on the method of eigenfunction expansions.

MATH 6120 INFORMATION THEORY (3) LEC. 3. Information and entropy, information rate optimization and channel capacity, variable-length codes, data compression (Kraft-McMillan inequality, Huffman's algorithm), maximum likelihood decoding, Shannon's Noisy Channel Theorem.

MATH 6130 CALCULUS OF VARIATION (3) LEC. 3. Pr. MATH 2650. Fundamental concepts of extrema functions and functionals; first and second generalizations; sufficient conditions; constrained functionals; the general Legendre problem; optimal control.

MATH 6140 DATA COMPRESSION (3) LEC. 3. Lossless compression methods, including static, dynamic, and higher order Huffman and arithmetic encoding, interval and recency rank encoding, and dictionary methods; lossy transform methods (JPEG).

MATH 6150/6156 ALGEBRAIC CODING THEORY (3) LEC. 3. Linear codes, Hamming and Golay codes, BCH codes, cyclic codes. Random error detection and correction. Burst-error correction. Decoding algorithms. Credit will not be given for both MATH 5150 and MATH 6150/6156.

MATH 6180 CRYPTOGRAPHY (3) LEC. 3. Classical cryptosystems, the Data Encryption Standard, one-way functions and relevant number theoretic problems (factoring, primality testing, discrete logarithm problem), RSA and other public key cryptosystems.

MATH 6190 INTRODUCTION TO APPROXIMATION THEORY (3) LEC. 3. Pr. MATH 2650. Approximation of functions by polynomials, spline functions or trigonometric function, expansions in series.

MATH 6200 ANALYSIS I (3) LEC. 3. or equivalent course, subject to departmental approval. Real numbers, infima and suprema; sequences and series of real numbers, convergence and limits, Cauchy sequences and completeness; topology of the real line, Bolzano-Weierstrass and Heine-Borel theorems; real-valued functions of a real variable, continuity and uniform continuity; intermediate-value and extreme-value theorems. Emphasis on proofs.

MATH 6210 ANALYSIS II (3) LEC. 3. Pr. MATH 6200. Sequences and series of functions, modes of convergence, power series, elementary functions; derivatives and power series, elementary functions; derivatives and antiderivatives, the mean-value theorem; Riemann integration and the Fundamental Theorem of Calculus; R^n and abstract spaces, functions of several variables. Emphasis on proofs.

MATH 6250 SYSTEMS OF DIFFERENTIAL EQUATIONS AND APPLICATIONS (3) LEC. 3. Linear systems of differential equations, stability, phase portraits; non-linear systems, linearization, qualitative properties of orbits, Poincare-Bendixson Theorem; numerical methods; applications.

MATH 6300 THEORY OF DIFFERENCE EQUATIONS (3) LEC. 3. Linear difference equations, initial value problems, Green's functions, boundary value problems, systems, periodic solutions, nonlinear difference equations, models.

MATH 6310 INTRODUCTION TO ABSTRACT ALGEBRA I (3) LEC. 3. Departmental approval. Groups, Groups of Permutations, isomorphisms and homomorphisms; Cyclic Groups, Quotient Groups, The Fundamental Homomorphism Theorem.

MATH 6320 INTRODUCTION TO ABSTRACT ALGEBRA II (3) LEC. 3. Pr. MATH 6310. Theory of rings and fields, Ideals and Homomorphisms, Quotient Rings, Rings of Polynomials, Extensions of Fields, and Galois Theory.

MATH 6330 COMPUTATIONAL ALGEBRA (3) LEC. 3. Pr. MATH 6310. Introduction to computation in multivariate polynomial rings and finite fields. Topics include Groebner bases, Buchberger's Algorithm, kinematic/robotics problems, and symbolic manipulation software.

MATH 6370 LINEAR ALGEBRA (3) LEC. 3. Introduction to the theoretical foundations of Linear Algebra Algebra including vector spaces, basis, dimension, linear transformations, fundamental subspaces matrix representations, eigenvalues, eigenspaces.
MATH 6380 INTERMEDIATE EUCLIDEAN GEOMETRY I (3) LEC. 3. Fundamental concepts and theorems of Euclidean geometry, introduction to higher dimensions. Regular polygons and polyhedra, symmetry groups, convexity, geometric extremum problems. Geometric transformations and their invariants.

MATH 6390 INTERMEDIATE EUCLIDEAN GEOMETRY II (3) LEC. 3. Pr. MATH 6380. Planar graphs and Euler's theorem. The symmetry group of a set, homotheties and similitudes, path, arcs and length of curves, and advanced theorems on the circle.

MATH 6460/6466 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2660. Departmental approval. Analytical solutions of nonlinear problems, ODES, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

MATH 6470 DYNAMICAL SYSTEMS I (3) LEC. 3. Pr. MATH 2650. One dimensional dynamics. The logistic equation, bifurcation theory, chaos, hyperbolicity, symbolic dynamics, Sarkovskii's Theorem, maps of the circle, homoclinic points and the theory of kneading sequences.

MATH 6480 DYNAMICAL SYSTEMS II (3) LEC. 3. Pr. MATH 6470. Higher dimensional and complex dynamics. Lorenz map, Henon map, toral automorphisms, stable and unstable manifolds, strange attractors, quadratic maps of the complex plane, Julia sets, Mandelbrot set.

MATH 6500 INTRODUCTION TO TOPOLOGY (3) LEC. 3. Departmental approval. Metric spaces, topological spaces, continuity, compactness, connectedness, product and quotient spaces and local properties.

MATH 6620 MATHEMATICAL COMPUTATION AND SCIENTIFIC VISUALIZATION (3) LEC. 3. An introduction to the computational modeling process, numerical programming tools for large-scale scientific computation, parallel and cluster computing, and to scientific visualization techniques.

MATH 6640/6646 INTRODUCTION TO NUMERICAL ANALYSIS II (3) LEC. 3. Numerical solutions of systems of linear equations, numerical computation of eigenvalues and eigenvectors, error analysis. Written programs using the algorithms. Programming ability.

MATH 6650 THEORY OF NONLINEAR OPTIMIZATION (3) LEC. 3. Kuhn-Tucker conditions, quadratic programming, search methods and gradient methods, Lagrangean and penalty function methods.

MATH 6670/6676 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both MATH 6670 and STAT 6670.

MATH 6680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676. Multivariate distributions. Central Limit Theorem, Laplace transforms, convolutions, simulation, renewal processes, Continuous-time Markov Chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both MATH 6680 and STAT 6680.

MATH 6690 INTRODUCTION TO CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Stochastic properties of random phenomena in computational complexity, data analysis, chaotic nonlinear systems. Computer simulation and experimenting within Mathematica, supported by Internet resources. Credit will not be given for both MATH 6690 and STAT 6690.

MATH 6710 LINEAR OPTIMIZATION (3) LEC. 3. Theory and algorithms for standard linear optimization problems. Simplex algorithm and duality, shortest paths, network flows, min-cost flows and circulations, out-of-kilter method, assignments and matchings.

MATH 6730 ENUMERATION (3) LEC. 3. Using generating functions and Polya theory to do sophisticated counting. Permutations and combinations, inclusion-exclusion, partitions, recurrence relations, group actions, Polya theory with applications.

MATH 6750 GRAPH THEORY (3) LEC. 3. Algorithmic and theoretical aspects of graph theory: matchings, colorings, scheduling problems, Hamilton cycles, Euler tours, spanning trees, network reliability, connectivity, extremal graphs, planar graphs, disjoint paths.

MATH 6770 COMBINATORIAL DESIGNS (3) LEC. 3. Latin squares, mutually orthogonal latin squares, orthogonal and perpendicular arrays, Steiner triple systems, block designs, difference sets and finite geometries.

MATH 6810 ACTUARIAL MATHEMATICS II (3) LEC. 3. Pr. MATH 6800. A development of the mathematical theory of life insurance and annuities. Utility functions, mortality models, life tables, insurance plans, premiums.

MATH 6840 FOUNDATIONS OF NUMBER THEORY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Divisibility, Diophantine equations, congruencies.

MATH 6850 NUMERICAL ANALYSIS FOR SECONDARY TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637. The numerical solutions of selected problems arising in calculus and algebra along with the programming techniques. Computer familiarity.

MATH 6860 FOUNDATIONS OF NON-EUCLIDEAN GEOMETRY FOR SECONDARY SCHOOL TEACHERS (3) LEC. 3. Pr. MATH 2630 or MATH 2637. B.L. geometry, hyperbolic geometry, absolute geometry, parallel postulates.

MATH 6870 FINANCIAL MATHEMATICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and (MATH 1620 or MATH 1623 or MATH 1627) and MATH 2650 and STAT 3600. Options and spreads, pricing of such options in accordance with the Black-Scholes Equation, and the binomial pricing model.

MATH 6970/6976 SPECIAL TOPICS (1-3) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 3 credit hours.

MATH 7010/7016 APPLIED MATHEMATICS II (3) LEC. 3. Pr. MATH 7000 or MATH 7006. Calculus of variations, asymptotic expansions, Spectral theory, Fourier transform, Partial differential equations, transform methods and eigenfunction expansions, vibrations, diffusion processes, equilibrium states, Green's functions, boundary layer problems.

MATH 7040/7046 APPROXIMATION THEORY I (3) LEC. 3. Departmental approval. Introduction and theory of some of the important methods of approximation. Includes uniform approximation, best approximation, best trigonometric approximation.

MATH 7050/7056 APPROXIMATION THEORY II (3) LEC. 3. Pr. MATH 7040 or MATH 7046. Least square approximation and rational approximation, and advanced topics of current interest.

MATH 7070 INTERPOLATION I (3) LEC. 3. Departmental approval. Techniques of approximation by interpolation, rates of convergence and methods of estimating error. Simultaneous approximation of functions and their derivatives; spline function interpolation; curve and surface fitting.

MATH 7100 SPECIAL FUNCTIONS (3) LEC. 3. Departmental approval. Special functions from classical complex analysis which play an important role in the mathematics of physics, chemistry, and engineering.

MATH 7130 TENSOR ANALYSIS (3) LEC. 3. Departmental approval. Manifolds, differential structure, vector and tensor fields, vector and tensor bundles, differential forms, chains. elements of differential geometry, advanced topics.

MATH 7140 INTRODUCTION TO MODEL THEORY (3) LEC. 3. Departmental approval. First-order languages, Satisfaction. Consequences. The completeness and compactness theorems, models constructed from constants. Elementary substructures and embeddings, Lowenheim-Skolem-Tarskj theorems. Ultraproducts and ultrapowers.

MATH 7150 AXIOMATIC SET THEORY I (3) LEC. 3. Departmental approval. Introduction to modern set theory. The axioms of ZFC, ordinals and cardinals, closed unbounded sets, the constructible universe L, Martin's Axiom.
MATH 7160 AXIOMATIC SET THEORY II (3) LEC. 3. Pr. MATH 7150. Introduction to forcing, independence results, iterated forcing, consistency of Martin's Axiom.

MATH 7170 ALGORITHMS DISCRETE OPTIMIZATION (3) LEC. 3. Pr. MATH 6750. Theory and practice of discrete algorithms: complexity class classes, reductions, approximate algorithms, greedy algorithms, search techniques, heuristics, randomized algorithms, and numeric algorithms.

MATH 7200 REAL ANALYSIS I (3) LEC. 3. Departmental approval. Sigma algebras, measures, measurable functions, integratability, properties of Lebesgue measure, density, Lusin's theorem, Egeroff's theorem, product measures, Fubini's theorem. Limit theorems involving pointwise convergence and integration.

MATH 7230 FUNCTIONS OF A COMPLEX VARIABLE I (3) LEC. 3. Departmental approval. Complex numbers, analytic functions, derivatives, Cauchy integral theorem and formulae, Taylor and Laurent series, analytic continuation, residues, maximum principles, Riemann surfaces.

MATH 7240 FUNCTIONS OF A COMPLEX VARIABLE II (3) LEC. 3. Pr. MATH 7230. Conformal mappings, families of analytic functions and harmonic analysis.

MATH 7280 ADVANCED THEORY OF ORDINARY DIFFERENTIAL EQUATIONS I (3) LEC. 3. Departmental approval. Existence and continuation theorems for ordinary differential equations, continuity and differentiability with respect to initial conditions, linear systems, differential inequalities, Sturm theory.

MATH 7310 ALGEBRA I (3) LEC. 3. Departmental approval. Groups, Lagrange's Theorem, normal subgroups, factor groups, Isomorphism and Correspondence Theorems. Symmetric groups, alternating groups, free groups, torsion groups. Introduction to rings, correspondence theorems.

MATH 7320 ALGEBRA II (3) LEC. 3. Pr. MATH 7310. Rings, modules, vector spaces, and semi-simple modules. Commutative rings; prime and primary ideals, PIDs are UFD, factorizations in integral domains, field extensions, the Galois Correspondence Theorem.

MATH 7330 LINEAR REPRESENTATIONS OFFINITE GROUPS (3) LEC. 3. Pr. MATH 7320. Maschke's Theorem, characters, orthogonality relations, induced modules, Frobenius reciprocity, Clifford's Theorem, Mackey's Subgroup Theorem, Burnside's theorem on solvability.

MATH 7340 RING THEORY (3) LEC. 3. Pr. MATH 7320. Topics on: commutative rings (Cohen-Seidenberg theorems, Krull Intersection Theorem, Dedekind domains), or noncommutative rings (projective modules over Artinian algebras, representation type, Noether-Skolem Theorem, division algebras).

MATH 7350 ABELIAN GROUPS (3) LEC. 3. Pr. MATH 7320. Torsion groups: Decompositions, Ulm's theorem, uniqueness theorem for Axion 3 groups, Torsion-free groups: Completely decomposable groups, Butler groups, p-local groups, Warfield groups, splitting criteria. Homological topics.

MATH 7360 LIE ALGEBRA (3) LEC. 3. Pr. (MATH 5370 or MATH 6370) or (MATH 5320 or MATH 6320). General introduction of Lie algebras including their structures and classifications of semisimple Lie algebras.

MATH 7370 MATRICES I (3) LEC. 3. Departmental approval. Jordan form, functions of a matrix, spectral theorem, singular values, norms, quadratic forms, field of values, inertia; topics of current interest.
MATH 7380 MATRICES II (3) LEC. 3. Pr. MATH 7370. Matrix stability and inertia, inequalities for matrix eigenvalues and singular values, The Kronecker and Hadamard matrix products, the exponential and logarithm matrix map; topics of current interest.

MATH 7390 MULTILINEAR ALGEBRA (3) LEC. 3. Pr. MATH 5370 or MATH 6370. Multilinear algebra, symmetry class of tensors, induced operators, generalized matrix functions, and current research topics.

MATH 7440 PARTIAL DIFFERENTIAL EQUATIONS I (3) LEC. 3. Departmental approval. Second order linear elliptic and hyperbolic equations stressing non-linear and numerical problems, characteristics domains of dependence, energy integrals, finite difference schemes, Sobolev spaces, maximum principle.

MATH 7450 PARTIAL DIFFERENTIAL EQUATIONS II (3) LEC. 3. Pr. MATH 7440. Parabolic and hyperbolic equations, stressing numerical problems, characteristics, domains of dependence, energy integrals, reaction-diffusion problems, Navier-Stokes equations, fixed-point and Galerkin methods.

MATH 7470 NUMBERS AND OPERATIONS FOR ELEMENTARY TEACHERS (3) LEC. 3. Certified Elementary Teacher or Degree in Elementary/Early Education or departmental approval. Develop a deep understanding of the base ten place value system and the operations and algorithms used with this system.

MATH 7480 MEASUREMENT AND GEOMETRY FOR ELEMENTARY TEACHERS (3) LEC. 3. Certified Elementary Teacher or Degree in Elementary/Early Education or departmental approval. Develop a deep understanding of topics in measurement, 2-D and 3-D geometry needed for teaching elementary school students.

MATH 7490 DATA, STATISTICS AND FUNCTIONS FOR ELEMENTARY TEACHERS (3) LEC. 3. Certified Elementary Teacher or Degree in Elementary/Early Education or departmental approval. Develop a deep understanding of topics in data analysis, probability, statistics and algebra needed for teaching elementary school students.

MATH 7500 TOPOLOGY I (3) LEC. 3. Departmental approval. Separation and countability axioms, covering properties, completeness, connectedness, metric spaces and metrizability, product and quotient spaces, function spaces.

MATH 7510 TOPOLOGY II (3) LEC. 3. Pr. MATH 7500. Homotopy, elementary properties of retracts, fundamental groups, covering spaces, computations of fundamental groups.

MATH 7530 CONTINUUM THEORY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Topics such as inverse limits, decompositions, hyperspaces, special mappings, topological structures from the pathological (indecomposable continua), to the straightforward (Peano continua).

MATH 7540 CONTINUUM THEORY II (3) LEC. 3. Pr. MATH 7530. Topics in continuum theory such as confluent mappings, epsilon mappings, chains, to-the-boundary theorems, relationship to inverse limits, advanced topics.

MATH 7550 SET THEORETIC TOPOLOGY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Compactifications, covering properties, metrization theorems and generalized metrizable spaces, topological groups.

MATH 7560 SET THEORETIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7550. Topological Groups, Cardinal invariants, use of set-theoretic axioms such as Martin's Axiom, independence results, advanced topics.

MATH 7570 EUCLIDEAN TOPOLOGY I (3) LEC. 3. Pr. MATH 7510. An introduction to concepts basic in algebraic and geometric topology through the study of simple objects such as polyhedra, manifolds, retracts, and the Brouwer fixed point theorem.
MATH 7580 EUCLIDEAN TOPOLOGY II (3) LEC. 3. Pr. MATH 7570. Further study of basic geometric topology. Retracts, absolute neighborhood retracts, maps into spheres, invariance of domain.

MATH 7600/7606 ADVANCED NUMERICAL MATRIX ANALYSIS (3) LEC. 3. Departmental approval. Topics selected from: discretization matrices, sparse matrices, QR-algorithm, symmetric eigenvalue problems, singular value decomposition, pseudo-inverses, simplex method, matrix algorithms for vector computers.

MATH 7610/7616 NUMERICAL SOLUTION OF PARTIAL DIFFERENTIAL EQUATIONS (3) LEC. 3. Departmental approval. The numerical solution of partial differential equations using finite difference and finite element methods.

MATH 7620 OPTIMIZATION THEORY (3) LEC. 3. Unconstrained problems: basic descent, conjugate gradient and quasi-Newton methods. Constrained problems: gradient projection, penalty, cutting plane and Lagrange methods. Credit will not be given for both MATH 7620 and INSY 8420. An ability to program in high-level language.

MATH 7650 HARMONIC ANALYSIS I (3) LEC. 3. Departmental approval. Fourier series, Fourier transforms, maximal functions, singular integral theory, introduction to function spaces.

MATH 7660 HARMONIC ANALYSIS II (3) LEC. 3. Pr. MATH 7650. Function spaces and interpolation, Calderon's reproducing formulas, wavelets, frames, connections to function spaces applications.

MATH 7680/7686 ADVANCED TOPICS IN NUMERICAL ANALYSIS (3) LEC. 3. Departmental approval. Topics include: sparse systems of equations, parallel and vector algorithms, nonlinear and singular partial differential equations, calculation of eigenvalues and eigenvectors, pseudo-random numbers, filtering techniques.

MATH 7700 ADVANCED GRAPH THEORY (3) LEC. 3. Algorithmic, enumerative and theoretical aspects of graph theory: matchings and factors, colorings, Hamiltonicity, connectivity, trees, external graphs, planarity. May count either MATH 6750 or MATH 7700.

MATH 7710 COMPUTATIONAL GEOMETRY (3) LEC. 3. Departmental approval. Design and time-complexity of computer algorithms for geometry problems studying the geometric ideas needed for computer-aided design, computer graphics and robotics.

MATH 7720 INTRODUCTION TO CODING THEORY (3) LEC. 3. Introduction to methods and algorithms for reliable communications through error control coding. BCH, Reed-Solomon, Reed-muller codes, convolutional codes, Berlekamp-Massey, Viterbi, and iterated decoding algorithms.

MATH 7730 ADVANCED TOPICS IN CODING THEORY (3) LEC. 3. Pr. MATH 7720. Departmental approval. Structure and theoretical properties of codes and related algorithms. Relations to other combinatorial and algebraic objects stressed.

MATH 7740 ADVANCED COMBINATORIAL DESIGNS (3) LEC. 3. Topics of current interest and research in combinatorial design theory. Areas included: latin squares, embeddings, Wilson's constructions, quadruple systems, Hadamard designs, graph designs, orthogonal arrays.

MATH 7750 ADVANCED TOPICS IN GRAPH THEORY (3) LEC. 3. Pr. MATH 6750. Topics of current interest and recent research in graph theory. May include edge colorings, algebraic graph theory, network flows, factor theory.

MATH 7760 INTRODUCTION TO ALGEBRAIC TOPOLOGY I (3) LEC. 3. Pr. MATH 7510. Departmental approval. Homology of chain complexes, the axioms of homology and their verification, computations of homology groups.

MATH 7770 INTRODUCTION TO ALGEBRAIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7760. Homology with coefficients and universal coefficient theorem theorems, Cohomology and universal coefficient theorems, homology of products of spaces, cup and cap products, duality in manifolds.

MATH 7780 ADVANCED ALGEBRAIC TOPOLOGY I (3) LEC. 3. Departmental approval. Advanced topics in homology, cohomology, and duality with relations to and further study of homotopy theory. Applications to and further study of manifolds and geometric topology.

MATH 7790 ADVANCED ALGEBRAIC TOPOLOGY II (3) LEC. 3. Pr. MATH 7780. Continuation of MATH 7780; advanced topics in homology, cohomology, and duality with relations to and further study of homotopy theory. Applications to and further study of manifolds and geometric topology.

MATH 7800 PROBABILITY I (3) LEC. 3. Pr., a full year of undergraduate mathematical analysis at a level commensurate with MATH 5200/5210. Measure-theoretic foundations, independence, conditioning, martingales, Markov property, stationarity, random walks, Markov chains, Poisson processes.
MATH 7810/7816 PROBABILITY II (3) LEC. 3. Pr. MATH 7800. Classical and modern topics in stochastic processes (Markov chains, Poisson process, Brownian motion). Applications and stochastic models (queues, stationary processes, population dynamics, finances). Credit will not be given for both MATH 7810 and STAT 7810.

MATH 7820/7826 APPLIED STOCHASTIC PROCESSES I (3) LEC. 3. Classical and modern topics in stochastic processes (Markov processes, Random Walks, Martingales, Brownian motion). Introduction to stochastic integrals and differential equations. Applications (queues, population dynamics, chaos, finances). Credit will not be given for both MATH 7820 and STAT 7820.

MATH 7870 REAL FUNCTIONS AND DESCRIPTIVE SET THEORY I (3) LEC. 3. Pr. MATH 7210 or MATH 7500. Borel classification of sets, the Baire classification of real functions. Derivatives and approximately continuous functions. The Lebesgue density topology.

MATH 7950 SEMINAR (1-3) SEM. SU. Course may be repeated for a maximum of 6 credit hours.

MATH 7960 SPECIAL PROBLEMS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 10 credit hours.

MATH 7970 SPECIAL TOPICS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated with change in topics.

MATH 7980 RESEARCH AND SPECIAL PROJECT IN APPLIED MATHEMATICS (1-10) RES. SU. Departmental approval. For students working on the Master of Applied Mathematics degree with concentration in numerical analysis. Course may be repeated for a maximum of 10 credit hours.

MATH 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

MATH 8310 HOMOLOGICAL ALGEBRA I (3) LEC. 3. Pr. MATH 7320. Departmental approval. Homology and cohomology. Hom and Tensor functors; the adjoint isomorphisms, injective/projective modules, flat modules, the classification of certain rings using homological tools.

MATH 8320 HOMOLOGICAL ALGEBRA II (3) LEC. 3. Pr. MATH 8310. Localizations of modules, nonsingular rings and modules, the Goldie dimension, homological classification of modules; Whitehead modules, reflexive modules, R-modules as modules over their rings of endomorphisms.

MATH 8330 INTRODUCTION TO LIE GROUPS (3) LEC. 3. Pr. MATH 7310 or MATH 7370. Introduce Lie groups via matrix groups. Topics include exponential map, Lie algebras, classical groups, structures and classifications, manifolds, representations.

MATH 8400 ADVANCED FUNCTIONAL ANALYSIS I (3) LEC. 3. Pr. MATH 7210 and MATH 7400. Topics concerning bounded and unbounded linear operators in Banach and Hilbert spaces; theory of distributions and topological vector spaces with applications, current research.

MATH 8410 ADVANCED FUNCTIONAL ANALYSIS II (3) LEC. 3. Pr. MATH 8400. Topics from the theory of bounded and unbounded linear opera operators in Banach and Hilbert spaces; elements of nonlinear functional analysis, topics of current research interest.

MATH 8600 ADVANCED PROBABILITY I (3) LEC. 3. Processes, distributions, independence, Random sequences, series, averages, characteristic functions. Classical limits theorems, conditioning. Some experience with graduate level mathematics, preferably in the areas of analysis and topology.

MATH 8610 ADVANCED PROBABILITY II (3) LEC. 3. Pr. MATH 8600. Martingales, Markov chains, random walks, renewal theory, Poisson processes and ergodic theory.

MATH 8630 ADVANCED STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 8610. Gaussian processes, Brownian motion, invariance principles, convergence of random processes, measures and sets, stochastic integrals and quadratic variation.
MATH 8640 ADVANCED STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 8630. Continuous martingales and Brownian motion, stochastic differential equations and martingale problems, local time, excursions, one-dimensional SDE's and diffusions.

MATH 8700 FINITE GEOMETRY I (3) LEC. 3. Pr. MATH 5370. Projective and affine spaces over finite fields. Inversive planes. Relationship with linear algebra over finite fields and permutation groups. Applications to combinatorial designs.

MATH 8710 FINITE GEOMETRY II (3) LEC. 3. Pr. MATH 8700. Projective and affine spaces over finite fields. Inversive planes. Relationship with linear algebra over finite fields and permutation groups. Applications to combinatorial designs.

MATH 8960 SPECIAL PROBLEMS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 15 credit hours.

MATH 8970 SPECIAL TOPICS (1-10) IND. Departmental approval. Topics may vary as needed. Course may be repeated for a maximum of 15 credit hours.

MATH 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Statistics Courses

STAT 2010 STATISTICS FOR SOCIAL AND BEHAVIOR SCIENCES (4) LEC. 3. LAB. 2. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617. Introduction to basic principles of statistical reasoning and statistical procedures used in data analysis in the social and behavioral sciences.

STAT 2017 HONORS STATISTICS FOR SOCIAL AND BEHAVIORAL SCIENCES (4) LEC. 3. LAB. 2. Pr. Honors College Introduction to statistical data analysis, statistical packages, and APA-style statistical reporting use in research in Psychology and other social and behavioral sciences.

STAT 2510/2513 STATISTICS FOR BIOLOGICAL AND HEALTH SCIENCES (3) LEC. 3. Pr. MATH 1100 or MATH 1120 or MATH 1123 or MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617. Introduction to statistical concepts, reasoning and methods used in data analysis, descriptive statistics, sampling distributions, statistical inference, confidence intervals, regression or correlation, contingency tables. Students who have previous credit in any higher-numbered math course may not receive credit.

STAT 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. MATH 1680 or MATH 1683 or P/C COMP 1000 or COMP 1003. Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results. Minimum 2.0 overall cumulative undergraduate GPA.

STAT 2610 STATISTICS FOR BUSINESS AND ECONOMICS (3) LEC. 3. Pr. MATH 1690. Introduction to statistical analysis, theory, and interpretation used in business and economics.

STAT 2710 STATISTICAL COMPUTING (1) LEC. 1. Pr. (P/C STAT 2010 or P/C STAT 2017) and (P/C STAT 2510 or STAT 2513) and P/C STAT 2610 and P/C STAT 3010. Introduction to basic statistical computing programs and methods.

STAT 3010 STATISTICS FOR ENGINEERS AND SCIENTISTS (3) LEC. 3. Pr. MATH 1610 or MATH 1613 or MATH 1617 or MATH 1710. Introduction to statistical methods and analysis used in engineering and science.

STAT 3600 PROBABILITY AND STATISTICS I (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627 or MATH 1720. Calculus-based introduction to probability and statistics with an emphasis on practical problem-solving.

STAT 3610 PROBABILITY AND STATISTICS II (3) LEC. 3. Pr. STAT 3600. Departmental approval. Continuation of STAT 3600.

STAT 3611 PROBABILITY AND STATISTICS II LABORATORY (1) LAB. 2. Departmental approval. The application of statistical techniques from STAT 3610.

STAT 4020 INTERMEDIATE STATISTICAL METHOD (3) LEC. 3. Pr. STAT 3010. Departmental approval. Two-way ANOVA; experimental design; contingency tables; multiple regression techniques; modeling building; introductory non-parametric methods; goodness-of-fit tests.

STAT 4610 APPLIED REGRESSION ANALYSIS (3) LEC. 3. Pr. STAT 3610 or STAT 3010. Least squares estimation, hypothesis testing and confidence interval estimation in regression; simple, polynomial and multiple linear regression; residual and lack-of-fit analysis; use of dummy variables; multiple and partial correlation analysis; model building algorithms and model comparisons; transformations.
STAT 4620 APPLIED NONPARAMETRIC STATISTICS (3) LEC. 3. Review of elementary probability; goodness-of-fit tests; for singles and several location parameters; tests for scale parameters; distribution tests; measures of association; bootstrap and permutation tests.

STAT 4630 APPLIED TIME-SERIES ANALYSIS (3) LEC. 3. ARIMA models: the autoregressive process, the moving average process, and the ARMA process; forecasting, errors and confidence intervals, updating forecast models; estimation; model building and assessment; applications in econometrics.

STAT 4970 SPECIAL TOPICS IN STATISTICS (1-3) LEC. Departmental approval. Special topics designed to meet the needs and interest of students. Course may be repeated for a maximum of 6 credit hours.

STAT 5110 SAS PROGRAMMING AND APPLICATIONS (3) LEC. 3. Pr. STAT 3010 or STAT 3610. Emphasis is placed on using SAS routines to obtain statistical analyses for common statistical methods and interpreting output.

STAT 5330 DATA BASED DECISION MAKING USING SIX SIGMA (3) LEC. 3. Pr. STAT 3610 and INSY 4330. Departmental approval. Covers statistical tools needed for implementation of "Six Sigma", "Learn Six Sigma" and "Design for Six Sigma". Credit will not be given for both STAT 5330 and STAT 6330/6336.

STAT 5630 SAMPLE SURVEY, DESIGN AND ANALYSIS (3) LEC. 3. Pr. STAT 3600. Departmental approval. Estimation of means, proportions, finite populations, stratified sampling, systematic sampling ratio estimations.

STAT 5670 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both STAT 5670 and MATH 5670.

STAT 5680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. STAT 5670 or MATH 5670. Multivariate distributions, Central Limit Theorem, Laplace transforms, convolutions, simulations, renewal processes Continuous-time Markov chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both STAT 5680 and MATH 5680.

STAT 5690 CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Statistics and modeling of random phenomena in connection to computational complexity, data analysis, processes of chance and chaotic nonlinear systems. Credit will not be given for both STAT 5690 and MATH 5690.

STAT 6110 SAS PROGRAMMING AND APPLICATIONS (3) LEC. 3. Pr. STAT 3010 or STAT 3610 or P/C STAT 7000. Emphasis is placed on using SAS routines to obtain statistical analyses for common statistical methods and interpreting output.

STAT 6330/6336 DATA BASED DECISION MAKING USING SIX SIGMA (3) LEC. 3. Pr. STAT 3610 and INSY 4330. Departmental approval. Covers statistical tools needed for implementation of "Six Sigma", "Learn Six Sigma" and "Design for Six Sigma". Credit will not be given for both STAT 5330 and STAT 6330/6336.

STAT 6630 SAMPLE SURVEY, DESIGN AND ANALYSIS (3) LEC. 3. Pr. STAT 3600. Departmental approval. Estimation of means, proportions, finite populations, stratified sampling systematic sampling ratio estimations.

STAT 6670/6676 PROBABILITY AND STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 2630 or MATH 2637. Random variables, discrete and absolutely continuous distributions. Poisson process, expectation and conditional expectation. Moment generating functions, limit distributions. Emphasis on probabilistic reasoning and problem solving. Credit will not be given for both STAT 5670 and MATH 6670.

STAT 6680 PROBABILITY AND STOCHASTIC PROCESSES II (3) LEC. 3. Pr. MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676. Multivariate distributions, Central Limit Theorem, Laplace transforms, convolutions, simulations, renewal processes Continuous-time Markov chains, Markov renewal and semi-regenerative processes, Brownian motion and diffusion. Credit will not be given for both STAT 6680 and MATH 6680.

STAT 6690 CHAOTIC AND RANDOM PHENOMENA (3) LEC. 3. Pr. MATH 1620 or MATH 1623 or MATH 1627. Statistics and modeling of random phenomena in connection to computational complexity, data analysis, processes of chance and chaotic nonlinear systems. Credit will not be given for both STAT 6690 and MATH 6690.

STAT 7000 EXPERIMENTAL STATISTICS I (4) LEC. 4. Departmental approval. Paired and independent sample t-tests, ANOVA, F-tests, contrasts, tests for trends, multiple comparisons, CR and RCB designs of experiments, regression.
STAT 7010 EXPERIMENTAL STATISTICS II (3) LEC. 3. Pr. STAT 7000. Advanced topics in experimental design: writing linear models for experiment-expected mean squares, variance components, nested designs, Latin Square Designs, split plot designs, ANOVA and multiple regression.

STAT 7020 REGRESSION ANALYSIS (3) LEC. 3. Pr. STAT 7000. Departmental approval. Introduction to the method of least squares as it applies to regression and analysis of variance. Simple linear regression, multiple regression, model selection and diagnostics.

STAT 7030 CATEGORICAL DATA ANALYSIS (3) LEC. 3. Pr. STAT 3600 or MATH 3600 or STAT 7000. Departmental approval. Methods for analysis of categorical response data. Topics include Chi-square tests, Likelihood Ratio tests, Logistic Regression, and Loglinear Modeling.

STAT 7040 BIOSTATISTICS (3) LEC. 3. Pr. STAT 7000. Departmental approval. Epidemiology, biometry, methods of survival analysis.

STAT 7100 STATISTICAL ANALYSIS OF SURVEY, AGGREGATE AND LARGE DATA SOURCES (3) LEC. 3. Pr. STAT 2010 or STAT 2017. Departmental approval. Techniques commonly used in multivariate statistical analysis of data sources such as surveys, archival records, and other large data sets. Credit will not be given for STAT 7100 and SOCY 7100.

STAT 7270 EXPERIMENTAL DESIGN IN PSYCHOLOGY (4) LEC. 4. Pr. STAT 7000 and STAT 7020. Introduction to the analysis of data collected under differential experimental designs. Credit will not be given for both STAT 7270 and PSYC 7270.

STAT 7300/7306 ADVANCED ENGINEERING STATISTICS I (3) LEC. 3. Pr. STAT 3610. Departmental approval. Advanced concepts of experimental design including blocking, regression approach to analysis of variance, fractional factorials in base-2, and base-3 designs. Emphasis throughout is on improving industrial products and processes. Credit will not be given for both STAT 7300 and INSY 7300.

STAT 7310/7316 ADVANCED ENGINEERING STATISTICS II (3) LEC. 3. Pr. STAT 7300 or STAT 7306 or INSY 7300 or INSY 7306. Fractional factorial experimentation applied for the purpose of process and quality improvement and optimization, introduction to analysis of covariance, multiple regression analysis, and response surface analysis. Credit will not be given for both STAT 7310 and INSY 7310.

STAT 7600 STATISTICAL THEORY AND METHODS I (3) LEC. 3. Pr. STAT 3600. Departmental approval. Random variables, probability distributions, parametric models, likelihood theory, testing.

STAT 7610 STATISTICAL THEORY AND METHODS II (3) LEC. 3. Pr. STAT 7600. Likelihood ratio, regression, ANOVA, categorical data, non-parametric methods, decision theory.

STAT 7650 COMPUTATIONAL STATISTICS (3) LEC. 3. Pr. STAT 7020 and STAT 7610. This course covers the theory and practice of common algorithms used for simulation, computing, and optimization in Statistics.

STAT 7670 APPLIED LONGITUDINAL DATA ANALYSIS (3) LEC. 3. To introduce students to statistical models and methods for the analysis of longitudinal data, i.e. data collected repeatedly on individuals (humans, animals, etc) over time (or other conditions).

STAT 7700 GENERALIZED LINEAR MODELS (3) LEC. 3. Pr. STAT 7600. Departmental approval. Exponential families and links functions, model fitting, likelihood methods, residual diagnostics, count data, estimating equations.

STAT 7800 LINEAR MODELS (3) LEC. 3. Pr. STAT 7610 and MATH 2660. Departmental approval. A rigorous development of some of the important topics of applied statistics: the multivariate normal distribution analysis of variance, regression, aspects of experimental design.

STAT 7810/7816 MODERN STOCHASTIC PROCESSES I (3) LEC. 3. Pr. (MATH 6670 or MATH 6676 or STAT 6670 or STAT 6676) and MATH 6210. Classical and Modern Topics in stochastic processes (Markov chains, Poisson process, Brownian motion). Applications and stochastic models (queues, stationary processes, population dynamics, finances). Credit will not be given for both STAT 7810 and MATH 7810.
STAT 7820/7826 APPLIED STOCHASTIC PROCESSES I (3) LEC. 3. Pr. MATH 7810 or MATH 7816 or STAT 7810 or STAT 7816. Classical and modern topics in stochastic processes (Markov processes, Random Walks, Martingales, Brownian motion.) Introduction to stochastic integrals and differential equations. Applications (queues, population dynamics, chaos finances). Credit will not be given for both STAT 7820 and MATH 7820.

STAT 7830 APPLIED STOCHASTIC PROCESSES II (3) LEC. 3. Pr. STAT 7810 or STAT 7816.

STAT 7840 APPLIED MULTIVARIATE STATISTICAL ANALYSIS (3) LEC. 3. Pr. STAT 7000. Multivariate normal distribution, Hotelling's T2, MANOVA, discriminant analysis, principal components.

STAT 7850 THEORY OF STATISTICAL INFERENCE (3) LEC. 3. Pr. STAT 7610. Departmental approval. Bayesian methods, Markov Chain Monte Carlo methods, resampling techniques.

STAT 7860 APPLIED TIME SERIES ANALYSIS (3) LEC. 3. Pr. STAT 3610. Departmental approval. Autoregressive and moving average models, differencing, estimation and forecasting, spectral theory.

STAT 7960 SPECIAL PROBLEMS IN STATISTICS (1-10) RES. Credit will not be given for both MATH 7960 and STAT 7960. Course may be repeated for a maximum of 10 credit hours.

STAT 7970 SPECIAL TOPICS (1-3) LEC. Departmental approval. Special topics designed to meet the needs and interests of students. Course may be repeated for a maximum of 6 credit hours.

STAT 7990 RESEARCH AND THESIS (1-10) DSR. Research for Master's thesis in Statistics. Course may be repeated with change in topic.

STAT 8400 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT I (3) LEC. 3. Pr. STAT 7000. or approved equivalent. Study of the application of linear regression analysis to business research. First advanced course in applied linear statistics models.

STAT 8410 ADVANCED QUANTITATIVE METHODS MANAGEMENT II (3) LEC. 3. or approved equivalent. Introduction to multivariate techniques in business research. Study of the theory and applications of ANOVA, ANCOVA, MANOVA, MANCOVE, Discriminate Analysis & Polytomous Logistic Regression.

STAT 8420 ADVANCED QUANTITATIVE METHODS FOR MANAGEMENT III (3) LEC. 3. Pr. STAT 7100 and STAT 8400 and STAT 8410. or approved equivalent. Third course in statistical modeling. Emphasis on applications of Principal Components Analysis, and Structural Equation Modeling to management research.

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.
2. Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
3. If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.
4. FOREIGN LANGUAGE: 1010-1020 series in French, Greek, German, Italian, Latin, Japanese, Russian, or Spanish.
5. CORE SCIENCE: PHYS 1600- PHYS 1610, BIOL 1020- BIOL 1030, CHEM 1030- CHEM 1040 with labs, or GEOL 1100-GEOL 1110.
6. Math Requisite: Courses designated MATH or STAT at the level of 3000 or higher, no more than one 3000-level course. Subject to advisor’s approval.
7. Applied Math Requisite: MATH 5630, MATH 5640, MATH 5670, or MATH 5000.

**Mathematics Minor**

Fifteen semester hours of courses labeled MATH or STAT at the level of 3000 or higher; at least three courses must be designated MATH. A minimum grade of C in each of these courses is required.

**Option in Actuarial Science**

1 Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.
2 Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
3 If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.
4 FOREIGN LANGUAGE: 1010-1020 series in French, Greek, German, Italian, Latin, Japanese, Russian, or Spanish.
5 CORE SCIENCE: PHYS 1600- PHYS 1610, BIOL 1020- BIOL 1030, CHEM 1030- CHEM 1040 with labs, or GEOL 1100-GEOL 1110.
6 Math Requisite: Courses designated MATH or STAT at the level of 3000 or higher, no more than one 3000-level course. Subject to advisor’s approval.
7 Applied Math Requisite: MATH 5630, MATH 5640, MATH 5670, or MATH 5000.

Total Hours: 120

---

¹ Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.

² Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.

³ If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.

⁴ Core Science: One of the sequences PHYS 1600/PHYS 1610, BIOL 1020/BIOL 1030, CHEM 1030/CHEM 1040 with labs, or GEOL 1100/GEOL 1110.

⁵ MATH or STAT courses at the 3000 level or higher; no more than one 3000-level course. Subject to advisor’s approval.

⁶ Any course that will serve as the statistics prerequisite for FINC 3630. See advisor for approved courses, currently STAT 2610 or STAT 3610.

<td>STAT 5110</td>
</tr>
<tr>
<td>STAT 5630</td>
</tr>
</tbody>
</table>

Total Hours 15

A minimum grade of C in each of these courses is required.

Physics

Physics majors acquire a firm foundation for careers in physics and related fields and excellent preparation for further study. Through the judicious use of electives, this curriculum provides not only a thorough understanding of physics, but also the ability to solve problems in other fields of interest to the student.

Major

• Physics (p. 1103)

Minor

• Physics (p. 1104)

Courses

PHYS 1000 FOUNDATIONS OF PHYSICS (4) LEC. 3. LAB. 2. Science Core. Newton’s Laws, momentum and energy, solids, liquids, gases, plasma, thermodynamics, electricity, magnetism, light, atomic and nuclear physics. Students who have previous credit in any higher-numbered physics course may not receive credit.

PHYS 1150 ASTRONOMY (4) LEC. 3. LAB. 3. Science Core. Open to non-science majors. Earth, the solar system, stars, neutron stars, black holes, supernova, galaxies, the expanding universe, and modern cosmological theories.
PHYS 1500 GENERAL PHYSICS I (4) LEC. 3. LAB. 3. Pr. MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617 or P/C MATH 1620 or P/C MATH 1623 or P/C MATH 1627 or P/C MATH 1710 or P/C MATH 1720 or P/C MATH 2630 or P/C MATH 2637. Science Core. Introduction to Newton's Laws, gravitation and cosmology, concept of conservation laws, solids and fluids, thermodynamics. Math at level of MATH 1130 or higher is expected.

PHYS 1510 GENERAL PHYSICS II (4) LEC. 3. LAB. 3. Pr. PHYS 1500 or PHYS 1600 or PHYS 1607. Science Core. Electricity and magnetism, AC circuits, waves, nuclear physics, radioactivity and particle physics. Physics at the level of PHYS 1500 or higher is expected.

PHYS 1600 ENGINEERING PHYSICS I (4) LEC. 3. LAB. 3. Pr. P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617 or P/C MATH 1620 or P/C MATH 1623 or P/C MATH 1627 or P/C MATH 1710 or P/C MATH 1720 or P/C MATH 2630 or P/C MATH 2637. Science Core. Introduction to Newton's Laws, gravitation, cosmology, conservation of energy, momentum and angular momentum, special relativity, and fluids using introductory calculus. Math at the level of MATH 1610 or higher is expected, at least concurrently.

PHYS 1607 HONORS PHYSICS I (4) LEC. 3. LAB. 3. Pr. Honors College Science Core. Honors version of PHYS 1600. Membership in the Honors College or Departmental approval required. Recommended for Physics majors. Math at the level of MATH 1610 or higher is expected, at least concurrently.

PHYS 1610 ENGINEERING PHYSICS II (4) LEC. 3. LAB. 3. Pr. PHYS 1600 or MATH 1607 and (P/C MATH 1620 or P/C MATH 1623 or P/C MATH 1627). Science Core. Thermodynamics, electricity and magnetism, simple AC circuits, waves, and geometric optics. Physics at the level of PHYS 1600 or higher is expected. Math at the level of MATH 1620 or higher is expected at least concurrently.

PHYS 1617 HONORS PHYSICS II (4) LEC. 3. LAB. 3. Pr. Honors College. PHYS 1600 and PHYS 1607 and MATH 1620 Science Core. Honors version of PHYS 1610. Membership in the Honors College or Departmental approval required. Recommended for Physics majors. Math at the level of MATH 1620 or higher is expected, at least concurrently. Physics at the level of PHYS 1600 or higher is expected.

PHYS 2100 INTERMEDIATE MECHANICS (3) LEC. 3. Pr. (PHYS 1610 or PHYS 1617) and (P/C MATH 2630 or P/C MATH 2637). Principles and applications of Newtonian mechanics, noninertial reference frames, harmonic motion, central forces, rigid bodies, introduction to Lagrangian and Hamiltonian mechanics.

PHYS 2200 INTRODUCTORY QUANTUM PHYSICS AND RELATIVITY (3) LEC. 3. Pr. PHYS 1617 or PHYS 1610. Observational foundations of quantum physics, relativity and developments of several branches of physics up to their present frontiers.

PHYS 2300 PHYSICS LABORATORY SKILLS (2) LAB. 6. Pr. PHYS 1617 or PHYS 1610. The measurement process and its unavoidable uncertainties; standard laboratory instruments; data analysis techniques and tools.

PHYS 3100 INTERMEDIATE ELECTRICITY AND MAGNETISM (3) LEC. 3. Pr. (PHYS 1617 or PHYS 1610) and (MATH 2630 or MATH 2637 or MATH 2730). Electrostatics, Magnetostatics, Laplace's equation, boundary-value problems, multipole expansions, dielectric and magnetic materials. Faraday's law, AC circuits, and Maxwell's equations.

PHYS 3200 STATISTICAL THERMODYNAMICS (3) LEC. 3. Pr. PHYS 2200. The basic laws of thermodynamics, kinetic theory, and statistical mechanics including entropy, the partition function, free energy, and the quantum statistics of Fermions and Bosons.

PHYS 3500 PHYSICS OF THE WORLD AROUND US (3) LEC. 3. Interdisciplinary topic e.g. Biophysics, Astrophysics, Physics of Weather, Physics of Music, or Environmental Physics. Course may be repeated for a maximum of 12 credit hours.

PHYS 3501 PHYSICS OF THE WORLD AROUND US LABORATORY (1) LAB. 3. Laboratory course required for certain topics for PHYS 3500. One 3 hour session per week.

PHYS 4100 FUNDAMENTALS OF QUANTUM MECHANICS (3) LEC. 3. Pr. PHYS 2200 and MATH 2650. Schrodinger equation, stationary and time-dependent solutions, spin and the exclusion principle, perturbation theory, scattering and resonances, the interpretation of quantum mechanics.

PHYS 4200 FUNDAMENTAL EXPERIMENTS IN PHYSICS (2) LAB. 6. Pr. PHYS 2300. Experiments that demonstrate the fundamental ideas and facts of physics. Data will be collected, analyzed, interpreted and reported in comprehensive lab reports.

PHYS 4900 DIRECTED STUDIES (1-5) IND. SU. Departmental approval. Student will investigate a topic of interest under the direction of a faculty member. Course may be repeated for a maximum of 10 credit hours.
PHYS 4930 DIRECTED STUDIES IN PHYSICS (1-5) IND. Departmental approval. Student will study a topic of interest under the direction of a faculty member. Course may be repeated for a maximum of 10 credit hours.

PHYS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

PHYS 4980 UNDERGRADUATE RESEARCH IN PHYSICS (1-5) IND. Departmental approval. Student will work under the direction of a faculty member on a problem of mutual interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

PHYS 5100 APPLICATIONS OF QUANTUM MECHANICS (3) LEC. 3. Pr. PHYS 4100. Quantum mechanics applied to atomic physics, solid state physics, nuclear physics, particle physics, electrodynamics, and cosmology.

PHYS 5500 FUNDAMENTALS OF PHYSICS (3) LEC. 3. A subject such as Wave Mechanics, Mathematical Physics, Nonlinear Dynamics, Optics, Nuclear Physics, Elementary Particles, Relativity, or Electrodynamics. Course may be repeated for a maximum of 9 credit hours.

PHYS 5600 FRONTIERS OF PHYSICS (3) LEC. 3. A subject from the research areas in the Department such as Solid State, Atomic, Plasma, Space, or Computational Physics will be selected by the lecturer. Course may be repeated for a maximum of 9 credit hours.

PHYS 5610 INTRODUCTION TO SOLID STATE PHYSICS (3) LEC. 3. Lattice vibrations, band description of electronic states in metals, semiconductors and insulators, and magnetic, superconducting and defect properties of solids.

PHYS 5620 SURVEY OF PLASMA PHYSICS (3) LEC. 3. Pr. PHYS 3100. Single particle motions: fluid description of a plasma; plasma waves and oscillations; kinetic description, diffusion, and resistivity; non-linear effects.

PHYS 6100 APPLICATIONS OF QUANTUM MECHANICS (3) LEC. 3. Quantum mechanics applied to atomic physics, solid state physics, nuclear physics, particle physics, electrodynamics, and cosmology.

PHYS 6500 FUNDAMENTALS OF PHYSICS (3) LEC. 3. A subject such as Wave Mechanics, Mathematical Physics, Nonlinear Dynamics, Optics, Nuclear Physics, Elementary Particles, Relativity, or Electrodynamics. Course may be repeated for a maximum of 9 credit hours.

PHYS 6600 FRONTIERS OF PHYSICS (3) LEC. 3. A subject from the research areas in the Department such as Solid State, Atomic, Plasma, Space, or Computational Physics will be selected by the lecturer. Course may be repeated for a maximum of 9 credit hours.

PHYS 6610 INTRODUCTION TO SOLID STATE PHYSICS (3) LEC. 3. Lattice vibrations, band description of electronic states in metals, semiconductors and insulators, and magnetic, superconducting and defect properties of solids.

PHYS 6620 SURVEY OF PLASMA PHYSICS (3) LEC. 3. Single particle motions: fluid description of a plasma; plasma waves and oscillations; kinetic description, diffusion, and resistivity; non-linear effects.

PHYS 7100 CLASSICAL MECHANICS (3) LEC. 3. Lagrangian and Hamiltonian formulations of mechanics, canonical transforms. Hamilton-Jacobi theories, action angle variables, rigid rotators, normal modes, and mechanics of continuous media.

PHYS 7200 ELECTRICITY AND MAGNETISM I (3) LEC. 3. Electrostatics, special function expansions, magnetostatics, linear media and Maxwell's equations.

PHYS 7250 ELECTRICITY AND MAGNETISM II (3) LEC. 3. Time dependent Maxwell theory, wave propagation and dispersion, diffraction, scattering, radiation, relativistic covariance and applications.

PHYS 7300 QUANTUM MECHANICS I (3) LEC. 3. Schrodinger wave equation, discrete and continuous spectra, matrix formulation, perturbation theory.

PHYS 7350 QUANTUM MECHANICS II (3) LEC. 3. Time-dependent approximation methods, relativistic wave equations, and second quantization.

PHYS 7400 STATISTICAL PHYSICS (3) LEC. 3. Thermodynamic quantities, equilibrium ensembles for classical and quantum systems, fluctuations, phase transitions and critical phenomena.
PHYS 7520 NONLINEAR DYNAMICS (3) LEC. 3. Dynamical systems, maps, flows, fixed points and neighborhoods, chaos, fractals and fractal dimensions. Lyapunov exponents, strange attractors, dissipative and Hamiltonian systems, controlling chaos.

PHYS 7540 NON-EQUILIBRIUM STATISTICAL MECHANICS (3) LEC. 3. Introduces the fundamental concepts of non-equilibrium statistical mechanics, develops basic transport theories, and simulates statistic properties with Monte-Carlo and molecular dynamic methods.

PHYS 7900 DIRECTED STUDIES (1-5) IND. SU. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 6 credit hours.

PHYS 7930 DIRECTED STUDIES (1-5) IND. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 6 credit hours.

PHYS 7950 PHYSICS COLLOQUIUM (1) SEM. SU. Offers a series of talks presented by invited speakers on broad fields of physics. Check with graduate advisor for credit allowed. Course may be repeated for a maximum of 6 credit hours.

PHYS 7970 SPECIAL TOPICS IN PHYSICS (1-5) SEM. Seminar or lecture series in a rapidly advancing specialty of physics. Course may be repeated for a maximum of 6 credit hours.

PHYS 7990 RESEARCH AND THESIS (1-10) MST. May be repeated as often as is appropriate. Course may be repeated with change in topics.

PHYS 8100 RELATIVISTIC QUANTUM MECHANICS (3) LEC. 3. Dirac equation, 1D barrier scattering, 3D central potentials, S-matrix theory, Feynman diagrams, quantum electrodynamics, renormalization, tree and loop level problems.

PHYS 8200 INTRODUCTION TO ATOMIC PHYSICS (3) LEC. 3. Hydrogen atom, Hartree-Fock theory, radiative transitions, photoionization, autoionization, electron-atom scattering.

PHYS 8600 PLASMA PHYSICS (3) LEC. 3. A detailed study of plasma physics including particle orbit theory, magnetohydrodynamics, plasma waves and transport phenomena.

PHYS 8700 SOLID STATE PHYSICS (3) LEC. 3. Atomic and electronic structures of solids and the associated electrical, optical and transport properties.

PHYS 8900 DIRECTED STUDIES (1-5) IND. SU. Students will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 8930 DIRECTED STUDIES IN ADVANCED PHYSICS (1-5) IND. Student will work with a faculty member to study a topic of interest. Course may be repeated for a maximum of 10 credit hours.

PHYS 8970 SPECIAL TOPICS IN ADVANCED PHYSICS (1-5) LEC. Departmental approval. Topic at the forefront of physics research will be chosen by the lecturer. Course may be repeated for a maximum of 10 credit hours.

PHYS 8990 RESEARCH AND DISSERTATION (1-10) DSR. May be repeated as often as is appropriate. Course may be repeated with change in topics.

Total Hours: 120

¹ Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
² Science Electives consist of a sequence of GEOL 1100-GEOL 1110 or CHEM 1030/CHEM 1031—CHEM 1040/CHEM 1041 or BIOL 1020-BIOL 1030.
³ PHYS and Professional Electives must be at the 3000 level or higher. A Plan of Study indicating choices and physics advisor approval for Physics and Professional electives must be on file in the Dean’s Office before scheduling those courses.
⁴ This course must be taken the semester of graduation.

Pre-Health Professional Curricula

Pre-health professional curricula are offered in pre-dentistry, pre-medicine, pre-optometry, pre-physical therapy, pre-physician assistant, pre-pharmacy and pre-veterinary medicine. Advisors are available to guide the students concerning admissions requirements to the professional schools. The department in which students major will advise them where applicable. Completion of these curricula does not assure admission to a professional school. Competition for admission to professional schools is keen; the number of qualified applicants exceeds the number of places available.

Pre-Dentistry and Pre-Medicine

These programs are designed to prepare students for dental and medical schools and lead to a bachelor of science in one of several majors offered through the college. The requirements are very exacting and demand high scholastic competence and performance. Most American dental and medical schools recommend that applicants have at least two semesters of freshman biology, general chemistry, organic chemistry, and physics with labs; (2) breadth in the educational experience; and (3) in-depth experience in a single discipline. Auburn University students complete these recommendations by enrolling in a core of courses shown in the curriculum model. Each student also declares a major. Students should confer with the COSAM pre-health advisors for specific course requirements since these can vary from school to school. Students may choose to major in a curriculum in another college or school, but they should meet with the COSAM Director of Pre-Health Programs as freshmen for assistance in becoming competitive applicants.

In the junior year, students should attend the mandatory meetings concerning the application process that are conducted by the COSAM Chairman of the Pre-Health Professions Advisory Committee (PPAC) in January. Also, students in pre-dentistry or pre-medicine should take the Dental Admission Test or the Medical College Admission Test at least a year before the date of entry to professional school and submit applications to the professional schools of their choice at that time.

Pre-Optometry

This program leads to a bachelor of science and prepares students for the rigorous demands of American optometry schools.

Students must select a major and should confer with the COSAM pre-health advisors for specific course requirements since these can vary from school to school. Students may also choose to major in a curriculum in another college or school, but they should work with the COSAM Director of Pre-Health Programs as freshmen for assistance in becoming competitive applicants.

Pre-optometry students should review the websites of the optometry schools of their choice during the freshman year to determine any special admission requirements of those schools. The prerequisite courses for most U.S. optometry schools are listed in the curriculum model, either as required courses or as electives. In the junior year, students should attend the mandatory meetings concerning the application process that are conducted by the COSAM Chairman of the Pre-Health Professions Advisory Committee (PPAC) in January. Students should take the Optometry Admission Test and complete an official application for admission to the schools of their choice about a year in advance of the expected date of enrollment.

Pre-Physical Therapy

This program prepares students applying to schools of physical therapy and leads to a bachelor’s degree in one of the majors offered in the College of Sciences and Mathematics. Students should confer with their academic advisors for specific course requirements since these can vary from school to school. Students may also choose to major in a curriculum in another college or school, but they should meet with the COSAM Director of Pre-Health Programs as freshmen for information about becoming competitive applicants. Students should review the websites of the schools of their choice during the freshman year to determine any special admission requirements of those schools. Students should take the Graduate Record Examination and complete an official application for admission to the schools of their choice about a year in advance of the expected date of enrollment.

Pre-Pharmacy

This program meets the requirements for admission to the Auburn University Harrison School of Pharmacy, which is fully accredited by the American Council on Pharmaceutical Education. Complete information about the professional curriculum in pharmacy may be found in the Harrison School of Pharmacy section of this Bulletin.

To be considered for admission, the applicant must complete the course requirements listed in the curriculum model and meet other admissions criteria set by the Harrison School of Pharmacy.

Although not required, students may want to complete an undergraduate degree before entering pharmacy school since the majority of students admitted have a degree. Any major may be acceptable as long as the pre-pharmacy requirements are completed. The College
of Sciences and Mathematics offers a major in biomedical sciences that is an excellent choice for students interested in this option. Students should confer with the COSAM pre-health advisors for specific course requirements.

**Pre-Physician Assistant**

This program is designed to prepare students for enrollment in physician assistant programs and leads to a bachelor of science in one of several majors offered through the college. The academic requirements are very demanding and high scholastic competence and performance are expected. Auburn University students complete these recommendations by enrolling in a core of courses shown in the curriculum model. Each student also declares a major. Students should confer with the COSAM pre-health advisors for specific course requirements since these can vary from school to school. Students may choose to major in a curriculum in another college or school, but they should meet with the COSAM Director of Pre-Health Programs as freshmen for assistance in becoming competitive applicants and applying.

Students in the pre-physician assistant program should take the Graduate Record Examination at least a year before the date of entry to professional school and submit an application to the schools of their choice at that time.

**Pre-Veterinary Medicine**

Students in the Pre-Veterinary Medicine (PVET) curriculum must select a major by the end of their sophomore year. Students in Sciences and Mathematics typically select microbiology (MCMB, PVET) or organismal biology (IBIO, PVET) as majors. Pre-Veterinary options in the College of Agriculture include animal sciences (ANDS, PVET) and poultry science (POUL, PVET). A pre-vet option in wildlife (WILD, PVET) sciences also exists in the School of Forestry and Wildlife Sciences. The minimum requirements for admission to the College of Veterinary Medicine at Auburn University are incorporated into the curriculum models for all of these majors.

It is possible to gain admission to the College of Veterinary Medicine by completing only the minimum requirements listed. However, it is preferable to select a major and earn a baccalaureate degree. If a student is admitted to the College of Veterinary Medicine prior to completion of the full four years, he or she may obtain a BS degree by successfully completing the first three years of some of the Pre-Veterinary curricula and the first year of veterinary school. Students should consult their advisors regarding which curricula offer this option. Application for admission to the College of Veterinary Medicine must be submitted to the dean of that college. A minimum grade-point average of 2.5 is required for application; D grades in required courses are unacceptable. All minimum requirements, including courses repeated due to time limitations, must be completed by the end of the spring term preceding the date of admission, and all advanced required courses in physical and biological sciences (organic chemistry and physics) must have been completed within six calendar years prior to the anticipated entrance date. Competition for admission to the professional schools is keen with the number of qualified applicants exceeding the number of places available. For additional information, see College of Veterinary Medicine section and the Pre-Veterinary Medicine curricula in the College of Agriculture, COSAM, and the School of Forestry and Wildlife Sciences.

**Programs**

- Biomedical Sciences (p. 1107)
- Microbiology/Pre-Veterinary Medicine Option (p. 1108)
- Pre-Dentistry and Pre-Medicine (p. 1109)
- Pre-Optometry (p. 1112)
- Pre-Pharmacy (p. 1113)
- Pre-Physical Therapy (p. 1114)
- Pre-Physician Assistant (p. 1114)
- Pre-Veterinary Medicine (p. 1110)

**Courses**

**SCMH 1010/1013 CONCEPTS OF SCIENCE (4)** LEC. 3. LAB. 2. Science Core. Interdisciplinary course which presents major scientific concepts in all the main fields of science. If a student takes SCMH 1010, that should precede taking either BIOL 1010, CHEM 1010, GEOL 1100, PHYS 1000, or PHYS 1150 for sequential completion of the AU core science requirement.

**SCMH 1017 HONORS CONCEPTS OF SCIENCE (4)** LEC. 3. LAB. 2. Pr. Honors College Science Core. Interdisciplinary course which presents major scientific concepts in all the main fields of science. If a student takes SCMH 1010, that should precede taking either BIOL 1010, CHEM 1010, GEOL 1100, PHYS 1000, or PHYS 1150 for sequential completion of the AU core science requirement.
SCMH 1890 PRE-HEALTH PROFESSIONS ORIENTATION (1) LEC. 1. SU. Orientation and guidance for freshmen and transfer students planning to seek admission to health professions schools and programs such as dentistry, medicine, optometry, pharmacy, physician assistant, and physical therapy.

SCMH 3810 PRE-PHYSICAL THERAPY PRACTICUM (1) PRA. 2. SU. Departmental approval. Direct observation of physical therapists at an approved facility in the Auburn-Opelika area.

SCMH 3890 PRE-MEDICAL PRECEPTORSHIP (1) LAB. 25. SU. Departmental approval. Direct observation and interaction with physicians at East Medical Center and in individual medical offices.

SCMH 4920 SCIENCES AND MATHEMATICS INTERNSHIP (3) LEC. 3. SU. Practical on-the-job training in some area related to Sciences and Mathematics. Course may be repeated for a maximum of 6 credit hours.

SCMH 5010 CLINICAL APPLICATIONS I (3) LEC. 2. A study of the clinical/personal issues facing primary care physicians in the rural community. Must be enrolled in the Rural Medicine Program.

SCMH 5020 CLINICAL APPLICATIONS II (3) LEC. 2, CLN/LEC. 1. Pr. SCMH 5010. A continuation of SCMH 5010.

Options for courses labeled CORE are in the Auburn University Bulletin, under Core Curriculum.

1 The General Chemistry CHEM 1110/CHEM 1111- CHEM 1120/CHEM 1121 sequence or the General Chemistry Honors Sequence can substitute for CHEM 1030/CHEM 1031- CHEM 1040/CHEM 1041. See advisor.

2 *Professional Electives:* Foreign Language, BIOL 2500, or any BIOL, CHEM, PHYS course 3000+

3 BMSC Electives:
   - BIOL 3010 (Comparative Anatomy); BIOL 4000 (Histology); BIOL 4410 (Vert. Development);
   - BIOL 5110 (Parasitology); BIOL 5200 (Clinical Micro); BIOL 5280 (Genetics); BIOL 5230 (Virology); BIOL 5330 (Developmental Genetics);
   - BIOL 5521 (Gene Express. Lab); CHEM 3160 (Physical Chem); CHEM 3050 (Analytical Chem); Undergraduate Research (no more than 2 additional hours);
   - SCMH 3810 or 3890 (Preceptorships)

4 Students may only register for UNIV 4AA0 during the semester they plan to graduate.

---

ANSC 3400 Animal Nutrition is now required to enter vet school at Auburn. See advisor for details.

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.

2. Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.

3. If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.

4. Choose from PHIL 1010, PHIL 1020, PHIL 1030, PHIL 1040, PHIL 1050, PHIL 1060, PHIL 1070, PHIL 1080, PHIL 1090, PHIL 1100 or HONR 1007 or HONR 1017.

5. A list of approved Biology electives is available from the COSAM Student Services webpage.

Students who complete the above 6 semesters and successfully complete the first year of veterinary school may be awarded a BS in Organismal Biology. In the event the first year Veterinary College alternative is not followed, the indicated senior year courses must be successfully completed to receive the BS in Organismal Biology.

1. Students must complete a two-course sequence in either HIST or LIT (for example, World History 1 and 2 or American Lit 1 and 2). For complete HIST and LIT sequence options, see the Bulletin.
2. Students who choose a HIST sequence other than HIST 1010 and HIST 1020 should talk to an advisor about CORE SOC SCI choices.
3. If a LIT sequence is chosen, this course must be a CORE SOC SCI. If a HIST sequence is chosen, this course must be a CORE HUMANITIES.
4. Choose from PHIL 1010, PHIL 1020, PHIL 1030, PHIL 1040, PHIL 1050, PHIL 1060, PHIL 1070, PHIL 1080, PHIL 1090, PHIL 1100 or HONR 1007 or HONR 1017.
5. See list of approved Biology electives.
6. This course must be taken the semester of graduation.

Students should declare a major when they have completed 60 hours.

1. The Chemistry CHEM 1110/CHEM 1111 - CHEM 1120/CHEM 1121 sequence can substitute for CHEM 1030/CHEM 1031-CHEM 1040/CHEM 1041. See advisor for details.

2. Students who complete a HIST sequence other than HIST 1010 and HIST 1020 should see an advisor for CORE SOC SCI choices.

**Majors**

**Minors**
College of Veterinary Medicine

THE COLLEGE OF VETERINARY MEDICINE offers a fully accredited program of training leading to the degree of doctor of veterinary medicine. The degree requires four years in the professional curriculum after completion of a pre-professional curriculum which may take four years or more for the average applicant.

Admission

Each year 120 students are admitted to the four-year program for the doctorate in veterinary medicine. Admitted students are residents of Alabama or residents of Kentucky admitted by contract through the Southern Regional Education Board (SREB); or at-large residents (non-Alabama and non-contract students). Alabama and SREB students must have a minimum GPA of 2.5 on a 4.0 system on all course work attempted. A grade of D on any required course will not be accepted. At-large (non-Alabama and non-SREB) students must have a minimum GPA of 3.0 on a 4.0 scale. At-large applicants must be citizens of the United States and will be required to pay non-resident university fees. As part of the admissions process, the Committee on Admissions and Standards of the College of Veterinary Medicine requires a personal interview. The College of Agriculture, the College of Sciences and Mathematics and the School of Forestry and Wildlife Sciences offer Pre-Veterinary curricula and are responsible for pre-veterinary counseling. In addition to academic requirements, candidates are expected to have animal experience and to have worked with a veterinarian for a minimum of 400-500 hours.

All applicants must apply through the Veterinary Medical College Application Service (VMCAS). Additional information, including an electronic application, is available from the Association of American Veterinary Medical Colleges at http://www.aavmc.org/. Kentucky students must provide proof of residency from their college/university or from their state council on post-secondary education.

Minimum Requirements for Pre-Veterinary Medicine

A bachelor's degree or completion of the Core Curriculum as stated in the General Information section in this Bulletin.

Specific Course Requirements

Minimum pre-veterinary requirements for Alabama residents are those listed for the pre-veterinary curriculum in either the College of Agriculture, College of Sciences and Mathematics or the School of Forestry and Wildlife Sciences. Non-Alabama and SREB applicants must have acceptable equivalents which have been approved by the College of Veterinary Medicine.

All transfer courses must be equivalent in hours and content. Courses will not be waived on the basis of degrees or "practical experience." Pass-Fail or Satisfactory- Unsatisfactory grades are not acceptable in required courses. Consideration will not be extended to anyone with an overall GPA of less than 2.5 or anyone who is not a bona fide resident of Alabama or Kentucky at the time of application (Non-resident/non-contract students must have a GPA of 3.0 or better).

Standardized Examination

Applicants must complete the Graduate Record Examination (verbal and quantitative) within five calendar years prior to the anticipated date of enrollment. Results of the GRE must be officially reported to the Office of Academic Affairs, College of Veterinary Medicine by September 15th.

Application Procedure

Admission to the College of Veterinary Medicine must be gained through formal application made by the VMCAS deadline preceding the fall semester in which admission is desired. All applicants must be citizens of the United States.

The electronic application is available from the Association of American Veterinary Medical Colleges (www.aavmc.org). An Auburn University College of Veterinary Medicine processing fee of $100 is required of all applicants. An additional $50 is required upon acceptance of all who have not previously attended Auburn University.

The final selection of students is made by the Committee on Admissions and Standards of the College of Veterinary Medicine, Auburn University. The right is reserved to accept or reject any applicant.

Under the Regional Plan for Veterinary Training, the College of Veterinary Medicine currently serves Alabama and Kentucky. The land-grant institution in each state participating under the SREB plan maintains counseling and guidance service for students desiring admission to the College of Veterinary Medicine. Students attending other institutions should contact the pre-health profession advisor in their state for information concerning admission requirements.
Scholastic Requirements

All applicants and students in the professional program are subject to the academic and disciplinary regulations of the College of Veterinary Medicine in addition to those of Auburn University.

Any student who earns less than a 2.25 GPA for any term will be placed on academic probation. A student who fails to earn a 2.25 GPA in each of the succeeding two terms of enrollment will be dropped from the rolls of the College of Veterinary Medicine for scholastic deficiency. In addition, a student who does not have a veterinary college cumulative average of 2.25 at the end of any academic year may be required to withdraw from the College of Veterinary Medicine.

Any student who receives a D in any course will be placed on academic probation. If the student receives a second D in the same calendar year or academic year, they will be required to withdraw from the College of Veterinary Medicine.

A student will be removed from academic probation after two terms, assuming they have met the terms of probation.

A student who makes a grade of F on any course will be required to withdraw from the College of Veterinary Medicine. If a student who is dismissed for academic reasons is readmitted, they may be required to repeat additional courses as deemed necessary by the Admissions and Standards Committee.

Clinical courses are unique in that the art and skills to be developed in them can be acquired only through full participation in the laboratories. Attendance in these courses is required except in case of illness or other extenuating circumstances as may be judged by the involved instructor. Grading in these clinical laboratory courses is primarily by subjective evaluation. When a course involves student rotation through several disciplines, the student must receive a passing grade in each area before a passing grade can be assigned for the course.

Any student who earns a D or F in any clinical rotation will be placed on academic probation. If the student receives a second or third D or F during clinical rotations, (i.e. D-D-F or D-D-D) that student will be required to withdraw from the College of Veterinary Medicine. If the college admissions and standards committee allows readmission, the student may be required to repeat all experiences to meet the requirements for the clinical year.

The responsibility for counseling is shared by the faculty of this College and the Department of Clinical Psychology.

Non-Scholastic Requirements

Health Insurance: Students enrolled in the professional curriculum are required to provide evidence of health insurance coverage.

Required Withdrawal

The faculty of the College of Veterinary Medicine reserves the right to require the withdrawal at any time of any student who in the judgment of the admissions and standards committee is not profiting from the instruction offered, who is neglectful, irregular, dishonest or indifferent in the performance of required duties and studies or whose character or conduct is inconsistent with good order of the veterinary college or with the standard of the veterinary profession.

Requirements for Graduation

To be eligible for the DVM degree, candidates must complete all of the required courses in the order listed in the curriculum in veterinary medicine along with at least four hours of elective credit, with a minimum overall GPA of 2.25. In addition, each senior must participate in a clinicopathologic conference (CPC) to fulfill their oral communication requirement. Following completion of all academic work, each student is required to serve a preceptorship of eight weeks with an approved veterinarian. A certificate of satisfactory completion of a preceptorship is required for graduation.

A graduation fee must be paid at the beginning of the term of graduation and all indebtedness due the institution must be paid prior to graduation.

Major

VM-Biomedical Sciences Courses

**VBMS 2100 INTRODUCTION TO PUBLIC HEALTH (3)** LEC. 3. Lecture and discussion of historic advances in public health leading to discussion of diseases affecting the health of people in Alabama today.

**VBMS 3010 INTRODUCTION TO EPIDEMIOLOGY (3)** LEC. 3. Principles of epidemiology, with emphasis on approaches for prevention/control of diseases of humans and animals. Broad applications of studies of populations will be stressed.

**VBMS 3903 REPRODUCTIVE SCIENCE AND HEALTH (3)** LEC. 3. P/C, One basic organismal biology, physiology or similar life science course. Sophomore level or higher. Foundational physiologic concepts in reproductive science linked to important animal and human reproductive health issues. May count either ANSC 3600 or VBMS 3600.

**VBMS 4830 GLOBAL AND COMPARATIVE HEALTH SYSTEMS (3)** LEC. 3. Departmental approval. Different national approaches to providing health care for the population will be compared to the US system.

**VBMS 4910 OBSERVING NEEDS IN PUBLIC HEALTH (3)** LEC. 3. Through volunteer service to public health agency students will develop an understanding of the importance for volunteers to support community public health needs.

**VBMS 4980 UNDERGRADUATE RESEARCH (1-3)** RES. Directed, supervised undergraduate research in veterinary biomedical sciences (VBMS). Course may be repeated for a maximum of 9 credit hours.

**VBMS 4987 HONORS RESEARCH (1-3)** RES. Pr. Honors College Supervised undergraduate research in veterinary biomedical science. May count either VBMS 4987 or VBMS 4997. Course may be repeated for a maximum of 9 credit hours.

**VBMS 4997 HONORS THESIS (1-3)** RES. Pr. Honors College Undergraduate honors thesis development in veterinary biomedical science. May count either VBMS 4987 or VBMS 4997. Course may be repeated for a maximum of 9 credit hours.

**VBMS 6111 VETERINARY ANATOMY I (4)** LAB. 12. Departmental approval. Gross anatomy of the dog and cat including skeletal and muscular systems, neck, thorax, limbs, abdomen, pelvis, head, and nervous system. Credit will not be given for VMED 5111 and VBMS 6111.

**VBMS 6121 VETERINARY ANATOMY II (3)** LAB. 9. Pr. VBMS 6111. In-depth study of the gross anatomy of the ox, horse, and minor species (chicken) with inclusion of clinical relevance. In-dept presentation of a specific anatomy topics related to course material. May count either VMED 5121 or VBMS 6120.

**VBMS 7000 NEUROANATOMY (5)** LEC. 3. LAB. 4. Departmental approval. Functional morphology of nervous system from input/output through the long systems; limbic relations to endocrine and autonomic nervous system. Comparative among primates and domestic animals.

**VBMS 7010 PATHWAYS TO SUCCESSFUL RESEARCH (1)** LEC. 1. An introduction to topics pertinent to performance of a successful graduate program and in the conduction of responsible research.

**VBMS 7020 MICROSCOPIC ANATOMY I (3)** LEC. 1. LAB. 4. Departmental approval. A detailed study of and preparation of the basic tissues. Light microscopy and electron micrograph preparations are used to describe and interpret morphology.

**VBMS 7030 MICROSCOPIC ANATOMY II (3)** LEC. 1. LAB. 4. Departmental approval. Light microscopy and electron microscopy detailed study of the cardiovascular, hemopoietic, digestive, urinary and respiratory systems of domestic animals.

**VBMS 7040 ADVANCED PHYSIOLOGY OF REPRODUCTION (3)** LEC. 3. Pr. ANSC 3600 and BIOL 6240 or VBMS 7150. Departmental approval. Developmental, physiological, endocrinological, cellular and molecular mechanisms regulating reproduction, with emphasis on mammalian systems.

**VBMS 7050 DEVELOPMENTAL NEUROBIOLOGY (3)** LEC. 3. Departmental approval. Overview of the development of the nervous system. Emphasis will be directed towards understanding sensory systems, development, plasticity and function.

VBMS 7070 ENDOCRINOLOGY (4) LEC. 4. Pr. BCHE 7200 and BCHE 7260 and BIOL 6600 or departmental approval. Molecular and cellular endocrinology and physiological regulation of hormone synthesis, secretion, and action in mammalian species. Emphasis will be placed on metabolic regulatory hormones.

VBMS 7080 MOLECULAR ENDOCRINOLOGY (2) LEC. 2. Pr. VBMS 7070. Departmental approval. Examination of the literature of hormonal synthesis, secretion and mechanism of action with emphasis on receptors, second messenger systems, and gene regulation.

VBMS 7090 CLINICAL PHARMACOLOGY (3) LEC. 3. Departmental approval. The actions and effects of drugs on human beings. Acceptable courses in biochemistry and physiology;

VBMS 7100 ADVANCED CARDIOLOGY I (2) LEC. 2. Graduate students in Biomedical Sciences, College of Veterinary Medicine and must have a DVM or equivalent. Topics about advanced diagnostics and therapeutics in cardiovascular disease will be discussed.

VBMS 7120 MEMBRANE PHYSIOLOGY (3) LEC. 2. LAB. 3. Departmental approval. The classic and modern aspects of biological membranes. Labs include patch clamp, reconstruction of ion channels in bilayers, Langmuir-Blodgett techniques, and other methods.

VBMS 7130 VETERINARY MEDICINE DIAGNOSTIC ULTRASONOGRAPHY (3) LEC. 3. Pr. (VMED 9120 or VMED 9121 or VMED 5120) and VMED 5121. The principles and practice of veterinary medical diagnostic ultrasonography as they are utilized in evaluating normal and abnormal anatomy. All animals are used in this course. Veterinary anatomy and/or DVM degree.

VBMS 7140 PHYSIOLOGY I (5) LEC. 5. Departmental approval. Cellular, Cardiovascular, Renal and Respiratory Physiology.

VBMS 7150 PHYSIOLOGY II (4) LEC. 4. Pr. VBMS 7140. Departmental approval. Gastrointestinal Physiology, Metabolism, Endocrinology, and Reproductive Physiology.

VBMS 7160 NEUROSCIENCE (3) LEC. 3. Departmental approval. An overview of neuroscience on the subcellular, cellular and system levels.

VBMS 7170 ANATOMY, PHYSIOLOGY, PHARMACOLOGY SEMINAR (1) SEM. 1. Required of all graduate students in Anatomy, Physiology, and Pharmacology.

VBMS 7180 RECEPTOROLOGY (4) LEC. 4. Pr. VBMS 7070.

VBMS 7190 VETERINARY MEDICAL COMMUNICATIONS TRAINING (1) LEC. 10. LAB. 6. SU. No P or C required. Restricted to only Biomedical Science Masters students, both degree and non-degree seeking, in the College of Veterinary Medicine. Introduce communication skills necessary to build veterinary-client relationships and trust.

VBMS 7210 RADIATION BIOLOGY (4) LEC. 4. Exploration of biological, physical, and chemical basis of radiotherapy with emphasis on the biological effects of ionizing radiation at the cellular and molecular level. Effects of irradiation on the tumor, normal tissues, and the patient will be addressed. DVM degree; Residency in Radiation Oncology or Radiology or Small Animal Oncology and registered in the Graduate School.

VBMS 7220 STRUCTURE AND FUNCTION OF COMPANION ANIMAL SKIN (3) LEC. 3. The course will cover the comparative aspects of the structure and function of the skin of companion animals in healthy and diseases states.

VBMS 7240 ADVANCED SCIENCE OF CANINE AND EQUINE LOCOMOTION (3) LEC. 3. Attendees will learn about the science of biomechanics, muscle physiology and how they apply to locomotion or athletics and working dog and horse

VBMS 7250 NORMAL RADIOLOGICAL ANATOMY (3) LEC. 3. A detailed study of the normal structure, size and position of the various organs of the cat, dog, horse, cow, and other veterinary species as they appear on plain and contrast radiographs. DVM Degree, acceptance in an established residency program.

VBMS 7260 ADVANCED RADIOLOGY (3-5) LEC. Detailed study of concepts and techniques of all imaging procedures. For graduate students and residents in DCS program or DVM or equivalent.

VBMS 7270 RADIOLOGICAL INTERPRETATIONS (1-3) LEC. The interpretation of various diagnostic imaging modalities used in veterinary medicine and their applications in the diagnostic work-up of clinical cases presenting to the College of Veterinary Medicine. DVM Degree.
VBMS 7280 PHYSICS OF DIAGNOSTIC IMAGING (3) LEC. 3. Principles of physics related to the imaging modalities of diagnostic radiology, ultrasonography, magnetic resonance imaging, scintigraphy, computed tomography, and radiation therapy. Students will study physics at the atomic level but must also develop an understanding of construction, function, and hazards of modern imaging equipment. DVM Degree.

VBMS 7290 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. A mandatory graded seminar presentation, held in conjunction with the VBMS seminar series, presenting the resident student's individual Master of Science degree research topic including pertinent review, hypothesis, materials, results, and discussion of findings.

VBMS 7330 EVIDENCE BASED EQUINE SURGERY (3) LEC. 3. DVM and enrollment in the College of Veterinary Medicine's Equine Medicine or Surgery Residency. Provides an introduction to evidence based medicine and meta-analysis with application to topics in equine surgery.

VBMS 7340 LARGE ANIMAL SURGERY AND MEDICINE SEMINAR (1) SEM. 1. Departmental approval. Seminar required of all graduate students in large animal surgery and medicine. Meets at scheduled intervals each year.

VBMS 7370 ADVANCED LARGE ANIMAL ORTHOPEDIC SURGERY (5) LEC. 3. LAB. 2. Research and advanced techniques for orthopedic surgical procedures in large domestic animals.

VBMS 7380 ADVANCED FOOD ANIMAL MEDICINE (3) LEC. 3. In-depth study of food animal medical diseases of all body systems with emphasis on pathophysiologic mechanisms. Departmental approval; DVM degree.

VBMS 7390 ADVANCED EQUINE MEDICINE (3) LEC. 3. Departmental approval. Detailed etiology, symptoms, pathogenesis, treatment, and prevention of the medical diseases affecting the various systems and organs of the equine, bovine, ovine, and porcine species.

VBMS 7400 GYNECOLOGY OF LARGE DOMESTIC ANIMALS (3) LEC. 3. Diseases and problems of the reproductive system in the female domestic animals. Normal and abnormal conditions of various species are covered. Departmental approval; DVM degree.

VBMS 7410 ANDROLOGY OF LARGE DOMESTIC ANIMALS (3) LEC. 3. Diseases and problems of the reproductive system in male domestic animals. Departmental approval; DVM degree.

VBMS 7420 ADVANCED VETERINARY ANESTHESIOLOGY (4) LEC. 4.

VBMS 7430 HEALTH MAINTENANCE OF FOOD ANIMALS (3) LEC. 5. Departmental approval. Research in production medicine. Principles of production medicine to enhance animal health and productivity.

VBMS 7450 SELECTED TOPICS IN GRADUATE EDUCATION RESEARCH (1) LEC. 1. SU. Departmental approval. Overview of research funding strategies, grant preparation, transfer of research technology and patents, research ethics, etc.

VBMS 7460 BACTERIAL PATHOGENESIS (3) LEC. 3. Pr. VBMS 7510 or BIOL 4520. Departmental approval. Molecular and cellular basis of virulence of bacterial pathogens of animals.

VBMS 7470 ADVANCED EPIDEMIOLOGY (3) LEC. 3. Departmental approval. Advanced epidemiological techniques and their application to disease research, clinical retrospective and prospective studies, and disease outbreak investigation. Introductory statistics course

VBMS 7480 METHODS IN IMMUNOLOGY (5) LEC. 1. LAB. 8. Departmental approval. Theoretical concepts underlying immunological methods combined with practical hands-on immunological experimentation focused on application to research in the biological sciences.

VBMS 7490 DIAGNOSTIC TECHNIQUES IN VETERINARY MICROBIOLOGY (4) LEC. 1. LAB. 9. Departmental approval. Techniques used in modern diagnostic microbiology laboratories.
Auburn University

VBMS 7500 CELLULAR AND MOLECULAR IMMUNOLOGY (3) LEC. Pr. BIOL 6500. Departmental approval. Current literature in immunobiology, emphasis on cellular/biochemical/genetic basis of immune response.

VBMS 7510 QUALITY SYSTEMS IN HEALTH SCIENCES (3) LEC. 3. Overview of regulations, standards, and foundational principles for quality systems and processes illuminating the application to health sciences.

VBMS 7520 EUKARYOTIC MOLECULAR BIOLOGY (3) LEC. 3. Genetic mechanisms by which eukaryotic cells replicate, communicate and differentiate. Current literature will be used extensively.

VBMS 7530 EXPERIMENTAL TECHNIQUES IN MOLECULAR AND CELL BIOLOGY (3) LEC. 2. LAB. 6. Nucleic acid detection/amplification/sequencing, protein/antibody chemistry, flow cytometry, photo/electron microscopy fluorochromes, radioisotopes, centrifugation, cell/embryo culture.

VBMS 7540 CURRENT TOPICS IN MOLECULAR VIROLOGY (3) LEC. 3. Pr. VBMS 7520 and BIOL 6260. Departmental approval. Viral gene expression and evasion of host defense mechanisms.

VBMS 7550 PATHOLOGY (1-3) LEC. SU. Departmental approval. Diagnostic interpretation of lesions and test results. Special topics or current issues in pathology to meet the particular needs of students. DVM degree or equivalent; Course may be repeated for a maximum of 3 credit hours.

VBMS 7560 GENERAL PATHOLOGY (4) LEC. 3. LAB. 3. Fundamental alterations of disease. Departmental approval; Satisfactory courses in histology and physiology.

VBMS 7570 DIAGNOSTIC PATHOLOGY (1-3) LEC. SU. Diagnosis of animal diseases using necropsy procedures and histopathology. Required every semester for all graduate students and residents in pathology. DVM degree. Course may be repeated for a maximum of 3 credit hours.

VBMS 7580 SURGICAL PATHOLOGY (1-3) LEC. SU. Histopathologic diagnosis of surgical biopsy specimens. Required every semester for all graduate students and residents in pathology. DVM degree. Course may be repeated for a maximum of 3 credit hours.

VBMS 7590 AVIAN PATHOLOGY (4) LEC. 4. Departmental approval. Comparative avian pathology emphasizing cause, pathogenesis and lesions associated with diseases; differential diagnosis and diagnostic procedures to confirm a diagnosis.

VBMS 7600 ADVANCED CLINICAL PATHOLOGY I (3) LEC. 3. Pr. VMED 5230 or VMED 9230. Departmental approval. The lymphohematopoietic system. Normal components and evaluation of disease states.

VBMS 7610 ADVANCED CLINICAL PATHOLOGY II (3) LEC. 3. Pr. VBMS 5230. Departmental approval. Laboratory evaluation of organ function; disease pattern recognition.

VBMS 7620 DIAGNOSTIC ONCOLOGY (3) LEC. 3. Pr. VMED 5220 or VMED 9220. Departmental approval. Principles of gross and microscopic interpretation of animal neoplasms using basic and specialized techniques.

VBMS 7630 BASIC AND CLINICAL ONCOLOGY (3) LEC. 3. Comparative aspects of the etiology, pathophysiology, diagnosis and treatment of cancer.

VBMS 7640 MECHANISMS OF DISEASE (3) LEC. 3. Pr. VMED 5220 or VMED 9220. Departmental approval. VMED 5220 or equivalent.

VBMS 7650 VETERINARY PROTOZOOLOGY AND ENTOMOLOGY (3) LEC. 3. Departmental approval. Current topics in immunology, physiology, molecular biology, pathogenicity, etc. of selected protozoal and arthropod parasites.

VBMS 7660 VETERINARY HELMINTHOLOGY (3) LEC. 3. Departmental approval. Current topics in immunology, physiology, biochemistry, molecular biology, epidemiology, and pathogenicity of selected helminth parasites.

VBMS 7670 PATHOLOGY PARASITIC DISEASES (3) LEC. 2. LAB. 2. Pr. VBMS 7560. Departmental approval. Gross and microscopic pathology of parasitic diseases of veterinary importance.

VBMS 7680 PATHOLOGY SEMINAR (1) LEC. 1. Pr. VMED 5220 or VMED 9220. Departmental approval. Weekly conference to discuss gross and histologic pathology in animal tissues.

VBMS 7690 READINGS IN IMMUNOLOGY AND INFECTIOUS DISEASE (1) LEC. 1. SU. Pr. BIOL 6500 or VBMS 7500. To familiarize students with current scientific literature in immunology and the methods employed. Or equivalent.
VBMS 7700 COMBINATORIAL BIOCHEMISTRY AND PHAGE DISPLAY (4) LEC. 1. LAB. 6. In-depth study of combinatorial biochemistry and phage display as a tool for development of new drugs, vaccines and diagnostics for veterinary medicine.

VBMS 7720 DEVELOPMENTAL MOLECULAR BIOLOGY (3) LEC. 3. Pr. VBMS 7520. Genetic mechanisms by which eukaryotes differentiate from single cells to complex multicellular organisms will be covered. Important examples of biomedical dysfunction will be used to illustrate developmental pathways. Current literature will be used extensively.

VBMS 7730 APPLIED CYTOLOGY (2) LEC. 2. Systematic review of normal and abnormal cytologic findings in veterinary species. Participation in a residency training program at the Auburn University College of Veterinary Medicine.

VBMS 7740 CLINICAL VETERINARY MICROBIOLOGY (1) LEC. 1. SU. Directed discussion group reviewing the current, clinical scientific literature in veterinary microbiology and veterinary infectious disease research. Course may be repeated for a maximum of 5 credit hours.

VBMS 7750 GRADUATE COLLOQUIUM IN VETERINARY CLINICAL SCIENCE (1) CLN. 1. Departmental approval. Forum to present topics relevant to the students clinical and research interests. This a mandatory seminar for graduate students in the Department of Clinical Science. DVM degree Course may be repeated for a maximum of 5 credit hours.

VBMS 7760 ADVANCED VETERINARY NEUROSURGERY (5) LEC. 3. LAB. 2. Enrolled in the CVMâ€™s MS or PHD program. Veterinary neurosurgery. All aspects of veterinary neurosurgery will be covered. Content delivery is via didactic lecture, small group discussion, and skills laboratories.

VBMS 7770 ADVANCED SMALL ANIMAL GENERAL SURGERY (3) LEC. 2. LAB. 3. Application of critical thinking skills to perioperative plans and tasks. DVM or VMD degree, or equivalent.

VBMS 7780 VETERINARY WOUND MANAGEMENT AND RECONSTRUCTIVE SURGERY (4) LEC. 2. LAB. 2. Techniques in veterinary wound management and reconstructive surgery in large and small animals. DVM degree or equivalent.

VBMS 7790 SMALL ANIMAL ORTHOPEDICS (5) LEC. 5. Review of orthopedic diseases in small animals, interactive review of recent literature and advanced laboratory sessions intended for residents in small animal surgery. DVM degree or equivalent.

VBMS 7800 ADVANCED SMALL ANIMAL NEUROLOGY (3) LEC. 3. Advanced study of neurodiagnostics and non-surgical therapy of neurological disorders in small domestic animals.

VBMS 7810 ADVANCED SMALL ANIMAL MEDICINE I (3-5) LEC. Departmental approval. Special study of the causes, methods of diagnosis, treatment and control of non-surgical urogenital diseases of small animals. DVM degree; Course may be repeated for a maximum of 5 credit hours.

VBMS 7820 ADVANCED SMALL ANIMAL MEDICINE II (3-5) LEC. 3. Departmental approval. Special study of the causes, methods of diagnosis, treatment and control of non-surgical gastrointestinal diseases of small animals. DVM degree; Course may be repeated for a maximum of 5 credit hours.

VBMS 7830 ADVANCED SMALL ANIMAL MEDICINE III (3-5) LEC. 3. Departmental approval. Special study of the causes, methods of diagnosis, treatment and control of non-surgical cardiovascular and respiratory diseases of small animals. DVM degree; Course may be repeated for a maximum of 5 credit hours.

VBMS 7840 ADVANCED SMALL ANIMAL MEDICINE IV (3-5) LEC. Departmental approval. Molecular biology lectures and techniques related to diagnostic and research application to clinical problems in small animal veterinary medicine. DVM degree; Course may be repeated for a maximum of 5 credit hours.

VBMS 7850 ADVANCED VETERINARY MEDICAL SPECIALTY TRAINING (1-4) LEC. 1. LAB. 2. SU. Course may be repeated for a maximum of 6 credit hours.

VBMS 7870 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC MEDICINE (3) LEC. 3. Advanced ophthalmology with emphasis on diagnosis, pathophysiology and treatment of ocular diseases of domestic animals. DVM degree or equivalent.

VBMS 7880 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC MEDICINE (3) LEC. 1. LAB. 6. Pr. VBMS 7870. Advanced ophthalmology with emphasis on ophthalmic surgery.
VBMS 7890 ADVANCED VETERINARY OPHTHALMOLOGY: OPHTHALMIC BASIC SCIENCES (3) LEC. 3. Advanced ophthalmology with emphasis on diagnosis, pathophysiology and treatment of ocular diseases of domestic animals. DVM degree or equivalent.

VBMS 7910 ADVANCED EQUINE CRITICAL CARE I (2) LEC. 2. Introduce students to the mechanisms of disease, state of the art knowledge/procedures & treatment of conditions relevant to the critical equine patient.

VBMS 7920 ADVANCED EQUINE CRITICAL CARE II (2) LEC. 2. Introduce students to the mechanisms of disease, state of the art knowledge/procedures & treatment of conditions relevant to the critical equine patient.

VBMS 7950 GRADUATE SEMINARS IN VETERINARY CLINICAL SCIENCES (1) SEM. 1. SU. Departmental approval. Presentation of thesis research. DVM degree

VBMS 7970 RESEARCH PROBLEMS IN BIOMEDICAL SCIENCES (1-5) RES. Research problems for graduate students, under supervision of faculty, in variety of specialized disciplines related to the biomedical sciences. Faculty approval. Course may be repeated for a maximum of 15 credit hours.

VBMS 7980 NON-THESIS PROJECT (1-3) LEC. 3. SU. Departmental approval. Non-thesis project, to be determined by faculty advisor and student's graduate advisory committee. DVM degree

VBMS 7990 RESEARCH AND THESIS IN BIOMEDICAL SCIENCES (1-10) MST. Credit to be arranged. Course may be repeated with change in topics.

VBMS 8360 ADVANCED EQUINE MEDICINE I: GI DISEASE (2) LEC. 2. Advanced topics in equine gastrointestinal disease are discussed. Topics include pathophysiology, pharmacology, and specific therapy of GI disease in horses. Graduate standing in Biomedical Sciences, College of Veterinary Medicine. Must have DVM or equivalent.

VBMS 8370 ADVANCED EQUINE MEDICINE II: RENAL/ENDOCRINE (2) LEC. 2. Advanced topics in equine renal and endocrine disease are discussed. Topics include pathophysiology, pharmacology, and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8380 ADVANCED EQUINE MEDICINE III: NEUROMUSCULAR (2) LEC. 2. Advanced topics in equine neuromuscular disease are discussed. Topics include pathophysiology, pharmacology, and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8390 ADVANCED EQUINE MEDICINE IV: CARDIORESPIRATORY (2) LEC. 2. Advanced topics in equine cardiorespiratory disease are discussed. Topics include pathophysiology, pharmacology and specific therapies. Graduate standing in Biomedical Sciences, College Veterinary Medicine. Must have DVM or equivalent.

VBMS 8950 BIOMEDICAL SCIENCES SEMINAR (1) SEM. 1. SU. Recent advances in biochemistry, cell biology and molecular biology will be critically presented and discussed by graduate faculty and students.

VBMS 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Veterinary Medicine Courses

VMED 9000 ORIENTATION TO VETERINARY MEDICINE (0) SEM. 1. SU. Overview of organized veterinary medicine, history of the profession, professional responsibilities and privileges, and career opportunities within the profession.

VMED 9010 VETERINARY MEDICAL ETHICS AND LAW (2) LEC. 25. Provide a foundation in veterinary medical ethics and legal issues associated with veterinary medicine. Course may be repeated for a maximum of 6 credit hours.

VMED 9020 VETERINARY MEDICINE AND THE LAW (1) LEC. 13. Laws relating to the veterinary profession, public policies, and government regulations.

VMED 9030 VETERINARY EPIDEMIOLOGY AND ZOONOSES (2) LEC. 30. Basic principles of epidemiology including mechanisms of transmission, disease prevention, diagnosis, and assessment of human health risks. Course may be repeated for a maximum of 6 credit hours.

VMED 9040 VETERINARY FOOD SAFETY (2) LEC. 30. Provide a basic awareness of the most common foodborne diseases and methods to protect consumers from foodborne disease. Course may be repeated for a maximum of 6 credit hours.
VMED 9062 CLINICOPATHOLOGY CONFERENCE CRITICAL THINKING (1) LEC. 14. SU. Review and assessment of material presented in a case-based format by faculty and house officers to develop and refine clinical thinking and critical thinking skills. Course may be repeated with change in topics.

VMED 9110 PHYSIOLOGY I (5) LEC. 72. LAB. 3. Cellular, Cardiovascular, Renal, and Respiratory Physiology.

VMED 9111 VETERINARY ANATOMY I (SMALL ANIMAL) (4) LEC. 44. LAB. 94. Basic concepts of body structure and small animal gross anatomy with veterinary medical applications. Credit will not be given for both VMED 9111 and VBMS 6111.

VMED 9120 PHYSIOLOGY II (4) LEC. 57. Gastrointestinal Physiology, Metabolism, Endocrinology, and Reproductive Physiology.

VMED 9121 VETERINARY ANATOMY II (3) LEC. 38. LAB. 57. In-depth study of the gross anatomy of the ox, horse, and minor species with inclusion of clinical relevance.

VMED 9130 CELL PHYSIOLOGY AND MOLECULAR GENETICS (2) LEC. 29. Introduction to advanced concepts in the mechanisms regulating cell function and molecular biology and genetics.

VMED 9131 BASIC MICROANATOMY/DOMESTICS ANIMALS (3) LEC. 15. LAB. 54. Functional comparative microstructure of cells, basic tissues, cardiovascular system, urinary system, skeleton and osteogenesis, respiratory system, and blood of domestic animals.

VMED 9141 ORGANOLOGY OF DOMESTIC ANIMALS (2) LEC. 5. LAB. 56. Comparative microstructure of the digestive system, lymphoid system, endocrine system, integumentary system, reproductive system, and placentation of domestic animals.

VMED 9150 DIAGNOSTIC IMAGING (2) LEC. 27. LAB. 12. Basic radiographic and ultrasonographic physics; introduction to computed tomography, magnetic resonance imaging, and nuclear imaging.

VMED 9151 VETERINARY NEUROSCIENCES (4) LEC. 44. LAB. 24. Gross and microscopic morphology and physiology of the peripheral and central nervous systems. Course may be repeated for a maximum of 12 credit hours.

VMED 9180 VETERINARY ETHOLOGY (2) LEC. 28. Basic concepts of ethology and other approaches to animal behavior, introduce diagnostic and treatment methods, discuss relevant cases. Course may be repeated for a maximum of 6 credit hours.

VMED 9190 INTRODUCTION TO VETERINARY PHARMACOLOGY (1) LEC. 16. An organized foundation of information to develop clinical thinking skills in veterinary pharmacology. Course may be repeated for a maximum of 16 credit hours.

VMED 9200 VETERINARY PARASITOLOGY I (3) LEC. 37. LAB. 13.5. Platyhelminthes, trematodes, and nematodes of domestic animals.

VMED 9210 VETERINARY PARASITOLOGY II (2) LEC. 17. LAB. 10. Arthropods, protozoa, helminths, and acanthocephalans of domestic animals. Parasiticides.

VMED 9220 PRINCIPLES OF VETERINARY PATHOLOGY (3) LEC. 35. LAB. 20. General principles of pathology and mechanisms of disease processes affecting animals.

VMED 9230 VETERINARY CLINICAL PATHOLOGY (3) LEC. 47. LAB. 8. Laboratory test principles and results interpretations in evaluation of hematopoietic, coagulation, hepatic, renal, gastrointestinal, acid/base and fluid status of animals.

VMED 9240 PRINCIPLES OF VETERINARY IMMUNOLOGY (3) LEC. 41. LAB. 6. Principles underlying the immune system's ability to protect animals from disease and mechanisms by which immune responses contribute to disease.

VMED 9250 VIROLOGY AND PRIONS (2) LEC. 23. LAB. 6. Principles of infectious agents and their pathogenic attributes, infectious diseases of animals, and mechanisms of antimicrobial agents. Course may be repeated for a maximum of 6 credit hours.

VMED 9260 VETERINARY PHARMACOLOGY (3) LEC. 45. LAB. 8. Overview of drugs relevant to veterinary practice; pharmacodynamics, pharmacokinetics, clinical application.

VMED 9262 CLINICAL PHARMACOLOGY AND THERAPEUTICS (1) LAB. 20. Use of group based discussion to create therapeutic plan for specific patients with a target disease. Satisfactory advancement into the second of the professional (DVM) program.

VMED 9270 INTRODUCTION TO CYTOLOGY (1) LEC. 3. LAB. 10. The principles and practice of evaluation of blood films, cytologic preparations, and urine sediments from various veterinary species.
VMED 9280 BACTERIOLOGY AND MYCOLOGY (3) LEC. 34. LAB. 20. Veterinary bacterial and fungal pathogens, diseases caused by each, prevention, treatment and presumptive laboratory diagnoses. Course may be repeated for a maximum of 9 credit hours.

VMED 9301 PHYS DIAG LG AND SMALL ANIMAL (2) LEC. 18. LAB. 30. Basic approach to physical examination of large and small animals.

VMED 9310 INTRODUCTION TO SURGERY (2) LEC. 18. LAB. 19.5. Current standing in the DVM professional curriculum and completion of the first 3 semesters of the professional program. Introduction to the fundamental principles and techniques of veterinary surgery.

VMED 9311 SURGICAL PRACTICUM (1) LEC. 1. LAB. 16. Aseptic technique, instrument handling, suture patterns, surgical ties, anesthetic administration/monitoring, surgical incision/tissue handling, wound closure, postoperative patient management.

VMED 9320 LARGE ANIMAL NUTRITION (2) LEC. 28. LAB. 4. Proper nutrition for health and disease prevention and treatment in large animals in different stages of life. May count either VMED 5320 or VMED 5420. Course may be repeated for a maximum of 6 credit hours.

VMED 9330 EXOTIC COMP. ANIMAL MED. (2) LEC. 30. Care, diagnosis, and treatment of exotic companion animals. May count either VMED 5330 or VMED 5430. Course may be repeated for a maximum of 6 credit hours.

VMED 9340 EMERGENCY MEDICINE AND CRITICAL CARE (2) LEC. 28. Emergency presentations, critical care management.

VMED 9350 VETERINARY TOXICOLOGY (2) LEC. 30. LAB. 15. Poisons and poisonous plants affecting large and small animals, chemical properties, signs, lesions, diagnosis, treatment.

VMED 9360 PRODUCTION PREVENTATIVE MEDICINE (3) LEC. 57. Principles of disease prevention and maximization of production application of food safety principles.

VMED 9370 ONCOLOGY (1) LEC. 17. Diagnostic and therapeutic measures used to manage animals with oncologic diseases.

VMED 9380 PHYSICAL DIAGNOSIS II (1) LEC. 4. LAB. 14. Continued experience in the performance of routine physical examination in small and large animal species. Satisfactory advancement into the second year of the professional (DVM) program.

VMED 9410 APPLIED CLINICAL IMAGING (2) LEC. 2. Define and describe abnormalities of various systems detected through imaging. Course may be repeated for a maximum of 6 credit hours.

VMED 9420 SMALL ANIMAL NUTRITION (2) LEC. 28. LAB. 4. Proper nutrition for health and disease prevention and treatment in large animals in different stages of life. May count either VMED 9320 or VMED 9420. Course may be repeated for a maximum of 6 credit hours.

VMED 9430 POULTRY MEDICINE (2) LEC. 30. The care, diagnosis, and treatment of poultry. May count either VMED 9330 or VMED 9430. Course may be repeated for a maximum of 6 credit hours.

VMED 9502 CURRENT TOPICS IN VETERINARY MEDICINE (1) LEC. 1. SU. Emerging topics in veterinary medicine, current literature. Course may be repeated for a maximum of 15 credit hours.

VMED 9510 HEMOLYMPHATIC SYSTEM (1) LEC. 15. LAB. 6. Diagnosis, treatment and prevention of diseases affecting the integumentary and hemolymphatic systems. Course may be repeated for a maximum of 3 credit hours.

VMED 9520 CARDIOVASCULAR (2) LEC. 25. LAB. 13. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the cardiovascular system.

VMED 9530 RESPIRATORY SYSTEM (3) LEC. 41. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the respiratory system.

VMED 9540 SMALL ANIMAL ALIMENTARY SYSTEM (2) LEC. 34. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment and prevention of diseases affecting the alimentary system. Course may be repeated for a maximum of 6 credit hours.

VMED 9550 URINARY SYSTEM (2) LEC. 29. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment, and prevention of disease affecting the urinary system.
VMED 9560 ENDOCRINE SYSTEM (2) LEC. 25. Pathophysiology, pathologic lesions, diagnosis, treatment and prevention of diseases of the endocrine system.

VMED 9570 REPRODUCTIVE SYSTEM (4) LEC. 66. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment; and prevention of diseases of the reproductive system. Course may be repeated for a maximum of 12 credit hours.

VMED 9580 NERVOUS SYSTEM (2) LEC. 36. LAB. 6. Pathophysiology, pathologic lesions, radiographic and ultrasonographic lesions, diagnosis, treatment, and prevention of diseases affecting the nervous system.

VMED 9590 MUSCULOSKELETAL SYSTEM (3) LEC. 42. LAB. 4. Pathophysiology; pathologic, radiographic and ultrasonographic lesions; diagnosis; treatment; and prevention of diseases affecting the musculoskeletal system.

VMED 9601 VETERINARY CLINICAL ROTATIONS (3) LEC. 3. Clinical experiences through various specialty service in the Veterinary Medical Teaching Hospital. Course may be repeated with change in topics.

VMED 9602 RESEARCH PROBLEMS IN BIOMEDICAL SCIENCE (1-10) RES. SU. Research problems in a variety of specialized disciplines for veterinary students and advanced undergraduates.

VMED 9611 VETERINARY CLINICAL ROTATIONS-ELECTIVES (3) LEC. 3. SU. Clinical experiences through various specialty services in the Veterinary Medical Teaching Hospital. Course may be repeated for a maximum of 9 credit hours.

VMED 9621 CLINICAL ROTATIONS IN VET MED (2) CLN. 80. Clinical practicum experiences in large and small animal teaching hospitals on the veterinary medical campus. Course may be repeated with change in topics.

VMED 9631 ALTERNATE ROTATIONS IN VET MED (2) CLN. 80. SU. Clinical practicum experiences in alternative large and small animal experiences as documented in college procedures. Course may be repeated with change in topics.

VMED 9640 LARGE ANIMAL ALIMENTARY SYSTEM (2) LEC. 36. Pathophysiology, pathologic lesions, diagnosis, treatment and prevention of diseases affecting the large animal alimentary system. Course may be repeated for a maximum of 6 credit hours.

VMED 9670 SPECIAL SENSES SYSTEMS (1) LEC. 19. LAB. 4. Common procedures for evaluation, diagnosis and treatment of eye disorders in domestic species are covered to provide basic veterinary ophthalmology knowledge to veterinary students.

VMED 9700 INTRODUCTION TO ANESTHESIA (3) LEC. 33. LAB. 16. Principles and practices of veterinary anesthesia in large and small animals.

VMED 9710 PRACTICE MANAGEMENT (1) LEC. 1. SU. Fundamental principles of effective client, personnel, practice and business management for the veterinarian.

VMED 9720 DISASTER MEDICINE FOR VETERINARIANS (2) LEC. 1. SU. Pr. (VMED 9111 or VMED 5111). Role of the veterinarian in responding to natural and man made disasters.

VMED 9721 APPLIED ANATOMY I (1) LAB. 3. Pr. VMED 5111 or VMED 9111. Detailed anatomical basis for small animal surgical approaches.

VMED 9731 APPLIED ANATOMY II (1) LAB. 3. Pr. (VMED 9111 or VMED 5111). Detailed anatomical basis for small animal diagnostics and therapeutics.

VMED 9740 APPLIED COMPANION ANIMAL BEHAVIOR (2) LEC. 2. Pr. VMED 9300 or VMED 9180 or VMED 5300 or VMED 5180. Diagnosis, treatment and client education on selected behavior problems in companion animals.

VMED 9741 EQUINE LIMB JOINTS AND FOOT (1) LAB. 3. SU. Pr. VMED 9121 or VMED 5121. A study of the functional anatomy of the joints and foot of the horse fore and hind limbs.

VMED 9750 DIAGNOSTIC VETERINARY ULTRASONOGRAPHY (2) LEC. 2. LAB. 1. Pr. (VMED 9121 or VMED 5121) and (VMED 9150 or VMED 5150). Basic physics, instrumentation, and scanning techniques of ultrasonography. Normal sonographic anatomy correlated with the cross-sectional anatomy of body structures and organs.

VMED 9770 ADVANCED VETERINARY DERMATOLOGY (1) LEC. 1. SU. Pr. VMED 9510 or VMED 5510. Clinical dermatology in a case-based format.
VMED 9790 SMALL ANIMAL WOUND MANAGEMENT AND SURGERY (1) LEC. 1. SU. Pr. (VMED 9510 or VMED 5510) and (VMED 9310 or VMED 5310). Wound management, reconstructive/salvage surgery.

VMED 9800 APPLIED SMALL ANIMAL NEUROLOGY (1) LEC. 1. SU. Clinical management of commonly occurring neurologic diseases of small domestic animals.

VMED 9801 PRECEPTORSHIP (3) LAB. 320. SU. Training in a practice situation under the direct supervision of a veterinarian or, under certain conditions, in specialized programs. Approval of Preceptorship Committee.

VMED 9810 INTEGUMENTARY SYSTEM (2) LEC. 29. LAB. 6. Diagnosis, treatment and prevention of diseases affecting the integumentary system.

VMED 9820 ADVANCED REPRODUCTIVE TECHNIQUES (2) LEC. 2. Pr. VMED 9120 or VMED 5120. Techniques associated with embryo transfer, fetal sexing, in-vitro fertilization, applied and experimental techniques in cattle emphasized.

VMED 9840 WILDLIFE DISEASES (1) LEC. 1. SU. Control and role of veterinarian in prevention of disease in wild animals, specifically wildlife indigenous to U.S.

VMED 9880 EQUINE REPRODUCTION (1) LEC. 1. Reproductive physiology, endocrinology, breeding soundness evaluation, breeding management and advanced technologies.

VMED 9950 CLINICOPATHOLOGIC CONFERENCE (1) SEM. 15. SU. Oral presentation of veterinary clinical case or case material.

VMED 9960 SPECIAL PROBLEMS (1) LEC. 1. SU. Introduction to veterinary literature, evaluation of recent articles, references, reports on veterinary medicine.

VMED 9995 VETERINARY CLINICAL ROTATIONS - EXTERNSHIPS (0) CLN. SU. Successful completion of didactic veterinary curriculum. Students will participate in clinical rotations including specialty rotations.

University College

CONSTANCE C. RELIHAN, Associate Provost for Undergraduate Studies and Director of University College

University College fosters the growth of interdisciplinary and cross-college academic programs, and its programs are designed to provide intellectual opportunities for students whose interests, aptitudes, and career goals range widely across college boundaries. It is the home of the University Interdisciplinary Studies undergraduate major, and the Sustainability, Information and Cyber Analysis, and Leadership minors. The Exploratory Advising Center for incoming freshmen who are in the process of determining the academic major they wish to pursue is also part of University College.

Majors
- Interdisciplinary University Studies (p. 1131)

Minors
- Sustainability Studies (p. 1134)
- Leadership (p. 1132)
- Information and Cyber Analysis (p. 1131)
- Military Science (p. 1139)
- Aerospace Studies (p. 1138)
- Naval Science (p. 1141)

Individuals applying to Auburn as first-time College students have the option to enroll as Exploratory students, without having to select a particular major or college. Exploratory students are advised by a group of cross-trained advisors and career counselors who provide intensive and personalized advising designed to help them choose the major that most closely meets their academic aptitudes and interests as well as their long-term goals. This option does not replace undeclared major options in Liberal Arts, Sciences and Mathematics, or Engineering. Instead, its goal is to assist students who are uncertain which broad academic area they wish to pursue. All students who enter Auburn University as Exploratory students must select a college or specific major by the end of their second semester. Students who enter Auburn as transfer students are not eligible to enroll as Exploratory.

Interdisciplinary Studies Courses
- IDSC 2190 FOUNDATIONS OF INTERDISCIPLINARY UNIVERSITY STUDIES (3) LEC. 3. Introductory course to the theories and approaches for Interdisciplinary Degree seeking majors. Students will work alongside academic and career advisors to produce an approved plan of study.
- IDSC 4930 INTERDISCIPLINARY CAPSTONE EXPERIENCE (3) LEC. 3. Pr. IDSC 2190 or UNIV 2190. Capstone course designed to apply Interdisciplinary Degree Coursework to a senior thesis project. Course may be repeated for a maximum of 6 credit hours.
- IDSC 4980 INTERDISCIPLINARY CAPSTONE EXPERIENCE (3) LEC. 3. SU. Pr. (IDSC 2190 or UNIV 2190). Pr. IDSC 2190 or UNIV 2190, passed with a grade of C or better; admitted to the IDSC degree program. Capstone course designed to apply Interdisciplinary Degree Coursework to a service learning, or internship project. Course may be repeated for a maximum of 6 credit hours.
- IDSC 5950/5953 GRADUATE FOOD SYSTEMS SEMINAR (1) SEM. 1. This is a required course for graduate students in the Food Systems Graduate Certificate Program. Discussion and presentation of integrated and interdisciplinary food system topics. Course may be repeated for a maximum of 2 credit hours.

Leadership Courses
- LEAD 2000 FOUNDATIONS OF LEADERSHIP (3) LEC. 2. LAB. 1. Introductory course for students pursing the Leadership Minor.
- LEAD 4000 LEADERSHIP IN PRACTICE (3) LEC. 3. Capstone course in interdisciplinary leadership minor.

Sustainability Studies Courses
- SUST 2000 INTRODUCTION TO SUSTAINABILITY (3) LEC. 3. Introduction to the interdisciplinary study of sustainability. May count either SUST 2000 or HONR 1027/HONR 1037.
SUST 4900 DIREC TED STUDIES IN SUSTAINABILITY (1-3) IND. SU. Departmental approval. Advanced individual research and/or coursework in the field of sustainability studies. Course may be repeated for a maximum of 3 credit hours.

SUST 5000 SENIOR CAPSTONE IN SUSTAINABILITY (3) LEC. 3. Pr. SUST 2000. Capstone research seminar for students completing the Minor in Sustainability Studies.

Information and Cyber Analysis Minor

*Cyber* is more than a computer network, but also a realm of numerous social processes that includes legitimate and illegitimate activities. The increasing complexity of technology for cyber security, information assurance and critical infrastructure require personnel capable of dealing with complex data sets and having problem solving skills that transcend traditional academic boundaries. This interdisciplinary program is designed to meet the educational needs of the students by providing a wide exposure to analytically-oriented classes throughout the university.

</tbody>
</table>

Admission Requirements:

- Application Form
- Writing Sample

Continuation Requirements:

- 12 of 15 hours must consist of upper division courses unless an exception is approved.
- Successful completion and/or re-certification of Intelligence Oversight (I/O) training and CITI Basic course.
- Students must maintain a portfolio of relevant documents and material.

Total Hours 15

Interdisciplinary University Studies (IDSC)

The Bachelor of Science in Interdisciplinary University Studies allows students to attain a broad education and acquire diverse skill sets unique to a profession they desire to enter. Students seeking an Interdisciplinary University Studies degree have the opportunity to create a personalized academic program by customizing a curriculum that demonstrates proficiency in broad skills as well as discipline-specific knowledge.

Admission is determined by application. For admission, a student must first complete Foundations of Interdisciplinary University Studies (IDSC 2190) with a grade of C or better and complete a program application that includes an application essay and an approved individualized plan of study. In the Foundations course, students learn about interdisciplinary studies in general and also craft an individualized degree plan. Students must have completed at least 30 hours of coursework prior to being admitted. Students with more than 90 hours of coursework must receive special permission to be admitted to the major.

Beginning in fall 2015, incoming freshmen admitted into the Honors College will be allowed to declare IDSC as their major. Students who do this must take IDSC 2190 during their first or second semester enrolled in classes at Auburn and have a completed and approved plan of study before the start of their third semester at Auburn. They will be required to take ENGL 1120 or 1127 as a co-requisite for IDSC 2190 if they do not have advanced placement credit for the first composition course. Honors College students who fail to pass IDSC 2190 with a grade of C or better or who fail to submit a plan of study and essay during their first or second semester enrolled at Auburn will be required to declare a new major at the start of their third semester enrolled at Auburn. The individual plan of study developed by an Honors College student will be reviewed by the Director of IDSC to determine if the plan meets the requirements of the major.

Students who have completed Foundations of Interdisciplinary University Studies (IDSC 2190) with a grade of C or better may submit an application. Students admitted to the major must also earn a grade of C or better in Public Speaking (COMM 1000), and in one written communication class to be selected from Technical Writing (ENGL 3040), Business Writing (ENGL 3080) or Advanced Composition (ENGL 4000). Students may elect to use COMM 1000 to meet 3 hours of the Humanities Core requirements. All students must also complete a capstone experience (IDSC 4930 or IDSC 4980) with a grade of S in IDSC 4930 or a grade of C or better in IDSC 4980. In the capstone experience, students integrate acquired knowledge through a research project (IDSC 4930), service
Leadership Minor

Minor in Leadership

Auburn University offers an interdisciplinary Leadership Minor (LEAD). In order to pursue a minor in leadership, students should file a Plan of Study, in consultation with the LEAD advisor/coordinator as early as possible. The Plan of Study is ideally completed within

Additional information about the major can be found at http://www.auburn.edu/academic/provost/undergrad_studies/IDSC.
the first semester of taking courses toward the minor. The completion and filing of the Plan of Study is a prerequisite to enrolling in the senior capstone class in the LEAD. Courses required in the student’s major may not be counted toward the minor even if they are on the list of accepted courses. Courses counted toward Core Curriculum requirements may not be counted toward the minor. At least 3 hours must be taken from each of five competency areas, with 9 of the 15 hours at the 3000 level or above. The competency areas are: I. Leadership Knowledge and Theory, II. Communication, III. Problem Solving and Decision Making, IV. Vision of Civic and Social Responsibility, and V. Service Learning.

Interdepartmental Undergraduate Programs

Biosystems Engineering (BSEN)
The curriculum in Biosystems Engineering is coordinated by the Samuel Ginn College of Engineering and prepares students for productive careers in the biosystems industries and related natural resource and environmental systems sectors. See the Department of Biosystems Engineering (p. 550) in the Samuel Ginn College of Engineering for further information.

Ecological Engineering (ECEN)
The curriculum in ecological engineering is coordinated by the Samuel Ginn College of Engineering and prepares students to solve environmental problems by applying engineering knowledge to natural ecological and biological systems. See Department of Biosystems Engineering (p. 550) in the Samuel Ginn College of Engineering for further information.

Environmental Science (ENVI)
The curriculum in environmental science is an interdepartmental program based on the strengths of Auburn University in the engineering, biological and physical sciences. See the Department of Crop, Soil and Environmental Sciences (p. 166) in the College of Agriculture for further information.

Forest Engineering (FOEN)
The curriculum in Forest Engineering is coordinated by the Samuel Ginn College of Engineering and the School of Forestry and prepares students for professional careers in forest products industry and related natural resource and environmental systems sectors. See the Department of Biosystems Engineering (p. 550) in the Samuel Ginn College of Engineering for further information.

Materials Engineering (MATL)
The curriculum in materials engineering is an interdisciplinary curriculum conducted cooperatively by departments in the Samuel Ginn College of Engineering and the College of Sciences and Mathematics. See the Department of Mechanical Engineering (p. 611) in the Samuel Ginn College of Engineering for further information.

Military Science (AROTC) Courses

MILS 1010  INTRODUCTION TO ARMY ROTC I (1)  LEC. 1. Introduction to the Reserve Officer Training Corps and the US Army.

MILS 1011  INTRODUCTION TO ARMY ROTC I LABORATORY (1)  LAB. 3. Introduction to the Reserve Officer Training Corps and the US Army.

MILS 1020  INTRODUCTION TO ARMY ROTC II (1)  LEC. 1. Introduction to the Reserve Officer Training Corps and the U.S. Army.

MILS 1021  INTRODUCTION TO ARMY ROTC II LABORATORY (1)  LAB. 3. Coreq. MILS 1020. Introduction to the Reserve Officer Training Corps and the U.S. Army.

MILS 2010  SELF TEAM DEVELOPMENT (1)  LEC. 1. Learn and apply ethics-based leadership skills that develop individual attributes and contribute to effective team building.

MILS 2011  SELF/TEAM DEVELOPMENT LABORATORY (1)  LAB. 2. Coreq. MILS 2010. Learn and apply ethics-based leadership skills that develop individual attributes and contribute to effective team building.

MILS 2020  INDIVIDUAL/TEAM MILITARY TACTICS (1)  LEC. 1. Introduction to individual and team aspects of military training in small unit operations.

MILS 2021  INDIVIDUAL/TEAM MILITARY TACTICS LABORATORY (1)  LAB. 2. Introduction to individual and team aspects of military training in small unit operations.

MILS 3010  LEADING SMALL ORGANIZATIONS I (2)  LEC. 2. Coreq. MILS 3011. Introduction to squad level planning and operations. Admittance into the Advanced Course of Army ROTC.

MILS 3011  LEADING SMALL ORGANIZATIONS I LABORATORY (1)  LAB. 4. Practical application of the foundational skills of small unit leadership. Admittance into Advanced Course Army ROTC.

MILS 3020  LEADING SMALL ORGANIZATIONS II (2)  LEC. 2. Pr. MILS 3010 and MILS 3011. Coreq. MILS 3021. Introduction to platoon-level planning and operations and the U.S. Army Training Management System.

MILS 3021  LEADING SMALL ORGANIZATIONS II LABORATORY (1)  LAB. 4. Pr. MILS 3010 and MILS 3011. Series of practical opportunities to lead small groups, receive performance assessments and coaching, and lead again in situations of increasing complexity.
MILS 3030 HISTORY OF THE UNITED STATES ARMY (3) LEC. 3. Survey of the history of the United States Army from the colonial era to present.

MILS 4010 LEADERSHIP CHALLENGES AND GOAL-SETTING (2) LEC. 2. Pr. MILS 3020 and MILS 3021. Plan, conduct and evaluate training and organizational cohesion.

MILS 4011 LEADERSHIP CHALLENGES AND GOAL-SETTING LABORATORY (1) LAB. 4. Pr. MILS 3020 and MILS 3021. Plan, conduct and evaluate training and activities of the ROTC cadet organization.

MILS 4020 TRANSITION TO LIEUTENANT I (2) LEC. 2. Pr. MILS 4010 and MILS 4011. Identify and resolve ethical dilemmas. Refine counseling and motivating techniques.

MILS 4021 TRANSITION TO LIEUTENANT I LABORATORY (1) LAB. 4. Pr. MILS 4010 and MILS 4011. Coreq. MILS 4020. Practical application of the principles taught in MILS 4020.

MILS 4040 THE ARMY PROFESSION (0) LEC. 1. SU. U.S. Army current trends and affairs. Army policies and programs. Completion of Army ROTC Advanced Course or Early Commissioning Program.

Naval Science (NROTC) Courses

NAVS 1010 INTRODUCTION TO NAVAL SCIENCE (3) LEC. 3. Basic areas of Naval Science including uniforms and insignia, military courtesy, discipline, warfare components, organizational structure, and supporting elements of the U.S. Navy and U.S. Marine Corps.

NAVS 1011 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military instruction.

NAVS 1020 SEAPower AND MARITIME AFFAIRS (3) LEC. 3. Coreq. NAVS 1021. Introduction to broad principles, concepts and elements of naval history, seapower, and maritime affairs from past to present.

NAVS 1021 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 1020. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction. Course may be repeated with change in topics.

NAVS 2010 LEADERSHIP AND MANAGEMENT (3) LEC. 3. Fundamentals of leadership and management theory vital to the effectiveness of Navy/Marine Corps officers.

NAVS 2011 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 2010. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction.

NAVS 2021 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 2060. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction.

NAVS 3011 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 3050. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction.

NAVS 3021 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction.

NAVS 3030 EVOLUTION OF WARFARE (3) LEC. 3. Pr. P/C NAVS 3011 or P/C NAVS 3021. Forms of warfare practices to identify historical continuity and change in the evolution of warfare. Explores the impact of historical precedent, economic factors and technological change on politico-military thought and action.

NAVS 3050 NAVAL SHIP SYSTEMS I (ENGINEERING) (3) LEC. 3. Coreq. NAVS 3011. Principles of ship design, construction, and stability. Introduction to thermodynamics and the steam cycle as applied to naval propulsion systems.

NAVS 3060 NAVAL SHIP SYSTEMS II WEAPONS (3) LEC. 3. Coreq. NAVS 3021. Theory and employment of systems through a study of fundamental principles of sensor, tracking, computational, and weapons delivery subsystems.

NAVS 4011 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 4050. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction.
NAVS 4020 LEADERSHIP AND ETHICS (3) LEC. 3. Pr. NAVS 2010. Departmental approval. Integrates an intellectual exploration of Western moral traditions and ethical philosophy with a variety of topics, such as military leadership, core values, and professional ethics.

NAVS 4021 NAVAL SCIENCE LABORATORY (0) LAB. 3. SU. Coreq. NAVS 4020. Required for commission in Navy/Marine Corps. Includes naval drill, physical fitness and general military leadership instruction. Course may be repeated with change in topics.

NAVS 4050 NAVAL OPERATION AND SEAMANSHIP (3) LEC. 3. Coreq. NAVS 4011. Inland and International law governing maritime operations, communication procedures, and other naval/maritime operational procedures.

Air Force Aerospace Studies

LIEUTENANT COLONEL JEFFREY H. WELBORN
Commander, AFROTC Det 005
Professor of Aerospace Studies
Auburn University (334) 844-4355

Four-Year Program
The Air Force Reserve Officer Training Corps (ROTC) is an educational program designed to give men and women the opportunity to become an Air Force officer while completing an undergraduate degree. The Air Force ROTC program is designed to teach the necessary skills needed to accept the challenging opportunities encountered in the Air Force. Air Force ROTC offers a pathway from college to many exciting career possibilities as an Air Force officer: flying, engineering, intelligence, computer systems, aircraft maintenance, management, etc. Interested students should contact the Air Force ROTC department (www.auburn.edu/afrotc); det005@maxwell.af.mil; 243 Nichols Center; 334-844-4355).

General Military Course (GMC)
The GMC is the first half of the program and is taken during the freshman and sophomore years. This program allows the student to “try out” Air Force ROTC without obligation (students on an Air Force ROTC scholarship incur an obligation upon the start of their second GMC year). During the first two years, the student will learn basics about the Air Force and the historical development of airpower. GMC students may be eligible to compete for an Air Force ROTC scholarship that pays tuition and fees, and provides both an allowance for books and a non-taxable monthly stipend while school is in session. The classes are one semester hour each. During the spring semester of the sophomore year, the student will compete for the opportunity to attend a four-week Field Training encampment (see Field Training section below for additional information). Successful completion of field training is mandatory for entrance into the Professional Officer Course (POC), the junior and senior years of the program. Qualified students may enroll in both freshman and sophomore classes at the same time and spend only one year in the GMC if they are already in college and need only three more years to graduate.

AIRF 1010/1020 The Foundations of US Air Force 1
AIRF 2010/2020 Evolution of US Air and Space Power 1

Professional Officer Course (POC)
The POC is the second half of the program, taken during the junior and senior years. These classes are three semester hours each. POC students take on leadership roles, planning and running most cadet activities. This gives them valuable experience that prepares them to become an officer. Students in selected degree programs (e.g. engineering) may spend a third year in the POC to complete their degree. All POC members receive a monthly stipend, and those with an Air Force ROTC scholarship continue with their benefits (tuition, fees, books allowance). As a junior, the student will learn about various leadership roles and management techniques needed to become an effective Air Force officer. During the senior year, students will learn about foreign policy and national security while preparing them for entrance into active duty.

AIRF 3010/3020 Air Force Leadership Studies 3
AIRF 4010/4020 National Security Affairs and Preparation for Active Duty 3
Leadership Laboratory (LLAB)

Each Air Force ROTC student pursuing a commission in the Air Force is required to attend Leadership Laboratory; students not qualified for or not pursuing a commission may not enroll. Leadership Laboratory consists of a two-hour class, two one-hour periods of Physical training (PT) and up to two additional hours of practical military training each week. Although no academic credit is awarded by the university, LLAB is an essential part of officer training. It is a cadet-centered program where the student will learn such things as military customs and courtesies, drill and ceremonies, and proper wear of uniform, as well as develop their physical fitness. On occasion, the student will have the opportunity to hear guest speakers discuss a variety of interesting and stimulating topics or participate in fun team-building activities such as bowling and paintball.

Field Training (FT)

Cadets completing the General Military Course attend four weeks of FT during the summer at Maxwell Air Force Base, Alabama, and Camp Shelby, Mississippi. This rigorous program of leadership training, physical conditioning and academics assesses the cadet’s potential to be an Air Force officer. Additionally, cadets also receive survival and firearms training, career information and one or more military aircraft orientation flights. Cadets receive travel pay and a daily allowance for attending FT.

Air Force ROTC Scholarships

Air Force ROTC offers scholarships on a competitive basis to high school seniors and college students. These scholarships are offered to highly qualified students, primarily in scientific/technical majors or nursing. Please visit www.afrotc.com (http://www.afrotc.com) for the latest information about scholarships.

Aerospace Studies Minor

The Department of Aerospace Studies offers a minor under the following conditions. Fifteen semester hours are required, nine of which must be upper-level. A maximum of six credit hours must be utilized from AIRF 3010, AIRF 3020, AIRF 4010, or AIRF 4020. The remaining nine hours will come from electives determined by the department. See Core Curriculum (p. 84) for limitation.

Military Science

MAJOR ROSHUN STEELE
Commander and Professor of Military Science
The purpose of the Army ROTC program is to select, train, and motivate the future leadership of the active Army, Army National Guard and Army Reserve. The curriculum is available to both men and women and prepares students to become effective leaders and managers in a variety of challenging fields.

The Army ROTC curriculum is divided into two courses: a General Military Course open to all students and an Officer Development Course for qualified juniors, seniors and graduate students. The General Course serves to acquaint Auburn students with the Army and its role in our society; The Officer Development course prepares students for service as commissioned officers. Successful completion of both courses and award of a bachelor’s degree constitute the normal progression to earning a commission as a Second Lieutenant. Students undecided about pursuit of a commission may participate in the General Military Course. This affords freshman and sophomore students the opportunity to make an informed decision on the advantages of an officer’s commission while incurring no military obligation.

**General Military Course (The Basic Course)**

The Basic Course consists of a four-semester block of instruction normally taken during the freshman and sophomore years. Successful completion of MILS 1010, MILS 1020, MILS 2010 and MILS 2020 together with the associated labs (MILS 1011, MILS 1021, MILS 2011 and MILS 2021) satisfies the academic requirements for progression to the Officer Development Course. Two credit hours per semester are earned for the lecture and lab. Subject to departmental approval, students may complete all four courses in one academic year.

**Curriculum in the General Military Course**

The basic military science courses provide unique classroom and hands-on instruction in orienteering, small unit tactics, first aid, physical fitness, and leadership skills. They introduce the student to the Army as a profession, lay the foundation of value-based, ethical decision-making, illuminate the Army’s place in society and lay the foundation for the Officer Development Course that follows. The Professor of Military Science may admit the student to the Advanced Program upon completion of these courses.

Courses are offered in the fall and spring semesters and credits earned may be applied as elective credits toward degree requirements in all schools of the university.

**Optional Leadership Training Course**

Otherwise qualified students who are unable to complete the Basic Course during their freshman and sophomore years may qualify for admission to the Advanced Course by successfully completing the Leadership Training Course at Fort Knox, Kentucky.

The Leadership Training Course consists of approximately four weeks of training conducted during the summer months. Students desiring to exercise this option are required to submit a formal application and pass a general physical. Students who participate in the Leadership Training Course will receive approximately $700 in addition to travel expenses to and from Fort Knox. Uniforms, housing, medical care and meals are furnished by the government during training.

Interested students are strongly encouraged to enroll in a military science course and laboratory during the spring semester. Deadline for applications is March 15, all applicants must contact the Military Science Department no later than March 1.

**Officer Development Course (The Advanced Course)**

Successful completion of the General Military Course or approved alternative training, a minimum 2.0 grade-point average, and medical qualifications are pre-requisites for enrollment in the Officer Development Course. Service veterans, transfer students from junior or military colleges, members of the National Guard or Army Reserve, and former military academy cadets may qualify for direct entry into the Officer Development Course two academic years before their projected graduation.

The Advanced Course is designed to develop a candidate’s leadership and management potential, physical stamina, and poise, as well as the character traits desired of an Army Officer. The program’s objective is to produce the highest caliber junior officer, fully capable of accepting command in the modern Army, exercising management responsibilities and serving the broader community.

The Advanced Course consists of a four-semester block of instruction taken during the junior and senior years (MILS 3010, MILS 3020, MILS 4010 and MILS 4020). Successful completion of the courses, together with a leadership laboratory (MILS 3011, MILS 3021, MILS 4011 and MILS 4021) each semester fulfills military science academic requirements for award of an officer’s commission. Three credit hours per semester are earned for the lecture and laboratory. Students currently receive a tax-free subsistence allowance of $450 (juniors) and $500 (seniors) while enrolled.

Students enrolled in the Officer Development Course are required to successfully complete approximately four weeks of leadership training at Fort Lewis, Washington, during the summer to become eligible for commissioning. Attendance at the Leadership
Development Assessment Course normally occurs in the summer following the junior year. The purpose of the course is to provide each candidate hands-on experience in leadership development as well as extensive training in military tactics, techniques and related subjects vital to success as a junior officer. Students attending the Leadership Development Assessment Course receive approximately $700 in addition to travel expenses to and from Fort Lewis. Uniforms, housing, medical care and meals are furnished by the government during the training.

Additional voluntary training at one or more of a variety of active Army service schools is available to select students each summer. Students may apply for attendance at Airborne School, Air Assault School, The Northern Warfare Training Center and Cadet Troop Leadership Training. Students who successfully complete the appropriate course are authorized to wear the Parachutist, Air Assault or other applicable skill badge.

Students who successfully complete the Army ROTC curriculum, and earn a bachelor’s degree, serve on active duty or with the Army National Guard or Army Reserve. Active duty is for a period of three or four years with the opportunity for qualified officers to apply for extended service. Current salary and allowances for a single Second Lieutenant exceed $42,000. Medical and other benefits are also provided at no cost.

**Professional Military Education Requirements**

All Army ROTC cadets seeking a commission are required to pass a Written Communication Skills course (currently fulfilled by the University Core Curriculum) and World Military History (HIST 3640). An alternate military history course may be substituted with the approval of the Professor of Military Science.

**Simultaneous Membership Program**

Second, third- and fourth-year students are eligible to participate in the Simultaneous Membership Program with the Army National Guard or Army Reserve. Students participating in this program affiliate with an Army unit as a student officer, thus affording them the opportunity for enhanced leadership development. Students in this program receive a salary, additional tax-free benefits and GI Bill educational benefits (if otherwise qualified).

**Military Science Minor**

The Department of Military Science offers a minor under the following conditions. Seventeen semester hours in Military Science [MILS] are required, including 12 at the 3000/4000-level, and a three-hour 3000-level Military History course and a two-hour PHED 1263, Military Fitness for everyone.

**Scholarship Programs**

Each year the Army offers a limited number of four-year, three-year and two-year scholarships to those young men and women who have demonstrated outstanding scholastic, athletic and leadership potential. Scholarships are available on a campus competitive basis and pay most or all of the cost of tuition, textbooks, supplies and fees for both resident and non-resident students. Additionally, scholarship students receive a $300 to $500 month tax-free allowance.

**Army Nurse Corps Option**

Students enrolled in the School of Nursing curriculum leading to the degree of bachelor of science in nursing may simultaneously pursue commissions as Second Lieutenants in the Army Nurse Corps.

Nursing students qualify for entry into the Officer Development Course by the same methods as other candidates and participate in the same summer Leadership Development Assessment Course as well. Nursing students may also receive practical and leadership experience during an additional nursing training program in a clinical setting at an Army hospital. The focus is to provide nursing cadets an experience that integrates clinical, interpersonal, and leadership knowledge and skills. Emphasis is on practical experience under the direct supervision of an Army Nurse Corps Officer who acts as the cadet’s preceptor throughout the training period.

Nursing students compete for scholarships only against other nursing students and are eligible to compete for fully funded advanced schooling after serving an initial tour (three to four years) of active duty. Nurse Corps officers selected for advanced degree programs draw their regular salary and benefits while pursuing a specialized degree at Army expense. Participants in this program incur an additional active duty service obligation.

**Naval Science**

CAPTAIN PAUL M. ESPOSITO
The mission of the Naval Reserve Officer Training Corps is to develop NROTC students mentally, morally, and physically and to imbue them with the highest ideals of duty, honor, and loyalty; to commission college graduates as naval officers who possess a basic professional background, are motivated toward careers in the naval service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. All NROTC programs are open to qualified applicants. All Naval Science courses of one or more credits are open to all Auburn students regardless of affiliation with the NROTC Program.

To be eligible for enrollment as a midshipman, an applicant must be a United States citizen; have no moral obligations or personal convictions that will prevent bearing of arms, and supporting and defending the Constitution of the United States against all enemies, foreign and domestic; meet age requirements of at least 17 years on or before 1 September of the year of enrollment and less than 27 years on 30 June of the year an applicant expects to graduate; meet physical requirements for the NROTC Program; and be accepted for admission as a full-time student at Auburn University. Applicants with prior or current active duty in the U.S. Armed Forces may be granted age waivers equal to the number of months served, not to exceed 36 months. Those granted the maximum age waiver must be less than 30 years of age on 30 June of the year they expect to graduate.

NROTC Programs

Four-Year NROTC Navy-Marine Corps Scholarship

Entrance into the Navy-Marine Corps Scholarship Program is via nationwide competition. Applicants typically apply during their senior year of high school, but anyone who meets eligibility requirements and has completed less than 30 semester hours of college credit may apply. Qualifications for enrollment, applications, and information bulletins are available at https://www.nrotc.navy.mil, high schools, colleges, recruiting stations, and the Auburn NROTC Unit, located on the second floor of W. F. Nichols Center. The Department of the Navy pays tuition, fees, $375 per semester for textbooks, and provides a monthly stipend. Freshmen on scholarship receive $250, sophomores $300, juniors $350, and seniors $400 per month. Active duty pay for summer training is approximately $560 per month with living quarters and meals provided. The NROTC program divides degrees into three Tiers with Tier I containing engineering majors, Tier II remaining technical majors and Tier III liberal arts (for a complete list, see the Auburn NROTC home page. Tiers do not apply to Marine Options). Although the program emphasizes engineering and science majors, students may enroll in any Auburn University major leading to a baccalaureate degree. In addition to the requirements of their major, scholarship students must complete 24 semester hours (21 for Marine Options) of Naval Science courses, calculus I and II (Navy option only), calculus-based physics I and II (Navy option only), a military history/national security policy course and a world cultures course. Summer activities include two at-sea training cruises and one summer period of career orientation lasting approximately four weeks. Marine Option students participate in a six-week office candidates school, in Quantico, VA in lieu of the second at-sea training cruise. Successful completion of the ROTC program leads to a commission as an Ensign, U.S. Navy, or Second Lieutenant, U.S. Marine Corps.

College Program

The College Program is a non-scholarship option that offers a two, three, or four year program. There is no calculus or physics requirement and no preference for technical majors. Interested students should apply directly to the Auburn NROTC Unit during their senior year of high school for the four year program. Those already at Auburn should apply the spring of their freshman year for the three-year program or the spring of their sophomore year for the two-year program (two year not available for Marine options). The program pays for uniforms and instructional fees for Naval Science courses. College Program students selected for advanced standing prior to their junior year receive a stipend for a maximum of 20 months. Advance standing is only available starting the junior year of college. Stipend per academic month is $350 junior year and $400 senior year. College Program students will complete Naval Science and other university courses, a few specific university courses, and attend one summer training session at sea for Navy Option midshipmen or Quantico, VA, for Marine Option midshipmen. Upon graduation, College Program midshipmen may be commissioned Ensigns, U.S. Navy, or Second Lieutenants, U.S. Marine Corps.

Uniforms, Naval Science textbooks, and equipment necessary for the NROTC Program are furnished in all programs.

Active Duty Service Requirements upon Graduation

Active duty service requirements for scholarship midshipmen vary depending on the warfare area they enter. The basic requirement is eight years, five of which must be on active duty. The remaining three years may be completed on active duty or in the reserves. Specific requirements per warfare community are as follows:

- Surface and Submarine Warfare - 8 years total, at least 5 on active duty
- Naval Aviator (Navy and Marine pilot) - 8 years active duty after qualification as a Naval Aviator
• Naval Flight Officer (Navy and Marine non-pilot aviators) - 6 years active duty after qualification as a Naval Flight Officer
• Marines and Nurse Corps - 8 years total, at least 4 on active duty

Curriculum

The Naval Science curriculum consists of one 3-credit class per semester for eight semesters. In addition, all NROTC students attend two 0-credit Naval Science laboratory class periods and two one-hour physical training sessions per week. Naval Science subjects are listed in this Bulletin. Naval Science course hours are considered part of the normal load, which is defined as 15 to 18 credits per semester. Six hours of Naval Science may be used as electives in any major.

Naval Science Minor

The Department of Naval Science offers a minor to any student, regardless of NROTC affiliation, who completes 15 semester hours of Naval Science, nine semester hours must be courses numbered 3000 or above. The following courses qualify:

Admissions

Admission Requirements

Departments make admissions decisions based on the compatibility of the applicant’s goals with departmental resources, the availability of spaces for new students, and a holistic evaluation of the applicant’s potential for success in the program. Other considerations might typically include standardized test scores, grades and/or GPAs, letters of recommendation, writing samples, research or applied experience, and interviews.

To be considered for admission, the applicant must satisfy the following requirements:

1. The applicant must hold a bachelor’s degree from an accredited U.S. institution or provide proof of equivalent training from a recognized academic institution outside the United States. Equivalency is determined by international evaluators in the Graduate School.

2. The applicant must be in good standing.

3. The applicant must submit standardized examination scores (GRE, GMAT, TOEFL, and/or IELTS) if required for application to the degree program. Applicants with an earned doctorate (Professional, EdD, PhD) from an accredited institution whose instruction is in English may be exempted from this requirement.

4. The successful applicant normally will meet one of the following: a) a GPA of at least 2.75 on all undergraduate course work at an accredited United States institution in fulfillment of the requirements for a baccalaureate degree; b) a GPA of at least 3.0 on all graduate course work at an accredited United States institution in fulfillment of the requirements for a graduate degree; or c) an acceptable GRE or GMAT score as determined by the program to which the applicant applies.

5. Applicants whose native language is not English must submit: 1) TOEFL scores of at least 550 on the written test (213 on the computer-based test); 2) 79 on the Internet Based Test with at least 16 in each section; 3) IELTS overall band score of at least 6.5; or 4) demonstrate English proficiency during an oral examination (interview) satisfactory to the examining committee and approved by the graduate dean.

6. The applicant must be recommended for admission by the graduate faculty in the applicant’s area of study. Departments may (and frequently do) establish higher standards than those described here, and may require that applicants submit additional materials. Applicants should contact the department to which they seek admission for information about additional requirements.

7. The applicant must disclose all institutions beyond secondary school, including Auburn University, which the applicant has previously attended; similarly, all course work and/or degrees must be disclosed. Withholding information requested on the
application for admission, including attendance at any other institution, or giving false information, may make the applicant ineligible for admission to the university or subject to dismissal.

Final evaluation of application files will not occur until all of the above requirements have been met. Applicants will be notified by the dean of the Graduate School when an admissions decision has been made. Some departments, operating with a limited number of spaces for students each year, make final decisions for the fall semester in early spring.

Policies and Procedures for Admissions

Auburn University is an equal-opportunity educational institution, and as a matter of policy, does not discriminate in its admissions policy on the basis of race, color, sex, religion, disability, sexual orientation, age, or national origin. Applications for resident and non-resident students are accepted for all curricula; however, the number of students and academic credentials of the applicants accepted for admission are determined by the availability of facilities and faculty.

Admission of Transfer Students

Transfer applicants must provide official transcripts (not duplicated or faxed copies) from each college attended, including any at which the applicant enrolled while in high school. A minimum 3.00 cumulative GPA on a 4.0 scale on all college work attempted and eligibility to re-enter the institution last attended are required to be considered for transfer admission.

Application for Admission

To apply for graduate study, submit to the Office of Graduate Admissions:

1. A formal application. Applications for admission are submitted online at www.grad.auburn.edu. Domestic applications must be accompanied by a fee of $60; international applications must be accompanied by a fee of $70. These fees may be paid online via credit cards or by checks or money orders (made payable to Auburn University).

2. One official transcript of all undergraduate- and graduate-level study from each school previously attended. An applicant who, because of current enrollment, cannot provide final transcripts at the time of application, must submit transcripts of all completed study, as well as incomplete transcripts from the current institution. Applicants do not need to provide transcripts for credits earned at Auburn University.

3. Standardized Graduate Record Examinations (GRE) general test scores are required for admission in all departments except the following: Clinical Mental Health Counseling; Industrial Design; Integrated Design and Construction; Landscape Architecture; Nursing; School Counseling; and Real Estate Development. The Physicians MBA program and the Executive MBA program do not require any standardized test for admission. The following programs require the Graduate Management Admissions Test (GMAT): Accountancy; Aviation and Supply Chain Management; Finance; and MBA. The following programs require the GRE or the GMAT: Hospitality Management and Management (GMAT preferred). The master of business administration program will allow the substitution of the GRE for the GMAT under some circumstances. International applicants must also submit Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) scores. Applications and dates for these tests may be obtained at many colleges and universities; by writing the Educational Testing Service, P.O. Box 6000, Princeton, NJ 08541-6000; by telephoning (609) 771-7670 for the GRE, (609) 771-7330 for the GMAT, or (609) 771-7100 for the TOEFL; or by accessing the Educational Testing Service website at www.ets.org.

4. Additional Materials. Academic programs typically require additional materials to evaluate an applicant’s potential for graduate study. Prospective students must also contact the department in which they wish to study to obtain information regarding additional admission requirements, such as writing samples and letters of recommendation. With the exception of the application, official transcripts, and standardized test scores, which should be sent to the Graduate School, materials requested by programs should be sent directly to the academic department.

Admission to any graduate degree program is granted by the dean of the Graduate School upon the recommendation of the department of proposed study. Applications and all other relevant material must be received by the Graduate School at least 45 days before the first day of class of the semester in which the student wishes to begin graduate study. International applicants should submit all required materials at least 90 days before the first day of class of the semester in which the student wishes to begin graduate study. Deadlines set by the Graduate School are listed in the front of this Bulletin. However, most academic units make admission decisions several months in advance. Thus, applicants should check with the department to which they seek admission to determine when materials should be submitted. Approval is valid for a maximum of 12 months beyond the beyond the entrance date given on the application, with the approval of the program admitting the student. If the student does not register during this period, a new request for approval must be submitted. Application materials become the property of Auburn University and may not be returned to the applicant or forwarded to other institutions.
Admission of Transient Graduate Students

A graduate student in good standing in an accredited college or university may be admitted as a transient when faculty and facilities are available. To be eligible, the student must submit a special Graduate Transient Form prior to the beginning of the semester for which transient status is requested. The form, available from the Graduate School or on the Web at www.grad.auburn.edu, must bear the signature of the student’s department head and graduate dean or his/her designee. Transient status is granted for one semester only and does not constitute admission or matriculation as a degree candidate.

Conditional Admission

First-time applicants to Auburn University’s Graduate School who hold the bachelor’s degree from an accredited U.S. institution (or who provide proof of equivalent training from a recognized academic institution outside the United States) and who are otherwise academically qualified but who do not meet certain other requirements for admission may be admitted on a conditional basis.

These other requirements include but are not limited to the following: 1) scores above the minimum required on standardized tests of English language proficiency, 2) scores above the minimum required on the GRE or GMAT, or 3) the submission of official documentation (e.g., transcripts).

Departments may set higher standards or may not consider students for conditional admission.

International students whose English language proficiency is marginally below the Graduate School’s required levels are required to enroll in Auburn University’s Intensive English Program and satisfy proficiency requirements before enrolling in graduate-level course work.

Other students who are admitted on a conditional basis are given an opportunity to demonstrate that they can perform graduate-level work and can be expected to make reasonable progress toward earning a graduate degree. They may also be required to remedy deficiencies in undergraduate preparation by taking upper-division courses.

Conditionally admitted students must demonstrate their ability to perform at the graduate level by obtaining a “B” grade point average (3.0 on a 4.0 scale) in their first 12 semester hours of graduate-level work. These 12 semester hours must be completed within the first three consecutive semesters following admission.

Students admitted on a conditional basis will be fully admitted to the Graduate School only when all conditions for admission have been met, including the completion of at least 12 semester hours of approved graduate-level courses at Auburn University with a grade point average of at least 3.0.

Students admitted conditionally who fail to satisfy all conditions for admission within the allotted time period will be dismissed from the Graduate School.

McNair Scholars

The Graduate School recognizes the achievement of students who have successfully completed a Ronald E. McNair Postbaccalaureate Achievement Program by waiving the Graduate School application fee. A letter confirming participation in the program is required.

Active Military Personnel

The Graduate School recognizes the contributions of students actively serving in the United States military by waiving the Graduate School application fee. A letter confirming active duty status is required.

Correspondence Work Unacceptable

Study by correspondence shall not be counted toward a graduate degree.

Student Classifications

For administrative purposes, Auburn University students are assigned to a class level. Those that apply to graduate students are:

- MST - Students who hold full admission to Master’s programs.
- EDS - Students who hold full admission to Specialist in Education programs.
- PHD - Students who hold full admission to Doctor of Philosophy programs.
- GCRT – Students admitted to an approved Graduate Certificate program.
• GND – Students who hold a Bachelor’s degree (or post-baccalaureate degree) may apply for admission to the Graduate School as a non-degree student for personal development, to obtain or renew certification, or to take a limited number of courses preliminary to enrolling in a graduate degree program. No more than 12 hours of credit earned while enrolled as a non-degree student may later be counted toward a graduate degree; however, students officially enrolled in an approved graduate certificate program may count up to the maximum number of credit hours allowed by the certificate program toward a graduate degree. Non-degree students who later decide to pursue a graduate degree must re-apply for admission to the Graduate School and the graduate degree program.

• GPR – Students who meet requirements for provisional admission except that they have not taken the GRE or GMAT (if required by the admitting program) or have not submitted all transcripts. This classification is for one semester only, and satisfactory scores and/or all transcripts must be submitted by the end of that semester. This classification cannot be used by international students, who must submit official transcripts and satisfactory scores on all required examinations before they are admitted.

Master's Accelerator Program

The Master’s Accelerator Program (MAP) eases the transition from a bachelor’s degree in your home country to graduate school in the U.S. It provides three simple routes to enter your graduate program at Auburn. MAP combines credit-bearing courses from your master’s degree with additional support, teaching, and cultural experiences, helping to ensure your future success. All MAP students complete a comprehensive series of English language, research, and professional development modules (the Professional Development Suite), and a series of credit-bearing graduate courses (the Academic Suite) prior to transferring into their intended degree program.

Auburn Global offers four ways for international students to enter their graduate program. The entry path that is best for you will depend on your qualifications and personal preferences. Choose from the Integrated Master’s Accelerator, the Master’s Accelerator (one term) or Master’s Accelerator (two or three terms). For more details on these options see: http://www.auburnglobal.org/about-map

Auburn offers 18 graduate programs through the Master’s Accelerator Program, in engineering, education, mathematics, and public administration.

MAP students take a core curriculum* and credit bearing courses from their chosen master’s degree.

Registration

• Leave of Absence (p. 1191)
• Withdrawing from Courses (p. 1191)
• Continuous Enrollment Policy (p. 1191)
• Exceptions to the Continuous Enrollment Policy (p. 1191)
• Inactive Status (p. 1191)
• Non-Graduate Students and Graduate Work (p. 1192)
• Non-Graduate Students Enrolled in Accelerated Bachelor’s/Master’s Degree Plans or in the Honors College (p. 1192)
• Registration and Graduation Requirements (p. 1192)
• Transfer of Credit from Other Institutions (p. 1193)
• Transfer to a Different Degree Program (p. 1193)
• Undergraduate Courses, S/U Option and Auditing Courses (p. 1193)

**Leave of Absence**

A student may be granted a leave of absence for medical reasons, family necessity or dependent care, military service, or other approved personal reasons. Students planning to discontinue enrollment for a semester or more must request approval for a leave of absence. Students may petition the Graduate School for a leave of absence for a maximum of two semesters during the entire program; however, the Graduate School may approve extensions to the maximum two semester leave of absence (e.g., for military service obligations extending beyond two semesters).

A petition for a leave of absence (or extension), signed by the Graduate Program Officer or head of the academic unit, must be approved by the dean of the Graduate School. The Graduate School may request appropriate documentation. The request must be filed and approved before the anticipated absence. An approved leave of absence will enable students to re-enter their program without applying for re-activation or owing retroactive tuition and enrollment fees.

A student on leave is not required to pay fees, but in turn may not use Auburn University faculty, facilities, resources, or services intended only for enrolled students; receive a graduate assistantship, fellowship or financial aid from the University or take any Auburn courses related to the plan of study.

**Withdrawing from Courses**

Courses may be dropped without academic penalty on or before mid-semester using the Schedule Adjustment form. A course may be dropped after mid-semester only under unusual conditions. When the Graduate dean approves dropping the course under such circumstances, a W will be assigned only when the instructor indicates that the student is clearly passing the course. Otherwise a grade of WF (Withdrawn Failing) is assigned. A student dropping the only course or all courses for which the student is registered after the first class day must resign for the semester on a separate form obtained from the Graduate School.

**Continuous Enrollment Policy**

All full- and part-time degree-seeking graduate students must be continuously enrolled. Continuous enrollment is defined as registration for a minimum of one credit hour in at least two semesters in a given academic year (fall, spring, summer) until the degree is awarded or status as a degree-seeking student is terminated through an official university withdrawal. Students must register for the term in which they take their examinations, defend their dissertations, and complete degree requirements (including summer term). Although the Graduate School and individual graduate programs will monitor the enrollment status of graduate students, it is ultimately the responsibility of graduate students to ensure that they are meeting the enrollment provisions of this policy.

* Students who enroll for the first time during spring or summer semesters will not be declared inactive if they register in at least two semesters during their first full and subsequent academic years.

**Exceptions to the Continuous Enrollment Policy**

The Graduate School, if circumstances warrant, may grant exceptions to the Continuous Enrollment Policy. Appeals should be made directly to the dean of the Graduate School.

**Inactive Status**

Students who fail to register for at least two semesters in a given academic year will be declared inactive. To be re-activated, students must apply for re-activation to the program in which they were enrolled and the Graduate School. Students must also complete the re-admission form. Re-activation is not guaranteed. In order to fulfill the continuous registration requirement, students who are re-activated must register retroactively for a minimum of one credit hour and pay the associated tuition and fees for all semesters that have elapsed since they were last enrolled --- up to a maximum of two semesters per academic year and a total of four semesters.
Non-Graduate Students and Graduate Work

An Auburn University undergraduate student may register for graduate courses provided that the following conditions are met: the student has at least a 3.0 GPA, is within 30 semester hours of graduating, has the written consent of the instructor of each graduate course, and obtains approval in advance from the Graduate School. A maximum of 12 semester hours of graduate course work taken in this option later may be applied toward a graduate degree at Auburn University. Without the approval of the student's advisory committee, provided that appropriate arrangements are made in advance with the Graduate School and a grade of B or higher is achieved on all courses used for graduate credit. The total course load taken at the time the undergraduate student is in a graduate course may not exceed 16 semester hours per semester. The same guidelines apply to undergraduate students taking graduate courses for undergraduate credit. A student may not use the same graduate course for both undergraduate and graduate credit. An exception is made for non-graduate students officially enrolled in the Honors College or an approved Accelerated Bachelor’s/Master’s Degree Plan (see Non-Graduate Students Enrolled in Accelerated Bachelor’s/Master’s Degree Plans below).

Any post-baccalaureate, non-degree student desiring enrollment in a graduate course must receive written consent of the instructor and approval of the Graduate dean in order to register for such a class.

Non-Graduate Students Enrolled in Accelerated Bachelor’s/Master’s Degree Plans or in the Honors College

An Auburn University undergraduate student officially admitted and enrolled in an approved Accelerated Bachelor’s/Master’s degree plan (ABM) may register for graduate courses that are listed as required or elective courses in the student's ABM plan. Similarly, students officially admitted and enrolled in the Honors College may enroll in a limited number of graduate courses. A maximum of nine hours (in a 30-hour master’s program) or 12 hours (in a 36-hour or more master’s program) may be counted towards both degrees, provided that a grade of B or higher is achieved on all courses used for graduate credit. No courses may be counted for both undergraduate and graduate credit in a program in which the double counting of courses is prohibited by an accrediting agency. The total course load taken at the time the undergraduate student is in a graduate course may not exceed 16 semester hours per semester.

Registration and Graduation Requirements

Thesis and dissertation students needing thesis or dissertation final approval and submission and the final examination, or non-thesis graduate students needing to complete projects, would register for 7990 Research and Thesis, 8990 Research and Dissertation, or 7980 Project, as applicable. Non-thesis graduate students requiring only a final examination would register for GRAD 7000. Students may not register for GRAD 7000 for more than one semester.

No student will be permitted to graduate who fails to submit a graduation check request to the Graduate School prior to the semester of expected graduation. Graduation day is the official last day of each semester and, therefore, is the deadline for approved plans of study and graduation checks for graduation the following semester. It is the responsibility of graduate students to check records for compliance with graduation requirements. Students who have completed a graduation check for a previous term must notify the Graduate School of pending graduation before the 15th class day of each subsequent semester. Graduate degrees are awarded at the end of each semester. Candidates wishing to graduate in absentia must inform the Registrar's Office.

A graduate student may carry a maximum course load of 16 hours per semester (14 in the summer term) including undergraduate courses. Graduate students must carry nine hours per semester or enroll in (GRAD 7AA0/GRAD 8AA0) with concurrent enrollment for a minimum of one hour of 7990/8990 to be classified as full-time students. Enrollment in (GRAD 7AA0/GRAD 8AA0) requires the completion of the form available at the Graduate School or at www.grad.auburn.edu.

Transfer of Credit from Other Institutions

Graduate credit taken in residence at an international institution or at a regionally accredited U.S. institution may be transferred when recommended by the student's major professor, advisory committee, graduate coordinator, and when also approved by the dean of the Graduate School. Such transfer credit must fall within the time limits of the degree. Students seeking transfer credit must provide documentary evidence showing that the course is comparable to similar graduate courses at Auburn University and relevant to the student’s plan of study. Students must also provide an official transcript showing credit earned for the course. No prior commitment is made concerning whether transfer credit will be accepted. A student must earn at least 24 semester hours, or half of the total hours required for a master’s degree, whichever is greater, at Auburn University. A program that requires 30 hours of credit will be limited to 6 semester hours of transfer credit. The total number of credit hours that may be transferred from another accredited institution towards a doctoral degree varies by program but must be less than 50% of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. In the case of graduate degree programs offered through joint, cooperative, or consortial agreements, the student must earn a majority of credits from the participating institutions. No transfer credit will be approved without an official transcript. No course on which
a grade lower than B was earned may be transferred. Additionally, credit will not be allowed if the combined GPA on graduate work taken at other schools is less than 3.0 on a 4.0 scale, nor may transfer credit be used to improve the GPA on courses taken at Auburn University.

Students who are admitted to a graduate certificate program may use a limited amount of course work taken at another accredited university to meet certificate requirements, with the approval of the program faculty and the Graduate School.* The total number of credits transferred shall not exceed 40% of the total required for the Certificate. Total credits allowed to transfer may be less as determined by the Certificate Program. Such transfer credit must fall with the time limits of the certificate program. Students must provide an official transcript showing credit earned for the course and documentary evidence that the course is comparable to similar graduate courses in the certificate program at Auburn University. No course on which a grade lower than B was earned may be transferred.

*A student may not use the same graduate course for both undergraduate and graduate credit.

Transfer to a Different Degree Program

For a student to transfer from one department to another requires that the student be in good academic standing, a new application for admission and the usual application fee. Changes in application status (master’s to doctoral, doctoral to master’s) or enrollment status (master’s to doctoral or doctoral to master’s) must be requested by the applicant/student involved and endorsed by the department head or chair, major professor, and advisory committee for enrolled students and approved by the dean of the Graduate School. Current international students must recertify full financial sponsorship for the issuance of a new 1-20 form.

Undergraduate Courses, S/U Option and Auditing Courses

A graduate student may register for undergraduate courses (1000-4000-level). For students enrolled in Graduate School, grades earned in undergraduate courses will not be used in calculation of the GPA for either retention or graduation, but will appear on the graduate transcript. This policy took effect with the posting of grades fall 1998. For courses taken before fall 1998, grades earned in undergraduate courses may be used in calculation of the GPA for retention, but not for graduation. A graduate student may elect any course to be graded under the Satisfactory (S)-Unsatisfactory (U) option, if the major professor so recommends. Students are not allowed to select this option after the 15th class day. Courses listed on the Plan of Study must be graded A, B, C, D or F except for those designated as S/U. Similarly a graduate student may elect to audit any course not on the Plan of Study. The student may not change from audit to credit after classes begin, but may change from credit to audit before the 15th class day. All uses of the S/U and audit option require approval of the Graduate School.

Academic Progress

- Incomplete Grades (p. 1193)
- Grades (p. 1193)
- Academic Standing (p. 1194)
- Advisors (p. 1194)
- Academic and Professional Progress (p. 1194)
- Academic Requirements for Students in the Professional Program of Veterinary Medicine (p. 1195)
- Student Athletes (p. 1195)
- Student Financial Aid Recipients (p. 1195)
- Veterans (p. 1195)

Incomplete Grades

A grade of “incomplete” must be removed within the following six months or it will be recorded permanently as an F and the course will have to be repeated. This applies regardless of the student’s enrollment status. A student not enrolled during the following six months is not exempt from this rule. No student may graduate until “incomplete” and “no record” grades are removed, and the removal must be completed at least three weeks before the date of graduation, regardless of whether the course is included on the Plan of Study.

Grades

To receive a graduate degree at Auburn University, a student must earn a cumulative GPA of 3.0 on a 4.0 scale on all courses carrying graduate credit. No more than nine hours beyond the student’s Plan of Study is allowed in obtaining the cumulative graduate GPA (CGGPA). No grade below C (including unsatisfactory grades for courses taken under the S/U option) is acceptable for credit toward a graduate degree. Each graduate course in which a grade below C is received must be repeated at Auburn University whether or not it
is listed on the student’s Plan of Study. Both the original grade and the grade for the repeated course will be counted in calculating the CGGPA. Course credits transferred from another institution may not be used to satisfy this requirement. Courses retaken will not count against the nine-hour limit beyond the student’s Plan of Study in obtaining the minimum CGGPA.

Academic Standing

Only grades in Auburn University courses approved for graduate credit will be used in determining the overall GPA for continuation in the Graduate School. If at the end of any semester the cumulative graduate GPA (CGGPA) falls below 3.0, the student will be placed on academic probation. If the CGGPA remains below 3.0 after the next eleven credit hours of graduate enrollment (both graded and ungraded) or two consecutive terms (whichever comes first), the student will be placed on academic suspension.* Students on academic suspension may not hold a graduate assistantship. The student may be readmitted only after completion of a remediation plan recommended by the academic unit and approved by the Dean of the Graduate School. Course work taken as part of the remediation plan must be completed within two consecutive terms and may count toward both the student’s degree and CGGPA with the recommendation of the department head and the approval of the graduate dean.* Upon completion of the remediation plan, the student must have addressed academic deficiencies and have a CGGPA of 3.0 or above. Once approved by the graduate dean, remediation plans may not be amended or extended beyond the original deadline. If a student fails to complete the remediation plan as approved or if the student earns a grade of C or below while completing the remediation plan, the student will be dismissed from the Graduate School and the designation ACADEMIC DISMISSAL will be placed on the student’s official record.

*The summer term is counted as one of the consecutive semesters only if a student is enrolled during the summer term.

Advisors

The dean of the Graduate School is the general counselor to all graduate students. A faculty advisor or major professor will be designated for each student in accordance with departmental policy. There also will be an advisory committee for each student. The major professor generally serves as the chair of the advisory committee. In the case of co-chairs, at least one must be a member of the graduate faculty at the appropriate level at Auburn University. Some required forms and reports regarding the student’s program must be approved by the major professor, advisory committee, department head or chair and the dean of the Graduate School. Students should ascertain which signatures must be obtained.

Academic and Professional Progress

Monitoring the academic progress of graduate students and graduate teaching assistants on a regular basis is important to their success and to the success of Auburn’s graduate programs. The Graduate School requires that each department conduct — at least on an annual basis — an evaluation of the progress of each graduate student enrolled in a doctoral program and each Graduate Teaching Assistant (GTA). Departments are also encouraged to monitor the progress of all other degree-seeking students. Annually, each department will report to the Graduate School, confirming that the evaluation of all doctoral students and GTAs has been completed.

The student’s advisory committee monitors each graduate student’s progress toward a degree, and issues of professional and personal development may be considered. While failure to maintain academic standards is reason for dismissal, a student also may be dismissed from the Graduate School if progress is unsatisfactory in other areas.

In such cases, the advisory committee will prepare a statement of grievance and discuss it in a meeting with the student. The statement must have the unanimous support of all members of the committee. The student will be warned that corrective measures must be taken within a specified time to avoid action that might result in dismissal. The committee determines the period allowed for correction. Copies of the statement of grievance and summary of the meeting will be provided to the student, the department head/chair, and the academic dean.

If the deficiency is not corrected within the time allowed by the committee, a statement reiterating the grievance and recommending dismissal should be sent to the graduate dean with copies to the student, the department head/chair, and the academic dean.

The graduate dean will give the student an opportunity to respond and will make a final determination. The student and the advisory committee will be notified.

The action taken will not appear on the student’s official transcript, and release of information is restricted under the University’s policy on the confidentiality of student records.
Academic Requirements for Students in the Professional Program of Veterinary Medicine

All applicants and students in the professional program are subject to the academic and disciplinary regulations of the College of Veterinary Medicine in addition to those of Auburn University.

Any student who earns less than a 2.25 GPA for any term will be placed on academic probation (academic warning). A student who fails to earn a 2.25 GPA in each of the succeeding two terms of enrollment will be dropped from the rolls of the College of Veterinary Medicine for scholastic deficiency. In addition, a student who does not have a veterinary college cumulative average of 2.25 at the end of any academic year will be required to withdraw from the College of Veterinary Medicine.

Any student who receives a D in any course will be placed on academic probation. If the student receives a second D in the same calendar year or academic year, they will be required to withdraw from the College of Veterinary Medicine.

A student will be removed from academic probation after two terms, assuming they have met the terms of probation.

A student who makes a grade of F in any course will be required to withdraw from the College of Veterinary Medicine. If a student who is dismissed for academic reasons is re-admitted, they may be required to repeat additional courses as deemed necessary by the Admissions and Standards Committee.

Clinical courses are unique in that the art and skills to be developed in them can be acquired only through full participation in the laboratories. Attendance in these courses is required except in case of illness or other extenuating circumstances as may be judged by the involved instructor. Grading in these clinical laboratory courses is primarily by subjective evaluation. When a course involves student rotation through several disciplines or sections, the student must receive a passing grade in each area before a passing grade can be given for the course.

Any student who earns a D or F in any clinical rotation will be placed on academic probation. If the student receives a second F during clinical rotations, that student will be required to withdraw from the College of Veterinary Medicine. If the student receives a second and third D or F during clinical rotations, that student will be required to withdraw from the College of Veterinary Medicine. If the college admissions and standards committee permits re-admission, the student may be required to repeat all clinical experiences to meet the requirements for the clinical year.

Student Athletes

In addition to meeting the general academic requirements of the university, student athletes must meet all academic requirements, including those relating to satisfactory progress toward a degree, set forth in the legislation of the Southeastern Conference (SEC) and of the National Collegiate Athletic Association (NCAA).

Student Financial Aid Recipients

In addition to meeting the general academic requirements of the university, applicants for student financial aid funds must maintain Satisfactory Academic Progress to receive, or to continue to receive, assistance through federal, state, and institutional student aid programs. Descriptions of these Satisfactory Academic Progress requirements for distinct classifications of Auburn students are available from the Office of Student Financial Services.

Veterans

All VA eligibles (Chapters 30, 31, 32, 35 and 106), in addition to meeting the general academic requirements set forth by the university, must maintain satisfactory academic progress as approved by the State Approving Agency of the State of Alabama, Department of Education. Such standards are as follows: Any undergraduate VA eligible must have a 2.0 GPA after the student has earned 120 hours at Auburn University. This will be checked at each term’s end and the VA benefits of any VA eligible not meeting this requirement would be terminated. Separate standards of progress apply to graduate students as outlined in the Graduate School section of this Bulletin.

International Opportunities

- International Academic Opportunities (p. 1196)
- International Internships, Academic/Curricular Practical Training (p. 1196)
- English as a Second Language (ESL) Program (p. 1196)
- Office of International Programs (p. 1196)
- OIP International Student and Scholar Services (p. 1196)
International Academic Opportunities

Access to international opportunities is provided throughout many colleges, schools, departments and other student support units. However, there are several units on campus that provide specialized services for English language study, study abroad and international students attending Auburn University.

International Internships, Academic/Curricular Practical Training

Academic internship experience both within the US and abroad are highly encouraged for all disciplines and all AU students. Students interested in participating in such experiences should check with their academic units for specific requirements. For international students, practical training is available: UNIV 4920 Curricula Practical Training depending on US immigration status as Curricular Practical Training (F) or Academic Training (J). Students may also do academic internships abroad under Auburn Abroad. For further details on Auburn Abroad or CPT/AT students should check with the Office of International Programs.

English as a Second Language (ESL) Program

The ESL Program operates under the Assistant Provost for International Programs and offers English language instruction to international students and visiting scholars. It provides courses in oral and written proficiency to support international students enrolled in undergraduate and graduate degree programs, a course in classroom communication skills for international graduate teaching assistants, and an Intensive English program involving 25 hours of instruction per week in listening, speaking, reading, writing, grammar, pronunciation, and TOEFL skills. It also operates an International Student English Center that develops international students’ and scholars’ English skills through tutoring and workshops at no charge. For additional information, contact: 316 Foy Hall, (334) 844-2122; email: raffadc@auburn.edu; or visit www.auburn.edu/esl.

Office of International Programs

The Office of International Programs (OIP) is a unit of the AU Division of Academic Affairs. Its mission is to provide leadership and relevant administrative support to academic units, faculty, students, and staff for the effective promotion and efficient adoption of Auburn University’s internationalization goals. The International Students and Scholar Service component of the OIP assists foreign national students, visiting scholars, and university employees in achieving their academic objectives. The Auburn Abroad unit of the OIP promotes and facilitates student and faculty participation in an international education experience through programs outside of the United States. For additional information, contact: Office of International Program, 228 Foy Hall; 334-844-5001; intledu@auburn.edu; or www.auburn.edu/international.

OIP International Student and Scholar Services

The ISSS unit of the OIP provides assistance and guidance to foreign national students, visiting scholars, and University employees regarding US immigration requirements and Auburn policies for studying and/or working at Auburn University. Documentation of eligibility for study in the United States, work authorizations, and other government documents required by international students, scholars, and employees are issued and monitored by the ISSS. Joint orientation programs are conducted in cooperation with the Office of International Student Life and other units of the University to assist students, visitors, and employees adapt to the AU community. Currently, the university has more than 1200 international students, visiting scholars, and employees from over 90 nations. Go to the section on International Student Services for additional information.

OIP Auburn Abroad Experience

The Office of International Programs (OIP) Auburn Abroad unit seeks to develop, expand and facilitate credit bearing study, internship and exchange opportunities outside of the United States. Each year more than 1000 Auburn University students participate in the Auburn Abroad experience. More than 90 percent of these students go on faculty led programs and Exchange Programs with the rest going on other university or provider programs. With some planning, credit earned through the Auburn Abroad experience can be integrated with Auburn University degrees and applied to core, major, minor, and elective courses. Students on Auburn University faculty-led programs and Exchange Programs will earn AU credit and will receive grades on their transcript. Students going on other university programs will earn transient/transfer credit for their courses abroad. If a student chooses to go on other university programs, they will need to be enrolled in an Auburn Abroad placeholder course to be able to use their financial aid.

Auburn Abroad experiences vary considerably in length and are available for all semesters including summer. Each college and school within Auburn University has programs abroad tailored to their students’ needs. The Auburn Abroad staff conducts Fall and Spring Study Abroad and Passport Fairs, and over 100 other information sessions each year to inform students about international opportunities. Both undergraduate and graduate students can participate in the Auburn Abroad Experience. Requirements for acceptance into the Auburn Abroad Experience include the following: (1) a minimum institutional cumulative GPA of 2.25 for...
undergraduates and 3.0 for graduate students, (2) the student must attain the age of 19 prior to the start date of program, (3) the student’s record must show no pending Auburn University judicial actions and the student must be in good academic standing in their college or school. Faculty directors for programs abroad may also have additional requirements. Although some programs require prior knowledge of a foreign language, there are many that do not.

Students considering any type of credit bearing experience abroad should start their Auburn Abroad Experience by attending either (1) a weekly, thirty minute general orientation session conducted by the Auburn Abroad Staff or (2) by attending a faculty led program orientation session. The Auburn Abroad Experience sessions are held every semester. Sessions are conducted on Thursdays at 3pm and repeated on Fridays at 11am in the Auburn Abroad conference room, 242 Foy Hall. These sessions include an introduction to the on-line Auburn Abroad application process, hints on searching for faculty led and other types of programs abroad, the credit approval process, transcript information, information on a variety of funding resources, and paperwork needed for scholarship, PACT and other benefit programs. Students interested in faculty led programs must contact the faculty director(s) for the dates of their orientation sessions. After students attend a study abroad orientation session, they are ready to start their on-line study abroad application, found at www.auburn.edu/studyabroad on the Program Search link. They need to complete this on-line application, submit a completed Course Approval Form, and respond to any Auburn Abroad Unit emails requesting additional information. The Course Approval Form requires special attention and students must obtain all required signatures including department chair and dean. The on-line application and requested materials must be completed and submitted by the deadline dates listed on www.auburn.edu/studyabroad to be considered. Current deadline dates are: Summer Programs: March 15; Fall Programs - April 30 and Spring Programs: October 15.

The OIP staff monitors students’ on-line applications and will enroll individual students in one of the following Auburn Abroad Full Time Placeholder courses: (UNIV 2940 / UNIV 2945 , UNIV 4940 / UNIV 4945 , UNIV 5940 /UNIV 5945 or UNIV 7940 / UNIV 7945 ). These placeholder courses will be listed on the students’ transcripts while they are abroad. Once students complete their course work abroad and the Auburn Abroad staff receives and processes their transcript through the registrar, then the actual, approved courses listed on their Course Approval Form will be listed on the students’ transcripts as Auburn University Credit. These processes and dates are subject to change and it is the individual student’s responsibility to attend orientation sessions and check the website to insure that they are in compliance. In addition to receiving credit for an abroad experience, students enrolled in Auburn Abroad are provided opportunities to attend pre-departure sessions and will be enrolled in the Auburn University International Travel Assistance plan. Students will receive a FrontierMEDEX enrollment card and material to read concerning the assistance plan, health and safety issues. The Auburn Abroad staff, along with the Department of Safety and Security routinely monitor global situations and will provide assistance to students in distress abroad. Returning students are encouraged to become Global Tiger Peer Advisors when they return, share their “Global Tiger Tale” on the Auburn Abroad website and submit photos from their experience abroad for the annual student photo contest. For additional information please visit the OIP Auburn Abroad Experience Website at www.auburn.edu/studyabroad and/or send an email to: auab@auburn.edu.

Student Services

- Office of Accessibility (p. 1197)
- Career Center (p. 1197)
- Veterans Resource Center (p. 1198)

Office of Accessibility

Auburn University is committed to providing its students with an accessible campus and equitable learning environment. If you have a disability that requires reasonable academic accommodations, assistive technology, or support services, contact the Office of Accessibility for additional information, 1228 Haley Center; 334-844-2096 (Voice/TT) or visit our website at http://accessibility.auburn.edu/.

Career Center

The Auburn University Career Center provides services and resources to help students choose an appropriate major that aligns with their academic abilities, interests, and skills; develop a personal career plan; learn job search skills and find employment. Career counselors/advisors work with students through the career development process by utilizing interest/personality inventories and career resources to help students learn how to maximize their career options through the development of a tailored career plan. Job search assistance is available to help students learn the skills necessary to plan and implement a successful job search. The Career Center also provides employment information through on-line job postings for full-time, part-time and internship positions; on-campus interviews with potential employers; on-line resume referrals; and career events. For assistance, call (334) 844.4744 or visit the Career Center website at www.auburn.edu/career.
Veterans Resource Center

The Auburn University Veterans Resource Center assists veterans, guardsmen, reservists, active duty, and their military dependents receiving VA educational benefits in making a successful transition into the AU community. The center provides timely and comprehensive support with a range of services for current and former military service members, including eligible military dependents, by collaborating with University Faculty and Staff, state VA representatives, the local veteran community, and civilian-advocate organizations.

Graduate Assistantships & Fellowships

- Tuition Waiver (p. 1198)
- Graduate Assistantships (p. 1198)
- Types of Graduate Assistantships (p. 1199)
- Annual Evaluation of Graduate Teaching Assistants and Doctoral Students (p. 1199)
- Background Check Policy (p. 1200)
- Graduate Fellowships (p. 1200)
- Graduate Assistantship Workload Policy (p. 1200)

Tuition Waiver

Non-Alabama resident graduate assistants may receive a waiver of the out-of-state portion of their tuition if they are on at least a 25 percent graduate assistantship (new appointments beginning in Fall 2013 must be at 33 percent) and are paid a minimum monthly stipend set each year by the provost. Such graduate assistants who have been on assistantship for consecutive fall and spring semesters are eligible to have the out-of-state portion of their tuition waived for the summer semester whether or not they are on assistantship that semester. Students will need to contact the Graduate School to have this waiver applied.

Graduate Assistantships

Graduate assistant appointments are temporary. Continuation depends upon availability of funds, level of enrollment, research needs, and satisfactory performance. Salaries are paid in accordance with the budget policies and payroll procedures of the university. The Board of Trustees is obligated to pay certain fixed charges against the institution and thereafter pay salaries in full insofar as funds are available. If for any reason beyond the control of the Board of Trustees funds are not available, salaries will be prorated.

Each graduate assistant must be in a degree-seeking program and registered in the classification of MST, EDS, PHD, or GPR. The student also must be registered for at least one course (during each academic term of the assistantship), must satisfy the minimum course load specifications of the individual departments and must be making satisfactory progress toward the degree.

Workloads for graduate assistants are defined on the basis of a normal teaching load or the equivalent time in other duties as determined by each department head and the dean of the school or college in which the assistant is employed. For example, a one-third workload is one-third of a normal teaching load. Graduate students may hold multiple assistantships and the assistantships may come from different units on campus, but together they cannot add up to more than a 100 percent appointment. Maximum course loads for graduate assistants are determined by individual departments. It is recommended that graduate students working more than half-time not carry a full academic load.

Requirements that graduate students register for hours not included in the plan of study as a condition of employment or to enhance credit hour production for administrative purposes are inappropriate. Similarly, requiring hours on the plan of study beyond the degree requirements established by the Graduate Faculty for such administrative purposes is also inappropriate unless the additional requirements are required by university policy.

International graduate students on F1 visas cannot hold a greater than 50 percent work appointment. International graduate students on F2 visas cannot hold a work appointment. Multiple assistantships for international graduate students cannot add up to more than a 50 percent work appointment.

International graduate teaching assistants who are assigned to scheduled lecture or laboratory sections must first be certified in spoken English proficiency. Certification may be attained through a minimum score of 50 on the Test of Spoken English (TSE) or a 23 on the speaking section of the Internet Based TOEFL offered by the Educational Testing Service or approval by the director of the English as a Second Language Program (ESL). Applicants who hold a baccalaureate degree from an accredited institution whose instruction is in English may be exempted from this requirement.
Types of Graduate Assistantships

Graduate Teaching Assistants (GTAs)

A Graduate Teaching Assistant must meet eligibility requirements (including English proficiency requirements) and be supervised by an appropriate graduate faculty member. The GTA's primary responsibility is to support the instructional mission of the University. The GTA's responsibilities may include, for example: classroom or laboratory teaching*; advising or mentoring of students; proctoring exams; grading papers, homework, and/or projects; preparing instructional materials; or providing other general assistance in the instructional process. A GTA may also be assigned primary responsibilities in an extension, outreach, or service role for which those responsibilities support the instructional mission of the university. GTAs may not be given duties to support faculty research or duties primarily clerical in nature. Whatever their instructional responsibilities, GTAs must be supervised by a faculty member who is responsible for monitoring and evaluating their performance (including English proficiency) at least on an annual basis. Continuation is contingent upon satisfactory performance. GTAs who have no prior teaching experience must be given some form of training before being allowed to teach. Any GTA with primary responsibility for a course must have a minimum of 18 semester hours of graduate course credit in that field of instruction.

*GTAs are not permitted to teach courses numbered 6000 or above, although they may assist with laboratories for such courses. Additionally, they may not teach or assist with a course in which they are enrolled.

Graduate Research Assistants (GRAs)

A Graduate Research Assistant (GRA) must meet eligibility requirements and be supervised by an appropriate graduate faculty member. The GRA's primary responsibility is to provide general support to the University's research mission. Services provided by a GRA may include, for example: assisting faculty members in a research or creative activity; performing degree-related professional or administrative services that support the research, instruction, professional development, or outreach missions of the University; performing research related to the objectives of an extramural grant or contract; developing and evaluating instructional materials or curricula; or assuming responsibility for designated scholarly endeavors. Since many GRA's assist with projects funded by external grants or contracts, the GRA's responsibilities may or may not be related directly to the student's thesis or dissertation. The faculty supervisor determines the students' specific duties and is responsible for monitoring and evaluating the GRA's performance at least on an annual basis.

"Performing degree-related professional or administrative services" does not include jobs that are outside of the student's field of study.

Graduate Extension Assistants (GEAs)

A Graduate Extension Assistant must meet eligibility requirements and be supervised by an appropriate graduate faculty member or extension agent. GEAs are responsible for various kinds of extension work and interaction with the public. The various branches of the Extension Service award these assistantships. A faculty member or extension agent should be responsible for monitoring and evaluating the performance of GEAs at least on an annual basis.

Graduate Assistants (GAs)

Graduate Assistants must meet eligibility requirements and be supervised by a faculty member, administrator, or other appropriate university employee. GAs are responsible for duties other than teaching, research, or extension. Tuition waivers for graduate assistants not engaged in teaching, research, or extension are subject to taxation and income tax withholding. These responsibilities can be varied and could include performing administrative duties not related to the GA’s field of study or the instructional or research missions of the university. Whatever their responsibilities, GAs should be supervised by a faculty member, administrator, or other appropriate university employee who is responsible for monitoring and evaluating their performance at least on an annual basis.

Annual Evaluation of Graduate Teaching Assistants and Doctoral Students

Policy: Effective beginning Fall 2014, the Graduate School will require that each department conduct -- at least on an annual basis -- an evaluation of the progress of each Graduate Teaching Assistant (GTA) and each graduate student enrolled in a doctoral program. Continuation is contingent upon satisfactory performance.

Reporting: Annually, each department will report to the Graduate School, confirming that the evaluation of all GTAs and doctoral students has been completed. In addition, the department will provide the Graduate School with a summary report of all instances in which a GTA or doctoral student has received an unsatisfactory review.

Expectations: Each department will be responsible for developing procedures (if not already in place) for the annual evaluation of the progress of GTAs and doctoral students. Following guidelines for best practices, the review should include at least the following:
• A student self-report and assessment of academic progress; teaching (if applicable); and research (if applicable) [prepared in advance of the review conference];
• A report prepared by the student’s advisor (and preferably at least one other faculty member, e.g., a member of the student’s advisory committee) that assesses the student’s academic progress; teaching (if applicable); and research (if applicable) that identifies strengths and weaknesses, and establishes expectations for the next year. The report may be augmented by reports from teaching supervisors or other members of the student’s advisory committee.
• An opportunity for the student to discuss the report in person.
• A signed copy of the written assessment should be placed in the student’s file and a copy given to the student.

Background Check Policy
The Graduate School requires that all graduate student employees (including hourly paid) have an approved consumer report and/or investigative consumer report (background check) as a condition for appointment. The information contained in these reports may be used to deny an individual employment or continued employment with Auburn University. The background report and its contents are deemed private and confidential and shall be disclosed only for the purposes described in “Procedures for Securing Background Reports for Graduate Students Before Hiring” to those University employees who have a need to know, or as otherwise required or permitted by law. This policy is effective for all graduate student employees whose new appointments begin on or after January 1, 2014.

Graduate Fellowships
Auburn University provides in-state tuition fellowships to most of its students holding graduate assistantships. Though administered through the Graduate School, applicants should contact the specific academic departments concerning eligibility and availability.

Graduate Assistantship Workload Policy
Graduate students may not normally hold an appointment of more than 50 percent, whether the appointment is from a single unit or multiple units. This policy also applies to internship appointments (whether called an internship or externship). Graduate students may hold multiple assistantships (assistantships and/or hourly employment) from one or more units on campus, but the cumulative appointments cannot add up to more than a 0.50 FTE (20 hours per week) appointment. This allows the students the time needed to devote to their academic programs. An exception is automatically allowed in the special case of a graduate assistant assigned to teach one four credit course and one three/four credit course. In such cases, appointments will be made at 0.58/0.67 FTE, respectively. Other exceptions may be requested, with compelling academic justification, in writing to the Provost by the dean. For multiple assistantships from different units, coordinating approval memos from the home unit and the hiring units are required. Please note that federal regulations limit the cumulative appointment for international graduate students to no more than a 0.50 FTE (20 hours per week) appointment.

Doctoral Degrees
• Admission (p. 1201)
• Summary of Procedures for Doctoral Degree Programs (p. 1201)
• Advisory Committee and Plan of Study (p. 1201)
• Course Requirements (p. 1202)
• Time Limit (p. 1202)
• Dissertation (p. 1202)
• Annual Evaluation of Graduate Teaching Assistants and Doctoral Students (p. 1202)
• The Doctor of Philosophy Degree (p. 1203)
• Final Examination (p. 1203)
• Language Requirement (p. 1203)
• Residency Requirement (p. 1204)

The doctor of philosophy is offered in administration of elementary and secondary education, administration of higher education, administration of supervision and curriculum, adult education, aerospace engineering, animal sciences, biological sciences (botany, microbiology and zoology), career and technical education, chemical engineering, chemistry, civil engineering, computer science and software engineering, counselor education, counseling psychology, discrete and statistical sciences, early childhood education, educational psychology, electrical and computer engineering, elementary education, English, English language arts education, fisheries and allied aquacultures, forestry and wildlife sciences, history, horticulture, human development and family studies, industrial ARTS
and systems engineering, kinesiology, management, materials engineering, mathematics, mathematics education, mechanical engineering, music education (instrumental and vocal), nutrition and food science, physics, plant sciences (agronomy and soils, plant pathology, and entomology), poultry science, psychology, public administration and public policy, reading education, rehabilitation and special education, science education (biology, chemistry, general science and physics), and social science education (general social science and history), plus interdepartmental programs in biomedical sciences (anatomy, physiology, and pharmacology; large animal surgery and medicine; pathobiology; radiology; and small animal surgery and medicine), economics (agricultural economics and forestry), integrated textile and apparel science (consumer affairs and polymer and fiber engineering), and pharmaceutical sciences (pharmacal sciences and pharmacy care systems).

Admission

Prospective candidates for the degree of doctor of philosophy are admitted under the same procedures and requirements outlined in the general regulations elsewhere in this Bulletin. A student must be admitted to a specific doctoral program, but admission does not mean admission to candidacy for the degree, which occurs only after satisfactory completion of the general oral examination.

Summary of Procedures for Doctoral Degree Programs

The student should:

1. Obtain application forms from the Graduate School and apply by submitting all required materials to the Graduate School by the deadlines published in this Bulletin. The Graduate School forwards the application to the appropriate departmental screening committee. The department head or chair then makes a recommendation to the dean of the Graduate School, who sends a letter notifying the applicant of the decision.

2. Apply for an assistantship, if applicable, through the department involved.

3. Become familiar with the requirements for the doctoral degree as published in this Bulletin.

4. Consult with the departmental advisor and become familiar with departmental procedures.

5. Plan a schedule of study for the first semester with advisor.

6. Submit a proposed schedule for fulfilling the residency requirements.

7. Acquire necessary forms at the Graduate School or on the Web at www.grad.auburn.edu.

8. Establish an advisory committee through the major professor and department head or chair. Official appointment of the advisory committee occurs when the Plan of Study is approved by the Graduate School.

9. Prepare a Plan of Study approved by the advisory committee and department head or chair and submit to the Graduate School.

10. Complete course work, including language requirements, if any, as detailed in the Plan of Study.

11. Arrange for the general written and oral examinations through the advisory committee. After the written examination, schedule the general oral examination at least one week in advance using a form obtained from the Graduate School.

13. Request graduation check in the Graduate School no later than the last day of the semester (graduation day) prior to the semester of graduation.

14. Register for at least one course the semester of graduation.

15. Prepare dissertation and submit a committee-approved first draft to the Graduate School for review and approval by the University Reader, who serves as the representative of the graduate faculty.

16. Study recommendations of the University Reader and make appropriate changes in the dissertation.

17. On approval of the dissertation by the dean of the Graduate School, arrange for final oral examination.

18. File an Academic Residency form.

Advisory Committee and Plan of Study

After the student has enrolled in the doctoral program, an advisory committee should be selected by the student, major professor and department/program head or chair. The advisory committee is responsible for developing the student’s Plan of Study and conducting the doctoral general and final examinations. It should consist of at least four members of the Auburn University Graduate Faculty. Additional voting members may be appointed to the committee (including no more than one non-Auburn University faculty member, who must hold the terminal degree in the field). A majority of the Auburn University affiliated committee members, including the major professor, must be members of the Graduate faculty at Level 2. The major professor must also be a graduate faculty member in the department/program granting the degree. The formal appointment of the advisory committee occurs when the Plan of Study is approved by the Graduate School.
The Plan of Study should be prepared by the student and the advisory committee and filed with the Graduate School at least one term prior to the term in which the student plans to graduate. The Graduate School recognizes that changes may be warranted, and a form is available for amendments as required by student needs, research interests and course availability.

**Course Requirements**

The minimum number of hours in a doctoral program is 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990 and must include at least 10 hours of 8990. Some departments require more than 60 semester hours, and requirements may vary according to a student's background and interest.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of 8990. Enrollment in 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.

The dean of the Graduate School is authorized to approve alternatives to these course work requirements in exceptional cases and on an individual basis.

**Time Limit**

Programs and departments should conduct annual reviews of doctoral candidates to assess progress toward the completion of the degree. Students are expected to achieve candidacy within six years and to complete all requirements for the degree within ten years. Upon admission to candidacy, the student has four calendar years to complete all remaining requirements for the doctoral degree. The student's time to completion begins with the earliest completed course approved for inclusion in the plan of study. If unable for any reason to complete the requirements on time, the student may petition, with the approval of the advisory committee, the dean of the Graduate School for a one year extension. Students failing to complete the degree in the allotted time revert to the status of an applicant and must petition, with the approval of the advisory committee, the dean of the Graduate School to retake the oral examination.

**Dissertation**

A dissertation is required of all candidates for the degree of doctor of philosophy. It shall constitute an original contribution to knowledge. The student conducts the research and prepares the dissertation under the direction of the major professor. Only dissertations prepared according to *Electronic Thesis and Dissertation Guide*, available on the Web at www.grad.auburn.edu/etd_guide.html, are accepted by the Graduate School. Submission of a dissertation is defined as the time at which the first complete draft of such is submitted to the major professor for review. All dissertations must be published by ProQuest/UMI. The student is required to pay for this service. Auburn University reserves the right to make copies of the dissertation, but the student retains all publication rights. Effective summer 2005, all dissertations must be published electronically through AUETD.

**Annual Evaluation of Graduate Teaching Assistants and Doctoral Students**

**Policy:** Effective beginning Fall 2014, the Graduate School will require that each department conduct -- at least on an annual basis -- an evaluation of the progress of each Graduate Teaching Assistant (GTA) and each graduate student enrolled in a doctoral program.

**Reporting:** Annually, each department will report to the Graduate School, confirming that the evaluation of all GTAs and doctoral students has been completed. In addition, the department will provide the Graduate School with a summary report of all instances in which a GTA or doctoral student has received an unsatisfactory review.

**Expectations:** Each department will be responsible for developing procedures (if not already in place) for the annual evaluation of the progress of GTAs and doctoral students. Following guidelines for best practices, the review should include at least the following:
• A student self-report and assessment of academic progress; teaching (if applicable); and research (if applicable) [prepared in advance of the review conference];
• A report prepared by the student’s advisor (and preferably at least one other faculty member, e.g., a member of the student’s advisory committee) that assesses the student’s academic progress; teaching (if applicable); and research (if applicable) that identifies strengths and weaknesses, and establishes expectations for the next year. The report may be augmented by reports from teaching supervisors or other members of the student’s advisory committee.
• An opportunity for the student to discuss the report in person.
• A signed copy of the written assessment should be placed in the student’s file and a copy given to the student.

The Doctor of Philosophy Degree

The doctor of philosophy is conferred in recognition of the mastery of a special field of learning as shown by the satisfactory completion of a prescribed course of study and investigation, the successful passing of general examinations covering the major and minor fields, the preparation of an acceptable dissertation reflecting high achievement in scholarship and independent original investigation, and the passing of a final examination on the dissertation and related subjects. The degree is a research degree. It is not conferred merely upon fulfillment of technical requirements, but awarded in recognition of the ability to think and work independently, originally, and creatively in a chosen field. Some departments have special requirements for the degree, and the student will be governed by those, including the ones listed in departmental statements under Courses of Instruction elsewhere in this publication.

General Doctoral Examination

A general examination, often called the “preliminary examination,” is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing by the student’s advisory committee (or by an examination committee designated by the student’s academic program) in the student’s major and minor. The written portion of the examination does not require approval in advance by the Graduate School. The oral portion, however, does require such approval. Arrangements for the oral examination must be made by application to the Graduate School at least one week in advance of the examination. The primary purpose of the general examination is to assess the student’s understanding of the broad body of knowledge in a field of study. The examination also affords the advisory committee an opportunity to review the student’s proposed research and understanding of research methods and literature in the chosen field. If the general examination reveals deficiencies in any of these areas, the advisory committee may recommend remedial work, re-examination, or discontinuation of doctoral study.

The general oral examination should be conducted immediately after the successful completion of the written examination and well before the final examination. At least one complete semester (preferably more than one) must intervene between the general oral and final examinations. The two examinations thus cannot be taken either in the same semester or in consecutive semesters. Some departments have specific requirements for conducting these examinations, and the student should become familiar with these. Successful completion of the oral examination requires unanimous support of the student’s advisory committee. If the general oral examination is failed, a re-examination may be given on recommendation of the committee and approval by the dean of the Graduate School. Further examinations require exceptional circumstances and approval by the Graduate Council.

The student becomes a candidate for the degree on successful completion of the general examination.

Final Examination

After the dissertation has been completed (except for minor revisions) and has been approved by the student’s advisory committee, it is submitted to the Graduate School. A University Reader (a member of the graduate faculty [Level 1 or 2] who serves to represent the university’s graduate faculty and the Graduate School) will be appointed to review the dissertation. However, the student’s advisor may request appointment of the University Reader at any time rather than waiting until after the dissertation is drafted. When the Graduate School has received an approved evaluation from the University Reader, the student may apply for the final examination on a form sent by the graduate school. The application must be filed with the graduate School at least one week in advance of the final examination. The examination is administered by the student’s advisory committee. The University Reader also attends and participates. The examination, which generally is oral but may be both oral and written, includes the major and minor fields and a defense of the dissertation. Successful completion requires unanimous support of all members of the committee, including the University Reader. Any member of the Graduate Faculty may attend.

Language Requirement

Language requirements for graduate degrees vary with departments. The Department of Foreign Languages offers proficiency courses in a number of languages. The department also offers reading proficiency examinations for those students who wish to demonstrate
proficiency without taking a course. Such students must apply to the Graduate School for these examinations by the deadline listed in the Graduate School calendar at the beginning of this *Bulletin*.

**Residency Requirement**

Resident, on-campus study is the foundation for research-based graduate degree programs at Auburn University. Any graduate student enrolled in a degree program culminating in a thesis or dissertation must directly engage in research with the major professor, must have access to the research tools needed for the research activity, must be immersed in the culture of graduate education, must engage in the professional activities of the discipline, and must complete the research activity in a reasonable period of time. Graduation requires the major professor to certify compliance with these requirements.

**The Master's Degree Program**

- Summary of Procedures for Master's Degree Program (p. 1204)
- Advisory Committee (p. 1205)
- Plan of Study (p. 1205)
- Time Limit (p. 1205)
- Language Requirement (p. 1205)
- Master's Degree Options (p. 1205)
  - The Thesis Option (p. 1205)
  - The Non-Thesis Option (p. 1206)
  - The Master of Arts (p. 1206)
  - The Master of Science (p. 1206)
  - Second Master's Degree (p. 1206)
- Special or Professional Master's Degrees (p. 1206)

The minimum requirements for most master’s degrees can be satisfied in one academic year of two semesters or nine months. In practice, however, many students need three semesters or longer. Certain departments have special requirements as outlined in this *Bulletin*. In addition, those students who hold assistantships or fellowships, those who engage in time-consuming work off-campus, or those with scholastic deficiencies of any sort cannot meet all requirements in the minimum time. Also, research is unpredictable and frequently requires more time than anticipated. Certain departments offer a master’s degree under two plans, referred to as the Thesis Option and the Non-Thesis Option.

**Summary of Procedures for Master’s Degree Program**

The student should:

1. Obtain application forms from the Graduate School and apply for admission by submitting completed forms and other required materials as outlined in this *Bulletin*.
2. Apply for an assistantship, if pertinent, with the department involved.
3. Become familiar with requirements for the desired degree as outlined in this *Bulletin*.
4. Consult with departmental advisor and become oriented to departmental procedures.
5. Plan schedule of study for the first semester with advisor.
6. Establish an advisory committee through the department head or chair and departmental advisor; usually done during the first semester of course work.
7. Prepare a proposed Plan of Study in consultation with the advisory committee. Submit a plan approved by the committee and department head to the Graduate School at least one term prior to the term in which the student plans to graduate.
8. Consult with the advisor on approval for the thesis plan, if pertinent, and become familiar with the *Electronic Thesis and Dissertation Guide*, on the Web (www.grad.auburn.edu/etd_guide.html).
9. Fulfill language requirements, if any.
10. Request graduation check in the Graduate School no later than the last day of the semester (graduation day) prior to the semester of graduation.
11. Register for at least one course the semester of graduation.
12. Prepare thesis manuscript, if pertinent.
13. Arrange for final oral examination with advisory committee.
Advisory Committee
The student works under the direction of an advisory committee composed of three members recommended by the appropriate department/program head or chair. Two must be members of the Auburn University graduate faculty. The committee chair (or one of the co-chairs) must be a graduate faculty member in the department/program granting the degree. This committee will approve the student’s program of study, conduct required examinations and direct the required field project or thesis. Students in a teaching field (e.g., music education, science education, foreign language education) work under a committee composed of at least two members from the College of Education and one member from a related academic field.

Plan of Study
Early in the graduate program, each student should confer with the appropriate departmental advisor or major professor to select courses and discuss research interests. Then a Plan of Study should be prepared and submitted to the Graduate School. The Plan of Study form is available on the Web at www.grad.auburn.edu. The Plan of Study must be submitted at least one term prior to the term in which the student plans to graduate. No student will be permitted to graduate who fails to submit a Plan of Study. Notification of all changes must be provided before the beginning of the final semester. One to three changes may be made by using the simplified “Change in Existing Plan of Study Form” available at the Graduate School or on the Web. Four or more changes require a new Plan of Study. The student is responsible for carrying out the planned program and for asking the major professor to make necessary changes.

Time Limit
All graduate work toward a master’s degree must be completed within a period of six calendar years. The student’s time to completion begins with the earliest completed course approved for inclusion in the Plan of Study.

Language Requirement
Some departments require a reading knowledge of one foreign language. These requirements are outlined in the departmental statements later in this section. Arrangements to take the foreign language examination should be made with the student’s major professor and the head or chair of the department. The student must apply at the Graduate School by the deadline for each semester listed in the calendar.

Master’s Degree Options
The following general regulations are minimum requirements. The professor or committee in charge of a student’s work may require more than the specified minimum in order to achieve a well-rounded program. All programs require a minimum of 30 semester hours of graduate courses, 6000-level or above.

The Thesis Option
The master of arts, master of science and master of industrial design are offered under the thesis option. Thesis students register for 7990 Research and Thesis in semesters when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations.

Major and minor subjects
A student under the thesis option must earn a minimum of 30 semester hours, of which at least 21 semester hours must be in a major area of concentration. Depending on departmental requirements or the wishes of the student’s advisory committee, the remainder of the course work may be taken within the major field or in a separate but closely related area. Specific requirements are set forth in this Bulletin.

If a student has not met all undergraduate pre-requisites in any field chosen for major or minor work, these should be scheduled as soon as possible, preferably before graduate work begins. The major professor will indicate these on the student’s Plan of Study.

The topic selected for the thesis must be approved by the student’s major professor and advisory committee. The student conducts the research and prepares the thesis under the direction of the major professor. The course, Research and Thesis, is number 7990 in all departments. The student must register for a minimum of four credit hours of this course but may register for as many hours as desired. No more than six hours may be counted toward meeting degree requirements. The student may register for one or more hours at a time. No grade is assigned for this course.

The Electronic Thesis and Dissertation Guide, which contains information about requirements for the thesis, is available on the Web at www.grad.auburn.edu/etd_guide.html. Submission of a thesis is defined as the time at which the first complete draft of such is submitted to the major professor for review. The Graduate School accepts only theses prepared according to the Guide. Refer to the Approval Process section in the Guide to have a final format check done. The Graduate School Calendar lists the deadline for
acceptance of final approved theses by the Graduate School each semester. If the electronic thesis needs corrections, the student’s
graduation may be delayed at least one semester. Auburn University reserves the right to make copies of the thesis, but the student
retains all publication rights. Effective Summer 2005, all theses must be published electronically through AUETD.

At the discretion of the program, students may be required to pass a comprehensive examination independent of the required
thesis defense. If a program requires a comprehensive examination, the program will publish and submit to the Graduate School a
description of the scope and form of the assessment (e.g., comprehensive oral or written examination) and the process for appeal or re-
examination should the student fail the examination.

The major professor will schedule the thesis defense not later than the deadline indicated in the Graduate School calendar. The thesis
defense should be open to members of the Graduate Faculty as visitors. Successful completion of the thesis defense requires the
unanimous support of all members of the advisory committee. If a student fails the thesis defense, one re-examination may be given
on recommendation of the advisory committee and approval by the dean of the Graduate School. Further examinations will be allowed
only under exceptional circumstances and with approval of the Graduate Council.

The Non-Thesis Option
At the discretion of the program, students may be required to pass a comprehensive examination. If a program requires a
comprehensive examination, the program will publish and submit to the Graduate School a description of the scope and form of the
assessment (e.g., comprehensive oral or written examination) and the process for appeal or re-examination should the student fail the
examination. Non-thesis graduate students who complete a special project must register for 7980 in semesters when working on the
project. Non-thesis students requiring only a final examination register for GRAD 7000 in the semester when the exam is taken. Credit
hours for 7990 Research and Thesis cannot be counted toward graduation requirements for non-thesis degree programs.

The Master of Arts
The master of arts is offered in communication (thesis and non-thesis option), English (thesis and non-thesis option), history (thesis and
non-thesis option), sociology (thesis and non-thesis option) and Spanish.

The Master of Science
The master of science is offered in aerospace engineering, agricultural economics, animal sciences, biological sciences (botany,
microbiology and zoology), biomedical sciences (thesis and non-thesis), chemical engineering, chemistry, civil engineering,
communication disorders, community mental health, computer science and software engineering, consumer affairs (thesis and non-
thesis option), curriculum and teaching, discrete and statistical sciences, early childhood, economics (thesis and non-thesis option),
educational foundations leadership and technology, electrical and computer engineering, finance (thesis and non-thesis option),
fisheries and allied aquacultures, forestry and wildlife sciences, geology (thesis and non-thesis option), health and human performance,
horticulture, human development and family studies, industrial and systems engineering, management (thesis and non-thesis option),
materials engineering, mathematics, mechanical engineering, nutrition and food science (thesis and non-thesis option), pharmacal
sciences, pharmacy care systems, physics (thesis and non-thesis option), plant sciences (agronomy and soils, entomology, and
plant pathology), polymer and fiber engineering (thesis and non-thesis option), poultry science, rehabilitation, special education, and
sociology (thesis and non-thesis option).

Second Master’s Degree
For a second master’s degree, the student fulfills all major requirements applicable to any other master’s degree, including the thesis, if
appropriate. The student may, on recommendation of the advisory committee, transfer credit hours from the previous master’s degree.
The student must earn at least 24 semester hours, or half of the total hours required for the master’s degree, whichever is greater, in
the second master’s program at Auburn University.

Special or Professional Master’s Degrees
These special or professional degrees are offered: master of accountancy, master of aerospace engineering, master of agriculture
(agrarian economics, agronomy and soils, animal sciences, entomology, horticulture, plant pathology, and poultry science),
master of applied mathematics, master of aquaculture, master of building construction, master of business administration, master
of chemical engineering, master of civil engineering, master of communication disorders, master of community planning, master
of design build, master of software engineering, master of education (curriculum and teaching, educational foundations leadership
and technology, health and human performance, and special education, rehabilitation, and counseling school psychology), master
of electrical engineering, master of forestry, master of Hispanic studies, master of industrial design (thesis and non-thesis option),
master of industrial and systems engineering, master of landscape architecture, master of management information systems, master of
materials engineering, master of mechanical engineering, master of probability and statistics, master of public administration, master of technical and professional communication, and master of biological studies.

The Specialist in Education Degree

- Admission (p. 1207)
- Advisory Committee (p. 1207)
- Requirements for Degree (p. 1207)
- Time Limit (p. 1207)

This degree is designed for professionals in education and human services areas who want increased competence in a field of specialization. Areas of specialization are offered in the various departments in the College of Education.

Admission

Scholarship, interpersonal orientation and potential for leadership are considered in the screening procedure. Appropriate experience in teaching or a leadership position in education or a human services area is requisite. All work beyond the baccalaureate must have been of high quality with a GPA of at least 3.0 on a 4.0 scale.

Advisory Committee

The specialist student works under the direction of an advisory committee composed of three members recommended by the appropriate department/program head or chair. All must be members of the Auburn University Graduate Faculty. The committee chair (or one of the co-chairs) must be a graduate faculty member in the department/program granting the degree. This committee will approve the student’s program of study, conduct required examinations and direct the required field project. Students in a teaching field (e.g., music education, science education, foreign language education) work under a committee composed of two members from the College of Education and one member from a related academic field.

Requirements for Degree

A minimum of 30 semester hours beyond the master’s degree must be taken in a program approved by the student’s advisory committee. The Plan of Study should be submitted to the Graduate School at least one term before the term in which the student plans to graduate. Professional educators pursuing sixth-year certification are responsible for adapting their Plans of Study to requirements in the states in which they will need advanced certification. A relevant field project, approved in advance by the student’s committee, must be completed under the supervision of the major professor. A final written report on the field project will be submitted to the advisory committee by the student. The advisory committee will conduct a final examination on the area of specialization and the field project.

No student will be permitted to graduate who fails to submit a Plan of Study and graduation check to the Graduate School prior to the semester of expected graduation. Graduation day is the official last day of each semester and, therefore, is the deadline for submitting Plans of Study for graduation the following semester.

Time Limit

All graduate work toward an Education Specialist degree must be completed within a period of six calendar years. The student’s time to completion begins with the earliest completed course approved for inclusion in the plan of study.

Points of Contact

GEORGE T. FLOWERS, Dean
GEORGE CRANDELL, Associate Dean

The Graduate School is open 7:45-11:45 a.m. and 12:45-4:45 p.m., Monday through Friday.
Telephone: (334) 844-4700. Fax: (334) 844-4348.
E-mail: gradadm@auburn.edu
Web: www.grad.auburn.edu
Mailing Address: 106 Hargis Hall, Auburn, AL 36849-5122.

Calendar

The university operates on the semester system. The Graduate School calendar at the beginning of this Bulletin is also available at the Graduate School and contains the dates of various important deadlines. It should be followed carefully.

Graduate Study and University Employees

An Auburn University faculty member or employee may pursue a graduate degree with the approval of the head or chair of the employing department and the dean of the employing school or college. Inquiries should be made to the dean of the Graduate School.

Academic Programs and Curricula

An academic program is an organized plan of study which, when successfully completed, is recognized by the awarding of a degree. It includes all courses and related activities required by the university and those required by a school, college, department or interdisciplinary program. At Auburn University, the minimum number of hours in a doctoral program is 60 semester hours earned through instruction beyond the bachelor’s degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses 7990 and 8990 and must include at least 10 hours of 8990. Some departments require more than 60 semester hours and requirements may vary according to a student’s background and interest. The minimum number of hours in a master’s degree program is 30 semester hours of courses, 6000-level and above.

A graduate program option is a formally approved variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. A formal graduate program option must preserve the integrity of the academic program of which it is a variant. Specifically, the formal program option must 1) be in a recognized sub-field of the discipline; and 2) share at least half of the total credits of the degree program. Only formally approved graduate program options are designated on the transcript. Other less formal variants, which may carry the name of “track,” “concentration,” “emphasis,” or similar terms, are not designated on the transcript; however, all academic programs and designated
variations (whether called “options,” “tracks,” “concentrations,” “emphases” or some similar term) must be approved by the Alabama Commission on Higher Education (ACHE).

A graduate minor is an organized sequence or cluster of courses offered by a department or interdepartmental program. Not all departments or interdepartmental programs offer a minor. At Auburn University, the term graduate minor designates those sequences or clusters of courses that have been formally proposed as minors by departments or interdepartmental programs and approved by the Graduate Council. The minimum number of semester hours in a minor is nine, all of which must be in courses at the 6000-level or above and must be completed at Auburn University.

**Accelerated Bachelor’s/Master’s Degree Plan**

The Accelerated Bachelor’s/Master’s Degree Plan allows Auburn students in some academic programs to count up to nine approved hours (in a 30-35-hour master’s program) or 12 approved hours (in a 36-hour or greater master’s program) toward both a bachelor’s and a master’s degrees. These hours must be at the graduate level.

To be considered for admission, students must have completed at least 45 credit hours and no more than 96 credit hours, including advanced placement credits. Transfer students must have completed at least 24 credit hours at Auburn University. All students must have a cumulative GPA of 3.0/4.0 or higher on course work completed at Auburn. Individual graduate programs may set higher standards or require additional criteria for admission to the accelerated degree program.

Students must complete an “Application for Admission to the Accelerated Bachelor’s/Master’s Degree Plan,” and work with a graduate advisor in the degree-granting department to complete an approved Plan of Study, including: a) a list of the courses that count toward both the undergraduate and graduate degree; and b) the projected dates for the completion of the bachelor’s and master’s degrees. Students in the Honors College remain eligible to graduate with Honors while participating, and should consult with an Honors advisor.

Students must maintain a cumulative GPA (CGPA) of 3.0/4.0 or higher on Auburn University coursework; if the student completes the bachelor’s degree requirements with a cumulative GPA of less than 3.0/4.0 at Auburn, the student cannot double-count credit hours and is terminated from the program.

Students must apply for admission to the Graduate School by the prescribed deadline. Admission to the Accelerated Degree Plan does not guarantee admission to the Graduate School. Students cannot opt to bypass the bachelor’s degree.

Students may withdraw voluntarily from the Accelerated Plan at any time. Students must notify, in writing, the graduate program officer and the coordinator/director of undergraduate studies in their respective departments. Students who withdraw from the program voluntarily or because they do not meet program requirements will not be awarded graduate credit for double-counted courses. Students may contact their major program to see if it participates or visit the Graduate School’s website for a listing of current ABM plans: http://grad.auburn.edu/abm.html.

**Graduate Study and University Employees**

An Auburn University faculty member or employee may pursue a graduate degree with the approval of the head or chair of the employing department and the dean of the employing school or college. Inquiries should be made to the dean of the Graduate School.

**Class Attendance**

Students are expected to attend all their scheduled classes. College work requires regular class attendance as well as careful preparation. Specific policies regarding class attendance are the prerogative of individual faculty members. Faculty shall inform each class in writing at the beginning of the course regarding the effect of absences on the determination of grades.

The student is expected to carry out all assigned work and to take examinations at the class period designated by the instructor. Failure to carry out these assignments or to take examinations at the designated times may result in an appropriate reduction in grade, except as provided below.

Instructors shall determine the policy regarding grading which they feel is best for the course. This policy shall be presented to the class, in writing, at the beginning of the term and will govern the actions of the instructor in the course.

Arrangement to make up missed major examinations (e.g. hour exams, midterm exams) due to properly authorized excused absences (as defined by the Student Policy eHandbook) shall be initiated by the student within one week from the end of the period of the excused absence. Normally, a make-up exam shall occur within two weeks from the time that the student initiates arrangements for it. Instructors are encouraged to refrain from giving make-up examinations during the last three days prior to the first day of final examinations. The format of make-up exams and opportunities for students to make up work other than major examinations are at the
discretion of the instructor whose make-up policies should be stated in writing at the beginning of the term. Instructors are expected to excuse absences for:

1. Illness of the student or serious illness of a member of the student’s immediate family. The instructor may request appropriate verification.
2. The death of a member of the student’s immediate family. The instructor may request appropriate verification.
3. Trips for members of the student organizations sponsored by an academic unit, trips for university classes, and trips for participation in intercollegiate athletic events. When feasible, the student must notify the instructor prior to such absences, but in no case more than one week after the absence. Instructors may request formal notification from appropriate university personnel to document the student’s participation in such trips.
4. Religious holidays. Students are responsible for notifying the instructor in writing of anticipated absences due to their observance of such holidays.
5. Subpoena for court appearance.
6. Any other reason the instructor deems appropriate.

If the instructor does not appear within 20 minutes after the designated class hour, it may be assumed the class is canceled.

It is university policy that all classes will meet as scheduled on the last day before and the first day after holiday periods designated by the university.

Unresolved problems regarding class attendance or procedures should be referred to the University Student Academic Grievance Committee.

**Examinations**

Examinations are classified as (1) final examinations at the end of each term; (2) special examinations; and (3) other course examinations as determined by the instructor.

Announced tests in graduate courses will be administered at a regularly scheduled meeting of the course. Exceptions to this regulation may arise in specialized courses requiring performance or oral tests, and in multiple-sectioned laboratory classes requiring practical laboratory tests. Faculty having sound reasons for scheduling tests at times other than regularly scheduled meeting times are to obtain approval from the department head prior to the beginning of the term, and are to present a written schedule of these changes to the class during the first few days of the term. Rescheduled tests are not to interfere with other scheduled academic endeavors of the students involved, and an appropriate reduction in regularly scheduled class time is to be given to compensate for the rescheduled test period.

**Student Academic Grievance Policy**

The Student Academic Grievance policy, which appears in full in the Student Policy eHandbook, is designed to resolve academic grievances of students which result from actions of faculty or administrators.

**Grades**

**Grade Definitions**

Final passing grades are A, superior; B, good; C, acceptable; D, passing; and S, satisfactory. Final failing grades are F, failure; FA, failure for excessive absences; U, unsatisfactory; NR, no grade reported; and WF, officially dropped with permission of the student’s dean but failing at time of withdrawal and is calculated into the GPA. (For the definition of W, see the following section on Grade Assignment for Class Withdrawal.)

A TD, thesis and dissertation research credit, is assigned to courses 7990 Research and Thesis and 8990 Research and Dissertation.

A grade of IP (In Progress) is used by professional programs, specifically Pharmacy and Veterinary Medicine, for those courses that extend beyond the end of the regular term. Students who are making progress toward completion of their work but have not completed all course requirements may receive the IP grade. The IP grade is not calculated in the GPA until the grade is cleared.

Grades of SA and SN may be assigned in certain specialized classes in which progress to the next level of a program depends on performance in the class. In such cases, a grade of SA in a particular course may be required for advancement. A grade of SN will give the student appropriate earned credit, but will not allow the student to advance in that program.

An NR is assigned systematically when the instructor does not assign a letter grade.
Faculty Policy on Assigning Grades of Incomplete (excludes Distance Education courses)

Effective Fall 2007, student (or appropriate representative) must contact the instructor in writing prior to the submission of final course grades to request a grade of Incomplete due to documented reason (illness/death in family/etc.).

If a student does not request an IN, the instructor should grade the student based upon the percentage of course work completed to date and using a 0 for any exams/ assignments not completed.

To be eligible for a grade of IN, the student must have completed (and have passed) more than half of all class assignments for the semester or summer term.

The instructor must fill out the Incomplete Grade - Memorandum of Understanding form, indicating:

- reason for the IN,
- percent of course work currently completed at the time of submission and the grade average on that work,
- detailed information about the additional work needed to complete the course,
- timeline to complete the work (6 months maximum; preferably sooner), and
- grade the student should be assigned if the additional work is NOT completed by the deadline set for the completion of the work; the missing work is calculated as a 0.

Grades of Incomplete automatically become the grade identified by the instructor, if not cleared within 6 months.

If the instructor assigning a grade of IN leaves Auburn University, the Department Head should make a reasonable attempt to contact the former instructor and then assign a grade based upon the work presented by the student and the information provided on the Incomplete Grade - Memorandum of Understanding form.

Once an IN has been changed to another grade it may not be changed, in the future, to a different grade without approval of the provost.

Documentation of class work must be maintained by the student; the Incomplete Grade-Memorandum of Understanding form must be maintained by the student, faculty and the Office of the Registrar. For instructors who submit the IN Grade forms to the Office of the Registrar prior to course grades being rolled to academic history, the IN will be reflected on the electronic grade roster; faculty will be unable to change that grade on the electronic grade roster.

Instructors should NOT enter a grade on the electronic course roster for those students who are to be assigned the IN grade but leave the grade blank. The system will automatically convert blanks to NR. Once the IN Grade form is received by the Office of the Registrar, that office will convert the NR to the IN grade.

It is the responsibility of the instructor to send a copy of the Incomplete Grade - Memorandum of Understanding form to the Office of the Registrar.

When the student has completed the outstanding work, it is the responsibility of the instructor to initiate the change of grade form and send it to the appropriate department/dean’s office for additional signatures and transmittal to the Office of the Registrar.

These policies apply to all students in undergraduate and graduate courses.

Faculty Policy on Grade Changes (includes NR; Excludes IN)

Grades should be accurate when posted.

- Any change of letter grades (A, B, C, D, F, S, U, FA, and NR) should be made only in extraordinary situations.
- Any grade changes must be completed within 6 months of completion of the course.
- Any grade changes outside of this timeframe must also be approved by the provost.
- A final grade may be changed only by the written request of the instructor, with approval of the department head and dean, submitted to the registrar.
- A grade of F and additional penalties may be assigned for academic dishonesty. See the Student Academic Honesty Code section in the Tiger Cub for further information.

Grade Assignment For Class Withdrawals

A student who withdraws from a course prior to the 15th class day during a semester (or the fifth class day of summer term) will have no grade assignment; however, from the 15th class day during a semester (or the fifth class day of summer term) through mid-semester
(mid-term) a W (Withdrawn Passing) grade will be recorded for the course. A course may be dropped with a W after mid-semester only under unusual conditions and only with permission from the student’s dean. When approval for dropping the course under such circumstances is granted, a W may be assigned only when the instructor indicates that the student is clearly passing the course. Otherwise, a grade of WF (Withdrawn Failing) is assigned. All failing grades are calculated into GPA as grades of F.

Grade Average and Quality Point Computation
A 4.0 grade scale is used. An A equals 4.0; B, 3.0; C, 2.0; D, 1.0; and F equals 0.0. Only course work attempted at Auburn University is used in determining the grade report average and continuation-in-residence requirements. S and U grades do not enter into grade-point computations.

S-U Grading
Grades of S (Satisfactory) and U (Unsatisfactory) may be assigned only to courses approved to be graded S-U, and courses elected under the S-U option.

A graduate student may enroll in undergraduate courses, except for 6000-level courses taken for graduate credit, under the S-U option on the major professor’s recommendation.

Students are not permitted to change from S-U grading to conventional grading or vice versa after the fifteenth class day of the fall and spring terms or the fifth class day of any summer term.

Grade Reports
Grade information may be obtained via tigeri at the Auburn University homepage, www.auburn.edu.

Credit for Directed Studies
The university policy on directed studies was approved effective August 2006. Auburn University offers directed readings courses, also referred to as special problems courses or independent studies, in accordance with established policy.

Directed readings courses allow in-depth study of a particular subject by a student who is well into her or his major and, in extraordinary circumstances, accommodate scheduling issues when no other remedy is available.

Directed readings courses should not normally be used as replacements for required courses or as a solution to routine scheduling problems.

Approval to Teach Course - A standard Approval for Independent Study/Directed Readings Form, available through the Office of the Provost website, will specify the necessary approvals and serve as the vehicle for obtaining them.

Classified or Proprietary Research
No thesis or dissertation should be based exclusively on a proprietary or classified research project, nor should a thesis or dissertation include proprietary or classified information. Any graduate student and advisor engaged in such research should identify an alternative topic for the thesis or dissertation. Should a thesis or dissertation include such information, the document must be rewritten with offending material excised.

Research Involving Humans
Auburn University established the Institutional Review Board for the Use of Human Subjects in Research (IRB) to evaluate research for compliance with the guidelines and policies of the U.S. Department of Health and Human Services, the Public Health Service, the Food and Drug Administration and other federal, state and local regulations. All research using human subjects – whether it is conducted by faculty, staff or students – must be approved in advance by the IRB, regardless of the source of funding, lack of funding or any other consideration. Research involving human subjects not approved in advance may be disallowed and may incur severe penalties for non-compliance with institutional policy. Information and review forms may be obtained from the Administrator for Special Programs, 307D Samford Hall, (334) 844-5966.

Activities Involving Animals
Auburn University’s Animal Resources Program requires compliance with the Animal Welfare Assurance negotiated with the Office of Protection from Research Risks/National Institutes of Health (OPRR/NIH). A major part of that Assurance involves the Institutional Animal Care and Use Committee (IACUC) that ensures compliance with the Assurance, the policies of the U.S. Department of Health and Human Services, the U.S. Department of Agriculture and all other federal, state and local regulations concerning care, treatment and use of animals. All activities, whether teaching, research, production or display of animals, and whether or not the activity is funded,
must be approved in advance by the committee. The use of animals for any purpose that is not approved in advance by the IACUC may involve severe penalties for non-compliance with institutional policy and could jeopardize the university's Animal Welfare Assurance filed with the OPRR and the NIH. Information may be obtained from the Director of Animal Resources, (334) 844-5667.

**Academic Engagement**

Any graduate student enrolled in a degree program culminating in a thesis or dissertation will directly engage in research and/or creative scholarship with the major professor, will have access to the tools needed for the research/scholarly activity, will be immersed in the culture of graduate education, will engage in the professional activities of the discipline, and will complete the research/scholarly activity in a reasonable period of time.

**Academic Integrity and Student Conduct**

Graduate students at Auburn University are expected to adhere to established standards of academic integrity, personal conduct, and professional conduct. The primary code of conduct is detailed in the Auburn University Code of Student Discipline. Academic units may also define and publish standards appropriate to their disciplines as well as describing the processes for resolving disputes and appealing decisions. Students found in violation of policies defining academic integrity, personal conduct, and professional conduct may be subject to dismissal from the Graduate School.

**AUETD Publication and Access Policy**

AUETD is an online database of electronic theses and dissertations (ETDs) submitted by Auburn University students in partial fulfillment of the university's graduate degree requirements. Its purpose is to make Auburn University's ETDs widely available to the public and easy to find online. The ETDs in the AUETD database are indexed by Google and other internet search engines and may appear in search results for those search engines. Graduate students who want to limit access temporarily to the full text of their ETD must choose one of the limited access options during the ETD submission process (see options below). Students who choose to limit access to their ETD should be aware that basic bibliographical information about their ETD (including the abstract) will appear in the AUETD database and that the full text of their ETD will become publicly available immediately upon the expiration of the time limit set for limited access. Students who have questions or concerns about this policy are encouraged to contact Clint Lovelace at (334) 844-4112 BEFORE submitting their ETD to AUETD.

**Limited Access Options**

1. **Unlimited access**: Publication in AUETD with unlimited access is immediate and irreversible. Once a thesis/dissertation is published in AUETD, access via the world-wide-web may not be denied or reversed.

2. **Limited access**: Upon request, students may limit access to their thesis/dissertation only to users with a valid AU userid and password for a limited time period. Upon request, limited access is granted for a period of time not to exceed: i) six months; ii) one year; iii) two years; or iv) five years. Unless the student petitions to extend the period of limited access, the thesis/dissertation will be published with unlimited access immediately upon the expiration of the time period.

3. **Withheld access**: Upon request, students may withhold access to their thesis/dissertation to all users for a limited time period. This means that all users, including the students and their advisory committees are denied access to the thesis/dissertation in AUETD. Upon request, withheld access is granted for a period of time not to exceed: i) six months; ii) one year; iii) two years; or iv) five years. Unless the student petitions to extend the period of limited access, the thesis/dissertation will be published with unlimited access immediately upon the expiration of the time period.

4. **Copyright**: If students plan to copyright some of all of their thesis/dissertation, these plans should be discussed in advance with the major professor, especially if the thesis/dissertation includes shared data.

**Distance Offerings of Thesis and Dissertation Course Work**

Recognizing the importance of global research and professional opportunities, international travel, and the widespread availability of technologies that bring remote research and scholarly partners together, the Graduate School allows thesis and dissertation coursework to be completed by means of distance education in approved courses: Research and Thesis (7996) and Research and Dissertation (8996). Graduate students engaged in on-campus study must not be enrolled in Research and Thesis (7996) or Research and Dissertation (8996). At the time of enrollment, the major professor certifies compliance with this requirement.

**General Regulations**

Regulations listed here represent the minimums of the Graduate School. However, individual departments may impose more stringent requirements and students will be governed by them.
Exceptions to Graduate School Policies

Exceptions may be made to policies of the Graduate School under special circumstances. A person wishing to request an exception should write a letter to the dean of the Graduate School stating the nature of the request and the reasons for it. If a student is making the request, the letter should be submitted first to the major professor, who will write a letter of recommendation. Both letters go to the department head. If a member of the faculty is making the request, the letter goes to the department head, who will write a letter of recommendation. All letters go to the associated College/School dean for approval. Letters and comments then are forwarded to the dean of the Graduate School. A request for an extension of time to meet degree requirements must be justified. It must be accompanied by a proposed schedule for completion and assurance that the student is current in subjects included in the plan of study.

Graduate Certificate Definition

Graduate certificate programs constitute an integrated curriculum, but not necessarily one aligned with a specific academic program. They may exist within programs, bridge programs or offer content widely useable across programs. Graduate certificate programs consist of a minimum of 9 and maximum of 21 hours of graduate-level course work. The course work may be graded or non-graded. A minimum GPA of 3.0 must be maintained on all graded course work in the certificate program.

Graduate certificate programs pertain to graduate students, whether degree seeking or non-degree seeking. A graduate certificate is distinguished from graduate minors in two primary ways. First, graduate minors are intended exclusively for degree seeking graduate students. Graduate certificates may be directed to both degree seeking and non-degree seeking students. Second, there are limits to the number of course credits taken in pursuit of graduate minors that may be applied to a graduate degree (e.g., masters degrees require 21/30 hours to be in the major discipline). The limiting factor in the application of certificate course credits to graduate degrees is departmental policy or advisory committee recommendations. As an example, if a department developed a certificate program intended only for non-degree seeking students, that department could prevent those certificate courses from applying to a degree. However, in the absence of departmental policy, and with the approval of a student’s advisory committee, both degree seeking and non-degree seeking students (if they later change status to degree seeking) may include all certificate-related courses toward degree requirements.

When new graduate certificates are proposed, they undergo the full process of curriculum review. This same process applies regardless of delivery method (i.e., on campus and distance). Special requirements for applicants may be negotiated between the certificate proposing program and the graduate school at the time the program is proposed. Consistent with Graduate School policy related to the Masters and Specialist degrees, all requirements for a graduate certificate must be accomplished within 6 years unless departmental criteria for the certificate necessitate a longer time. Certificate Programs that require an exception to this 6-year time limit must be approved by the Graduate Council. Not only must the content of the proposed certificate be appropriate, but the availability of a viable group of graduate faculty to teach the courses in the certificate must be documented. Proposals for graduate certificate programs must identify a specific person who will serve as coordinator. Certificates that bridge departments must have a home department to which all certificate applicants apply. But each affiliated department must also designate a coordinator. Students who fulfill all requirements for a graduate certificate will have the certificate noted on their transcript when the Graduate School receives a memo signed by the certificate coordinator documenting the successful completion of all certificate requirements.

Graduate certificates are to be differentiated from professional development certificates. No comprehensive definition of the latter is offered here, however, in brief, completion of a professional development certificate does not require admission to the Graduate School and is awarded based on participation in non-credit work. The definition of graduate certificate does not limit the ability of departments or other units from defining, implementing, or awarding professional development certificates. Professional development certificates are not subject to the Auburn University curriculum process, nor are their achievement noted on Auburn University transcripts.

Graduate Curriculum Model Change

When a graduate curriculum model is changed, the changes apply only to students who matriculate after the approval of the changes and to currently enrolled students who voluntarily choose to complete the requirements of the new curriculum model. In no case, for students who are continuously enrolled, will the changed curriculum compel them to accumulate additional hours and grade points to graduate. Curriculum model changes are to be implemented at the beginning of the semester in which the largest number of new students typically enroll (fall semester for most programs). Graduate students who have not been enrolled at Auburn University for two or more semesters and who are returning to the same curriculum may be subject to different university, college, school or departmental requirements than those which existed when continuous enrollment ceased.
Institutions with Special Affiliations

By special arrangement with Florida A & M University, the Graduate School application fee is waived for students applying from this institution.

Oak Ridge Associated Universities

Auburn University has been a sponsoring institution of the Oak Ridge Associated Universities (ORAU) since 1946. ORAU is a private, not-for-profit consortium of 82 colleges and universities and a management and operating contractor for the U.S. Department of Energy (DOE) with principal offices located in Oak Ridge, Tennessee. Founded in 1946, ORAU provides and develops capabilities critical to the nation’s technology infrastructure, particularly in energy, education, health and the environment. ORAU works with and for its member institutions to help faculty and students gain access to federal research facilities; to keep members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among our members in areas where their collective strengths can be focused on issues of national importance.

ORAU manages the Oak Ridge Institute for Science and Education (ORISE) for DOE. ORISE is responsible for national and international programs in science and engineering education, training and management systems, energy and environment systems and medical sciences. ORISE’s competitive programs bring students at all levels, K-12 through postgraduate, and university faculty members into federal and private laboratories. Other ORAU activities include the sponsorship of conferences and workshops, the Visiting Scholars program and the Junior Faculty Enhancement Awards. Contact Dr. Bryan A. Chin, (334) 844-4784, for more information about ORAU programs.

Graduate Program Option Definition

A graduate program option is a formally approved variation of an academic program by the offering department which meets objectives that may be more specifically focused. These additional objectives are integrated with the basic program. A formal graduate program option must preserve the integrity of the academic program of which it is a variant. Specifically, the formal program option must 1) be in a recognized sub-field of the discipline; and 2) share at least half of the total credits of the degree program. Only formally approved graduate program options are designated on the transcript. Other less formal variants, which may carry the name of “track,” “concentration,” “emphasis,” or similar terms, are not designated on the transcript; however, all academic programs and designated variations (whether called “options,” “tracks,” “concentrations,” “emphases” or some similar term) must be approved by the Alabama Commission on Higher Education (ACHE).

Two-Campus Studies

A student seeking a graduate degree at Auburn University, Auburn University at Montgomery, the University of Alabama, the University of Alabama at Birmingham, or the University of Alabama at Huntsville may take up to half the course work at another of these institutions. The courses taken must be approved in advance by the student’s Advisory Committee and the respective graduate deans. All credit must be earned at the two institutions in which the student is working, and none may be transferred from another institution. Students engaged in two-campus studies are required to meet the requirements of continuous enrollment at Auburn University.

Student Records

Confidentiality of Student Records

The university recognizes that the maintenance of student information and educational records is necessary and vital to assist the student’s education and development and to provide opportunities for university research and policy formulation. The university recognizes its obligation to exercise discretion in recording and disseminating information about students to ensure that their rights of privacy are maintained.

The university will furnish annual notification to students of their right to inspect and review their educational records; the right to request amendment of educational records considered by them to be inaccurate or misleading or that violate privacy or other rights; and of their right to a hearing should the university decline to amend such records. This annual notice will be published in the Auburn University Bulletin and an electronic notification is sent to each active Auburn student.

The following guidelines have been developed to ensure the privacy rights of students. For the purposes of this policy statement a student is defined as an individual who has been admitted and has been in attendance in a component unit of the university. Classification as a student in one component unit of the university (e.g., an undergraduate program) does not imply that the person has been accorded the rights outlined below in other component units (i.e., graduate school, professional schools, branch campus).
General Policies

Student Access to Records

Auburn University’s permanent student education record consists of one or more of the following: the official transcript of grades, competency evaluations, and any narrative evaluations. This is in accordance with guidelines established by the American Association of Collegiate Registrars and Admissions Officers and the State of Alabama policies on Retention of Records.

Students have the right to be provided a list of the type of educational records maintained by the university which are directly related to the student; the right to inspect and review the contents of these records; the right to obtain copies of these records; the right to a response from the university to reasonable requests for explanation and interpretation of these records; the right to an opportunity for a hearing to challenge the content of these records; and if any material or document in the educational record of a student includes information on more than one student, the right to inspect and review only the part of such material or document as relates to the student.

Students do not have access to financial records of their parents; confidential letters and statements of recommendation which were placed in the educational record prior to Jan. 1, 1975, provided such letters or statements were solicited or designated as confidential and are not used for purposes other than those for which they were specifically intended; confidential recommendations, if the student signed a waiver of the right of access, respecting admission, application for employment, and the receipt of an honor or honorary recognition.

Students do not have access to instructional, supervisory or administrative personnel records which are not accessible or revealed to any other individual except a substitute; Campus Security records which are maintained apart from educational records, which are used solely for law enforcement purposes, and which are not disclosed to individuals other than law enforcement officials of the same jurisdiction; employment records except when such employment requires that the person be a student; and the Alumni Office records.

Students do not have access to physical or mental health records created by a physician, psychiatrist, psychologist or other recognized professional acting in his or her capacity or to records created in connection with the treatment of the student under these conditions which are not disclosed to anyone other than individuals providing treatment. A physician or appropriate professional of the student’s choice may review these records.

Procedures for Access

The Office of the Registrar has a complete list of educational records maintained by the university which students may obtain. Students should contact the appropriate office to inspect and review their records. An office may require that a university official be present when a student inspects and reviews his or her educational records. Any questions concerning a student’s access to records should be directed to the registrar.

Amending Educational Records

Students may request that any information contained in their educational records which they consider to be inaccurate, misleading, or in violation of their privacy or other rights be amended or deleted from the records. (A grade or other academic scores may not be amended, except that the accuracy of recording the information may be challenged.)

Students who request that information in their records be amended should first direct their request to the official with primary responsibility for the information on the record. If the matter is not resolved to their satisfaction, students should direct their requests to the official’s dean or division head. If the matter is not resolved to their satisfaction, they may request a formal hearing.

Right to a Formal Hearing and Procedures for Decision

Students may request formal hearings to challenge information contained in their educational records. The hearing will be held in a reasonable time (not to exceed 45 days) and in a reasonable place. Students may be assisted or represented by persons of their choice, including an attorney, at the expense of the student, and shall be afforded a full and fair opportunity to present evidence relevant to the issue(s).

Students or their representative should request the hearing in writing and should specifically identify the information they seek to have amended. The request should be directed to the Office of the Provost/Vice President for Academic Affairs.

The Office of the Provost/Vice President for Academic Affairs will conduct the hearing and render a decision within a reasonable period of time after the conclusion of the hearing and the decision shall be based solely upon the evidence presented at the hearing. The student shall be notified in writing of the reason(s) for the decision and given a summary of the evidence.

If the decision is that the information in the student’s educational records is inaccurate, misleading or in violation of his rights and privacy, the statement(s) will be corrected or expunged from the students records.
If the decision is that the information is not inaccurate, misleading, or in violation of the privacy or other rights of the student and that
the information or parts thereof are to remain in the student’s educational records, the student shall be notified and given the right to
enter a statement in the records setting forth any reason for disagreeing with the decision of the Office of the Provost/Vice President for
Academic Affairs. This statement shall be maintained in the records as long as the record or contested portion thereof is maintained,
and if the contested educational record or contested portion thereof is disclosed by Auburn University to any party, the student’s
explanation shall also be disclosed to that party.

The Secretary of Education has established a review board to receive complaints regarding violation of student’s rights. Students
wishing to file a complaint directly to the review board should write to the Family Policy and Regulations Office, Department of
Education, Washington, D.C. 20202. Detailed procedures for this complaint procedure are listed under section 99.63 of the regulations
issued by the Secretary and will be furnished upon request by the registrar, Auburn University.

This policy is adopted pursuant to the Family Educational Rights and Privacy Act, (34 CFR Part 99), and is not intended to impose any
restrictions or grant any rights not specifically required by this Act.

Release of Directory Information

The university may release directory information without the student's written consent. Directory information consists of student’s
complete name; local address and associated telephone number; place of birth; parent/spouse name, address and associated
telephone number; mailing address and associated telephone number; E-mail address; photographs, video or other electronic image;
participation in recognized activities and sports; weight and height of members of athletic teams; dates of attendance; enrollment time
status (full or part time); degrees and awards received; and most recent previous educational agency or institution attended.

A student may deny the release of directory information by completing an Address Change/Information restriction request form
available in the Office of the Registrar, Langdon Hall. Students may also restrict directory information on tiger.i.

To deny the release of information regarding participation in recognized activities the student must notify the vice president for Student
Affairs and the student’s academic dean in writing. To deny the release of athletic information, the student must notify the director
of Athletics in writing. A former student, one who is not in attendance, must contact the appropriate offices to deny the release of
information.

Release of Educational Records

The university will release a student’s educational record(s) upon the student’s written request. The student must:

1. Specify the records to be disclosed.
2. Include the purpose or purposes of the disclosure.
3. State the party or parties and the address to whom the information is to be disclosed.

The student shall, upon request, receive a copy of the record that is to be disclosed. It is university policy to furnish single copies of a
student’s record at no charge.

The university may release student’s educational records to the following without prior written consent:

1. University officials who have a legitimate educational interest in the records. University officials are defined as teachers,
administrative personnel and other employees except personnel of the security or law enforcement unit of Auburn University, and
other agents acting on behalf of the university. If university officials are required in the performance of their duties to review the
educational records of a student, this will be considered to be a legitimate educational interest. Auburn University has designated
the National Student Clearinghouse as a university official.
2. Officials of another school in which the student intends to enroll upon request of the transfer school.
3. Government representatives of the Comptroller General of the United States, the Secretary of Education, the U.S. Commissioner of
Education, the Director of the National Institute of Education, the Assistant Secretary for Education, State educational authorities,
and State officials to whom such information is specifically required to be reported or disclosed by State law adopted prior to Nov.
19, 1974.
4. Appropriate authorities in connection with financial aid with the understanding that only the necessary records will be released.
5. Organizations conducting studies for, or on behalf of, the university or its agencies for the purpose of developing, validating, or
administering predictive tests, administering student aid programs, and improving instruction and student life provided that the
studies will not permit the personal identification of students and their parents by individuals other than representatives of the
organization and provided that the personally identifiable information furnished will be destroyed when no longer needed for the
purposes for which the study was conducted.
6. Accrediting organizations to carry out their accrediting functions.

7. Parents of a dependent student as defined in section 152 of the Internal Revenue Code of 1954. University officials may release educational records to parents on the basis of a written documentation from the parent that the student is a dependent as defined under the Code and there is reasonable notification of the student regarding the request.

8. A court of law to comply with a judicial order or lawfully issued subpoena with the understanding that the student will be notified in advance insofar as possible.

9. Appropriate parties to protect the health and safety of the student or other individuals in emergencies with the understanding that only information essential to the emergency situation will be released, that information will be released only to a party who would be in a position to deal with the emergency, and that the student will be notified in insofar as possible of the information released, the purpose for the release, and to whom the information was released.

No personal information on a student will be released without a statement from the university to the party receiving the information that no third party is to have access to such information without the written consent of the student.

Each office with educational records will maintain a record of each request and disclosure of personally identifiable information from the educational records of a student except for information requested in writing by the student, information released to the student or the student’s parents, directory information, and information released to university officials and teachers who have a legitimate educational interest in the records. The student may inspect the record of requests, disclosures and the legitimate interests of parties requesting or obtaining information in the appropriate university office.

**Accommodation Policy for Students with Disabilities**

Auburn University is committed to providing its students with an accessible campus and equitable learning environment. If you have a disability that requires academic accommodations, assistive technology, or support services, contact the Office of Accessibility for additional information, 1228 Haley Center; 334-844-2096 (Voice/TT) or visit the Office of Accessibility website.

**Policy on Withdrawals and Resignation**

Withdrawal refers to the situation where a student drops a class or classes, but remains enrolled in at least one class (at least one credit hour) at the university that term. Resignation refers to the student dropping all classes (0 credit hours) and no longer being enrolled that term.

Withdrawal from a Course. Students may withdraw from a course via the web up through the last business day prior to the opening of registration for the following term in spring and fall semester and the posted date in the summer. Students who withdraw from a course before the posted term census date (15th class day in spring and fall and 5th class day in summer) will have no grade assignment and no record of having attempted the course on the transcript. Students who withdraw after census and on or before the withdrawal deadline will have a grade of W for the course recorded on the transcript. Grades of W are not used in calculating the term or cumulative GPA at Auburn University.

A course may be dropped after the withdrawal deadline only under unusual conditions and with special permission. Requests for medical withdrawals (serious physical and/or psychological illness of the student) must be verified and approved by the Office of Accessibility. A medical withdrawal is appropriate when, by recommendation of a licensed health care provider, a student cannot continue enrollment in one or more of his/her courses because of a serious physical and/or psychological condition. Because serious health conditions usually impact all courses, most requests for a medical withdrawal result in a medical resignation (see Resignation from all courses.) All other requests for withdrawals after the withdrawal deadline, based on extraordinary personal circumstances, must be approved by the student’s associate dean and subsequently by the designated representative from the Office of the Provost. When approval for dropping the course under such circumstances is granted by the Office of Accessibility or the Office of the Provost, a W may be assigned only when the instructor indicates that the student was clearly passing the course on the date of withdrawal. Otherwise, a grade of WF (Withdrawn Failing) is assigned. Grades of WF are used in calculating the term and cumulative GPA and have the same impact as a grade of F. In extraordinary situations, where it can be clearly demonstrated that a failing grade in the class at the time of withdrawal is directly related to the medical or personal situation leading to the withdrawal, a student may request a withdrawal without grade penalty. The request for withdrawal without grade penalty must be approved by the Office of Accessibility in the case of a medical withdrawal or the student’s associate dean in the case of a personal withdrawal, and finally by the designated representative from the Office of the Provost. The Office of Accessibility or the student’s Associate Dean will notify the student’s professors and ask for any additional information about the student’s progress in the class/ classes—and to determine the student’s grade.
Resignation from all courses. Students are encouraged to contact their advisors and their academic deans before resigning. Resignations can impact financial aid, veteran’s benefits, international student standing, eligibility for varsity athletics, and on-campus housing.

Students may resign without grade penalty if they resign no later than mid-semester (mid-term in the summer). As with course withdrawal, a student may resign after mid-semester (mid-term in the summer) only under unusual circumstances, such as serious illness of the student, serious illness or death of a member of the student’s immediate family, or being called to active military service. A medical resignation is appropriate when, by recommendation of a licensed health care provider, a student cannot continue enrollment in his/her courses because of a serious physical and/or psychological illness. All requests for medical resignations (serious physical and/or psychological illness of the student) must be verified and approved by the Office of Accessibility. All other requests for resignations after mid-term, based on extraordinary personal circumstances, must be approved by the student’s associate dean and subsequently by the designated representative from the Office of the Provost. The Office of Accessibility or associate dean will obtain from the student’s instructors the records of the student’s scholastic standing at the time of resignation. In the case of personal resignations after mid-semester, the associate deans will send the information to the designee from the Office of the Provost who will review the request and decide on final approval.

If on the effective date of the resignation after mid-semester (or mid-term in the summer) the student is failing in over half of the total course hours (where total course hours exclude any grades of W previously recorded for the term), the number of hours reported as failing will be assigned grades of WF and will be used in calculation of the student’s term and cumulative GPA. The hours reported as passing will be assigned grades of W and will not be counted in the term or cumulative GPA at Auburn University. If the student is passing half or more of the total course hours (excluding any grades of W previously recorded for the term), the student will receive grades of W on all course hours and these grades will not enter into the calculation of the student’s Auburn GPA.

When a student is forced to resign after mid-semester, either for medical reasons or for compelling personal reasons, and when the medical condition or extraordinary personal situation can be determined to be the main factor causing scholastic deficiencies, discretionary power in waiving the scholastic penalty will rest with the Office of Accessibility in the case of medical resignations or with the Office of the Provost in the case of personal resignations. All such decisions must include input from the student’s instructors.

In all cases of resignation, if a student has been placed on academic suspension at the end of the last term in residence before the term of resignation, the student’s dean will review the grades at the time of resignation and determine whether the student will be placed on further academic suspension.

**Enrollment in Terms Following a Medical Resignation.** Students who plan to enroll in subsequent semesters or summer terms following a medical resignation will be required to submit medical documentation from a licensed health care provider which indicates readiness to return to an academic environment. Additionally, academic units reserve the right to request further documentation and/or other requirements specific to the student’s individual program of study. All documentation will be submitted to the Office of Accessibility and is kept confidential. A hold will be placed on the student’s registration until this documentation is submitted. If the student has already registered for the following semester, the schedule will be dropped if documentation is not submitted by a specified date and/or the student has not contacted the Office of Accessibility.

Retroactive Dating of Withdrawals and Resignations. Retroactive dating refers to establishing an effective date for withdrawal or resignation before the date that one is filling out the form, often, prior to midterm. For retroactive dating to be allowed, there must be a compelling reason that the forms were unable to be filed at the requested effective date.

Retroactive withdrawals/resignations are most frequently initiated when a student has documentation from a health professional (doctor/psychologist, etc.) verifying a medical condition, which is confirmed by the Office of Accessibility, and the medical condition prevented the student from withdrawing or resigning on the effective date.

When a student initiates any retroactive withdrawal/resignation, the student’s associate dean must determine if the retroactive withdrawal/resignation is based on a medical or non-medical justification/explanation. If the retroactive withdrawal/resignation is based upon a medical justification/explanation, the associate dean will direct the student to the Office of Accessibility. The medical documentation must identify why the student was so impaired that he/she was unable to withdraw/resign in a timely manner.

If the retroactive withdrawal/resignation is based upon a non-medical justification/explanation, the associate dean follows the procedures for all other (non-medical) withdrawals/resignations, gathering information from the instructors and submitting the documentation to the designee from the Office of the Provost. The Provost’s designee will determine why the student was unable to resign in a timely manner and if an earlier effective date is warranted.
If one or more of the student’s instructors has left Auburn University, the instructor(s) should be contacted by email, by the individual recommending the retroactive withdrawal/ resignation, for information. If the faculty member does not respond, the department head/ chair should respond on behalf of the faculty member.

Retroactive withdrawals/ resignations should not be undertaken if more than two calendar years have passed since the course(s) was/ were taken, without the direct review and approval of the Provost.

Aerospace Engineering - MAE., MS, PhD

Program Degrees:
• Aerospace Engineering (MAE) (p. 1223)
• Aerospace Engineering (MS) (p. 1223)
• Aerospace Engineering (PhD) (p. 1223)

Graduate study in aerospace engineering leads to the degrees of master of science, master of aerospace engineering and the doctor of philosophy. The graduate program prepares students for careers in the aerospace industry, in government laboratories and in academia. Studies for the PhD also are designed to produce research scholars.

Applicants should have a bachelor's degree in aerospace engineering or its equivalent from an institution of recognized standing, plus satisfactory GRE scores. Degrees in mathematics, physics and certain other engineering disciplines may also be appropriate for entrance into the graduate program. Applications must be approved by the department's committee on graduate study.

For the master of science, the student must complete an approved program of at least 30 credit hours in aerospace engineering or closely related supporting subjects at the 6000-level or above. The master of science degree requirements include the completion of a thesis under the supervision of a major professor and an advisory committee.

The master of aerospace engineering is a non-thesis degree for which the student must complete an approved program of at least 33 hours of course work at the 6000-level or above. A suitable project in aerospace engineering, culminating in a final written report
approved by the student’s advisory committee, may be substituted for three credit hours of course work. An oral presentation is also required for the MAE degree.

For both the MS and MAE degrees, at least half of the required credit hours must be completed in aerospace engineering courses.

For the doctor of philosophy degree, the student must complete a minimum of 60 credit hours beyond the bachelor’s degree. A plan of study will be arranged on an individual basis and students may elect to specialize in the general areas of aerodynamics, computational fluid dynamics, control theory, flight dynamics, orbital mechanics, propulsion, structures or structural dynamics. A written qualifying examination and a general doctoral examination, with both written and oral parts, are required of all doctoral candidates. An oral defense of the doctoral dissertation is also required of each student.

There is no language requirement for the master’s or PhD degrees.

**Agricultural Economics and Rural Sociology - MS, MAg, Applied Economics-PhD**

**Programs Degrees:**
- Agricultural Economics - MS (p. 1225)
- Agricultural Economics - MAg (p. 1225)
- Applied Economics (Agriculture) - PhD (p. 1226)

Graduate degrees in the Department of Agricultural Economics and Rural Sociology (DAERS) include the master of science (MS) in agricultural economics or rural sociology, the master of agriculture (MAg) in agricultural economics, as well as the PhD in applied economics. Admission to the masters program in agricultural economics requires a bachelors degree from an accredited institution with 15 semester hours in related courses including economics, sociology, statistics, or related subjects accepted by the Graduate Committee. Applicants are required to have a bachelors degree from an accredited institution and generally are required to have a minimum score of 290 (150 V and 140 Q) and a GPA of 3.0 on all completed coursework. Admission into the MS programs requires a minimum GRE score of 900 (450 V and 450 Q). Admission into the PhD program requires and minimum GRE score of 1000 (400 V and 600 Q). Admission into the Master of Agriculture program requires a minimum GRE score of 800 (400 V and 400 Q). International applicants from non-English speaking countries must have a minimum TOEFL score of 550 (213 computer). Applicants with GRE
scores below 400 will be required to complete specified English courses. Applicants to all graduate programs are generally required to have a minimum GRA of 3.0 on the last 60 semester hours of completed coursework.

The master's program in rural sociology is part of an Interdepartmental Graduate Program in Sociology. Admission to the program is administered by co-directors representing the Department of Sociology, Anthropology & Social Work and the Department of Agricultural Economics & Rural Sociology. Applicants are required to have a bachelor's degree from an accredited institution and generally are required to have a minimum GRE score of 290 (150 V and 140 Q) and a GPA of 3.0 on all completed coursework. The applicant's resume and letters of recommendation also are considered in making a decision on admission. Further details on the master's degree in rural sociology can be found in the AU Bulletin (p. 1398) and the Interdepartmental Graduate Program in Sociology guide (http://www.cla.auburn.edu/sociology/sociology-program/graduates/program-guide).

The MS in agricultural economics (thesis option) requires a minimum of 30 semester hours of graduate credit with 6 hours of thesis research. Required of all MS students:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 6020</td>
<td>Advanced Microeconomics</td>
<td>3</td>

<tr>
<td>AGEC 7700</td>
<td>Research Methods in Agricultural Economics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>Hours</strong></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

Course substitution for will be allowed for ECON 6020 upon approval of the Graduate Program Officer. A total of 12 hours of core course is required in a program of 24 course hours. The remaining 12 hours can be filled with any graduate-level courses approved by the major professor and thesis committee. At least one-half of all credit hours toward the minimum degree requirement must be earned in courses at the 7000-level or above. All MS candidates must pass a comprehensive examination covering the major field, as well as research and thesis. This usually is a two-hour oral examination upon completion of coursework and the thesis, but the student's advisory committee also may require a written examination.

There is a non-thesis MS option that requires 36 hours of course work. Twelve of these hours must be in core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<tr>
<td>AGEC 7700</td>
<td>Research Methods in Agricultural Economics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>Hours</strong></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

The remaining 24 hours can be filled with any graduate-level courses approved by the major professor and graduate committee. At least one-half of all credit hours toward the minimum degree requirement must be earned in courses at the 7000-level or above. The non-thesis option requires a “Plan B” paper that serves as the basis for the student’s final oral exam.

Graduate study in rural sociology (MS thesis or MS nonthesis) (p. 1398) is available through the Interdepartmental Graduate Program in Sociology (http://www.cla.auburn.edu/sociology/sociology-program/graduates/program-guide), which includes rural sociologists from DAERS as well as sociologists and anthropologists from the Department of Sociology, Anthropology, and Social Work.

The master of agriculture (MAg) in agricultural economics requires 32 graduate credit hours, 18 in the major, as approved by the advisory committee. A final oral examination is given by the advisory committee.

The MBA in agribusiness or natural resources and environmental management is offered in coordination with the College of Business. Requirements include 36 graduate credit hours with 24 hours in business and 12 hours in agricultural economics or a closely related area approved by the director of the MBA program and the major professor in DAERS.

A PhD in Economics is offered through the interdepartmental program in economics, which is administered jointly by the Department of Agricultural Economics and Rural Sociology, the Department of Economics, and the School of Forestry and Wildlife Sciences. For students enrolled in the College of Agriculture, the PhD in Applied Economics requires a minimum of 42 credit hours beyond a masters degree or 60 hours beyond a bachelors degree, plus at least 10 hours of dissertation research. All students must take:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 7110</td>
<td>Microeconomics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 7120</td>
<td>Microeconomics II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 7130</td>
<td>Mathematical Economics</td>
<td>3</td>
</tr>
</tbody>
</table>
This is a total of 48 hours of coursework in a program of 60 (42) course hours beyond the bachelors (masters) degree. The remaining hours can be filled with any courses at the 6000-level or above approved by the major professor and thesis committee.

The PhD written preliminary examination requirement is satisfied by a research paper due July or October after the first year of coursework. In addition, PhD students with a GPA below 3.5 in their first-year core courses must pass a written examination that integrates material from the core courses. There is an oral examination on the field and proposed dissertation research (referred to as the PhD prelim oral exam), and a final oral defense of the dissertation. For details on exam requirements, see the DAERS Graduate Handbook posted on the department’s web site. After satisfactory completion of the PhD prelim oral exam the student advances to candidacy. PhD students are encouraged to consider a graduate minor in statistics, which requires 12 hours of coursework in statistics (see Statistics Department web site for details).

A Graduate Minor in Agricultural Economics (GMAE) is offered for non-majors wishing to obtain training in the application of economic principles to problems affecting rural communities and households. The GMAE requires 12 credit hours of graduate-level coursework in agricultural economics (6 hours must be at the 7000 level or above). The student’s graduate committee must include a faculty member from the agricultural economics department, and the student must demonstrate competence in the application of economic principles to problems in research. The latter requirement is typically met via a chapter or section in the student’s thesis or dissertation.

Total Hours  60

**Agronomy and Soils - MS, MAg, PhD**

**Program Degrees:**

- Agronomy and Soils - MS (p. 1227)
- Agronomy and Soils - MAg (p. 1227)
- Agronomy and Soils - PhD (p. 1227)
- Soil, Water, and Environmental Science - MS (p. 1228)
- Soil, Water, and Environmental Science - MAg (p. 1228)
- Turfgrass Management - MTM (p. 1229)

Graduate training in this department enables outstanding students to achieve a high level of scholarly attainment in the soil, crop and environmental sciences. Within these broad areas, research training and experience may be gained in the specialized fields of soil fertility and plant nutrition; soil chemistry; soil genesis, morphology and classification; soil mineralogy; soil physics; soil microbiology; plant breeding and genetics; weed science; forage, fiber, bioenergy and grain crop production; crop ecology; environmental quality; and turfgrass management.

All graduate students are required to have core undergraduate courses in math, chemistry, physics, botany, plant physiology, genetics, and statistics. The Graduate Studies Committee evaluates each applicant’s record and determines prerequisite deficiencies. Qualified students lacking prerequisite subjects can be admitted, but will be required to complete course work to satisfy undergraduate course deficiencies. Students are encouraged to visit the department’s web site and view the graduate student handbook for specifics. Admission is based primarily on a combination of required grade point average (GPA) and graduate record examination (GRE) scores and TOEFL tests for international students.

Three degrees are offered:

1. **Master of Science** (MS), earned only under the thesis option where importance is placed on both classroom and research training. The MS requires a minimum of 30 semester hours at or above the 6000 level of which 6 hours of thesis research and 2 hours of
The student's advisory committee along with the student determines the course of study. In addition, the student must complete research, a written thesis and an oral defense examination of the thesis research.

2. **Master of Agriculture** (MAg) earned under the non-thesis option places more emphasis on classroom training over a broader range of subject matters. The MAg degree requires at least two additional graded courses that replace thesis research hours. An oral defense of course subject matter is required and students must register for GRAD 7000 during the semester the exam is taken. MAg students must write a professional paper as part of a special problems course (CSES 6960/CSES 6966) and present an exit seminar (CSES 7950/CSES 7956) on this paper.

3. **Doctor of Philosophy** (PhD) requires a minimum 60 semester hours of course work beyond the Bachelor of Science. Of the 60 semester hours, 30 must be graded courses 6000 level and above, 20 of which must be completed under the 09 classification at Auburn University while registered in the PhD program. There is no language requirement for this degree. Upon completion of the course work, a PhD student must satisfy a general written examination administered by each member of the graduate advisory committee. A student must pass all parts of the written examination before scheduling the preliminary oral examination. After satisfactory completion of the preliminary examination, the student advances to candidacy. The PhD student will conduct independent research and prepare a dissertation through the guidance and direction of the advisory committee. Upon completion of the dissertation, the student must pass a final oral examination defending the dissertation.

Graduate students in a program requiring a thesis or a dissertation must register for at least one hour of CSES 7990 or CSES 8990 per semester. Research Associates and similar classifications that also are graduate students are exempt from this requirement but must complete 10 hours of 7990 in the master's program or 20 hours of 8990 if in a PhD program.

Soil, Water, and Environmental Science - MS

Our Master of Science and Master of Agriculture degrees in soil, water and environmental sciences are multi-institutional, multi-disciplinary programs offered through the AG*IDEA consortium. The institutions collaborating for these degree programs include Auburn University, the University of Georgia, North Carolina State University and Texas Tech University. Both degree programs require 36 graduate credit hours, including a thesis (for the Master of Science) or special project (for the Master of Agriculture).

Anatomy, Physiology and Pharmacology

(See Biomedical Sciences (p. 1236))

Animal Sciences - MS, MAg, PhD

Degree Programs:

- Animal Sciences - MS (p. 1231)
- Animal Sciences - MAg (p. 1231)
- Animal Sciences - PhD (p. 1231)

Graduate study in animal sciences is directed toward the master’s and doctoral degrees. The Master of Agriculture (MAg) is offered as a non-thesis degree and prepares students for careers in secondary education, Cooperative Extension and agribusiness. Graduate programs leading to the Master of Science (MS) and Doctor of Philosophy (PhD) degrees provide advanced education and technical training in preparation for careers in public and private sectors related to animal science and technology, food science and technology, animal biotechnology, agribusiness and university-level research and education. Areas of specialization include animal nutrition, biochemistry and molecular biology, microbiology, behavior, growth biology, meat science and muscle biology, quantitative genetics and reproductive biology. Interdepartmental minor programs in cell and molecular biosciences, ecology and environmental sciences are also available.

Prospective graduate students are evaluated for admission to the graduate program by a departmental graduate-program committee. The committee makes a recommendation to the department head based on its review of academic transcripts, three letters of recommendation, a written statement of intent from the applicant, and Graduate Record Examination (GRE) General Test score; in the case of an international student, the Test of English as a Foreign Language (TOEFL) is also required. Prior to making formal application, prospective students are expected to first contact a prospective faculty advisor in the Department whose area of specialization is compatible with the prospective student’s interest, and inquire about openings in his/her program. The departmental graduate-program committee will not review an application from a prospective graduate student unless requested to do so by a prospective faculty advisor, nor will it recommend that a student be admitted unless a prospective faculty advisor agrees to sponsor the applicant’s graduate program.

Admission to the MAg degree program requires that the student has the bachelor’s degree or evidence of satisfactory progress toward attainment of the bachelor’s degree in animal sciences or a related area in the biological sciences. Admission is based primarily on consideration of Grade Point Average (GPA), GRE scores and, in the case of an international student, TOEFL test scores. Applicants lacking suitable preparatory course work in the basic sciences will be required to correct deficiencies by satisfactorily completing additional courses. The MAg degree requires successful completion of a minimum of 30 credit hours, 21 of which must be in the agricultural or related sciences. Additional courses may be required for individual students. Although MAg students do not write a thesis, they are required to take a comprehensive examination and present a report on their comprehensive scholarly project completed under ANSC 7960 (Special Problems). In addition, MAg students are required to present one academic seminar (ANSC 7950) during their program.

Admission to the MS degree program requires that student have the bachelor’s degree or evidence of satisfactory progress toward attainment of the bachelor’s degree in animal sciences or a related area in the biological sciences. Admission is based primarily on consideration of GPA, GRE scores and, in the case of an international student, TOEFL test scores. Applicants lacking suitable preparatory course work in the basic sciences will be required to correct deficiencies by satisfactorily completing additional courses.
The MS degree requires a minimum of 30 credit hours of graduate work, including at least 21 credit hours in the major field of study. The remainder may be in a minor area selected by the student and upon approval by the advisory committee. In addition to the required course work, the student must complete research, a written thesis and a thesis defense examination as defined by the student's advisory committee. Students are required to present two academic seminars (ANSC 7950) during their program.

Admission to the PhD degree program usually requires that the student have a master's degree from a recognized graduate program. However, evidence of exemplary potential may be considered as a criterion for admission with a bachelor's degree. The doctoral program emphasizes original, scholarly research and includes significant advanced course work. Admission is based primarily on a consideration of GPA, GRE scores and, in the case of an international student, TOEFL test scores. Following completion of all or most course work, doctoral students are required to successfully complete a comprehensive written examination in their area of specialization before taking the oral General Examination, successful performance in which is required for advancement to candidacy. The PhD degree requires a minimum of 60 credit hours beyond the bachelor's degree and a dissertation describing original research. After completion of the dissertation, the student must pass a final oral examination defending the dissertation. There is no foreign language requirement, but knowledge of a foreign language may be recommended by the student's advisory committee. Doctoral students are required to present three academic seminars (ANSC 7950) during their program.

All graduate students receiving departmental assistantships are expected to be engaged in service to the department's research and education programs as deemed appropriate by the academic advisor and department head. All MS and PhD students must register for at least one credit hour of thesis (ANSC 7990) or dissertation (ANSC 8990) research each term. Classified (FLSA-exempt) research associates holding full admission status in the Graduate School for work toward a graduate degree are exempt from this requirement, but must complete 10 hours of thesis research in a MS program or 20 hours of dissertation research in a PhD program following completion of a master's degree. A PhD degree program undertaken by classified (FLSA-exempt) research associates but not preceded by a master's degree must include 30 hours of dissertation research credit.

### Audiology Program - AuD

The Department of Communication Disorders offers the professional clinical degree: the Doctor of Audiology (AuD). As opposed to the PhD research degree, the AuD is a clinical practice degree. The degree program is offered in cooperation with the Auburn University
at Montgomery Speech and Hearing Clinic. The AuD degree program spans four years (11 semesters including summers). Details are provided at the Department of Communication Disorders website: http://www.cla.auburn.edu/communicationdisorders/.

Most graduates of the AuD program work in clinical settings, such as major hospitals, ENT practice clinics, and private practice facilities. A few graduates teach in the clinical programs in academic institutions.

To complete the program, students must have transportation for courses and clinics in both Auburn and Montgomery as well as for other clinical experiences and internships.

**Admission Requirements**

A bachelor’s degree from an accredited university is necessary. Students with bachelor’s degrees in communication sciences and disorders, or equivalent, receive preference. However, highly qualified students from any discipline are considered. Foundation courses in language development, phonetics, and speech anatomy will be added to the curriculum. At least one undergraduate course each of math, life sciences, statistics, physical sciences, and behavioral sciences is an accreditation expectation, and applicants lacking any of these must comply before conferral of the AuD degree.

Potential students apply both to the Graduate School and to the Department of Communication Disorders. Letters of recommendation must be mailed to the program coordinator directly. For computation of ranking formula for selection, applicants must submit one set each of transcripts (for GPA) and GRE scores to both the Graduate School and the Department of Communication Disorders.

The Graduate School web application requires the following:

- Application fee
- Official General Test GRE scores sent directly from ETS
- Official transcripts from each college or university attended sent directly from the issuing institution

The application sent to the program coordinator in the Department of Communication Disorders requires the following:

- The department’s application form available on the website
- Three letters of recommendation from former teachers or mentors
- A letter of interest, which will serve as a writing sample
- Transcripts
- Scores from the General Test of the GRE

Those applicants clearing the initial screening will be invited to campus for an interview.

The application deadline is February 1 of each year, with the AuD program starting each fall semester.

**Graduation Requirements**

The curricular plan of study is a static sequence of academic and clinical coursework. The academic and clinical components of the AuD program interact in a logical progression over a four-year period. A total of 121 semester hours are required for the degree.

The early portion of training is largely academic, and the later portions involve mostly applied clinical work. As the program progresses, the balance of academic and clinical work changes substantially. During the first two years of the program, the emphasis is on academic preparation for clinical work. Students must pass comprehensive exams to enter the third year of the program. In the third year of the program, academic courses are combined with advanced seminars on current issues in clinical practice and the completion of an applied clinical research project referred to as a capstone experience. During this third year of the program, students are engaged in a series of intensive clinical internships at local off-campus clinical settings. Students must successfully complete internships at three different clinical settings during the third year, and they return to campus to participate in seminar course work. In the final year of the program, students participate in a clinical residency during which they work full time for a period of nine months. Clinical residencies may be done at any facility in the United States where a certified audiologist agrees to supervise the student within ASHA guidelines.

**Plan of Study**

The four-year sequence of academic and clinical course work, including the semester hours, is as follows:

</table>

### Internships and Clinical Residency

As previously stated, students are required to complete several off-campus internships. During their third year, they complete internships in three different locations, and in the final year, they work full-time under the supervision of a certified audiologist.

### Other Requirements for the AuD

Along with their course work and internships, students are required to pass comprehensive written exams in order to advance to candidacy. Oral examinations will be conducted if written responses lack detail or clarity. To graduate, students must also successfully complete a capstone project, which can be a planned audiology-related research or clinical project designed to explore a research hypothesis or meet a clinical outcome.
Financial Aid
A limited number of graduate assistantships are available for meritorious students to assist in teaching, research, or clinical roles.

Aviation and Supply Chain Management - MSIS, PhD

Degree Program:
- Information Systems Management - MS (p. 1235) (on-campus/full-time and online)
- Information Systems Management - PhD (p. 1234)

Graduate Certificate:
- Business Analytics (p. 1234)
- Management Information Systems (p. 1235)

The department offers graduate study leading to the master of science and the doctor of philosophy degrees in Information Systems Management. The program also offers a joint program leading to both the MSIS and MBA degrees. Applicants must hold a bachelor’s degree from a recognized institution. Graduates of business schools will likely have met this requirement; graduates of other programs may be required to complete additional courses to compensate for deficiencies.

Master of Science in Information Systems
The (MSIS) Program in Business is a non-thesis program that emphasizes practical application of management information systems to managerial problem solving and decision making. Students are required to complete a final project. The program is designed to provide students the opportunity to develop an expertise in a chosen area of management. Applicants to the master’s program must have completed an undergraduate degree. The MSIS program is offered as a traditional, on-campus program and as an online program. A twelve-hour graduate certificate is also available.

The MBA/MSIS is a 54-hour program administered jointly by the Aviation and Supply Chain faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full time work experience are required to do an additional 3-credit hour internship. Students must apply separately to each program (MISE and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The PhD program in Business with Information Systems Management Concentration prepares graduates to conduct high-quality research in universities, colleges, government and business. Individual flexibility is provided in a program of study that develops the conceptual and methodological skills that graduates need to establish a leadership position in their chosen fields. Objectives of the program are accomplished through the completion of a formal program of study, successful completion of a statistics core, preparation and completion of two examination manuscripts, and dissertation research. Students with assistantships may also be required to teach. Students are expected to have a fulltime presence on campus. Applications to the PhD program must complete an Auburn University Graduate School application. For full consideration, applications must be received no later than February 1, prior to the Fall term.

Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

<tbody>
<tr>
<td>ISMN 8990</td>
<td>Research and Dissertation</td>
</tr>
</tbody>
</table>
The PhD in Business requires 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990, and must include at least 10 hours of 8990. Up to 30 hours (if less than half of the total number of hours) of applicable master’s level course work may be used to satisfy part of these requirements with advisor approval.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of 8990. Enrollment in 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.

### Information Systems Management - MSIS

**MS Information Systems Management Non-Thesis (on-campus/full-time)**

- ISMN 7830 Advanced Database Management Systems Projects 3
- ISMN 7660 Information Systems Analysis and Design 3
- ISMN 7980/7986 MMIS Project 3
- Select 21 Credits from any approved ISMN 6000-7999 or BUAL 6000-7999 21

**Total Hours** 30

**MS Information Systems Management Non-Thesis (online)**

- ISMN 7836 Advanced Database Management Systems Projects 3
- ISMN 7666 Information Systems Analysis and Design 3
- ISMN 7986 MMIS Project 3
- Select 21 Credits from any approved ISMN 6000-7999 or BUAL 6000-7999 21

**Total Hours** 30

### Management Information Systems - Graduate Certificate

**Management Information Systems (Graduate Certificate)**

Select 4 courses from any approved courses from the following list: ISMN 6000-7999, and BUAL 6650/6, 6660/6. Current Auburn University graduate students may substitute one of their program courses for one of the above courses with approval from the certificate granting department.

**Total Hours** 12

### Biological Sciences - MS, PhD

**Degree Programs:**

- Biological Sciences - MS (p. 1236)
- Biological Sciences - PhD (p. 1236)

The Department of Biological Sciences offers graduate training leading to the MS and PhD degrees in biological sciences; a non-thesis master’s degree is optional. Candidates for advanced degrees should have an undergraduate degree in an appropriate area from an accredited institution, with adequate training in biology, chemistry, physics and mathematics. Qualified students lacking pre-
requisite subjects can be admitted, but may be required by the departmental graduate studies committee to make up the pre-requisites. A satisfactory score on the general GRE is required (suggested minimums of 500 on verbal and quantitative tests).

A major of at least 30 and 60 semester hours may be taken for the MS and PhD degrees, respectively. MS and PhD students must present at least one departmental seminar on their research during the semester of their oral or final examination. There is no foreign language requirement.

Interdisciplinary minors may be taken in biochemistry, cell/molecular biology, ecology, environmental studies and plant, animal, or microbial molecular biology.

**Biomedical Sciences - MS, PhD**

**Degree Programs:**

- Biomedical Sciences - MS (p. 1237)
- Biomedical Sciences - PhD (p. 1237)

All graduate faculty of the College of Veterinary Medicine participate in a college-wide graduate program leading to the master of science and the doctor of philosophy degrees in Biomedical Sciences (BMS or VBMS for curriculum descriptions). Participating departments are: Anatomy, Physiology and Pharmacology (APP); Clinical Sciences (DCS); and Pathobiology (PATHO).

Applicants to the program are required to meet entrance standards established by the College’s Graduate Program Committee, the Graduate School, and their intended area of study. Either a baccalaureate degree or the Doctor of Veterinary Medicine (DVM) degree or equivalent is required for admission.

The three departmental programs represent the gateway to areas of concentration. The ten BMS concentrations (MS and PhD programs unless otherwise stated): Anatomy (APP), Animal Genetic Disease (PATHO), Animal Parasitology (PATHO), Clinical Sciences (including all DCS Residency Programs, MS only), Infectious Disease (PATHO), Molecular Oncology (multidisciplinary through PATHO), Pathology (Anatomic and Clinical; PATHO), Pharmacology (APP), Physiology (APP), and Veterinary Sports Medicine (DCS, MS only). The BMS program offers specific enrichment activities including seminars and journal clubs, training in grant writing, participation in scientific meetings, and opportunities to present results of research at national and international meetings.

A graduate student advisory committee is appointed by the dean of the Graduate School for each student upon recommendation of the college’s Associate Dean for Research and Graduate Studies. The student’s faculty adviser usually serves as the chair of this committee, and the remaining members, selected from the graduate faculty, should have expertise relevant to the student’s area of study. The advisory committee develops a plan of study which must be submitted to the college’s Associate Dean for Research and Graduate Studies for approval and then to the dean of the Graduate School. Study programs are designed to meet the student’s needs
and interests while featuring research training and assuring a strong background in biochemistry, biophysics and/or molecular biology. Original research is required for all BMS graduates. Courses must be selected in conformity with the regulations of the college’s BMS Graduate Program Committee and the Graduate School. For additional information, visit: http://www.vetmed.auburn.edu/graduate-program.

A dual degree program (DDP) allows students to pursue DVM and graduate degrees simultaneously in a time-and content-integrated manner. Graduates, particularly DVM/PhD graduates, will have strong backgrounds both in veterinary medicine and research so as to be well prepared for successful careers in academia, industry and/or specialty clinics. For the DDP program, students must be admitted into the College of Veterinary Medicine program via application to the Auburn University College of Veterinary Medicine and to the graduate program via application to the Auburn University Graduate School. Students already admitted to the Graduate School may apply for admission to the DVM program in order to gain entry to the combined degree program. Such students must meet specific criteria to be allowed to pursue this course of study (http://www.vetmed.auburn.edu/graduate-program).

### Biosystems Engineering - MS, PhD

#### Degree Programs:

- Biosystems Engineering - MS (p. 1237)
- Biosystems Engineering - PhD (p. 1238)

Graduate study in Biosystems Engineering leads to Master of Science (thesis, non-thesis) or Doctor of Philosophy degrees. Instruction, research training, and experience are available in various specialized fields such as ecological engineering; bioenergy and bioproducts engineering; food engineering; biological process engineering; biosystems automation and off-highway vehicle engineering. Applicants are expected to have earned a baccalaureate degree in biosystems engineering or a closely related area. All applicants should provide a written statement of purpose for their graduate study, three letters of reference, and all other data required by Auburn University. Additional details about the requirements, assistantships, and policies for graduate study in the Department of Biosystems Engineering are available at www.eng.auburn.edu/bio .

### Biosystems Engineering - MS

The MS (thesis option) in Biosystems Engineering requires a minimum of 30 semester credit hours of graduate course work that includes up to 6 credit hours of thesis research. After completion of research, candidates for the MS thesis option must successfully defend the thesis. The specific requirements for the MS (thesis option) are:

<table>
<thead>
<tr>
<th>BSEN 7990</th>
<th>Research and Thesis</th>
<th>6</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select 9 Credits in BSEN 6000-8999</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Select 9 Credits of Other Engineering Courses (@ 6000-8999)</td>
<td>9</td>
<td></td>
</tr>
</tbody>
</table>
The MS (non-thesis option) in Biosystems Engineering is offered to those that desire in-depth knowledge in Biosystems Engineering typically needed for non-academic engineering careers. A minimum of 30 semester credit hours of graduate course work is required for this option.

**Biosystems Engineering Non-Thesis (MS)**

<table>
<thead>
<tr>
<th>Course Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select 12 credits in BSEN 6000-8999</td>
<td>12</td>
</tr>
<tr>
<td>Select 18 Credits of Other Engineering Courses (@ 6000-8999)</td>
<td>18</td>
</tr>
</tbody>
</table>

* Specific courses are approved by student advisory committee

The department also offers an accelerated bachelors/masters (ABM) program in Biosystems Engineering. Interested students should contact the department.

**Biosystems Engineering - PhD**

The Ph.D. in Biosystems Engineering requires a minimum of 60 semester hours of graduate-level course work beyond the bachelor’s degree. The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree must be less than 50 percent of the credit hours listed on the Plan of Study. Students must take a qualifying examination (written and oral) administered by the student’s advisory committee that tests the student’s knowledge and competence in the proposed research area and in the general field of biosystems engineering. The student advances to Ph.D. candidacy after the successful completion of the qualifying examination. The PhD student will conduct independent research and prepare a dissertation. After completion of the dissertation, the student must pass a final oral examination defending his/her dissertation.
The McWhorter School of Building Science offers the Master of Building Construction (MBC).

The McWhorter School of Building Science’s non-thesis master of building construction program provides its students with an unparalleled educational experience. From conceptual idea to post-occupancy of facilities, the degree content offers a practical and industry-oriented study of the interdisciplinary and collaborative processes involved in the planning, financing, design, construction and management of the built environment.

Admission to the master of building construction is competitive, and enrollment is limited. The admissions committee considers GRE scores, undergraduate GPA, educational background, letters of recommendation, prior construction industry experience, and other relevant information.

For students holding an accredited undergraduate degree in construction, the MBC curriculum consists of 35 semester hours of academic credit, including a core of BSCI graduate courses (17 credit hours), electives (15 credit hours) and capstone (3 credit hours), taken over a period of three academic terms beginning in the fall of each year.

Students with undergraduate degrees in areas other than construction are given conditional admission to the program, and are required to take a series of five foundation courses (14 credit hours) commencing the summer term prior to fall admission. Upon successful completion of these classes, they are formally admitted to the 35 credit-hour MBC program.

**MBC Degree Requirements**

**Foundation Courses**

Offered in Summer and required for students with undergraduate degree in areas other than construction. There are 5 foundation courses worth 14 semester hours of academic credit.

**The Core Curriculum**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
<tr>
<td>BSCI 7950</td>
<td>Graduate Seminar (II)</td>
<td>1</td>
</tr>
</tbody>
</table>

All classes are three credit hours except graduate seminar which is one credit hour.

**Electives**

Four building science electives (12 credit hours) and one approved graduate elective (3 credit hours) from any field.

**Capstone**

BSCI 7980, students are required to undertake a capstone project in their final semester. The purpose of the capstone project is to demonstrate the student’s ability to independently explore a new topic, demonstrate appropriate application of the materials, and successfully communicate the information in a professional and academically rigorous format.

Graduate students in Building Science with interests in planning, development and urban design can undertake a Minor in Community Planning. Students must complete additional 9 credit hours of Community Planning coursework and notify MBC GPO/CADC Student Services that they are completing the Community Planning minor.

Note 1: Online Master's students are not required to take BSCI 7060 (Research Methods) or BSCI 7950 (Graduate Seminar I and II).
Note 2: Online Master's classes BSCI numbers all end in the number 6 (Example BSCI 7026, BSCI 7036).

Business Administration - MBA, MS, PhD

Degree Programs:

• Master of Science Business Administration, Finance Option - MS (p. 1241)
• Master of Business Administration (with on-campus, online, and Executive and Physicians Executive options) - MBA (p. 1242)
• Business - PhD (with concentrations in Finance, Information Systems, and Management) (p. 1243)

Graduate programs in Business Administration are fully accredited by AACSB International – the Association to Advance Collegiate Schools of Business (AACSB) – and include the master of business administration, the master of science in business administration with a concentration in finance, and the doctor of philosophy in business with concentrations in Finance, Information Systems, and Management.

Application for admission to graduate programs in Business should be made directly to the Graduate School. Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

An Auburn MBA can be an important part of the advantage needed to succeed in an increasingly competitive business environment. The College of Business offers an on-Campus MBA, an Online MBA, an Executive MBA and a Physicians Executive MBA, all structured to provide students with a world-class learning experience. An MBA from Auburn prepares individuals to enter the workplace in key leadership positions. Hands-on leadership training is integrated throughout the program. The MBA is a 39-hour program. MBA students without two years full-time work experience are also required to do an additional 3-credit hour internship. For on-Campus and Online students, dual MBA/MS graduate degree options are available in Finance, Management Information Systems, and Industrial and Systems Engineering.

The MBA/MSIS is a 54-hour program administered jointly by the Aviation and Supply Chain faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full-time work experience are required to do an additional 3-credit hour internship. Students must apply separately to each program (MSIS and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The MBA/MSBA-Finance is a 54-hour program administered jointly by the Finance faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full-time work experience are required to do an additional 3-credit hour internship. Students must apply separately to each program (MSBA-Finance and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The MBA/MISE is a 55-hour program administered jointly by ISE and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full-time work experience are required to do a 3-credit hour internship in place of one of the 3-hour BUSI or related electives. Students must apply separately to each program (MISE and MBA), but only have to pay one application fee.

### PhD Business

**The PhD Business offer three concentrations:**

- PhD Business - Finance (p. 1323)
- PhD Business - Information Systems Management (p. 1234)
- PhD Business - Management (p. 1350)

The PhD in Business requires 60 semester hours earned through instruction beyond the bachelor’s degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990, and must include at least 10 hours of 8990.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of 8990. Enrollment in 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.
Chemical Engineering - MS, PhD

Program Degrees:
- Chemical Engineering - MS (p. 1245)
- Chemical Engineering - PhD (p. 1245)

The Chemical Engineering Department offers graduate programs leading to the degrees of master of science and doctor of philosophy. Specialized courses and research training are provided in a wide variety of specialties within chemical engineering or related interdisciplinary areas. Some of these specialties include: surface science, biochemical engineering, catalysis, pulp and paper engineering, environmental engineering, waste conversion, computer-aided process design and simulation, novel bioseparations systems, chemical kinetics and reactor design, biomedical engineering, process control and optimization, thermodynamics, advanced energy research, mass and energy transfer, electrochemical engineering, polymer engineering, interfacial phenomena, process synthesis, material science, nanotechnology, and space science. Additionally, individualized interdisciplinary programs which cross the traditional departmental boundaries are encouraged. These may include collaborative work in chemistry, engineering disciplines, physics, mathematics, agriculture, forestry, biology, microbiology, genetics and health sciences or other areas.

The applicant must hold a bachelor’s degree or its equivalent from an institution of recognized standing and must have the pre-requisite undergraduate experience in areas of study relevant to the proposed graduate program. The General Test of the Graduate Record Examination (GRE) is required. If the applicant’s undergraduate degree is other than chemical engineering, an individualized plan of study will be developed to impart the critical skills inherent in the bachelor’s chemical engineering program. All applicants will be evaluated on an individual basis by the Chemical Engineering Graduate Admissions Committee. The admissions committee will evaluate the undergraduate (and graduate) record, GRE scores, letters of recommendation and any experience in research. Non-core, non-duplicating, “A” grade graduate courses from another university are eligible as determined by the Graduate Program Officer for transfer credit (maximum of 6 credit hours for Masters, 12 credit hours for PhD).

The master of science may be earned under a thesis or non-thesis option. There is not a language requirement for either option. For both options, a total of 30 semester hours of work is necessary and at least 21 hours must be in chemical engineering (CHEN). A total of 12 hours must be taken at the 7000 level or higher, the remaining 18 hours must be at the 6000 level or higher. The following core courses must be taken for a total of 9 hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</tr>
<tr>
<td>CHEN 7250</td>
<td>Chemical Reaction Engineering</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>9</strong></td>
</tr>
</tbody>
</table>

Students pursing a MS with thesis degree should enroll in CHEN 7950 Graduate Seminar each semester of enrollment. These students may include six (6) hours of research and thesis as part of the 30 hours. After completion of the thesis, the student must pass a final oral examination defending the thesis. The non-thesis MS degree option does not have a residency, seminar, research or final oral exam requirement. The non-thesis degree can be earned entirely through the Auburn Engineering Graduate Online Program.

The doctor of philosophy provides for advanced course work and emphasizes original, creative research. A dissertation embodying the results of this research represents the major portion of the requirements for this degree. A minimum of 60 semester hours of graduate work past the bachelor’s degree is necessary. Each student may include 10 hours of research and dissertation as part of the 60 hours. Four calendar years beyond the bachelor’s degree or three past the master’s degree usually are needed to complete the PhD. There are four (4) core graduate courses for a total of 12 credit hours:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEN 7100</td>

<tr>
<td>CHEN 7250</td>
<td>Chemical Reaction Engineering</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Hours</strong></td>
<td></td>
<td><strong>12</strong></td>
</tr>
</tbody>
</table>

Additional 18 credit hours of chemical engineering (minimum 9 credit hours) and/or other elective courses at 6000 level or higher is required. The remaining 30 credit hours are composed of research and dissertation (minimum 10 credit hours), formal courses (6000 level or higher), and graduate seminar.
The General Doctoral Examination consists of two parts, the “PhD Qualifying Examination” and the “PhD Preliminary Oral Examination”. The PhD Qualifying Examination will be successfully fulfilled by earning a B or higher in each of the four (4) core graduate courses above.

At the PhD Preliminary Oral Examination, the student will present to their Faculty Research Advisory Committee a thorough description and comprehensive discussion of his/her proposed dissertation research. Successful completion of the Preliminary Oral Examination requires unanimous approval of the student’s Faculty Research Advisory Committee. Upon successful completion of the PhD Qualifying and Preliminary Oral Examinations, the student advances to candidacy. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

There is no language requirement for the PhD.

**Chemical Engineering - MS**

The master of science may be earned under a thesis or non-thesis option. There is not a language requirement for either option. For both options, a total of 30 semester hours of work is necessary and at least 21 hours must be in chemical engineering (CHEN). A total of 12 hours must be taken at the 7000 level or higher, the remaining 18 hours must be at the 6000 level or higher. There are three (3) core courses that must be taken for a total of 9 hours:

<table>
<thead>
<tr>

</tbody>
</table>

Additional 18 credit hours of chemical engineering (minimum 9 credit hours) and/or other elective courses at 6000 level or higher is required. The remaining 30 credit hours are composed of CHEN 8990 Research and Dissertation (minimum 10 credit hours), formal courses (6000 level or higher), and graduate seminar.

The General Doctoral Examination consists of two parts, the “PhD Qualifying Examination” and the “PhD Preliminary Oral Examination”. The PhD Qualifying Examination will be successfully fulfilled by earning a B or higher in each of the four (4) core graduate courses above.
At the PhD Preliminary Oral Examination, the student will present to their Faculty Research Advisory Committee a thorough description and comprehensive discussion of his/her proposed dissertation research. Successful completion of the Preliminary Oral Examination requires unanimous approval of the student’s Faculty Research Advisory Committee. Upon successful completion of the PhD Qualifying and Preliminary Oral Examinations, the student advances to candidacy. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

There is no language requirement for the PhD.

**Chemistry and Biochemistry - MS, PhD**

**Degree Programs:**
- Chemistry - MS (p. 1246)
- Chemistry - PhD (p. 1247)

Graduate study in chemistry leads to the M. S. and PhD degrees. Entering students must take four of the five required core courses with the consent of their advisor:

Select four of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 7100</td>
<td>Advanced Inorganic Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 7200</td>
<td>Advanced Organic Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 7300</td>
<td>Advanced Physical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 7500</td>
<td>Advanced Analytical Chemistry</td>
<td>3</td>
</tr>
<tr>
<td>BCHE 7200</td>
<td>Advanced Biochemistry I</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Hours: 12

By the end of the second semester, graduate students must submit a plan of study which details the courses which will be taken. This is done with the assistance of the major professor and with the consent of the student’s advisory committee. For the MS the plan of study will consist of a minimum of 30 hours, including the core courses listed above (12 hours):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 7990</td>
<td>Research and Thesis (4 hours)</td>
<td>1-10</td>
</tr>
<tr>
<td>CHEM 7750</td>
<td>Formal Presentations in Modern Chemistry</td>
<td>1</td>
</tr>
<tr>
<td>CHEM 7950</td>
<td>Seminar (4 hours)</td>
<td>1</td>
</tr>
</tbody>
</table>

For the PhD 60 hours of courses must be completed. These must include the core courses listed above (12 hours),

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 8990</td>
<td>Research and Dissertation (10 hours)</td>
<td>1-10</td>
</tr>
<tr>
<td>CHEM 7750</td>
<td>Formal Presentations in Modern Chemistry</td>
<td>1</td>
</tr>
<tr>
<td>CHEM 7950</td>
<td>Seminar (6 hours)</td>
<td>1</td>
</tr>
</tbody>
</table>

The rest of the courses usually are taken in the major area. Directed Study, CHEM 7930, may be taken for a maximum of 15 hours. PhD students must pass the written and oral examination. All graduate students must orally present their research and defend their theses or dissertations in the final oral examination.

**Chemistry - MS**

MS plan of study will consist of a minimum of 30 hours which will include 4 of the top 5 required core courses listed below.

**Chemistry (MS)**

Select four of the following required core:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>

<td>1</td>
</tr>
</tbody>
</table>
CHEM 7990 Research and Thesis (4 hours) 4
9 Credits in @ 6000-8999 9
Total Hours 30

By the end of the second semester, MS students must submit a plan of study which details the courses which will be taken. This is done with the assistance of the major professor and with consent of the student’s advisory committee. The rest of the courses usually are taken in the major area. Directed Study, CHEM 7930, may be taken for a maximum of 15 hours. Students must orally present their research and defend their theses in the final oral examination.

Chemistry - PhD

PhD students must complete a minimum of 60 hours of courses which will include 4 of the top 5 required core courses listed below.

Chemistry (PhD)
3 Credits in CHEM 7750 3
6 Credits in CHEM 7950 6
CHEM 8990 Research and Dissertation 10
41 Credits in @ 6000-8999 41
Total Hours 60

By the end of the second semester, PhD students must submit a plan of study which details the courses which will be taken. This is done with the assistance of the major professor and with the consent of the student's advisory committee. The rest of the courses usually are taken in the major area. Directed study, CHEM 7930, may be taken for a maximum of 15 hours. Students must pass the written and oral general examination. Students must orally present their research and defend their dissertations in the final oral examination.

Civil Engineering - MCE, MS, PhD

Degree Programs:
• Civil Engineering - MCE (p. 1248)
• Civil Engineering - MS (p. 1248)
• Civil Engineering - PhD (p. 1248)

The Department of Civil Engineering offers graduate-level instruction and research programs leading to the degrees of Master of Civil Engineering (MCE), Master of Science (MS) and Doctor of Philosophy (PhD). These programs provide qualified students opportunities for advanced training and specialization and enable them to gain experience conducting engineering research and interpret and communicate their findings. The department offers programs in Construction Engineering and Management, Environmental Engineering, Geotechnical Engineering, Hydraulics/Hydrology, Pavements and Materials, Structural Engineering, and Transportation Engineering. Coursework may be taken in supportive disciplines including applied statistics, building science, computer science or mathematics, with sufficient justification.

Applicants for the graduate programs must have an earned baccalaureate degree (BCE, BS or BSCE) in Civil Engineering or a closely related area and must have completed such formal training as to warrant advanced study in the major and minor fields. Applicants from related disciplines may be required to take prerequisites, as determined by the relevant specialty program and the department. There is no formal foreign language requirement.

All MS candidates must write a thesis. At least 30 semester hours of graduate-level course credit must be completed satisfactorily. At least six of the 30 hours must be in CIVL 7990 and at least 24 hours must be in graduate course work other than CIVL 7990. Candidates must pass a comprehensive examination covering the coursework, research and thesis.

Admission requirements for MCE are the same as those for MS. MCE students must take at least 30 semester hours of graduate-level courses, which may include three-semester hours of CIVL 7980. A plan of study must be approved by the student's advisory committee.

PhD applicants must have earned a BS or master's degree in Civil Engineering or a related area. Applicants from other related disciplines may be required to take prerequisites determined by the relevant specialty program and the department.
The PhD is conferred in recognition of mastery of a specific field of knowledge and a contribution to that engineering discipline through the doctoral dissertation. The degree is a research degree, requiring not only completion of certain technical requirements but proof of the candidate's ability to work independently in an engineering research environment.

To be qualified as a PhD candidate, an admitted doctoral student must pass a written comprehensive examination and a follow-up oral critique administered by the student's advisory committee. The examination may not be taken sooner than one year after the student begins doctoral course work. Additional academic preparation may be prescribed by the advisory committee to strengthen deficiencies identified by the examination, or the student may be suspended from the program. One retake may be permitted after the student has completed the prescribed preparation. Upon successful completion of the examination, the student becomes a candidate for the PhD.

After successfully completing the comprehensive examination, the doctoral candidate will defend the proposed dissertation topic, which must represent a significant contribution to the state-of-the-art. This defense may be included in the oral critique of the comprehensive examination if the advisory committee agrees. Once the committee approves the research topic, the doctoral candidate may proceed with the research and dissertation. When it is completed, the candidate defends the completed dissertation before the advisory committee and the outside reader appointed by the Graduate School.

**Communication - MA, Graduate Certificate**

**Degree Programs:**

- Communication - MA (p. 1250)

**Graduate Certificates:**

- Communication Studies - Graduate Certificate (p. 1250)

The School of Communication and Journalism offers the Master of Arts in Communication and the Graduate Certificate in Communication Studies.

Students earning the MA in Communication have excellent employment opportunities working for organizations ranging from Fortune 100 companies to non-profit groups. For those interested in pursuing a doctorate, our graduates have been admitted to the best PhD programs in the Communication discipline.
For more information about both the MA and the Graduate Certificate, see http://www.cla.auburn.edu/cmjn/. Program statistics (e.g., number of students accepted, average GRE scores, etc.) and additional information on the application process are available on that website.

Master of Arts in Communication

Application Process

Applicants for the MA must hold bachelor’s degrees from an accredited college or university and must take the General Test of the GRE. They must submit a statement of purpose, undergraduate transcripts, GRE scores, a writing sample, recommendation review forms, and letters of recommendation for consideration by an admissions committee.

They should ensure that these materials are submitted to the Graduate School web application:

• Application fee
• Official scores for the General Test of the GRE
• Official transcripts for every institution attended

They should ensure that these materials are submitted to the graduate program in the Department of Communication and Journalism:

• Statement of purpose
• Recommendation review forms
• Three letters of recommendation
• Writing sample

Deadlines for application materials are posted on the departmental website.

MA Degree Requirements

Students may pursue either a thesis or a non-thesis option for the MA in Communication. The MA-thesis option requires 31 hours beyond the bachelor’s degree, including the thesis. The MA-non-thesis option requires 30 hours beyond the bachelor’s degree, including appropriate field experience.

Students without a bachelor’s degree in communication (i.e., communication, journalism, public relations, radio/television/film) must earn an additional 9 graduate credit hours.

The following courses are required for the MA in Communication:

• COMM 7000 Communication Theory
• COMM 7010 Historical, Descriptive, and Critical Approaches to Communication Research
• COMM 7020 Empirical Approaches to Communication Research

Upon completion of the required classes, students must pass a written qualifying examination covering material presented in these three courses before continuing in the degree program. All remaining hours are elective course work.

MA-thesis option students will enroll in a minimum of 4 thesis hours (COMM 7990). MA-non-thesis option students will enroll in a minimum of 3 non-thesis project hours (COMM 7980).

All students seeking the master’s degree must pass comprehensive exams prior to graduation. The exams include both written and oral components. The nature of the written portion of the comprehensive exams will vary depending on the choice of the thesis or non-thesis option. For students choosing the thesis option, the thesis typically constitutes the written portion of the comprehensive examination. Students choosing the non-thesis option must pass a written examination covering the program of study as well as any research and special project/internship/field experience.

There is no foreign language requirement.

Graduate Certificate in Communication Studies

Application Process

Applicants for the Graduate Certificate must hold bachelor’s degrees from accredited colleges or universities and must take the General Test of the GRE. An admissions committee evaluates the applicant’s statement of purpose, undergraduate record, GRE scores, writing sample, recommendation review forms, and letters of recommendation.
Applicants should ensure that these materials are submitted to the Graduate School web application:

- Application fee
- Official scores for the General Test of the GRE
- Official transcripts for every institution attended

They should ensure that these materials are submitted to the graduate program in the Department of Communication and Journalism:

- Statement of purpose
- Recommendation review forms
- Three letters of recommendation
- Writing sample

Requirements

The Graduate Certificate in Communication Studies requires 18 hours beyond the bachelor’s degree. It does not require a thesis or field experience. The following courses are required for the Graduate Certificate in Communication Studies:

- COMM 7000 Communication Theory
- COMM 7010 Historical, Descriptive, and Critical Approaches to Communication Research
- COMM 7020 Empirical Approaches to Communication Research

Upon completion of these three required classes, students must pass a written qualifying examination covering material presented in these three courses. The remaining 9 hours are elective course work.

Deadlines for application materials are posted on the departmental website.

Financial Aid

A limited number of competitive graduate teaching assistantships are available. To get more information about the assistantships and to learn how to apply, please visit the following website: http://www.cla.auburn.edu/cmjn/graduate-program/assistantships/. Students enrolled in the Graduate Certificate in Communication Studies are not eligible for financial aid.

Communication Disorders - MCD, MS

Degree Programs:
- Communication Disorders - MS (p. 1254)
- Communication Disorders - MCD (p. 1253)

The Department of Communication Disorders offers master's programs in speech-language pathology accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). Two degree options are available: Master of Science in Communication Disorders (MS) and Master of Communication Disorders (MCD). The MS requires a thesis, while the MCD has no thesis requirement. Neither degree requires expertise in a foreign language. Information about these degrees is available at http://www.cla.auburn.edu/communicationdisorders/.

The plan of study for either degree may be designed according to the student's career interests; however, the curriculum planned must conform to academic and practicum requirements for ASHA certification and Alabama licensure. Students then are prepared for careers in school systems, clinics, hospital/rehabilitation centers, physicians' offices, and private practice and for pursuing the doctoral degree.

Admission Requirements
The admission requirements are the same for both degrees because the choice of degree program is not made formally until the first semester of graduate study.
A baccalaureate degree from an accredited university is necessary. Those with a degree in communication sciences and disorders, or equivalent, complete the Master of Communication Disorders (MCD) degree with 55 semester credit hours; additional thesis hours are optional for the Master of Science (MS) degree. Highly qualified students from any undergraduate discipline are considered for admission; however, certain foundation courses are necessary and may bring the MCD degree total to 95 semester hours. General education courses on the undergraduate transcript should include at least one course in each of the following areas: math, statistics, life science, physical science, and behavioral science. As this background is expected by the program’s accreditation agency, any deficiency must be fulfilled before conferral of the master’s degree in this program. Students who do not have an undergraduate course in neuroanatomy will be required to take that course as part of their graduate program.

Some application materials are sent directly to the Graduate School and other materials are sent directly to the Department of Communication Disorders (1199 Haley Center, Auburn, AL 36849-5232).

Materials sent to the Graduate School web application include:

- Graduate School application
- Application fee
- Official transcripts from all institutions attended
- Official scores from the General Test of the GRE

Materials sent directly to the department include:

- Applicant Information Form, available on departmental website
- Three letters of recommendation, completed on the form downloaded from the departmental website and sent to the department by the recommender
- Application for graduate assistantship, available on departmental website

All application materials are reviewed by the departmental committee in speech-language pathology.

The application deadline for all materials is February 15 of each year with the degree program starting each fall semester.

**Graduation Requirements**

The MS in Communication Disorders requires a minimum of 54 hours of graduate course work, including at least four hours of CMDS 7990 Research and Thesis, and an appropriate internship experience, CMDS 7920 Internship in Speech-Language Pathology.

The Master of Communication Disorders requires a minimum 55 hours of graduate course work and appropriate internship experience, CMDS 7920 Internship in Speech-Language Pathology.

**Required Courses**

This is the course schedule for both degrees, with the exception of CMDS 7990 Research and Thesis (4 hours), which is required only for the MS students. Although they are required to write a thesis, MS students do not take comprehensive exams. CMDS 7990 Research and Thesis is not required for MCD students, who take comprehensive exams rather than write a thesis.

**Clinical Experience Requirements**

In addition to academic course work requirements, both the MCD and MS degree programs require a minimum of 400 clock hours of supervised clinical experience in the practice of speech-language pathology.

**Financial Aid**

The department has a limited number of graduate assistantships available. These assistantships must be applied for using the Application for Assistantship form downloaded from the departmental website. Assistantships are awarded based on academic performance and research experience.

---

* Master of Science (MS) Thesis Track: A minimum of 4 and a maximum of 6 credit hours of CMDS 7990 Research and Thesis count toward the degree. Thesis students waive academic comprehensive examinations (0 credit) and also may waive CMDS 7920 Internship (5 credits) unless additional clock hour experience is needed. This option requires a minimum total of 54 semester credit hours.

### Community Planning - (MCP)

The Community Planning Program at Auburn University is a professionally oriented masters degree program that focuses on the skills that professional planners need for practice in an interactive and interdisciplinary environment. The centerpiece of the program is the opportunity for students and faculty to engage with underserved communities throughout Alabama and the Southeast through outreach, teaching, and engaged research. Through working on projects with communities throughout Alabama and the Southeast,
students learn to help diverse and complex communities create and implement plans that improve and protect their quality-of-life, culture, resource base, built environment, natural environment, and economic vitality.

The Master of Community Planning (MCP) is a professional, non-thesis degree. Students will normally earn the degree in two academic years by successfully completing 45 credit hours of course work, including two capstone plan-making workshops. The program offers dual degree options with geography, public administration, and landscape architecture (each of which requires a separate application). Enhanced opportunities for interdisciplinary teaching and learning are offered by the program’s distinctive Alabama City Year Program, in which the program focuses on one city in the Southeast each year and students complete multiple outreach and engagement projects in that city in each of their classes.

**Computer Science and Software Engineering - MSwE, MS, PhD**

**Degree Programs:**

- Computer Science and Software Engineering - MSwE (p. 1256)
- Computer Science and Software Engineering - MS (p. 1256)
- Computer Science and Software Engineering - PhD (p. 1256)

Graduate study in the Department of Computer Science and Software Engineering (COMP) leads to the non-thesis master of software engineering (MSwE) or research oriented master of science (MS) and doctor of philosophy (PhD) degrees in computer science and software engineering. All applications are reviewed by the COMP Graduate Admissions Committee.

To enter the MS or the MSwE, the student must hold a bachelor’s degree or its equivalent from an institution of recognized standing. The student also must have the pre-requisite undergraduate experience in areas of computer science and/or software engineering. If the student has deficiencies in the pre-requisites, he or she will be required to take appropriate undergraduate courses. All applicants must submit Graduate Record Examination scores for the general test.

The MS program requires 30 semester credit hours, including six credit hours for research and thesis. The MSwE program requires 33 semester credit hours, including three credit hours for the software engineering design project. There is no language requirement.

For the PhD program, the applicant must hold a master’s degree or have successfully completed a minimum of one academic year of graduate study, from an institution of recognized standing in an area related to the proposed doctoral study. All applicants must submit GRE scores for the general test. The student will take a written qualifying examination soon after gaining admission to the program. Additional examinations, as described in the general Graduate School requirements, are given throughout the program, culminating with the defense of the dissertation. There is no language requirement for the PhD. The program typically includes at least
one academic year of course work and one year of research beyond the master’s level. The PhD program requires a minimum of 66 semester credit hours of course work beyond the bachelor’s level, including 18 hours of research and dissertation.

**Consumer and Design Sciences - MS, PhD**

**Degree Program:**

- Consumer and Design Sciences - MS (p. 1258)
- Consumer and Design Sciences - PhD (p. 1259)

Graduate study in the Department of Consumer and Design Sciences, College of Human Sciences, leads to the master of science and the doctor of philosophy. Major focus areas are apparel design or merchandising, interior design, and consumer behavior. The department emphasizes integration of basic and applied knowledge from multiple fields to enhance professional skills for careers in textile and apparel product development and design; production management; retail management; merchandising in textile and apparel retail or design firms; design of residential and commercial interiors; and college teaching and research. A foreign language is not required. Entrants with limited undergraduate backgrounds in their chosen area may need to complete some undergraduate courses. Graduate teaching and research assistantships are available on a competitive basis.

Applicants for the M.S. must have a bachelor’s degree or its equivalent from an accredited college or university. The General Test of the Graduate Record Examination is required. The admissions committee will evaluate the undergraduate record, GRE scores, letter of intent, resume, and three letters of recommendation. International applicants must submit the Test of English as a Foreign Language and meet the Graduate School admission requirements for this test.
The M.S. degree offers a Thesis Option and a Non-Thesis Option. The Thesis Option requires 30 semester hours; the Non-Thesis Option requires 36 semester hours. Individually designed focus areas incorporate courses in Consumer and Design Sciences and other departments. At least 21 semester hours must be in apparel, interiors, or consumer-related courses.

Requirements common to both options include:

<table>

<td>Research and Thesis (Thesis Option) 4-6 credit hours</td>
<td></td>
</tr>
<tr>
<td>Total Hours</td>
<td></td>
<td>30-36</td>
</tr>
</tbody>
</table>

The Non-Thesis Option requires an oral presentation of the completed Graduate Project to the Graduate Advisory Committee. CADS 7920 Graduate Internship is recommended as part of the Non-Thesis student’s Plan of Study. The Thesis Option requires an Oral Examination and Defense of the completed Thesis, to be administered by the Graduate Advisory Committee.

An Accelerated BS/MS degree program is available in both Apparel Merchandising, Design and Production Management and in Interior Design. Please contact the Department of Consumer and Design Sciences for more information about these accelerated programs.

Applicants for the PhD must have a master’s degree or its equivalent from an accredited college or university. The General Test of the Graduate Record Examination is required. The admissions committee will evaluate the undergraduate and graduate record, GRE scores, letter of intent, resume, and three letters of recommendation. International applicants must submit the Test of English as a Foreign Language and meet the Graduate School admission requirements for this test.

The PhD focuses on the integration of the science of design and consumer behavior within a research-based product or services management approach for application in the global economy. A minimum of 60 semester hours of graduate level course work is required. At least 30 of these hours must be graded graduate level course work; at least 20 of these hours must be completed at Auburn University.

Individually designed focus areas incorporate courses in Consumer and Design Sciences and other departments. At least 20-25 graduate credit hours, excluding thesis and dissertation hours, must be in Department of Consumer and Design Sciences courses (or the equivalent).

</tbody>
</table>

1. If student has a non-thesis Master’s degree, a manuscript suitable for submission to a research journal must be prepared and submitted prior to beginning the dissertation research.
2. If thesis hours are not applicable, 4 hours must be satisfied with approved electives.
PhD students must pass a General Doctoral Examination after completion of the course work and prior to proceeding to the dissertation. The General Doctoral Examination has written and oral parts to evaluate comprehension of existing knowledge in the student's area of study. Upon successful completion of the Examination, the student enters the candidacy for the Doctor of Philosophy degree and proceeds with the dissertation research. The Final Oral Examination is the defense of the dissertation, which must receive unanimous approval by the Graduate Advisory Committee and the Outside Reader before the PhD can be conferred.

Counselor Education and Counseling Psychology - MEd, MS, PhD

Degree Programs  
- Clinical Mental Health Counseling (p. 1261)  
- School Counseling (p. 1262)  
- Counselor Education (p. 1262)  
- Counseling Psychology (p. 1263)

Master’s Degree Programs (MEd/MS)  
Master’s programs in counselor education with areas of specialization in clinical mental health counseling and in school counseling prepare students for entry-level professional positions as counselors in a variety of human service agencies such as public schools,
Doctoral Degree Programs (PhD)

Doctoral programs are offered in counseling psychology and counselor education. These programs provide advanced preparation in the delivery of counseling and psychological services and prepare students for education, supervisory and leadership roles in schools, universities, hospitals, VA facilities, human service agencies, and private mental health practices. The doctoral programs also require that students demonstrate skills to independently conduct research through the dissertation. The PhD in counseling psychology is accredited by the American Psychological Association (APA); the PhD in counselor education is accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Applicants to the PhD programs must satisfy the Graduate School’s admission requirements. For counselor education, doctoral applicants must have completed an approved master’s degree program prior to enrollment. For counseling psychology, doctoral applicants may apply with a bachelor’s degree, some graduate coursework, a master’s degree, or a doctoral degree (the latter in the case of respecialization). To apply for admission to doctoral level programs in counseling psychology or counselor education prospective students must submit an application to the Graduate School and the program application form. This application includes submission of ALL transcripts from previous graduate and undergraduate coursework, scores from the GRE, and at least THREE letters of reference. Note: It is recommended that at least two of these letters speak to the individual’s academic abilities.

Provided that general Graduate School admission requirements are met, program admissions committees consider all submitted materials and determine whether to issue an invitation for an interview. Admission decisions occur in the spring semester; initial enrollment usually only occurs in the fall semester.

The number of hours required for the two doctoral programs varies. For counseling psychology, a student entering with no previous graduate coursework would be required to complete a minimum of 97 credit hours. Prior to obtaining doctoral candidacy status, all doctoral students must satisfactorily complete a psychotherapy project and a general written and oral examination. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation (included in the credit hours...
The program takes five years to complete (four years of coursework and research and one year of full-time internship consistent with the requirements of APA-accredited internship sites).

The number of hours required for the doctoral degree in counselor education is 61 (+48 master’s credit hours that must be completed prior to admission to the program). This program of study is accredited by CACREP. Prior to obtaining doctoral candidacy status, all doctoral students must satisfactorily complete a general written and oral examination. The written exam consists of a doctoral level portfolio integrating professional skill and competence development. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation (included in the credit hours described above). The program incorporates a focus on the development of research, teaching, supervision, and advanced counseling skills. The program also requires extensive preparatory work in practicums and internship. Practicums will be completed in teaching, supervision and counseling practice. Typically the program takes a minimum of three years, full-time academic enrollment, to complete (two years of coursework and one year of internship and dissertation research).

### Additional Information

Detailed admission and program requirements for the department’s multiple areas of graduate study are available on the College of Education’s website, Academics (http://www.education.auburn.edu/academics). (http://www.education.auburn.edu/academics/).

• Community Music (p. 1300)
• Reading Instruction (p. 1306)
• Teaching English as a Second Language (TESL)/Teaching English as a Foreign Language (TEFL) (p. 1301)

The Department of Curriculum and Teaching offers graduate certificates and graduate degree programs leading to the master of education (certification option), master of science (non-certification option), specialist in education, and doctor of philosophy. All graduate teacher certification programs are approved by the Alabama State Board of Education (ALSBE). Auburn University's College of Education is accredited through the National Council for Accreditation of Teacher Education (NCATE). Music education programs are also accredited by the National Association of Schools of Music (NASM).

Master’s Degree Programs (MEd/MS)

Master of education (MEd) degree programs include both alternative and traditional certification options. Alternative MEd certification programs offer qualified students who hold non-teaching baccalaureate degrees a route to initial teacher certification while simultaneously earning a master's degree. Traditional MEd certification programs offer advanced study in pedagogy. MS non-certification programs provide interdisciplinary graduate-level education for community-based or international educators who do not wish to gain teacher certification/licensure in the United States.

Applicants to master’s degree programs must satisfy the Graduate School’s admission requirements. Departmental admission requirements include a bachelor's degree from an accredited college or university with a minimum GPA of 2.75 overall or a master's or higher degree with a GPA of at least 3.0. This GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses. Admission requirements also include academic good standing at the institution last attended, competitive GRE scores, letters of recommendation, current resume, clear background check, and approval by the department. In addition, applicants to alternative MEd certification programs must satisfy the State’s teaching field admission requirements and submit a passing score on each of the Basic Skills Assessments (Applied Mathematics, Reading for Information, and Writing). Applicants to a traditional MEd certification program must hold a valid bachelor’s-level professional educator certificate in the same teaching field as the MEd, except for English for speakers of other languages (ESOL) and reading education. Admission to the MEd ESOL program requires a valid bachelor’s-level certificate in any teaching field. Admission to the MEd certification program in reading education includes (a) a valid bachelor's-level professional
educator certificate in early childhood education, elementary education, or collaborative special education teacher Grades K-6 and two full years of full-time classroom teaching experience or (b) a valid bachelor's-level professional educator certificate in any area of education, two full years of full-time classroom teaching experience, and a passing score on the Praxis II Teaching Reading test validated for use in Alabama.

Degree requirements for MEd certification programs are in compliance with regulations established by the ALSBE. Alternative MEd certification programs range from 30-44 hours and typically take a minimum of four semesters to complete if enrolled full-time; additional undergraduate coursework may be required. Degree requirements include a semester long, full-time internship; satisfactory completion of the State’s testing program including passing scores on the appropriate Praxis II assessments prior to internship; and a written comprehensive exam.

Traditional MEd certification programs and MS non-certification programs require a minimum of 30 semester hours and a comprehensive examination. Requirements for MEd certification programs in reading education and ESOL include a passing score on the appropriate Praxis II subject assessment.

In accordance with State regulations, effective for students unconditionally admitted to an MEd certification program prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet master's-level certification program requirements. Effective for students unconditionally admitted to an MEd certification program July 1, 2017 and after, a minimum GPA of 3.25 will be required on all courses used to meet master's-level certification program requirements.

Specialist in Education Degree Programs (EdS)

Applicants to EdS programs must satisfy the Graduate School's admission requirements. Departmental admission requirements include a master’s degree from an accredited college or university, academic good standing at the institution last attended, competitive GRE scores, letters of recommendation, current resume, a valid master’s-level professional educator certificate in an appropriate area of teaching, clear background check, and approval by the department.

Degree requirements for specialist-level teacher certification programs are in compliance with regulations established by the ALSBE. Specialist programs include a minimum of 30 semester hours beyond the master’s degree. Additional requirements include satisfactory completion of a field project and a written comprehensive exam.

In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.25 is required on all courses used to meet specialist-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.50 will be required on all courses used to meet specialist-level certification program requirements.

Master's- and Specialist-Level Certification

Individuals completing State-approved MEd certification programs are eligible to apply for Alabama Class A certification; individuals completing State-approved specialist-level certification programs are eligible to apply for Alabama Class AA certification. Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

Doctor of Philosophy Degree Programs (PhD)

Applicants to PhD programs must satisfy the Graduate School's admission requirements. Departmental admission requirements include a competitive GRE score, current resume, statement of purpose, letters of recommendation, and approval by the department.

All doctoral programs require a minimum of 80 semester hours beyond the bachelor’s degree. Research methods, statistics, and foundations of education courses are components of all doctoral programs. The remaining hours are divided between the area of specialization and approved support courses. Plans of study for students in secondary education fields must contain at least 30 semester hours of graduate courses in the appropriate teaching fields. After satisfactory completion of coursework and a general written and oral examination, the student advances to candidacy. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation. Doctoral students must enroll each semester during their program.

Graduate Certificates

The Department of Curriculum and Teaching offers graduate certificates in Teaching English as a Second Language (TESL)/Teaching English as a Foreign Language (TEFL), Community Music Education, and Reading Instruction. Departmental admission requirements
for these graduate certification programs include a transcript showing the applicant's last degree completed, a current resume, and three letters of recommendation.

The Department in collaboration with the Department of Educational Foundations, Leadership and Technology also offers a graduate certificate in Adult Education and English Language Teaching. Applicants should contact the Department of Educational Foundations, Leadership and Technology for admission requirements for the English Language Teaching graduate certification program.

### Online Learning Graduate Programs and Courses

The Department of Curriculum and Teaching offers the majority of graduate programs through online learning as well as through residential study.

### Additional Information

Detailed admission and program requirements for the department’s multiple areas of graduate study are available on the Department of Curriculum and Teaching's website, Graduate Application and Admission (http://www.education.auburn.edu/ct-grad-admissions).

**Total Hours**: 30-33

Coursework used to meet admission requirements cannot be used again to meet Alternative Class A program requirements. Undergraduate courses may be required by your advisory committee for your plan of study. This coursework is in addition to the total hours noted above and must be completed prior to Clinical Residency.

All substitutions for required courses must be approved using the Course Substitution Form (https://auburn.tk20.com/campustoolshighered/start.do), including transfer work.

Clearance for Clinical Residency includes completion of all other coursework. Exceptions require approval using the Student Petition Form (https://auburn.tk20.com/campustoolshighered/start.do).

Additional Undergraduate Work May Be Required.

**Economics - MS**

The Department of Economics offers the Master of Science in Economics and a PhD track that is described elsewhere. The MS is an academic degree preparing students for careers in business, government, and academia.

More information about the MS in Economics is available at [http://www.cla.auburn.edu/economics/](http://www.cla.auburn.edu/economics/).

**Admission Requirements for the MS in Economics**

Applicants for the MS in Economics must have a bachelor's degree or its equivalent from an accredited college or university. A minimum of 18 semester hours of economics and the completion of a calculus sequence are also needed to enter the program. The General Test of the GRE is required. A minimum score of 153 (or 500 on the old GRE scale) on the Verbal GRE portion and a minimum score of 148 (or 600 on the old GRE scale) on the Quantitative GRE portion are required. The graduate committee will evaluate applicants based on their undergraduate records, GRE scores, and letters of recommendation.

Applicants should ensure that the following materials are submitted to the Graduate School web application at [http://www.grad.auburn.edu/](http://www.grad.auburn.edu/):

- Official scores from the General Test of the GRE
- Official transcripts from every undergraduate institution attended
- Official TOEFL scores for international students

They should ensure that the following materials are submitted to the graduate program officer in the Department of Economics:

- Three letters of recommendation
- Statement of purpose
For applicants to be given full consideration for financial support, a completed application and supporting documents should be received by March 1. Admission and funding decisions will begin shortly thereafter. Later applications will be considered, but decisions will be contingent upon availability.

**Graduation Requirements**

Students must complete a total of 30 credit hours of course work, including required courses and electives, and comprehensive examinations. No thesis is required for the MS.

**Required Core Courses**

Masters students are required to complete the following nine core courses. Transferring credit hours from other peer institutions is allowed only in exceptional cases.

**First Year**

</tr>
</tbody>
</table>

**Electives**

Students must take 3 hours of electives at the 6000-level or above in consultation with the Director of Graduate Studies. The core curriculum and the electives combine for a minimum of 30 total semester hours.

**Comprehensive Examinations**

Students must achieve satisfactory (MS level pass) on 3 comprehensive examinations in microeconomics, macroeconomics, and econometrics. Only one retake is permitted on each exam. Please note that there is no thesis required.

**Financial Aid**

Financial aid, usually in the form of graduate teaching assistantships is available on a competitive basis for PhD students in good academic standing. Funding normally consists of a tuition waiver and monthly stipend.

**Applied Economics - Forestry (PhD)**

**PhD in Applied Economics** is administered jointly by the Department of Economics, the Department of Agricultural Economics and Rural Sociology, and the School of Forestry and Wildlife Sciences. Forestry students in this program will take core courses in microeconomics, macroeconomics, and econometrics in the Department of Economics and pass written preliminary exams given there. An additional oral examination is required in the SFWS for admission to candidacy. The minimum number of hours in this doctoral program is 60 semester hours earned through instruction beyond the bachelor’s degree, including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (7000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990 and must include at least 10 hours of 8990. As with all other PhD students in the SFWS, students are required to take Research Methods (FORY 7510) and Seminar (FOWS 7950). Dissertation work under this degree program generally involves in-depth economic analysis of a forestry/natural resources/environment issue or problem.

Admission Requirements

Applicants for the PhD track in Applied Economics offered through the Department of Economics must have a bachelor’s degree or its equivalent from an accredited college or university. A minimum of 18 semester hours of economics and the completion of a calculus sequence are also needed to enter the program. The General Test of the GRE is required. A minimum score of 153 (or 500 on the old GRE scale) on the Verbal GRE portion and a minimum score of 148 (or 600 on the old GRE scale) on the Quantitative GRE portion are required. The graduate committee will evaluate applicants based on their undergraduate records, GRE scores, and letters of recommendation.

Applicants should ensure that the following materials are submitted to the Graduate School web application at http://www.grad.auburn.edu/:

• Official scores from the General Test of the GRE
• Official transcripts from every undergraduate institution attended
• Official TOEFL scores for international students
They should ensure that the following materials are submitted to the graduate program officer in the Department of Economics:

- Three letters of recommendation
- Statement of purpose

For applicants to be given full consideration for financial support, a completed application and supporting documents should be received by March 1. Admission and funding decisions will begin shortly thereafter. Later applications will be considered, but decisions will be contingent upon availability.

**Graduation Requirements**

Students must complete a minimum of 60 semester hours of course work at the 7000-level or above. Any course work outside of the Department of Economics must be approved by the director of graduate studies. As part of their 60 credit hours, students complete the required courses listed below. They must also pass comprehensive exams in three areas and complete course work in two advanced fields. Finally, students must write and successfully defend a dissertation.

**Comprehensive Examination**

Students must achieve satisfactory performance (Ph.D. level pass) on three comprehensive (preliminary) examinations in microeconomics, macroeconomics, and econometrics. Only one retake is permitted on each exam. Students are graded separately on each exam. All students enrolled in the Ph.D. program MUST pass all three preliminary examinations by the end of the second December after their initial three semesters in the program.

**Completion of Two Advanced Fields**

Students must complete the coursework and pass a written examination in two advanced fields. Field coursework consists of a minimum two course sequence and must be approved in advance by the Director of Graduate Studies.

**Candidacy**

Students will be admitted to candidacy after completing two advanced fields, forming a dissertation committee, and successfully passing a general Oral Examination (dissertation proposal). The Oral Examination is normally taken during the third year, and requires approval by the Graduate School at least one week prior. Upon successful completion of the proposal, the student becomes a candidate for the Ph.D. degree and has four calendar years to complete remaining requirements.

**Dissertation and Oral Defense**

Students must write a dissertation and pass an oral defense. Students must register for at least 10 semester hours of dissertation research (ECON 8990).

**Financial Aid**

Financial aid, usually in the form of graduate teaching assistantships, is available on a competitive basis for PhD students in good academic standing. Funding normally consists of a tuition waiver and monthly stipend.
Educational Foundations, Leadership and Technology - MEd, MS, EdS, PhD

Degree Programs
- Administration of Elementary and Secondary Education (p. 1307)
- Administration of Higher Education (p. 1308)
- Administration of Supervision and Curriculum (p. 1308)
- Adult Education (p. 1309)
- Agricultural Leadership (p. 1309)
- Educational Psychology (p. 1310)
- Library Media (p. 1310)

Graduate Certificates
- Adult Education (p. 1311)
- Adult Education and English Language Teaching (p. 1312)
- College/University Teaching (p. 1312)
- Educational Leadership (p. 1312)
- Extension Educator (p. 1313)
- Instructional Leadership (p. 1306)
- Instructional Technology for Distance Education (p. 1313)
- Program Evaluation (p. 1313)
- Technology Educator (p. 1314)

Minor
- Sport Management (p. 1314)

The Department of Educational Foundations, Leadership and Technology offers degree programs, graduate certificates, and a minor. Degree programs lead to a master of education (non-thesis option), master of science (thesis option), specialist in education, or doctor of philosophy. Graduate degrees are available in the areas of administration of elementary and secondary education, administration of higher education, administration of supervision and curriculum, adult education, educational psychology and library media. The graduate certification programs in administration of elementary and secondary education (instructional leadership) and library media are approved by the Alabama State Board of Education (ALSBE). The College of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Applicants to the department’s graduate programs must satisfy the Graduate School’s admission requirements. Departmental admission requirements include a degree from an accredited college or university, competitive Graduate Record Examination (GRE) or Miller Analogies Test (MAT) scores, a GPA of at least a 2.75 on undergraduate coursework, a statement of intent, three recommendations, and any remaining admission requirements as identified by the program or department.

Master’s Degree Programs (MEd/MS)
Master’s degree programs are offered in administration of elementary and secondary education, administration of higher education, administration of supervision and curriculum, adult education, and library media. All programs require a minimum of 30 semester hours, an internship and/or practicum, and a comprehensive examination.

Master’s-level certification programs include instructional leadership (MEd in administration of elementary and secondary education) and library media. Admission requirements established by the Alabama State Board of Education, including those pertaining to a clear background check, prior certification, and teaching experience must be satisfied prior to admission to one of these programs. Degree requirements for both programs are in compliance with State regulations. Graduation requirements include a passing score on the appropriate Praxis II subject assessment.

In accordance with State regulations, effective for students unconditionally admitted to certification programs prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet master’s-level certification program requirements. Effective for students unconditionally admitted to certification programs July 1, 2017 and after, a minimum GPA of 3.25 will be required on all courses used to meet master’s-level certification program requirements.
### Specialist in Education Degree Programs (EdS)

EdS programs are offered in administration of elementary and secondary education, adult education, and library media. All programs require a minimum of 30 semester hours, a directed field project, and a comprehensive examination.

Specialist-level certification programs include instructional leadership (EdS in administration of elementary and secondary education) and library media. Admission requirements established by the Alabama State Board of Education, including those pertaining to a clear background check, prior certification, and teaching experience must be satisfied prior to admission to one of these programs. Degree requirements for both programs are in compliance with State regulations.

In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.25 is required on all courses used to meet specialist-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.50 will be required on all courses used to meet specialist-level certification program requirements.

### Master’s- and Specialist-Level Certification

Individuals completing State-approved master’s-level certification programs are eligible to apply for Alabama Class A certification; individuals completing State-approved specialist-level certification programs are eligible to apply for Alabama Class AA certification. Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

### Doctor of Philosophy Degree Programs (PhD)

PhD programs require a minimum of 87 semester hours beyond the bachelor’s degree. Research methods, statistics, and foundations of education are components of all doctoral programs. The department offers a doctorate in the areas of administration of elementary and secondary education, administration of higher education, administration of supervision and curriculum, adult education, and educational psychology. After satisfactory completion of coursework and a general written and oral examination, the student advances to candidacy. Doctoral students must register for at least 10 hours of dissertation credit while completing a dissertation.

### Minor and Graduate Certificates

The Department of Educational Foundations, Leadership and Technology offers a minor in sport management and graduate certificates in adult education, college/university teaching, educational leadership, extension educator, instructional leadership, instructional technology (technology educator and instructional technology for distance education), and program evaluation. In addition, the Department in collaboration with the Department of Curriculum and Teaching offers a graduate certificate in adult education and English language teaching.

### Additional Information

Detailed admission and program requirements for the department’s multiple areas of graduate study are available on the College of Education’s website, Academics (http://www.education.auburn.edu/academics) (http://www.education.auburn.edu/academics/). The University schedule of courses is available on the Auburn University website.

**Electrical and Computer Engineering - MEE, MS, PhD**

**Degree Program:**

- Electrical and Computer Engineering - MEE (p. 1315)
- Electrical and Computer Engineering - MS (p. 1315)
- Electrical and Computer Engineering - PhD (p. 1316)

Electrical and Computer Engineering (ECE) offers graduate programs of instruction and research leading to master and doctoral degrees. Instruction is offered and research facilities are available to support graduate study in control systems & robotics, digital signal processing and communications, wireless engineering, electromagnetics modeling and analysis, microelectronics & microelectromechanical systems (MEMS), magnetic resonance imaging (MRI), power systems, digital systems, and computer
engineering. Additionally, individualized programs that cross the traditional boundaries of engineering, mathematics and the sciences can be accommodated.

For admission at the master’s level, the applicant must hold a bachelor’s degree or its equivalent from an institution of recognized standing. Master’s degree programs are available to graduates of engineering curricula and, in cases of exceptional academic credentials, to graduates of mathematics and science curricula.

An applicant for admission to the PhD program must hold a master’s degree, or have taken a minimum of one academic year of graduate study, from an institution of recognized standing in an area of study related to the proposed doctoral work. An applicant who holds a bachelor’s degree in electrical or computer engineering and has exceptional academic credentials may apply for direct admission to the PhD program.

All applicants must submit Graduate Record Examination scores for the General Test, three recommendation letters, a statement of purpose, and a resume. International applicants must also submit scores for either the TOEFL or IELTS exam.

Applications for admission are reviewed by the departmental graduate faculty. Decisions are based upon the applicant’s potential for success in advanced-level study as indicated by letters of reference, GRE scores and previous academic achievement.

The MS degree program (the thesis option) requires a minimum of 30 semester hours of work, including 4 to 6 semester hours of research and thesis. MS students must spend at least one semester of full-time study in residence and pass a final examination on the thesis. The MEE degree program (the coursework-only option) requires 33 semester hours of coursework, including at least 18 semester hours of ECE courses. Both masters programs must include courses in at least three of the major research areas in ECE and no more than 3 semester hours of independent study.

Students admitted to the doctoral program will take a written qualifying examination soon after entering, covering fundamental undergraduate material in ECE. Additional examinations are given throughout the program. The program generally consists of a minimum of 60 semester hours of course work beyond the bachelor’s level, including at least 10 hours of research and dissertation. A minor of at least 9 semester hours in a closely related field outside of the major area of study, either within or outside of ECE, is required.

- At least 18 semester hours of ECE graduate courses, excluding ELEC 7900 and seminar, must be taken. A deviation from this requirement may be allowed, as appropriate, with the approval by the major professor and department chair.
- At least one course must be taken in three of the six research areas:
  - Computer systems (62xx, 72xx, 82xx, 6150)
  - Electromagnetics (63xx, 73xx, 83xx)
  - Communications (64xx, 74xx, 84xx, 6100, 6110, 6120)
  - Control Systems (65xx, 75xx, 85xx)
  - Power Systems (66xx, 76xx, 86xx)
  - Electronics (67xx, 77xx, 87xx, 6130)
- No more than 3 semester hours of independent study (ELEC 7990 or equivalent) can be included.
- 7990 cannot be included.

English - MA, MTPC, PhD, Graduate Certificate

Degree Programs:
- English - MA
- English - PhD (p. 1319)
- Technical and Professional Communication - MTPC (p. 1319)

Graduate Certificate:
- Technical Communication (p. 1319)

The Department of English offers programs leading to the Master of Arts (MA), the Master of Technical and Professional Communication (MTPC), and the PhD. These graduate programs prepare students for careers in teaching and research, writing, editing, business, and other professions seeking broadly educated individuals skilled in analysis and communication. In addition, individuals holding a teaching certificate may, with an additional graduate course in Communication, earn Alabama Class A or AA certification under a state-approved Strengthened Subject Matter Option program in English/Language Arts. The Department of English also offers the Graduate Certificate in Technical Communication (GCTC).

More information about the MA in English is available at http://www.cla.auburn.edu/english/graduate-studies/ma/.

More information about the MTPC is available at http://www.cla.auburn.edu/mtpc/.

More information about the PhD in English is available at http://www.cla.auburn.edu/english/graduate-studies/phd/.

More information about the Graduate Certificate in Technical Communication is available at http://cla.auburn.edu/english/graduate-studies/graduate-certificate-in-technical-communication/.

Master of Arts

Admission Requirements
For admission to the MA program, the student must normally have a bachelor’s degree from an accredited institution with the equivalent of 24 semester hours of credit in upper-division English courses and satisfactory scores on the General Test of the GRE. Applicants lacking the required undergraduate courses must typically make up these deficiencies before they can be admitted to the degree program.

Applicants should ensure that the following materials are submitted to the Graduate School web application:

- Official transcripts from every undergraduate institution attended
- Official scores from the General Test of the GRE

They should submit the following to the Department of English:

- Writing sample
- Statement of purpose
- Three confidential letters of recommendation that speak to the applicant’s potential for successful graduate study
Application materials are due by January 15.

**Options and Course Requirements**

For the MA, students may select one of the following three tracks: literature, composition and rhetoric, or creative writing. Each track requires a minimum of 30 credit hours of coursework.

The literature track requires the following:

- Three major area courses (one pre-1800 literature, one post-1800 literature, one literary theory)
- One comparative literature, genre, or author-based course
- One technology and culture, globalism, sustainability, or diversity course
- One course in technical and professional communication, rhetoric and composition, linguistics, or creative writing
- Two elective courses in English
- ENGL 7940 Practicum in Teaching College English
- Two courses in a coordinated minor, chosen from courses in English or another discipline relevant to the student’s professional and academic goals

The creative writing track requires the following:

- Three major area courses (ENGL 7130 Fiction Writing and ENGL 7140 Poetry Writing, with one repeated for a total of three creative writing courses)
- One pre-1800 literature course
- One technical and professional communication, rhetoric and composition, or linguistics course
- One technology and culture, globalism, sustainability, or diversity course
- Two courses in a coordinated minor, chosen from courses in English or another discipline relevant to the student’s professional and academic goals
- Two elective courses in English
- ENGL 7940 Practicum in Teaching College English

The composition and rhetoric track requires the following:

- Three major area courses (ENGL 7040 English Composition: Issues and Approaches, ENGL 7050 Studies in Composition, and ENGL 7300 Rhetoric Theory and Practice)
- One course in technical and professional communication or linguistics
- One literature or creative writing course
- One technology and culture, globalism, sustainability, or diversity course
- Two courses in a coordinated minor, chosen from courses in English or another discipline relevant to the student’s professional and academic goals
- Two elective courses in English
- ENGL 7940 Practicum in Teaching College English

**Other Graduation Requirements**

In addition to completing the required course work, students must successfully complete a portfolio and pass an oral examination based on the portfolio. They also must demonstrate reading knowledge of one foreign language.

**Master of Technical and Professional Communication**

**Admission Requirements**

For admission to the MTPC program, students must have a bachelor’s degree from an accredited institution, satisfactory scores on the General Test of the GRE, and excellent writing skills. Undergraduate course work in English is not required.

Applicants should ensure that the following materials are submitted to the Graduate School web application:

- Official transcripts from every undergraduate institution attended, including high school transcripts in the case of AP classes
- Official scores from the General Test of the GRE
They should submit the following to the Department of English:

- A sample of professional or scholarly writing (e.g., a technical manual, a business report, a research essay)
- A statement of purpose explaining their interest in the program
- Three letters of recommendation. At least two of the letters should come from professors or instructors; the other letter may come from an academic adviser, an employer, or some other person who can speak to their potential for success in the MTPC program.

Application materials should be received by January 15.

**Course Requirements**

- Three elective courses in English approved by the student's advisory committee
- Three courses in a coordinated minor or three additional courses in English approved by the student's advisory committee
- ENGL 7940 Practicum in Teaching College English

**Other Graduation Requirements**

Students must compile a portfolio of work accepted by the student's advisory committee, make a formal presentation about the portfolio, and pass an oral examination.

**PhD Admission Requirements**

For admission to the PhD program, the student must normally have a master’s degree in English and satisfactory scores on the General Test of the GRE.

Applicants should ensure that the following materials are submitted to the Graduate School web application:

- Official transcripts from every undergraduate and graduate institution attended
- Official scores from the General Test of the GRE

They should submit the following to the Department of English:

- Writing sample
- Statement of purpose
- Three confidential letters of recommendation that speak to the applicant’s potential for successful graduate study

**Concentrations and Course Requirements**

The PhD requires a minimum of 60 credit hours beyond the BA, including 10 hours of dissertation credit. Students entering our program with an MA in English from Auburn or from another institution transfer in their course work; in consultation with their graduate advisory committee, students then select additional courses. Students may choose to pursue either a concentration in literature or a concentration in composition and rhetoric.

**Other Graduation Requirements**

After completing course work, students must take general doctoral examinations, both written and oral, over three related areas. These areas might include a literary period, a genre, an issue in composition or rhetorical studies, language and linguistics, or literary and cultural theory. After passing these examinations, students advance to doctoral candidacy. Within three months after advancing to doctoral candidacy, students must submit an approved dissertation prospectus to the director of graduate studies. Students must write and defend a dissertation.

Doctoral students must demonstrate a reading knowledge of two foreign languages or advanced proficiency in one foreign language.

**Graduate Certificate in Technical Communication Admission Requirements**

For admission to the Graduate Certificate in Technical Communication, students must have a bachelor’s degree from an accredited institution and excellent writing skills.
Applicants should ensure that the following materials are submitted to the Graduate School web application:

- Official transcripts from every undergraduate institution attended

They should submit the following to the Department of English:

- A sample of professional or scholarly writing (e.g., a technical manual, a business report, a research essay)
- A statement of purpose explaining their interest in the program
- Three letters of recommendation from professors, academic advisers, employers, or others who can speak to their potential for success in the GCTC program

Financial Aid

The department offers financial aid in two forms: fellowships and assistantships. Graduate teaching assistantships or graduate assistantships are often available for the most qualified students, except those enrolled in the GCTC. Assistantships are renewable, provided that students perform satisfactorily and make adequate progress toward the degree. A few outstanding applicants also receive first-year or second-year fellowships. Review of applications for financial aid will begin on January 15 for the MA and PhD and February 15 for the MTPC.

Entomology - MS, MAg, PhD

Program Degrees:

- Entomology - MS (p. 1321)
- Entomology - MAg (p. 1321)
- Entomology - PhD (p. 1321)

The Department of Entomology and Plant Pathology offers entomology degrees including a of Master of Science (MS), Master of Agriculture (MAg) and Doctor of Philosophy (PhD). The Graduate program emphasizes basic and applied aspects of the science of entomology preparing students for careers in teaching, research and extension with a variety of academic, governmental, state, private and industrial opportunities. The educational goals and objectives of the MS degree program are to produce graduates who are fundamentally trained in the scientific principles and general knowledge of entomology and related sciences and who are able to apply these principles to successfully solve problems of an entomological nature or employ this knowledge at an advanced level of study.

The purpose of the PhD program in entomology is to produce graduates who are fundamentally trained in the scientific principles and general knowledge of entomology and related sciences and who are able to employ this knowledge at the advanced level of study and/or apply these principles to solve problems of an entomological nature.

Admission is based primarily on a combination of GPA and Graduate Record Examination (GRE) scores and (if an international student) TOEFL tests are also required.

Students holding baccalaureate degrees in agriculture or the biological sciences may find this degree program helpful to their professional development and career goals. For a major in entomology at the MS level, the student should have a baccalaureate degree from a recognized institution with pre-requisite training in zoology, botany, chemistry, physics, and mathematics. Qualified students lacking mandatory courses may be admitted but will be required by the student's advisory committee to make up any deficiencies.

The MS program in entomology is available to qualified individuals who wish to pursue a master's level program that requires a thesis. Importance is placed on both classroom and research training. The MS requires a minimum of 30 semester hours, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENTM 6300</td>
<td>Systematic Entomology</td>
<td>5</td>
</tr>

<td>4</td>
</tr>
<tr>
<td>ENTM 7950</td>
<td>Seminar</td>
<td>1</td>
</tr>
<tr>
<td>Thesis</td>
<td></td>
<td>1</td>
</tr>
</tbody>
</table>

A graduate-level course in statistics is also required. A minimum of 21 semester hours must be taken in entomology and a specialty area of at least 10 semester hours may be selected from related subject matter fields. There is no language requirement for the MS degree.

The master of agriculture (MAg) program with a specialization in entomology is available to qualified applicants who wish to pursue a master's level program that does not require a thesis. The MAg with a specialization in entomology carries the same entrance requirements as the MS but is a non-thesis degree. The MAg requires a minimum of 32 semester hours, 21 of which must be in entomology, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>Internship (strongly recommended)</td>
<td>3</td>
</tr>
<tr>
<td>ENTM 7200</td>
<td>Insect Physiology</td>
<td>4</td>
</tr>
</tbody>
</table>

Course in Statistics (strongly recommended)

The remaining courses can be taken from a variety of subject areas determined in consultation with the student’s advisory committee. A comprehensive examination is required after all courses are completed. There is no language requirement for the MAg degree.

The PhD program requires 60 semester hours of course work, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENTM 6300</td>
<td>Systematic Entomology</td>
<td>5</td>
</tr>
</tbody>
</table>
Dissertation based on the student’s original research

A graduate-level course in statistics is also required. Of the 60 semester hours, 30 must be graded graduate courses 6000 and above while registered in the PhD program. There is no language requirement for the PhD. Upon completion of the course work, PhD students must take a general written examination. Students must pass all parts of the written examination before scheduling the preliminary oral examinations (prelim). After satisfactory completing the prelim the student advances to candidacy. The PhD student will conduct independent research and prepare a dissertation. After completion of the dissertation the student must pass a final oral examination defending the dissertation.

**Finance - MSBA, PHD**

**Degree Programs:**
- Finance - MS (Thesis and non-thesis and on-campus and online options) (p. 1322)
- Finance - PhD (p. 1323)
The MSBA program offers specialized training to graduate students desiring a more intense background in the field relative to the general preparation provided by an MBA. The objective of the program is to prepare students for careers in their chosen profession or for further graduate work. The program has a thesis and non-thesis option (the non-thesis option requires additional course work). The program of study is determined by the student and the student’s advisory committee based on the student’s background and areas of interest. The program also offers a joint program leading to both the MSBA-Finance and MBA degrees.

The MBA/MSBA-Finance is a 54-hour program administered jointly by the Finance faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full time work experience are required to do an additional 3-credit hour internship. Students must apply separately to each program (MSBA-Finance and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The Ph.D. in Business, with Concentration in Finance is a a research oriented degree that prepares students for careers in research and teaching. It provides the depth of knowledge and skills required to conduct first-rate research in the field and present those findings in world-class scholarly publications. Our faculty is supportive of our students and works closely with them. Students will typically work on a joint research project with one or more of their professors early in their program. Thus, students are quickly immersed in doing substantial research.

Ph.D. candidates must be full-time, year around students. The doctoral program requires the development of a sense of scientific curiosity that permeates the extensive coursework and inquiry that is required. The core coursework is an intensive study of the theory and empirical analysis of Finance, focused on Investments, Corporate Finance, and Financial Institutions and Markets. Most of the coursework can be completed in the first two years. Students without master's degrees or otherwise lacking an appropriate background may be required to take additional courses.

The preliminary exam is taken after the required coursework is completed. This will usually be at the beginning of the third year. After satisfactory completion of the exam, the last phase of the program is devoted to research, including the publication of articles and completion of the Ph.D. dissertation and its defense. The length of this phase of the program is expected to take two or more years.

Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

Select 50 Credits in @ 6000-8999  
Total Hours 60

The PhD in Business requires 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990, and must include at least 10 hours of 8990. Up to 30 hours (if less than half of the total number of hours) of applicable master's level course work may be used to satisfy part of these requirements with advisor approval.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of FINC 8990. Enrollment in FINC 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.

**Fisheries and Allied Aquacultures - MAq, MS, PhD**

**Degree Programs:**

- Fisheries and Allied Aquacultures - MAq (p. 1324)
- Fisheries and Allied Aquacultures - MS (p. 1324)
- Fisheries and Allied Aquacultures - PhD (p. 1325)

The FAA graduate program prepares students for productive careers in academia and the private and public sectors in aquaculture, aquatic resource management and ecology, and fisheries biology and management. The Department offers graduate programs leading to the Master of Science (MS), Master of Aquaculture (MAq), and Doctor of Philosophy (PhD) degrees.

Students desiring admission for graduate study should have a degree from a recognized academic institution, adequate course work in biology, zoology, botany, chemistry, physics, and mathematics and submit GRE scores. Qualified students lacking an adequate background in these areas may be admitted but may be required to correct deficiencies after they enroll at Auburn. Applicants must also meet minimum requirements of the Graduate School including English language requirements. Evaluation of applicants includes academic records, GPA, GRE scores, letters of recommendation, and past professional history.
The MAq is a non-thesis degree that prepares a student for a career in aquaculture management or extension. The degree requires successful completion of a minimum of 40 semester hours beyond the bachelors’ degree and includes a 3 to 5 - month internship. Included in the 40 hours are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FISH 6210</td>
<td>Principles of Aquaculture</td>
<td>3</td>
</tr>
<tr>
<td>FISH 6220</td>
<td>Water Science</td>
<td>3</td>
</tr>
<tr>
<td>FISH 6240</td>
<td>Hatchery Management</td>
<td>4</td>
</tr>
<tr>
<td>FISH 6250</td>

<td>4</td>
</tr>
<tr>
<td>FISH 6410</td>
<td>Introduction to Fish Health</td>
<td>3</td>
</tr>
<tr>
<td>FISH 7640</td>
<td>Fish Nutrition</td>
<td>3</td>
</tr>
</tbody>
</table>

Business-related courses: 6-12

In addition, students must pass a comprehensive oral examination after completion of all course work and internship.

The Master of Science degree prepares the student for aquatic resource or aquaculture related careers as well as further studies toward a PhD degree. A minimum of 30 semester hours of 6000-level or above is required. A minimum of 21 semester hours (which includes FISH 7990) of 6000-level and above courses must be taken within the major area of concentration and at least an additional 9 hours taken in a separate but closely related area of concentration. A minimum of 4 semester hours of FISH 7990 (Research and Thesis) is required but no more than 6 semester hours may be counted toward the degree. In addition to the required course work, the student must complete research and a written thesis and pass a comprehensive examination on research and course work as defined by the student’s advisory committee.

Admission to the Doctor of Philosophy degree program usually requires that the student has a master’s degree from a recognized graduate program. The doctoral program emphasizes original scholarly research and includes significant advanced coursework. The PhD degree requires a minimum of 60 semester credit hours beyond the bachelor’s degree, of which a minimum of 31 hours must be taken through Auburn University, and a dissertation describing original research. A minimum of 30 hours must be graded graduate courses. The minimum and maximum number of hours of dissertation research (FISH 8990) is 10. Students must pass a general examination, often called the “preliminary examination,” typically taken after all graded course work is completed, to become a PhD candidate. The exam includes a written exam followed by an oral exam. The student becomes a candidate for the degree on successful completion of the general examination. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

All graduate students are expected to be engaged in service to the department’s research and education programs as deemed appropriate by the academic adviser and department head. All students receiving departmental assistantships must be registered for at least one course (any course of at least 1 credit hour carrying an Auburn University course number) during each academic term of the assistantship. International students must meet visa requirements for coursework load. All graduate students must present an exit seminar in the department for which credit will be given as either FISH 7950 for master’s or FISH 8950 for PhD’s.

Food Science - MAg, MS, PhD

- Food Science - MAg (p. 1326)
- Food Science - MS (p. 1326)
- Food Science - PhD (p. 1326)

A graduate degree option in Food Science is offered through the Department of Poultry Science. Students pursuing graduate studies in Food Science can earn Master of Agriculture, Master of Science, and Doctor of Philosophy degrees. These degrees are designed to prepare outstanding students for careers in the food industry, government, and academia. Research training and experience can be acquired in the specialized areas of food safety/microbiology, food quality, food chemistry, or processing and product technology.

Applicants apply through the Department of Poultry Science and must indicate their desire to pursue graduate studies in Food Science. All applications are reviewed by the departmental Graduate Committee. Application materials include: official copies of all college transcripts, GRE scores, TOEFL scores (for international students), 3 letters of recommendation, a resume, and a statement of purpose. Transcripts and test scores are sent directly to the Graduate School. The letters of recommendation may either be submitted online (preferred) or mailed to the graduate program officer. The resume and statement of purpose are sent to the graduate program officer at the departmental address or via email attachment. To pursue MS or MAg degrees in food science, applicants must have a bachelor's degree in food science, nutrition, chemistry, biology, food engineering, or allied sciences from a recognized institution. A MS degree in a relevant field is required to be considered for admission into the PhD program. The course of study, developed by the student and the advisory committee, may include additional courses to address specific needs or course work deficiencies.

Additional information about requirements, policies, and availability of financial support can be obtained from the graduate program officer for the Food Science Option in Poultry Science (bellleo@auburn.edu).

MS/MAg Degree Requirements

1. The Master of Science (MS degree) requires a research project with a formal written thesis while the Master of Agriculture (MAg) requires a research project with written report. The MS degree requires a minimum of 30 semester credit hours. The MAg degree requires 33 semester credit hours. Both MS and MAg degrees require a comprehensive final oral examination.

2. The Food Science Core Curriculum –

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

</tr>
</tbody>
</table>

3. Food Science Electives – MS students must take 4 food science electives chosen in consultation with the major professor and advisory committee. MAg students must take 5 food science electives. Free electives may be used to acquire the required 30 semester hours (MS) or 33 semester hours (MAg).
**PhD Degree Requirements**

1. For the PhD degree, a minimum of 30 semester hours of graduate coursework beyond the MS (60 hours beyond the bachelor’s degree) is required.

2. The Food Science Core Curriculum –

<table>

</tbody>
</table>

3. Food Science Electives – PhD students must take 5 food science electives chosen in consultation with the major professor and advisory committee. Free electives may be used to acquire the required 60 semester hours.

4. Examinations – Upon completion of course work, students must pass general written examinations administered by the advisory committee, followed by a comprehensive preliminary oral examination. After satisfactory completion of these exams, the student advances to candidacy. A dissertation based on an independent research project is required to earn a PhD degree. After completion of the dissertation, the student must pass a final Doctoral oral examination defending the dissertation.

Forestry - MNR, MS, PhD

Degree Programs:

• Forestry - MNR (p. 1327)
• Forestry - PhD (p. 1328)

Graduate study in forestry leads to the Master of Natural Resources (MNR), Master of Science (MS), or Doctor of Philosophy (PhD) degrees. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the School of Forestry and Wildlife Sciences based on an examination of their scores on the Graduate Record Examination (GRE), TOEFL tests for international students, their previous academic record, experience, and recommendations. While exceptions may be made, the faculty generally expect a minimum GPA of 3.0 in previous academic course work and minimum scores both verbal and quantitative in the 50 percentile range for the GRE. Course deficiencies are identified by the student’s advisory committee and approved by the GPO with due consideration for the student’s previous training and experience.

Degrees offered:

• Master of Natural Resources - Three MNR options are available.

  Natural Resource Management option is available for individuals with a biologically related baccalaureate degree who are interested in careers in the management and policy making for our natural resources. This option can be completed in 3-4 semesters depending upon coursework selected and requires a minimum of 36 semester hours of graduate courses.

  Advanced Forestry Studies for students with undergraduate degrees in forestry. It will also involve primarily advanced course work and can be completed in 3-4 semesters. This option requires a minimum of 36 semester hours of graduate courses.

  Professional Forester option for individuals with baccalaureate degrees in fields other than forestry and who are interested in becoming Registered Foresters in Alabama. This option is a two-year program which begins with a 10 week summer Field Practicum and requires a minimum of 70 semester hours (34 hours of specified undergraduate course work plus 36 hours of graduate course work).

• Requirements for all three MNR options include a MNR paper (FORY 7980) and Graduate Seminar (FOWS 7950). All MNR students are required to pass a comprehensive oral examination conducted by their Graduate Committee.

• Master of Science (MS) A research proposal and thesis based on original research are major components of the MS degree. The program normally requires 2 – 3 years for completion, and can be tailored for students with interests in forest management, ecology and environmental sciences, economics, engineering, or business. The MS degree program requires a minimum of 30 hours beyond the bachelor degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (FORY 7990) is required. All MS students are required to take Research Methods (FORY 7510) and Seminar (FOWS 7950).

• Doctor of Philosophy (PhD) may be tailored for any of the topical areas listed under the M.S. A research proposal and dissertation based on original research are required as major components of the PhD degree program. The degree requires 60 semester hours beyond the bachelor degree. There must be a minimum of 30 semester hours in graded coursework at the 7000-level or above. Of the remaining 30 semester hours, 10 hours must be Research and Dissertation (FORY 8990) and 20 hours of 6000-level or above. While some of these 60 hours can be from previous graduate work, such as a MS degree, a minimum of 25 hours of graded coursework at the 6000-level or above must be completed at Auburn. All PhD students are required to take Research Methods (FORY 7510) and Seminar (FOWS 7950). Oral and written preliminary exams are required for advancement to candidacy; The preliminary exams must be completed no less than two academic terms prior to graduation. The written and oral preliminary examinations for PhD students will normally consist of questions from each committee member regarding technical competency and other related issues.

An urban forestry minor, administered in cooperation with the Department of Horticulture, is available for MNR, MS, and PhD degrees.

Total Hours 60

**Geography - MS**

Graduate study in geography is directed toward the master of science degree. The MS degree provides an advanced understanding of key geographical concepts of space, scale, and distance in human and physical processes along with training in advanced geospatial analysis in preparation for employment in industry and government or further academic pursuits. The curriculum is oriented toward a broad applied geographic training with opportunity for specialization through electives, directed studies, and thesis or capstone research.

Admission into the master's program requires a bachelor’s degree in geography or related discipline from an accredited institution, an acceptable undergraduate GPA, satisfactory scores on the Graduate Record Examination general test, and three letters of recommendation. Undergraduate course deficiencies may be required and can be made up during the student's first year in the degree program.

The thesis option MS degree requires a minimum of 30 semester hours and the successful completion of a thesis. The 30 hours include:

- GEOG 6800 Geographic Thought 3
- GEOG 6700 Quant Meth & Spatial Analysis 3
- Graduate-level Geography Courses 6
- Graduate Level Electives 1 18

Total Hours 30

1 12 hours must come from geography.

The non-thesis option requires a minimum of 39 semester hours and the successful completion of a comprehensive written and oral examination by the faculty committee. The 39 hours include:

- GEOG 6800 Geographic Thought 3
- GEOG 6700 Quant Meth & Spatial Analysis 3
- Graduate Level Electives 1 33

Total Hours 39

1 18 hours must come from geography.

**Geography, ABM**

The Accelerated Bachelors/Masters of Geography degree program provides an opportunity for highly-motivated students to gain an in-depth understanding of materials related to geography beyond that of typical bachelor's level graduates and make them more competitive for the employment of graduate studies. The accelerated degree program also allows an opportunity for students involved in undergraduate research to build upon those efforts and develop them into a master's thesis. In addition, the ABM program in Geography allows students to complete both a bachelor's and master's degree in five calendar years by allowing undergraduates to enroll in graduate level classes during their senior year. Application and Matriculation requirements apply to interested students. Please see the Department of Geology and Geography website for additional information:
Senior Year for Students in Accelerated Degree Program

The courses indicated in boldface type would be used by students enrolled in the Accelerated Master’s program to meet nine undergraduate hours in Geography Electives during their senior year and nine graduate credit hours (including two courses required of all MS Geography students and a graduate Geography Elective) during their first year of the graduate program. All courses at the 6000-level are also offered at the 5000-level; however, those at the graduate level have additional requirements and higher expectations.

The M.S. degree in Geography only has two required courses (GEOG 6700 and GEOG 6800) with the remainder of the coursework comprised of 18 graduate-level credit hours (12 of which must come from Geography). Students also complete 6 credit hours of research and thesis.

Geology - MS

Graduate study in geology leads to the master of science. The graduate program is oriented toward providing a sound practical background in preparation for employment in industry or government service or further academic pursuits. The curriculum provides broad training in geology with the opportunity for specialization through electives, directed studies, and thesis or capstone research.

Admission into the master’s program requires a bachelor’s degree in geology (or related Earth science discipline) from an accredited institution with 40 semester hours in geology, an acceptable undergraduate GPA, satisfactory scores on the Graduate Record Examination general test, and three letters of recommendation. Undergraduate course deficiencies may be made up during the student’s first year in the degree program.
The thesis option MS degree in geology requires a minimum of 30 semester hours and completion of a thesis. The 30 hours include:

1. All or a portion of which may be GEOL 7930-Directed Study or GEOL 7980- Capstone Project.

Both degree options require (1) satisfactory completion of a summer field course or comparable field experience prior to beginning the second year of residence and (2) demonstrated working knowledge of a computer language or computer-based geographic information system (G.I.S.) before graduation.

**Pharmaceutical Sciences: Health Outcomes Research and Policy Option - MS**

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000 - 8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below.

**Pharmaceutical Sciences: Health Outcomes Research and Policy Option - PhD**

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor's degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000 - 8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000 - 8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

### Scientific Communications (Six credits required)
- **PYPC 8950** Seminar (may be repeated multiple times for credit)
- **PYS 8950** Seminar (may be repeated multiple times for credit)
- **PYPS 7000** Introduction to Grant Writing

### Data Analyses and Interpretation (Six credits required)
- **ERMA 7300/7306** Design and Analysis in Education I
- **ERMA 7310/7316** Design and Analysis in Education II
- **MNGT 8400** Advanced Quantitative Methods for Management I
## History - MA, PhD, Graduate Certificates

### History - MA, PhD, Graduate Certificates

#### Degree Program:
- History - MA (p. 1335)
- History - PhD (p. 1335)

#### Graduate Certificate:
- Archival Studies (p. 1335)
- Public History (p. 1336)

The Department of History offers two graduate programs: the Master of Arts in History and the PhD in History. Additionally, the department offers Graduate Certificates in Public History and in Archival Studies. The graduate programs prepare students for careers in teaching, public history, archival management, government, and research. More information is available at [http://cla.auburn.edu/history/students/graduate-students/](http://cla.auburn.edu/history/students/graduate-students/).

### MA in History

#### Admission Requirements

For admission to the MA program, the student must have a bachelor’s degree from an accredited institution and a satisfactory score on the General Test of the GRE. For more information about the Department of History’s expectations for admission, see [http://cla.auburn.edu/history/students/graduate-students/admissions/](http://cla.auburn.edu/history/students/graduate-students/admissions/). Applications must be approved by the department’s graduate committee. Applicants lacking course requirements must make up deficiencies before or after admission to the degree program. The committee's decisions are based on a review of all application materials. A minimum GRE score on its own does not guarantee acceptance.

Applicants will submit the following materials for consideration:

<table>

</table>

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000-8999) to reach the 60 hour degree requirement.
• Official transcripts from all undergraduate and graduate institutions
• Official scores from the General Test of the GRE sent from ETS
• A writing sample
• A statement of purpose
• An application for an assistantship (for those who wish to be considered for funding--note earlier application deadline for assistantships)
• Three confidential letters of recommendation

All materials for admission to the MA in History are due on March 15. January 15 is the due date for those wishing to be considered for assistantships.

**MA Requirements**

The MA requires a minimum of 31 hours and a thesis. Of the 31 hours, 21 must be in seminar courses, including HIST 7700 Seminar in Historical Methods and one research seminar. In addition to possible concentrations in United States history, European history, and the history of technology, the MA program offers specializations in archival studies and public history, including practical training (a 3-hour required internship). The Department does not admit students to pursue non-thesis MA degrees, but a MA degree (non-thesis) can be awarded to students in the doctoral program who have not previously earned the master’s upon passing the general examination for admission to candidacy for the PhD.

There is no language requirement for the MA degree.

**PhD in History**

**Admission Requirements**

For admission to the PhD program, the student must have a bachelor’s degree from an accredited institution and a satisfactory score on the General Test of the GRE. For more information about the Department of History’s expectations for admission, see [http://cla.auburn.edu/history/students/graduate-students/admissions/](http://cla.auburn.edu/history/students/graduate-students/admissions/). Applications must be approved by the department’s graduate committee. The committee’s decisions on admission are based on a review of all application materials. A minimum GRE score on its own does not guarantee acceptance.

Applicants will submit the following materials for consideration:

• Official transcripts from all undergraduate and graduate institutions
• Official scores from the General Test of the GRE sent from ETS
• A writing sample
• A statement of purpose
• An application for an assistantship (for those who wish to be considered for funding--note earlier application deadline for assistantships)
• Three confidential letters of recommendation

All materials for admission to the PhD in History are due on March 15. January 15 is the due date for those wishing to be considered for assistantships.

**PhD Requirements**

The program requires a minimum of 65 semester hours beyond the bachelor’s degree, written and oral examinations, a dissertation and oral defense, and reading knowledge of at least one foreign language. Of the 65 hours, 43 must be at the 7000- or 8000-level, including at least 3 hours and not more than 6 hours in research seminars. The 65 semester hours include 10 hours of Research and Dissertation credit.

Three courses are required:

• HIST 7700 Seminar in Historical Methods
• HIST 8700 Historiography and Theory of History
• HIST 8710 Introduction to the Teaching of History

Major fields in history include the following:

• United States to 1865
History - MA, PhD, Graduate Certificates

- United States since 1865
- Europe 1500-1789
- Europe since 1789
- History of Technology

In addition to the major field, students must construct two minor fields with a minimum of 9 hours of course work in each, and one breadth field with a minimum of 6 hours of course work. In each minor field at least one course must be a seminar, and no more than one independent readings course is allowed. Minor fields and specializations are offered in all of the preceding fields and additionally in Latin American history, world history, public history, archival studies, and other fields as approved by the department graduate committee. Students must have World History as either the breadth field or one of the minor fields. As part of this requirement, they will take at least one seminar that addresses current debates in the field of World History, for example, HIST 7690 Seminar in Modern World History. Other courses may focus more narrowly on some aspect of non-European, non-United States history. With the approval of the GPO and committee members, a minor field or breadth field may be constructed in a discipline other than history.

To advance to candidacy, students must demonstrate excellence in their major field of history and competence in two minor fields of history on their general examinations through written and oral examinations. These examinations need to be successfully completed in the semester immediately following the completion of course work.

Within four months of successful completion of the oral examination, students present to the assembled dissertation committee a dissertation proposal for discussion and approval. Following a successful defense of the proposal, doctoral candidates have four years to present the written dissertation and defend it in an oral examination before their major professor and advisory committee. If the oral examination is judged unsatisfactory or not submitted in a timely manner, the general rules of the Graduate School on retests and extension will apply.

The PhD requires a reading knowledge of at least one foreign language as determined by the student’s doctoral committee. Language competency should be demonstrated before the student begins the fourth semester of the doctoral program.

Graduate Certificates in Archival Studies and Public History

In most circumstances, only students enrolled in a degree program in history or those who have completed an MA in History may enter the graduate certificate non-degree programs in history. However, applicants who have completed a master's degree in an allied field may be eligible for admission to the Graduate Certificate in Archival Studies or Public History.

Admission Requirements

If applicants are not simultaneously seeking to matriculate into the MA or PhD program, they must have a MA in History or a related field and a satisfactory score on the General Test of the GRE. Applications must be approved by the Archival Studies or Public History program officers and by the department's graduate committee.

Applicants will submit the following materials for consideration:

- Official transcripts from all undergraduate and graduate institutions
- Official scores from the General Test of the GRE sent from ETS
- A writing sample
- A statement of purpose
- An application for an assistantship (for those who wish to be considered for funding--note earlier application deadline for assistantships)
- Three confidential letters of recommendation

If applicants are not also seeking admission into the MA or PhD program, materials for admission to the Archival Studies or Public History Graduate Certificate programs may be submitted at any point during the academic year. The program officers and the department's graduate committee will determine the academic term of admission.

If applicants are also seeking admission to the MA or PhD program, applications for the graduate certificates should be received by March 15.
**Graduate Certificate in Public History**

Students who complete 12 required hours of public history coursework, 3 hours of public history internship (HIST 7910 Public History Internship), and a course in historical methods (HIST 7700 Seminar in Historical Methods) or equivalent are eligible to receive the Graduate Certificate in Public History.

**Graduate Certificate in Archival Studies**

Students completing 12 required hours of archival studies coursework, 3 hours of archival internship (HIST 7920 Archival Internship), and a course in historical methods (HIST 7700 Seminar in Historical Methods) or equivalent are eligible to receive the Graduate Certificate in Archival Studies.

Horticulture - MS, MAg, PhD

Program Degree:
- Horticulture - MS (p. 1337)
- Horticulture - MAg (p. 1337)
- Horticulture - PhD (p. 1337)

Graduate Certificate:
- Public Horticulture (p. 1337)

Graduate study in horticulture emphasizes the Master of Science and Doctor of Philosophy degrees. Graduates are prepared for careers in teaching, research, business, public horticulture or Cooperative Extension. Master-level programs are available to students with undergraduate degrees in horticulture and to those from other areas seeking opportunities in horticulture-related careers. For the MS program, students must have a bachelor’s degree in horticulture or a related area from an accredited university and meet specific departmental academic standards. Applicants from related areas will be required to correct any undergraduate course deficiencies. GRE test scores, GPA, letters of intent and reference, as well as other support material, will be considered in evaluating applicants. A GRE Analytical Writing Score of 3.0 or above is recommended. For applicants scoring less than 3.0 on the essay portion of the GRE, ENGL 3040 Technical Writing will be considered a deficiency course. An absolute requirement for admission is a faculty member willing to serve as the applicant’s advisor. The MS requires a minimum of 30 credit hours of graduate work, including at least 21 credit hours in the major field of study and six of which may be research & thesis hours (HORT 7990). The student’s plan of study is individually tailored by the student, the major professor and the advisory committee to meet the student’s career goals. A thesis based on research by the student is required. Students in the MS program in Horticulture who are on departmental funding cannot change to the Master of Agriculture program.

Admission requirements for the MAg program, a non-thesis degree, are the same as for the MS degree. The MAg requires successful completion of 32 credit hours, 21 of which must be in agricultural sciences. Credit for HORT 7990, Research and Thesis, cannot be counted toward graduation requirements for the MAg. Additional courses may be required for individual students as determined by the major professor and the advisory committee. There is no specific schedule of courses for MS or MAg students or a foreign language requirement for any graduate students in Horticulture. Students in this option must complete a research or special project and pass a comprehensive oral exam covering course work and the project.

Admission to the Doctor of Philosophy program requires the completion of a thesis-based degree and meeting the same requirements as for master-level programs. Doctoral candidates must follow all Graduate School and departmental requirements concerning course work. For the PhD, the Graduate School requires a minimum of 30 semester hours of graded (e.g. A, B, C) graduate course work (6000-level and above) beyond the bachelor’s degree, and at least 30 semester hours of additional graduate course work that may include un-graded courses, including 7990 and 8990. The advisory committee may require additional course work. Upon completion of all course work, PhD students may be required to take a general written examination by his/her committee. Students must pass all
parts of the written examination before scheduling the required preliminary oral examination (referred to as the PhD prelim exam). After satisfactory completion of the prelim exam the student advances to candidacy. The PhD student will conduct independent research and prepare a dissertation through the guidance and direction of an advisory committee. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

Several minors are available for horticulture graduate students. Auburn University’s Department of Horticulture and School of Forestry and Wildlife Sciences offer a minor in Urban Forestry. An interdisciplinary minor in Environmental Studies administered by the Crop, Soil and Environmental Sciences Department is also an option, as are minors in Ecology and Biochemistry and Cell/Molecular Biology. The department also offers a Graduate Certificate in Public Horticulture.

**Public Horticulture - Graduate Certificate**

This Graduate Certificate Program is designed to provide opportunities for those wishing to gain the theoretical knowledge and practical skills to connect traditional horticulture and public outreach. Career fields include working in public gardens, arboreta, university extension services, hospitality industry (resorts), zoos, and community gardens. Career practices include public garden administration, teaching, horticultural therapy, garden design and event planning. The curriculum includes courses that give students practical
experience with horticultural skills and garden management as well as exposure to top public gardens around the world through travel and internship experiences.

**Human Development and Family Studies - MS, PhD**

**Degree Program:**

- Human Development and Family Studies - MS (p. 1338)
- Human Development & Family Studies – Marriage and Family Therapy Option - MS (p. 1339)
- Human Development and Family Studies - PhD (p. 1339)

The Department of Human Development and Family Studies offers graduate instruction leading to the Master of Science in Human Development and Family Studies or Marriage and Family Therapy and the Doctor of Philosophy in Human Development and Family Studies. The Department emphasizes the integration of knowledge from various fields to prepare students for careers in research, teaching, and human service provision as well as education, policy, and industry. To promote training and research, the Department operates the Auburn University Early Learning Center, Harris Early Learning Center of Birmingham, and the Center for Marriage and Family Therapy. The marriage and family therapy option is accredited by the American Association for Marriage and Family Therapy Commission on Accreditation for Marriage and Family Therapy Education. Both the Auburn University Early Learning Center and Harris Early Learning Center of Birmingham are accredited by the National Academy of Early Childhood Programs, a division of the National Association for the Education of Young Children.

For admission, a background in the social and behavioral sciences is highly desirable and should include course work in human development, family relations, psychology and/or sociology, and statistics. There is no language requirement for the MS or PhD degrees. For more information about admissions, see [http://www.humsci.auburn.edu/hdfs/grad-admissions.php](http://www.humsci.auburn.edu/hdfs/grad-admissions.php).

The department offers two MS concentrations (a) human development and family studies and (b) marriage and family therapy. The human development and family studies concentration requires a minimum of 30 semester hours and the concentration in marriage and family therapy requires 52 semester hours. Both require a thesis, and other fundamental work. For more detail about degree requirements including required courses and all departmental policies, see [http://www.humsci.auburn.edu/hdfs/files/guidetogradprograms.pdf](http://www.humsci.auburn.edu/hdfs/files/guidetogradprograms.pdf), and [http://www.humsci.auburn.edu/hdfs/files/ms_web_procedural_guide.pdf](http://www.humsci.auburn.edu/hdfs/files/ms_web_procedural_guide.pdf).

The PhD program requires a minimum of 60 credit hours beyond the BS. This program requires course work with a theoretical and substantive emphasis in human development and relationships, a research and statistics component, and an empirical dissertation. For more detail about degree requirements including required courses and all departmental policies, see [http://www.humsci.auburn.edu/hdfs/files/guidetogradprograms.pdf](http://www.humsci.auburn.edu/hdfs/files/guidetogradprograms.pdf), and [http://www.humsci.auburn.edu/hdfs/files/phd_web_procedural_guide.pdf](http://www.humsci.auburn.edu/hdfs/files/phd_web_procedural_guide.pdf).

Graduate research may focus on human development and relationships or the application of research to improve quality of life at any stage of the life cycle. Competitive graduate assistantships are available to students.

### Industrial Design - MID

The school offers the master of industrial design degree accredited by the National Association of Schools of Art and Design (NASAD.) Applicants must have a bachelor’s degree in industrial design or equivalent from an institution of recognized standing. Those with baccalaureate degrees from other disciplines may be admitted to the graduate program under condition that a minimum of 43 post baccalaureate credit hours in industrial design be completed at the undergraduate level with a 3.0 GPA. Students without an undergraduate Industrial Design degree are admitted during the summer semester and awarded a bachelor of science in environmental design (NASAD accredited) upon completion of the three semester post baccalaureate program. Upon admission to the master’s program successful completion of 35 graduate level credit hours, including a thesis is required. A 40-credit hour non-thesis option is available. Minimum (4) credit hours of INDD 7990 Thesis is required but may not exceed six hours. Course content beyond the 17-credit hour core curriculum will be structured to accommodate the student’s area of interest. Completion of an industry collaboration studio (INDD 7910 Industry Practicum) is required. There is no language requirement. An external terminal document draft review and a 3.0 overall graduate GPA are required. Participation in school sponsored international travel programs may be used as credit towards graduation. Students are admitted only in the fall semester. Applications to the graduate program must be complete by 1 February.

All courses are (3) credits except Special Problems INDD 6960 (1-5) credits, Thesis Design INDD 7990 (1-5) credits and Industry Practicum INDD 7910 (5) credits. Thesis requires (35) credits minimum, four semesters, with no more than (6) credits taken in INDD 7990. Non-Thesis requires (40) credits minimum, four semesters with (3) credits taken in INDD 7980. It is required that MID students take no more than 12 graduate credits per semester (9 is full-time) and enter the program during fall semester. All thesis, non-thesis documentation drafts for the MID must be completed and submitted for final graduation review by the respective graduate committee the semester prior to the intended semester of graduation. A 3.0 GPA or above is required to qualify for graduation. Select INDD 6960 classes may be offered during the summer semester. Graduate students transferring from other INDD graduate programs will be reviewed for admission on a case by case basis but must complete all AU/MID Required Core Courses. The recommended enrollment in graduate classes is eight students. No more than 15 credits in INDD 6960 may be used toward graduation.

**Industrial and Systems Engineering - MISE, MISE/MBA, MS, PhD**

**Degree Programs:**

- Industrial and Systems Engineering - MISE (p. 1341)
The department offers the master of industrial and systems engineering, a joint program leading to both MISE and MBA degrees, the master of science and the doctor of philosophy. These programs are for students with undergraduate degrees in industrial engineering, other engineering disciplines, mathematics and sciences.

All applicants must submit Graduate Record Examination scores for the General Test except MISE/MBA applicants who may instead submit Graduate Management Admission Test scores.

Both the MISE and MS programs require a total of 31 hours of course work, which includes a one semester hour seminar class. The MISE is oriented toward professional practice. MISE students must take 9 semester hours of core courses, 12 hours of INSY electives and 9 hours of INSY-related electives. The MS has the same course requirements and hours except that 4-6 hours of thesis may be substituted for the same hours of elective courses.

The MISE/MBA is a 55-hour program administered jointly by ISE and the MBA program. The program saves the student six hours of course work over completing both degrees separately. For the MISE portion of the dual degree, the program consists of 9 semester hours of core courses, 12 hours of INSY electives and 6 hours of INSY-related electives. One semester hour of INSY graduate seminar is also required. For the MBA portion of the dual degree, there are seven core (BUSI) classes for 21 semester hours and an additional 2 classes of BUSI or related electives for six hours. For the MBA, students without two years full time work experience are required to do a 3-credit hour internship in place of one of the 3-hour BUSI or related electives. Students must apply separately to each program (MISE and MBA), but only have to pay one application fee.

Research involvement is the dominant element in the doctoral program. It provides a quality educational experience for selected individuals whose records indicate excellent potential not only for superior performance in course work, but also for the research and ensuing dissertation which is an original and scholarly contribution to the field. The PhD program requires at least 60 semester hours of coursework beyond the bachelors, including 9 semester hours of core courses. A minimum of one hour of graduate seminar is also required. The student must demonstrate a high level of proficiency in a specific area of industrial and systems engineering as well as a competence in the entire field. The degree usually requires at least one calendar year of research.

Total Hours 15
Information Systems Management

Degree Program:
- Information Systems Management - MS (p. 1235) (on-campus/full-time and online)
- Information Systems Management - PhD (p. 1234)

Graduate Certificate:
- Business Analytics (p. 1234)
- Management Information Systems (p. 1235)

The department offers graduate study leading to the master of science and the doctor of philosophy degrees in Information Systems Management. The program also offers a joint program leading to both the MSIS and MBA degrees. Applicants must hold a bachelor’s degree from a recognized institution. Graduates of business schools will likely have met this requirement; graduates of other programs may be required to complete additional courses to compensate for deficiencies.

Master of Science in Information Systems

The (MSIS) Program in Business is a non-thesis program that emphasizes practical application of management information systems to managerial problem solving and decision making. Students are required to complete a final project. The program is designed to provide students the opportunity to develop an expertise in a chosen area of management. Applicants to the master’s program must have completed an undergraduate degree. The MSIS program is offered as a traditional, on-campus program and as a online program. A twelve-hour graduate certificate is also available.

The MBA/MSIS is a 54-hour program administered jointly by the Aviation and Supply Chain faculty and the MBA program. The program saves the student fifteen hours of coursework over completing both degrees separately. For the MBA, students without two years full time work experience are required to do an additional 3-credit hour internship. Students must apply separately to each program (MISE and MBA), but only have to pay one application fee. Students can also opt to apply for the second degree program during their first year in the other program.

The PhD program in Business with Information Systems Management Concentration prepares graduates to conduct high-quality research in universities, colleges, government and business. Individual flexibility is provided in a program of study that develops the conceptual and methodological skills that graduates need to establish a leadership position in their chosen fields. Objectives of the program are accomplished through the completion of a formal program of study, successful completion of a statistics core, preparation and completion of two examination manuscripts, and dissertation research. Students with assistantships may also be required to teach. Students are expected to have a fulltime presence on campus. Applications to the PhD program must complete an Auburn University Graduate School application. For full consideration, applications must be received no later than February 1, prior to the Fall term.

Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

Integrated Design & Construction - MIDC

The Master of Integrated Design & Construction program at Auburn University is designed to prepare graduates for success in a rapidly shifting industry and to prepare students who will be the professionals leading the future evolution of design and construction. In the U.S., these industries are experiencing significant changes in the relationship between their respective professionals and the delivery systems they employ. Through a variety of models, these formerly fragmented professions are crafting new ways of working together and exploiting new technologies to create more efficient, economical, and sustainable projects in the built environment.

Historically, architecture and construction management students have been trained in separated academic environments that did not capitalize on opportunities to work collaboratively. The Master of Integrated Design & Construction program at Auburn University seeks graduate students from the design, engineering, construction, and civil engineering disciplines who will embrace teamwork, collaboration, and empathy within the differing disciplinary roles and responsibilities. Commensurate with its mission, interdisciplinary courses are offered in lecture, seminar and studio formats. The program is three semesters (Fall-Spring-Summer), after which successful candidates would be awarded the Master of Integrated Design & Construction degree.

Interested students should complete an on-line application through the Graduate School, and have transcripts sent directly to the university from all undergraduate institutions attended. The GRE is not required for this program. Applicants should also send the following directly to the program, whose address is on the MIDC website:
The 36 credit-hour program, jointly housed in the School of Architecture and the McWhorter School of Building Science, features a focus that is unique. Through current models of professional practice, it delivers the development and study of high performance projects in the built environment via a dynamically collaborative and integrated framework. Among other tools, the program will capitalize on a new generation of digital resources such as BIM, parametric modeling, web-based shared work environments, and other innovations to facilitate collaboration.

Students take required 3-credit courses INDC 6510, 6640, 7650, 7550, the 1-credit lab INDC 7551, and also the 7-credit studios 6610 and 7630, 6-credit studio 6620, as well as one additional 3-credit graduate elective.

For more information, see the program’s web site at www.cadc.auburn.edu/midc.

Kinesiology - MS, PhD

Degree Programs

- Exercise Science (p. 1346)
- Physical Activity and Health (p. 1346)
- Physical Education/Teacher Education (p. 1346)
- Kinesiology (p. 1347)

Graduate Certificate

- Movement Skill Analysis (p. 1348)

Graduate Minor

- Sport Management (p. 1314)

The School of Kinesiology offers graduate degree programs leading to the master of science (non-thesis and thesis options) and doctor of philosophy. Offerings also include a graduate certificate and a graduate minor. The school’s advanced programs prepare students for careers in sport performance and health optimization, program management in clinical and corporate fitness settings, the fitness and sport-related industry, and teaching and research in educational settings.

Master’s Degree Programs (MS)

Master’s programs are offered in exercise science, physical activity and health, and physical education/teacher education. Specialized areas of study include athletic training (post-certification), biomechanics, exercise physiology, physical activity and health, motor neuroscience, and pedagogy.

Applicants to MS programs must satisfy the Graduate School’s admission requirements. School of Kinesiology admission requirements include a bachelor’s degree from an accredited college or university, academic good standing at the institution last attended, an undergraduate minimum GPA of 2.75, competitive GRE scores, letters of recommendation, and School approval. For admission to
the MS in physical education/teacher education, the undergraduate GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses; alternatively, a minimum GPA of 3.0 in a master’s of higher degree program may be used for admission.

MS programs in physical education/teacher education include alternative certification and traditional certification programs. The alternative MS certification program offers qualified students who hold non-teaching baccalaureate degrees a route to initial teacher certification while simultaneously earning a master’s degree; the traditional MS certification program offers advanced study for individuals who hold a valid bachelor’s-level professional educator certificate in physical education/teacher education. Applicants to the alternative MS certification program in physical education/teacher education must submit a clear background check and satisfy the State’s teaching field admission requirements; applicants to the traditional MS certification program in physical education/teacher education must submit a clear background check and hold a valid bachelor’s-level professional educator certificate in physical education. Both certification programs are approved by the Alabama State Board of Education (ALSBE). The College of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE).

Degree requirements for all master’s programs include a minimum of 33 hours. All non-thesis master’s degrees require a written comprehensive exam. Additional degree requirements for the alternative MS certification program in physical education/teacher education are in compliance with regulations established by the Alabama State Board of Education. These requirements include a semester long, full-time internship and satisfactory completion of the State’s testing program which consists of a passing score on each of the Basic Skills Assessments (Applied Mathematics, Reading for Information, and Writing) and a passing score on the appropriate Praxis II subject assessments. In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet master’s-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.25 will be required on all courses used to meet master’s-level certification program requirements.

Doctor of Philosophy Degree Program (PhD)

Applicants to the School of Kinesiology’s PhD program must satisfy the Graduate School’s admission requirements. School of Kinesiology admission requirements include competitive GRE scores, current resume, statement of purpose (including research focus), letters of recommendation, and approval by the school.

The PhD program requires a minimum of 80 semester hours beyond the bachelor’s degree. Research methods and statistics are components of all doctoral programs. The remaining hours are divided between the area of specialization and approved support courses. After satisfactory completion of coursework and a general written and oral examination, the student advances to candidacy. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation.

Specialized areas of doctoral study include biomechanics, exercise physiology, motor neuroscience, motor development, sport and exercise psychology, motor learning and control, physical activity and health, and teaching and research in physical education.

Master’s- and Specialist-Level Certification

Individuals completing the State-approved MS certification programs in physical education/teacher education are eligible to apply for Alabama Class A certification. A State-approved specialist level non-degree program is available for PhD students who hold a valid master’s-level professional educator certificate in physical education/teacher education. Individuals completing this program are eligible to apply for Alabama Class AA certification. In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.25 is required on all courses used to meet specialist-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.50 will be required on all courses used to meet specialist-level certification program requirements.

Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

Graduate Minor and Graduate Certificate

The School of Kinesiology in collaboration with the Department of Educational Foundations, Leadership and Technology offers a graduate minor in sport management. In addition, the School of Kinesiology offers a graduate certificate in movement skill analysis.

Additional Information

Detailed admission requirements for the school’s multiple areas of graduate study are available on the College of Education’s website, Academics (http://www.education.auburn.edu/academics) (http://www.education.auburn.edu/academics).
The University schedule of courses is available on the University website.

Landscape Architecture - MLA

The School of Architecture, Planning and Landscape Architecture offers the Master of Landscape Architecture (MLA). This is a first professional degree program accredited by the American Society of Landscape Architects. The MLA consists of 96 credit hours delivered over six consecutive semesters, which include Summer as a full teaching semester. Students with undergraduate degrees in disciplines other than landscape architecture enter in the Summer semester and graduate two years later. The program accepts and encourages applicants from a wide range of disciplines in the humanities, the sciences and the arts. Students who have an undergraduate degree in landscape architecture can complete the Master of Landscape Architecture in five semesters, by application, through Advanced Placement – just under two years of full time study. Advanced Placement is not automatic, but based on portfolio and academic merit. Successful applicants for Advanced Placement enter in the Fall semester. Students who are currently in the Auburn University pre-landscape architecture programs [Bachelor of Horticulture and Bachelor of Environmental Design] complete their undergraduate degrees as the first year of the MLA. These applicants should contact the Program Chair or the Program Administrator for more information. Pre-landscape architecture students enter in the Summer semester.

Prospective students apply for admission online to the Graduate School. The Graduate Record Examination is not a requirement; however, the Admissions Committee will require the undergraduate record, three letters of recommendation, a 500 word statement of intent and, in the case of applicants for Advanced Placement, a portfolio of work. Applicants may apply for the Concurrent Degree in Landscape Architecture and Community Planning. This is a course of study that enables students to graduate with degrees in both disciplines by completing one semester less than if both degrees were undertaken separately. Application is through the Program Chair.

The program is a studio design-based course of study that incorporates learning from across the disciplines of art, architecture, urban design, ecology, information technology and the natural sciences. The program studies regional and urban landscape systems through the relationships between human dwelling and natural systems. Graduates will be prepared to take action in rebuilding urban landscapes, reconnecting fractured ecosystems, and regenerating human and nonhuman habitats.

Each semester consists of 16 credit hours, including six credit hours of studio. In their final year of study students engage a self-directed design research thesis that extends their skills in a self-directed project of their own choosing. Students must also be prepared to undertake numerous field studies in a variety of locations that can involve interstate visits and several days away from Auburn University. A Study Abroad option is available in the second summer. All field trips and Study Abroad incur extra costs.

The Master of Landscape Architecture offers a limited number of Graduate Assistantships each year. GA positions are highly competitive, and applications exceed availability. The assistantships are awarded on the basis of merit. Students who wish to apply for
an assistantship must do so when they send their materials to the Program Chair. There is no form for this - a covering letter will suffice. When assessing the merit of applications for research assistantships, faculty review the following:

- Academic transcript
- GPA
- Portfolio
- Statement of intent.

Applicants who can attend the Master of Landscape Architecture only if they receive an assistantship should make this clear to the Program Chair on application. As a rule Graduate Assistantships involve working with faculty on research projects. A wide range of tasks is expected to be performed to a high standard. Punctuality, timeliness and cordiality are strict requirements. Graduate Assistantships provide a tuition waiver and a monthly stipend. The tuition waiver applies to in-state and out-of-state students alike, and covers the tuition fee for each semester that the student is a GRA. Students who are appointed as GAs are required to pay the Professional Fee. Assistantships are awarded on a semester basis (and they are not available in the first summer) and there is no guarantee that recipients will receive a continuance of their assistantship. Reappointment will be made on the basis of students having:

- Maintained a high work standard
- Completed all their coursework and assignments satisfactorily
- Performed well for the faculty member to which they have been assigned.

Any questions about assistantships should be directed to the Program Chair. The Master of Landscape Architecture does not currently offer scholarships.

All students who enter the MLA must ensure that they have a their own laptop computer that conforms to the requirements set out on the Landscape Architecture page of the College of Architecture Design and Planning website.

Management - PhD

Degree Programs:

- Business Management Concentration (PhD (p. 1350))

The Doctor of Philosophy in Business with a concentration in Management prepares students for careers in research and teaching. It provides the depth of knowledge and skills required to conduct first-rate research in the field, effectively analyze that research, and present those findings in world-class scholarly presentations and publications.

The Ph.D. in Business - Management, provides students with the opportunity to develop expertise in all phases of the process of change in organizations. The program emphasizes diagnosing organizational problems and implementing interventions to improve performance.

The Ph.D. in Business - Management is a four year, full-time program. The bulk of coursework is completed in the first two years. The third year is devoted to two required research papers. The fourth year is spent on dissertation research. Completion of the dissertation and its defense is the last requirement for completion of the degree. Students with assistantships may also be required to teach. Students are expected to have a full-time presence on campus.

Applicants to the program must hold a bachelor's degree from a recognized institution, complete a Graduate School application including submitting GMAT (preferred) or GRE scores. For full considerations, applications must be received no later than February 1, prior to the Fall term.

Information concerning specific program requirements may be obtained by visiting www.harbert.auburn.edu.

</tbody>
</table>

The PhD in Business requires 60 semester hours earned through instruction beyond the bachelor's degree, including 1) a minimum of 30 semester hours graded (e.g., A, B) graduate course work (6000-level and above); and 2) a minimum of 30 semester hours of additional graduate course work (6000-level and above) that may include ungraded courses, 7990 and 8990, and must include at least 10 hours of 8990. Up to 30 hours (if less than half of the total number of hours) of applicable master's level course work may be used to satisfy part of these requirements with advisor approval.

The total number of credit hours that may be transferred from another accredited institution toward a doctoral degree varies by program but must be less than 50 percent of the credit hours listed on the Plan of Study. Such transfer credit 1) must fall within the time limits of the degree; and 2) must be approved by the advisory committee and the dean of the Graduate School. A maximum of four hours of 7990 (Research and Thesis) from a completed master's program may be counted.

All doctoral students must complete a minimum of 10 hours of MNGT 8990. Enrollment in MNGT 8990 may take place at any time the student and the advisory committee deem appropriate. During any one semester, the number of hours of 8990 in which the student
enrolls should reflect the amount of instructional time being spent on the dissertation and the degree to which university resources are being utilized. Students may enroll, during any one semester, for as few as one hour or as many as 16 hours of 8990. Dissertation students submitting their dissertation, awaiting committee review and approval, or taking their final examination must register for 8990 Research and Dissertation in the semester(s) when these steps in the process take place. The requisite 10 hours of 8990 should be included in the Plan of Study. No grade is assigned.

Master of Accountancy (MAcc), Graduate Certificate

Degree Program:
• MAcc (p. 1351)

Graduate Certificate:
• Accountancy (p. 1352)

Master of Accountancy (Campus or Online Options)
The Master of Accountancy (MAcc) is a professional non-thesis degree program requiring 30 semester hours and a three day residency. The program provides students additional technical skills, research and communication skills, as well as focused preparation on passing the Uniform CPA examination. During spring semester, campus students enroll in six hours of coursework and the Auburn Becker CPA Review Course. Before graduation, campus students sit for all four parts of the CPA exam resulting in outstanding first time candidate CPA exam pass rates.

The degree may be earned as a traditional, campus student or through the online option. Campus classes are recorded and streamed to online students. Therefore, online students receive the same lectures and AACSB accredited degree as their campus peers. The online option is identical to the campus option regarding rigor, standards, and student accountability. The campus option may be completed in three semesters while the online option may be completed in five semesters for students who are working full-time. Students working full-time may take only two classes per semester.

Graduate Certificate in Accountancy (Online Option)
The online Graduate Certificate in Accountancy (GCA) is an 18 semester hour non-degree seeking program offering MAcc coursework to working professionals who desire to meet one or more of the following goals:

• Gain credentials to teach at collegiate level
• Matriculate to MAcc with only four courses remaining
• Enroll in graduate program without GMAT
• Enjoy flexibility and convenience of online program
• Take classes required for CPA exam and certification
• Update and expand accounting knowledge and skills
• Enroll in a U.S. News & World Report top online graduate program

To be considered for admission to the GCA, a candidate’s academic credentials and work experience must be competitive for admission to the online MAcc, excluding the GMAT. We do not advertise minimum GPA requirements, because the Admissions Committee uses a holistic approach when reviewing a candidate's application package. The Committee places high emphasis on the quality of a candidate's academic background, overall and accounting grade point averages, and work experience. The GCA may be completed in three semesters for students who are working full-time. Students working full-time may take only two classes per semester. While enrolled in the last semester of the GCA, students who have performed well in the program may apply to the online MAcc and have only four additional courses remaining to complete the Master of Accounting degree. Due to federal guidelines and regulations, Graduate Certificate programs do not qualify for financial aid.

For admission to the MAcc or GCA, students must have a four year accredited undergraduate business degree and a concentration in accounting. Criteria for admission and degree requirements are established by the School of Accountancy. For more information, please visit www.harbert.auburn.edu or contact the Director of Accounting Graduate Programs at amy.murphy@auburn.edu or (334) 844-6118.

Materials Engineering - MMtIE, MS, PhD

Degree Programs:
- Materials Engineering - MMtIE (p. 1353)
- Materials Engineering - MS (p. 1353)
- Materials Engineering - PhD (p. 1353)

Materials Engineering offers graduate programs of instruction and research leading to the degrees of master of materials engineering (MMtIE), master of science (MS) and doctor of philosophy (PhD). All applicants must submit GRE scores for the General Test. Students completing all degree programs are expected to have knowledge in the following areas: mechanical properties; materials structure; materials thermodynamics; kinetics; and electrical, optical and magnetic properties of materials. There are no foreign language or minor requirements for Materials Engineering graduate degrees. All students must submit an approved plan of study within one year of matriculating in the program.

The MMtIE is intended for those who expect to enter the engineering profession at an advanced level or are practicing engineers wishing to gain additional fundamental knowledge in the field of materials. Those students lacking the necessary background may be
required to take additional course work. The requirements for the degree are 33 credit hours including a final engineering report. The topic of the report will be agreed upon by the student and the advisory committee. Applicants must have a baccalaureate degree in engineering or science from an institution of recognized standing. Students must pass a qualifying examination prior to taking the final general comprehensive examination required by the Graduate School.

The MS is intended for those who seek advanced knowledge in materials science or engineering for a career in research or other professional practice. The applicant must have a baccalaureate degree or its equivalent in an engineering or scientific discipline from an institution of recognized standing. Those lacking the necessary background will be required to take additional course work to ensure the continuity of their educational and professional experience. The MS program consists of 30 credit hours selected from areas of study appropriate to the objectives of the applicant and includes a thesis. Students must pass a qualifying examination prior to taking the final comprehensive examination required by the Graduate School. The PhD program requires that students pass qualifying examinations (oral and written) with a greater proficiency than master’s students prior to taking the comprehensive examinations. The program is arranged on an individual basis with the student’s advisory committee and in accordance with Graduate School guidelines. Students admitted to the doctoral program are required to take the general comprehensive examination based on a research proposal developed by the student within two years after entering the program. The student should be prepared to be examined in all areas of materials engineering.

**Mathematics and Statistics - MS, MAM, MPS, PhD**

**Degree Programs:**

- Applied Mathematics Non-Thesis - MAM (p. 1354)
- Mathematics Option Thesis - MS (p. 1354)
- Mathematics - PhD (p. 1355)
- Statistical Option Thesis - MS (p. 1355)
- Probability and Statistics Non-Thesis - MProbS (p. 1355)
The Department of Mathematics and Statistics offers programs leading to the master of science and doctor of philosophy in both pure and applied mathematics and statistics, the non-thesis master of applied mathematics, and the master of probability and statistics (also see Statistics). In addition, the department regularly offers actuarial science courses that are approved by both the Society of Actuaries and the Casualty Actuarial Society; they are designed to provide the background and material covered in the first three actuarial exams.

The master of applied mathematics gives students a strong foundation in one of several fundamental areas of applied mathematics. It is a flexible degree with courses being chosen in conjunction with the advisory committee, some of which may be relevant courses offered by other departments. The master of probability and statistics and the master of science in statistics degrees provide a solid foundation for careers involving applications of statistics. The master of science degree in mathematics develops both content knowledge of the student though coursework, and provides the opportunity to delve deeper into an area of mathematics through the writing of a thesis. The PhD is designed to give students a thorough understanding of a broad body of knowledge related to their field of study, as well as to develop their research capabilities. PhD students are required to pass one oral and three written preliminary examinations. A statistics concentration is available for the PhD degree (see Statistics).

The internationally known faculty of around 50 professors works in areas of algebra, analysis, applied mathematics, discrete mathematics, geometry, linear algebra, logic, numerical analysis, partial differential equations, probability, set theory, statistics and topology. Some professors maintain applied research programs associated with several government and industrial laboratories, and one holds the Associate of the Society of Actuaries designation.

Admission to the program is based on a student's undergraduate record, three letters of recommendation from former teachers, GRE scores and graduate GPA (for doctoral students). The GRE subject test is not required. A bachelor's degree in mathematics is not required, but students without such a background may be expected to take additional courses to make up deficiencies. The department follows the guidelines for graduate degrees set forth in this Bulletin. Doctoral students must satisfy the departmental preliminary examination requirement to continue their teaching assistantship. Course work in mathematics may be transferred from other institutions, subject to university limitations. (See http://www.math.auburn.edu/.)

Most students in the program are supported financially during their studies through Graduate Teaching Assistantships and through tuition waivers given to all teaching assistants (with some restrictions). The Baskervill, Fitzpatrick, and Haynesworth Fellowships (around $5,000 each) are awarded annually to qualified students in the Department of Mathematics and Statistics. The department occasionally has Graduate Research Assistantships available in conjunction with departmental contractual research programs. The department requires that all international GTAs who have responsibility for teaching a class be proficient in English, passing the test of spoken English.

### Mechanical Engineering - MS, PhD

#### Degree Programs:
- Mechanical Engineering - MS (p. 1356)
- Mechanical Engineering - PhD (p. 1356)

The Mechanical Engineering Department offers graduate programs of instruction and research leading to the degrees of master of science (thesis and non-thesis options), and doctor of philosophy. Educational and research facilities are available to support graduate study in solid mechanics, experimental mechanics, electronic packaging and reliability, fracture and failure mechanics, robotics, vibrations, controls, dynamical systems, engineering design, manufacturing, friction-lubrication-wear, engineering acoustics, computer-aided design, fluid dynamics, transportation systems, conventional and renewable energy systems, thermal/fluid sciences and nanotechnology applications. The applicant must hold a bachelor’s degree or its equivalent from an institution of recognized standing. If the applicant’s undergraduate degree is not closely related to mechanical engineering, an individualized plan of study will be developed to impart the critical skills inherent in the bachelor’s mechanical engineering program. This typically includes completing a prescribed number of core undergraduate mechanical engineering courses in addition to the graduate requirements. All applicants must submit Graduate Record Examination scores for the General Test and will be evaluated on an individual basis by the Mechanical Engineering Graduate Committee.

MS (Non-Thesis Option): This degree is intended for those applicants who expect to enter the engineering profession at an advanced level or those who are employed and seeking professional development. Requirements for the degree consist of completing 30 credit hours of 6000-7000 level courses. A minimum of 21 credit hours of graded course work should be in mechanical engineering. Substitution of courses from other engineering/science disciplines is permitted with prior approval when appropriate courses are unavailable in mechanical engineering. A committee of three faculty members including a major professor will supervise the plan of study of each student. There is no faculty supervised project requirement.
MS (Thesis Option): This degree is intended for those applicants who expect to enter the engineering profession at an advanced level with some creative research experience. The MS applicant must have a baccalaureate or its equivalent in an engineering or scientific discipline from an institute of recognized standing. The degree requires 30 credit hours of 6000-7000 level courses including 6 credit hours of MECH 7990. A minimum of 21 credit hours of course work should be in mechanical engineering courses. Substitution of courses from other engineering/science disciplines is permitted with prior approval when appropriate courses are unavailable in mechanical engineering. All candidates must pass an oral defense of their written thesis including a comprehensive examination covering the major courses. A committee of at least three faculty members including the major professor will take part in evaluating the thesis.

Doctor of Philosophy (PhD): This degree provides for advanced coursework and emphasizes original, creative research. A dissertation embodying the results of this research represents a major portion of the requirements for this degree. The PhD program will consist of a minimum of 60 credit hours, including dissertation, beyond the BS degree. PhD students will select their major courses from those at the 7000-8000-level unless there are special requirements for more basic courses. A minimum of 21 credit hours of graded course work should be in mechanical engineering courses. This amount could include up to 4 credit hours of MECH 7990 or equivalent. Substitution of courses from other engineering/science disciplines is permitted when appropriate courses are unavailable in mechanical engineering. The PhD also requires a coordinated minor of at least 9 credit hours of graded coursework in a closely related field such as mathematics, physics, chemistry, or other engineering disciplines. A minimum of 10 credit hours of MECH 8990 Research & Dissertation is also required. There is no language requirement for the PhD.

The General Doctoral Examination (Preliminary Examination) must be taken by those seeking a PhD. This examination, administered by the major professor in coordination with members of a committee of at least four faculty (including the major professor) consists of two parts: (1) a written Qualifying Examination based upon knowledge acquired from coursework, taken within four semesters from the date of entry, and (2) an oral examination which includes questions on knowledge acquired from coursework as well as a detailed presentation and defense by the student of his/her proposed dissertation research. All PhD candidates must also pass a Final Examination consisting of an oral defense of their written dissertation. A maximum of two attempts each is allowed for passing the General Doctoral Examination and the Final Examination.

**Pharmaceutical Sciences: Medicinal Chemistry Option - MS**

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.
The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000 - 8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below.

| PYPS 7990 Research and Thesis (total of 6 CR required) | 6 |

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000-8999) to reach the 30 hour degree requirement.

**Pharmaceutical Sciences: Medicinal Chemistry Option - PhD**

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor’s degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000 - 8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000 - 8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the
Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

### Scientific Communications (Six credits required)
- PYPC 8950 Seminar (may be repeated multiple times for credit)
- PYPS 8950 Seminar (may be repeated multiple times for credit)
- PYPS 7000 Introduction to Grant Writing

### Data Analyses and Interpretation (Six credits required)
- ERMA 7300/7306 Design and Analysis in Education I
- ERMA 7310/7316 Design and Analysis in Education II
- MNGT 8400 Advanced Quantitative Methods for Management I
- PYPS 7010 Pharmacokinetics
- PYPS 7030 Drug Products and Biopharmaceutics
- PYPS 7230 Advanced Medicinal Chemistry I
- PYPS 7240 Advanced Medicinal Chemistry II
- PYPS 7340 Organ Systems Pharmacology I
- PYPS 7350 Organ Systems Pharmacology II
- PYPS 7360 Cellular & Molecular Pharmacology & Toxicology I
- PYPS 7370 Cellular & Molecular Pharmacology & Toxicology II
- STAT 7000 Experimental Statistics I
- STAT 7010 Experimental Statistics II

### Experimental Design (Six credits required)
- PYPC 8990 Research and Dissertation
- PYPS 8990 Research and Dissertation

Option specific requirements for PhD students pursuing the Medicinal Chemistry option include:

- CHEM 7200 Advanced Organic Chemistry I
- CHEM 7220 Advanced Organic Chemistry III
- PYPS 7230 Advanced Medicinal Chemistry I
- PYPS 7240 Advanced Medicinal Chemistry II
- PYPS 7250 Drug Action and Design
- PYPS 7260 Separation Science
- PYPS 7270 Mass Spectrometry of Organic Compounds
- PYPS 7600 Heterocyclic Medicinal Chemistry
- PYPC 8950 Seminar (may be repeated multiple times for credit)
- PYPC 8990 Research and Dissertation (total of 10 CR required)

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000-8999) to reach the 60 hour degree requirement.

**Natural Resources - MNR, MS**

**Program Degrees:**
- Natural Resources - MNR (p. 1359)
- Natural Resources - MS (p. 1359)

Graduate study in natural resources leads to the Master of Natural Resources (MNR), or Master of Science (MS) degrees. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the School of Forestry and Wildlife Sciences based on an examination of their scores on the Graduate Record Examination (GRE), TOEFL tests for international students, their previous academic record, experience, and recommendations. While exceptions
may be made, the faculty generally expect a minimum GPA of 3.0 in previous academic course work and minimum scores both verbal and quantitative in the 50 percentile range for the GRE. Course deficiencies are identified by the student’s advisory committee and approved by the GPO with due consideration for the student’s previous training and experience.

Degrees offered:

• **Master of Natural Resources** - The MNR is a non-thesis degree. Three options are available.
  
  - *Natural Resource Management* option is available for individuals with a biologically related baccalaureate degree who are interested in careers in the management and policy making for our natural resources. This option can be completed in 3-4 semesters depending upon coursework selected and requires a minimum of 36 semester hours of graduate courses.
  
  - *Advanced Forestry Studies* for students with undergraduate degrees in forestry. It will also involve primarily advanced course work and can be completed in 3-4 semesters. This option requires a minimum of 36 semester hours of graduate courses.
  
  - *Professional Forester* option for individuals with baccalaureate degrees in fields other than forestry and who are interested in becoming Registered Foresters in Alabama. This option is a two-year program which begins with a 10 week summer Field Practicum and requires a minimum of 70 semester hours (34 hours of specified undergraduate course work plus 36 hours of graduate course work).
  
• Requirements for all three MNR options include a MNR paper (FORY 7980), Graduate Seminar (FOWS 7950). All MNR students are required to pass a comprehensive oral examination conducted by their Graduate Committee.

• **Master of Science (MS)** A research proposal and thesis based on original research are major components of the MS degree. The program normally requires 2 – 3 years for completion. The MS degree program requires a minimum of 30 hours beyond the bachelor degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (FORY 7990) is required. All MS students are required to take Research Methods (FORY 7510), Seminar (FOWS 7950), and Research and Thesis (FORY 7990).

### Nursing - MSN

**Program Degrees:**

- Nursing - MSN (p. 976)
- Primary Care Practitioner Option - MSN (p. 976)
- Nursing Education Option - MSN (p. 976)

The School of Nursing offers a MSN program jointly with Auburn University Montgomery. Graduates are ready to lead in educator and advanced practice nurse roles in health-related services to diverse populations. The MSN Program currently has four program options: Nurse Educator (33 credit/semester hours), Primary Care Nurse Practitioner (43 credit/semester hours), Nursing Informatics (30 credit/semesters hours), and Nursing Health System Leader/Nurse Educator (Dual) (45 credit/semester hours). All formal program options share a 24-credit/semester hour core and then courses specific to each program option. The program is offered via a hybrid
format where a few on campus course meetings may be held over the semester. Courses meetings may be held either at AU or AUM depending on the pre-published schedule for that particular semester. The program does not require a thesis. Students are required to complete a capstone paper, generally a plan for an evidence-based intervention either in the educational setting or in the primary care practice setting.

Admission to all formal program options is competitive and all qualified applicants may not be admitted. Schools of Nursing Admission Minimum Requirements include:

- A bachelor of science in nursing from an accredited college or university
- Good academic standing from the last university attended
- Overall GPA of 3.0
- Unencumbered RN License. Students completing a BSN Program during the semester of application must request a waiver from the admission committee in order for the application to be considered.
- Three Professional References
- 500-word Professional Goal Statement. This statement will include: reasons for pursuing this degree and program option, past experiences, career goals and past achievements.
- Successful completion of undergraduate statistics course.

Applicants may be asked by the School of Nursing for additional information and may be required to interview with the Director of the MSN Program, the MSN admission committee, and/or graduate faculty.

Full-time admission is available in the summer semester only and part-time admission is available, summer, fall, and spring if space is available. It is unlikely due to scheduling of courses and prerequisites that students admitted part-time can move to full-time status. Courses are offered only one time per each academic year so changing programs of study from full to part-time may impact planned graduation dates. Application deadlines are: (1) Summer Semester- March 1, (2) Fall Semester- June 1, and (3) Spring Semester-October 1. The application is completed online and may be found on the Auburn University Graduate School webpage.

### Nutrition - MS, PhD

- MS Nutrition (p. 1365)
- PhD Nutrition (p. 1367)
- MS Nutrition with an option in Hotel and Restaurant Management (p. 1366)
- PhD Nutrition with an option in Hotel and Restaurant Management (p. 1368)

The Department of Nutrition, Dietetics, and Hospitality Management offers graduate study leading to the Master of Science (MS) and the Doctor of Philosophy (PhD) degrees in nutrition or with an option in hotel and restaurant management. The combination of these areas within a single department facilitates integrative studies addressing normal and clinical nutrition, food and health issues, food service, as well as hospitality management. For the MS degree, the student may specialize in general, community, clinical or sports nutrition, food service management, or hotel and restaurant management. The department emphasizes the integration of knowledge from various fields for the purpose of understanding and developing professional skills for careers in higher education, government, and food, healthcare and hospitality industries.

For admission to the MS or PhD programs, the student must have a bachelor’s degree from an accredited institution, a satisfactory GPA, a satisfactory GRE score (a GMAT score may substitute for the GRE score for the hotel and restaurant management emphasis), and acceptable undergraduate academic preparation. The admission committee will evaluate all application items, including transcripts, GRE/GMAT scores, letters of recommendation, a statement of intent, and resume. International applicants are also required to submit satisfactory TOEFL scores. Applicants lacking background requirements in chemistry and anatomy and physiology for the nutrition program must make up deficiencies prior to starting the program.

The **MS degree** with a thesis track requires a minimum of 30 semester hours and a thesis. The MS degree with the nonthesis track requires a minimum of 33 semester hours and a scholarly research project.

Required courses for the thesis track in nutrition include:
The non-thesis track in Nutrition is available through both distance education and on campus. Required courses for the non-thesis track in nutrition include:

- **NTRI 7500/7506** Minerals 3
- **NTRI 7510/7516** Vitamins 3
- **NTRI 7520/7526** Macronutrients: Integration and Metabolism 4
- **NTRI 7530/7536** Human Nutrient Metabolism 4
- **ERMA 7300/7306** Design and Analysis in Education I 3-4
  or **STAT 7000** Experimental Statistics I
- **NTRI 7050/7056** Methods Of Research 2
- **NTRI 7850/7856** Research Seminar for Master’s Program 1
- **NTRI 7980/7986** Nonthesis Research (minimum of 5 hours) 1-6

Elective Graduate Level Courses 5

The M.S. in Nutrition (Non-Thesis) with ISPP Experience offers a minimum of 1200 hours of supervised field experience in conjunction with the M.S. degree to enable baccalaureate degree graduates of Didactic Programs in Dietetics (DPDs) the opportunity to fulfill the experiential requirements to sit for the Registration Examination for Dietitians. The ISPP Experience is offered to students who applied but were not matched to a dietetic internship. Students complete 9-credit hours of field experience taking NTRI 7016 Advanced Practicum in Dietetics as the elective courses for the non-thesis option. Academic coursework is completed over the first year, followed by the field experience. Supervised practice will occur in various settings, including acute and critical care, outpatient, long-term care, wellness, public health, community, school foodservice, and other professional settings. The Auburn University ISPP Experience emphasis is in Clinical Nutrition. The supervised practice is completed regionally in Alabama and Georgia (within an approximate 60 mile radius) or may be arranged via distance at student-coordinated sites subject to approval by the ISPP coordinator. Graduates who successfully complete the Auburn University M.S. in Nutrition with ISPP Experience will be eligible to take the Registration Examination for Dietitians.

Examples of elective courses for the MS in nutrition may include:

- **NTRI 6820/6826** Nutrition In The Life Cycle 3
- **NTRI 6560** Nutrition and Food Service Management 3
- **NTRI 6020** Medical Nutrition I 4
- **NTRI 6030** Medical Nutrition II 4
- **NTRI 6620** Sports Nutrition 3
- **KINE 7680** Advanced Physiology of Exercise I 3
- **KINE 7700** Advanced Physiology of Exercise II 3
- **KINE 8780** Biochemistry of Exercise 3
- **KINE 6500** Exercise Technology I: Principles of Exercise Testing and Interpretation 4
- **KINE 6550** Exercise Technology II: Applied Exercise Testing and Interpretation 4
- **KINE 6400** Exercise Prescription for Normal and Special Populations 3
- **KINE 7750** Advanced Sport Psychology 3
- **VBMS 7070** Endocrinology 4
- **BIOL 6220** Introductory Molecular Genetics 3
Required courses for the thesis track with an option in hotel and restaurant management include:

- NTRI 7050  Methods Of Research  2
- NTRI 7850  Research Seminar for Master's Program  1
- NTRI 7990  Research And Thesis  Minimum of 5

HRMT 6530  Science of Quality Service in Hospitality  3
HRMT 6570  Global Hospitality  3
HRMT 7000  Hospitality Enterprise  3
HRMT 7010  Advanced Tourism Analysis  3
HRMT 8860  Current Issues in Hospitality Management  3
ERMA 7300  Design and Analysis in Education I  3

Elective Courses  Minimum of 4

Examples of elective courses for the MS with an option in hotel and restaurant management may include:

HRMT 6460  Catering And Event Management (Fall-1 hr. and Spring Semester-2 hrs.)  1
HRMT 6461  Catering and Event Management  2
HRMT 6550  Club Management  3
HRMT 6540  Conference Coordination  3
NTRI 6380  Study/Travel in Nutrition, Dietetics and Hospitality Management  1-6
HRMT 7920  Prof Internship In Hrmt  3
HRMT 7106  The Business of Brewing  3
HRMT 7116  Brewing Materials  3
HRMT 7126  Science of Brewing I  3
PhD Degree

The PhD degree requires a minimum of 60 semester hours beyond the bachelor’s degree, a general doctoral examination with written and oral components, and a dissertation describing original research in the area of nutrition or hotel and restaurant management. The student becomes a candidate for the degree on successful completion of the general examinations. Course requirements for the PhD degree in nutrition are the same as for the corresponding Master’s degree or an equivalent course from another institution plus NTRI 8970, NTRI 8850, and NTRI 7280. Laboratories are available for human, animal, chemical, and physical research. Supporting courses to strengthen the nutrition major may be in, but not limited to, biochemistry, physiology, chemistry, animal science, kinesiology, education, and biostatistics.

Course requirements for the PhD degree with an option in hotel and restaurant management include:

- **HRMT specialization**: a minimum of 34 credit hours, including:
  - HRMT 6530  Science of Quality Service in Hospitality  3
  - HRMT 7000  Hospitality Enterprise  3
  - HRMT 7010  Advanced Tourism Analysis  3
  - HRMT 8860  Current Issues in Hospitality Management  3
  - HRMT 8870  Advanced Hospitality Management Research and Applications  3
  - HRMT 8880  Theoretical Developments for Hospitality  3
  - Graduate-level HRMT and/or related courses.

- **Research support**: a minimum of 16 credit hours, including:
  - NTRI 7050  Methods Of Research  2
  - NTRI 8850  Research Seminar for Doctoral Program  2
  - ERMA 7300  Design and Analysis in Education I  3
  - ERMA 7310  Design and Analysis in Education II  3
  - Graduate-level research/statistics courses.

- **Dissertation**: a minimum of 10 credit hours of NTRI 8990.

**Examples of HRMT Specialization Elective Courses:**

- HRMT 6460  Catering And Event Management (Fall-1 hr. and Spring Semester-2 hrs.)  1
- HRMT 6461  Catering and Event Management  2
- HRMT 6550  Club Management  3
- HRMT 6540  Conference Coordination  3
- NTRI 6380  Study/Travel in Nutrition, Dietetics and Hospitality Management  1-6
- HRMT 7920  Prof Internship In Hrmt  3
- HRMT 7106  The Business of Brewing  3
- HRMT 7116  Brewing Materials  3
- HRMT 7126  Science of Brewing I  3
- HRMT 7136  Science of Brewing 2  3
- HRMT 7146  Facilities and Operations  3
- HRMT 7916  Practicum in Brewing Science  1-3

The hotel and restaurant management option may take supporting courses in such areas as management, marketing, economics, and education. Course requirements for becoming a registered dietitian may be met during the graduate program by enrolling in additional required courses. Teaching, research, and extension assistantships are awarded competitively to qualified students.

Elective Graduate Level Courses

Examples of elective courses for the PhD degree in nutrition may include:

ADED 7060  Curriculum and Program Planning in Adult Education  3
ADED 7600  Nature of Adult Education  3
BCHE 7220  Principles of Cellular and Molecular Enzymology  3
BCHE 7280  Topics in Biochemistry  1-3
Biol 6190  Cell and Molecular Signal Transduction  3
Biol 6220  Introductory Molecular Genetics  3
Biol 6500  Immunology  3
Kine 6400  Exercise Prescription for Normal and Special Populations  3
Kine 6500  Exercise Technology I: Principles of Exercise Testing and Interpretation  4
Kine 6550  Exercise Technology II: Applied Exercise Testing and Interpretation  4
Kine 7680  Advanced Physiology of Exercise I  3
Kine 7700  Advanced Physiology of Exercise II  3

Vbms 7070  Endocrinology  4

PhD Nutrition with an option in Hotel and Restaurant Management

Course requirements for the PhD degree with an option in hotel and restaurant management include:

- HRMT specialization: a minimum of 34 credit hours, including:
  HRMT 6530  Science of Quality Service in Hospitality  3
  HRMT 7000  Hospitality Enterprise  3
  HRMT 7010  Advanced Tourism Analysis  3
  HRMT 8860  Current Issues in Hospitality Management  3
  HRMT 8870  Advanced Hospitality Management Research and Applications  3
  HRMT 8880  Theoretical Developments for Hospitality  3
  Graduate-level HRMT and/or related courses.

- Research support: a minimum of 16 credit hours, including:
  NTRI 7050  Methods Of Research  2

At least 16

1368  PhD Nutrition with an option in Hotel and Restaurant Management
Graduate-level research/statistics courses.

- Dissertation: a minimum of 10 credit hours of NTRI 8990.

Examples of HRMT Specialization Elective Courses:

The hotel and restaurant management option may take supporting courses in such areas as management, marketing, economics, and education. Course requirements for becoming a registered dietitian may be met during the graduate program by enrolling in additional required courses. Teaching, research, and extension assistantships are awarded competitively to qualified students.

**Pharmaceutical Sciences - MS, PhD**

**Degrees:**

- Pharmaceutical Sciences - Pharmaceutics Option (MS) (p. 1369)
- Pharmaceutical Sciences - Pharmaceutics Option (PhD) (p. 1370)
- Pharmaceutical Sciences - Health Outcomes Research and Policy Option (MS) (p. 1330)
- Pharmaceutical Sciences - Health Outcomes Research and Policy Option (PhD) (p. 1331)
- Pharmaceutical Sciences - Medicinal Chemistry Option (MS) (p. 1356)
- Pharmaceutical Sciences - Medicinal Chemistry Option (PhD) (p. 1357)
- Pharmaceutical Sciences - Pharmacology Option (MS) (p. 1371)
- Pharmaceutical Sciences - Pharmacology Option (PhD) (p. 1372)

**Pharmaceutical Sciences: Pharmaceutics Option - MS**

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The MS degree is offered under the thesis option. Students must earn a minimum of 30 semester hours of graduate courses (6000 - 8999). Thesis students register for Research and Thesis in semester(s) when working on the thesis, when submitting, defending or awaiting final approval of the thesis, and when taking final examinations. Candidates for the MS degree are required to prepare a thesis proposal and complete a proposal defense.

For the MS Program, students must complete a Core Curriculum outlined below.
Pharmaceutical Sciences: Pharmaceutics Option - PhD

Scientific Communications (Three credits required)  
PYPC 7950 Seminar (may be repeated multiple times for credit)  
PYPS 7000 Introduction to Grant Writing  
PYPS 7950 Seminar (may be repeated multiple times for credit)

Data Analyses and Interpretation (Three credits required)  
ERMA 7300 Design and Analysis in Education I  
or ERMA 7306 Design and Analysis in Education I  
PYPS 7010 Pharmacokinetics  
PYPS 7030 Drug Products and Biopharmaceutics  
PYPS 7230 Advanced Medicinal Chemistry I  
PYPS 7340 Organ Systems Pharmacology I  
PYPS 7360 Cellular & Molecular Pharmacology & Toxicology I  
STAT 7000 Experimental Statistics I

Experimental Design (Three credits required)  
PYPC 7990 Research and Thesis (may be repeated multiple times for credit)  
PYPS 7990 Research and Thesis (may be repeated multiple times for credit)

Option specific requirements for MS students pursuing the Pharmaceutics option (20 credits) include:  
PYPS 7010 Pharmacokinetics  
PYPS 7030 Drug Products and Biopharmaceutics  
PYPS 7950 Seminar (may be repeated multiple times for credit)  
PYPS 7990 Research and Thesis (total of 6 CR required)

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000-8999) to reach the 30 hour degree requirement.

Pharmaceutical Sciences: Pharmaceutics Option - PhD

The Auburn University Harrison School of Pharmacy offers interdisciplinary MS and PhD degree programs in Pharmaceutical Sciences. Those pursuing one of these degrees must select one of four curricular options: 1) Medicinal Chemistry, 2) Pharmaceutics, 3) Pharmacology, or 4) Health Outcomes Research and Policy.

The Medicinal Chemistry, Pharmaceutics and Pharmacology options are designed for students interested in the drug discovery or development processes, and are affiliated with the Department of Drug Discovery and Development. Areas of interest include neurodegenerative diseases, cardiovascular diseases, infectious diseases, cancer, diabetes and other metabolic diseases, synthetic organic chemistry, forensic analytical chemistry and drug delivery, disposition and formulation.

The Health Outcomes Research and Policy option is designed for students interested in studying healthcare delivery, medication use and outcomes. This option is affiliated with the Department of Health Outcomes Research and Policy.

Note that courses used to fulfill program core requirements may also be used to fulfill option specific requirements.

The PhD program requires a minimum of 60 semester hours earned through instruction beyond the bachelor’s degree including 1) a minimum of 30 semester hours graded (e.g. A, B) graduate course work (6000 - 8999); and 2) a minimum of 30 semester hours of additional graduate course work (6000 - 8999) that may include ungraded courses, and must include at least 10 hours of research and dissertation. A general examination, often called the preliminary examination, is required of all applicants for the degree of doctor of philosophy. It consists of written and oral testing. The student becomes a candidate for the degree upon successful completion of the general examination. Students working on the dissertation, submitting their dissertation or awaiting approval of their final examination must register for Research and Dissertation in the semester(s) when these steps occur. Candidates for the PhD degree must complete a dissertation proposal and successfully defend their proposal during the final examination.

For the PhD program, students must complete a core curriculum outlined below.

Scientific Communications (Six credits required)  
PYPC 8950 Seminar (may be repeated multiple times for credit)  
PYPS 8950 Seminar (may be repeated multiple times for credit)

- **PYPS 7370** Cellular & Molecular Pharmacology & Toxicology II 3
- **PYPS 8950** Seminar (may be repeated multiple times for credit) 1
- **PYPS 8990** Research and Dissertation (total of 10 CR required) 10

In addition to the specific core and option course requirements listed above, students must complete instructor approved graduate electives (6000-8999) to reach the 60 hour degree requirement.

### Physics - MS, PhD

**Degree Program:**

- Physics - MS (p. 1373)
- Physics - PhD (p. 1374)

The Department of Physics offers the doctor of philosophy degree to students who have achieved a mastery of the fundamental laws of nature and demonstrated the ability to complete a research project that results in new knowledge in physics. All students complete the basic graduate level courses in Classical Mechanics, Electricity and Magnetism, Quantum Mechanics and Statistical Physics. They demonstrate their mastery of these subjects by passing a General Doctoral Examination that has both a written and an oral component. To increase their knowledge of a broad range of advanced physics topics and to develop expertise in their chosen area of focus, students complete at least 12 additional hours of graded course work with a minimum of nine at the 8000-level. The research project is usually undertaken in one of the research focuses of the Department - plasma physics, condensed matter and surface physics, atomic and molecular physics, space physics, and computational physics. It is completed with the defense of the student’s dissertation. Students are also expected to publish their research in a refereed journal and/or present it at an appropriate professional meeting.

The master of science is also offered. Successful students complete the same basic graduate level courses as PhD students. Students electing the non-thesis option complete an additional 12 hours of graduate level course work. Students electing the thesis option complete at least an additional 6 hours of graduate level course work and at least 4 hours of thesis work. In addition to defending their thesis, they are encouraged to publish their results in a refereed journal or present them at a scientific meeting.

### Plant Pathology - MAg, MS, PhD

**Degree Programs:**

- Plant Pathology - MAg (p. 1376)
- Plant Pathology - MS (p. 1376)
- Plant Pathology - PhD (p. 1376)

The Department of Entomology and Plant Pathology offers plant pathology degrees including a Master of Science (MS), Master of Agriculture (MAg) and Doctor of Philosophy (PhD). The Graduate program emphasizes basic and applied aspects of the science of plant pathology preparing students for careers in teaching, research and extension with a variety of academic, governmental, state,
private and industrial opportunities. The educational goals and objectives of the MS degree program are to produce graduates who are fundamentally trained in the scientific principles and general knowledge of plant pathology and related sciences and who are able to apply these principles to successfully solve problems and employ this knowledge at an advanced level of study. The purpose of the PhD program in plant pathology is to produce graduates who are fundamentally trained in the scientific principles and general knowledge of plant pathology and related sciences and who are able to employ this knowledge at the advanced level of study and apply these principles to solve problems involving plant diseases and associated pathogens.

Admission is based primarily on a combination of Grade Point Average (GPA) and Graduate Record Examination (GRE) scores and (if an international student) TOEFL tests are also required.

Students holding baccalaureate degrees in agriculture or the biological sciences may find this degree program helpful to their professional development and career goals. For a major in plant pathology at the MS level, the student should have a baccalaureate degree from a recognized institution with pre-requisite training in agriculture, biology, botany, microbiology and related fields such as chemistry, physics, and mathematics. Qualified students lacking mandatory courses may be admitted but will be required by the student's advisory committee to make up any deficiencies.

The MS program in plant pathology is available to qualified individuals who wish to pursue a master’s level program that requires a thesis. Importance is placed on both classroom and research training. The MS requires a minimum of 30 semester hours, including:

Total Hours: 9-12

A graduate-level course in statistics is also required. A minimum of 21 semester hours must be taken in plant pathology and a specialty area may be selected from related subject matter fields. There is no language requirement for the MS degree. In addition to the required course work, the student must complete research, a written thesis and a thesis defense examination as defined by the student’s advisory committee.

The master of agriculture (MAg) program with a specialization in plant pathology is available to qualified applicants who wish to pursue a master’s level program that does not require a thesis. The MAg with a specialization in plant pathology carries the same entrance requirements as the MS but is a non-thesis degree. The MAg requires a minimum of 32 semester hours, 21 of which must be in plant pathology, including:

<td>1</td>
</tr>
</tbody>
</table>

The remainder of credit hours can be taken from a variety of subject areas determined in consultation with the student’s advisory committee. A comprehensive examination is required after all courses are completed. There is no language requirement for the MAg degree.

The PhD program requires 60 semester hours of course work, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<td>3</td>
</tr>
<tr>
<td>PLPA 6500/6506</td>
<td>Plant Nematology</td>
<td>4</td>
</tr>
</tbody>
</table>
Of the 60 semester hours, 30 must be graded graduate courses 6000-level and taken at Auburn University. There is no language requirement for the PhD. Upon completion of the course work, PhD students must take a general written examination. Students must pass all parts of the written examination before scheduling the preliminary oral examination (referred to as the PhD prelim exam). After satisfactory completion of the prelim exam the student advances to candidacy. The PhD student will conduct independent research and prepare a dissertation through the guidance and direction of an advisory committee. After completion of the dissertation, the student must pass a final oral examination defending the dissertation.

Polymer and Fiber Engineering - MS, PhD

Program Degrees:
- Polymer and Fiber Engineering - MS (p. 1377)
- Polymer and Fiber Engineering - PhD (p. 1377)

Graduate study in the Department of Polymer and Fiber Engineering leads to Master of Science, and Doctor of Philosophy degrees. GRE and (if an international student) TOEFL scores of all applicants are reviewed by the departmental Graduate Committee. Applicants must hold a bachelor’s degree in polymer engineering, fiber engineering, materials engineering/science, chemical engineering or related subject area.

Students in the MS program enroll in course work covering core courses in polymer chemistry, polymer processing, structure and properties of polymers, and polymer characterization. They further enroll in specialized courses beneficial to their research, such as mechanics of flexible structures, composite materials, biopolymers, and fiber and film formation. Both thesis and non-thesis options are offered. The thesis option requires a minimum of 30 hours of graduate courses plus thesis. The non-thesis option requires 36 hours and a graduate project.

The PhD in Polymer and Fiber Engineering requires a minimum of 60 hours of graduate courses including a minimum of 10 hours of PFEN 8990 Research and Dissertation. The student must enroll in a set of core courses and pass a written qualifying exam. After successfully presenting a dissertation research proposal to the student’s graduate committee, the student becomes a candidate for the Doctor of Philosophy degree and may proceed with the dissertation research. Graduate teaching and research assistantships are available. There is no language requirement for the MS or PhD.

Poultry Science - MAg, MS, PhD

Program Degrees:
- Poultry Sciences - MAg (p. 1378)
- Poultry Sciences - MS (p. 1378)
- Poultry Sciences - PhD (p. 1379)
The Department of Poultry Science offers graduate programs in Poultry Science, leading to Master of Agriculture, Master of Science, and Doctor of Philosophy degrees. These degrees are designed to prepare outstanding students for careers in the commercial poultry industry, allied industries, government, and academia. Research training and experience can be acquired in the specialized areas of poultry management, poultry nutrition, poultry health (parasitology, pathology, virology), poultry physiology, processing and product technology, and food safety.

Applicants must indicate which graduate degree they wish to pursue in Poultry Science. All applications are reviewed by the departmental Graduate Committee. Application materials include: official copies of all college transcripts, GRE scores, TOEFL scores (for international students), 3 letters of recommendation, a resume, and a statement of purpose. Transcripts and test scores are sent directly to the Graduate School. The letters of recommendation may either be submitted online (preferred) or mailed to the graduate program officer. The resume and statement of purpose are sent to the graduate program officer at the departmental address or via email attachment. For graduate studies leading to MS or MAg degrees, applicants must have a bachelor’s degree in poultry science, animal science, or the biological sciences from a recognized institution. To be considered for the PhD program, applicants must have a MS degree in an appropriate field. The course of study, developed by the student and the advisory committee, may include additional courses to address specific needs or course work deficiencies.

Additional information about the departmental requirements, policies and availability of financial support can be obtained by contacting the graduate program officer (bellleo@auburn.edu).

**MS/MAg Degree Requirements**

1. The Master of Science (MS degree) requires a research project with a formal written thesis while the Master of Agriculture (MAg) requires a research project with a written report. The MS degree requires a minimum of 30 semester credit hours while the MAg requires a minimum of 33 semester credit hours. Both degrees require a comprehensive final oral examination.

2. Curriculum – Courses are selected in conjunction with the major professor and advisory committee to address the area of emphasis. All students are required to take 2 credits of POUL 7950, a course in statistics, and 4 credits of POUL 7990 or POUL 7980.

**PhD Degree Requirements**

1. For the PhD degree, a minimum of 30 semester hours of graduate coursework beyond the MS (60 hours beyond the bachelor’s degree) is required.

2. Curriculum – Courses are selected in conjunction with the major professor and advisory committee to address the area of emphasis. All students are required to take 3 credits of POUL 7950, a minimum of one course in statistics, and at least 10 credits of POUL 8990.

3. Examinations – Upon completion of course work, students must pass general written examinations administered by the advisory committee, followed by a comprehensive preliminary oral examination. After satisfactory completion of these exams, the student advances to candidacy. A dissertation based on an independent research project is required to earn a PhD degree. After completion of the dissertation, the student must pass a final Doctoral oral examination defending the dissertation.

Psychology - MS, PhD

Degree Programs:
- Psychology Non-Thesis - MS in Applied Behavior Analysis in Developmental Disabilities (p. 1384)
- Clinical Psychology - PhD (p. 1382)
- Cognitive and Behavioral Sciences - PhD (p. 1383)
- Industrial & Organizational Psychology - PhD (p. 1383)

The Department of Psychology offers a Master of Science in Applied Behavior Analysis in Developmental Disabilities (ABA) and PhDs in three areas—a PhD in Clinical Psychology, a PhD in Cognitive and Behavioral Sciences (CaBS), and a PhD in Industrial/Organizational Psychology (I/O). Although a MS degree is conferred upon students in the doctoral programs when they have fulfilled intermediate requirements for the PhD, the department does not offer terminal master’s degrees in these three areas.

Applicants should visit the department’s webpage (www.auburn.edu/psychology), email bryangt@auburn.edu, or call (334) 844-6471 for application and general program information.

For the most accurate and up-to-date information about the program requirements, please consult our website at http://www.cla.auburn.edu/psychology/graduate-studies/.

Graduate degrees in Counseling, Counseling Psychology, Educational Psychology, and School Psychology are offered through the College of Education.

Admission Requirements for the MS and the PhD

Holders of the bachelor’s degree in any discipline from an accredited institution will be considered for graduate work in psychology. Students are admitted to programs to begin fall term only.

To be considered for admission, potential applicants must submit the application materials listed below. The manner in which these are to be submitted and the deadlines for submitting them are subject to change, so it is imperative that students consult the application instructions on the Department of Psychology’s web page for up-to-date directions. For PhD programs see http://www.cla.auburn.edu/psychology/clinical/apply-to-clinical-program/application-instructions/. For the MS in Applied Behavior Analysis, see http://www.cla.auburn.edu/psychology/applied-behavior-analysis/prospective-students/application-information/.

Items required are:
- Official scores for the General Test of the GRE (We do not require the Subject test.)
- Official transcripts from each college or university attended
- Three letters of recommendation
- A statement of intent
- For international applicants, TOEFL/TSE scores

To ensure consideration, the application process should be completed by December 1 for the Clinical Psychology PhD program, January 15 for the CaBS and I/O PhD programs, and February 1 for the MS in ABA.

GRE and GPA profiles/expectations for successful applicants appear on each program’s website, accessible through the department’s webpage. Students seeking exemption from a departmental requirement based on completion of similar graduate work elsewhere
should discuss this possibility with departmental faculty after enrolling. Where appropriate, the faculty will determine whether earlier graduate work, including theses, may be substituted for Auburn departmental requirements.

**MS in Applied Behavior Analysis in Developmental Disabilities**

In the ABA program, students are trained to provide clinical and educational services to individuals with mental retardation and autism spectrum disorders, to typically developing children in school settings, and to families. Degree requirements focus on integrating coursework with practicum training, and both components are approved by the Behavior Analyst Certification Board, Inc.

**General Requirements**

The MS in ABA is a full-time non-thesis program requiring five consecutive semesters of full-time coursework (24 semester hours) and practicum training (18 semester hours). All students complete a professional portfolio with an oral defense of the portfolio as a capstone project. Course and credit-hour requirements for the program total 42 hours.

**PhD in Clinical Psychology**

The Clinical Psychology PhD program uses a scientist-practitioner training model that blends basic and applied research with clinical practice.

**General Requirements**

Typically, the program requires five years at Auburn in course work, individualized research, and practicum experiences. In addition, a one-year full-time internship at an APA-approved program is required. 89 credit hours total are required.

Students enrolled in the Clinical Psychology PhD program complete a sequence of departmental core courses providing a foundation in psychology on which specialization is based. In doctoral study, students are expected to write and defend an empirically based master’s thesis. Admission to doctoral candidacy is contingent upon the successful completion of the general doctoral examination. Students must also write and defend a research dissertation.

PhD in Cognitive and Behavioral Sciences

The CaBS program provides a firm foundation in cognitive and behavioral sciences. Electives allow students in the CaBS PhD program flexibility in developing their own areas of specialization. Practicum placements provide opportunities to gain research and applied experience.

General Requirements

Like the students in the PhD program in Clinical Psychology, CaBS students are required to complete a series of core courses, write and defend an empirically based master’s thesis, and successfully complete a general doctoral examination before being admitted to doctoral candidacy. They must also write and defend a research dissertation. 61 credit hours total are required.

1 graduate-level PSYC course in Statistics or Methods approved by the student’s research committee

An additional 18 credit hours of graduate-level course work approved by the student’s research committee is required.

PhD in Industrial/Organizational Psychology

The I/O PhD program prepares students for academic, research, and/or applied settings. Students in the I/O program have flexibility in developing their areas of specialization and practicum placements in consultation with their advisors.

General Requirements

Students in the I/O PhD program must complete the same requirements as those in the other two PhD programs; that is, they complete their course work, write and defend an empirically based master’s thesis, and successfully complete a general doctoral examination before being admitted to doctoral candidacy. They must also write and defend a research dissertation. The degree requires a total of 73 semester hours of credit.

Public Administration and Public Policy - MPA, PhD, Graduate Certificates

Degree Program:
- Public Administration - MPA (p. 1389)
- Public Administration and Public Policy - PhD (p. 1389)

Graduate Certificates:
- Election Administration (p. 1388)
- Nonprofit Organizations and Community Governance (p. 1389)

The Department of Political Science offers the Master of Public Administration (MPA), and the PhD in Public Administration and Public Policy is offered jointly by the Auburn University Department of Political Science and the Auburn University at Montgomery Department of Political Science and Public Administration. Graduates from the MPA program are employed as managers, planners, and directors in city, state, and local government agencies and federal government programs; they also serve as program officers, development directors, executive directors, and senior administrators in local and national nonprofit organizations. The Department of Political Science also offers two graduate certificates: Graduate Certificate in Nonprofit Organizations and Community Governance and Graduate Certificate in Election Administration.

For more information about the MPA program, see http://www.cla.auburn.edu/polisci/graduate-programs/graduate-programs/.

For more information about the PhD program, see http://www.cla.auburn.edu/polisci/graduate-programs/graduate-programs/.
Master of Public Administration

The Department of Political Science offers the MPA. It is a professional degree program for leadership in public service at all levels of government as well as in nonprofit organizations. The program is accredited by the National Association of Schools of Public Affairs and Administration. Highly qualified students may pursue concurrently the Master of Community Planning.

Application Process

Applicants for the MPA must have a bachelor’s degree or its equivalent from an accredited college or university. The General Test of the Graduate Record Examination is required. The admissions committee will evaluate the undergraduate transcripts, GRE scores, letters of recommendation, a writing sample, and any public sector experience in government agencies or nonprofit organizations. The program is not limited to political science majors, but successful applicants who have little background in public sector institutions and processes may be required to take additional courses.

Applicants should ensure these materials are sent to the Graduate School web application:

- Official scores from the General Test of the GRE
- Official transcripts from every institution attended
- Other information listed in the application

Web applications are located at: https://web.auburn.edu/GWAAP/default.aspx.

Applicants should ensure these materials are sent to the graduate program officer for the MPA program in the Department of Political Science:

- Personal statement of purpose in pursuing the MPA degree
- Three letters of professional or academic recommendation
- Writing sample

Send materials to:

MPA Program Administrator
Masters of Public Administration Program
Department of Political Science
8030 Haley Center
Auburn University, AL 36849
Telephone inquiries, call 334.844.5371

Degree Requirements

Students have to comply with four prerequisites to be considered for the MPA program. Once they are admitted, the program requires 42 semester hours and a portfolio. Eight core courses for a total of 24 hours credit are required of all students. Students take an additional 12 hours of electives in either public administration, broadly conceived, or an approved concentration in a related administrative field or policy area. The final 6 credit hours consist of either an administrative internship in a governmental agency or nonprofit organization or participation in a research project pertaining to the public sector. Students without substantial public sector experience will complete an internship, while those who have prior experience will likely complete a research project and paper.

Details about the requirements are provided below.

Prerequisites

<table>
<thead>
<tr>
<th>Competency</th>
<th>Measure</th>
</tr>
</thead>
<tbody>
<tr>
<td>English</td>
<td>Verbal GRE of at least 150, writing sample, or a course in advanced composition</td>
</tr>
<tr>
<td>Math</td>
<td>Quantitative GRE of at least 141 or course in college mathematics</td>
</tr>
<tr>
<td>United States Government</td>
<td>Undergraduate course or experience</td>
</tr>
<tr>
<td>Economics</td>
<td>Undergraduate course</td>
</tr>
<tr>
<td>Microcomputer applications</td>
<td>Undergraduate course or demonstrated competence</td>
</tr>
</tbody>
</table>

Students who have not satisfied these competencies before they enter the program may take them concurrently with MPA courses. It is important to complete the prerequisites as soon as possible to gain full benefit of the regular MPA courses.

Practical Experience through Internship or Applied Research Project (6 hours)

The program requires a total of 6 credit hours of internship and/or applied research. Students without significant prior public sector experience take an internship (POLI 7930 MPA Research Project), although they may take an internship with the approval of the MPA director. Students may also design a combined internship and research project with the approval of the MPA director.

Electives (12 hours)

The MPA requires 12 credits of electives. This requirement may be fulfilled in any one of the three following ways:

- By taking 12 credits of classes approved by the MPA director that support the generalist public administration curriculum
- By completing the Dual MPAMCP Degree with Community Planning
- By completing one of the following two formal specializations: Graduate Certificate in Elections Administration or Graduate Certificate in Non-Profit Organizations and Community Governance

Portfolio

Successful completion of the degree includes preparation and presentation of the MPA Portfolio to MPA core faculty. The MPA Portfolio demonstrates mastery of the competencies established by the National Association of Schools of Public Affairs and Administration.

The MPA Portfolio reviews are scheduled typically in the final semester of course work. Students who do not pass the MPA Portfolio review have one additional opportunity to present their material to MPA faculty in the following fall or spring semester.

The PhD in Public Administration and Public Policy is offered jointly by Auburn University’s Department of Political Science and Auburn University at Montgomery’s Department of Political Science and Public Administration. Only students with master’s degrees from accredited universities or colleges will be considered for the AU/AUM joint PhD program. Applicants having an insufficient background in public administration and public policy may be required to take additional prerequisite courses as determined by the admissions committee.

Application Process

Applicants must submit transcripts, a CV or resume, a statement of purpose, letters of recommendation, and GRE scores. Normally, scores of approximately 150 on the verbal, 150 on the quantitative, and 4.5 on the writing sections of the GRE are expected for admission.

Applicants should ensure these materials are sent to the Graduate School web application:

- Official scores from the General Test of the GRE
- Official transcripts from every institution attended
Applicants should ensure these materials are sent to the PhD administrators in the Department of Political Science:

- CV or resume
- Three letters of recommendation
- Statement of purpose

For more information, see the website for the PhD in Public Administration.

**Requirements**

The PhD curriculum includes core courses, a research methodology sequence, the student’s choice of either the Public Administration or Public Policy track, and a series of electives where students develop expertise in chosen area of specialization. Details about the requirements for both tracks are given below.

**Core Courses**
All students in the program take the core courses in Public Administration and Public Policy.

**Research Methodology Courses**
Students will take a three-course methodology sequence covering a broad scope of political inquiry, research design, qualitative methods, and quantitative analysis. Students must earn a grade of A or B in each of the methodology courses before they can progress to the general comprehensive exams.

**Tracks**
The PhD program has two tracks, Public Administration and Public Policy. Students are required to take at least three courses within the track they choose. For the Public Administration track, required courses are as follows: public finance, human resource management, and organizational theory. For the Policy track, students should choose three of the following five courses: American politics and public policy, comparative politics and public policy, international relations and public policy, political theory and public policy, and public law and public policy.

**Electives**
The other five courses are chosen in consultation with the student’s advisory committee. These electives should help the student develop expertise in a particular area of specialization.

**Minimum Credit Requirements**

<td>75</td>
</tr>
</tbody>
</table>

**Comprehensive Exams, Oral Exams, and Dissertation Defense**

During the spring or fall semester after the course work is completed, students take comprehensive exams administered by the department. The exams will consist of sections testing core and track knowledge as well as one section focusing on students’ areas of specialization. Students will have two opportunities to pass the comprehensive exams and must pass each written examination before scheduling the oral examination. Upon successful completion of the comprehensive exams, students should prepare a prospectus to present to their dissertation committee during their oral examinations. Admission to doctoral candidacy is contingent upon successful completion of all elements of the written and oral doctoral exams. After completion of the dissertation, the students must pass a final oral examination defending their dissertation work before their committee and a University Reader approved by the Graduate School.

**Graduate Certificates**

Two graduate certificates are offered in public administration and public policy: Graduate Certificate in Elections Administration and Graduate Certificate in NonProfit Organizations and Community Governance.

**Application Process**

Applications for graduate certificates include the same items as applications for the MPA degree with the exception that GRE scores are not required.
Applicants should ensure these materials are sent to the Graduate School web application:

- Official transcripts from every institution attended
- Other information listed in the application

### Graduate Certificate in Elections Administration

#### Required Classes

These courses are required for the Graduate Certificate in Elections Administration. Corresponding 5000-level classes taken as an undergraduate fulfill the graduate certificate requirement but do not count toward the 42 graduate credits needed for the MPA. Substitutions require permission of MPA Director.

## Real Estate Development - MRED
Rehabilitation and Special Education - MEd, MS, EdS, PhD

Degree Programs

- Early Childhood/Elementary Special Education, P-6 (p. 1393)
- Collaborative Teacher Special Education, K-12 (p. 1391)
- Rehabilitation Counseling (p. 1395)
- Rehabilitation and Special Education (p. 1395)

Graduate Certificates

- Rehabilitation Leadership and Management (p. 1395)
- Transition Specialist (p. 1395)
- Intervention for Students with Autism and Developmental Disabilities (p. 1394)

Rehabilitation and special education programs include graduate certificates and graduate degree programs leading to the master of education (non-thesis option), master of science (thesis option), specialist in education, and doctor of philosophy. Special education certification programs at the master's level include both alternative and traditional routes. Alternative master's special education programs offer qualified students who hold non-teaching baccalaureate degrees a route to initial teacher certification while simultaneously earning a master’s degree; traditional master's special education certification programs offer advanced study for individuals who hold a bachelor's-level professional educator certificate in a teaching field. Admission to departmental graduate programs is competitive, based on past achievement, scholarship potential, and professionalism.

Master's Degree Programs (MEd/MS)

Applicants to master’s degree programs must satisfy the Graduate School’s admission requirements. Departmental admission requirements include a GPA of at least 2.75 on all undergraduate coursework, a writing sample, completed application forms, three letters of recommendation, and departmental approval.

Special education master’s programs which include options in early childhood/elementary special education (grades P-6) and collaborative teacher (grades K-6 and/or 6-12) are approved by the Alabama State Board of Education (ALSBE). The College of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE). In addition to the admission requirements noted above, individuals applying to these programs must meet all admission requirements established by the Alabama State Board of Education including documentation of a clear background check through the Alabama Bureau of Investigation. Admission requirements for alternative master’s special education programs also include submission of passing scores on the Basic Skills Assessments (Applied Mathematics, Reading for Information, and Writing), the appropriate Praxis II subject assessment, and a bachelor’s degree from an accredited college or university with a minimum GPA of 2.75 overall or a master's or higher degree with a GPA of at least 3.0. This GPA must be documented on the official transcript of the degree granting institution and must be the GPA that was used as the basis for granting the degree, not a GPA that includes post-degree courses.

Admission requirements for traditional master’s special education certification programs include a valid bachelor's-level professional educator certificate in a teaching field and may include additional certification tests.

Degree requirements for master's-level special education programs are in compliance with regulations established by the ALSBE and include a minimum of 33-57 semester hours depending on prior certification, three 120-hour practica, and a comprehensive exam. Students may select a thesis (MS) or non-thesis (MEd) option. Additionally, alternative master’s students complete a semester-long, full-time internship. A passing score on the Praxis II subject assessment, 0354/5354 Special Education: Core Knowledge and Application is required of alternative master's students and traditional master's students with prior certification in a teaching field other than special education. Alternative master’s programs typically take a minimum of four to five semesters to complete if enrolled full-time.

In accordance with State regulations, effective for students unconditionally admitted to certification programs prior to July 1, 2017, a minimum GPA of 3.00 is required on all courses used to meet master's-level certification program requirements. Effective for students unconditionally admitted to certification programs July 1, 2017 and after, a minimum GPA of 3.25 will be required on all courses used to meet master's-level certification program requirements.

The master’s program in rehabilitation counseling is accredited by the Council on Rehabilitation Education (CORE) and provides students with the necessary academic coursework and clinical experiences to sit for the Certified Rehabilitation Counselor (CRC) examination. The program provides the opportunity through elective coursework to specialize in vocational evaluation. The rehabilitation counseling program requires a 100 hour practicum taken early in the program and 600 hours of supervised clinical
practice generally taken at the end of the program. The thesis option requires 64 semester hours of coursework while the non-thesis program is 60 semester hours and requires the student to successfully pass a written comprehensive examination.

**Specialist in Education Degree Program (EdS)**

Applicants to the EdS program in special education collaborative teacher must satisfy the Graduate School’s admission requirements. Departmental admission requirements include a master’s degree from an accredited college or university, academic good standing at the institution last attended, competitive GRE scores, letters of recommendation, current resume, a valid master’s-level professional educator certificate in special education, clear background check, and approval by the department.

Degree requirements for specialist-level teacher certification programs are in compliance with regulations established by the ALSBE. Specialist programs include a minimum of 30 semester hours beyond the master’s degree. Additional requirements include satisfactory completion of a field project and a written comprehensive exam.

In accordance with State regulations, effective for students unconditionally admitted prior to July 1, 2017, a minimum GPA of 3.25 is required on all courses used to meet specialist-level certification program requirements. Effective for students unconditionally admitted July 1, 2017 and after, a minimum GPA of 3.50 will be required on all courses used to meet specialist-level certification program requirements.

**Master’s- and Specialist-Level Certification**

Individuals completing State-approved master’s-level special education certification programs are eligible to apply for Alabama Class A certification; individuals completing State-approved specialist-level special education certification programs are eligible to apply for Alabama Class AA certification. Individuals seeking certification in states other than Alabama are responsible for contacting those state certification offices to obtain their application form and requirements. The State of Alabama signs the National Association of State Directors of Education and Certification (NASDTEC) Interstate Agreement which facilitates the applications of program graduates when they apply for certification in other states.

**Doctoral Degree Program (PhD)**

Applicants to the PhD program in rehabilitation and special education must satisfy the Graduate School’s admission requirements. Program requirements include competitive graduate GPA and Graduate Record Examination (GRE) scores, completed application form, three letters of recommendation, a current resume, a professional mission statement and departmental approval. Special education applicants must have completed three years of direct teaching of students with disabilities. Rehabilitation applicants must be eligible to sit for the CRC.

The doctoral program includes 15 hours of research courses and 9 hours of educational foundations (e.g., historical, psychological, philosophical, sociological). The remaining coursework is made up of doctoral “core” and support area coursework. A minimum of 48 semester hours beyond the master’s degree, excluding the dissertation hours, is needed to complete the program. Prior to submitting a research proposal for the dissertation, all doctoral students must satisfactorily complete a qualifying paper and a general written and oral examination. Doctoral students must register for at least 10 semester hours of doctoral research while completing a dissertation. Typically the program takes a minimum of three years to complete (two years of coursework and one year of independent research).

**Graduate Certificates**

Graduate certificates are offered in rehabilitation leadership and management, transition specialist, and intervention for students with autism and developmental disabilities.

**Additional information**

Detailed admission and program requirements for the department’s multiple areas of graduate study are available on the College of Education’s website, Academics (http://www.education.auburn.edu/academics) (http://www.education.auburn.edu/academics/).

Sociology - MA, MS

Degree Program:
- Sociology - MA (p. 1397)
- Sociology - MS (p. 1398)
- Rural Sociology - MS (p. 1399)

The interdepartmental graduate program in sociology offers study and research leading to the degrees of Master of Arts or Master of Science in Sociology and in Rural Sociology. Anthropologists, social work faculty, rural sociologists, and sociologists make up the faculty. The program is administered by a two-member coordinating committee from the Department of Agricultural Economics and Rural Sociology and the Department of Sociology, Anthropology, and Social Work. Information about the two degrees is available at http://www.cla.auburn.edu/sociology/sociology-program/graduates/the-interdepartmental-masters-program/.

Admission Requirements

Admission to the program is administered by co-directors representing the Department of Sociology, Anthropology & Social Work and the Department of Agricultural Economics & Rural Sociology. Applicants are required to have a bachelor’s degree from an accredited institution and generally are required to have a minimum GRE score of 290 (150 V and 140 Q) and a GPA of 3.0 on all completed coursework. The applicant’s statement of interest and letters of recommendation also are considered in making a decision on admission.

Applicants should ensure the following materials are submitted to the Graduate School web application:
- Official scores from the General Test of the GRE
- Official transcripts from every college and university attended
- If an international student, the official score from the TOEFL exam
- Three letters of recommendation

Applicants should ensure that the following materials are submitted to the graduate program officer in the Department of Sociology, Anthropology, and Social Work:
- Statement of interest

Applications to the program are reviewed year round.

The program’s coordinating committee will evaluate each applicant’s dossier.

Thesis and Non-Thesis Options

Thesis and non-thesis options are available for both the MA and the MS. These two degree options are designed to serve the needs of differing types of students. The thesis option is recommended for students who might be interested in pursuing advanced graduate work and who are interested in gaining research experience. The non-thesis option is designed for individuals who are in mid-career, who wish to learn new skills in order to be more productive professionally, and who have no intent on pursuing a more advanced graduate degree.
The thesis option requires a minimum of 30 semester hours, with 6 semester hours of this total being for research and thesis (SOCY 7990 Research and Thesis or RSOC 7990 Research and Thesis). The non-thesis option requires 36 semester hours of course credit. Additionally, a capstone paper is required for the non-thesis option.

**Required Core Courses**
All students take core graduate courses in social theory, social research methods, and statistics:

- SOCY 7000 Advanced Sociological Theory
- SOCY 7100 Statistical Analysis of Survey, Aggregate, and Large Data Sources
- RSOC 7700 Methods of Social Research

Students without undergraduate course work in these areas may be required to take additional courses to prepare for the core graduate courses. Additional courses at the 6000-level and above are taken with the advice of the student's graduate advisory committee.

**Financial Aid**
A variable number of graduate teaching assistantships and graduate research assistantships are available on a competitive basis to support graduate students in the program. Strong preference is given to funding students pursuing the thesis option.

Admission to the program is determined collectively by the coordinating committee, but funding decisions are made by individual departments. To be considered for funding, applicants should send three letters of recommendation to the coordinating committee member in the appropriate department.

Most graduate teaching assistantships and graduate research assistantships require the commitment of 13-15 hours of work per week. Given these responsibilities, graduate students holding graduate teaching assistantships and graduate research assistantships are expected to take no more than 9 hours of graduate credit course work per semester. Experience indicates that a heavier course load leads to an erosion of performance both on the job and in the course work.

Graduate teaching positions are associated primarily with the Department of Sociology, Anthropology, and Social Work and involve working with faculty teaching in the undergraduate core curriculum. Students seeking graduate teaching assistantships should submit their completed applications by March 1 to be included in the review process regarding funding decisions for the following academic year. However, occasionally, funds for graduate teaching assistantships may become available later in the year, and applications are then reviewed accordingly.

Graduate research assistantships are associated primarily with the Department of Agricultural Economics and Rural Sociology and require working with faculty conducting research on a variety of topics dealing with rural development. Funding from grants becomes available at different times of the year. The funds for graduate research assistantships generally are made available in February or March. Please contact the coordinating committee member from the Department of Agricultural Economics and Rural Sociology for further information on funding.

Interdepartmental Graduate Program in Sociology: Rural Sociology MS Thesis & MS Nonthesis

Degree Programs:

- Rural Sociology - MS (p. 1399)
- Sociology - MA, MS (p. 1396)
- Agricultural Economics - MS, MAg (p. 1223)

The master's program in rural sociology is part of the Interdepartmental Graduate Program in Sociology (IDGPS). The Program is administered by co-directors representing the Departments of Sociology, Anthropology & Social Work (College of Liberal Arts) and Agricultural Economics & Rural Sociology (College of Agriculture).

IDGPS offers study and research leading to the degrees of Master of Science in Rural Sociology and Master of Arts or Master of Science in Sociology. Anthropologists, social work faculty, rural sociologists, and sociologists make up the faculty. For additional information, please visit http://www.cla.auburn.edu/sociology/sociology-program/graduates/the-interdepartmental-masters-program/.

Admission Requirements

Applicants are required to have a bachelor's degree from an accredited institution, and they are generally required to have a minimum GRE score of 290 (150 V and 140 Q) and a GPA of 3.0 on all completed coursework. The applicant's statement of interest and letters of recommendation are also considered in making a decision on admission.

Applicants should ensure the following materials are submitted to the Graduate School web-based application system:

- Official scores from the General Test of the GRE
- Official transcripts from every college and university attended
- If an international student, the official score from the TOEFL exam
- Three recommendations

Rural sociology applicants should ensure that the following is submitted to the Co-Director for Rural Sociology in the Department of Agricultural Economics & Rural Sociology.

- Statement of interest

Applications to the Program are reviewed, year round, by the Co-Directors who will evaluate each dossier.
Thesis and Non-Thesis Options

Thesis and non-thesis options are available for the MS degree in Rural Sociology. These two degree options are designed to serve the needs of differing types of students. The thesis option is recommended for students who are interested in gaining research experience or who might be interested in pursuing advanced graduate work. The non-thesis option is designed for individuals who are in mid-career, who wish to learn new skills in order to be more productive professionally, and who do not plan to pursue a more advanced graduate degree.

The thesis option requires a minimum of 30 semester hours, with 6 semester hours of this total being for research and thesis (RSOC 7990 Research and Thesis). The non-thesis option requires 36 semester hours of course credit and the completing of a capstone paper.

Required Core Courses

All IDGPS students take three core graduate courses:

- SOCY 7000 Advanced Sociological Theory
- SOCY 7100 Statistical Analysis of Survey, Aggregate, and Large Data Sources
- RSOC 7700 Methods of Social Research

Students without undergraduate coursework in these core areas may be required to take additional courses. Additional courses at the 6000-level and above are taken with the advice of the student’s graduate advisory committee.

Financial Aid

A variable number of graduate teaching assistantships (GTA) and graduate research assistantships (GRA) are available on a competitive basis to support graduate students in the program. Strong preference is given to funding students pursuing the thesis option.

Admission to the program is determined by the program’s Co-Directors after consultation with faculty, but funding decisions are made by the individual departments. To be considered for funding, applicants should have a completed application and have submitted the following:

- Application for Graduate Assistantships form.

Most graduate assistantships require the commitment of 13-15 hours of work per week. Given these responsibilities, graduate students holding assistantships are expected to take no more than 9 hours of graduate credit coursework per semester.

Graduate Teaching Assistantships (GTAs) are associated primarily with students in the Department of Sociology, Anthropology & Social Work. GTAs work with faculty teaching in the undergraduate core curriculum. In contrast, Graduate Research Assistantships (GRAs) are associated primarily with students in Agricultural Economics & Rural Sociology. GRAs require working with faculty conducting research on a variety of topics dealing with, but not limited to, environment and natural resources, food and agriculture, and community and rural development. While funding from grants may become available throughout the year, GRAs are generally made available in February or March for the following academic year. Please contact the Co-Director in Rural Sociology for further information.

Graduate studies in Spanish lead to the Master of Arts (MA) in Spanish or the Master of Hispanic Studies (MHS). The Spanish graduate program is designed to prepare students for careers in teaching, business, government, world affairs, diplomacy, social service, and law enforcement and for doctoral studies in Spanish, with emphases such as literature, linguistics, or foreign language education. Students may begin their graduate studies at the beginning of any semester during the academic year.

Information about the MA and the MHS can be found at [http://www.cla.auburn.edu/forlang/spanish-graduate-program/](http://www.cla.auburn.edu/forlang/spanish-graduate-program/).

### Admission Requirements

Candidates wishing to pursue the MA or the MHS must have a bachelor’s degree from an accredited institution, with at least 38 semester hours of undergraduate Spanish course work above the freshman level and satisfactory scores on the General Test of the GRE. International students must have acceptable scores on the TOEFL. Applicants lacking course requirements need to make up deficiencies before admission to the graduate program.

Applicants should ensure that the following materials are sent to the Graduate School web application program:

- Official transcripts from every undergraduate institution attended
- Official scores from the General Test of the GRE sent from ETS (for domestic students; not required for international students)
- Official scores from the TOEFL (for international students)

They should send these materials to the graduate program officer in the Department of Foreign Languages and Literatures:

- Three letters of recommendation
- Graduate teaching assistantship application
- Writing sample. A writing sample in Spanish should be submitted to the Department of Foreign Languages and Literatures at the time of the application. The writing sample typically is a research paper completed for a course taken as an undergraduate, usually a paper written for a senior-level literature or civilization course. It should be a minimum of five pages, typed.
- Speaking samples: Two speaking samples are required, together equaling a clip of approximately 4-5 minutes in length. The first should be a 2-3 minute extemporaneous autobiography: who the applicant is, where the applicant is from, what the applicant’s childhood was like, what a memorable event in the applicant’s early life was, what got the applicant interested in studying Spanish, why the applicant wishes to pursue a master’s degree in Spanish, what the applicant’s plans are after finishing the degree. The second should be a reading from a printed text, for example, a poem, a paragraph or two from a novel or short story, a newspaper article. Applicants should identify the selection on the recording. This selection should be approximately 1-2 minutes in length. The speaking samples should be recorded using mp3 audio coding format and e-mailed to Dr. Pedro Cebollero (pz0001@auburn.edu) at the Department of Foreign Languages and Literatures.

- All materials should be received by February 15.

### Courses and Other Graduation Requirements

The MA requires at least 30 semester hours including 4 credit hours for thesis.

Candidates for the MHS must earn a minimum of 36 semester hours in their major, but no thesis is required. A concentration consisting of 6 semester hours of graduate-level courses in a related #eld or #elds may be earned as part of the MHS degree. These 6 hours do not have to be taken in the Department of Foreign Languages and Literatures.

Both degrees require satisfactory performance on the comprehensive examinations.
A reading knowledge of one other foreign language is required. This knowledge may be demonstrated by earning a passing score on the foreign language proficiency test or by completing the first-year sequence (or equivalent) of the foreign language with a grade of B or better.

**Financial Aid**

Graduate teaching assistantships are available to qualified students. For more information, please contact the department.

All MA-Spanish or MHS graduate students are required to take FLSP 7090 Introduction to College Level Spanish Instruction. For more information, check the student handbook available from the department.

### Statistics - MS, MPS

**Degree Programs:**

- Statistical Option Thesis - MS (p. 1355)
- Probability and Statistics Non-Thesis - MProbS (p. 1355)

The Department of Mathematics and Statistics offers degree programs leading to a master of science in statistics and a non-thesis master of probability and statistics. The master of science is designed to provide a suitable mix of theoretical and applied background for students interested in a career in statistics. The curriculum provides students with the necessary technical, analytical and interpretive skills required of professional statisticians while concentrating on education in the fundamentals of statistics and its interdisciplinary nature. Course offerings are structured to give students a variety of choices of specialization in order to pursue a career in academia, government or industry and/or further their pursuit of a PhD degree in statistics. For the MS degree the student must complete and defend a thesis and obtain a passing score on the related oral examination. The master of probability and statistics (MPS) is the non-thesis option in which students are required to complete a project that may involve statistical consulting, programming and/or data analysis. A PhD degree in mathematics with concentration in statistics is also available (see mathematics).

For those students whose graduate research includes a substantial amount of statistical methodology or data analysis, but who do not wish to pursue a degree, a graduate minor in statistics is available (see “Statistics” under “Graduate Minors”).

Wildlife Sciences - MS, PhD

Degree Programs:
- Wildlife Sciences - MS (p. 1404)
- Wildlife Sciences - PhD (p. 1404)

Wildlife Sciences graduate programs are available for both MS and PhD degrees. Admission requirements parallel those for Forestry graduate programs. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the School of Forestry and Wildlife Sciences based on an examination of their scores on the Graduate Record Examination (GRE), TOEFL tests for international students, their previous academic record, experience, and recommendations. While the following are not absolutes, the faculty generally expect a minimum GPA of 3.0 in previous academic course work and minimum scores for both verbal and quantitative in the 50 percentile range for the GRE.

Degrees offered:
- **Master of Science (MS)** which requires a minimum of 30 hours beyond the bachelor degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (WILD 7990) is required. All MS students are required to take Research Methods (FORY 7510) and Graduate Seminar (WILD 7950). A research proposal and thesis based on original research are major components of the MS degree.

- **Doctor of Philosophy (PhD)** degree requires 60 semester hours beyond the bachelor degree. There must be a minimum of 30 semester hours in graded coursework at the 7000-level or above. Of the remaining 30 semester hours, 10 hours must be Research and Dissertation (WILD 8990) and 20 hours of 6000-level or above. While some these 60 hours can be from previous graduate work, such as a MS degree, a minimum of 18 hours of graded coursework at the 6000-level or above must be completed at Auburn. All PhD students are required to take Research Methods (FORY 7510) and Graduate Seminar (WILD 7950). A research proposal and dissertation based on original research are required as major components of the PhD degree program. Oral and written preliminary exams are required for advancement to candidacy and must be completed no less than two academic terms prior to
graduation. The written and oral preliminary examinations for PhD students will normally consist of questions from each committee member regarding technical competency and other related issues.

Graduate Minors

- Agricultural Economics (GMAE)
- Biochemistry and Cell/Molecular Biology (p. 1405)
- Community Planning (p. 1405)
- Ecology (p. 1405)
- Economic Development (p. 1406)
- Environmental Studies (p. 1406)
- Golf Course Design (p. 1406)
- Plant Molecular Biology (p. 1406)
- Sport Management (p. 1407)
- Statistics (p. 1407)
- Urban Forestry (p. 1408)
- Women's Studies (p. 1408)

Agricultural Economics (GMAE)

A Graduate Minor in Agricultural Economics (GMAE) is offered for nonmajors wishing to obtain training in the application of economic principles to problems affecting rural communities and households. The GMAE requires 12 credit hours of graduate-level coursework in agricultural economics (6 hours must be at the 7000 level or above). The student's graduate committee must include a faculty member from the agricultural economics department, and the student must demonstrate competence in the application of economic principles to problems in research. The latter requirement is typically met via a chapter or section in the student's thesis or dissertation.

Biochemistry and Cell/Molecular Biology

Auburn University offers a graduate minor in Cell and Molecular Biosciences, administered by the Graduate School with faculty from the Cell and Molecular Biosciences Program. The CMB minor requires a suitable background in biochemistry (BCHE 7200, BCHE 7210 or equivalent) and the successful completion of at least nine credits from the CMB graduate curriculum. The minor offers in-depth instruction in animal, microbial and plant and cell and molecular biology, and is specifically designed for MS/PhD students in life sciences and allied fields whose thesis or dissertation research will benefit from a broader perspective of cell and molecular biology and bioinformatics. See www.auburn.edu/cmb for more information.

Community Planning

The Community Planning minor is open to graduate students in any discipline. This minor affords students with interests in planning, development and urban design the opportunity to explore the discipline. Students must complete 9 credit hours of Community Planning coursework and notify the director of the community planning program that they are completing the Planning minor. The Community Planning minor is housed in the Department of Political Science.

Ecology

Ecology is an academic minor administered by the Graduate School in cooperation with faculty and departments that participate in the Auburn University Ecology Group (http://www.auburn.edu/academic/ecology). The Ecology minor is open to graduate students whose thesis or dissertation research will benefit from a broader and enriched perspective in the fundamentals and applications of the ecological sciences. For more information, students should contact any of the following coordinators.

Economic Development

The economic development graduate minor provides a specialization in the theories and practice of economic development, primarily within the U.S and Alabama. It is an interdisciplinary minor offered by the faculty of participating departments (Agricultural Economics and Rural Sociology, Community Planning, Economics, and Political Science) and is administered by the Economic and Community Development Institute.

Students may attach the economic development graduate minor to their degrees in agricultural economics (MS and PhD), business administration (MBA), community planning (MCP), economics (MS), public administration (MPA), public administration and public policy (PhD), and rural sociology (MS). To earn the graduate minor, students must complete the program's basic course, Economic Development and Competition (POLI 7700), two elective courses selected from an approved list, and a one week non-credit economic development training course sponsored by the Economic and Community Development Institute. Contact the Economic and Community Development Institute for more information.

Environmental Studies

This is an interdisciplinary academic minor administered by the Graduate School in cooperation with participating departments. It is open to any graduate student whose thesis or dissertation is in the environmental area. Participating departments include Aerospace Engineering, Agricultural Economics, Biosystems Engineering, Crop, Soil and Environmental Sciences, Animal Sciences, Architecture, Biological Sciences, Chemical Engineering, Civil Engineering, Entomology, Fisheries and Allied Aquacultures, Forestry, Geography, Geology, Horticulture, Landscape Architecture, Pathobiology, Physiology and Pharmacology, Plant Pathology, Psychology and Sociology.

Basic guidelines are:

1. The minor is open to any graduate student whose thesis or dissertation is environmentally oriented.
2. The student's department retains primary control over the student's program.
3. One committee member must be from outside the student's department and this member must be involved in environmental research.
4. Each student must take BIOL 3060 or the equivalent, and RSOC 7650 (Natural Resources and the Environment) or an equivalent.
5. Each student must take at least three hours of environmental-related course work from outside the student's "broad group discipline."
6. Each student must take at least three hours of environmental-related course work from outside of the student's home department but within the student's "broad group discipline."
7. Each student must meet the degree requirements of the student's home department.
8. At the discretion of the student's advisory committee, graduate-level courses required for this program also may be counted towards the completion of other degree requirements.

For more information, contact Dr. John Beasley, Department of Crop, Soil and Environmental Sciences, 202 Funchess Hall.

Golf Course Design

The graduate minor in Golf Course Design is open to graduate students in Landscape Architecture, Agronomy and Soils, and Landscape Horticulture, or others with permission. This minor provides students with additional coursework and field experience in landscape form and function for golf course construction. Specifically, the minor requires 19 credit hours in Landscape Architecture and Agronomy, including courses in Soil Resources and Conservation, Advanced Turfgrass Management, Landscape Construction, and Landscape Ecology. The minor is administered through the Department of Agronomy and Soils. For specific information students should contact Dr. Beth Guertal in Agronomy and Soils, eguertal@acesag.auburn.edu.

Plant Molecular Biology

Auburn University offers an academic minor in plant molecular biology administered by the Graduate School in cooperation with the participating Molecular and Cellular Biology faculty housed in the two departments listed below. The minor is open to graduate students enrolled in these departments whose thesis/dissertation research addresses related studies and who will benefit from broader training in molecular biology. For more information, contact the following department coordinators.

<table>

Sport Management

The purpose of the sport management minor is to provide master’s degree students with the specialized knowledge of the sport industry and to prepare those students to work in sport organizations as administrators and managers. The minor is administered by the Graduate School. Participating units include the School of Kinesiology and the Department of Educational Foundations, Leadership and Technology. Students selecting the minor must satisfy the degree requirements for a master’s degree program in one of these units. For additional information, please contact the school director or department head of the participating units.

The Sport Management graduate minor requires completion of 15 hours of courses as follows:

<table>
<thead>
<tr>

Degree seeking students who intend to add the graduate minor to their current degree program must notify the coordinator before completion of their degree program.

Statistics

Auburn University offers a graduate academic minor in Statistics administered by the Graduate School in cooperation with the Statistics Coordinating Committee and the Department of Mathematics and Statistics. The objective of the minor is to provide education and training for students whose graduate research includes a substantial amount of statistical methodology and/or data analysis. Students are required to complete 12 hours of graduate level statistics course work and demonstrate the ability to apply statistical methodology to problems in research.

For other eligible graduate statistics (STAT) courses which are not on the list, contact Dr. Ash Abebe (abebeas@auburn.edu), Department of Mathematics and Statistics.

**Urban Forestry**

The Department of Horticulture (HORT) and the School of Forestry and Wildlife Sciences (SFWS) offer an Urban Forestry minor for graduate students. Urban Forestry is the design, establishment and maintenance of urban forests to enhance the economic value of cities and to provide a healthier environment for people. The minor promotes interdisciplinary studies and trains students for employment in the urban forestry arena. Auburn University, with its strengths in Horticulture, Forestry, Landscape Architecture, Community Planning and Agriculture and its proximity to major urban centers such as Atlanta, Birmingham, Columbus and Montgomery, offers a unique opportunity for urban forestry research and education.

To be eligible for the minor, students must be enrolled in the master of natural resources, master of agriculture, master of science or PhD degree program in HORT or SFWS. To complete the minor, students must:

1. Develop an advisory committee including faculty from both SFWS and HORT;
2. Complete a thesis/dissertation research project that pertains to urban forestry, or in the case of master of natural resources and master of agriculture degrees, complete an approved three-credit hour directed study in urban forestry;
3. Complete FORY 6650, HORT 7850 /FORY 7850 and at least one undergraduate or graduate course in tree identification.
4. Complete at least nine semester hours from a list of approved core courses, at least one of which must be outside of the home department or school.

For more information, contact the graduate program officer at the Department of Horticulture or the School of Forestry and Wildlife Sciences.

**Women's Studies**

The Women’s Studies Program offers an interdisciplinary graduate minor in Women’s Studies, open to any graduate student. The minor provides students with specific coursework in women’s and gender studies and a teaching practicum that helps prepare them to teach an introductory women’s studies course. The minor is recommended for students who seek positions in women’s and/or gender studies departments or joint positions for which part of the responsibility is to women’s and/or gender studies.

Students are required to complete 10 hours of graduate-level coursework, including WMST 6980 (Feminist Theory; 3 hours) and WMST 7910 (Teaching Practicum; 1 hour). Students fulfill the remaining hours with graduate courses cross-listed with Women’s Studies; these must be from outside of the student’s home department. See the Women’s Studies Program website for a full listing of course offerings. http://www.cla.auburn.edu/womensstudies/womens-studies-minor/graduate-curriculum/

For more information, contact Dr. Joyce de Vries, director of the Women's Studies Program.
The following is a list of full-time teaching Graduate faculty at Auburn University. The date indicates the year of first appointment to any position in the institution.

ZENOR, PHILLIP L., Professor Emeritus, July 2009, BS MS PhD Houston (MATHEMATICS AND STATISTICS)

ZORR JR, PAUL A., Professor Emeritus, 2014, MArch BArch Illinois Inst (ARCHITECTURE)

ZUK, GARY, Professor Emeritus, July 2009, BA Canisius, MS PhD Florida State (POLITICAL SCIENCE)
Courses of Instruction

This section lists and describes all undergraduate and graduate courses taught by the departments of the university. The courses are presented by subject area and arranged in departmental order, alphabetically. The subject name (the heading in large type) is followed by the subject area code in parentheses.

Click here for Course Numbering logic

For schedule of courses, see the World Wide Web at www.auburn.edu/academic/au_academic.html and click “Course Schedule.”

Courses of Instruction

By Subject

Accounting - ACCT (p. 1488)
Adult Education - ADED (p. 1490)
Aerospace Engineering - AERO (p. 1492)
Aerospace Studies (AFROTC) - AIRF (p. 1497)
Africana Studies - AFRI (p. 1497)
Agricultural Economics - AGEC (p. 1498)
Agriculture - AGRI (p. 1500)
Animal Sciences - ANSC (p. 1501)
Anthropology - ANTH (p. 1505)
Architecture - ARCH (p. 1507)
Art - ARTS (p. 1510)
Aviation Management - AVMG (p. 1515)
Biochemistry - BCHE (p. 1516)
Biology - BIOL (p. 1517)
Biosystems Engineering - BSEN (p. 1527)
Building Science - BSCI (p. 1532)
Business Administration - BUSI (p. 1535)
Business Analytics - BUAL (p. 1537)
Career and Technical - CTCT (p. 1538)
Cell and Molecular Biology - CMBL (p. 1542)
Chemical Engineering - CHEN (p. 1544)
Chemistry - CHEM (p. 1549)
Civil Engineering - CIVL (p. 1553)
Clinical Pharmacy Practice - PYPP (p. 1562)
Communication - COMM (p. 1562)
Communication and Journalism - CMJN (p. 1570)
Communication Disorders - CMDS (p. 1566)
Community and Civic Engagement - CCEN (p. 1572)
Community Planning - CPLN (p. 1570)
Computer Science & Software Engineering - COMP (p. 1572)
Consumer and Design Sciences - CADS (p. 1580)
Cooperative Education - COOP (p. 1585)
Counselor Education, Counseling Psychology - COUN (p. 1585)
Crop, Soil, and Environmental Sciences - CSES (p. 1588)
Design Build - DBLD (p. 1593)
Early Childhood Education - CTEC (p. 1594)
Economics - ECON (p. 1596)
Courses of Instruction

Ed Res Methods & Analysis - ERMA (p. 1600)
Educ Psychology - EPSY (p. 1601)
Educational Leadership - EDLD (p. 1602)
Educational Media - EDMD (p. 1605)
Electrical and Computer En - ELEC (p. 1606)
Elementary Education - CTEE (p. 1614)
Engineering - ENGR (p. 1615)
English - ENGL (p. 1617)
English for Spkrs Other Lang - CTES (p. 1623)
Entomology - ENTM (p. 1624)
EntreprenFamily Business - ENFB (p. 1627)
Environmental Design - ENVD (p. 1628)
Environmental Science - ENVI (p. 1628)
Finance - FINC (p. 1629)
Fisheries & Allied Aqua - FISH (p. 1631)
Flight Education - AVMF (p. 1636)
Food Science - FDSC (p. 1637)
Foreign Languages - FLNG (p. 1639)
Foreign Lng-Asian Culture - FLAS (p. 1640)
Foreign Lng-Chinese - FLCN (p. 1640)
Foreign Lng-French - FLFR (p. 1641)
Foreign Lng-German - FLGR (p. 1643)
Foreign Lng-Global Cultures - FLGC (p. 1645)
Foreign Lng-Greek - FLGK (p. 1645)
Foreign Lng-Italian - FLIT (p. 1645)
Foreign Lng-Japanese - FLJP (p. 1646)
Foreign Lng-Korean - FLKN (p. 1647)
Foreign Lng-Latin - FLLN (p. 1647)
Foreign Lng-Russian - FLRU (p. 1648)
Foreign Lng-Spanish - FLSP (p. 1648)
Forest Engineering - FOEN (p. 1652)
Forest Products - FOPR (p. 1653)
Forestry - FORY (p. 1655)
Forestry & Wildlife Sci. - FOWS (p. 1654)
Foundations Of Educ - FOUN (p. 1660)
Geography - GEOG (p. 1661)
Geology - GEOL (p. 1664)
Global Studies/Human Sciences - GSHS (p. 1668)
Graduate Studies - GRAD (p. 1668)
Graphic Design - GDES (p. 1669)
Health Administration - HADM (p. 1671)
Higher Education Admin - HIED (p. 1672)
History - HIST (p. 1673)
Honor - HONR (p. 1682)
Horticulture - HORT (p. 1683)
Hotel & Restaurant Mgt - HRMT (p. 1686)
Human Dev & Family Studies - HDFS (p. 1689)
Human Resource Mngt - HRMN (p. 1692)
Human Sciences, General - HUSC (p. 1694)
Industrial & Sys Eng - INSY (p. 1695)
Industrial Design - INDD (p. 1700)
Information Systems Management - ISMN (p. 1702)
Integrated Textile & Appar - ITAS (p. 1706)
Integrd Design & Construction - INDC (p. 1707)
Interdepartmental Education - EDUC (p. 1708)
Interdept Pharmacy - PYDI (p. 1708)
Interdisciplinary Studies - IDSC (p. 1711)
Interior Architecture - ARIA (p. 1711)
Intl Programs-Special Topics - INTL (p. 1712)
Journalism - JRNL (p. 1712)
Kinesiology - KINE (p. 1714)
Laboratory Science - LBSC (p. 1721)
Landscape Architecture - LAND (p. 1722)
Liberal Arts, General - LBAR (p. 1726)
Management - MNGT (p. 1726)
Marketing - MKTG (p. 1729)
Materials Engineering - MATL (p. 1731)
Mathematics - MATH (p. 1734)
Mechanical Engineering - MECH (p. 1747)
Media Studies - MDIA (p. 1754)
Middle School Educ - CTMD (p. 1756)
Military Science (AROTC) - MILS (p. 1756)
Music - Applied - MUAP (p. 1757)
Music - MUSI (p. 1759)
Music Education - CTMU (p. 1765)
Music Ensemble - MUSE (p. 1767)
Naval Science (NROTC) - NAVS (p. 1775)
Nursing - NURS (p. 1775)
Nutrition - NTRI (p. 1780)
Pharmacal Sciences - PYPS (p. 1784)
Pharmacy Care Systems - PYPC (p. 1786)
Philosophy - PHIL (p. 1787)
Physical Education - PHED (p. 1789)
Physics - PHYS (p. 1792)
Plant Pathology - PLPA (p. 1795)
Political Science - POLI (p. 1797)
Polymer & Fiber Engineering - PFEN (p. 1804)
Poultry Science - POUL (p. 1807)
Psychology - PSYC (p. 1809)
Public Relations Commu - PRCM (p. 1815)
Reading Education - CTRD (p. 1816)
Real Estate Development - RDEV (p. 1817)
Rehabilitation & Spec Educ - RSED (p. 1818)
Religion - RELG (p. 1825)
Rural Sociology - RSOC (p. 1825)
Sciences & Math - SCMH (p. 1827)
Accounting - ACCT

Courses

**ACCT 2110 PRINCIPLES OF FINANCIAL ACCOUNTING (3)** LEC. 3. Basic accounting principles with focus on preparation and use of financial statements. Credit will not be given for both ACCT 2110 and ACCT 2810. Sophomore standing.

**ACCT 2117 HONORS PRINCIPLES OF FINANCIAL ACCOUNTING (3)** LEC. 3. Pr. Honors College Basic accounting principles with focus on preparation and use of financial statements. Sophomore standing.

**ACCT 2210 PRINCIPLES OF MANAGERIAL ACCOUNTING (3)** LEC. 3. Pr. ACCT 2110 or ACCT 2117. Emphasis on cost accounting, budgeting, and decision making using managerial accounting information. Sophomore standing.

**ACCT 2700 BUSINESS LAW (3)** LEC. 3. Introduction to contracts, sales, torts, ethics and the judicial system. Focus is on the business environment.

**ACCT 2810 FUNDAMENTALS OF ACCOUNTING (3)** LEC. 3. Principles of financial and managerial accounting. Not open to undergraduates majoring in Business. Credit will not be given for both ACCT 2110 and ACCT 2810.

**ACCT 3110/3113 INTERMEDIATE ACCOUNTING I (3)** LEC. 3. Pr. ACCT 2110 or ACCT 2117. Accounting principles and theory including accounting for current assets, liabilities, and investments. Junior Standing.

**ACCT 3120/3123 INTERMEDIATE ACCOUNTING II (3)** LEC. 3. Pr. ACCT 3110 or ACCT 3113. Grade of C or better. Continuation of ACCT 3110, with emphasis on fixed assets, capital structure, and cash flows. Junior Standing.

**ACCT 3210/3213 COST ACCOUNTING (3)** LEC. 3. Pr. ACCT 2110 or ACCT 2117. A study of how cost data for products, projects, or services are recorded, analyzed, and used for decision making. Junior standing.

**ACCT 3510/3513 ACCOUNTING INFORMATION SYSTEMS (3)** LEC. 3. Pr. ACCT 3110 or ACCT 3113. Students will learn to analyze data and solve accounting based problems using advanced spreadsheet techniques, database management systems and other analysis tools.

**ACCT 3810 PROFESSIONAL DEVELOPMENT IN ACCOUNTANCY (1)** LEC. 1. SU. Pr. P/C ACCT 3110 or P/C ACCT 3113. Career planning and preparation for transition from university student to accounting professional.

**ACCT 4140/4143 SPECIAL TOPICS IN ACCOUNTING (3)** LEC. 3. Pr. ACCT 3120 or ACCT 3123. A study of current issues in accounting theory and practice. Topics include regulations and economic and technological developments.
ACCT 4310/4313 AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. (ACCT 3120 or ACCT 3123) and ACCT 3310 or ACCT 3313. Principles of auditing standards, ethics, controls, evidence, sampling, and audit reports. May count either ACCT 4310 or ACCT 4313.

ACCT 4410/4413 INCOME TAX I (3) LEC. 3. Pr. ACCT 3110 or ACCT 3113. Principles of federal taxation as it applies to individuals and property transactions.

ACCT 4900 DIRECTED STUDIES (1-3) IND. SU. Advanced individual research and study in accounting under the direction of a faculty member. Course may be repeated for a maximum of 6 credit hours.

ACCT 4920 ACCOUNTING INTERNSHIP (1-6) LEC. SU. Internship opportunity with an accounting firm, corporation, or governmental entity. Course may be repeated for a maximum of 6 credit hours.

ACCT 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 3 credit hours.

ACCT 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 3 credit hours.

ACCT 5130/5133 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 5310/5313 ADVANCED AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313. Advanced topics in auditing and assurance services. Departmental Approval.

ACCT 5420/5423 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413. Tax accounting for individuals, partnerships, corporations, estates, and trusts. Extensive use of a tax-service program.

ACCT 5610/5613 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 5700/5703 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. (ACCT 2700 or ACCT 2990). Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments.

ACCT 6130/6136 ADVANCED ACCOUNTING TOPICS (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123. Emphasis on advanced accounting topics including business combinations, foreign currency transactions, derivatives, and other advanced financial topics.

ACCT 6310/6316 ADVANCED AUDITING AND ASSURANCE SERVICES (3) LEC. 3. Pr. ACCT 4310 or ACCT 4313. Advanced topics in auditing and assurance services.

ACCT 6420/6426 INCOME TAX II (3) LEC. 3. Pr. ACCT 4410 or ACCT 4413. Tax accounting for individuals, partnerships, corporations, estates and trusts. Extensive use of a tax-service program.

ACCT 6610/6616 GOVERNMENTAL AND NOT-FOR-PROFIT ACCOUNTING (3) LEC. 3. Pr. ACCT 3120 or ACCT 3123. Accounting for governmental and not-for-profit entities. Focus on effective use of resources.

ACCT 6700/6706 ADVANCED BUSINESS LAW (3) LEC. 3. Pr. (ACCT 2700 or ACCT 2990). Legal principles concerning secured transactions, bankruptcy, trusts and estates, partnership law, property, corporations, accountant's legal liability, and negotiable instruments.

ACCT 7110/7116 RESEARCH IN ACCOUNTING (3) LEC. 3. Pr. ACCT 5130 or ACCT 5133 or ACCT 6130 or ACCT 6136. Departmental approval. An evaluation, critique, and application of financial accounting theory to current reporting problems using current research tools and resources.

ACCT 7120/7126 INTERNATIONAL ACCOUNTING (3) LEC. 3. Pr. ACCT 5130 or ACCT 5133 or ACCT 6130 or ACCT 6136. Departmental approval. Accounting issues unique to international business activity.

ACCT 7130/7136 FINANCIAL ANALYSIS & VALUATION (3) LEC. 3. Departmental approval. Forecast of earnings and financial statements, valuation approaches and their application in accounting measurement, and financial reporting as a tool in management communication with investors.

- **ADED 4610 DIRECTED WORK EXPERIENCE (3)** LEC. 3. SU. Departmental approval. In-service, supervised work experience individually designated for part-time or summer work experience.
- **ADED 4620 COMMUNITY CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3)** LEC. 3. Departmental approval. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources.
- **ADED 4650 TEACHING THE DISADVANTAGED ADULT (3)** LEC. 3. Departmental approval. Problems of the disadvantaged adult with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in remedial learning activities.
- **ADED 4900 INDEPENDENT STUDY (1-6)** IND. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.
ADED 4910 PRACTICUM (1-6) PRA. SU. Departmental Approval. Experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 4920 PROFESSIONAL INTERNSHIP IN ADULT EDUCATION (9) INT. 9. SU. Departmental approval. Supervised internship experiences in a school or other appropriate setting. Evaluation and analysis of the internship experience. Or Minor.

ADED 4970 SPECIAL TOPICS (1-6) LEC. Departmental approval. Current or special topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 7010/7016 LEARNING RESOURCES (3) LEC. 3. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching. May count either ADED 7010 or ADED 7016.

ADED 7050/7056 METHODS OF TEACHING IN ADULT EDUCATION (3) LEC. 3. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within adult education. May count either ADED 7050 or ADED 7056.

ADED 7060/7066 CURRICULUM AND PROGRAM PLANNING IN ADULT EDUCATION (3) LEC. 3. Introduction to principles and practices involved in designing education programs in the area of specialization. May count either ADED 7060 or ADED 7066.

ADED 7600/7606 NATURE OF ADULT EDUCATION (3) LEC. 3. History and principles of adult education applied to the development and implementation of programs in remedial, occupational, continuing and lifelong learning. May count either ADED 7600 or ADED 7606.

ADED 7620/7626 CONCEPTS, PROGRAMS, AND RESOURCES IN ADULT EDUCATION (3) LEC. 3. Processes by which adult education is merged with community organizations to maximize the effective use of physical and human resources. May count either ADED 7620 or ADED 7626.

ADED 7640/7646 WORKFORCE EDUCATION (3) LEC. 3. Identification and evaluation of basic skills problems in the workplace. Strategies for addressing workplace education issues. May count either ADED 7640 or ADED 7646.

ADED 7650/7656 TEACHING THE DISADVANTAGED ADULT (3) LEC. 3. Problems of the disadvantaged adult with emphasis on the unique sociological, psychological, and physiological factors that influence learning and participation in remedial learning activities. May count either ADED 7650 or ADED 7656.

ADED 7670/7676 ADULT EDUCATION IN COOPERATIVE EXTENSION (3) LEC. 3. Exploration of the unique relationship between adult education and the Cooperative Extension System. May count either ADED 7670 or ADED 7676.

ADED 7680/7686 LEARNING STYLES IN ADULT EDUCATION (3) LEC. 3. This course is designed to provide students with an understanding of the various learning styles perspectives in Adult Education. May count either ADED 7680 or ADED 7686.

ADED 7900 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 3 credit hours.

ADED 7910/7916 PRACTICUM (1-3) PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 3 credit hours.

ADED 7920/7926 INTERNSHIP (1-10) INT. SU. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. May count either ADED 7920 or ADED 7926. Course may be repeated for a maximum of 10 credit hours.

ADED 7950 SEMINAR (1-3) SEM. SU. Presentation of research projects, analysis of procedures, and findings. Course may be repeated for a maximum of 3 credit hours.

ADED 7960 READINGS (1-3) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

ADED 7970 SPECIAL TOPICS (1-6) LEC. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

ADED 7990/7996 RESEARCH AND THESIS (1-10) MST. Departmental approval. Individualized support and direction for students writing their thesis. Course may be repeated with change in topics.
ADED 8900 DIRECTED STUDIES (1-6)  IND. SU. Departmental approval. Independent study directed toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

ADED 8910 PRACTICUM (1-6)  PRA. SU. Departmental approval. Experiences closely relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

ADED 8920 INTERNSHIP (1-10)  INT. SU. Departmental approval. Supervised internship experiences in a school, college, or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

ADED 8950 SEMINAR (1-6)  SEM. SU. Presentation by graduate students of research projects and/or analysis of procedures and findings. Course may be repeated for a maximum of 6 credit hours.

ADED 8960 SPECIAL PROBLEMS (1-6)  IND. Departmental approval. Critical analysis of current and classical research writings. Course may be repeated for a maximum of 6 credit hours.

ADED 8970 SPECIAL TOPICS (1-6)  LEC. Departmental approval. Current or advanced topics within adult education. Course may be repeated for a maximum of 6 credit hours.

ADED 8980/8986 FIELD PROJECT (1-10)  FLD. SU. Field project formulated, planned, conducted, evaluated, and reported in appropriate written form and oral formats under the direction of the student's major professor. Course may be repeated for a maximum of 10 credit hours.

ADED 8990/8996 RESEARCH AND DISSERTATION (1-10)  DSR. Departmental approval. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours

Aerospace Engineering - AERO

Courses

AERO 2200 AEROSPACE FUNDAMENTALS (2)  LEC. 1. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (PHYS 1600 or PHYS 1607). C or better in PHYS 16000 Introduction to the fundamental physical concepts required for the successful design of aircraft and spacecraft.

AERO 3040 ELEMENTARY METEOROLOGY (3)  LEC. 3. Basic principles, causes, effects and phenomena of weather with fundamental techniques of forecasting.

AERO 3110 AERODYNAMICS I (3)  LEC. 3. Pr. MATH 2650 and AERO 2200. C or better in AERO 2200. Properties of fluids, fluid statics, conservation of mass and momentum, atmospheric properties, two dimensional airfoils, three dimensional wings, drag, and flight performance.

AERO 3120 AERODYNAMICS II (3)  LEC. 3. Pr. ENGR 2010 and MATH 2650 and AERO 2200. C or better in AERO 2200. Principles of compressible flow including flows with area changes, friction and heat transfer. Fundamental analysis of aerodynamics and potential flow theory. Correlation of potential flow theory with experimental data.

AERO 3130 AERODYNAMICS LABORATORY (2)  LEC. 1. LAB. 3. Pr. P/C AERO 2200. C or better in AERO 2200. Application of fundamental aerodynamic principles to subsonic and supersonic wind tunnel experiments.

AERO 3220 AEROSPACE SYSTEMS (3)  LEC. 3. Pr. ENGR 2350 and MATH 2650. C or better in ENGR 2350. Modeling of system elements, classical feedback control techniques used in the analysis of linear systems, analysis of systems undergoing various motions connected with flight.

AERO 3230 FLIGHT DYNAMICS (4)  LEC. 3. LAB. 3. Pr. AERO 3110 and ENGR 2350 and MATH 2650. C or better in ENGR 2350. Airplane performance and stability and control including analytical prediction of performance characteristics, experimental determination of static stability parameters, and analytical prediction of dynamic stability characteristics.

AERO 3310 ORBITAL MECHANICS (3)  LEC. 3. Pr. ENGR 2350 and MATH 2650. C or better in ENGR 2350. Geometry of the solar system and orbital motion, mathematical integrals of motion, detailed analysis of two-body dynamics and introduction to artificial satellite orbits; Hohmann transfer and patched conics for lunar and interplanetary trajectories.

AERO 3610 AEROSPACE STRUCTURES I (2)  LEC. 1. LAB. 3. Pr. ENGR 2070. Fundamental concepts employed in the mechanical testing of engineering materials and structures. Load, stress, and strain measurement techniques are utilized to determine material properties and structural response.
AERO 3970 SPECIAL TOPICS (1-3) AAB. SU. Departmental approval. Investigation of various topics in Aerospace Engineering. Course may be repeated for a maximum of 6 credit hours.

AERO 4140 AERODYNAMICS III (3) LEC. 3. Pr. AERO 3110 and AERO 3120. Theoretical background essential to a fundamental understanding of laminar and turbulent boundary layers and their relations to skin friction and heat transfer.

AERO 4510 AEROSPACE PROPULSION (4) LEC. 3. LAB. 3. Pr. AERO 3120. Fundamental analysis of airbreathing jet propulsion. Introduction to chemical rocket propulsion.

AERO 4620 AEROSPACE STRUCTURES II (4) LEC. 3. LAB. 3. Pr. AERO 3610 and MATH 2660. Aircraft and space vehicle structures. An introduction to the finite element method and its application to structural analysis. The laboratory will utilize state-of-the-art software numerical solution of aerospace structural systems.

AERO 4630 AEROSPACE STRUCTURAL DYNAMICS (4) LEC. 3. LAB. 3. Pr. AERO 4620. Free, forced and damped vibration of single and multiple degree-of-freedom systems. The laboratory will utilize state-of-the-art software for the analysis of the vibration and dynamic response of structural systems.

AERO 4710 AEROSPACE DESIGN I (3) LEC. 2. LAB. 3. Pr. AERO 3120. Introduction to the principles required to design aerospace vehicles.

AERO 4720 AEROSPACE DESIGN II (3) LEC. 2. LAB. 3. Pr. AERO 4710. This course is continuation of AERO 4710.

AERO 4730 SPACE MISSION DESIGN I (3) LEC. 2. LAB. 3. Pr. AERO 3120. And permission of the department. Introduction to the design of space systems including the identification of launch requirements, spacecraft system components, satellite tracking and orbital analysis to achieve a stated scientific objective.

AERO 4740 SPACE MISSION DESIGN II (3) LEC. 2. LAB. 3. Pr. AERO 4730. A continuation of AERO 4730, Space Mission Design I.

AERO 4970 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) AAB. Departmental approval. Investigation of current state-of-the-art technologies in aerospace engineering. Course may be repeated for a maximum of 9 credit hours.

AERO 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Membership in the Honors College and departmental approval required; Directed research and writing of an honors thesis. Course may be repeated for a maximum of 3 credit hours.

AERO 4AA0 PROGRAM ASSESSMENT (0) LAB. SU. Pr. P/C AERO 4710 or P/C AERO 4730. Academic program assessment covering the areas of aerodynamics, aerospace structures, orbital mechanics, propulsion and vehicle design.

AERO 5110 MISSILE AERODYNAMICS (3) LEC. 3. Pr. AERO 3120. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 5120 ROTARY WING AERODYNAMICS (3) LEC. 3. Pr. AERO 3110. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 5320 APPLICATIONS OF THE GLOBAL POSITIONING SYSTEM (3) LEC. 3. Departmental approval. Operating principles of the control, space and user segments of the Global Positioning System. Implementation of post-processing and real-time positioning strategies and applications. Field work demonstrating the use of GPS receivers, data processing and position accuracy.

AERO 5330 APPLIED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 3310. Special perturbation techniques: N-body perturbations; general and restricted three-body problems; preliminary orbit determination; C-W equations, targeting and rendezvous; constellation design; mission planning.

AERO 5340 SATELLITE APPLICATION (3) LEC. 3. Pr. AERO 3310. AERO 3310 or departmental approval; Principles related to the application of satellites to remote sensing, telecommunications, navigation and trajectory determination. Principles of space policy applied to both the unmanned and manned space flight programs.
AERO 5410 AEROACOUSTICS (3) LEC. 3. Pr. AERO 3120 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410 or AERO 6410.

AERO 5460 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2660 or Departmental approval. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 5520 ROCKET PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 5530 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 5630 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 5750 LEGAL ASPECTS OF ENGINEERING PRACTICE (3) LEC. 3. Pr. PHIL 1020 or PHIL 1023 or PHIL 1027. The role of the law in the manufacture of a product. Ethical issues that may confront designers and engineers.

AERO 6110/6116 MISSILE AERODYNAMICS (3) LEC. 3. Pr. AERO 3120. Coreq. AERO 4140. Aerodynamics of slender wing-body combinations, interference effects, linear and non-linear effects, applications to missile design and performance.

AERO 6120/6126 ROTARY WING AERODYNAMICS (3) LEC. 3. Pr. AERO 3110. Aerodynamics and flight characteristics of rotary-wing aircraft.

AERO 6320/6326 APPLICATIONS OF THE GLOBAL POSITIONING SYSTEM (3) LEC. 3. Departmental approval. Operating principles of the control, space and user segments of the Global Positioning System. Implementation of post-processing and real-time positioning strategies and applications. Field work demonstrating the use of GPS receivers, data processing, and position accuracy.

AERO 6330/6336 APPLIED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 3310. Special perturbation techniques: N-body perturbations; general and restricted three-body problems; preliminary orbit determination; C-W equations, targeting and rendezvous; constellation design; mission planning.

AERO 6340/6346 SATELLITE APPLICATION (3) LEC. 3. Pr. AERO 3310. Departmental approval. Principles related to the application of satellites to remote sensing, telecommunications, navigation and trajectory determination. Principles of space policy applied to both the unmanned and manned space flight programs.

AERO 6410/6416 AEROACOUSTICS (3) LEC. 3. Pr. AERO 4140 or Departmental approval. Fundamental concepts in acoustics: decibel scales, sound propagation and measurement, plane and spherical waves, room acoustics, transmission and reflection, reverberant fields and noise assessment. May count either AERO 5410/5413 or AERO 6410/6416.

AERO 6460/6466 PERTURBATION METHODS (3) LEC. 3. Pr. MATH 2660. Departmental approval. Analytical solutions of nonlinear problems, ODEs, PDEs, multiple scales, and transcendental equations in engineering, mathematics, and physics using both regular and singular perturbation methods. May count either AERO/MATH 5460 or AERO/MATH 6460.

AERO 6520/6526 ROCKET PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of the thermodynamics, gas dynamics and design of liquid and solid propellant rocket engines.

AERO 6530/6536 SPACE PROPULSION (3) LEC. 3. Pr. AERO 4510. Analysis of space propulsion systems. Dynamics of electromagnetic systems, ion engines, photon drives, laser propulsion.

AERO 6630/6636 AEROSPACE APPLICATIONS OF COMPOSITE MATERIALS (4) LEC. 3. LAB. 3. Pr. AERO 3610. Basic material and manufacturing information for laminated composite structures. Computational structural analysis of typical aerospace composite structures coupled with experimental verification of the structural response.

AERO 6750/6756 LEGAL ASPECTS OF ENGINEERING PRACTICE (3) LEC. 3. Pr. PHIL 1020 or PHIL 1023 or PHIL 1027. The role of the law in the manufacture of a product. Ethical issues that may confront designers and engineers.

AERO 7100/7106 ADVANCED SUPersonic AERODYNAMICS (3) LEC. 3. Pr. AERO 4140. A rigorous development of linearized and nonlinear flow theories and application. Lifting surfaces, lifting bodies, duct flow, boundary layer effects, shock and expansion waves and method of characteristics.

AERO 7110/7116 AIRFOIL AERODYNAMICS (3) LEC. 3. Pr. AERO 3120. Thin airfoil theory, Joukowski transformations, Karman Trefftz transformations, thick airfoil theory, panel methods and comparison with experimental data.

AERO 7120/7126 DYNAMICS OF VISCOS FLUIDS I (3) LEC. 3. Pr. AERO 7100 or AERO 7106. Exact solutions to the Navier Stokes equations. Exact and approximate solutions of the laminar boundary layer equations. Incompressible and compressible boundary layers in theory and experiment.

AERO 7130/7136 DYNAMICS OF VISCOS FLUIDS II (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Turbulent flows, the Reynolds stresses and turbulence modeling. Computation of incompressible and compressible turbulent boundary layers. Stability theory and transition.

AERO 7140/7146 ADVANCED COMPUTATIONAL FLUID DYNAMICS (3) LEC. 3. Pr. AERO 5140 and AERO 6140. Advanced methods for solving problems in computational fluid dynamics. Topics include: discretization approaches, implicit solution techniques, curvilinear coordinate systems, and upwind schemes.

AERO 7160/7166 PHYSICAL FOUNDATIONS OF TURBULENCE (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to turbulence using classical descriptions with a focus on the physics of turbulence phenomena. May count either AERO 7160 or AERO 7166.

AERO 7210/7216 FLIGHT DYNAMICS OF HYPERVELOCITY VEHICLES (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of hypersonic flight vehicle motion. Stability concepts and analysis of the stability of steady-state motions of very high speed flight vehicles.

AERO 7230/7236 HELICOPTER DYNAMICS AND CONTROL (3) LEC. 3. Pr. AERO 7200 or AERO 7206. Departmental approval. Development of specialized concepts and methods in dynamics applicable to the modeling of helicopters. Analysis of helicopter stability and controllability.

AERO 7330/7336 ORBIT DETERMINATION (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of orbit determination; least squares, minimum norm, minimum variance solutions; batch, sequential and extended sequential filters.

AERO 7340/7346 ADVANCED ORBITAL MECHANICS (3) LEC. 3. Pr. AERO 6330 or AERO 6336 or AERO 6230 or AERO 6236. Elements of time measurements, earth orientation/coordinate system; f and g series; Lambert's Problem; linear orbit theory and circumlunar trajectories.

AERO 7350/7356 OPTIMAL CONTROL OF AEROSPACE VEHICLES (3) LEC. 3. Pr. AERO 3220. Principles of optimization; Pontryagin's principle; Linear quadratic regulator; Observers, state estimation, LQG problem. Optimal output feedback; Synthesis of flight control systems. AERO 3220 or equivalent.
AERO 7370/7376 FUNDAMENTALS OF THE GLOBAL POSITIONING SYSTEM (3) LEC. 3. Pr. AERO 7330 or AERO 7336 or AERO 7230 or AERO 7236. Departmental approval. Principles of the Global Positioning System: GPS overview and historical development; modeling of pseudo-range and carrier phase measurements; positioning solution strategies using kinematic, dynamic, and reduced dynamic techniques.

AERO 7390/7396 SATELLITE REMOTE SENSING (3) LEC. 3. Departmental approval. Topics in satellite remote sensing principles and techniques including active and passive instruments, data processing, and geophysical parameter recovery algorithms.

AERO 7410/7416 LIGHT-FIELD IMAGING (3) LEC. 3. Pr. AERO 7160 or AERO 7166. Departmental approval. An introduction to light-field imaging. Topics include light parameterization, light field cameras, computational photography and Fourier slice photography theorem. May count either AERO 7410 or AERO 7416.

AERO 7420/7426 PARTICLE IMAGE VELOCIMETRY (3) LEC. 3. Pr. AERO 7120 or AERO 7126. Departmental approval. An introduction to particle image velocimetry and its variations including conventional planar PIV, stereo PIV, stereo-PIV and torno-PIV. May count either AERO 7420 or AERO 7426.

AERO 7510/7516 THRUST GENERATION (3) LEC. 3. Pr. AERO 4510. Aerothermodynamics of propulsion. Selected topics in gas dynamics, thermodynamics, and heat transfer as applied to airbreathing and space propulsion.

AERO 7610/7616 ADVANCED AEROSTRUCTURES (3) LEC. 3. Pr. AERO 4620. Departmental approval. Development of the fundamental principles of the analysis of non-linear problems in solid mechanics. Structural problems involving non-linear deflections and/or material properties.

AERO 7620/7626 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STATIC STRUCTURES (3) LEC. 3. Pr. AERO 4620. Departmental approval. Advanced techniques for the numerical solution of static elastic and plastic problems, including two and three dimensional solutions.

AERO 7630/7636 AEROSPACE COMPUTATIONAL STRUCTURAL ANALYSIS: STRUCTURAL DYNAMICS (3) LEC. 3. Pr. AERO 4630. Departmental approval. Advanced techniques for the numerical solution to problems in structural dynamics, including steady state and transient response of two-and three-dimensional structures.

AERO 7640/7646 ADAPTIVE AERO-STRUCTURES (4) LEC. 3. LAB. 3. Departmental approval. Basic material and manufacturing information for materials employed in adaptive structures. Shape-memory, magnetostrictive, magnetorheological-electrorheological and piezoelectric materials are examined.

AERO 7660/7666 AEROLASTICITY (3) LEC. 3. Pr. AERO 4630. Introduction to the field of aeroelasticity and the interaction therein of structural mechanics and fluid mechanics with dynamics as the "interface adhesive" between them. Flutter, divergence, aileron reversal and related phenomena.

AERO 7670/7676 INTRODUCTION TO LARGE SPACE STRUCTURES (3) LEC. 3. Pr. AERO 4630. Large space structures and their unique concepts, novel on-earth testing requirements, variety of damping schemes and analysis techniques. Concepts and analysis related to shape control, active and passive damping, and structural dynamics/controls interaction.

AERO 7950 SEMINAR (1) LEC. 1. SU. Weekly lectures on current developments in aerospace sciences by staff members, graduate students, and visiting scientists and engineers.

AERO 7970/7976 SPECIAL TOPICS IN AEROSPACE ENGINEERING (1-3) LEC. Course may be repeated for a maximum of 9 credit hours.
AEROSPACE ENGINEERING PROJECT (3) LEC. 3. SU. Departmental approval. Intended for students in the MAE program. On or off-campus project. The nature of the project is to be determined by the student's major professor. Approval of the project and its final written report by the student's advisory committee is required. Course may be repeated with change in topic.

AEROSPACE ENGINEERING PROJECT (1-10) MST. Credit hours to be arranged. Course may be repeated with change in topics.

AEROSPACE ENGINEERING PROJECT (1-10) DSR. Course may be repeated with change in topics.

Aerospace Studies (AFROTC) - AIRF

Courses

AIRF 1010 THE FOUNDATIONS OF US AIR FORCE (1) LEC. 1. Introduction to the US Air Force and Air Force ROTC.

AIRF 1011 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 1020 THE FOUNDATIONS OF US AIR FORCE (1) LEC. 1. Introduction to the US Air Force and Air Force ROTC.

AIRF 1021 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Coreq. AIRF 1020. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 2010 EVOLUTION OF US AIR AND SPACE POWER (1) LEC. 1. Air and space power history, doctrine, capabilities and functions.

AIRF 2011 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Coreq. AIRF 2010. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 2020 EVOLUTION OF US AIR AND SPACE POWER (1) LEC. 1. Air and space power history, doctrine, capabilities and functions.

AIRF 2021 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 3010 NATIONAL SECURITY AFFAIRS AND PREPARATION FOR ACTIVE DUTY (3) LEC. 3. Pr. AIRF 2020. Departmental approval. Coreq. AIRF 3011. Advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and supervision concepts.

AIRF 3011 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 3020 NATIONAL SECURITY AFFAIRS AND PREPARATION FOR ACTIVE DUTY (3) LEC. 3. Pr. AIRF 3010. Departmental approval. Coreq. AIRF 3021. Advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and supervision concepts.

AIRF 3021 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 4010 NATIONAL SECURITY AFFAIRS AND PREPARATION FOR ACTIVE DUTY (3) LEC. 3. Pr. AIRF 3020. Departmental approval. For AFROTC senior cadets. The role of military officers in American society.

AIRF 4011 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force.

AIRF 4020 NATIONAL SECURITY AFFAIRS AND PREPARATION FOR ACTIVE DUTY (3) LEC. 3. Pr. AIRF 4010. Departmental approval. For AFROTC senior cadets. The roles of military officers in American society.

AIRF 4021 AFROTC LEADERSHIP LABORATORY (0) LAB. 2. SU. Departmental approval. Coreq. AIRF 4020. Required AFROTC Leadership Laboratory for students who are pursuing a commission in the US Air Force. Course may be repeated for a maximum of 2 credit hours.

Africana Studies - AFRI
Courses

AFRI 2000 INTRODUCTION TO AFRICANA STUDIES (3) LEC. 3. Pr. (ENGL 1120 or ENGL 1127). An introduction to theory and method that offers an interdisciplinary perspective on Africa and the African Diaspora taught from different academic disciplines including education, the sciences, social sciences, and the liberal arts.

Agric Economics - AGEC

Courses

AGEC 3010/3013 AGROBUSINESS MARKETING (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Principles and problems of marketing farm and agribusiness products including marketing methods, channels, structures, and institutions.

AGEC 3050 FARM APPRAISAL (2) LEC. 2. Theory of land values; terminology, processes and procedures for alternative appraisal purposes; factors affecting value; and evaluation of appraisal methods.

AGEC 3080 FUTURES AND OPTIONS MARKETING (2) LEC. 2. Pr. (ECON 2020 or ECON 2023 or ECON 2027). Functions institutions, economic performance and practices and procedures involved in utilizing futures and options markets to manage market price risks.

AGEC 3100 COMPUTER APPLICATIONS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. (COMP 1000 or COMP 1003) and (P/C STAT 2010 or P/C STAT 2017 or P/C STAT 2510 or P/C STAT 2513 or P/C STAT 2610). Analytical methods for agricultural economics: spreadsheet applications, optimization, regression, budgeting, and risk management.

AGEC 3300 AGRICULTURAL POLICIES AND TRADE (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Public policies affecting agriculture. Theory and significance of international trade, distribution of production and trade, issues and policies, and influence of exchange rates.

AGEC 3920 AGRICULTURAL BUSINESS AND ECONOMICS INTERNSHIP (1-3) INT. SU. Departmental approval. Practical experience with agricultural business firms and agencies including finance, farm supply, production, marketing and sales and government. Course may be repeated for a maximum of 6 credit hours.

AGEC 3950 CAREERS IN AGRICULTURAL BUSINESS AND ECONOMICS (1) LEC. 1. SU. To develop skills to find a job and learn about career opportunities in agricultural business and economics.

AGEC 4000 PRINCIPLES OF AGROBUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2027 or ECON 2023). Economics and business principles applied to agriculture: business formation, composing and analyzing financial statements, financial analysis and decision-making functions of management, capital budgeting and investment decisions. (Credit will not be given to majors in AGEC, ECON, or business).

AGEC 4040 AGRICULTURAL FINANCE (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (P/C ACCT 2110 or ACCT 2117 or ACCT 2810) and (STAT 2010 or STAT 2510 or STAT 2610). Economic problems and policies in financing agriculture.

AGEC 4070 AGRICULTURAL LAW (3) LEC. 3. Recognition of legal problems associated with property ownership, contracts, torts, financing, estate planning and environmental controls and restrictions.

AGEC 4100 AGRICULTURAL COOPERATIVES (2) LEC. 2. Principles and problems of organizing and operating farmers’ cooperative buying and selling associations.

AGEC 4120 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS (3) LEC. 3. Economic principles related to common property, public goods, property rights, externalities and resource scarcity and allocation applied to current issues.

AGEC 4960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-2) IND. Departmental approval. Individual or group projects with a faculty member in agricultural economics or agribusiness. May include research, data analysis or a combination of these. Course may be repeated for a maximum of 4 credit hours.

AGEC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College Membership in the Honors College required; Topics in agricultural economics. Course may be repeated for a maximum of 3 credit hours.

AGEC 4970 SPECIAL TOPICS IN AGRICULTURAL ECONOMICS (1-3) LEC. SU. Departmental approval. May be repeated with change of topic. Course may be repeated for a maximum of 6 credit hours.
AGEC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

AGEC 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College Directed research and writing of honors thesis. Course may be repeated for a maximum of 3 credit hours.

AGEC 5010 FARM MANAGEMENT (3) LEC. 3. Pr. (MATH 1680 or MATH 1683) and (ECON 2020 or ECON 2023 or ECON 2027) and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610) and (ACCT 2110 or ACCT 2117 or ACCT 2810) and AGEC 3100. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 5030 AGRICULTURAL PRICES (3) LEC. 3. Pr. (STAT 2010 or STAT 2510 or STAT 2610) and (MATH 1690 or MATH 1620 or MATH 1623 or MATH 1627) and ECON 3020. Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring.

AGEC 5090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc.

AGEC 5100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and AGEC 3100 and (P/C ACCT 2210 or P/C ACCT 2217 or P/C ACCT 2810) and AGEC 4040. Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools.

AGEC 5210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 5100 and ECON 3020 and MATH 1690 and (STAT 2010 or STAT 2510 or STAT 2610). Case studies, managerial economics.

AGEC 6010 FARM MANAGEMENT (3) LEC. 3. Pr. (COMP 1000 or COMP 1003) and ECON 3020. Principles of economics applied to agriculture; uses of farm records to improve management of the farm; developing enterprise budgets and use in preparing a profit-maximizing farm plan.

AGEC 6030 AGRICULTURAL PRICES (3) LEC. 3. Pr. ECON 3020 and MATH 1690 and (STAT 2510 or STAT 2513 or STAT 2610). Functions of prices and principles of supply and demand in price determination for agricultural products and markets. Statistical estimation of price and demand relationships. Spring.

AGEC 6090 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS I (3) LEC. 3. Pr. ECON 3020. Supply, demand, future requirements and availability of environmental and natural resources plus institutional framework affecting and conditioning such use through property rights, zoning, taxation, etc.

AGEC 6100 AGRICULTURAL BUSINESS MANAGEMENT (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (COMP 1000 or COMP 1003) and AGEC 4040 and (ACCT 2210 or ACCT 2217). Principles and problems in acquiring or starting, organizing, and operating successful agribusiness; financial and operational efficiency; human resource and public relations; decision-making tools.

AGEC 6210 ADVANCED AGRIBUSINESS MANAGEMENT (3) LEC. 3. Pr. AGEC 6100 and ECON 3020 and MATH 1690 and (STAT 2510 or STAT 2513 or STAT 2610). Case studies, managerial economics.

AGEC 7000 ADVANCED AGRICULTURAL AND ENVIRONMENTAL POLICY (3) LEC. 3. Pr. (AGEC 6090 and AGEC 3300) or AGEC 6030 or AGEC 4300. Food and farm problems and related governmental actions from historical, political and analytical viewpoints. Welfare economics and other procedures used to evaluate costs and benefits of existing and proposed governmental programs and actions affecting agriculture, environment and the consumer.

AGEC 7010 ADVANCED FARM MANAGEMENT (3) LEC. 3. Pr. AGEC 6010. Advanced theory and application of farm management principles and economic concepts to agriculture. Planning, implementation, and control of various types of farms for optimum utilization of available resources.

AGEC 7030 ADVANCED AGRICULTURAL PRICES (3) LEC. 3. Pr. AGEC 6030 and ECON 6020. Theory and measurement of farm supply, retail demand and marketing-margin relationships. Introduction to equilibrium-displacement modeling.

AGEC 7080 PRODUCTION ECONOMICS I (3) LEC. 3. Pr. ECON 6020. Resource allocation and efficiency of production in the firm, between firms, and between agriculture and other industries.
AGEC 7090 RESOURCE ECONOMICS II (3) LEC. 3. Pr. AGEC 6090. Analysis of institutional and economic factors affecting use of natural resources including economic feasibility/conservation, benefit-cost analysis, environmental controls and other interventions.

AGEC 7100 OPERATIONS RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Optimization techniques with emphasis on linear programming and its extensions applied to agriculture. General theoretical background and associated computational procedures are used for presentation of models and modeling techniques.

AGEC 7110 AGRICULTURAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Conceptual and empirical analysis of economic development with emphasis on the lesser developed areas and countries. Analysis of financial and technical aid to other countries case studies of development problems.

AGEC 7200 AQUACULTURAL ECONOMICS I (3) LEC. 3. Pr. ECON 2020 or ECON 2027 or ECON 2023. Application of economic theories and principles to production, marketing, and consumption of aquacultural enterprises and products. Role of aquaculture in economic development.

AGEC 7250 AQUACULTURAL ECONOMICS II (3) LEC. 3. Pr. AGEC 7200. Application of advanced economic theory and principles of production, marketing, and consumption of aquacultural products. Analysis of comparative role and competitive position of aquaculture in economic development and resource allocation.

AGEC 7590 INTRODUCTION TO AGRICULTURAL ECONOMETRICS (3) LEC. 3. Pr. (MATH 1610 or MATH 1613 or MATH 1617) and STAT 2610. Regression analysis in economic research. Model specification and estimation plus introduction to detection and correction of violations of assumptions of OLS. Hypothesis testing, dummy variables, heteroscedasticity, autocorrelation and measurement errors.

AGEC 7690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS I (3) LEC. 3. Pr. AGEC 7590. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course.

AGEC 7700 RESEARCH METHODS IN AGRICULTURAL ECONOMICS (3) LEC. 3. Pr. ECON 7130 and AGEC 7590. Overview of the philosophy of science, detailed discussion of how various research tools are used to perform applied research in agricultural economics.

AGEC 7950 GRADUATE SEMINAR (1) SEM. 1. SU. A forum for sharing research information and interaction on topics and issues of current interest.

AGEC 7960 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS (1-3) AAB. Departmental approval required; Individualized direction/instruction by faculty on research, teaching and/or outreach issues. Course may be repeated for a maximum of 6 credit hours.

AGEC 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

AGEC 8060 THEORY OF AGRICULTURAL MARKETS (3) LEC. 3. Pr. AGEC 7590 and ECON 6020. Theory and methods for estimating complete demand systems (e.g., LES, Translog, ALIDS, and Rotterdam) for food products. Introduction to imperfect competition models.

AGEC 8080 PRODUCTION ECONOMICS II (3) LEC. 3. Pr. AGEC 7080. Firm-level economics problems are extended. Consideration of the influence of risk on firm behavior; empirical analysis of theoretical problems; welfare analysis; technical change; impacts of research investments.

AGEC 8090 FOOD AND AGRICULTURAL POLICY (3) LEC. 3. Pr. ECON 6020 or ECON 7000 or ECON 7110. The course will cover current issues in the economics and policies associated with food, food production and marketing.

AGEC 8690 MICROECONOMETRICS IN AGRICULTURAL ECONOMICS II (3) LEC. 3. Pr. AGEC 8310. The focus will be on implementation and interpretation, as well as on the microeconomic foundations of the econometric models covered in the course. May count either AGEC 8310 or AGEC 8690.

AGEC 8890 TOPICS IN AGRICULTURAL MICROECONOMETRICS (3) LEC. 3. Pr. AGEC 8690. This course is meant to assimilate knowledge acquired throughout core coursework in the Agricultural Economics PHD program.

AGEC 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Agriculture - AGRI
Courses

AGRI 1000 INTRODUCTION TO AGRICULTURE (2) LEC. 1. LAB. 2. Provide information about the College of Agriculture and Alabama Agriculture. An emphasis will be placed on learning about the different departments in the college.

AGRI 1080 AGRICULTURAL COMMUNICATIONS (3) LEC. 3. Departmental approval. Introduction to agricultural communications and professional development as applied to the ag sector; overviews of common communication methods and possible careers.

AGRI 3800 AGRICULTURAL LEADERSHIP DEVELOPMENT (2) LEC. 1. LAB. 2. Programmed sessions and activities designed to enhance self-awareness of leadership skills and enable students to become effective leaders.

AGRI 4000 AGRICULTURE STUDY ABROAD (1-10) AAB/FLD. Departmental approval. Study abroad programs with emphasis on agricultural topics. Credit awarded in consultation with departmental chair. Course may be repeated for a maximum of 10 credit hours.

AGRI 4920 INTERNSHIP IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) INT. Departmental approval. Supervised, closely monitored work experience in agricultural communications or leadership. Course may be repeated for a maximum of 3 credit hours.

AGRI 4970 SPECIAL TOPICS IN AGRICULTURAL COMMUNICATION AND LEADERSHIP (1-3) LEC. Departmental approval. Directed study in agricultural communications or leadership. Course may be repeated for a maximum of 3 credit hours.

AGRI 5840 ADVANCED AGRICULTURAL LEADERSHIP DEVELOPMENT (3) LEC. 2. LAB. 2. Pr. AGRI 3800. Critical analysis of theory and practice of contemporary leadership processes and principles of learning to lead through service.

AGRI 6840 ADVANCED AGRICULTURAL LEADERSHIP DEVELOPMENT (3) LEC. 2. LAB. 2. Critical analysis of theory and practice of contemporary leadership processes and principles of learning to lead through service.

Animal Sciences - ANSC

Courses

ANSC 1000 INTRODUCTION TO ANIMAL SCIENCES (4) LEC. 3. LAB. 2. The importance of livestock to agriculture and to the health and nutrition of a modern society. Livestock terminology, selection, reproduction, nutrition, management, marketing, and species characteristics of beef and dairy cattle, swine, sheep and horses.

ANSC 1100 ORIENTATION TO ANIMAL SCIENCES (1) LEC. 1. SU. An introduction to the departmental programs and personnel and how to make the most of the college experience. Breadth of career opportunities for animal science graduates.

ANSC 2000 COMPANION ANIMAL MANAGEMENT (3) LEC. 3. Practical aspects of behavior, nutrition, breeding, reproduction, health and management of dogs, cats and other animals generally considered to be human companions.

ANSC 2010 ANIMALS AND SOCIETY (3) LEC. 3.Ethical and scientific issues surrounding human-animal interactions and the role human-animal interactions play in modern society.

ANSC 2050 INTRODUCTION TO HORSE MANAGEMENT AND TRAINING (3) LEC. 1. LAB. 4. An introduction to the management, training, and enjoyment of horses.

ANSC 2150 SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. Departmental approval. Basic management and care of animals used in intercollegiate equestrian and rodeo sports. Course may be repeated for a maximum of 2 credit hours.

ANSC 2650 EQUINE BIOMECHANICS AND SHOEING (3) LEC. 2. LAB. 2. Pr. ANSC 1000 and BIOL 2500. Anatomy, function and care of the horse foot; mechanical forces and joint/tissues health; hoof traits, quality and correction through shoeing.

ANSC 2700 VALUE-BASED ANALYSIS OF MEAT ANIMALS (2) LAB. 4. Pr. ANSC 1000. Comparative evaluation of body composition and application of federal grading standards to determine relative value and price of live animals, carcasses, and wholesale cuts.

ANSC 2710 COMMERCIAL MEAT MANAGEMENT (4) LEC. 3. LAB. 2. The importance of meat in the food service industry, including food safety, purchasing, cooking and meat in the diet. For non-majors only.

ANSC 2720 INTRODUCTION TO MEAT SCIENCE (2) LEC. 2. Foundation course on the global meat industry with emphasis on meat products, modern processing techniques, concepts of food safety, sanitation, inspection, grading and meeting consumer demands.
ANSC 2910 PRACTICUM IN LIVESTOCK WELFARE AND MANAGEMENT (2) LAB. 6. Pr. ANSC 1000. Departmental approval. Hands-on laboratory teaching applied management of livestock species, including horses, cattle, swine and small ruminants, using modern equipment and techniques.

ANSC 3000 HERD HEALTH MANAGEMENT (3) LEC. 3. Pr. ANSC 1000 and BIOL 3200. The prevention and control of the major diseases of farm animals and the development of herd health programs.

ANSC 3150 EQUINE MARKETING (3) LEC. 2. LAB. 2. Pr. ANSC 1000 and (ECON 2020 or ECON 2023 or ECON 2027). Practical concepts of equine marketing including evaluating the horse, assessing the market, targeting customers, and presenting the horse.

ANSC 3300 INTRODUCTORY LIVESTOCK EVALUATION AND MARKETING (2) LAB. 6. Pr. ANSC 1000. Comprehensive study of live animal and carcass evaluation techniques used in the selection and marketing of beef cattle, swine and sheep. The development of decision-making oral communication skills is emphasized.

ANSC 3310 INTRODUCTION TO MEAT SELECTION AND GRADING (2) LAB. 6. Pr. ANSC 1000. Development of grading standards and application of federal grades to beef, pork and lamb carcasses. Comparative evaluation of carcasses, primal, and sub-primal cuts.

ANSC 3330 INTRODUCTION TO DAIRY CATTLE JUDGING (2) LAB. 6. Pr. ANSC 1000. Theory and practice in the selection of dairy cattle based on visual appraisal, pedigree, and performance records. The development and presentation of oral reasons also is emphasized.

ANSC 3350 EQUESTRIAN COACHING (3) LEC. 1. LAB. 4. Principles and practices of instructing students on horseback, safety for horse and rider, lesson plans and class management, evaluation of riders, teaching riders with special needs.

ANSC 3400 ANIMAL NUTRITION (4) LEC. 3. LAB. 2. Pr. (CHEM 2030 or CHEM 2070 or CHEM 2077) and (BIOL 1030 or BIOL 1037). Departmental approval. Principles and practice of animal nutrition, nutrient contents of feedstuff, and diet formulation.

ANSC 3410 ANIMAL METABOLISM AND NUTRITION (3) LEC. 3. Pr. (CHEM 2030 or CHEM 2070 or CHEM 2077) and (BIOL 1030 or BIOL 1037). Principles of animal nutrition and nutrient metabolism and a study of nutrients and their utilization by animals.

ANSC 3420 APPLIED ANIMAL FEEDING AND NUTRITION (3) LEC. 2. LAB. 1. Pr. ANSC 3410 or ANSC 3410. Feedstuffs, diet formulation, and feeding practices applicable to the well-being and performance of economically important livestock and companion animals.

ANSC 3500 ANIMAL BREEDING (3) LEC. 3. Pr. ANSC 1000 and (STAT 2510 or STAT 2513 or BIOL 3000 or BIOL 3003). Genetic and environmental effects of animal differences. Selection and mating systems used in the improvement of domestic animals with an emphasis on livestock.

ANSC 3600 REPRODUCTIVE PHYSIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and BIOL 2510. Comparative anatomy, physiology and endocrinology of animal reproduction; principles of reproductive biotechnologies used to enhance reproductive efficiency in mammalian systems.

ANSC 3610 ANIMAL GROWTH AND DEVELOPMENT (4) LEC. 3. LAB. 2. Pr. ANSC 1000 and (BIOL 1030 or BIOL 1037). Biology of prenatal and postnatal growth of meat animals, emphasizing muscle, adipose, and bone tissues from a molecular, cellular, endocrine perspective. Application of concepts to improve rate, efficiency, and composition of growth.

ANSC 3650 PHYSIOLOGY OF EQUINE ATHLETE (3) LEC. 3. Pr. ANSC 1000 and BCHE 3200 and BIOL 2510. Selection and development of the horse for athletic performance; exercising, training, and fitness conditioning for performance horses.

ANSC 3760 VALUE BASED MARKETING OF LIVESTOCK (3) LEC. 2. LAB. 2. Livestock grading standards and their application to carcasses of meat producing animals, concepts and principles of marketing, advertising, promotion and sales of commercial livestock.

ANSC 3800 CAREERS IN ANIMAL SCIENCE (1) LEC. 1. SU. Career opportunities for animal science graduates. Identifying and investigating careers and presenting oneself professionally for employment or post-baccalaureate education.
ANSC 3840 STUDY/TRAVEL IN ANIMAL SCIENCE (1-10) AAB/FLD. Departmental approval. Concentrated study in animal production and management, equine science and the meats industry within the US or international locations. Course may be repeated for a maximum of 10 credit hours.

ANSC 4000 MODERN LIVESTOCK SYSTEMS (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of beef, dairy, swine and small ruminant production systems. Modern concepts, ideas, and methodology associated with the application of technology to reproduction, breeding, health, nutrition, waste nutrient utilization, and management.

ANSC 4010 BEEF PRODUCTION (5) LEC. 4. LAB. 1. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Overview of the beef cattle industry. Modern concepts, ideas and methodology associated with the application of technology to reproduction, breeding, nutrition, management and the use of facilities in a modern beef cattle enterprise.

ANSC 4030 DAIRY CATTLE PRODUCTION (4) LEC. 3. LAB. 3. Pr. ANSC 3400 and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, reproduction, selection, herd health, economics, and management for efficient dairy production.

ANSC 4050 HORSE PRODUCTION (4) LEC. 3. LAB. 2. Pr. (ANSC 3400 or ANSC 3420) and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, reproduction, selection, herd health, economics and management for efficient horse production.

ANSC 4070 SWINE PRODUCTION (4) LEC. 3. LAB. 2. Pr. ANSC 3400 and ANSC 3500 and ANSC 3600. Practical application and integration of nutrition, breeding, and genetics, herd health, reproduction, economics, housing and management techniques for efficient swine production.

ANSC 4090 SHEEP PRODUCTION (4) LEC. 3. LAB. 2. Pr. ANSC 1000. Application and integration of breeding and selection, nutrition, reproduction, health, and marketing to achieve optimum lamb and wool production in the southeastern U. S.

ANSC 4100 FARM ANIMAL BEHAVIOR (2) LEC. 2. Pr. ANSC 3600. Basic information on behavior, its purpose, and measurement. Examination of eating, locomotive, sexual, aggressive, territorial, maternal, and resting behaviors in cattle, horses, swine, and sheep.

ANSC 4150 ADVANCED SKILLS AND CONCEPTS OF EQUESTRIAN SPORTS (1) LAB. 4. Pr. ANSC 2150. Principles and skills utilized in intercollegiate equestrian and rodeo team competition and management. Issues affecting management, training, marketing, and promotion of animals used in equestrian and rodeo sports. Course may be repeated for a maximum of 2 credit hours.

ANSC 4300 ADVANCED LIVESTOCK JUDGING (1) LAB. 4. Pr. ANSC 3300. Advanced course in principles and techniques of livestock selection based on visual criteria, performance records, and other advanced technologies. Course may be repeated for a maximum of 2 credit hours.

ANSC 4310 ADVANCED MEAT JUDGING (1) LAB. 4. Pr. ANSC 3310. Practice in evaluation and grading of beef, pork, and lamb carcasses and cuts. Development of communication skills and exposure to animal agriculture through training and intercollegiate competition. Course may be repeated for a maximum of 2 credit hours.

ANSC 4320 ADVANCED ANIMAL EVALUATION AND MARKETING (1) LAB. 4. Pr. ANSC 4300 or ANSC 4310. Live animal and carcass evaluation techniques used in marketing cattle, swine, and sheep.

ANSC 4330 ADVANCED DAIRY CATTLE JUDGING (1) LAB. 4. Pr. ANSC 3330. Advanced course in the selection of dairy cattle and presentation of oral reasons. Course may be repeated for a maximum of 2 credit hours.

ANSC 4450 EQUINE NUTRITION (3) LEC. 3. Pr. ANSC 3400 or ANSC 3420. Principles of digestive physiology, nutrition, and metabolic disorders unique to the horse with special emphasis on nutritional needs of the equine athlete.

ANSC 4650 EQUINE REPRODUCTIVE TECHNIQUES (3) LEC. 1. LAB. 4. Pr. ANSC 3600. Reproductive management and application of modern technologies to enhance reproductive efficiency of the domestic horse.

ANSC 4700 MEAT PROCESSING (4) LEC. 3. LAB. 3. Pr. ANSC 3700. Integration of topics in meat and non-meat ingredient chemistry and their applications to muscle food processing. Physical, chemical, and sensory properties of fresh and processed meat products.

ANSC 4800 ISSUES IN ANIMAL AGRICULTURE (2) LAB. 4. Pr. COMM 1000 or COMM 1003. Issues affecting animal agriculture, dealing with concerns of consumers and activists, involvement in public debate, and the political process.

ANSC 4810 PROFESSIONAL DISCOURSE IN AGRICULTURE (1) LAB. 2. Pr. COMM 1000 or COMM 1003. Methods for enhancing effective discourse concerning issues facing the livestock industry.
ANSC 4920 INTERNSHIP IN ANIMAL SCIENCES (5-15) INT. SU. Course may be repeated for a maximum of 15 credit hours.

ANSC 4960 SPECIAL PROBLEMS (1-5) IND. Departmental approval. Students will work under the direction of staff members on specific problems. Course may be repeated for a maximum of 15 credit hours.

ANSC 4967 HONORS SPECIAL PROBLEMS (3-6) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

ANSC 4970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-4) IND. Instruction and discussion of selected current topics in Animal Sciences. Course may be repeated for a maximum of 4 credit hours.

ANSC 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

ANSC 4997 HONORS THESIS (3-6) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

ANSC 5700 MICROBIOLOGY OF MEATS AND OTHER FOODS (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 1037 or BIOL 3200. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. May count either ANSC 5700, FDSC 5700, ANSC 6700 or FDSC 6700.

ANSC 5730 SENSORY EVALUATION (3) LEC. 2. LAB. 2. Pr. STAT 2510 or STAT 2513. History and methods of sensory testing of food products, factors affecting results. May count only one of the following: ANSC 5730, ANSC 6700, POUL 5730, POUL 6730.

ANSC 6700 MICROBIOLOGY OF MEATS AND OTHER FOODS (4) LEC. 3. LAB. 2. Pr. BIOL 1030 or BIOL 3200 or BIOL 1037. Microorganisms associated with meat and other foods production, spoilage, and safety with training in both traditional and modern detection techniques. May count either ANSC 6700, FDSC 6700, ANSC 5700, or FDSC 5700. May count either ANSC 6700 or FDSC 6700.

ANSC 6730 SENSORY EVALUATION (3) LEC. 2. LAB. 2. Pr. STAT 2510 or STAT 2513. History and methods of sensory testing of food products, factors affecting results. May count only one of the following: ANSC 5730, ANSC 6700, POUL 5730, POUL 6730.

ANSC 7010 STOCKER PRODUCTION (3) LEC. 3. Graduate standing in Animal Sciences or Crop, Soil, and Environmental Sciences, or permission from the department.

ANSC 7400 RUMINANT NUTRITION (3) LEC. 3. Digestive physiology, mechanisms of rumen fermentation, post-ruminal nutritional biochemistry.

ANSC 7410 NONRUMINANT NUTRITION (3) LEC. 3. Departmental approval. Digestion, absorption, and utilization of macro and micro nutrients, nutrient interrelationship in swine and other non-ruminant species.

ANSC 7420 NUTRITIONAL TOXICOLOGY (3) LEC. 3. General principles of nutrition and toxicology applied toward understanding and managing livestock responses to toxicants in feeds and plants.

ANSC 7500 EXPERIMENTAL METHODS (3) LEC. 3. Pr. STAT 7010. Research methods used in the animal sciences for the analysis and interpretation of data. Included are experimental designs and computing techniques.

ANSC 7510 QUANTITATIVE GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and STAT 7010. Departmental approval. Principles of population genetics; gene frequency, biometric relationships between relatives, additive, dominance and epistatic effects, estimation and use of repeatability, heritability, genetic correlations, and breeding values.

ANSC 7600 PHYSIOLOGY OF REPRODUCTION (3) LEC. 3. Pr. ANSC 3600 and BIOL 6240. Physiological, endocrinological, cellular, and molecular mechanisms regulating reproduction, with emphasis on mammalian systems.

ANSC 7610 PHYSIOLOGY OF GROWTH (3) LEC. 3. Pr. BCHE 7210. Molecular and cellular basis of tissue differentiation, growth and development with emphasis on muscle, adipose and connective tissues and factors influencing gene expression controlling such events.

ANSC 7700 MUSCLE FOODS AND APPLIED MUSCLE BIOLOGY (4) LEC. 3. LAB. 2. Pr. ANSC 3700 and BCHE 7210. Investigations of muscle microanatomy, biochemistry of muscle proteins and lipids, biochemistry of skeletal muscle contraction, lipid/protein interactions, antemortem and postmortem factors affecting fresh and processed meat quality; discussion of classic and current scientific literature.
ANSC 7950 SEMINAR (1) LEC. 1. An intensive scientific literature study and subsequent seminar presentation of selected topics in some facet of animal sciences (Animal Genetics, Reproductive Biology, Growth and Development, Nutrition, Animal Production, Equine Studies, Meat Science and Food Animal related Biochemistry) by enrolled students.

ANSC 7960 SPECIAL PROBLEMS (1-5) LEC. Conference problems, assigned reading, literature searches in one or more of the following major fields: (a) biochemistry, (b) nutrition, (c) animal breeding, (d) reproductive physiology, (e) growth physiology, (f) muscle foods, (g) microbiology, and (h) behavior. Course may be repeated for a maximum of 15 credit hours.

ANSC 7970 SPECIAL TOPICS IN ANIMAL SCIENCES (1-5) IND. Emerging topics in Animal Science and related industries. Course may be repeated for a maximum of 5 credit hours.

ANSC 7990 RESEARCH AND THESIS (1-15) MST. Research and thesis may be on technical laboratory problems or on problems directly related to beef and dairy cattle, sheep, swine, or laboratory animals. Course may be repeated with change in topics.

ANSC 8410 VITAMIN AND MINERAL METABOLISM (3) LEC. 3. Departmental approval. Vitamin and mineral nutrition with emphasis on chemical structures and characteristics, metabolic functions, deficiencies and toxicity syndromes, interrelationships and requirements of vitamins and minerals.

ANSC 8500 LINEAR MODEL APPLICATIONS IN ANIMAL BREEDING (4) LEC. 4. Pr. ANSC 7510 and STAT 7010. Selection index and mixed linear model genetic theory for estimation and prediction. Equivalent animal models, properties of solutions, and extension of methods to consider genetic relationships, multiple records, culling bias and multiple trait evaluation. Current literature will also be discussed.

ANSC 8610 MUSCLE PHYSIOLOGY AND BIOCHEMISTRY (3) LEC. 3. Pr. BCHE 7210 and BIOL 6600. Heterogeneity and plasticity of muscle as a tissue, ontogeny, differentiation, growth and regulation of metabolic and molecular properties of muscle fibers by innervation, usage, hormones, and artificial modulation. Evaluation of current literature.

ANSC 8990 DOCTORAL RESEARCH AND DISSERTATION (1-15) DSR. Course may be repeated with change in topics.

Anthropology - ANTH

Courses

ANTH 1000/1003 INTRODUCTION TO ANTHROPOLOGY (3) LEC. 3. Social Science I Core. Introduction to the study of human evolution, early civilizations, and globalization; linguistic and cultural problems using the four sub-fields of anthropology, including biological/physical anthropology, archaeology, cultural anthropology, and linguistics.

ANTH 1007 HONORS INTRODUCTION TO ANTHROPOLOGY (3) LEC. 3. Pr. Honors College Social Science I Core. Introduction to the study of human evolution, early civilizations, and globalization: linguistic and cultural problems using the four sub-fields of anthropology, including biological/physical anthropology archaeology, cultural anthropology and linguistics. Credit will not be given for both ANTH 1000 and ANTH 1007.

ANTH 2000 ETHNOGRAPHIC METHODS (3) LEC. 3. Pr. (ANTH 1000 or ANTH 1003 or ANTH 1007) or (SOCY 1000 or SOCY 1007) or GEOG 1100. Approaches, techniques, and strategies for carrying out ethnographic research and analyzing qualitative data in the social sciences.

ANTH 2100 INTRODUCTORY ARCHAEOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 or Departmental approval. Broad introduction to archaeology, designed to introduce the history, principles, and methods of modern anthropological archaeology.

ANTH 2310 RACE, GENDER, AND HUMAN VARIATION (3) LEC. 3. Explores the broad range of contemporary human biological variation in an evolutionary perspective and examines the social construction of race and gender, including associated problems of typological thinking in an historical context.

ANTH 2400 APPLIED ANTHROPOLOGY (3) LEC. 3. Explores how anthropologists contribute to resolving contemporary problems in non-academic environments, including social and environmental policy, international policy, epidemiology and medical anthropology, forensic anthropology, and archaeological management of cultural resources.
ANTH 2500 ANTHROPOLOGY OF GLOBAL STUDIES (3) LEC. 3. Any Social Science Core course. Broad-based study of processes and problems that transcend national boundaries, including global historical processes, politics, migrations, trade, disease, environmental change, and sustainability.

ANTH 2600 FORENSIC ANTHROPOLOGY (3) LEC. 3. Social Science Core I. Introduction to the methods and procedures of forensic anthropological studies in archaeology and physical anthropology. Class includes both lectures and limited laboratory experience.

ANTH 2700 PEOPLES AND CULTURES OF ASIA (3) LEC. 3. Any Social Science Core course. Introduction to the traditions, religions, histories, and nation-states of the people of Asia, using a cultural approach.

ANTH 2800 ANTHROPOLOGY OF THE AFRICAN DIASPORA (3) LEC. 3. Any Social Science Core course. Anthropological perspectives on African Diasporas. Diaspora. Archaeological, ethnohistorical, and contemporary research exploring identity, symbols, power, and social relations in the lives of enslaved Africans and descendants in the Caribbean, Latin America and North America.

ANTH 3000 CULTURE, MARRIAGE, AND THE FAMILY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Role and meaning of kinship and its universal and particularistic features in human society.

ANTH 3100 LANGUAGE AND CULTURE (3) LEC. 3. Pr., SSCI and junior standing. The interplay between language and culture, including socio-linguistics, discourse, mythology, and folklore.

ANTH 3107 LANGUAGE AND CULTURE (3) LEC. 3. Pr. Honors College SSCI and junior standing or Departmental approval. The interplay between language and culture, including socio-linguistics, discourse, mythology, and folklore.

ANTH 3200 ANTHROPOLOGY OF GENDER (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Gender relations and representations in different cultures, historical periods, and discourses.

ANTH 3300 PHYSICAL ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 and ANTH 2310. Overview of physical anthropology, including evolutionary theory and genetics, primatology, human origins, and biological variation of contemporary human populations. Concepts will be applied during in-class laboratory exercises.

ANTH 3400 ARCHAEOLOGICAL FIELD SCHOOL (6) LEC. 6. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Field methods, including archaeological surveying and excavation procedures at selected locations.

ANTH 3600 MEDICAL ANTHROPOLOGY (3) LEC. 3. Any Social Science Core course. Explores biological and cultural dimensions of global health from an anthropological perspective. Topics include the political economy of health, cross-cultural healing traditions, pluralistic medical systems, and evolutionary medicine.

ANTH 3700 POLITICAL ECOLOGY (3) LEC. 3. Pr., SSCI and junior standing. Problems in ethnoecology, cultural ecology, political ecology and environmentalism.

ANTH 3800 MESOAMERICAN ARCHAEOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Prehistoric cultures of Mesoamerica, from the Olmecs to the Aztecs.

ANTH 3830 HISTORICAL ARCHAEOLOGY (3) LEC. 3. Historical archaeological and ethohistory, with emphasis on the cultures of peoples who left few written records.

ANTH 3850 HISTORICAL ARCHAEOLOGY AND ETHNOHISTORY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Diversity and complexity of prehistoric to protohistoric cultures of the southeastern United States.

ANTH 3900 BIOARCHAEOLOGY (3) LEC. 3. Pr. (ANTH 1000 or ANTH 1003 or ANTH 1007). Archaeologically-derived skeletal remains provide essential information for reconstructing broad patterns of human health and behavior over time. Students will learn to apply methods and theory in social bioarchaeology to understand demography, diet, disease, and physical activity in past populations.

ANTH 3910 ARCHAEOLOGY LABORATORY PRACTICUM (3) LEC. 1. LAB. 2. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 and ANTH 2100. Analysis, preservation, cataloging, and restoration of archaeological materials.

ANTH 3960 ARCHAEOLOGY FIELD PROBLEMS (3) LEC. 1. LAB. 2. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 and ANTH 2100. Practical investigation of a specific field problem that involves excavation techniques, mapping, and data recording.

ANTH 4310 ANTHROPOLOGICAL THEORY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Major thinkers in anthropology and their theoretical models considered in historical perspective.
ANTH 4910 ARCHAEOLOGY LABORATORY PROBLEMS (3) LEC. 1. LAB. 2. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007 and ANTH 2100. Investigation a specific archaeological problem or problems, involving students in laboratory techniques and research.

ANTH 4920 INTERNSHIP IN ANTHROPOLOGY (3) AAB/INT. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Internship with a federal or state agency for practical work or research on anthropological problems.

ANTH 4960 SPECIAL PROBLEMS (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Specific topics in anthropology not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 4967 HONORS SPECIAL PROBLEMS (1-3) IND. 3. Pr. Honors College. ANTH 1000 or Departmental approval. Specific topics in anthropology not covered in other courses. Course may be repeated for a maximum of 3 credit hours.

ANTH 4997 HONORS THESIS (1-3) IND. Pr. Honors College. ANTH 1000 or departmental approval. Course may be repeated for a maximum of 3 credit hours.

ANTH 5100 NORTH AMERICAN INDIANS (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. or junior standing. Comparative anthropological, cultural, and ethnohistorical overview of Native American cultures of North America, emphasizing change and contact situations.

ANTH 5200 GENDER DEVELOPMENT AND CULTURE (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. or junior standing. Role of gender and culture in Third World development from an anthropological perspective.

ANTH 5600 CULTURE, MEDICINE, AND POWER (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. or junior standing. Power in the context of illness and healing at local, national, and international levels.

ANTH 5700 CRITIQUE OF DEVELOPMENT (3) LEC. 3. Pr. ANTH 3700. Meanings and structures of national and international development.

ANTH 5930 DIRECTED STUDIES (1-3) IND. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Directed study course in anthropology that allows students to explore concepts not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 5970 SPECIAL TOPICS IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Examination of a specific problem in ethnographic methods, theory, and cultural analysis.

ANTH 6100 NORTH AMERICAN INDIANS (3) LEC. 3. Advanced comparative cultural and ethnohistorical overview of the Native American cultures of North America, emphasizing change and contact situations.

ANTH 6200 GENDER DEVELOPMENT AND CULTURE (3) LEC. 3. Role of gender and culture in Third World economic development from an anthropological perspective.

ANTH 6600 CULTURE MEDICINE AND POWER (3) LEC. 3. Power in the context of illness and healing at local, national, and international levels.

ANTH 6700 CRITIQUE OF DEVELOPMENT (3) LEC. 3. Meanings and structures of national and international development in historical perspective, including cultural values, power, inequality, and resistance.

ANTH 6930 DIRECTED STUDY (1-3) IND. Directed study course in anthropology that allows students to explore concepts not covered in other courses. Course may be repeated for a maximum of 6 credit hours.

ANTH 6970 SPECIAL TOPICS IN ANTHROPOLOGY (3) LEC. 3. Pr. ANTH 1000 or ANTH 1003 or ANTH 1007. Examination of a specific problem in ethnographic methods, theory, and cultural analysis.

Architecture - ARCH

Courses

ARCH 1000 CAREERS IN DESIGN AND CONSTRUCTION (1) LEC. 1, LST. 1. SU. Introduction to the environmental design and construction professions and the curricula in the chosen field.

ARCH 1010 INTRODUCTION TO ARCHITECTURE DESIGN (5) LEC. 1, LST. 12. SU. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.
ARCH 1020 INTRODUCTION TO ARCHITECTURE DESIGN II (5) LEC. 1, LST. 12. Pr. ARCH 1010 and ARCH 1000 and ARCH 1060. Principles of visual organization, research and design process skills, and the graphic communication of form and ideas.

ARCH 1060 VISUAL COMMUNICATION (2) LEC. 1, LEC/STU. 2. SU. Introduction to graphic communication. Focus on developing graphic skills for the purpose of explaining form and communicating ideas via exercises in drafting, sketching, and diagramming.

ARCH 1420 INTRODUCTION TO DIGITAL MEDIA (2) LEC. 1, LST. 2. Pr. ARCH 1060. Introduction to the principles of 2-D and 3-D digital media and how these principles are utilized in architectural design.

ARCH 2010 STUDIO I (6) LEC. 2, LST. 10. Pr. ARCH 1020 and ARCH 1420. Basic issues of architectural design centered around the thoughtful creation of exterior and interior space. Studies of light, material, texture, proportion, scale, and site are integrated into each project.

ARCH 2020 STUDIO II (6) LEC. 2, LST. 10. Pr. ARCH 2010. Fundamental design process skills including observation, analysis, and synthesis.

ARCH 2110 HISTORY OF WORLD ARCHITECTURE I (3) LEC. 3. Pr. ARCH 1020. Examination of the social determinants that shape the public beliefs and practices that produce buildings.

ARCH 2210 ENVIRONMENTAL CONTROLS I (3) LEC. 3. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2220 ENVIRONMENTAL CONTROLS II (2) LEC. 2. Pr. ARCH 1020. This course provides the basic knowledge and skills requisite an architect in the design of environmentally responsive buildings.

ARCH 2600 THE ART OF ARCHITECTURE, PLACE, AND CULTURE (3) LEC. 3. The interrelationship of art, architecture, place, and culture with emphasis on the art of architecture from a global multicultural perspective. Illustrated lecture, readings, and essays.

ARCH 3010 STUDIO III (6) LEC. 2, LST. 10. Pr. ARCH 2020 and ARCH 3110. Builds on ARCH 2010 and 2020. The process of making architecture through critical inquiry and investigation. The physical, social, ethical contexts that inform the design of every building.

ARCH 3020 STUDIO IV (6) LEC. 2, AAB/LST. 10. Pr. ARCH 3010 or ARIA 3020. Builds on ARCH 3010 and adds an emphasis on the integration of construction tectonics in the development of architectural form.

ARCH 3110 HISTORY OF WORLD ARCHITECTURE II (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117. Introduction to key European buildings and towns from the Bronze Age to the Enlightenment. Examines how societal beliefs and practices influence the making of architecture.

ARCH 3120 HISTORY OF MODERN ARCHITECTURE (3) LEC. 3. Pr. ARCH 3110. The history of architecture, 1850-present, with an emphasis on the rise of the modern movement in Europe and the U.S.

ARCH 3320 MATERIALS AND METHODS OF CONSTRUCTION I (3) LEC. 3. Pr. ARCH 1020. The properties and potential design function of materials used in contemporary construction, with an emphasis on foundation systems, wood, and masonry.

ARCH 3410 DESSEIN ELECTIVES (3) LEC. 3. Explorations in the art of representation. Complete descriptions of specific courses and their prerequisites are available from the School of Architecture, Planning and Landscape Architecture Course may be repeated for a maximum of 6 credit hours.

ARCH 3500 SEMINAR IN METHODS AND PROCESSES (3) LEC. 3. Pr. ARCH 2020. The tools and techniques available to the design professional including specific design specializations, and design methodologies. Descriptions of specific seminars are available from the School of Architecture. Course may be repeated with change in topics.

ARCH 3600 SEMINAR IN CONTEMPORARY ISSUES (3) LEC. 3. Pr. ARCH 2020. Investigation of significant topics that present opportunities and constraints to architectural thought and practice. Course may be repeated with change in topics.

ARCH 3700 SEMINAR IN HISTORY AND THEORY (3) LEC. 3. Pr. ARCH 2010. Investigation of theories, schools or periods to examine the potential and limitations of architecture. Descriptions of specific seminars available from School of Architecture. Course may be repeated with change in topics.
ARCH 3710 SEMINAR IN HISTORICAL PERSPECTIVES (3) LEC. 3.

ARCH 3800 SEMINAR IN ASPECTS OF DESIGN (3) LEC. 3. Pr. ARCH 2020. Study of aspects of architectural design, such as form, space, style, meaning, perception, culture. Descriptions of specific seminars available from the School of Architecture. Course may be repeated with change in topics.

ARCH 4010 STUDIO V (6) LEC. 2, LST. 10. Pr. ARCH 3010 or ARIA 3020 and BSCI 3400. The comprehensive design of buildings, building complexes, and spaces in an urban context. Lectures emphasize urban issues, research methods. Programming and analysis will parallel studio projects of increasing complexity.

ARCH 4020 STUDIO VI (6) LEC. 2, AAB/LST. 10. Pr. ARCH 4010 or ARIA 4020 and BSCI 3450. The design of buildings, building complexes, and spaces with emphasis on the integration of building systems and tectonic development.

ARCH 4110 HISTORY OF URBAN ARCHITECTURE (3) LEC. 3. Pr. ARCH 2110 or ARCH 2117 and ARCH 3110. The course surveys the history of the physical and formal manifestations of the urban environment from its inception to our days.

ARCH 4320 MATERIALS AND METHODS OF CONSTRUCTION II (3) LEC. 3. Pr. ARCH 3320. Properties and potential design applications of materials used in contemporary construction, with an emphasis on steel and concrete, roofing, glass and glazing, cladding, and interior finishes.

ARCH 4500 PROFESSIONAL PRACTICE (3) LEC. 3. Pr. ARCH 3020 or ARIA 3020. Architects' legal responsibilities, frameworks of professional practice, office organization, business planning, marketing, project delivery, internship and professional ethics and leadership.

ARCH 4900 DIRECTED STUDIES (1-6) AAB. Development of an area of special interest through independent study. Evaluation of the work may be by faculty jury. School approval. Course may be repeated for a maximum of 6 credit hours.

ARCH 4910 RURAL STUDIO COMPLETION (0) LEC. Completion of construction project for ARCH 4120 Elective Studio. This studio is based in the School's remote facilities in Newbern, AL.

ARCH 4960 SPECIAL PROBLEMS (1-6) LEC. 4900 Course may be repeated for a maximum of 6 credit hours.

ARCH 4997 HONORS THESIS (1-6) LEC. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

ARCH 5020 THESIS STUDIO (7) LEC. 3, AAB/LST. 10. Pr. ARCH 5010 and ARCH 5990. Exploration and development of an architectural project under the direction of a faculty member.

ARCH 5100 TEACHING METHODS (1) LEC. 1.

ARCH 5240 BEING THERE (1) LEC. 1. Course may be repeated for a maximum of 2 credit hours.

ARCH 5340 METHODS IN COMMUNITY BASED LEARNING (3) LEC. 3.

ARCH 5990 INTRODUCTION TO THESIS RESEARCH (2) LEC. 2. The tools, techniques, and strategies required to select, develop, refine, write, and present a thesis argument.

ARCH 5991 THESIS RESEARCH (1) LEC. 1. Pr. ARCH 5990. Expansion on the individual thesis argument and research begun in ARCH 5990 in parallel with the development of their thesis design project in ARCH 5020.

ARCH 7010 STUDIO I: PROJECT INITIATION (6) STU. 12. Coreq. ARCH 7110 and ARCH 7210. This is the first of three sequential design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a schematic, client-driven architectural proposal.

ARCH 7020 STUDIO II: PROJECT DEVELOPMENT (6) STU. 12. Pr. ARCH 7010 and ARCH 7110 and ARCH 7210. Coreq. ARCH 7120 and ARCH 7220. This is the second of three sequential design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.
ARCH 7030 STUDIO III: PROJECT COMPLETION (6) STU. 12. Pr. ARCH 7020 and ARCH 7120 and ARCH 7210. Coreq. ARCH 7130. This is the third of three sequential design studios in which the aspects of community need, context, technical systems, and building materials are explored to develop a client-driven architectural proposal.

ARCH 7110 SEMINAR IN COLLABORATIVE DESIGN METHODS AND PROCESS (3) SEM. 3. Pr. ARCH 7010 and ARCH 7210. Coreq. ARCH 7010 and ARCH 7210. Introduction to the core theories of collaboration within interdisciplinary design and construction project teams and community-based client groups. Students develop an understanding of the fundamentals of collaborative process design, principles negotiation, communication across disciplines, and conflict resolution.

ARCH 7120 SEMINAR IN DESIGN TECTONICS (3) SEM. 3. Pr. ARCH 7010 and ARCH 7110 and ARCH 7210. Coreq. ARCH 7220 and ARCH 7200. Co-requisite adjunct to Project Development Studio. Taught as a series of workshops, this course provides the disciplinary framework necessary to apply technical research methods when evaluating options and reconciling the implications of design development decisions across systems and scales.

ARCH 7130 PROJECT COMMUNICATIONS (3) SEM. 3. Pr. ARCH 7020 and ARCH 7120 and ARCH 7220. Coreq. ARCH 7030. This course is delivered as a co-requisite adjunct to Project Completion Studio (Studio III). This course provides the disciplinary framework necessary to develop all project documentation required for project construction, delivery, record keeping, as well as future research and analysis.

ARCH 7210 EXECUTIVE ISSUES I (3) SEM. 3. Coreq. ARCH 7010 and ARCH 7110. Co-requisite adjunct to Project Initiation Studio (Studio I). Taught as a series "overlay" lectures and workshops. Provides the disciplinary framework to apply case study research methods when evaluating options and reconciling the implications of schematic design decisions across systems and scales.

ARCH 7220 EXECUTIVE ISSUES II (3) SEM. 3. Coreq. ARCH 7020 and ARCH 7120. Co-requisite adjunct to Project Development Studio (Studio II). Taught as a series "overlay" lectures and workshops. Provides the disciplinary framework necessary to apply case study research methods when evaluating options and reconciling the implications of design development decisions across systems/scales.

Art - ARTS

Courses

ARTS 1030 BASIC CERAMICS (3) STU. 6. Instruction in principles of three-dimensional design and sculpture. Clay is used to explore techniques of casting, constructing, modeling, and wheel throwing. Work with glazes and surface decoration. Not open to ARTF, ARTH, and ATLA majors.

ARTS 1040 BASIC PAINTING (3) STU. 6. Instruction in painting concepts, materials, and techniques. Water-based paints and other media are used to explore a variety of approaches and subject matter. Not open to ARTF, ARTH, and ATLA majors.

ARTS 1110 DRAWING I (3) AAB/STU. 6. Basic drawing with emphasis on accurate observation, pictorial organization, and the depiction of space; development of drawing skills using various black and white media.

ARTS 1210 2-D DESIGN FOR STUDIO ART (3) STU. 6. Elements and principles of basic two-dimensional design. Emphasis on composition, color theory, and craftsmanship.

ARTS 1220 3-D DESIGN FOR STUDIO ART (3) STU. 6. Elements and principles of basic three-dimensional design. Emphasis on spatial organization, color, media exploration and craftsmanship.

ARTS 1250 ORIENTATION TO STUDIO ART FOR THE MAJOR (2) LEC. 2. Studio Art Majors and Minors or Departmental Approval. Introduction to the visual arts, critique strategies, studio safety, portfolio development, writing, and careers in the arts.

ARTS 1510/1513 LOOKING AT ART: APPROACHES TO INTERPRETATION (3) LEC. 3. Introduces the fundamental structures of the art world and multiple approaches to looking at and responding to art.

ARTS 1710 INTRODUCTION TO ART HISTORY I (3) LEC. 3. Fine Arts Core. Introduction to major art traditions of the world, from Paleolithic times to AD/CE 1000.

ARTS 1717 HONORS INTRODUCTION INTO ART HISTORY I (3) LEC. 3. Pr. Honors College Fine Arts Core. Introduction to major art traditions of the world, from Paleolithic times to AD/CE 1000. Credit will not be given for both ARTS 1710 and ARTS 1717.
ARTS 1720 INTRODUCTION TO ART HISTORY II (3) LEC. 3. Fine Arts Core. Introduction to world art, c.1000 to c.1700. Medieval, Renaissance, and Baroque Europe with Islamic and non-Western art of the same time period.

ARTS 1727 HONORS INTRO ART HISTORY II (3) LEC. 3. Pr. Honors College Fine Arts Core. An introduction to world art, c. 1000 to c. 1700. Medieval, Renaissance, and Baroque Europe with Islamic and non-Western art of the same period. Credit will not be given for both ARTS 1720 and ARTS 1727.

ARTS 1730 INTRODUCTION TO ART HISTORY III (3) LEC. 3. Fine Arts Core. Major works of painting, sculpture, and architecture from the Rococo period through the 20th century. Emphasis on styles and social, political and cultural relationships.

ARTS 1737 HONORS INTRODUCTION TO ART HISTORY III (3) LEC. 3. Pr. Honors College Fine Arts Core. Major works of painting, sculpture, and architecture from the Rococo period through the 20th century. Emphasis on styles and social, political and cultural relationships. Credit will not be given for both ARTS 1730 and ARTS 1737.

ARTS 2210 INTRODUCTION TO PHOTOGRAPHY (3) AAB/STU. 6. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1210. or Departmental approval. Fine art photographic concepts and techniques including camera operation, tonal control of black and white prints, presentations of historical and contemporary photography.

ARTS 2310 PAINTING I (3) AAB/STU. 6. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1210 or Departmental approval. Instruction in painting concepts, materials, and methods.

ARTS 2410 PRINTMAKING: RELIEF (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1210 or Departmental approval. Instruction to relief printmaking. Studio work supplemented with lectures, critiques, and readings.

ARTS 2510 INTRODUCTION TO SCULPTURE (3) AAB/STU. 6. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1220 or Departmental approval. Survey of the materials, processes, and issues involved in the production of contemporary object-oriented sculpture. Focus on problem solving and presentations of contemporary sculpture.

ARTS 2610 INTRODUCTION TO DIGITAL ART (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1210 or Departmental approval. An introduction to the skills and concepts of digital art forms such as imaging, time, and sound, using computer-based tools and techniques.

ARTS 2810 CERAMICS I (3) AAB/STU. 9. Pr. (ARTS 1710 or ARTS 1717 or ARTS 1720 or ARTS 1727 or ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1220 or Departmental approval. Introduction to handforming methods for sculpture and vessel forms in clay. Work with glazes and firing.

ARTS 2970 SPECIAL TOPICS IN STUDIO ART AND ART HISTORY (3) LEC. 3. Topics in studio art and art history. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

ARTS 3100 INTERMEDIA (3) STU. 6. Pr. ARTS 2510 and (ARTS 2810 or ARTS 3820) and (ARTS 2210 and ARTS 2310 and ARTS 2410) and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727). Introduction to concepts and visual problem solving in mixed media.

ARTS 3110 FIGURE DRAWING (3) STU. 6. Pr. ARTS 1110 or Departmental approval. The human figure as form and as compositional element. Measuring and sighting for proportion. Drawing from casts, skeletons, and nude models.

ARTS 3140 ADVANCED DRAWING I (3) STU. 6. Pr. ARTS 3110. Concepts, materials and techniques with emphasis on the development of a personal vision and individual approach. Nude models may be used.

ARTS 3150 ADVANCED DRAWING II (3) STU. 6. Pr. ARTS 3140 and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727 and ARTS 1730 or ARTS 1737). Medium and subject determined by student with approval of instructor. Emphasis on strengthening the student's aesthetic awareness and technical skills.

ARTS 3220 DIGITAL AND COLOR PHOTOGRAPHY (3) AAB/STU. 6. Pr. (ARTS 1710 or ARTS 1717 and ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and (ARTS 2210 or GDES 3210) or Departmental approval. Concepts and practices of contemporary art photography including digital production techniques and color photographic theory.
ARTS 3230 INTERMEDIATE PHOTOGRAPHY (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717 and ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717 and ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727 and ARTS 1730 or ARTS 1737) and (ARTS 2210 or GDES 3210) or Departmental approval. Intermediate study of photographic processes with emphasis on technique, classroom craftsmanship, medium and large camera formats, approaches to content and researching concepts to inform studio production.

ARTS 3320 PAINTING II (3) AAB/STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or (ARTS 2310 or ARTS 3420) or Departmental approval. Instruction in painting concepts, materials, and techniques with emphasis on the development of technical skills and a personal vision and individual approach.

ARTS 3330 PAINTING III (3) AAB/STU. 6. Pr. ARTS 3140 and ARTS 3320 or Departmental approval. Medium and subject determined by student and instructor. Emphasis on strengthening aesthetic awareness and technical skills. Nude models may be used.

ARTS 3420 PRINTMAKING: INTAGLIO (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and ARTS 1110 and ARTS 1210 or Departmental approval. Introduction to intaglio printmaking. Studio work with lectures, critiques, and readings.

ARTS 3430 PRINTMAKING: SERIGRAPHY (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and (ARTS 2410 or ARTS 3420) or Departmental approval. Introduction to water based screen-printing. Studio work supplemented with lectures, critiques, and reading.

ARTS 3520 SCULPTURE AS OBJECT (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and ARTS 2510 or Departmental approval. Continued research into the materials, processes and issues involved in the production of mixed media sculpture. Readings and discussions on recent developments in the field of sculpture.

ARTS 3530 SCULPTURE AS SPACE (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and ARTS 2510 or Departmental approval. Survey of the methods, technologies (including sound and light), and issues involved in the production of contemporary sculptural installations, environments, and sites. Class discussion of student projects, with readings, presentations, and videos that address current art practice.

ARTS 3650 HISTORY OF PHOTOGRAPHY (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to the history and theory of photography from its 19th-century origins to contemporary global practices.

ARTS 3660 EIGHTEENTH-CENTURY ART IN EUROPE (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of the architecture, painting, and sculpture in 18th-century Europe.

ARTS 3670 CONSTRUCTING RACE IN THE VISUAL ARTS (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of the role of visual imagery in inscribing and challenging racial hierarchies in the history of art.

ARTS 3680 20TH-CENTURY ART II: 1945-2000 (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. An introduction to the artists, movements, institutions, concepts, and themes of late 20th-century art.

ARTS 3690 ARTS OF AFRICA (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to the art, artists, themes and issues in African art from the pre-colonial period to the contemporary era.

ARTS 3700 ART OF THE UNITED STATES (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of architecture, painting, and sculpture from colonial to recent times. Selected movements and works are considered in relationship both to European and to indigenous conditions and attitudes.
ARTS 3710 ANCIENT ART OF THE WEST (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Examination of major art traditions of the ancient world, including for example: Egypt, Near East, Aegean, Greece, and Rome.

ARTS 3720 MEDIEVAL ART OF THE WEST (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of major art traditions of the West from the fall of Rome to CE 1400, with a selective focus on the major art traditions, including Migration period, Carolingian, Ottonian, Romanesque, Gothic, and Italo-Byzantine.

ARTS 3730 RENAISSANCE ART IN ITALY (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of the architecture, painting, and sculpture of the 15th and 16th centuries in Italy.

ARTS 3740 SEVENTEENTH-CENTURY ART IN EUROPE (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of the architecture, painting, and sculpture of 17th-century Europe.

ARTS 3750 19TH CENTURY ART (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to major art movements from Neo-Classicism to Post-Impressionism and Art Nouveau.

ARTS 3760 20TH CENTURY ART (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of major developments in painting, sculpture, and architecture in Europe and the United States from 1900 to recent times.

ARTS 3770 ANCIENT AMERICAN ART (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of major art traditions of nuclear America, from Mexico to the Andes, from the beginnings to CE 1550.

ARTS 3780 RENAISSANCE ART OF NORTHERN EUROPE (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Study of the art of Northern Europe, CE 1300-1600. Major themes include cultural interchange, court and bourgeois patronage, rise of graphic arts, and the development of the art market.

ARTS 3790 ARTS OF ASIA (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to major art traditions of Asia from the beginnings to the present.

ARTS 3800 ISSUES AND CRITICISM IN CONTEMPORARY ART (3) LEC. 3. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and one 3000-level art history class or Departmental approval. Readings and discussions about art since 1970.

ARTS 3810 GENDER AND THE VISUAL ARTS (3) LEC. 3. Pr. (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to gender issues in the visual arts in historical and contemporary contexts. Examines the cultural notions of both masculine and feminine gender roles at play in works of art and explores key issues that have affected women's production of works of art in the past and present.

ARTS 3820 CERAMICS II (3) STU. 6. Pr. ARTS 1110 and ARTS 1220 and (ARTS 1710 or ARTS 1717) or (ARTS 1720 or ARTS 1727) or (ARTS 1730 or ARTS 1737) or Departmental approval. Introduction to wheel-thrown pottery. Presentation of historical and contemporary contexts for fine arts ceramics. Work with glazes and firing.

ARTS 3830 CERAMICS III (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) or (ARTS 1710 or ARTS 1717) and (ARTS 1730 or ARTS 1737) or (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and (ARTS 2810 or ARTS 3820) or Departmental approval. Individual approaches to ceramic sculpture and vessel forms, with emphasis on stylistic and conceptual concerns.

ARTS 3920 INTERNSHIP IN STUDIO ART/ART HISTORY (3) PRA. 15. SU. Junior standing. Junior standing and 3.0 GPA in major and completion of at least two 3000-level courses in ARTF, ARTH, or ATLA major. Internships appropriate to the major with a departmental-approved sponsor providing hands-on, practical learning experiences in a professional setting.
ARTS 4100 SEMINAR IN PRE-MODERN ART HISTORY (3) SEM. 3. 6 hours of 3000-level art history courses. Or departmental approval. Examination of varying topics in art history from the ancient era until 1750 CE. Course may be repeated for a maximum of 6 credit hours.

ARTS 4150 SEMINAR IN MODERN AND CONTEMPORARY ART HISTORY (3) SEM. 3. 6 hours of 3000-level art history courses. Or departmental approval. Examination of varying topics in modern and contemporary art history, 1750 CE-present. Course may be repeated for a maximum of 6 credit hours.

ARTS 4240 ADVANCED PHOTOGRAPHY (3) STU. 6. Pr. ARTS 3220 and ARTS 3230 and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737). and one 3000-level art history course or Departmental approval. Advanced investigations of theory, history, and methods to inform photographic practice. Emphasis on production of mature work and individual artistic identity. Frequent individual and group critiques. Course may be repeated for a maximum of 6 credit hours.

ARTS 4340 PAINTING IV (3) STU. 6. Pr. ARTS 3330 and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737), and one 3000-level art history course or Departmental approval. Advanced painting with medium and subject idea determined by student with approval of the instructor. Emphasis on strengthening the student's awareness and technical skills as a maturing painter. Nude models may be used. Course may be repeated for a maximum of 6 credit hours.

ARTS 4440 ADVANCED PRINTMAKING (3) STU. 6. Pr. ARTS 2410 and ARTS 3420 and ARTS 3430 and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737), and one 3000-level art history course or Departmental approval. Individual research in printmaking. Students focus on conceptual and technical development through continued research in relief, intaglio, or screen-printing. Course may be repeated for a maximum of 6 credit hours.

ARTS 4540 ADVANCED SCULPTURE (6) STU. 6. Pr. ARTS 3520 and ARTS 3530 and (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737), and one 3000-level art history course or Departmental approval. Advanced investigation of the history, theory and methods of sculptural practice. Individual instruction and supervision of research and reading. Frequent individual and group critiques.

ARTS 4700 SENIOR CAPSTONE: ART HISTORY (3) LEC. 3. Pr., Declared ARTH major or minor and completion of 18 hours of 3000-level art history courses. Capstone course for ARTH majors.

ARTS 4840 CERAMICS IV (3) STU. 6. Pr. (ARTS 1710 or ARTS 1717) and (ARTS 1720 or ARTS 1727) and (ARTS 1730 or ARTS 1737) and ARTS 3810 and ARTS 3820 and ARTS 3830. and one 3000-level art history course or Departmental approval. Continuation of ARTS 3830 with increased emphasis on individual stylistic and conceptual concerns. Course may be repeated for a maximum of 6 credit hours.

ARTS 4850 PROFESSIONAL STUDIO PRACTICES (2) LEC. 2. Instruction in portfolio preparation, professional practices, information on studio art careers and graduate study. Must have completed nine credit hours in one concentration; taken concurrently with 4000-level studio in concentration prior to ARTS 4980.

ARTS 4930 DIRECTED STUDIES (2-3) IND. Pr., Open only to ARTS students who have shown ability, initiative, and industry. Departmental approval and 3.0 minimum GPA in 3000-level ARTS courses in area of directed study. Directed studies are offered in painting, printmaking, sculpture, art history, photography, and ceramics. Course may be repeated for a maximum of 6 credit hours.

ARTS 4950 BA STUDIO ART CAPSTONE (1) LEC. 1. SU. Students must have Senior Standing and have completed a minimum of 39 hours in the Major. Professional skills development and career strategies for BA Studio Art Majors.

ARTS 4967 HONORS SPECIAL PROBLEMS (1-3) LEC. Pr. Honors College Course may be repeated for a maximum of 3 credit hours.

ARTS 4970 SPECIAL TOPICS IN STUDIO ART AND ART HISTORY (2-3) AAB. Pr., Departmental approval. Topics in studio art and art history. Focus will vary according to the instructor. Course may be repeated for a maximum of 6 credit hours.

ARTS 4980 SENIOR PROJECT FOR STUDIO ARTS (3) STU. 6. Pr. (ARTS 2210 and ARTS 2310) or (ARTS 2210 and ARTS 2410) or (ARTS 2310 and ARTS 2410) and ARTS 2510 and (ARTS 2810 or ARTS 3820). And three additional courses in a single studio art concentration. Must be taken in the student's final semester. Directed terminal studio project with faculty-approved choice of content and medium. Project will be exhibited.

ARTS 4997 HONORS RESEARCH AND THESIS (1-3) IND. Pr. Honors College Course may be repeated for a maximum of 6 credit hours.
Aviation Management - AVMG

Courses

AVMG 1010 INTRODUCTION TO AVIATION (2) LEC. 2. Orientation to aviation management career opportunities. The history of significant events and accomplishments in the attempt to move through the air and space.

AVMG 3050 SEVERE AND HAZARDOUS WEATHER DISRUPTIONS (3) LEC. 3. Pr. AVMG 1010. Meteorology as it applies to the operation of aircraft with emphasis on observation of weather elements and interpretation of flight planning weather information.

AVMG 3140 PERFORMANCE EVALUATION AND MEASUREMENT (3) LEC. 3. Pr. AVMG 1010. Introduction to the use of operations research techniques. Includes the role of math modeling procedures, manual and computer generated solutions, applied to the decision-making process. Credit will not be given for both AVMG 3140 and SCMN 4700.

AVMG 3200 APPLIED ANALYSIS IN TRANSPORTATION (3) LEC. 3. Pr. AVMG 1010. Development of principles required in economic analysis.

AVMG 4040 BUSINESS AVIATION MANAGEMENT (2) LEC. 2. Pr. AVMG 1010 and SCMN 3720. Current principles and practices in commercial and business/corporate flight operations including organizational sources of revenue, functions, operation and typical problems.

AVMG 4060 TRANSPORTATION SAFETY MANAGEMENT (3) LEC. 3. Pr. AVMG 3050. Analysis and insight into the sequence of circumstances that can occur and cause an aircraft accident to happen as well as the techniques, processes and limitations in determining aircraft accident causation.

AVMG 4080 AIR TRANSPORT PLANNING (3) LEC. 3. Pr. AVMG 5090. Management decision making involved in selection of equipment, routes and the establishment of rates by certified and non-certified air carriers.

AVMG 4130 AIRPORT MANAGEMENT (3) LEC. 3. Pr. AVMG 3050. Practices in management of a civil public airport, including organization, functions, operations, sources of revenue, funding, maintenance and administration.

AVMG 4140 AIRPORT PLANNING AND DESIGN (3) LEC. 3. Pr. AVMG 4130. Principles and procedures pertaining to planning airport facilities required to meet the immediate and future air transportation of a community or region.

AVMG 4190 AIR SPACE MANAGEMENT (3) LEC. 3. Pr. AVMG 3050. Air traffic control procedures, facilities, center, and operations. Theory of radar operation and air traffic separation using computer-based ATC radar simulators. Special fee.

AVMG 4200 AIR CARGO OPERATIONS (3) LEC. 3. Domestic and international air cargo operations with emphasis on cargo economics, equipment, domestic and international regulatory activities, agents, operational techniques, systems and problems.

AVMG 4810 PROFESSIONAL DEVELOPMENT IN AVIATION (1) LEC. 1. SU. Pr., Junior Standing. This course examines various aviation profession issues and strategies. This course includes career planning, professional development and certifications, educational initiatives for continued professional development, and career management strategies. Credit will not be given for both SCMN 3810 and AVMG 4810.

AVMG 4920 INTERNSHIP IN AVIATION MNGT (1-6) INT. Practical on-the-job training under supervision with aviation agencies. Written reports are required by designated faculty supervisors. Course may be repeated for a maximum of 6 credit hours.

AVMG 4967 HONORS SPECIAL PROBLEMS (1-3) LEC. Pr. Honors College 2.2 cumulative GPA or College of Business Academic Excellence Initiative requirements.

AVMG 4997 HONORS THESIS (1-3) IND. Pr. Honors College

AVMG 5090 AVIATION LAW AND POLICY (3) LEC. 3. Pr. AVMG 1010. The legal structure of aviation including federal, local and state statutes, contracts, insurance and liability, regulatory statutes and case law.

AVMG 5170 AIRLINE MANAGEMENT (3) LEC. 3. Pr. AVMG 1010 and AVMG 3050 and (SCMN 3150 or SCMN 3153) and SCMN 3720. Airline manufacturing, economic, and operational/managerial issues, research and development and competition issues and a survey of the world's major airlines in terms of their management strategies and style.
AVMG 5180 GLOBAL AIR TRANSPORTATION MANAGEMENT (3) LEC. 3. Pr. AVMG 3140 and AVMG 3200. and Junior standing. International foreign air carriers, influences of ICAO and IATA, national ownership, determinants of power, operational and management practices, routes and fares.

AVMG 5970 SPECIAL TOPICS AVIATION MNGT (1-4) LEC. Investigation of current issues in the aviation industry. Course may be repeated for a maximum of 4 credit hours.

AVMG 6090/6096 AVIATION LAW AND POLICY (3) LEC. 3. Departmental approval. The legal structure of aviation including federal, local, and state statutes, contracts, insurance and liability, regulatory statutes and case law.

AVMG 6170/6176 AIRLINE MANAGEMENT (3) LEC. 3. Departmental approval. Airline manufacturing, economic, and operation/managerial issues, research and development and competition issues and a survey of the world's major airlines in terms of their management strategies and style.

AVMG 6180/6186 GLOBAL AIR TRANSPORTATION MANAGEMENT (3) LEC. 3. Pr. AVMG 3140 and AVMG 3200 or departmental approval. International foreign air carriers, influences of ICAO and IATA, national ownership, determinants of power, operational and management practices, routes and fares. Junior standing

AVMG 6970/6976 SPECIAL TOPICS AVIATION MNGT (1-3) LEC. 1-3. Departmental approval. Investigation of current issues in the aviation industry. Credit will not be given for both AVMG 5970 and AVMG 6970. Course may be repeated for a maximum of 9 credit hours.

AVMG 7930/7936 SPECIAL PROBS IN AVIATION MNGT (1-3) LEC. 1-3. Departmental approval. Special problems and current status of the aviation and aerospace industries are analyzed though a problem solving exercise. Course may be repeated for a maximum of 6 credit hours.

Biochemistry - BCHE

Courses

BCHE 3180 NUTRITIONAL BIOCHEMISTRY (3) LEC. 3. Pr. CHEM 2030 or CHEM 2080 or CHEM 2087. Departmental approval. Fundamental pathways of carbohydrate, lipid, and amino acid metabolism in human beings. Credit will not be given for both BCHE 3180 and BCHE 3200.

BCHE 3200 PRINCIPLES OF BIOCHEMISTRY (3) LEC. 3. Pr. (BIOL 1010 or BIOL 1020 or BIOL 1030 or BIOL 1027 or BIOL 1037) and (CHEM 2030 or CHEM 2070 or CHEM 2077 or CHEM 2080 or CHEM 2087). Structure and function of biomolecules, enzyme catalysis, processing of genetic information, bioenergetics and metabolism, and regulatory mechanisms in cellular processes.

BCHE 3201 PRINCIPLES OF BIOCHEMISTRY LABORATORY (1) LAB. 2. Coreq. BCHE 3200. Fundamental theory and techniques used in the isolation, characterization, and study of biomolecules.

BCHE 5180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways. Bioenergetics.

BCHE 5181 BIOCHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C BCHE 5180 or P/C CHEM 5180. Laboratory techniques required for identification and quantification of compounds of important biochemical classes.

BCHE 5190 BIOCHEMISTRY II (3) LEC. 3. Pr. BCHE 5180. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways.

BCHE 5191 BIOCHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C BCHE 5190 or P/C CHEM 5190. Laboratory techniques required for partial purification, kinetic studies, and characterization of enzymes and nucleotides from various plants, animals and bacteria.

BCHE 5250 PLANT METABOLIC PATHWAYS (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Fundamental processes of metabolism specific to plants.

BCHE 6180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Departmental approval. Fundamentals of the classification, structure, and reactions of the major constituents of living matter and evaluation of binding phenomena and bioenergetics.

BCHE 6181 BIOCHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C BCHE 6180 or P/C CHEM 6180. Laboratory techniques required for identification and quantification of compounds of important biochemical classes.
**BCHE 6190 BIOCHEMISTRY II (3)** LEC. 3. Pr. BCHE 6180. Departmental approval. Fundamentals of metabolism, focusing on the design and regulation of the major catabolic and biosynthetic metabolic pathways.

**BCHE 6191 BIOCHEMISTRY II LABORATORY (1)** LAB. 3. Pr. P/C CHEM 6190. Laboratory techniques required for partial purification, kinetic studies, and characterization of enzymes and nucleotides from various plants, animals, and bacteria.

**BCHE 6250 PLANT METABOLISM (3)** LEC. 3. Pr. CHEM 2080 or CHEM 2087. Fundamental processes of metabolism specific to plants.

**BCHE 7200 ADVANCED BIOCHEMISTRY I (3)** LEC. 3. Graduate credit will not be given for both BCHE 6190 and BCHE 7200.

**BCHE 7210 ADVANCED BIOCHEMISTRY II (3)** LEC. 3. Structure and function of macromolecules participating in the flow of molecular information. Graduate credit will not be given for both BCHE 6180 and BCHE 7210. Or equivalent.

**BCHE 7220 PRINCIPLES OF CELLULAR AND MOLECULAR ENZYMEOLOGY (3)** LEC. 3. Pr. BCHE 6190 or CHEM 6190 or BCHE 7200. Departmental approval. The principles of enzyme chemistry including the physical, chemical, and catalytic properties of enzymes.

**BCHE 7250 BIOCHEMISTRY OF LIPIDS AND LIPOPROTEINS (3)** LEC. 3. Pr. BCHE 7200. Departmental approval. The regulation of lipid and lipoprotein metabolism, role of lipid mediators in signaling pathways and protein modification, assembly and dynamics of lipoproteins and biomembranes.

**BCHE 7270 BIOCHEMICAL RESEARCH TECHNIQUES (3-6)** LEC. Pr. BCHE 6190 or CHEM 6190. Departmental approval. Modern biochemical laboratory techniques. Course may be repeated for a maximum of 6 credit hours.

**BCHE 7280 TOPICS IN BIOCHEMISTRY (1-3)** LEC. Pr. BCHE 7210. Directed studies in biochemistry. Departmental approval and BCHE 7210 or equivalent. Course may be repeated for a maximum of 3 credit hours.

**Biology - BIOL**

**Courses**

**BIOL 1000 INTRODUCTION TO BIOLOGY (4)** LEC. 3. LAB. 2. Science Core. Introduction to biological principles relevant to human society. Designed for non-science majors. Credit will not be given for both BIOL 1000 and BIOL 1020 or BIOL 1027.

**BIOL 1001 INTRODUCTION TO BIOLOGY LABORATORY (0)** LAB. Laboratory course for BIOL 1000.

**BIOL 1010 A SURVEY OF LIFE (4)** LEC. 3. LAB. 2. Pr. BIOL 1000 or BIOL 1020 or BIOL 1027 or (SCMH 1010 or SCMH 1013 or SCMH 1017) or (SCMH 1020 or SCMH 1023 or SCMH 1027). Science Core. Emphasis on contrasting strategies employed by organisms to meet similar biological needs. Credit will not be given for both BIOL 1010 and BIOL 1030 or BIOL 1037.

**BIOL 1011 A SURVEY OF LIFE LABORATORY (0)** LAB. Laboratory course for BIOL 1010.

**BIOL 1020 PRINCIPLES OF BIOLOGY (4)** LEC. 3. LAB. 2. Science Core. Introduction to the physical, chemical, and biological principles common to all organisms. Credit will not be given for both BIOL 1020 and BIOL 1000 or BIOL 1027.

**BIOL 1021 PRINCIPLES OF BIOLOGY LABORATORY (0)** LAB. Coreq. BIOL 1020. Laboratory Course for BIOL 1020.

**BIOL 1027 HONORS BIOLOGY (4)** LEC. 3. LAB. 2. Pr. Honors College Science Core. Introduction to the physical, chemical, and biological principles common to all organisms. Credit will not be given for both BIOL 1027 and BIOL 1000 or BIOL 1020.

**BIOL 1030 ORGANISIMAL BIOLOGY (4)** LEC. 3. LAB. 2. Pr. BIOL 1020 or BIOL 1027. Coreq. BIOL 1031. Science Core. Principles and fundamentals of biology at the organismal level. Credit will not be given for both BIOL 1030 and BIOL 1010 or BIOL 1037.

**BIOL 1031 ORGANISIMAL BIOLOGY LABORATORY (0)** LAB. Coreq. BIOL 1030. Laboratory Course for BIOL 1030.
BIOL 1037 HONORS ORGANISMAL BIOLOGY (4) LEC. 3. LAB. 2. Pr. Honors College. BIOL 1020 and BIOL 1027 Science Core. Principles and fundamentals of biology at the organismal level. Credit will not be given for both BIOL 1037 and BIOL 1010 or BIOL 1030.

BIOL 2000 MICROBIOLOGY AND PUBLIC HEALTH (4) LEC. 3. LAB. 1. Pr. BIOL 1000 or (BIOL 1020 or BIOL 1027). Introduction to the science of microbiology with an emphasis on the public health aspects. (Cannot be used to satisfy minor or major requirements in the biological sciences).

BIOL 2015 MARINE SCIENCE I OCEANOGRAPHY (5) LEC. 3. LAB. 4. Pr. MATH 1130 or MATH 1133. Departmental approval. An introduction to oceanography that integrates physical, geological, chemical and biological oceanography to provide a multidisciplinary foundation in the fundamentals of marine science. Taught at Gulf Coast Research Laboratory.

BIOL 2415 MARINE SCIENCE II: MARINE BIOLOGY (5) LEC. 3. LAB. 4. Pr. (BIOL 1020 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Departmental approval. An overview of biological oceanography with emphasis on organisms, habitats, and fisheries of Mississippi Sound and the Gulf of Mexico. Taught at Gulf Coast Research Laboratory.

BIOL 2425 MARINE BIOLOGY (4) LEC. 4. Pr. BIOL 1030 or BIOL 1037. Departmental approval. The invertebrates, vertebrates and marine plants as communities with emphasis on local examples. Taught only at Dauphin Island Sea Lab. (DISL).

BIOL 2445 COASTAL ECOLOGY FOR TEACHERS (4) LEC. 3. LAB. 2. Departmental approval. Provides teachers with a background in basic coastal ecology. Interdisciplinary concepts involving the environment and its conservation. Taught at Gulf Coast Research Laboratory. Basic science course required for education degree.

BIOL 2500 HUMAN ANATOMY AND PHYSIOLOGY I (4) LEC. 3. LAB. 2. Pr. BIOL 1000 or (BIOL 1020 or BIOL 1027). Study of the structure and function of the human body. First half of two-part sequence with BIOL 2510, concentrating on tissues, muscle, and nervous system.

BIOL 2510 HUMAN ANATOMY AND PHYSIOLOGY II (4) LEC. 3. LAB. 2. Pr. BIOL 2500. Study of the structure and function of the human body. second half of two-part sequence with BIOL 2500, concentrating on cardiovascular, respiratory, digestive, urinary, reproductive and endocrine systems.

BIOL 3000/3003 GENETICS (4) LEC. 3. LAB. 1. Pr. (BIOL 1020 or BIOL 1027). An overview of theoretical principles of transmission, cytological, molecular, and population genetics. Problem solving will be emphasized. May count either BIOL 3000 or BIOL 3003.

BIOL 3010 COMPARATIVE ANATOMY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037. Evolution and function of craniates and their organ systems.

BIOL 3020 GENOMIC BIOLOGY (4) LEC. 3. LAB. 2. Pr. BIOL 1020 or BIOL 1027. An overview of genes, genomes, and genomic and proteomic approaches and methodology. Application of principles of biology at the genomic level. Includes an introduction to bioinformatic approaches to genomic problems in a computer laboratory setting.

BIOL 3030/3033 EVOLUTION AND SYSTEMATICS (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. An introduction to evolutionary processes, classification, of organisms and scientific nomenclature.

BIOL 3040 BIOLOGY OF MARINE SYSTEMS (3) LEC. 3. Pr. (BIOL 1020 or BIOL 1027) and (BIOL 1030 or BIOL 1037). Introduction to marine systems and biological investigations of coastal, near shore and open ocean organisms and processes.

BIOL 3060 ECOLOGY (4) LEC. 3. LAB. 3. Departmental approval. Interactions of organisms with their environments and characteristics of populations, communities, and ecosystems. 8 hours of Biology.

BIOL 3075 INTRODUCTION TO OCEANOGRAPHY (4) LEC. 4. Pr. (MATH 1150 or MATH 1153) and CHEM 1030 and PHYS 1500. Departmental approval. The physics, chemistry, biology, and geology of the oceans. Taught only at Dauphin Island Sea Lab (DISL).

BIOL 3100 PLANT BIOLOGY (4) LEC. 4. LAB. 1. Pr. (BIOL 1030 or BIOL 1037) and (CHEM 1010 or CHEM 1030). Introduction to the morphology, anatomy, physiology and classification of plants with laboratory.

BIOL 3120/3123 NURSING PATHOPHYSIOLOGY (3) LEC. 3. Exploration of membrane, muscle and nerve physiology, peripheral and central nervous systems; special consideration of physiological processes involved in cardiology, respiration, the urinary system, digestion, and reproduction.

BIOL 3200 GENERAL MICROBIOLOGY (4) LEC. 3. LAB. 2. Pr. CHEM 1030 and (BIOL 1020 or BIOL 1027). Introduction to the science of microbiology, emphasizing cell structure, systematics, growth, genetics, and the role in human affairs.
BIOL 3500 PERSPECTIVES IN IMMUNOLOGY (3) LEC. 3. Pr. (P/C BIOL 3000 or P/C BIOL 3003 or P/C BIOL 3020) and BIOL 3200. Introduction to the cells and components of the immune response with an emphasis on host response to infection and medical immunology. May count either BIOL 3500 or BIOL 5500.

BIOL 4000 HISTOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037. Morphology and classification of tissues; arrangement of tissues in organs and systems of vertebrate animals.

BIOL 4010 INVERTEBRATE BIODIVERSITY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037. Survey of the phyla of invertebrates with emphasis on morphology, anatomy, ecology, evolution, and systematics.

BIOL 4055 MARINE SCIENCE FOR TEACHERS (3) LEC. 3. Departmental approval. Provides teachers an introduction to the study of marine science and incorporation of marine biology at all grade levels. Taught at Gulf Coast Research Laboratory.

BIOL 4100 CELL BIOLOGY (3) LEC. 3. Pr. CHEM 2030 or (CHEM 2070 or CHEM 2077) and (BIOL 3000 or BIOL 3003 or FISH 3000) and (BIOL 1030 or BIOL 1037). Introduction to cellular structure and processes, including evolution, organization, physiology, molecular biology of cells, membranes, cytoplasm, and organelles as well as energy, transport, motility, cell division, signaling, transcription, and translation.

BIOL 4150 HUMAN GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 4100 and (CHEM 2080 or CHEM 2087). Study of the biological interaction of genes, effects of mutation and changes in gene frequency in human populations. Emphasis on molecular approach to study evolutionary changes in human gene pools.

BIOL 4395 MARINE FAUNISTIC ECOLOGY (5) LEC. 2. LAB. 6. Departmental approval. A field survey of animals associated with three habitat types and factors controlling their distribution in the northern Gulf of Mexico. Taught at Gulf Coast Research Laboratory.

BIOL 4410 VERTEBRATE DEVELOPMENT (5) LEC. 3. LAB. 4. Pr. BIOL 3000 or BIOL 3003. Morphogenesis and organogenesis of frog, chick, pig, and human from a descriptive and analytical viewpoint.

BIOL 4425 MARINE FISHERIES MANAGEMENT (4) LEC. 4. Departmental approval. Fisheries management philosophy, objectives, problems, and principles involved in management decisions. Taught at Gulf Coast Research Laboratory.

BIOL 4435 SPECIAL TOPICS IN MARINE SCIENCE (1-6) LEC. Departmental approval. An opportunity for students to study in an area in which GCRL offers no formal course; not research oriented. Taught at Gulf Coast Research Laboratory. Course may be repeated for a maximum of 6 credit hours.

BIOL 4445 SPECIAL PROBLEMS IN MARINE SCIENCE (1-6) AAB/LEC. Departmental approval. Individualized research-oriented experience. Taught at Gulf Coast Research Laboratory. Course may be repeated for a maximum of 6 credit hours.

BIOL 4465 PARASITES OF MARINE ANIMALS (6) LEC. 3. LAB. 6. Pr. BIOL 5110. Departmental approval. A study of the parasites of marine estuarine animals with emphasis on morphology, taxonomy, life histories, and host-parasite relationships. Taught at Gulf Coast Research Laboratory.

BIOL 4475 MARINE ICHTHYOLOGY (6) LEC. 6. Pr. At least 13 credits in BIOL 1000 or higher and BIOL 3010 Departmental approval. Biology of the major piscine taxa in Mississippi Sound. Principles involved in classification and evolutionary relationships of these organisms. Taught at Gulf Coast Research Laboratory.

BIOL 4485 MARINE ECOLOGY (5) LEC. 5. Pr. BIOL 4010. The relationship of marine organisms to their environment and the effects of environment on abundance and distribution on marine organisms. Taught at Gulf Coast Research Laboratory, Departmental approval and 16 hours of Biological Science including BIOL 4010.

BIOL 4515 MARINE INVERTEBRATE ZOOLOGY (4) LEC. 4. Pr. At least 10 credits in BIOL 2000-8990 Departmental approval. The natural history, systematics, and morphology of marine invertebrates from the Gulf of Mexico; oriented toward a field and laboratory approach. Participation in extended field trips is part of the course. Taught at DISL.

BIOL 4525 DOLPHINS AND WHALES (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Classification, anatomy, and ecology of the cetaceans. Taught at DISL.

BIOL 4535 COASTAL ZONE MANAGEMENT (2) LEC. 2. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Management of shorelines and flood plains, and current legislation. Water quality and ecosystem quality management. Taught at DISL.

BIOL 4545 COASTAL ORNITHOLOGY (3) LEC. 3. Pr. BIOL 4020. Departmental approval. Coastal and pelagic birds with emphasis on ecology, taxonomy, and distribution. Taught at GCRL.

BIOL 4555 MARINE VERTEBRATE ZOOLOGY (4) LEC. 4. Pr. BIOL 1030 or BIOL 1037. Departmental approval. Systematics, zoogeography and ecology of marine fishes, reptiles, and mammals. Taught at DISL. May not be substituted for BIOL 4020.

BIOL 4575 MARINE ECOLOGY (4) LEC. 4. Prerequisites: BIOL1020 or marine biology. Departmental approval. Experimental ecological theory and its application to interactions of marine organisms with each other and the environment. Includes laboratory, extensive field trip experience. Taught at DISL.

BIOL 4585 PLANKTON BIOLOGY (3) LEC. 30. LAB. 15. Pr. (BIOL 1020 and BIOL 1021 or BIOL 1027) and (BIOL 1030 and BIOL 1031 or BIOL 1037). Students need to be of Junior or Senior Standing. Prerequisite BIOL 3040 or equivalent and permission of the AU Marine Science Program Coordinator. Students will learn about the biology of all forms of plankton and the methods for their study including optical, chemical and molecular techniques. Students will understand the basic methods of study and be able to sight-identify major groups.

BIOL 4920 INTERNSHIP IN BIOLOGY (1-4) INT. SU. Application of biology concepts and skills in a professional experience. 12 credit hours in 3000-level or higher BIOL courses. Departmental approval. Student must be enrolled in a major offered by the Department of Biological Sciences. Course may be repeated for a maximum of 4 credit hours.

BIOL 4950 SENIOR SEMINAR (1) LEC. 1. Departmental approval. Oral presentation and discussion of recent scientific publications from a selected area of biological sciences. One hour is required for all majors. Course may be repeated for a maximum of 3 credit hours.

BIOL 4967 HONORS SPECIAL PROBLEMS (1-3) LEC. Pr. Honors College Departmental approval and membership in the Honor College. Course may be repeated for a maximum of 3 credit hours.

BIOL 4970 SPECIAL TOPICS (1-4) AAB. Departmental approval. Instruction and discussion in a selected current topic in Biological Sciences. Course may be repeated for a maximum of 8 credit hours.

BIOL 4980 UNDERGRADUATE RESEARCH (2-4) AAB/IND. Departmental approval. Directed research in an area of specialty within the department. Course may be repeated for a maximum of 6 credit hours.

BIOL 4997 HONORS THESIS (1-3) IND. Pr. Honors College Undergraduate research and thesis. Course may be repeated for a maximum of 3 credit hours.

BIOL 5020 DEVELOPMENTAL BIOLOGY (3) LEC. 3. Pr. BIOL 4100 and BIOL 4410. Consideration of induction, constancy of the genome, pathfinding by migrating cells, morphogenetic movements, and other developmental processes.

BIOL 5090 CONSERVATION BIOLOGY (3) LEC. 3. Pr. BIOL 3060. This course is an overview of ethical, economic and biological aspects of conservation biology at scales ranging from local to global. Credit will not be given for both BIOL 5090 and BIOL 6090.

BIOL 5110 PARASITOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 1030 or BIOL 1037 or BIOL 2500. Students must have Junior or Senior standing. Development, identification, host-parasite relationships, and medical significance of parasitic protozoa, helminthes, and arthropods that infect humans, domestic animals and wildlife. May count either BIOL 5110 or LABT 4050.

BIOL 5120 SYSTEMATIC BOTANY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037). Classification, nomenclature, distribution, systematics, and evolution of vascular plants.
Biology and Biochemistry Courses

BIOL 5130 ADVANCED PLANT PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 and (CHEM 2080 or CHEM 2087). Physiological and biochemical processes effecting plant growth and development including water relations, photosynthesis, respiration, and hormones.

BIOL 5131 ADVANCED PLANT PHYSIOLOGY LABORATORY (1) LAB. 3. Pr. BIOL 3101 and (CHEM 2081 or CHEM 2088) and BIOL 5130. Laboratory exercises in plant physiology. Including water relations, metabolism and growth, and development.

BIOL 5140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Departmental approval. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

BIOL 5150 COMMUNITY ECOLOGY (3) LEC. 3. Pr. BIOL 3060. Dynamics of ecological communities, including niches, species interactions, succession, island biogeography, biodiversity and food webs. May count BIOL 5150 or BIOL 6150.

BIOL 5160 FIELD BIOLOGY AND ECOLOGY (3-15) LEC. 3. Prereq. 15 hours of biology. Intensive classroom and field studies of an area outside Alabama. Course may be repeated for a maximum of 15 credit hours.

BIOL 5190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. BIOL 4100 and BIOL 5220. Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic, and biochemical approaches.

BIOL 5200 CLINICAL MICROBIOLOGY (5) LEC. 3. LAB. 4. Pr. BIOL 3200. Isolation, cultivation, identification, classification and pathogenesis of infectious agents with emphasis on bacteria; includes clinical materials, Eubacteria, Mycoplasmata, Rickettsiae and Spirochetes. May count either BIOL 5200 or BIOL 6200.

BIOL 5210 MICROBIAL PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3200 and (CHEM 2080 or CHEM 2087). General physiology of microbial cells emphasizing fermentation, respiration, photosynthesis, nitrogen fixation, cell wall synthesis, membranes, and macromolecular synthesis.

BIOL 5220 INTRODUCTORY MOLECULAR GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Principles of gene expression including replication, transcription, and translation; structure and regulation of genes; concepts and techniques in recombinant DNA.

BIOL 5230 VIROLOGY (3) LEC. 3. Pr. (P/C BIOL 5220 or P/C BIOL 6220) or (P/C BIOL 5260 or P/C BIOL 6260). Biology of viruses, including structure, entry, replication, assembly and release, pathogenesis, and epidemiology of viral infections. May count BIOL 5230 or BIOL 6230.

BIOL 5240 ANIMAL PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 4100 or (CHEM 2070 or CHEM 2077). General overview of the function of the major systems in animals, including evolution and adaptation to specific environments.

BIOL 5250 MICROBIAL EVOLUTION AND DIVERSITY (4) LEC. 3. LAB. 2. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Introduction to microbial evolutionary history and theory, and survey of microbial diversity. Credit will not be given for both BIOL 5250 and BIOL 6250.

BIOL 5260 PROKARYOTIC MOLECULAR GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Molecular principles of bacterial genetics including gene structure, genetic organization, regulation of gene expression, acquisition and loss of genes leading to microbial evolution. Credit will not be given for both BIOL 5260 and BIOL 6260.

BIOL 5270 HOST-MICROBE INTERACTIONS (3) LEC. 3. Pr. BIOL 3200 and (BIOL 5220 or BIOL 5260). This course will explore interactions between microbes and their hosts including plants, insects and animals. Credit will not be given for both BIOL 5270 and 6270.

BIOL 5280 GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. Twenty-first century biotechnology and related ethical issues, including human cloning, stem cells, neuroenhancement, age retardation, genetic enhancement, and nanobiology. May count BIOL 5280 or 6280.

BIOL 5300 PLANT ANATOMY AND DEVELOPMENT (4) LEC. 3. LAB. 4. Pr. BIOL 3100. Investigation of the various levels of plant organization from subcellular to organism through use of light and scanning electron microscopes.

BIOL 5320 PLANT GENE EXPRESSION (4) LEC. 4. Pr. BIOL 3100. Departmental approval. Genetic expression of genetic elements in plants from the recent literature.

BIOL 5330 DEVELOPMENTAL GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. Study of the genetics and genetic mechanisms behind developmental processes occurring in a range of species. May count either BIOL 5330 or BIOL 6330.
Biol 5340 Protozoology (4) Lec. 3. Lab. 3. Pr. Biol 3000 or Biol 3003. Life history, identification, cell biology, and evolution of free-living and parasitic protozoa of the major groups. Laboratory includes techniques for microscopy.

Biol 5350 Behavioral Ecology (3) Lec. 3. Pr. (Biol 3030 or Biol 3033) and Biol 3060. Evolution of behaviors via natural, sexual, and kin selections; evolutionary influences on social groups, mating systems, cooperative breeding, and other interactions.

Biol 5360 Population Ecology (3) Lec. 3. Pr. Biol 3060 and (Math 1610 or Math 1613 or Math 1617). Departmental approval. Quantitative study of populations, including life tables, Leslie matrices, exponential and logistic models, metapopulations, and life-history theory.

Biol 5370 Molecular Ecology (3) Lec. 3. Pr. Biol 3000 or Biol 3003 and (Biol 3030 or Biol 3033). General overview of the concepts and techniques regarding the application of molecular variation in answering questions pertaining to populations and communities of organisms. Credit will not be given for both Biol 5370 and Biol 6370.

Biol 5375 Marine Science for Elementary School Teachers (3) Lec. 3. Pr. At least 6 credits in Biol 1000-8990 Principle-centered training in a broad spectrum of subjects relating marine science to health, reading, social studies, language, arithmetic, science, and art. Taught at GCRL. Departmental approval and 6 hours in basic biology.

Biol 5425 Marine Botany (4) Lec. 4. Departmental approval. Pr. Biol 1020 or equiv. Survey of microscopic and macroscopic algae, salt marsh vegetation, sea grasses, mangroves and maritime forests with regard to identification, distribution, structure, ecology and physiology. Field trips and laboratory work. Taught at DISL.

Biol 5435 Coastal Vegetation (4) Lec. 2. Lab. 2. Pr. (Biol 1030 or Biol 1037) and Biol 3100. Study of different coastal ecosystems with an emphasis on vegetation.

Biol 5455 Marsh Ecology (4) Lec. 4. Departmental approval. Animal, plant and microbial interactions in salt marshes. Trophic flow, sensitivity to anthropogenic perturbation and importance for economically critical fisheries. Taught at DISL.

Biol 5475 Oceanography of the Gulf of Mexico (5) Lec. 3. Lab. 2. Departmental approval. A descriptive study of the oceanology of the Gulf of Mexico and adjacent waters including coastal zone, continental shelf, and deep ocean. Taught at GCRL.

Biol 5495 Marine Protozoology (3) Lec. 2. Lab. 3. Treatment of the major groups of protozoa from marine habitats including their taxonomy, structure, ecology, and methods of studying. Pr. Biol 1020 or equivalent.

Biol 5500 Immunology (3) Lec. 3. Pr. P/C Biol 3200 and (Biol 3000 or Biol 3003 or Biol 3020). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology. May count either Biol 3500 or Biol 5500.

Biol 5501 Immunology Lab (2) Lab. 4. Pr. P/C Biol 5500 or P/C Biol 3500. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions, and antibody production.

Biol 5510 Biogeography (3) Lec. 3. Patterns and processes associated with the distribution of living and fossil organisms.

Biol 5521 Gene Expression and Recombinant DNA Laboratory (2) Lec. 2. Lab. 4. Pr. P/C Biol 5220. Laboratory experiences demonstrating concepts and techniques in recombinant DNA.

Biol 5525 Marine Behavioral Ecology (4) Lec. 3. Lab. 3. Departmental approval. Study of animal behavior and the influence by and interaction with the environment and the ecological and evolutionary significance of these behaviors. Prereq. Vertebrate and Invertebrate Zoology. Taught at DISL.

Biol 5535 Marine Conservation Biology (4) Lec. 3. Lab. 3. Departmental approval. Major threats to marine biodiversity, current topics in marine conservation biology and critical examination of the literature. Pr. General or Marine Ecology course. Taught DISL.

BIOL 5600 MAMMALIAN PHYSIOLOGY (BIOMEDICAL PHYSIOLOGY) (5) LEC. 4.25. LAB. 2.75. Pr. (BIOL 1030 or BIOL 1037 or BIOL 2500) and (CHEM 2080 or CHEM 2087). An in-depth investigation of the physiology of the major mammalian organ systems.

BIOL 5605 MAMMALIAN PHYSIOLOGY (6) LEC. 5. LAB. 3. To give students a detailed overview of human physiology. Students will learn the normal function of the body systems through reading, lecture and discussion.

BIOL 5650 ETHOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Animal behaviors, analysis of their adaptive value, development, and evolution.

BIOL 5660 FOOD MICROBIOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3200. Introduction to basic and applied microbiology in food, including how bacteria, viruses, parasites, yeasts and mold affect and in turn are affected by foods both positively and negatively. May count either FDSC 5660, BIOL 5660, FDSC 6600, or BIOL 6600. May count either BIOL 5660 or BIOL 6660.

BIOL 5750 ORNITHOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Taxonomy, evolution, ecology, and behavior of birds.

BIOL 5760 MAMMALOGY (4) LEC. 3. LAB. 3. Departmental approval. Characteristics, origins, ecology, behavior, reproduction, physiology, and diversity of mammals. Labs include survey or current literature, field trips, data analysis, and report preparation.

BIOL 6000 MAMMALIAN PHYSIOLOGY (BIOMEDICAL PHYSIOLOGY) (5) LEC. 4.25. LAB. 2.75. Pr. (BIOL 1030 or BIOL 1037 or BIOL 2500) and (CHEM 2080 or CHEM 2087). An in-depth investigation of the physiology of the major mammalian organ systems.

BIOL 6020 DEVELOPMENTAL BIOLOGY (3) LEC. 3. Pr. BIOL 4100 and BIOL 4410. Consideration of induction, constancy of the genome, pathfinding by migrating cells, morphogenetic movements, and other developmental processes.

BIOL 6090 CONSERVATION BIOLOGY (3) LEC. 3. Pr. BIOL 3060. This course is an overview of ethical, economic and biological aspects of conservation biology at scales ranging from local to global. Credit will not be given for both BIOL 5090 and BIOL 6090.

BIOL 6110 PARASITOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) or BIOL 2500. Development, identification, host-parasite relationships, and medical significance of parasitic protozoa, helminthes, and arthropods that infect humans, domestic animals, and wildlife.

BIOL 6120 SYSTEMATIC BOTANY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037). Classification, nomenclature, distribution, systematics, and evolution of vascular plants.

BIOL 6130 ADVANCED PLANT PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100 and BIOL 2080. Physiological and biochemical processes effecting plant growth and development including water relations, photosynthesis, respiration, and hormones.

BIOL 6131 ADV PLANT PHYSIOLOGY LAB (1) LAB. 3. Pr. BIOL 3101 and (CHEM 2081 or CHEM 2088). Laboratory exercises in plant physiology. Including water relations, metabolism, and growth and development.

BIOL 6140 PLANT ECOLOGY (4) LEC. 3. LAB. 4. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Departmental approval. Exploration of ecological interactions between plants and their environment. Field trips emphasize Southeastern habitats/plant examples. Includes 3-day weekend field trip.

BIOL 6150 COMMUNITY ECOLOGY (3) LEC. 3. Pr. BIOL 3060. Dynamics of ecological communities, including niches, species interactions, succession, island biogeography, biodiversity and food webs. May count BIOL 5150 or BIOL 6150.

BIOL 6160 FIELD BIOLOGY AND ECOLOGY (3-15) LEC. 3. Pr. At least 15 credits each with a minimum grade of C in BIOL 1000-8990 Intensive classroom and field studies of an area outside Alabama. Course may be repeated for a maximum of 15 credit hours. Departmental approval and 15 hours of biology.
BIOL 6190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. BIOL 4100 and BIOL 5220 and (CHEM 2080 or CHEM 2087). Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic, and biochemical approaches.

BIOL 6200 CLINICAL MICROBIOLOGY (5) LEC. 3. LAB. 4. Pr. BIOL 3200. Isolation, cultivation, identification, classification and pathogenesis of infectious agents with emphasis on bacteria; includes clinical materials, Eubacteria, Mycoplasmata, Rickettsiae and Spirochetes. May count either BIOL 5200 or BIOL 6200.

BIOL 6210 MICROBIAL PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3200 and (CHEM 2070 or CHEM 2077). General physiology of microbial cells emphasizing fermentation, respiration, photosynthesis, nitrogen fixation, cell wall synthesis, membranes, and macromolecular synthesis.

BIOL 6220 INTRODUCTORY MOLECULAR GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Advanced principles of gene expression including replication, transcription and translation; structure and regulation of genes; detailed concepts and techniques in recombinant DNA. Credit will not be given for both BIOL 6220 and CMBL 6220.

BIOL 6230 VIROLOGY (3) LEC. 3. Pr. (P/C BIOL 5220 or P/C BIOL 6220) or (P/C BIOL 5260 or P/C BIOL 6260). Biology of viruses, including structure, entry, replication, assembly and release, pathogenesis, and epidemiology of viral infections. May count BIOL 5230 or BIOL 6230.

BIOL 6240 ANIMAL PHYSIOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 4100 or CHEM 2070 or CHEM 2077. General overview of the function of the major systems in animals, including evolution and adaptation to specific environments.

BIOL 6250 MICROBIAL EVOLUTION AND DIVERSITY (4) LEC. 3. LAB. 2. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Introduction to microbial evolutionary history and theory, and survey of microbial diversity. Credit will not be given for both BIOL 5250 and BIOL 6250.

BIOL 6260 PROKARYOTIC MOLECULAR GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3200. Molecular principles of bacterial genetics including gene structure, genetic organization, regulation of gene expression, acquisition and loss of genes leading to microbial evolution. Course will not be given for both BIOL 5260 and BIOL 6260.

BIOL 6270 HOST-MICROBE INTERACTIONS (3) LEC. 3. Pr. BIOL 3200 and (BIOL 5200 or BIOL 5260). This course will explore interactions between microbes and their hosts including plants, insects and animals. Credit will not be given for both BIOL 5270 and BIOL 6270.

BIOL 6280 GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. Twenty-first century biotechnology and related ethical issues, including human cloning, stem cells, neuroenhancement, age retardation, genetic enhancement, and nanobiology. May count BIOL 5280 or 6280.

BIOL 6300 PLANT ANATOMY AND DEVELOPMENT (4) LEC. 2. LAB. 4. Pr. BIOL 6130. The study of the structure and ontogeny of plant cells, tissues, and organs. Fall.

BIOL 6320 PLANT GENE EXPRESSION (4) LEC. 4. Pr. BIOL 5320. Departmental approval. Genetic expression of genetic elements in plants from the recent literature. Credit will not be given for both BIOL 6320 and CMBL 6320.

BIOL 6330 DEVELOPMENTAL GENETICS (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003. Study of the genetics and genetic mechanisms behind developmental processes occurring in a range of species. May count either BIOL 6330 or BIOL 5330.

BIOL 6340 PROTOZOOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3000 or BIOL 3003. Life history, identification, cell biology, and evolution of free-living and parasitic protozoa of the major groups. Laboratory includes techniques for microscopy.

BIOL 6350 BEHAVIORAL ECOLOGY (3) LEC. 3. Pr. (BIOL 3030 or BIOL 3033) and BIOL 3060. Evolution of behaviors via natural, sexual, and kin selections; evolutionary influences on social groups, mating systems, cooperative breeding, and other interactions.

BIOL 6360 POPULATION ECOLOGY (3) LEC. 3. Pr. BIOL 3060. Departmental approval. Quantitative study of populations, including life tables, Leslie matrices, exponential and logistic models, metapopulations, and life-history theory.

BIOL 6370 MOLECULAR ECOLOGY (3) LEC. 3. Pr. BIOL 3000 or BIOL 3003 and BIOL 3060. General overview of the concepts and techniques regarding the application of molecular variation in answering questions pertaining to populations and communities of organisms. Credit will not be given for both BIOL 5370 and BIOL 6370.
BIOL 6375 MARINE SCIENCE FOR ELEMENTARY SCHOOL TEACHERS (3) LEC. 3. Principle-centered training in a broad spectrum of subjects relating marine science to health, reading, social studies, language, arithmetic, science, and art. Departmental approval and 6 hours in basic biological science. Taught at GCRL.

BIOL 6380 GENERAL ICHTHYOLOGY (4) LEC. 3. LAB. 4. Pr. BIOL 1030 or BIOL 1037. Survey of the biodiversity of world and local fishes with an overview of ecology, behavior, biology, and conservation of fishes.

BIOL 6415 SALT MARSH PLANT ECOLOGY (4) LEC. 2. LAB. 2. Pr. BIOL 3100. The plant ecology of salt marshes.

BIOL 6425 MARINE BOTANY (4) LEC. 4. Departmental approval. Identification, distribution, structure, ecology and physiology of microscopic and macroscopic algae, sea grasses, salt marsh vegetation, mangroves and maritime forests. Experimental manipulation of these organisms. Taught at DISL.

BIOL 6435 COASTAL VEGETATION (4) LEC. 2. LAB. 2. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3100. Study of different coastal ecosystems with an emphasis on plant vegetation.

BIOL 6455 MARSH ECOLOGY (4) LEC. 4. Departmental approval. Animal, plant and microbial interactions in salt marshes and experimental manipulation of these groups. Trophic flow, sensitivity to anthropogenic perturbation and importance for economically critical critical fisheries. Taught at DISL.

BIOL 6465 MARINE MICROBIOLOGY (5) LEC. 3. LAB. 2. Pr. BIOL 3200 and BIOL 4600. Departmental approval. The role of microorganisms in marine environments.

BIOL 6475 OCEANOLOGY OF THE GULF OF MEXICO (3) LEC. 2. LAB. 2. Departmental approval. A descriptive study of the oceanology of the Gulf of Mexico. and adjacent waters including coastal zone, continental shelf, and deep ocean. Taught at GCRL.

BIOL 6495 MARINE PROTOZOOLOGY (3) LEC. 2. LAB. 3. Treatment of the major groups of protozoans from marine habitats including their taxonomy, structure, ecology, and methods of studying.

BIOL 6500 IMMUNOLOGY (3) LEC. 3. Pr. BIOL 3200 and (BIOL 3000 or BIOL 3003 or BIOL 3020) and P/C BIOL 6501. The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology.

BIOL 6501 IMMUNOLOGY LABORATORY (2) LAB. 4. Pr. P/C BIOL 5500 or P/C BIOL 6500. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions, and antibody production.

BIOL 6510 BIOGEOGRAPHY (3) LEC. 3. Departmental approval. Patterns and processes associated with the distribution of living and fossil organisms.

BIOL 6521 GENE EXPRESSION AND RECOMBINANT DNA LABORATORY (2) LEC. 2. LAB. 4. Pr. P/C BIOL 5220 or P/C BIOL 6220. Laboratory experiences demonstrating concepts and techniques in recombinant DNA.

BIOL 6525 MARINE BEHAVIORAL ECOLOGY (4) LEC. 3. LAB. 3. Study of animal behavior and the influence by and interaction with the environment and the ecological and evolutionary significance of these behaviors. Vertebrate and Invertebrate Zoology required. Taught at DISL.

BIOL 6535 MARINE BEHAVIORAL ECOLOGY (4) LEC. 3. LAB. 3. Departmental approval. Examination of conservation biology based on previous study of marine ecology. General or Marine Ecology course required. Taught at DISL.

BIOL 6550 WETLAND BIOLOGY (4) LEC. 4. LAB. 3. Pr. BIOL 3060. Biology of world wetland habitats. Field trips, research project, presentation, and paper discussion required.

BIOL 6600 MAMMALIAN PHYSIOLOGY (BIOMEDICAL PHYSIOLOGY) (5) LEC. 4.25. LAB. 2.75. Pr. (BIOL 1030 or BIOL 1037 or BIOL 2500) and (CHEM 2080 or CHEM 2087). An in-depth investigation of the physiology of the major mammalian organ systems.

BIOL 6650 ETHOLOGY (4) LEC. 3. LAB. 3. Pr. (BIOL 1030 or BIOL 1037) and BIOL 3060. Animal behaviors, analysis of their adaptive value, development, and evolution.

BIOL 6660 FOOD MICROBIOLOGY (5) LEC. 3. LAB. 2. Pr. BIOL 3200. The role of microorganisms in food production and food spoilage with basic training in the microbiological analysis of food.

Biol 6750 Ornithology (4) Lec. 3. Lab. 3. Pr. (Biol 3030 or Biol 3033) and Biol 3060. Departmental approval. An intensive investigation of the current literature and relevant research dealing with birds.

Biol 6760 Mammalogy (4) Lec. 3. Lab. 3. Departmental approval. Characteristics, origins, ecology, behavior, reproduction, physiology, and diversity of mammals. Labs include survey or current literature, fieldtrips, data analysis and report preparation.

Biol 7000 Advanced Parasitology (3) Lec. 3. Pr. Biol 6110 or Biol 5110. Departmental approval. Interactions of organisms with their environments and characteristics of populations, communities, and ecosystems. Eight hours of Biology.

Biol 7010 Fundamentals of Teaching Biology (1) Lec. 1. Su. Course may be repeated for a maximum of 6 credit hours.

Biol 7030 Advanced Ichthyology (6) Lec. 6. Lab. 3. Pr. Biol 6380 or Fish 6380. Survey of the biodiversity of freshwater fishes in the southeastern United States through intensive field trips and sampling. Credit will not be given for both Biol 7030 and Fish 7030.

Biol 7060 Advanced Mammalogy (4) Lec. 3. Lab. 3. Pr. Biol 6760. Current literature in mammalogy, collections management, and professional aspects of mammalogy. Labs include preparing specimens, curating research collections, fieldtrips, library work, data analysis, and report preparation.

Biol 7125 Coastal Ecosystems Dynamics (2) Lec. 2. Investigation of the basic principles of ecosystem structure and function. Biological Oceanography, Advanced Marine Ecology, Fisheries Oceanography recommended.

Biol 7160 Systematic Ichthyology (3) Lec. 3. Pr. Biol 6380. The principles of systematics and their application to the study of the evolution of fishes. Emphasizes individual and group work with faunistic literature and museum material.

Biol 7170 Population Genetics (3) Lec. 3. Pr. Biol 3000 or Biol 3003. Examination of the theories relating to maintenance of variation in natural populations of plants and animals.

Biol 7200 Evolutionary Biology (3) Lec. 3. Pr. Biol 3000 or Biol 3003 and Biol 3200. Topics of current interest in evolution. Readings and presentation required.

Biol 7225 Field Marine Science - Maine (2) Lec. 1. Lab. 4. Field study in Maine emphasizing rocky intertidal, kelp bed, and eel grass habitats.

Biol 7270 Ultrastructure Plant Cells and Microbes (5) Lec. 3. Lab. 4. Departmental approval. Theory and practice of transmission and scanning electron microscopy and their applications to the biological sciences. Credit will not be given for both Biol 7270 and Cmb 7270.

Biol 7280 Plant Hormones (2) Lec. 2. Pr. Biol 6130. Synthesis, physiology, and mode of action of the major plant hormones including abscisic acid, auxins, cytokinins, ethylene, and gibberellins.

Biol 7290 Evolutionary Genetics (3) Lec. 3. Pr. Biol 3000 or Biol 3003 and Biol 6170. Departmental approval. The role of population processes as mechanisms for evolution; and evolution at the molecular level. Credit will not be given for both Biol 7290 and Cmb 7290.

Biol 7370 Stream Ecology (4) Lec. 3. Lab. 3. Pr. (Biol 1030 or Biol 1037) and Biol 3060. Physical, chemical, and biological aspects of stream ecosystems emphasizing effects of natural environmental factors and human influences on stream biota, and quantitative methods used to study stream ecology.

Biol 7440 Advanced Cell Biology (3) Lec. 3. Pr. Biol 4100. Examination of current areas of research in cell and developmental biology by directed reading and discussion. Credit will not be given for both Biol 7440 and Cmbl 7440.

Biol 7490 Physiological Ecology (3) Lec. 3. Pr. Biol 3060 A study of the physiological adaptations that allow animals to survive in unusual environments. A course in ecology required.

Biol 7515 Oceanography of the Gulf of Mexico (3) Lec. 3. Departmental approval. Graduate level. A descriptive study of the oceanology of the Gulf of Mexico and adjacent waters including coastal zone, continental shelf, and deep ocean. Taught at GCRL.

Biol 7530 Advanced Systematic Botany (3) Lec. 3. Morphological and molecular approaches to modern systematics of plants.

Biol 7540 Professional Aspects of Biology (3) Lec. 3. Departmental approval. Instruction on practical aspects of a career in biological sciences.

Biol 7560 Plant/Animal Interactions (3) Lec. 3. Pr. Biol 3100 and Biol 3060. Departmental approval. Overview of ecological and evolutionary interrelationships between animals and plants, including pollination biology, dispersal ecology, carnivory, and plant-herbivore interactions.

Biol 7620 Microbiology of Epidemics (3) Lec. 3. Pr. Biol 4200. Departmental approval. Epidemics of communicable disease outbreaks are analyzed according to the hosts, modes of transmission, environment, and pathogenesis of the agents.

Biol 7705 Tropical Biology: Ecological Approach (8) Lec. 4. Lab. 12. Pr. At least 15 credits each with a minimum grade of C in Biol 6000-8990. An in-depth introduction to the principles of ecology in the tropics. Orientation and introductory lecture in San Jose, Costa Rica, followed by field work during an 8 week period. 15 hours of graduate level biological science.

Biol 7715 Tropical Agro Ecology (8) Lec. 4. Lab. 12. Pr. At least 20 credits each with a minimum grade of C in Biol 6000-8990. Application of ecological principles to tropical agricultural systems with emphasis on research training. Orientation in San Jose, Costa Rica followed by visits to 3 main habitats.

Biol 7720 Prokaryotic Gene Regulation (3) Lec. 3. Pr. Biol 6210 and (Biol 6180 or Chem 6180). Discussion of gene expression in bacteria using the current literature.

Biol 7950 Masters Thesis Seminar (1) Lec. 1. Su. Departmental approval. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 2 credit hours.

Biol 7960 Special Problems (1-4) Lec. Pr. P/C Biol 6220. Oral presentation and discussion of recent scientific publications from a selected area molecular biology. Credit will not be given for both Biol 7960 and Cmbl 7960. Course may be repeated for a maximum of 4 credit hours.

Biol 7970 Special Topics (1-4) Aab. Departmental approval. Instruction and discussion in a selected current topic in botany, microbiology, molecular biology, or zoology. A different topic for advanced study will be selected each semester this course is offered. Course may be repeated for a maximum of 8 credit hours.

Biol 7990 Research and Thesis (1-10) MST. Course may be repeated with change in topic.

Biol 8950 Doctoral Seminar (1) Sem. 1. Su. Oral presentation and discussion of research in the field of specialization. Course may be repeated for a maximum of 3 credit hours.

Biol 8990 Research and Dissertation (1-10) DSR. Course may be repeated with change in topic.

Biosystems Engineering - BSEN
Courses

BSEN 2210 ENGINEERING METHODS FOR BIOLOGICAL SYSTEMS (2) LEC. 1. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (PHYS 1600 or PHYS 1607) or Departmental approval. Introduction to experimental design methodology, basic engineering design and problem solving methodology for Biological Engineering. Visualization skills, computer-aided 3-D solid modeling of parts, 3-D assembly of solid part geometries, computation of mass properties, 2-D engineering drawings, engineering design process, safety, tools and fabrication processes and design, and hands-on shop fabrication of semester project.

BSEN 2240 BIOLOGICAL AND BIOENVIRONMENTAL HEAT AND MASS TRANSFER (3) LEC. 3. Pr. (MATH 2630 or MATH 2637) and (PHYS 1600 or PHYS 1607) and P/C ENGR 2010. Basic principles of heat and mass transfer with special applications to biological and environmental systems. Introduction to steady state and transient heat conduction. Convection, radiation, diffusion, simultaneous heat and mass transfer, and generation and depletion of heat and mass in biological systems.

BSEN 3210 MECHANICAL POWER FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. ENGR 2010 and MATH 2650 and P/C ENGR 2350. Basic engineering analysis, synthesis, and design concepts applied to power sources, mobile equipment, and machinery applications for agricultural, forestry, and natural resource systems.

BSEN 3230 NATURAL RESOURCE CONSERVATION ENGINEERING (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Engineering analysis applied to natural resource systems. Design principles and practices in rainfall-runoff relationships, soil erosion and its prediction and control, hydraulic structures, and open channel hydraulics.

BSEN 3240 PROCESS ENGINEERING IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 2240. Departmental approval. Theory and application of process operations in biological, food and agricultural systems. Heat transfer, fluid flow, thermal processing, evaporation, psychrometrics, refrigeration, drying freezing.

BSEN 3260 ENGINEERING FOR PRECISION AGRICULTURE AND FORESTRY (3) LEC. 2. LAB. 3. Pr. ELEC 3810 and MATH 2650. Departmental approval. Engineering aspects of spatial technologies applied to agricultural and forest production. Data collection in the field using GPS and use of field data in site specific applications. Fall.

BSEN 3310 HYDRAULIC TRANSPORT IN BIOLOGICAL SYSTEMS (4) LEC. 3. LAB. 3. Pr. (ENGR 2050 or ENGR 2053) and MATH 2650 or Departmental approval. Fluid properties, Non-Newtonian fluids and biological systems, Fluid statics, Energy equation, mass and momentum balance, pipe flow for Newtonian and Non-Newtonian fluids, dimensional analysis, compressible flows.

BSEN 3500 NATURAL RESOURCE SYSTEMS CONSERVATION (3) LEC. 2. LAB. 3. Pr. MATH 1130 or MATH 1133. Natural resource conservation technologies including rainfall-runoff relationships, sediment transport capacity, runoff control structures, water supply development, surveying techniques including GPS methods.

BSEN 3510 AGRICULTURAL POWER AND MACHINERY FUNDAMENTALS (3) LEC. 2. LAB. 3. Pr. MATH 1130 or MATH 1133. Power unit fundamentals with emphasis on diesel and small gasoline engines; mechanics of operation, safety, use, and adjustment of machines used for horticultural and agronomic crop production; and precision agriculture principles and technology.

BSEN 3530 AGRICULTURAL PRODUCTION AND PROCESSING FACILITY TECHNOLOGY (3) LEC. 3. Pr. MATH 1130 or MATH 1133. Fundamental requirements for the design and operation of agricultural production and processing facilities.

BSEN 3560 TURF SYSTEMS IRRIGATION DESIGN (3) LEC. 3. Pr. MATH 1130 or MATH 1133. Irrigation system design for turf-based systems including residential lawns, commercial properties, athletic fields, and golf courses. Irrigation scheduling and water demand are presented to provide management capabilities.

BSEN 3610 INSTRUMENTATION AND CONTROLS FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Pr. MATH 2650 and BSEN 2210. Departmental approval. Understanding of fundamentals of electrical circuits, sensing and sensors, simple digital electronics, analog measurement circuits, introductory digital signal processing, computer data acquisition.

BSEN 4210 IRRIGATION SYSTEM DESIGN (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Departmental approval. Theory and design of irrigation systems for the application of water and wastewater including surveying techniques for system design. Systems include solid-set, travel, center-pivot, and trickle. Fall.

BSEN 4300 PROFESSIONAL PRACTICE IN BIOSYSTEMS ENGINEERING (2) LEC. 1. LAB. 3. Pr. BSEN 3230 and ENGR 2070 or Departmental approval. This course focuses on issues related to the professional practice of biological engineering including preparing students for transition to careers as professional engineers.

BSEN 4310 ENGINEERING DESIGN FOR BIOSYSTEMS (3) LEC. 1. LAB. 6. Pr. BSEN 4300. Departmental approval. Capstone design course in biosystems engineering emphasizing teamwork, communication, safety engineering, and economic analysis to complete an engineering design project. Spring.

BSEN 4960 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) AAB/IND. Departmental approval. Faculty supervision of individual student investigations of specialized problems in biosystems engineering. May be repeated with change in problem. Course may be repeated with change in topics.

BSEN 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College Course may be repeated for a maximum of 3 credit hours.

BSEN 4970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) LEC. Departmental approval. Individual or small group study of a specialized area in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 4980 UNDERGRADUATE RESEARCH (2-4) IND. Departmental approval. Directed research in the area of specialty within the department. Course may be repeated for a maximum of 4 credit hours.

BSEN 4997 HONORS THESIS (1-3) IND. Pr. Honors College Course may be repeated for a maximum of 3 credit hours.

BSEN 5220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010 or CSES 2040 or CSES 2043 or AGRN 2040 or AGRN 2043 or Departmental approval. Geopatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 5230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. CHEM 1040 and BIOL 3200 and P/C BSEN 3230. Introduction to animal waste management problems of confined production systems, and characterization of animal waste types. Design of biological treatment and processing systems. Departmental approval. May count either BSEN 5230 or BSEN 6230.

BSEN 5250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 3. LAB. 2. Pr. MATH 2650 and ELEC 3810 and (ENGR 2350 or MECH 2110) or Departmental approval. Modeling of biosystems, methods to deal with complexity, and validation tools. Spring.

BSEN 5260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Application and use of renewable energy in biological, food, forest and agricultural systems including bioenergy, solar energy, wind power and geothermal. Departmental approval. May count either BSEN 5260 or BSEN 6260.

BSEN 5510 ECOLOGICAL ENGINEERING (3) LEC. 3. Pr. BSEN 3230. Ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities. Departmental approval. May count either BSEN 5510 or BSEN 6510.

BSEN 5520 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 3. Pr. BSEN 5510. Modeling of non-point source pollution at watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants. Departmental approval. May count either BSEN 5520 or BSEN 6520.

BSEN 5540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. Pr. CHEM 1040 and MATH 2650 and BSEN 3310. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 5550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133 or MATH 1150 or MATH 1153 or MATH 1610 or MATH 1613 or MATH 1617) and (PHYS 1000 or PHYS 1007) or PHYS 1500 or (PHYS 1600 or PHYS 1607). Engineering concepts and unit operations used in processing food products. Fall.

BSEN 5560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Development of student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts. Departmental approval. May count either BSEN 5560 or BSEN 6560.
BSEN 6220 GEOSPATIAL TECHNOLOGIES IN BIOSYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Geospatial technologies including GPS, GIS, and remote sensing systems applied to biosystems. Collecting, managing, and analyzing spatial data for agricultural and forest systems. Spring.

BSEN 6230 WASTE MANAGEMENT AND UTILIZATION FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. CHEM 1040 or CHEM 1041. Departmental approval. Coreq. BSEN 3230. Introduction to the animal waste management problems of confined production systems and characterization of animal waste types. Design of biological treatment and processing systems.

BSEN 6250 DETERMINISTIC MODELING FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. MATH 2650 and ELEC 3810 and (ENGR 2350 or MECH 2110) or Departmental approval. Modeling of biosystems, methods to deal with complexity, and validation tools. Spring.

BSEN 6260 RENEWABLE ENERGY IN BIOSYSTEMS PROCESS OPERATIONS (3) LEC. 2. LAB. 3. Pr. BSEN 3310. Departmental approval. Application and use of renewable energy in biological, food forest and agricultural systems including biomass and bioenergy, solar energy, wind power and geothermal.

BSEN 6510 ECOLOGICAL ENGINEERING (3) LEC. 3. Pr. BSEN 3230. Departmental approval. The course introduces students to ecological engineering non-point source transport of nutrients, sediment, pesticides, pathogens, and chemicals from agricultural, forestry, and urban activities.

BSEN 6520 WATERSHED MODELING (3) LEC. 3. Departmental approval. The course covers modeling of non-point source pollution at the watershed scale using Soil and Water Assessment Tool model including underlying processes that control movement of pollutants.

BSEN 6540 BIOMASS AND BIOFUELS ENGINEERING (3) LEC. 2. LAB. 3. This course introduces the various processes and engineering principles in converting biomass into biofuels and chemicals. The focus will be on thermochemical and biochemical conversion platforms. May count either BSEN 5540 or BSEN 6540.

BSEN 6550 PRINCIPLES OF FOOD ENGINEERING TECHNOLOGY (4) LEC. 3. LAB. 3. Pr. (MATH 1130 or MATH 1133) and (PHYS 1000 or PHYS 1007). Engineering concepts and unit operations used in processing food products. Fall.

BSEN 6560 SITE DESIGN FOR BIOSYSTEMS (3) LEC. 2. LAB. 3. Pr. BSEN 3230. Departmental approval. The course is designed to develop student skills in computer-aided site design and restoration by using rural and urban best management practices to reduce environmental impacts.

BSEN 7016 QUANTITATIVE AGRICULTURAL REMOTE SENSING (3) LEC. 3. Departmental approval. Theory and application of remote sensing to quantifying soil and vegetation characteristics, with emphasis on agriculture but also relevant to natural biosystems.

BSEN 7020/7026 SITE-SPECIFIC TECHNOLOGIES FOR AGRICULTURE AND FORESTRY SYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Introduction to advanced concepts of off-highway vehicle equipment for use in agricultural and forestry production with emphasis on site-specific management (Precision Agriculture/Forestry). The course will overview new concepts and technologies for equipment usage and technologies applied for site-specific crop management.

BSEN 7050 SOIL DYNAMICS OF TILLAGE AND TRACTION (3) LEC. 3. Pr. CIVL 4300 and CSES 7590. Departmental approval. Analyses and measurements of soil reactions as affected by physical properties of soil when subjected to forces imposed by tillage implements and traction devices.

BSEN 7110/7116 FUNDAMENTALS OF INSTRUMENTATION FOR BIOLOGICAL SYSTEMS (3) LEC. 2. LAB. 3. Departmental approval. Students will gain an understanding of the fundamentals of sensing and sensors, simple digital electronics and measurement circuits, introductory digital signal processing, and computer data acquisition. They will be required to build and test instrumentation to collect data on biological systems that might include fluid flow, pressure, force, or other transducers.

BSEN 7120 STOCHASTIC MODELING FOR BIOSYSTEMS (3) LEC. 3. Pr. CIVL 3020. Departmental approval. Solving problems in biosystems engineering and related fields by modeling data with probability distributions, spatial statistics, autoregressive models, Monte-Carlo simulation, and reliability methods.

BSEN 7136 GIS APPLICATIONS IN PRECISION AGRICULTURE (1) LEC. 1. Departmental approval. Exploration of geographic information systems (GIS) and its applications in precision agriculture. Topics include file structure and formatting, interfacing with precision agriculture equipment, georeferencing maps, merging and clipping farm data, data field calculations, designing management zones, variable rate prescriptions, and basic data analysis.
BSEN 7216 BIOMASS TO RENEWABLE ENERGY PROCESSES (3) LEC. 3. Pr. (CHEM 2070 or CHEM 2077) and (CHEM 2080 or CHEM 2087) or CHEM 5180 and BIOL 3200. Departmental approval. This will introduce fundamental principles and practical applications of biomass-to-renewable energy processes.

BSEN 7220 RENEWABLE ENERGY SYSTEMS DESIGN, ANALYSIS AND APPLICATIONS (3) LEC. 3. Understanding of the basic principles, applications, modeling, energetic and economic analysis of renewable energy resources namely solar, biomass, wind, hydropower and geothermal. Design of renewable energy systems.

BSEN 7240 BULK SOLIDS STORAGE, HANDLING AND TRANSPORTATION (3) LEC. 3. Sampling of particulate materials, bulk solids characterization, flow properties, particle and bulk solid flow, dynamics of fluid/solids systems, hydraulic and pneumatic conveyor design, storage bin and hopper design and geometry, safety issues.

BSEN 7260 ADVANCED UNIT OPERATIONS IN BIOSYSTEMS ENGINEERING (3) LEC. 2. LAB. 3. The course is an advanced analysis of the unit operations used to process and enhance the value of biological materials.

BSEN 7280 FOOD THERMAL PROCESSING (3) LEC. 2. LAB. 3. Departmental approval. Insight of technologies and approaches used in food thermal processing for commercial purposes. Application of fundamentals of heat transfer, thermo-bacteriology, physical and chemical kinetics of food, and plant layout.

BSEN 7310 NONPOINT SOURCE POLLUTION (3) LEC. 3. Departmental approval. Non-point source (NPS) transport of nutrients, sediment, pesticides, and pathogens from agricultural, forestry, and urban activities. Basic concepts of pollutant transport through soils and with overland flow. Evaluation, management, and prevention of non-point pollution of surface and groundwater.

BSEN 7320 NON-POINT SOURCE POLLUTION MODELING (3) LEC. 3. Pr. BSEN 7310 or Departmental approval. Non-point source (NPS) modeling of nutrients, sediment, pesticides, and pathogens from agricultural, forestry, and urban activities. Underlying processes (climate, hydrology, nutrients and pesticides, erosion, channel), land cover/plants best management practices. Sensitivity and uncertainty analyses.

BSEN 7330 SOIL-PLANT-ENVIRONMENTAL SYSTEM DESIGN SOIL-PLANT-ENVIRONMENTAL SYSTEM DESIGN (3) LEC. 3. Study of systems that incorporate plant uptake of nutrients and/or heavy metals for remediation of soil-based contaminants. Design applications of environmental remediation include constructed wetlands, drip irrigation of wastewater effluent, disposal of municipal sludge, and phytoremediation of contaminants in shallow groundwater.

BSEN 7350 ENGINEERING ANALYSIS OF LAKES AND RESERVOIRS (3) LEC. 3. Departmental approval. Knowledge and understanding of the causes, impacts, and methods of restoring water quality impairments, with emphasis placed on impounded water bodies and perennial streams.

BSEN 7366 INTEGRATING AUTOCAD CIVIL3D & GIS (3) LEC. 3. Departmental approval. Accessing and importing GIS data into C3D. Exporting C3D objects to GIS for subsequent manipulation and display. Emphasis on applications in environmental engineering projects such as stream restoration and wetland design.

BSEN 7516 INTRODUCTION TO LAND AND WATER ENGINEERING (3) LEC. 3. This course aims at equipping students with the engineering tools and knowledge needed for advanced courses in land and water engineering.

BSEN 7526 INTRODUCTION TO FLUVIAL GEOMORPHOLOGY (3) LEC. 3. Pr. BSEN 3230. This course provides an overview of stream geomorphology as it relates to natural stream physical processes.

BSEN 7536 DRAINMOD (3) LEC. 3. Pr. BSEN 3230. This course presents the principles of water movement and fate in shallow water table systems and application of the drainage water management model DRAINMOD to a wide variety of problems.

BSEN 7616 AGRICULTURAL WASTE MANAGEMENT (3) LEC. 3. This course covers principles of managing, handling, treating and applying animal and poultry manures and organic byproducts from an engineering perspective. Departmental approval.

BSEN 7626 STORMWATER BMP DESIGN (3) LEC. 3. Pr. BSEN 3230. Departmental approval. This course is designed to introduce students to several innovative stormwater practices including stormwater wetlands, bioretention, green roofs, permeable pavement, cisterns, and others.
BSEN 7636 STREAM RESTORATION STRUCTURE RISK AND FAILURE ASSESS (1) LEC. 1. Pr. BSEN 3230. Departmental approval. Critical thinking about the use of various stream restoration structures an providing the tools needed to investigate further into failure analysis and risk assessment.

BSEN 7646 OPEN CHANNEL HYDRAULICS (3) LEC. 3. Pr. BSEN 3310. Departmental approval. Theory and application of hydraulics in open channels with an emphasis on natural systems (natural streams and rivers).

BSEN 7666 WETLANDS DESIGN AND RESTORATION (3) LEC. 3. Departmental approval. Fundamental understanding of hydrology, soils and ecology of natural wetland systems to serve as the basis of designing wetland systems for water treatment and restoring degraded natural wetlands.

BSEN 7900 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING (1-4) IND. Departmental approval. Faculty supervision of individual student investigations of advanced specialized problems in biosystems engineering at the graduate level. Pr., Course may be repeated with change in topics.

BSEN 7950 SEMINAR (1) SEM. SU. Reviews and discussions of research techniques, current scientific literature, and recent developments in biosystems engineering. Course may be repeated for a maximum of 12 credit hours.

BSEN 7970 SPECIAL TOPICS IN BIOSYSTEMS ENGINEERING (1-4) IND. Departmental approval. Individual or small group study of an advanced specialized area in biosystems engineering at the graduate level. Pr., Course may be repeated with change in topics.

BSEN 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topic.

BSEN 8990 RESEARCH AND DISSERTATION (1-12) DSR.

Building Science - BSCI

Courses

BSCI 1100 INTRODUCTION TO CONSTRUCTION (3) LEC. 3. Introduction to construction industry and education, current issues, and career opportunities.

BSCI 2100 INTRODUCTION TO SUSTAINABLE CONSTRUCTION (1) LEC. 1. Overview of Sustainability, Green Building and Sustainable Construction.

BSCI 2200 CONSTRUCTION COMMUNICATION (3) LEC. 2. LAB. 3. Reading and interpreting working drawings, specifications, shop drawings, and digital 3D models for use in estimating and administrating various types of construction projects.

BSCI 2300 CONSTRUCTION METHODS AND MATERIALS (3) LEC. 3. Materials, methods and construction equipment used in the construction of buildings.

BSCI 2400 STRUCTURE OF BUILDINGS (3) LEC. 3. Pr. (PHYS 1500 or PHYS 1600 or PHYS 1607) and (MATH 1610 or MATH 1613 or MATH 1617) or (MATH 1150 or MATH 1153). Principles of mechanics and material behavior related to building structures. Includes: force systems, frame analysis, section properties, stress, and basic design and structural elements.

BSCI 3300 FIELD SURVEYING (2) LEC. 1. LAB. 6. Surveying techniques, construction layout, use of equipment, and dimensional controls for buildings. Surveying camp, a concentrated, 10 working day course held during breaks.

BSCI 3400 STRUCTURES II (3) LEC. 3. Pr. BSCI 2400. Primary and secondary member design, connection design, temporary bracing/shoring, and steel shop drawing review.

BSCI 3420 STRUCTURES FOR BUILDERS II: WOOD, STEEL, ETC. (4) LEC. 3. LAB. 3. Pr. BSCI 2400. The third Structures course provides students an applied approach to steel and wood design and analysis of building framing systems.

BSCI 3450 STRUCTURES III (3) LEC. 3. Pr. BSCI 3400. Introduction to the design of reinforced concrete and related formwork including beams, columns, slabs, footings, retaining walls, and pre-stressed members.

BSCI 3500 CONSTRUCTION INFORMATION TECHNOLOGY (4) LEC. 2. LAB. 4. To explore, discover and create applications of information communication technology (ICT) for Construction Processes.

BSCI 3650 PROJECT CONTROLS II (4) LEC. 3. LAB. 2. Pr. BSCI 3600. Project (s) simulation as context to discuss: 1) negotiated procurement; 2) pre-construction services in the alternative delivery environment; and 3) construction phase management procedures.

BSCI 3700 CONSTRUCTION SAFETY HOISTING (3) LEC. 3. Construction safety, including OSHA guidelines, accident investigation, and the creating of construction safety plans and worker training program.

BSCI 3910 EXPERIMENTAL LEARNING (3) LEC. 3. SU. Departmental approval. Requires daily log and employer certification.

BSCI 4200 RESIDENTIAL CONSTRUCTION (3) LEC. 3. Provides an overview of residential construction and development practices and professional issues including: local ordinances and codes, land use law, financing practices, architect-builder relationship, spec homes vs. custom homes, etc.

BSCI 4300 COMBINED ESTIMATING AND SCHEDULING FOR DESIGNERS (3) LEC. 3. Provides an overview of estimating and project planning practices and techniques which relate to interactions between the architect and constructor. Includes: sources of project costs, conceptual estimating, value engineering, CPM scheduling, cost of acceleration and delays, change order, etc.

BSCI 4410 PROBLEMS IN CONSTRUCTION MEANS AND METHODS (3) LEC. 2. LAB. 2. Pr. BSCI 3650. Solving challenging problems encountered in construction processes, including form work, scaffolding, framing, steel erection, rigging, lifting, safety, and site management.

BSCI 4420 MANAGEMENT FOR CONSTRUCTION SUPERINTENDENTS (3) LEC. 1. LAB. 4. Pr. BSCI 3650. Pr., Senior Standing in Building Science. Development of expanded management strategies for construction superintendents including field conditions analysis, direction of tradesmen, communication skills, and project hoisting and equipment.

BSCI 4500 PROJECT CONTROLS III (4) LEC. 4. Pr. BSCI 3650. In-depth study of construction project sequencing and scheduling, as well as cost control measures, construction cash flow analysis, and a variety of leadership and management issues.

BSCI 4501 PROJECT CONTROLS III CIT LAB (1) LAB. 2. Pr. BSCI 3650 and P/C BSCI 4600. Software applications for construction projects scheduling and cost control measures; expanding students’ exposure and competency in software applications related to Building Information Modeling.

BSCI 4700 MECHANICAL SYSTEMS IN BUILDINGS (3) LEC. 2. LAB. 2. Pr. BSCI 3500 and BSCI 3600. Plumbing and mechanical systems of building; basic design, sustainability concepts, systems, installation and testing are covered.

BSCI 4710 MECHANICAL CONSTRUCTION ESTIMATING AND MANAGEMENT (3) LEC. 2. LAB. 2. Pr. BSCI 4600. Advance study of mechanical construction industry. Study and application of design principles, estimating and management techniques used in the industry.

BSCI 4750 ELECTRICAL SYSTEMS IN BUILDINGS (3) LEC. 2. LAB. 2. Pr. BSCI 3500 and BSCI 3600. Electrical systems commonly used in buildings; basic theory and design concepts, with emphasis on lighting and electrical distribution equipment and its installation.

BSCI 4800 CONTRACTING BUSINESS (4) LEC. 4. Pr. BSCI 3650. Business functions associated with industry; organizational structure, construction finance; risk analysis, construction contracts, project delivery, and associated documents.

BSCI 4810 ADVANCED CONSTRUCTION COMMUNICATION (3) LEC. 3. Pr. (COMM 1000 or COMM 1003) and BSCI 3650. Advanced Communication skills and tools required to excel as a construction manager: Oral and written communication, visual literacy, video capture.

BSCI 4850 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages, and dispute resolution.

BSCI 4860 ADVANCED CONSTRUCTION INFORMATION TECHNOLOGY (3) LEC. 2. LAB. 2. Pr. BSCI 3650. Exploration and creation of advanced applications of Information and Communication Technology (ICT) for planning, decision making, projects monitoring, and controls.

BSCI 4870 CONSTRUCTION HISTORY (3) LEC. 3. Survey of historic construction projects to analyze how and why buildings and structures were constructed in the way they were.
BSCI 4880 CONSTRUCTION EQUIPMENT MANAGEMENT (3) LEC. 3. Pr. BSCI 3650. Construction equipment management and ownership. Equipment acquisition and disposition options, production costs and productivity, cost analysis and control, management staffing and responsibilities.

BSCI 4890 LEAN CONSTRUCTION PRINCIPLES AND PRACTICES (3) LEC. 3. Pr. BSCI 3650. This course provides an understanding of Lean Construction principles involving Lean Design, Assembly, Supply, Production and Work Processes.

BSCI 4960 SPECIAL PROBLEMS (1-5) IND. Special problems in construction topics. Course may be repeated for a maximum of 5 credit hours.

BSCI 4990 BUILDING SCIENCE THESIS (4) LAB. 12. Individual project demonstrating mastery of curriculum content through the application of skills/knowledge to a theoretical construction company and project. Requires a written thesis and oral defense of work.

BSCI 5450 BUILDING GREAT STRUCTURES (3) LEC. 3. Departmental approval. Conceptual Analysis of a variety of structural systems using observation and modeling of the world’s greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 5460 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Pr. BSCI 3650. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. Departmental approval. May count either BSCI 5460 or BSCI 6460.

BSCI 5830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 5840 MULTI-CULTURAL ISSUES IN CONSTRUCTION (3) LEC. 3.

BSCI 5960 SPECIAL PROBLEMS (1-5) AAB. Departmental approval. Special problems in construction topics. Offered only at the discretion of the department head. Course may be repeated for a maximum of 5 credit hours.

BSCI 5970 SPECIAL PROBLEMS (1-5) AAB. Departmental approval. Special problems in construction topics. Offered only at the discretion of the department head. Course may be repeated for a maximum of 15 credit hours.

BSCI 6450 BUILDING GREAT STRUCTURES (3) LEC. 3. Conceptual Analysis of a variety of structural systems using observation and modeling of the world’s greatest structures. Emphasis on construction innovations necessary to build these structures. May count either BSCI 5450 or BSCI 6450.

BSCI 6460/6466 PLANNING AND DECISION MAKING IN CONSTRUCTION (3) LEC. 3. Applications of quantitative methods in various phases of project life cycle to assist project stakeholders in making effective planning and informed decision making. Departmental approval. May count either BSCI 5460 or BSCI 6460.

BSCI 6830 GLOBAL CONSTRUCTION MANAGEMENT (3) LEC. 3. This course will discuss global construction issues and related project management practices. Departmental approval. May count either BSCI 5830 or BSCI 6830.

BSCI 6840 MULTI-CULTURAL ISSUES IN CONSTRUCTION LABOR (3) LEC. 3.

BSCI 6960 SPECIAL PROBLEMS IN CONSTRUCTION (1-5) AAB. Departmental approval. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables. Course may be repeated for a maximum of 3 credit hours.

BSCI 6970 SPECIAL PROBLEMS IN CONSTRUCTION (1-3) AAB. Departmental approval. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables. Course may be repeated for a maximum of 3 credit hours.

BSCI 7010 CONSTRUCTION LABOR AND PRODUCTIVITY (3) LEC. 3. Departmental approval. Construction labor issues, productivity measurement, and productivity improvement in the construction industry. Includes reading, research, and an out of class project.

BSCI 7020/7026 INTEGRATED BUILDING PROCESSES I (3) LEC. 3. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner’s perspective, the financial parameters, and the speculative demand driving project viability.
BSCI 7030/7036 CONSTRUCTION INFORMATION MANAGEMENT (3) LEC. 3. Applications of advanced information technology in construction.

BSCI 7040/7046 INTEGRATED BUILDING PROCESSES II (3) LEC. 3. Departmental approval. Construction project delivery, from pre-construction service through ownership. Topics include project management, pre-construction services, pre-planning, procurement, site utilization, subcontracts, commissioning, closeout, building operation, and long-term ownership.

BSCI 7050/7056 EXECUTIVE ISSUES IN CONSTRUCTION (3) LEC. 3. Construction industry executives will present 6 to 10 topics that represent a cross-section of significant management issues.

BSCI 7060 RESEARCH METHODS IN BUILDING SCIENCE (3) LEC. 3. A study of the academic research process, with an emphasis on defining research problems in construction and the development of a research proposal.

BSCI 7100/7106 GRADUATE ELECTIVE IN PROJECT MANAGEMENT: PROJECT MANAGEMENT AND SCHEDULING (3) LEC. 3. This course develops advanced student knowledge and skills in construction business facets such as delivery, contracts and financial management; and develops tactile skills in producing advanced construction schedules in current software applications. Credit will not be given for both BSCI 7100 and BSCI 7106. Course may be repeated with change in topics.

BSCI 7126 CONSTRUCTION LAW AND RISK MANAGEMENT (3) LEC. 3. Construction law, business law and risk management; the legal system and terminology, contracts, insurance, warranties, liens, environmental concerns, workplace issues, damages and dispute resolution. Admission to Certificate in Construction Management.

BSCI 7156 HEAVY CIVIL CONSTRUCTION (3) LEC. 3. Students must be admitted to the Executive Integrated Processes Certificate in Construction Management. Principles of heavy civil construction including budget, planning, excavation, haul, equipment, temporary structures and types of projects involved.

BSCI 7200 ELECTIVES IN CONSTRUCTION LABOR (3) LEC. 3. Departmental approval. Special course offerings related to construction labor topics. Course may be repeated with change in topic.

BSCI 7300 ELECTIVES IN INFORMATION TECHNOLOGY AND INNOVATION (3) LEC. 3. Departmental approval. Special course offerings related to information technology, innovation, and robotics in construction. Course may be repeated with change in topic.

BSCI 7900 DIRECTED READING IN CONST (1-3) IND. Departmental approval. Individually proposed exploration of a construction industry related topic not covered in existing course offerings Students must prepare a written proposal of the topic. Course may be repeated for a maximum of 3 credit hours.

BSCI 7950 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability. Course may be repeated for a maximum of 3 credit hours.

BSCI 7980/7986 CAPSTONE PROJECT (3) LAB. 6. Departmental approval. Independent exploration of an approved topic with final written report of findings and an oral defense of the work. Specific capstone project requirements are established by the supervising committee and vary based on the chosen topic.

Business Admin - BUSI
Courses

BUSI 1010 CONTEMPORARY ISSUES IN BUSINESS ADMINISTRATION I (1) LEC. 1. Exposure to various topics relative to business administration. For Business majors, should be taken during student’s first academic year.

BUSI 2010/2013 CONTEMPORARY ISSUES IN BUSINESS ADMINISTRATION II (1) LEC. 1. Orientation to business administration. Business majors should take during student’s second academic year.

BUSI 2100/2103 ORAL COMMUNICATION FOR BUSINESS (1) LEC. 1. Theories and techniques of strong oral communication skills, with real-world applications for business.

BUSI 2900 DIRECTED STUDIES (1-3) IND. SU. Independent study option for freshmen and sophomores in the College of Business for students who seek general or free elective credit. Course may be repeated for a maximum of 3 credit hours.

BUSI 3010 CONTEMPORARY ISSUES IN BUSINESS ADMINISTRATION III - INTERN/JOB SEARCH (1) LEC. 1. Preparation for conducting an intern/career position job search. Develop career planning and job search skills.

BUSI 3510 INTRODUCTION TO BUSINESS AND ENGINEERING (3) LEC. 3. Pr., admission to the BET minor program by application; restricted to BET students. Principles of business and engineering issues in new product and business development.

BUSI 3520 INTEGRATING BUSINESS AND ENGINEERING THEORIES WITH PRACTICE (3) LEC. 2. LAB. 3. Pr., BUSI/ENGR 3510 and in good standing in the BET minor program; restricted to BET students. Case study problems from business and engineering practice.

BUSI 3550 CROSS-FUNCTIONAL TEAMWORK (1) LEC. 1. Development of skills needed to perform well in cross-functional teams. A Admission to the B-E-T program.

BUSI 3560 LEADERSHIP (1) LEC. 1. Overview of leadership concepts and skills. Admission to the B-E-T program.

BUSI 4010 CONTEMPORARY ISSUES IN BUSINESS ADMINISTRATION IV - SENIOR/NEW PROFESSIONAL (1) LEC. 1. Preparation for transition from college student to career professional. Lecture and case discussion format to discuss issues faced as a new professional. Fall, Spring.

BUSI 4540 ENTREPRENEURSHIP AND STRATEGIC MANAGEMENT OF TECHNOLOGY AND INNOVATION (4) LEC. 4. Pr. (BUSI 3510 or ENGR 3510) and (BUSI 3520 or ENGR 3520). Develop student skills for starting a new business and making strategic decisions concerning technology. Admission to the B-E-T program.

BUSI 4920 BUSINESS INTERNSHIP (1-3) AAB/INT. SU. Internship option for students to gain work experience who seek general or free elective credit. Approval of instructor prior to internship, and completion of or current enrollment in two or more of the following: ACCT 2110, ECON 2020, ECON 2030, FINC 3610, MNGT 3100, or MKTG 3310.

BUSI 4970 CAPSTONE PROJECT I: DESIGN PROPOSAL (1) LAB. 3. Coreq. BUSI 4540. Processes to develop and present design proposal for cooperating industry.

BUSI 4980 PRODUCT/PROCESS DESIGN AND DEVELOPMENT II (3) LEC. 1. LAB. 6. Pr. BUSI 4970 or ENGR 4970. Cross-functional team design projects for sponsoring industry.

BUSI 7110/7116 FINANCIAL ANALYSIS (3) LEC. 3. Departmental approval. Integrated course combining financial accounting and corporate finance for MBA students.

BUSI 7120/7126 QUANTITATIVE ANALYSIS FOR BUSINESS DECISIONS (3) LEC. 3. Departmental approval. Integrated course in statistical methods and management science for MBA students.

BUSI 7130/7136 STRATEGIC ANALYSIS AND THE COMPETITIVE ENVIRONMENT (3) LEC. 3. Departmental approval. Integrated course covering business strategy and the external environment in a global context.

BUSI 7140/7146 ORGANIZATIONAL LEADERSHIP, ETHICS AND CHANGE (3) LEC. 3. Departmental approval. Integrated course covering individual and group behavior in organizations, effective team building, motivation, and communications, ethical behavior, and leading organizations through change. May count either BUSI 7140 or BUSI 7146.
BUSI 7150/7156 OPERATIONAL EXCELLENCE THROUGH SUPPLY CHAIN AND QUALITY MANAGEMENT (3) LEC. 3. An examination of the strategic roles of supply chain and quality management in the creation of outstanding product and service operations. Departmental approval. May count either BUSI 7150 or BUSI 7156.

BUSI 7160 ADVANCED PROFESSIONAL DEVELOPMENT (1) LEC. 1. Departmental approval. This course prepares students for career success by focusing on self-assessment, industry/job/company research, personal brand identification, resumes and cover letters, interviewing, career and company research, presentation skills, and benefits and negotiation. Course may be repeated for a maximum of 3 credit hours.

BUSI 7210/7216 MARKETING AND CONSUMER THEORY (3) LEC. 3. Departmental approval. Combines elements of the economics of demand theory and marketing management. Includes advanced pricing topics and the competitive environment.

BUSI 7220/7226 INFORMATION TECHNOLOGY FOR COMPETITIVE ADVANTAGE (3) LEC. 3. Departmental approval. Examines the strategic role information technology plays in influencing competitive advantage. May count either BUSI 7220 or BUSI 7226.

BUSI 7230/7236 COST ANALYSIS AND SYSTEMS (3) LEC. 3. Departmental approval. Integrates production and cost theory from economics with managerial and cost accounting theory and systems for MBA

BUSI 7250/7256 GLOBAL BUSINESS EXPERIENCE (1-3) LLB. Departmental approval. Examines the economic, financial, legal, political, social and cultural factors impacting global business operations. A study abroad experience is included to provide hands-on experience and awareness. Course may be repeated for a maximum of 3 credit hours.

BUSI 7310/7316 INTEGRATED BUSINESS PROJECT AND CASE ANALYSIS (3) LEC. 3. Departmental approval. Integrates knowledge gained from MBA classes and applies that knowledge to address actual business problems. May count either BUSI 7310 or BUSI 7316.

BUSI 7920/7926 MBA INTERNSHIP (1-6) AAB/INT. SU. Departmental approval. Internship for MBA students in business organizations. Course may be repeated for a maximum of 6 credit hours.

BUSI 7970/7976 SPECIAL TOPICS IN BUSINESS ADMINISTRATION (1-3) AAB. Departmental approval. Specialized topics in business administration not otherwise covered in existing courses. Course may be repeated for a maximum of 6 credit hours.

BUSI 7980/7986 INTEGRATED BUSINESS PROJECT AND CASE ANALYSIS (3) LEC. 3. Departmental approval. Integrates knowledge gained from MBA classes and applies that knowledge to address actual business problems.

Business Analytics - BUAL

Courses

BUAL 2600 BUSINESS ANALYTICS I (3) LEC. 3. Pr. (MATH 1610 or MATH 1617 or MATH 1680 or MATH 1683) and (P/C COMP 1000 or P/C COMP 1003 or COMP 1AAO). Introduction to analytics in business including use of data to make business decisions, basic predictive business modeling, and communication of analytical results.

BUAL 2650/2653 BUSINESS ANALYTICS II (3) LEC. 3. Pr. BUAL 2600 or MNGT 2600 or STAT 2610 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 3010 or STAT 2513. A second course in quantitative analysis in business including statistical inference, classification analysis, predictive modeling, forecasting, introduction to data mining. May count either BUAL 3600 or BUAL 2650.

BUAL 4920 BUSINESS ANALYTICS INTERNSHIP (3) INT. 3. SU. The internship program represents an opportunity for students to be exposed to analytics environments first-hand and to integrate this experience with their formal education. The practical nature of the internship facilitates the educational process and provides valuable work experience.

BUAL 5600 PREDICTIVE MODELING I (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2510 or STAT 2513 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 3010 or STAT 2610) and (MNGT 3600 or BUAL 3600 or BUAL 2650). or equivalent. Introduction to linear models including multiple linear regression and model building in business decision making and applications.

BUAL 5610 PREDICTIVE MODELING II (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010) and (MNGT 3600 or BUAL 3600 or BUAL 2650) and (BUAL 5600 or BUAL 6600 or BUAL 6606). or equivalent. Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting.
BUAL 5650 BIG DATA I (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010) and (MNGT 3600 or BUAL 3600 or BUAL 2650). or equivalent. Managing, governing, extracting, merging, and preparing large data sets for analysis using real data. May count either BUAL 5650 or BUAL 6650/6656.

BUAL 5660 BIG DATA II (3) LEC. 3. Pr. (BUAL 5650 or BUAL 6650 or BUAL 6656). Advanced topics in big data management, with emphasis on loading and cleansing the data for analysis.

BUAL 5860 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010) and (MNGT 3600 or BUAL 3600 or BUAL 2650) and (BUAL 5650 or BUAL 6650 or BUAL 6656) and (BUAL 5610 or BUAL 6610 or BUAL 6616). A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives.

BUAL 6600/6606 PREDICTIVE MODELING I (3) LEC. 3. Pr. (BUAL 5600 or BUAL 6600 or BUAL 6606). Introduction to linear models including multiple linear regression and model building in business decision making and applications.

BUAL 6610/6616 PREDICTIVE MODELING II (3) LEC. 3. Pr. (BUAL 5600 or BUAL 6600 or BUAL 6606). Basic data mining techniques including neural networks, decision trees, clustering algorithms, linear programs, text and web mining in business setting.

BUAL 6650/6656 BIG DATA I (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010) and (MNGT 3600 or BUAL 3600 or BUAL 2650) and (BUAL 5600 or BUAL 6600 or BUAL 6606). A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives.

BUAL 6660/6666 BIG DATA II (3) LEC. 3. Pr. (BUAL 5650 or BUAL 6650 or BUAL 6656). Advanced topics in big data management, with emphasis on loading and cleansing the data for analysis. May count either BUAL 5660 or BUAL 6660/6666.

BUAL 6860/6866 COMMUNICATING QUANTITATIVE RESULTS IN BUSINESS (3) LEC. 3. Pr. (MNGT 2600 or BUAL 2600 or BUAL 2653 or STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 3010) and (MNGT 3600 or BUAL 3600 or BUAL 2650) and (BUAL 5650 or BUAL 6650 or BUAL 6656) and (BUAL 5610 or BUAL 6610 or BUAL 6616). A case-based, project-oriented approach to business decision making based on company's mission and strategic objectives.

Career and Technical - CTCT

Courses

CTCT 1200 KEYBOARDING AND FORMATTING (3) LEC. 1. LAB. 4. Mastery of alphanumeric keyboard with basic keyboarding and formatting applications of business documents. (Students with previous keyboarding/typewriting instruction consult with Business/Marketing Education faculty for placement.)

CTCT 2100 POWER EQUIPMENT TECHNOLOGY (3) LEC. 2. LAB. 3. Repair and maintenance of small air-cooled engines and power equipment in Agriculture. May count either CTCT 2100 or CTCT 3100.

CTCT 2200/2203 COMPUTER LITERACY IN BUSINESS EDUCATION (3) LEC. 1. LAB. 4. Advanced formatting, processing, and evaluation of business correspondence, as well as administrative and employment documents. Includes basic computer literacy skills. May count either CTCT 2200 or CTCT 2203.

CTCT 3000/3003 LEADERSHIP SKILLS FOR PERSONAL AND ORGANIZATIONAL DEVELOPMENT (3) LEC. 3. Organizational and leadership skills needed to become successful professionals in work or community activities; skills and strategies for conducting efficient meetings. Departmental approval. May count either CTCT 3000 or CTCT 3003.

CTCT 3200/3203 RECORDS MANAGEMENT (2) LEC. 2. Integrated records management systems, records management functions, classification systems, micrographics, electronic records, and records management careers. Departmental approval. May count either CTCT 3200 or CTCT 3203.

CTCT 3240/3243 INFORMATION PROCESSING I (3) LEC. 2. LAB. 2. Pr. CTCT 2200 or CTCT 2203 or (CTSE 2200 or CTSE 2203 or CTSE 2207). Exploration of organizational needs for text-based information processing. Functions and capabilities of text-based information processing components. Departmental approval. May count either CTCT 3240 or CTCT 3243.
CTCT 3250/3253 INFORMATION PROCESSING II (3) LEC. 2. LAB. 2. Pr. CTCT 3240 or CTCT 3243. Decision-making and business problem solving using microcomputer software applications including spreadsheets, database management programs, and operating systems. Departmental approval. May count either CTCT 3250 or CTCT 3253.

CTCT 4000/4003 CLASSROOM/LABORATORY MANAGEMENT, ORGANIZATION AND EVALUATION IN CAREER AND TECHNICAL EDUCATION (2) LEC. 2. Admission to Teacher Education. Organization, objectives, principles, management, and evaluation of career and technical education classrooms, laboratories, and programs. May count either CTCT 4000 or CTCT 4003.

CTCT 4030 CAREER AND TECHNICAL STUDENT ORGANIZATIONS (3) LEC. 3. Survey of career and technical student organizations; procedures involved in developing and implementing informal and co-curricular educational programs for students and preparing students for state and national competitions.

CTCT 4160 SUPERVISED AGRICULTURAL EXPERIENCE PROGRAMS (2) LEC. 2. Responsibility for SAEP planning, supervision, and evaluation of entrepreneurship, placement, exploratory, analytical, and experimental SAEPs and record books; completing award applications.

CTCT 4200/4203 MANAGING OFFICE SYSTEMS (3) LEC. 2. LAB. 2. Pr. CTCT 3250 or CTCT 3253. Capstone course with emphasis on integration of information processing procedures, administrative support, and management functions. Departmental approval. May count either CTCT 4200 or CTCT 4203.

CTCT 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. The student’s learning efforts are guided toward desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 4910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) PRA. SU. Departmental approval. Provides experience relating theory and practice, usually carried on simultaneously. Course may be repeated for a maximum of 6 credit hours.

CTCT 4920/4923 CLINICAL RESIDENCY (12) AAB. 40. SU. Admission to Teacher Education. Admission to Clinical Residency. Supervised clinical residency experiences abroad in a school or other appropriate setting. Evaluation and analysis of the clinical residency experience. May count either CTCT 4920 or CTCT 4923.

CTCT 4940/4943 DIRECTED FIELD EXPERIENCE IN AREA OF SPECIALIZATION (1-3) FLD. SU. Supervised occupational work experience in an approved specialization-related occupation. Departmental approval. May count either CTCT 4940 or CTCT 4943. Course may be repeated for a maximum of 3 credit hours.

CTCT 4970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Current or special topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 5050/5053 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Admission to Teacher Education. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within career and technical education. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 5060 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Pr. CTCT 5050 or CTCT 5053. Admission to Teacher Education. Introduction to principles and practices involved in designing education programs in the area of specialization. May count CTCT 5060, CTCT 6060, or CTCT 6066.

CTCT 5080/5083 PRINCIPLES OF COORDINATION (3) LEC. 3. Admission to Teacher Education. Coordination, placement, and supervision of students in work-based programs; development of employability skills. May count CTCT 5080, CTCT 5083, CTCT 6080, or CTCT 6086.

CTCT 5200/5203 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, systems, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 6200 or CTCT 6200/CTCT 6206.

CTCT 5240/5243 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 5240/CTCT 5243 or CTCT 6240/CTCT 6246.

CTCT 5250/5253 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications.
CTCT 5260/5263 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/CTCT 6266.

CTCT 5940/5943 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience in a Commerce and Information Technology environment. May count either CTCT 4940/CTCT 4943 or CTCT 5940/CTCT 5943 or CTCT 6940/CTCT 6946.

CTCT 6050/6056 METHODS OF TEACHING IN AREA OF SPECIALIZATION (3) LEC. 2. LAB. 2. Methods and techniques of instruction using appropriate instructional materials; planning and evaluation of instruction for programs within the area of specialization. Admission to alternative master’s program. May count CTCT 5050, CTCT 5053, CTCT 6050, or CTCT 6056.

CTCT 6060/6066 PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Introduction to principles and practices involved in designing educational programs in the area of specialization. Admission to alternative master’s program. May count CTCT 5060, CTCT 6060, or CTCT 6066.

CTCT 6200/6206 RECORDS MANAGEMENT SYSTEMS (3) LEC. 3. Study of integrated records management systems, functions, and careers; including decision making and problem solving using software applications. May count either CTCT 5200/CTCT 5203 or CTCT 6200/CTCT 6206.

CTCT 6240/6246 MULTIMEDIA DESIGN (3) LEC. 3. Focus on presentation, desktop publishing, multimedia production, web page design, and digital graphics. May count either CTCT 6240/CTCT 62406 or CTCT 5240/5243.

CTCT 6250/6256 INFORMATION DESIGN & ANALYSIS (3) LEC. 3. Decision making, problem solving, and presentation using business software applications. May count either CTCT 6250/CTCT 6256 or CTCT 5250/5253.

CTCT 6260/6266 APPLIED COMPUTER TECHNOLOGY (3) LEC. 3. Capstone course with emphasis on integration of business software for decision making, processing, collaboration and management functions, including accounting and financial management. May count either CTCT 5260/CTCT 5263 or CTCT 6260/6266.

CTCT 6940/6946 WORK EXPERIENCE IN INFORMATION TECHNOLOGY (3) LEC. 3. SU. Supervised occupational work experience and software application in a Commerce and Information Technology environment. May count either CTCT 6940/CTCT 6946 or CTCT 5940/5943.

CTCT 7000/7006 FOUNDATIONS OF CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Philosophical, historical, economic, and sociological perspectives of vocational education in relation to the organization of vocational education programs. May count either CTCT 7000 or CTCT 7006.

CTCT 7010/7016 YOUTH PROGRAM DEVELOPMENT (3) LEC. 3. Developing, managing, and evaluating formal and informal youth education programs; training volunteers for youth development programs; securing and developing supporting resources. Departmental approval. May count either CTCT 7010 or CTCT 7016.

CTCT 7100/7106 TEACHING MECHANICAL TECHNOLOGY (3) LEC. 2. LAB. 2. Theory and practice of managing agricultural mechanics laboratories, theories of machine operation, and maintaining laboratory equipment. May count either CTCT 7100 or CTCT 7106.

CTCT 7120/7126 COURSES OF STUDY IN AGRISCIENCE EDUCATION (3) LEC. 3. Pr. CTCT 5060 or CTCT 6060 or CTCT 5063 or CTCT 6066. Emerging technologies in agriscience education; principles and procedures of curriculum construction applied to courses of study in agriscience education. Departmental approval. May count either CTCT 7120 or CTCT 7126.

CTCT 7200/7206 CAREER AND OCCUPATIONAL INFORMATION (3) LEC. 3. Trends and issues in occupational structure, job qualifications and requirements, and sources of occupational information for new and emerging occupations; analysis of career education models for students. Departmental approval. May count either CTCT 7200 or CTCT 7206.

CTCT 7240/7246 ADMINISTRATIVE MANAGEMENT (3) LEC. 3. Pr. CTCT 4200 or CTCT 4203. Management of office systems, information and personnel. Managing and controlling administrative services. Departmental approval. May count either CTCT 7240 or CTCT 7246.
CTCT 7300/7306 INTEGRATING TECHNOLOGY IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Pr. CTCT 5050 or CTCT 6050 or CTCT 5053 or CTCT 6056. Selecting, developing, utilizing, and evaluating instructional resources and technology for teaching. Departmental approval. May count either CTCT 7300 or CTCT 7306.

CTCT 7710/7716 ADVANCED TEACHING METHODS (3) LEC. 3. Pr. (CTCT 5050 or CTCT 5053) or (CTCT 6050 or CTCT 6056). Analysis of research in theories of teaching and learning, effective teacher characteristics, learning styles, teaching methodologies, and diversity in teaching. Departmental approval. May count either CTCT 7710 or CTCT 7716.

CTCT 7720/7726 ADVANCED PROGRAM PLANNING IN AREA OF SPECIALIZATION (3) LEC. 3. Pr. CTCT 5060 or CTCT 6060 or CTCT 5063 or CTCT 6066. Issues affecting the development and management of educational programs; strategies for improving educational programs. Departmental approval. May count either CTCT 7720 or CTCT 7726.

CTCT 7730/7736 PROGRAM EVALUATION (3) LEC. 3. Pr. (CTCT 7720 or CTCT 7726). Principles and procedures used in evaluating academic-related programs. Alternative approaches to evaluation and practical guidelines for conducting evaluations. Departmental approval. May count either CTCT 7730 or CTCT 7736.

CTCT 7750/7756 ADMINISTRATION OF CAREER AND TECHNICAL EDUCATION (3) LEC. 2. LAB. 2. Introduction to concepts, theories and practices related to administration, organizational behavior, and leadership in secondary and post-secondary vocational education programs. Departmental approval. May count either CTCT 7750 or CTCT 7756.

CTCT 7760/7766 COMPREHENSIVE PLANNING IN CAREER AND TECHNICAL EDUCATION (3) LEC. 2. LAB. 2. Pr. (CTCT 7750 or CTCT 7756). Processes of comprehensive planning for vocational education programs at high school and secondary school levels using local, state, and regional data. Departmental approval. May count either CTCT 7760 or CTCT 7766.

CTCT 7770/7776 CLINICAL SUPERVISION (3) LEC. 3. Pr. (CTCT 7710 or CTCT 7716). Theories, concepts, models, and techniques of student teacher and beginning teacher supervision by administrators, school district personnel, and university supervisors. Recommended for individuals who supervise or plan to supervise student teachers. Departmental approval. May count either CTCT 7770 or CTCT 7776.

CTCT 7780/7786 RESEARCH IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Review, analysis and interpretation of research procedures and data with emphasis on designing new research in vocational and adult education. Departmental approval. May count either CTCT 7780 or CTCT 7786.

CTCT 7810 SUPERVISED COLLEGE TEACHING (1) LEC. 1. SU. Departmental approval. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 2 credit hours.

CTCT 7900/7906 DIRECTED STUDIES (1-3) IND. SU. Departmental approval. Independent learning effort directed toward desired objectives. Includes evaluation at regular intervals by student and professor. Course may be repeated for a maximum of 3 credit hours.

CTCT 7910/7916 PRACTICUM IN AREA OF SPECIALIZATION (1-3) PRA. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 3 credit hours.

CTCT 7920/7926 CLINICAL RESIDENCY (9-12) AAB/INT. 40. SU. Admission to Clinical Residency. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Departmental approval. May count either CTCT 7920 or CTCT 7926. Course may be repeated for a maximum of 12 credit hours.

CTCT 7950/7956 SEMINAR IN AREA OF SPECIALIZATION (1-3) SEM. SU. Departmental approval. Presentation by graduate students of research projects and/or findings. Analysis of procedures and findings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7960/7966 SPECIAL PROBLEMS (1-3) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 3 credit hours.

CTCT 7970/7976 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 7990/7996 RESEARCH AND THESIS (1-10) MST. Course may be repeated for a maximum of 10 credit hours.

CTCT 8730/8736 CURRICULUM DEVELOPMENT IN CAREER AND TECHNICAL EDUCATION (3) LEC. 3. Pr. CTCT 7730 or CTCT 7736. Principles of career and technical education curriculum planning, identification of educational needs of students, selecting technical content, and evaluating materials. May count either CTCT 8730 or CTCT 8736.
CTCT 8770/8776 SUPERVISION OF INSTRUCTION (3) LEC. 3. Pr. CTCT 7770 or CTCT 7776. Theories and models to become effective supervisors of vocational and adult education programs; philosophies and styles of supervision used to improve schools, instruction, curriculum and personnel. Departmental approval. May count either CTCT 8870 or CTCT 8876.

CTCT 8800/8806 TEACHER EDUCATION (3) LEC. 3. Emphasis on beliefs, philosophy, issues, research, roles, student selection, curriculum, methodology, internships, organization, and administration of teacher education programs. Departmental approval. May count either CTCT 8800 or CTCT 8806.

CTCT 8810 SUPERVISED COLLEGE TEACHING (1-10) LEC. 3. Practical experience in the classroom under the supervision of a faculty mentor. Course may be repeated for a maximum of 10 credit hours.

CTCT 8900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent learning efforts at desired objectives. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTCT 8910 PRACTICUM IN AREA OF SPECIALIZATION (1-6) PRA. SU. Departmental approval. Experiences closely relating theory and practice. Course may be repeated for a maximum of 6 credit hours.

CTCT 8920 INTERNSHIP (1-10) INT. SU. Departmental approval. Supervised internship experiences in a school, college or other appropriate setting. Evaluation and analysis of the internship experience. Course may be repeated for a maximum of 10 credit hours.

CTCT 8950 SEMINAR IN AREA OF SPECIALIZATION (1-6) SEM. Departmental approval. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 6 credit hours.

CTCT 8960 SPECIAL PROBLEMS (1-6) IND. Departmental approval. Critical analysis of current and classical research and writings. Course may be repeated for a maximum of 6 credit hours.

CTCT 8970 SPECIAL TOPICS IN AREA OF SPECIALIZATION (1-6) LEC. Departmental approval. Current or advanced topics within area of specialization. Course may be repeated for a maximum of 6 credit hours.

CTCT 8980/8986 FIELD PROJECT (1-10) FLD. 1. SU. Departmental approval. Field project. Course may be repeated for a maximum of 10 credit hours.

CTCT 8990/8996 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated for a maximum of 20 credit hours.

Cell and Molecular Biology - CMBL

Courses

CMBL 4150 HUMAN GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and (CHEM 2080 or CHEM 2087). Study of the biological interaction of genes, effects of mutation and changes in gene frequency in human populations. Emphasis on molecular approach to study evolutionary changes in human gene pools.

CMBL 5190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and BIOL 4220 and CHEM 2090. The study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic and biochemical approaches.

CMBL 5500 IMMUNOLOGY (3) LEC. 3. Pr. BIOL 3200 and (BIOL 3000 or BIOL 3003). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms and medical immunology.

CMBL 5501 IMMUNOLOGY LAB (2) LAB. 4. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions and antibody production.

CMBL 6190 CELL AND MOLECULAR SIGNAL TRANSDUCTION (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4100 and BIOL 4050 and CHEM 2090. Study of cellular communication and regulation with emphasis on integration between cellular, molecular, genetic and biochemical approaches. Credit will not be given for both CMBL 6190 and BIOL 6190.

CMBL 6220 INTRODUCTION TO MOLECULAR GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 4510. Advanced principles of gene expression including replication, transcription and translation; structure and regulation of genes; detailed concepts and techniques in recombinant DNA. Credit will not be given for both CMBL 6220 and BIOL 6230.

CMBL 6230 VIROLOGY (4) LEC. 4. Pr. (BIOL 3000 or BIOL 3003) and BIOL 3200 and BIOL 4520. Molecular mechanisms of virus biology including virus-cell replication, assembly and release pathogens. Credit will not be given for both CMBL 6230 and BIOL 6230.
CMBL 6320 PLANT GENE EXPRESSION (4) LEC. 4. Pr. BIOL 5320. Departmental approval. Genetic expression of genetic elements in plants from the recent literature. Credit will not be given for both BIOL and CMBL 6320.

CMBL 6500 IMMUNOLOGY (3) LEC. 3. Pr. BIOL 3200 and (BIOL 3000 or BIOL 3003). The cellular and molecular basis of the immune response, including antigen presentation, immunogenetics, effector mechanisms, and medical immunology.

CMBL 6501 TECHNIQUES IN IMMUNOLOGY (2) LAB. 4. Techniques illustrating principles of antigen-antibody interactions and their application in immunoassays, identification of leukocytes, cellular interactions and antibody production.

CMBL 7070 PLANT BIOTECHNOLOGY (4) LEC. 2. LAB. 4. Pr. BIOL 3000 or BIOL 3003. Plant biotechnology, including plant tissue culture technologies and genetic transformation and applications to horticultural crop improvement.

CMBL 7080 MOLECULAR ENDOCRINOLOGY (2) LEC. 2. Pr. VBMS 7070. Departmental approval. Examination of the literature of hormonal synthesis, secretion and mechanism of action with emphasis on receptors, second messenger systems and gene regulation.

CMBL 7270 ULTRASTRUCTURE OF PLANT CELLS AND MICROBES (5) LEC. 3. LAB. 4. Departmental approval. Theory and practice of transmission and scanning electron microscopy and their application to the biological sciences. Credit will not be given for both CMBL 7270 and BIOL 7290.

CMBL 7290 EVOLUTIONARY GENETICS (3) LEC. 3. Pr. (BIOL 3000 or BIOL 3003) and BIOL 6170. Departmental approval. Examines two major topics: the role of population processes as mechanisms for evolution; and evolution at the molecular level. Credit will not be given for both CMBL 7290 and BIOL 7290.

CMBL 7330 MOLECULAR BIOLOGY OF PLANT DEVELOPMENT (2) LEC. 2. Pr. BIOL 6130 and BIOL 7280. Departmental approval. Physiological, biochemical and molecular aspects of plant growth and development. Credit will not be given for both CMBL 7330 and BIOL 7330.

CMBL 7400 PLANT VIROLOGY (4) LEC. 3. LAB. 2. Pr. (PLPA 3000 or PLPA 3003 or PLPA 6000) and CHEM 6180. Departmental approval. Introduction to plant viruses and the diseases they cause; virus particle structure and replication strategies; disease identification by symptoms and detection of pathogen; transmission, ecology, epidemiology and control.

CMBL 7440 ADVANCED CELL BIOLOGY (3) LEC. 3. Pr. BIOL 4100. Examination of current areas of research in cell and developmental biology by directed reading and discussion. Credit will not be given for both CMBL 7440 and BIOL 7440.

CMBL 7460 BACTERIAL PATHOGENESIS (3) LEC. 3. Pr. VBMS 7510 or BIOL 4520. Departmental approval. Molecular and cellular basis of virulence of bacterial pathogens of animals.

CMBL 7480 METHODS IN IMMUNOLOGY (5) LEC. 1. LAB. 8. Departmental approval. Theoretical concept underlying immunological methods combined with practical hands-on immunological experimentation focused on application to research in the biological sciences.

CMBL 7510 MOLECULAR GENETICS I (5) LEC. 5. Pr. CHEM 7200. Bacterial, bacteriophage, and eukaryotic genetics, with a focus on gene structure, and molecular mechanisms regulation expression. Critical review of current literature will be emphasized.

CMBL 7520 MOLECULAR GENETICS II (5) LEC. 5. Pr. VBMS 7510. Genetic mechanisms by which eukaryotic cells replicate, communicate and differentiate. Current literature will be used extensively.

CMBL 7530 ADVANCED SYSTEMATIC BOTANY (3) LEC. 3. Pr. BIOL 6120. Morphological and molecular approaches to modern systematics of plants.

CMBL 7540 CURRENT TOPICS IN MOLECULAR VIROLOGY (3) LEC. 3. Pr. VBMS 7510 and VBMS 7520. Viral gene expression and evasion of host defense mechanisms.

CMBL 7660 MOLECULAR GENETICS AND BIOTECHNOLOGY (4) LEC. 3. LAB. 3. Pr. BIOL 3000 or BIOL 3003. Departmental approval. Principles and applications of DNA fingerprinting technologies, gene mapping, genetic information and analysis using internet tools, transgenic technologies. Credit will not be given for both CMBL 7660 and FISH 7660.
CMBL 7960 READINGS IN MOLECULAR BIOLOGY (1) RCT. 1. Pr. P/C BIOL 7220. Oral presentation and discussion of recent scientific publications from a selected area of molecular biology. Credit will not be given for both CMBL 7960 and BIOL 7960. Course may be repeated for a maximum of 4 credit hours.

CMBL 8160 LABORATORY TECHNIQUES IN MOLECULAR VIROLOGY (4) LEC. 1. LAB. 9. Pr. BIOL 4520 and BIOL 4530. Isolation, purification, and identification of viral nucleic acids and proteins. Credit will not be given for both CMBL 8160 and POUL 8160.

CMBL 8880 PHYSIOLOGICAL AND MOLECULAR PLANT PATHOLOGY (3) LEC. 2. LAB. 2. Pr. PLPA 6000 and CHEM 6180 and BIOL 4230. Comprehensive coverage of physiology and molecular biology of plant-pathogen interactions.

**Chemical Engineering - CHEN**

**Courses**

**CHEN 2100 PRINCIPLES OF CHEMICAL ENGINEERING (4)** LEC. 3. LAB. 3. Pr. (CHEM 1110 or CHEM 1117 or CHEM 1030) and (MATH 1610 or MATH 1613 or MATH 1617 or MATH 1710) and (P/C CHEM 1120 or P/C CHEM 1127 or P/C CHEM 1040) and (P/C MATH 1620 or MATH 1623 or P/C MATH 1627 or P/C MATH 1720) and (P/C PHYS 1600 or P/C PHYS 1607). Application of multicomponent material and energy balances to chemical processes involving phase changes and chemical reactions.

**CHEN 2610 TRANSPORT I (3)** LEC. 3. Pr. (PHYS 1600 or PHYS 1607) and CHEN 2100 and (P/C MATH 2630 or MATH 2637) and P/C ENGR 2010. CHEN 2100 should be "C" or better. Introduction to fluid statics and dynamics; dimensional analysis; compressible and incompressible flows; design of flow systems, introduction to fluid solids transport including fluidization, flow through process media and multiphase flows.

**CHEN 2A00 CHEMICAL ENGINEERING PROGRESS ASSESSMENT I (0)** LAB. SU. Pr. P/C CHEN 2100. Progress assessment examination in basic science, general chemistry, physics, basic math principles (geometry, algebra), multivariable calculus, chemical engineering process principles (mass and energy balances).

**CHEN 3090 PULP AND PAPER TECHNOLOGY (3)** LEC. 3. Pr. (CHEM 1030 or CHEM 1110 or CHEM 1117) and ENGR 2010. An introductory course on the technology of pulp and paper manufacturing with emphasis on raw materials, pulping, bleaching, paper making, coating and environmental control. For students with no previous formal pulp and paper background.

**CHEN 3370 PHASE AND REACTION EQUILIBRIA (3)** LEC. 3. Pr. (MATH 2630 or MATH 2637 or MATH 2730) and ENGR 2010 and CHEN 2100 and P/C CHEN 3600. Molecular thermodynamics of phase and chemical reaction equilibria including non-ideal thermodynamics and multicomponent applications. (ENGR 2010 and CHEN 2100 require a grade of C or better).

**CHEN 3410 CREATIVITY AND CRITICAL THINKING IN ENGINEERING (3)** LEC. 3. Application of creativity and critical thinking principles to effectively approach solving engineering problems. Convincing presentation of information to technical audiences.

**CHEN 3600 COMPUTER-AIDED CHEMICAL ENGINEERING (3)** LEC. 2. LAB. 3. Pr. COMP 1200 and MATH 2650 and CHEN 2610. General and structured programming concepts, numerical methods, and introductory probability and statistics concepts. Application to chemical engineering problems involving material and energy balances and transport process, data validation, and analysis. (CHEN 2610 requires a grade of C or better).

**CHEN 3620 TRANSPORT II (3)** LEC. 3. Pr. (MATH 2630 or MATH 2637 or MATH 2730) and ENGR 2010 and CHEN 2610 and P/C CHEN 3600. Fundamentals and applications of heat and mass transfer in chemical processes including conduction, convection, and radiation, heat exchange, evaporation, chemical reaction gas absorption, drying and humidification. (ENGR 2010 and CHEN 2610 require a grade of C or better).

**CHEN 3650/3653 CHEMICAL ENGINEERING ANALYSIS (3)** LEC. 2. LAB. 3. Pr. CHEN 3600 and CHEN 3620 and CHEN 2AA0. Mathematical modeling, analytical, numerical and statistical analysis of chemical processes. (CHEN 3600 and CHEN 3620 require a grade of C or better).

**CHEN 3660 CHEMICAL ENGINEERING SEPARATIONS (3)** LEC. 3. Pr. CHEN 3370 and CHEN 3620. Separations processes including distillation, extraction, membrane separation, and other separation operations. (CHEN 3370 and CHEN 3620 require a grade of C or better).

**CHEN 3700 CHEMICAL REACTION ENGINEERING (3)** LEC. 3. Pr. MATH 2650 and CHEN 2610 and ENGR 2010 and P/C CHEN 3620. Design of chemical reactors with homogeneous reaction systems. (CHEN 2610 and ENGR 2010 require a grade of C or better).
CHEN 3820 CHEMICAL ENGINEERING LABORATORY I (2) LEC. 1. LAB. 3. Pr. CHEN 3600 and CHEN 3620. Experimental study of chemical thermodynamics, heat and momentum transfer with analytical, numerical, and statistical analysis.

CHEN 3AA0 CHEMICAL ENGINEERING PROGRESS ASSESSMENT II (0) LAB. SU. Pr. CHEN 2AA0 and P/C CHEN 3370 and P/C CHEN 3650 and P/C CHEN 3700 and P/C CHEN 3660. Progress assessment examination in thermodynamics, linear differential equations, organic chemistry, transport phenomena (fluid mechanics, heat, mass transfer), phase and reaction equilibria, reaction engineering, design and conduction of experiments, analysis and interpretation of data, professional, ethical, societal and contemporary issues.

CHEN 4100 PULP AND PAPER PROCESSING LABORATORY (2) LAB. 6. Pr. CHEN 2610 and CHEN 3090 and CHEN 3820 or Departmental approval. Experimental study of pulping and papermaking operations. Departmental approval.

CHEN 4160 PROCESS DYNAMICS AND CONTROL (3) LEC. 2. LAB. 3. Pr. CHEN 3600 and (CHEN 3650 or CHEN 3653). Dynamic modeling of chemical processes, feedback systems and analog controller tuning and design, sequential control systems. (CHEN 3600 and CHEN 3650 require a grade of C or better).

CHEN 4170 DIGITAL PROCESS CONTROL (3) LEC. 3. Pr. CHEN 3650 or CHEN 3653. Introduction of basic concepts and principles for control system. Analysis of open loop and closed-loop processes using transfer functions.

CHEN 4180 ADVANCED DIGITAL PROCESS CONTROL (3) LEC. 2. LAB. 3. Pr. CHEN 4170. Application of sequential, closed loop and open loop process control principles to actual industrial and experimental control laboratory process. (CHEN 4170 requires a grade of C or better).

CHEN 4450 PROCESS ECONOMICS AND SAFETY (3) LEC. 2. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and (CHEN 3650 or CHEN 3653) and CHEN 3660 and CHEN 3700. Fundamentals and applications of process economics and design, computer-aided cost estimation, profitability analysis and process improvement. Application of chemical process safety, risk assessment and management, hazard and operability analysis, chemical engineering principles for risk reduction. (CHEN 3370, CHEN 3650, CHEN 3660 and CHEN 3700 require a grade of C or better).

CHEN 4460 PROCESS SIMULATION SYNTHESIS AND OPTIMIZATION (2) LEC. 1. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and (CHEN 3650 or CHEN 3656 or CHEN 2087) and CHEN 3660 and CHEN 3700. Fundamentals of computer-aided simulation and synthesis. Process integration and optimization principles including their applications in design, retrofitting and operation of chemical processes. (CHEN 3370, CHEN 3650, CHEN 3660 and CHEN 3700 require a grade of C or better).

CHEN 4470 PROCESS DESIGN PRACTICE (3) LEC. 2. LAB. 3. Pr. CHEN 3AA0 and CHEN 4450 and CHEN 4460. Application of process simulation and process economics to complex, open-ended design, retrofitting and operation problems in pulp and paper. Design of pulp and paper unit operations and processes. Screening of alternatives and economic optimizations. Capstone design course.

CHEN 4560 PULP AND PAPER PROCESS SIMULATION (2) LEC. 1. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3090 and CHEN 3370 and (CHEN 3650 or CHEN 3653) and CHEN 3660 and CHEN 3700 and P/C CHEN 4100 and P/C CHEN 5110. Fundamentals of microcomputer process simulation with applications to the pulp and paper industry. Design of pulp and paper unit operations and small scale processes using commercial simulation software. (CHEN 3090, CHEN 3370, CHEN 3650, CHEN 3660 and CHEN 3700 require a grade of C or better).

CHEN 4570 PULP AND PAPER PROCESS DESIGN (3) LEC. 2. LAB. 3. Pr. CHEN 3AA0 and CHEN 4450 and CHEN 4460. Flow sheet simulation and techno-economic analysis applied to complex, open-ended chemical processes. Screening of alternatives and economic optimizations. Capstone design course.

CHEN 4630 INTRODUCTORY TO TRANSPORT PHENOMENA (3) LEC. 3. Pr. CHEN 3620 and (CHEN 3650 or CHEN 3653). Application of chemical engineering analysis to momentum, heat and mass transport problems for advanced undergraduate students preparing for graduate school. (CHEN 3620 and CHEN 3650 require a grade of C or better).

CHEN 4660 CHEMICAL ENGINEERING LABORATORY II (2) LEC. 1. LAB. 3. Pr. CHEN 3660 and CHEN 3820 and P/C CHEN 3700. Experimental study of mass transfer, separations and reaction engineering. Emphasis is on open-ended laboratory projects with electronic instrumentation; experimental design with numerical and statistical analysis of data.

CHEN 4880 PULP AND PAPER ENGINEERING LABORATORY (3) LAB. 9. Pr. CHEN 4100 and CHEN 5110. Comprehensive open-ended projects on pulp and paper topics.

CHEN 4930 DIRECTED STUDIES (1) LEC. 1. Supervised study in specialized areas of chemical engineering. Topic must be arranged with instructor during preregistration. Project report.
CHEN 4970 SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-10) AAB. Departmental approval. Topical courses in special areas. Topic must be arranged with instructor during pre-registration. Course may be repeated for a maximum of 10 credit hours.

CHEN 4980 UNDERGRADUATE RESEARCH (1-3) IND. Pr. 3.00 GPA Departmental approval. GPA of 3.0 or higher. Individual and small group projects. Topic must be arranged with instructor during preregistration. Research Report. Course may be repeated for a maximum of 3 credit hours.

CHEN 4997 HONORS THESIS (1-6) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

CHEN 5110 PULP AND PAPER ENGINEERING (3) LEC. 3. Pr. CHEN 3090 and CHEN 3620 and CHEN 3700 and P/C CHEN 4450. Chemical and engineering principles in the manufacturing of pulp and paper. (CHEN 3090, CHEN 3620, and CHEN 3700 require a grade of C or better).

CHEN 5120 SURFACE AND COLLOID SCIENCE (3) LEC. 3. Pr. CHEN 3620 and CHEN 4100. Fundamentals of surface and colloid science with applications in pulping and papermaking, including sizing, retention and drainage, charge measurements, dry/wet strength additives, fillers, colorants, foams, pitch and deposits. (CHEN 3620 and CHEN 4100 require a grade of C or better).

CHEN 5400 MOLECULAR ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and P/C CHEN 3700. Introduction to how molecular structure and long range microstructure affect the properties of chemical engineering products and how this knowledge can be used to design chemical engineering products for specific applications. (CHEN 3370 requires a grade of C or better).

CHEN 5410 MACROMOLECULAR SCIENCE AND ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370. Statistical mechanics of chain molecules; thermodynamics of polymer solutions; dilute, semi-dilute, and concentrated solutions and gels; polymer physics; scaling concepts in polymer physics; reputation theory (deGennes, Doi, Edwards) and molecular dynamics; phase separations; crystallization of polymers; rubber elasticity theory; mechanical analysis; viscoelasticity; diffusion theory of polymers; surface properties of polymers. (CHEN 3370 requires a grade of C or better).

CHEN 5420 POLYMER CHEMICAL ENGINEERING (3) LEC. 2. LAB. 3. Pr. (CHEM 2070 or CHEM 2077) and CHEN 3620 and CHEN 5410. Polymer rheology, transport phenomena, thermodynamics, membranes, conducting polymers, surfaces, interfaces and processing. (CHEN 3620 and CHEN 5410 require a grade of C or better).

CHEN 5430 BUSINESS ASPECTS OF CHEMICAL ENGINEERING (3) LEC. 3. Pr., Departmental Approval. The procession of activities required to successfully commercialize and market new chemical-engineering-based technologies to the consumer and process industries.

CHEN 5440 ELECTROCHEMICAL ENGINEERING (3) LEC. 3. Pr. CHEN 3370 and CHEN 3620 and CHEN 3700. Thermodynamics, electrode kinetics and transport phenomena of electrochemical systems, current and potential distributions, double layer theory, electrochemical processes, power sources, synthesis, corrosion. (CHEN 3370, CHEN 3620, and CHEN 3700 require a grade of C or better).

CHEN 5650 HAZARDOUS MATERIALS MANAGEMENT AND ENGINEERING (3) LEC. 3. Pr. (CHEM 2030 or CHEM 2080 or CHEM 2087) and (CHEN 3820 or CIVL 5210). Fundamental principles and regulatory information related to hazardous material and process safety management and engineering, dispersion of chemicals, hazard and operability analysis, chemical engineering principles for risk education.

CHEN 5660 MACROSCALE ASSEMBLY AND APPLICATIONS OF NANOMATERIALS (3) LEC. 3. Departmental approval. Production of macroscopic assemblies and structures from nanomaterials. Processing and applications of inorganic, organic, biological and hybrid nanomaterials.

CHEN 5670 POLLUTION PREVENTION ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3370 and CHEN 3620 and CHEN 3660 and CHEN 3700. Chemical and engineering principles applied to pollution prevention. Theory and practice of basic separation methods, reaction engineering, process controls, and other fundamental chemical engineering disciplines as well as regulatory requirements to prevent unnecessary waste generation. Case studies. (CHEN 3370, CHEN 3620, CHEN 3660, and CHEN 3700 require a grade of C or better).

CHEN 5700 ADVANCED SEPARATION PROCESSES (3) LEC. 3. Pr. CHEN 3370 and CHEN 3660. Advanced treatment of modern chemical engineering separation processes. Theory and practice of staged multi-component mass transfer operations, non-ideal multiphase separations and continuous rate processes. (CHEN 3370 and CHEN 3660 require a grade of C or better).
CHEN 5800 BIOCHEMICAL ENGINEERING (3) LEC. 3. Pr. CHEN 3700. Bioreactor design. Analysis of enzyme and microbial processes. (CHEN 3700 requires a grade of C or better).

CHEN 5810 BIOMEDICAL ENGINEERING (3) LEC. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEN 3620 and CHEN 3700. Application of chemical engineering principles to the study of medical physiology. Human biochemistry, anatomy and physiology, rheological properties of blood and synovial fluid, rheology of cell membranes. Biomedical fluid mechanics and heat and mass transfer. (CHEN 3620 and CHEN 3700 require a grade of C or better).

CHEN 5820 ADVANCED TOPICS IN ENVIRONMENTAL BIOTECHNOLOGY (3) LEC. 3. Application of biotechnology to environmental process treatment, bioremediation and bioreactor development.

CHEN 5970 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) LEC. Departmental approval. Topical courses in areas for advanced undergraduate and graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 24 credit hours.

CHEN 6110 PULP AND PAPER ENGINEERING (3) LEC. 3. Chemical and engineering principles in the manufacturing of pulp and paper.

CHEN 6120/6126 SURFACE AND COLLOID SCIENCE (3) LEC. 3. Fundamentals of surface and colloid science with applications in pulping and papermaking, including sizing, retention and drainage, charge measurements, dry/wet strength additives, fillers, colorants, foams, pitch and deposits.

CHEN 6400/6406 MOLECULAR ENGINEERING (3) LEC. 3. Introduction to how molecular structure and long range microstructure affect the properties of chemical engineering products and how this knowledge can be used to design chemical engineering products for specific applications.

CHEN 6410/6416 MACROMOLECULAR SCIENCE AND ENGINEERING (3) LEC. 3. Statistical mechanics of chain molecules; thermodynamics of polymer solutions; dilute, semi-dilute, and concentrated solutions and gels; polymer physics; scaling concepts in polymer physics; reptation theory (deGennes, Doi, Edwards) and molecular dynamics; phase separations; crystallization of polymers; rubber elasticity theory; mechanical analysis; viscoelasticity; diffusion theory of polymers; surface properties of polymers.

CHEN 6420/6426 POLYMER CHEMICAL ENGINEERING (3) LEC. 3. Polymer rheology, transport phenomena, thermodynamics, membranes, conducting polymers, surfaces, interfaces and processing.

CHEN 6430/6436 BUSINESS ASPECTS OF CHEMICAL ENGINEERING (3) LEC. 3. Departmental approval. The procession of activities required to successfully commercialize and market new chemical-engineering-based technologies to the consumer and process industries.

CHEN 6440/6446 ELECTROCHEMICAL ENGINEERING (3) LEC. 3. Thermodynamics, electrode kinetics and transport phenomena of electrochemical systems, current and potential distributions, double layer theory, electrochemical processes, power sources, synthesis, corrosion.

CHEN 6650/6656 HAZARDOUS MATERIALS MANAGEMENT AND ENGINEERING (3) LEC. 3. Fundamental principles and regulatory information related to hazardous material and process safety management and engineering, dispersion of chemicals, hazard and operability analysis, chemical engineering, principles for risk education.

CHEN 6660/6666 MACROSCELE ASSEMBLY AND APPLICATIONS OF NANOMATERIALS (3) LEC. 3. Production of macroscopic assemblies and structures from nanomaterials. Processing and applications of inorganic, organic, biological and hybrid nanomaterials. Or departmental approval. May count either CHEN 6660 or CHEN 6666.

CHEN 6810/6816 BIOMEDICAL ENGINEERING (3) LEC. 3. Application of chemical engineering principles to the study of medical physiology. Human biochemistry, anatomy, and physiology, rheological properties of blood and synovial fluid, rheology of cell membranes. Biomedical fluid mechanics and heat and mass transfer.

CHEN 6820/6826 ADVANCED TOPICS IN ENVIRONMENTAL BIOTECHNOLOGY (3) LEC. 3. Departmental approval. Application of biotechnology to environmental process treatment, bioremediation and bioreactor development.

CHEN 6970/6976 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) LEC. Departmental approval. Topical courses in areas for advanced undergraduate and graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 24 credit hours.

CHEN 7020/7026 INTERFACIAL PHENOMENA (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Fundamental analyses of interfacial phenomena at liquid/gas, liquid/liquid and solid/liquid interfaces.

CHEN 7110/7116 CHEMICAL ENGINEERING ANALYSIS AND ADVANCED TRANSPORT PHENOMENA (3) LEC. 3. Pr. CHEN 7100 or CHEN 7106. Analytical solutions of ordinary and partial differential equations pertaining to transport phenomena and other areas of chemical engineering.

CHEN 7120/7126 ADVANCED TOPICS IN PAPER PROCESSING OPERATIONS (3) LEC. 3. Pr. CHEN 6120 or CHEN 6126. Surface and colloidal interactions in the wet end of paper manufacturing. Colloidal stability theory, absorption of macromolecules, flocculation and retention of particles. Wet-end chemistry process control.

CHEN 7130/7136 ADVANCED PULP AND PAPER ENGINEERING (3) LEC. 3. Topics in pulping, chemical recovery and papermaking.

CHEN 7250/7256 CHEMICAL REACTION ENGINEERING (3) LEC. 3. Pr. P/C CHEN 7100 or P/C CHEN 7106. Analysis and design of homogeneous and heterogeneous chemical reactors. Physicochemical factors and analysis of non-ideal chemical reactor behavior.

CHEN 7600/7606 ENVIRONMENTAL TRANSPORT (3) LEC. 3. Pr. (CHEN 7100 or CHEN 7106) and (CHEN 7200 or CHEN 7206) and (P/C CHEN 7110 or P/C CHEN 7116). Environmental chemodynamics, interphase equilibrium, reactions, boundary layers, transport mechanisms and models or movement of substances across natural interfaces (air-water-sediment-soil).

CHEN 7710 INTRODUCTION TO RESEARCH SEMINAR (1) LEC. 1. SU. Pr. P/C CHEN 7100 or P/C CHEN 7106. Introductory graduate research seminars for entering graduate students.

CHEN 7720 ADVANCED PROCESS DESIGN SEMINAR (1) LEC. 1. Pr. (P/C CHEN 7100 or P/C CHEN 7106) and (P/C CHEN 7200 or P/C CHEN 7206). Fundamentals of advanced process design including process synthesis, simulation, analysis, optimization and integration. Systematic process synthesis tools for screening potential flow sheets.

CHEN 7900/7906 INDEPENDENT STUDY (1-10) IND. SU. Departmental approval. Supervised study in specialized areas of chemical engineering. Topic must be arranged with instructor during pre-registration. Course may be repeated for a maximum of 20 credit hours.

CHEN 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Seminar. Course may be repeated for a maximum of 12 credit hours.

CHEN 7970/7976 ADVANCED SPECIAL TOPICS IN CHEMICAL ENGINEERING (1-6) IND. Departmental approval. Topical courses for graduate students. Topics must be arranged with instructor during preregistration. Course may be repeated for a maximum of 12 credit hours.

CHEN 7990 RESEARCH AND THESIS (1-20) MST. Credit hours to be arranged.

CHEN 8000/8006 GRADUATE CHEMICAL ENGINEERING ANALYSIS (2) LEC. 2. Pr. CHEN 7100 or CHEN 7106. Applications of advanced numerical methods to the analysis of complex chemical engineering problems.

CHEN 8010 ADVANCED CHEMICAL ENGINEERING NUMERICAL ANALYSIS (2) LEC. 2. Pr. CHEN 7100 or CHEN 7106. Advanced numerical methods for the analysis of chemical engineering problems. Computer applications.
CHEN 8020 ADVANCED TOPICS IN THE CHARACTERIZATION OF SURFACE PROPERTIES OF MATERIALS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Nature of surface and intermolecular forces. Surface chemical characterization of solid surfaces. Adhesion and the role of chemical, physical and mechanical properties of solid surfaces. Modern characterization techniques including scanning probe microscopy, thermodynamic and spectroscopic methods.

CHEN 8100 ADVANCED TOPICS IN CHEMICAL ENGINEERING PROCESSES (3) LEC. 3. Pr. CHEN 7110 or CHEN 7116. Advanced concepts in fluid dynamics with special emphasis on applications to chemical engineering, creeping flow, multiphase instabilities, computational fluid mechanics and turbulence.

CHEN 8110 ADVANCED TOPICS IN HEAT AND MASS TRANSFER (3) LEC. 3. Pr. CHEN 7110 or CHEN 7116. Application of transport operations to chemical engineering problems containing physical and chemical rate processes. Chemically reacting boundary layers, heat and mass transfer, eddy diffusion, phase change and separation processes.

CHEN 8210 ADVANCED CHEMICAL ENGINEERING THERMODYNAMICS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Application of advanced thermodynamics to complex chemical engineering problems including advanced models for electrolyte solutions, critical and supercritical phenomena, high pressure equilibrium, non-equilibrium and surface thermodynamics and molecular modeling.

CHEN 8220 POLYMER THERMODYNAMICS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Fundamentals and applications of macromolecular thermodynamics to industrial polymer problems.

CHEN 8230 CHEMICAL ENGINEERING STATISTICAL THERMODYNAMICS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Applications of molecular theory and models to the properties of non-ideal gases and liquids using advanced statistical mechanics and chemical thermodynamics.

CHEN 8270 HETEROGENEOUS CATALYSIS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Advanced concepts, techniques, applications and principles for the use of heterogeneous catalysts in chemical and environmental processes. Departmental approval.

CHEN 8280 SURFACE CHARACTERIZATION/SOLIDS (3) LEC. 3. Pr. CHEN 7200 or CHEN 7206. Advanced concepts and techniques in the physical and chemical characterization of solid surfaces by microscopic, spectroscopic and chemical methods including various photon and/or electron spectroscopies, thermal desorption.

CHEN 8300 PROCESS DYNAMICS AND CONTROL (3) LEC. 3. Pr. CHEN 7100 or CHEN 7106 and (P/C CHEN 7110 or P/C CHEN 7116). Advanced linear and nonlinear chemical process dynamics and control systems.

CHEN 8310 PROCESS DYNAMICS AND CONTROL II (2) LEC. 2. Advanced chemical process dynamics and control.

CHEN 8320 ADVANCED TOPICS IN CHEMICAL PROCESS COMPUTER CONTROL SYSTEMS (3) LEC. 2. LAB. 3. Pr. CHEN 7100 or CHEN 7106. Analysis and design of advanced digital control systems for chemical processes. Introduction to computer communications through dynamic data exchange and peripheral linkage. Experimental application of advanced digital control algorithms to chemical processes.

CHEN 8340/8346 PROCESS MODELING AND SIMULATION (3) LEC. 2. LAB. 3. Advances in computer-aided process synthesis, simulation, analysis and optimization including systematic process integration tools for developing and screening potential flow sheets using advanced process simulators.

CHEN 8990 RESEARCH AND DISSERTATION (1-20) DSR. Credit hours to be arranged. Course may be repeated with change in topics.

Chemistry - CHEM

Courses

CHEM 1010 SURVEY OF CHEMISTRY I (3) LEC. 3. Science Core. Survey of important topics from general and organic chemistry. Atomic and bonding theory, chemical reactions and stoichiometry, gas laws, solutions, acids and bases, hydrocarbons, alcohols, ethers and amines.

CHEM 1011 SURVEY OF CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1010. Science Core. Laboratory experiments emphasizing course material in CHEM 1010.
CHEM 1020 SURVEY OF CHEMISTRY II (3) LEC. 3. Pr. CHEM 1010. Science Core. Survey of important topics from organic and biochemistry. Aldehydes and ketones, carboxylic acids, carbohydrates, lipids, proteins, enzymes, extracellular fluids, metabolism, nucleic acids, radioactivity.

CHEM 1021 SURVEY OF CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 1020 and CHEM 1011. Science Core. Laboratory experiments emphasizing course material in CHEM 1020.

CHEM 1030/1033 FUNDAMENTALS CHEMISTRY I (3) LEC. 3. Science Core. Atomic and molecular theory, chemical equations, stoichiometry, gas laws, thermochemistry, bonding, electronic structure, molecular geometries, solids, liquids, properties of solutions, problem-solving techniques. Credit will not be given for both CHEM 1030 and CHEM 1110 or CHEM 1117.

CHEM 1031 FUNDAMENTAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1030. Science Core. Laboratory experiments emphasizing course material in CHEM 1030. Credit will not be given for both CHEM 1031 and CHEM 1111 or CHEM 1118.

CHEM 1040 FUNDAMENTAL CHEMISTRY II (3) LEC. 3. Pr. CHEM 1030 or CHEM 1110 or CHEM 1117. Science Core. Chemical kinetics; chemical equilibrium; acids and bases; calculations of pH; equilibrium constants and thermodynamical properties; electrochemistry; descriptive chemistry. Credit will not be given for both CHEM 1040 and CHEM 1120 or CHEM 1127.

CHEM 1041 FUNDAMENTAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 1040 and (CHEM 1031 or CHEM 1111 or CHEM 1118). Science Core. Laboratory experiments emphasizing course material in CHEM 1040. Credit will not be given for both CHEM 1041 and CHEM 1121 or CHEM 1128.

CHEM 1110 GENERAL CHEMISTRY I (3) LEC. 3. Pr. P/C MATH 1610 or P/C MATH 1613 or P/C MATH 1617. Science Core. Chemical principles for chemistry and related majors. Atomic and molecular theory, periodicity, chemical reactions, Stoichiometry, gases, thermochemistry, bonding, molecular geometries, liquids, solids, and solutions. Credit will not be given for both CHEM 1110 and CHEM 1030 or CHEM 1117.

CHEM 1111 GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 1110 or P/C CHEM 1117. Science Core. Laboratory experiments emphasizing course material in CHEM 1110. Credit will not be given for both CHEM 1111 and CHEM 1031 or CHEM 1118.

CHEM 1117 HONORS GENERAL CHEMISTRY I (3) LEC. 3. Pr. Honors College Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1110, but covered in more depth. Credit will not be given for both CHEM 1117 and CHEM 1030 or CHEM 1110.

CHEM 1118 HONORS GENERAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. Honors College. CHEM 1117 Science Core. Laboratory experiments emphasizing course material in CHEM 1117. Credit will not be given for both CHEM 1118 and CHEM 1031 or CHEM 1111.

CHEM 1120 GENERAL CHEMISTRY FOR SCIENTISTS AND ENGINEERS II (3) LEC. 3. Pr. CHEM 1110 or CHEM 1117. Science Core. Continuation of CHEM 1110. Chemical kinetics, chemical equilibrium, acids and bases, thermodynamics, electrochemistry, representative element and transition metal chemistry. Credit will not be given for both CHEM 1120 and CHEM 1040 or CHEM 1127.

CHEM 1121 GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (P/C CHEM 1120 or P/C CHEM 1127) and CHEM 1111 or CHEM 1118. Science Core. Laboratory experiments emphasizing course material in CHEM 1120. Credit will not be given for both CHEM 1121 and CHEM 1041 or CHEM 1128.

CHEM 1127 HONORS GENERAL CHEMISTRY II (3) LEC. 3. Pr. Honors College. CHEM 1117 Science Core. General chemistry for students in the honors program. Topics similar to CHEM 1120, but covered in more depth. Credit will not be given for both CHEM 1127 and CHEM 1040 or CHEM 1120.

CHEM 1128 HONORS GENERAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. Honors College. CHEM 1118 and CHEM 1127 Science Core. Laboratory experiments emphasizing course material in CHEM 1127. Credit will not be given for both CHEM 1128 and CHEM 1041 or CHEM 1121.

CHEM 2030 SURVEY OF ORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Structure, nomenclature and reactions of the functional group classes of organic compounds polymers, and molecules of biological interest. Credit will not be given for both CHEM 2030 and CHEM 2070.
CHEM 2070 ORGANIC CHEMISTRY I (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. In-depth study of organic chemistry including structure, nomenclature, reactions, reaction mechanisms, stereochemistry, synthesis and spectroscopic structure determination organized by the functional group approach. Considers alkanes, alkenes, alkynes, alkyl halides, alcohols, ethers, and aromatic compounds. Credit will not be given for both CHEM 2070 and CHEM 2030.

CHEM 2071 ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. (P/C CHEM 2070 or P/C CHEM 2077) and (CHEM 1041 or CHEM 1128 or CHEM 1121). Laboratory for CHEM 2070.

CHEM 2077 HONORS ORGANIC CHEMISTRY I (3) LEC. 3. Pr. Honors College Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2070, but covered in more depth. Additional credit will not be given for CHEM 2070. Member of the Honors College or CHEM 1110 with grade of A or B or CHEM 1040 with grade of A.

CHEM 2078 HONORS ORGANIC CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 2070 or P/C CHEM 2077. Laboratory experiments emphasizing course material in CHEM 2077. Additional credit will not be given for CHEM 2071. Course may be repeated for a maximum of 3 credit hours.

CHEM 2080 ORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 2070 or CHEM 2077. Continuation of CHEM 2070. Aldehydes, ketones, amines, carboxylic acids, esters, amides, anhydrides, polymers, carbohydrates and amino acids.

CHEM 2081 ORGANIC CHEMISTRY II LABORATORY (1) LAB. 3. Pr. (CHEM 2070 or CHEM 2071 or CHEM 2077 or CHEM 2078) and (P/C CHEM 2080 or P/C CHEM 2087 or P/C CHEM 2088). Laboratory for CHEM 2080.

CHEM 2087 HONORS ORGANIC CHEMISTRY II (3) LEC. 3. Pr. Honors College or departmental approval. Organic chemistry for students in the honors program and Chemistry & Biochemistry majors. Topics similar to CHEM 2080, but covered in more depth. Additional credit will not be given for CHEM 2080. Member of the Honors College or CHEM 2077.

CHEM 2088 HONORS ORGANIC CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 2080 or P/C CHEM 2087. Laboratory experiments emphasizing course material in CHEM 2087. Additional credit will not be given for CHEM 2081. May count either CHEM 2081 or CHEM 2088. Course may be repeated for a maximum of 3 credit hours.

CHEM 2980 INTRODUCTION TO UNDERGRADUATE RESEARCH IN CHEMISTRY (1-3) LAB. SU. Individual problems course. Students will work under the direction of a staff member on some problem of mutual interest. Departmental approval required. Only Freshman or Sophomore. Course may be repeated for a maximum of 6 credit hours.

CHEM 3000 CHEMICAL LITERATURE (1) LEC. 1. Pr. CHEM 2080 or CHEM 2087. Chemical literature with emphasis on primary and secondary sources and the various computer data bases available.

CHEM 3050 ANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or CHEM 1120 or CHEM 1127. Theory and application of volumetric, potentiometric and photometric chemical analysis.

CHEM 3051 ANALYTICAL CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 3050. Analytical techniques applied to chemical analysis.

CHEM 3160 SURVEY OF PHYSICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127). The principles of physical chemistry.

CHEM 4070 PHYSICAL CHEMISTRY I (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and MATH 2650 and (PHYS 1610 or PHYS 1617). Principles of chemical thermodynamics, principles of application to problems of chemical interest.

CHEM 4071 PHYSICAL CHEMISTRY I LABORATORY (1) LAB. 3. Pr. P/C CHEM 4070.

CHEM 4080 PHYSICAL CHEMISTRY II (3) LEC. 3. Pr. CHEM 1040 or (CHEM 1120 or CHEM 1127) and (MATH 2630 or MATH 2637) and MATH 2650 and (PHYS 1610 or PHYS 1617). Principles of quantum mechanics and spectroscopy; application in molecular structure and in statistical thermodynamics.

CHEM 4081 PHYSICAL CHEMISTRY II LABORATORY (1) LAB. 3. Pr. P/C CHEM 4080. Laboratory for CHEM 4080.

CHEM 4100 INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 4080 or CHEM 3160. Principles of inorganic chemistry emphasizing periodic properties, bonding, structure and symmetry, the solid state, acid-base theory and coordination chemistry.
CHEM 4101 INORGANIC CHEMISTRY LABORATORY (1) LAB. 3. Pr. P/C CHEM 4100. Synthesis and characterization of a variety of inorganic compounds.

CHEM 4110 INORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 4100. Departmental approval. Survey of main group, transition metal and organometallic chemistry.

CHEM 4111 INORGANIC CHEMISTRY LABORATORY II (1) LAB. 3. Pr. CHEM 4101 and P/C CHEM 4110. Laboratory for CHEM 4110.

CHEM 4130 INSTRUMENTAL ANALYSIS (3) LEC. 3. Pr. P/C CHEM 3050. Fundamental concepts used in instrumental analytical chemistry emphasizing spectrophotometric, electroanalytical and chromatographic analysis.

CHEM 4131 INSTRUMENTAL ANALYSIS LABORATORY (1) LAB. 3. Pr. P/C CHEM 4130. Laboratory for CHEM 4130.

CHEM 4950 UNDERGRADUATE SEMINAR (1) LEC. 1. Oral presentation and discussion of research in the area of specialization.

CHEM 4980 UNDERGRADUATE RESEARCH IN CHEMISTRY (3) LAB. 9. Departmental approval. This is an individual problem course. Each student will work under the direction of a staff member on some problem of mutual interest. Course may be repeated for a maximum of 9 credit hours.

CHEM 4997 HONORS THESIS (1-3) LEC. 3. Pr. Honors College. Departmental approval. Honors College Members Only; Course may be repeated for a maximum of 6 credit hours.

CHEM 5180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Molecular Structure: classification, structure and reactions of the major constituents of living matter. Also includes binding phenomena and bioenergetics. Credit will not be given for both CHEM 5180 and BCHE 5180.

CHEM 5181 BIOCHEMISTRY I LABORATORY (1) LEC. 3. Pr. P/C CHEM 5180 or P/C BCHE 5180. Identification and quantification of compounds from the important biochemical classes. Examples include amino acid chromatography, dipeptide sequencing, glucose concentration etc. Credit will not be given for both CHEM 5181 and BCHE 5181.

CHEM 5190 BIOCHEMISTRY II (3) LEC. 3. Pr. CHEM 5180. Metabolism: survey of design and regulation of the major catabolic and biosynthetic (including photosynthesis) metabolic pathways. An overview of the flow of genetic information. Credit will not be given for both CHEM 5190 and BCHE 5190.

CHEM 5191 BIOCHEMISTRY II LABORATORY (1) LEC. 3. Pr. P/C CHEM 5190 or P/C BCHE 5190. Partial purification, Kinetic studies and characterization of enzymes and nucleotides from various plants, animals and bacteria. Credit will not be given for both CHEM 5191 and BCHE 5191.

CHEM 5280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 5310 LEARNING ASSISTANT PEDAGOGY (1) ST1. 1. Departmental approval. The Learning Assistant Pedagogy course is a special topics course reserved for students (undergraduate or graduate) serving as learning assistants in active learning classrooms. This seminar style class incorporates literature on student-centered learning with reflective writing and discussion.

CHEM 6180 BIOCHEMISTRY I (3) LEC. 3. Pr. CHEM 2080 or CHEM 2087. Molecular Structure: classification, structure and reactions of the major constituents of living matter. Also includes binding phenomena and bioenergetics. Credit will not be given for both CHEM 6180 and BCHE 6180.

CHEM 6190 BIOCHEMISTRY II (3) LEC. 3. Pr. CHEM 6180. Departmental approval. Metabolism: survey of design and regulation of the major catabolic and biosynthetic (including photosynthesis) metabolic pathways. An overview of the flow of genetic information. Credit will not be given for both CHEM 6190 and BCHE 6190.

CHEM 6280 COMPUTATIONAL CHEMISTRY (4) LEC. 3. LAB. 3. Pr. (CHEM 2080 or CHEM 2087) and CHEM 4080. Modern computational chemistry including molecular mechanics and quantum mechanical calculations.

CHEM 7100 ADVANCED INORGANIC CHEMISTRY (3) LEC. 3. Departmental approval. Current concepts of inorganic chemistry with an emphasis on theory, structure, bonding and reactivity.
CHEM 7110 PHYSICAL METHODS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Or equivalent. Theory and application of techniques for obtaining information inorganic compounds including magnetism, multinuclear nmr, mass spectrometry, x-ray diffraction, vibrational and electronic spectroscopies.

CHEM 7120 ORGANOMETALLIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Main group and transition metal organometallic chemistry.

CHEM 7160 ADVANCED TOPICS IN INORGANIC CHEMISTRY (3) LEC. 3. Pr. CHEM 7100. Departmental approval. Currently active research areas in inorganic chemistry. Course may be repeated for a maximum of 12 credit hours.

CHEM 7200 ADVANCED ORGANIC CHEMISTRY I (3) LEC. 3. Departmental approval. Structure and mechanism in organic chemistry.

CHEM 7210 ADVANCED ORGANIC CHEMISTRY II (3) LEC. 3. Pr. CHEM 7200. Physical organic chemistry including spectroscopic methods.

CHEM 7260 SPECIAL TOPICS IN ORGANIC CHEMISTRY (1-3) LEC. Pr. CHEM 7200. Advanced course in a research area in organic chemistry which is of mutual interest to graduate students and the instructor. Course may be repeated for a maximum of 6 credit hours.

CHEM 7300 ADVANCED PHYSICAL CHEMISTRY (3) LEC. 3. Topics of general and current interest; may vary from year to year.

CHEM 7330 CHEMICAL KINETICS (3) LEC. 3. Theoretical and experimental aspects of reaction rates. The mathematics and characterization of chemically reacting systems.

CHEM 7350 QUANTUM AND STATISTICAL MECHANICS (3) LEC. 3. Pr. CHEM 7300. A quantum mechanical and statistical approach to molecular structure and chemistry.

CHEM 7370 SPECIAL TOPICS IN PHYSICAL CHEMISTRY (1-3) LEC. 3. Pr. CHEM 7300. Modern topics in advanced physical chemistry. Course may be repeated for a maximum of 3 credit hours.

CHEM 7380 MOLECULAR SPECTROSCOPY (3) LEC. 3. Pr. CHEM 7300. Theory and application of optical and magnetic resonance spectroscopy.

CHEM 7500 ADVANCED ANALYTICAL CHEMISTRY (3) LEC. 3. Analytical principles, applications and methods, mathematical interpretations and current developments.

CHEM 7510 ELECTROANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical applications of electrochemistry.

CHEM 7520 SURFACE CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Basic concepts in surface chemistry and surface analytical methods.

CHEM 7530 ADVANCES IN BIOANALYTICAL CHEMISTRY (3) LEC. 3. Pr. CHEM 7500. Analytical Chemistry of microfluidic devices and "Lab on a chip." New methods of miniaturization of separations and analysis with emphasis on bioanalytical applications.

CHEM 7750 FORMAL PRESENTATIONS IN MODERN CHEMISTRY (1) LEC. 1. Oral presentations skills will be developed with a focus on the dissemination of new discoveries in the field of Chemistry. Course may be repeated for a maximum of 6 credit hours.

CHEM 7930 DIRECTED INDIVIDUAL STUDY (1-15) IND. Credit to be arranged. Course may be repeated for a maximum of 15 credit hours.

CHEM 7950 SEMINAR (1) SEM. 1. SU. Course may be repeated for a maximum of 6 credit hours.

CHEM 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.

CHEM 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Civil Engineering - CIVL
Courses

CIVL 2010 SURVEYING (3) LEC. 2. LAB. 3. Pr. (ENGR 1110 or ENGR 1113) and (MATH 1610 or MATH 1613 or MATH 1617) and COMP 1200. Civil engineering surveying theory and practice including history of land surveys and U.S. datums; field measurements, office calculations and graphical/digital presentation of spatial data.

CIVL 3010 CIVIL ENGINEERING ANALYSIS (4) LEC. 3. LAB. 3. Pr. MATH 2650 and COMP 1200 and (ENGR 2050 or ENGR 2053). Applications of calculus and ordinary differential equations, numerical methods, vector algebra, and linear algebraic expressions to practical civil engineering problems. Heavy emphasis on computerized techniques and civil engineering software.

CIVL 3110 HYDRAULICS (4) LEC. 3. LAB. 3. Pr. (ENGR 2010 or ENGR 2200) and MATH 2650 and P/C ENGR 2350 and P/C CIVL 3010. Pr. ENGR 2010 is only allowed for students who transfer into Civil Engineering. Students already enrolled in Civil Engineering should take ENGR 2200. Introduction to fluid mechanics, fluid properties, hydraulics, kinematics, dynamics, energy equation, ideal flow and energy losses. Applications of fluid mechanics, pipe flow, fluid measurements, pumps, open channel flow, dimensional analysis and theory of modeling.

CIVL 3220 WATER AND WASTE TREATMENT (4) LEC. 3. LAB. 3. Pr. CHEM 1040 and BIOL 3200. Fundamentals of potable water treatment and wastewater treatment and disposal. Treatment systems; operation/ process physics, chemistry, and biology; operation and maintenance issues; regulatory requirements. Credit will not be given to students majoring in Civil Engineering.

CIVL 3230 ENVIRONMENTAL ENGINEERING (4) LEC. 3. LAB. 3. Pr. CHEM 1040 and (ENGR 2200 and P/C CIVL 3010) or P/C BSEN 3310. Fundamental principles of environmental engineering, including basic environmental chemistry and microbiology; materials and energy balances; diffusion; chemical equilibrium; kinetics; and chemical reaction engineering.

CIVL 3310 GEOTECHNICAL ENGINEERING I (4) LEC. 3. LAB. 3. Pr. CHEM 1040 and ENGR 2070. Soil-forming processes, physical properties of soils, subsurface investigations, clay mineralogy, soil classification, permeability, effective stress, consolidation theory, time-settlement analysis, compaction, shear strength, geosynthetics.

CIVL 3410 CONSTRUCTION ENGINEERING (3) LEC. 3. Pr., Junior standing. Basic concepts of the construction industry, contractual methods, estimating and scheduling.

CIVL 3510 TRANSPORTATION ENGINEERING (4) LEC. 4. Pr. CIVL 2010. Introduction to transportation engineering practice with emphasis on highway facility design, traffic operations, and life-cycle costing.

CIVL 3820 CIVIL ENGINEERING MATERIALS (3) LEC. 2. LAB. 3. Pr. CIVL 3310. Introduction to common materials used in construction of civil facilities including highways; aggregate, concrete, asphalt, and steel.

CIVL 4210 WATER AND WASTEWATER TREATMENT AND DESIGN (3) LEC. 3. Pr. CIVL 3230. Departmental approval. The fundamentals of theory, design, and operation of water and wastewater treatment systems are covered.

CIVL 4211 WATER AND WASTEWATER LABORATORY (1) LAB. 3. Pr. CHEM 1040 and BIOL 3200. Coreq. CIVL 4210. Introduction to analytical techniques used to assess water quality. Credit will not be given to students majoring in Civil Engineering.

CIVL 4220 ENVIRONMENTAL ENGINEERING DESIGN (3) LEC. 3. Pr. CIVL 4210 or CIVL 4230. Process design of environmental engineering systems.

CIVL 4230 URBAN HYDRAULIC SYSTEM DESIGN (3) LEC. 3. Pr. CIVL 3230 and CIVL 3110. Engineering approaches to designing and managing urban water supply, sanitary sewer, storm water collection systems and flood control works.

CIVL 4310 GEOTECHNICAL ENGINEERING II (3) LEC. 3. Pr. CIVL 3310. Analysis and design in geotechnical engineering based on principles of soil mechanics and soil behavior. Problems of slope stability, earth pressure and design of earth retaining structures, foundation bearing capacity and settlement.

CIVL 4420 PROJECT MANAGEMENT (3) LEC. 3. Pr. CIVL 3410. Planning and management of construction/engineering projects and organizations, project management techniques, skills, and applications.

CIVL 4490 DESIGN-BUILD PROJECT (3) LEC. 3. Pr. CIVL 4420. Develop a design-build proposal for a civil engineering improvement including engineering study, consideration of alternative designs, and formal written and oral presentation.
CIVL 4500 TRAFFIC ENGINEERING FUNDAMENTALS (3) LEC. 3. Pr. CIVL 3510. The fundamental elements of traffic engineering including traffic operations and traffic control devices.

CIVL 4520 AIRPORT DESIGN (3) LEC. 3. Pr. CIVL 3510. Departmental approval. An analysis of the elements affecting the design of airports including forecasting, runway configuration, capacity analyses, geometric design of runways and taxiways, pavement design and airfield drainage.

CIVL 4530 GEOMETRIC DESIGN (3) LEC. 3. Pr. CIVL 3510. An analysis of the elements affecting the location and design of rural highways, urban highways and arterial streets including design controls and criteria.

CIVL 4590 TRANSPORTATION DESIGN PROJECT (3) LEC. 3. Pr. CIVL 4530. Individual senior design project requiring the development of plans for a roadway over a large land segment: horizontal and vertical curves in accord with State and AASHTO standards; topographic terrain features; historical preservation area; minimum elevation; intersection design; earthwork balance.

CIVL 4600 REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 3610. Concrete and reinforcing steel properties; analysis and design of reinforced concrete beams, one-way slabs, columns and footings; anchorage of reinforcement.

CIVL 4690 STRUCTURAL DESIGN PROJECT (3) LEC. 3. Pr. CIVL 4600. Execution of a comprehensive design of a major structure. Emphasis on the design process, creative thinking, analysis, synthesis, teamwork and communications.

CIVL 4960 SPECIAL PROBLEMS (1-3) LEC. Departmental approval. Individual student endeavor under staff supervision involving advanced special problems in civil engineering. Course may be repeated for a maximum of 6 credit hours.

CIVL 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 6 credit hours.

CIVL 5110 OPEN CHANNEL HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Application of continuity, energy, and momentum analyses to problems of open channel flow. Topics include rapidly and gradually varied flow, unsteady flow, flood routing, computational methods, design concepts and applications. Credit will not be given for both CIVL 5110 and CIVL 6110/ CIVL 6116.

CIVL 5120 HYDROLOGIC ANALYSIS AND MODELING (3) LEC. 3. Pr. CIVL 3110 and STAT 3010. Hydrologic cycle, hydrologic frequency analysis, precipitation, infiltration, runoff hydrograph, flood routing, urban hydrology, watershed hydrologic modeling, and computer modeling applications. Departmental approval. May count either CIVL 5120 or CIVL 6120.

CIVL 5130 HYDRAULIC DESIGN OF PRESSURIZED SYSTEMS (3) LEC. 3. Pr. CIVL 3110. Pressurized flow applications; pump-pipeline design optimization; multiple reservoir operation; flow measurement/control systems; distribution manifolds; fundamentals of unsteady flows. Departmental approval. May count either CIVL 5130 or CIVL 6130.

CIVL 5150 GROUNDWATER HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Mechanics of groundwater flow, definitions, conservation of mass, Darcy's law, confined and unconfined flow, steady and transient flow, groundwater transport. Credit will not be given for both CIVL 5150 and CIVL 6150/CIVL 6156.

CIVL 5210 CHEMICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic chemistry as applied to environmental engineering: chemical thermodynamics, acid/base equilibrium, solution/dissolution chemistry, redox equilibrium, and chemical kinetics. Departmental approval. Credit will not be given for both CIVL 5210 and CIVL 6210/CIVL 6216.

CIVL 5220 ENVIRONMENTAL ENGINEERING PROCESSES LABORATORY (1) LAB. 3. Pr. CIVL 3230. Laboratory exploration of the fundamentals and applications of aquatic chemistry, physical-chemical processes and biological processes, as employed in water and wastewater treatment. Departmental approval. Credit will not be given for both CIVL 5220 and CIVL 6220.

CIVL 5230 ENVIRONMENTAL HEALTH ENGINEERING (3) LEC. 3. Application of engineering methodology in environmental health; communicable disease control, insect and rodent control, solid and hazardous wastes, noise, radiological health, legal and administrative considerations, etc. Departmental approval. Credit will not be given for both CIVL 5230 and CIVL 6230/CIVL 6236.

CIVL 5240 AIR POLLUTION (3) LEC. 3. Nature, sources and effects of air pollutants; effects of atmospheric conditions on dispersion; dispersion modeling, theory and design of control devices; legal/ administrative control. Departmental approval. Credit will not be given for both CIVL 5240 and CIVL 6240/CIVL 6246.
CIVL 5250 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic biology and microbiology as applied to environmental engineering: microbial growth, microbial metabolism, microbial population dynamics, wastewater treatment microbiology, environmental impacts, toxicity testing, and biomonitoring. Departmental approval. Credit will not be given for both CIVL 5250 and CIVL 6250/CIVL 6256.

CIVL 5330 LANDFILLS (3) LEC. 3. Pr. CIVL 3310. Landfill siting design, construction and operational practices; regulations, terminology, closure regulations and procedures. Credit will not be given for both CIVL 5330 and CIVL 6330/CIVL 6336.

CIVL 5340 GEOSYNTHETICS AND SOIL IMPROVEMENT (3) LEC. 3. Pr. CIVL 3310. Use of geosynthetics in civil engineering design: reinforcement, retaining walls, filtration, slopes, roads and erosion control. Evaluation and testing of geosynthetics. Improvement of soil properties for civil engineering design: principles and practice of densification, grouting, reinforcement, stone columns, soil nailing. Credit will not be given for both CIVL 5340 and CIVL 6340/CIVL 6346.

CIVL 5350 EARTH RETAINING STRUCTURES (3) LEC. 3. Pr. CIVL 3310. Analysis and design of earth retaining structures. Shear strength; earth pressure theory; gravity, mechanically stabilized, flexible sheet, and anchored structures. May count either CIVL 5350 or CIVL 6350/CIVL 6356.

CIVL 5410 GEOGRAPHIC INFORMATION SYSTEMS IN CIVIL ENGINEERING (3) LEC. 3. Pr. CIVL 2010. Departmental approval. Basic principles and the development of geographic information systems and practical experiences in the field of civil engineering. Credit will not be given for both CIVL 5410 and CIVL 6410.

CIVL 5430 CONSTRUCTION SAFETY AND HEALTH MANAGEMENT (3) LEC. 3. Pr. CIVL 3410. Departmental approval. Various causes of construction accidents and adopted strategies for preventing worksite injuries and illness are investigated. Emphasis on OSHA standards, insurance, and health and safety hazards. Credit will not be given for both CIVL 5430 and CIVL 6430/CIVL 6436.

CIVL 5440 CONSTRUCTION EQUIPMENT AND METHODS (3) LEC. 3. Pr. CIVL 3410 and CIVL 3310 and CIVL 3510. Selection of equipment for heavy construction operations, production rates, owning and operating costs, fleet management. May count either CIVL 5440 or CIVL 6440/CIVL 6446.

CIVL 5450 EROSION & SEDIMENT CONTROL (3) LEC. 3. Pr. CIVL 3310 and CIVL 3410. Process of erosion, sediment transport, and sedimentation along with strategies adopted to prevent and manage erosion on construction sites. May count either CIVL 5450 or CIVL 6450.

CIVL 5460 PROJECT ESTIMATING (3) LEC. 3. Pr. CIVL 3410. Conceptual and definitive estimates, overhead and profit determination; claim change order pricing. May count either CIVL 5460 or CIVL 6460.

CIVL 5480 LEGAL ASPECTS OF CIVIL ENGINEERING PRACTICE (3) LEC. 3. Pr. CIVL 3410. Covered is the law of contracts, agency, association, property, and labor law, studied generally and in the context that the practicing civil engineer encounters them. Departmental approval. May count either CIVL 5480 or CIVL 6480/CIVL 6486.

CIVL 5500 TRAFFIC ENGINEERING ANALYSIS (3) LEC. 3. Pr. CIVL 3510. Capacity analysis of rural and suburban highways, 2-lane highways, freeways, weaving sections, ramps and intersections. May count either CIVL 5500 or CIVL 6500/CIVL 6506.

CIVL 5510 TRAFFIC CONTROL SYSTEMS DESIGN (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. Fundamental design concepts for highway traffic control systems. Control requirements and warrants; hardware operation and equipment selection; development and implementation of timing plans for isolated intersections and intersection networks. May count either CIVL 5510 or CIVL 6510/CIVL 6516.

CIVL 5560 TRANSPORTATION PLANNING (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. The planning process for urban and regional transportation development. Topics include planning objectives and data requirements; planning inventories; modeling of trip-making behavior, development and evaluation of alternate plans; multimodal applications, including railway operations. Departmental approval. May count either CIVL 5560 or CIVL 6560/CIVL 6566.

CIVL 5580 INTELLIGENT TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510. Departmental approval. Introduction to intelligent transportation systems, covering applications of information and communication technologies to transportation, with emphasis on operations of traffic management and traveler information systems. Credit will not be given for both CIVL 5580 and CIVL 6580/CIVL 6586.
CIVL 5600 ADVANCED REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Analysis and design of continuous beams and one-way slabs, bond and development length, torsion, slenderness effects in columns, two-way slabs, footings, and retaining walls. May count either CIVL 5600 or CIVL 6600/CIVL 6606.

CIVL 5620 PRESTRESSED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties and behavior of pre-stressed concrete, pre-stressing systems and end anchorages, analysis and design of beams for flexure and shear, camber and deflection, cable lay-out, pre-stressed concrete slabs. May count either CIVL 5620 or CIVL 6620/CIVL 6626.

CIVL 5630 ADVANCED CONCRETE MATERIALS (3) LEC. 3. Pr. CIVL 3820. Comprehensive coverage of concrete materials. Topics include cement and aggregate properties; concrete microstructure; mechanical properties; supplementary cementing materials; chemical admixtures; durability issues; special concretes. May count either CIVL 5630 or CIVL 6630/CIVL 6636.

CIVL 5640 STRUCTURAL MASONRY DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties of masonry component materials; behavior and design of unreinforced and reinforced masonry assemblages and structures. May count either CIVL 5640 or CIVL 6640/CIVL 6646.

CIVL 5650 ADVANCED STEEL DESIGN (3) LEC. 3. Pr. CIVL 4650. Composite construction, open web joists, torsion, plate girders, plastic analysis and design, highway bridges, computer applications. May count either CIVL 5650 or CIVL 6650/CIVL 6656.

CIVL 5690 TIMBER DESIGN (3) LEC. 3. Pr. CIVL 3610. Properties and behavior of timber and plywood; design of timber beams, columns, floor and wall assemblies and wood formwork; timber trusses and laminated arches. May count either CIVL 5690 or CIVL 6690/CIVL 6696.

CIVL 5700 DESIGN FOR LATERAL LOADS (3) LEC. 3. Pr. CIVL 3610 and (CIVL 4600 or CIVL 4650). Wind meteorology and loadings, effects of wind loadings, building code wind pressures and load provisions, fundamentals of structural vibrations, earthquake characteristics and loadings, building code earthquake provisions, building lateral load resisting systems. May count either CIVL 5700 or CIVL 6700/CIVL 6706.

CIVL 5710 STRUCTURAL REPAIR (3) LEC. 3. Pr. CIVL 4600. Evaluation of causes of distress; condition; repair materials; methods of repair; protection methods; and structural strengthening in structural concrete applications. May count either CIVL 5710 or CIVL 6710/CIVL 6716.

CIVL 5810 PAVEMENT DESIGN AND CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820 and CIVL 3310 and CIVL 3510. General concepts, traffic factors, material characterization, layer thickness selection, earthwork, base and sub-base construction, surface course construction, quality control/assurance. May count either CIVL 5810 or CIVL 6810/CIVL 6816.

CIVL 5820 DESIGN AND PRODUCTION OF ASPHALT PAVING MIXTURES (3) LEC. 2. LAB. 3. Pr. CIVL 3820. Selection and optimization of component materials based on physical properties, specification criteria, performance expectations, and costs. Production and quality assurance. May count either CIVL 5820 or CIVL 6820.

CIVL 5970 CIVIL ENGINEERING SPECIAL TOPICS (3) LEC. 3. Special topics of an advanced undergraduate nature pertinent to civil engineering. Specific prerequisites will be announced for each course offering. Credit will not be given for both CIVL 5970 and CIVL 6970. Course may be repeated for a maximum of 6 credit hours.

CIVL 6110/6116 OPEN CHANNEL HYDRAULICS (3) LEC. 3. Pr. CIVL 3110. Application of continuity, energy, and momentum analyses to problems of open channel flow. Topics include rapidly and gradually varied flow, unsteady flow, flood routing, computational methods, design concepts and applications. Credit will not be given for both CIVL 5110 and CIVL 6110/CIVL 6116.

CIVL 6120 HYDROLOGIC ANALYSIS AND MODELING (3) LEC. 3. Pr. CIVL 3110 and STAT 3110. Departmental approval. Hydrologic cycle, hydrologic frequency analysis, precipitation, infiltration, runoff hydrograph, flood routing, urban hydrology, watershed hydrologic modeling, and computer modeling applications.

CIVL 6130 HYDRAULIC DESIGN (3) LEC. 3. Pr. CIVL 3110. Pressurized flow applications; pump-pipeline design optimization; multiple reservoir operation; flow measurement/control systems; distribution manifolds; fundamentals of unsteady flows. Departmental approval. May count either CIVL 5130 or CIVL 6130.

CIVL 6210/6216 CHEMICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic chemistry as applied to environmental engineering; chemical thermodynamics, acid/base equilibrium, solution/dissolution chemistry, redox equilibrium, and chemical kinetics. Departmental approval. Credit will not be given for both CIVL 5210 and CIVL 6210/CIVL 6216.

CIVL 6220 ENVIRONMENTAL ENGINEERING PROCESSES LABORATORY (1) LAB. 3. Pr. CIVL 3230. Laboratory exploration of the fundamentals and applications of aquatic chemistry, physical-chemical processes and biological processes, as employed in water and wastewater treatment. Departmental approval. May count either CIVL 5220 or CIVL 6220.

CIVL 6230/6236 ENVIRONMENTAL HEALTH ENGINEERING (3) LEC. 3. Application of engineering methodology in environmental health; communicable disease control, insect and rodent control, solid and hazardous wastes, noise, radiological health, legal and administrative considerations, etc. Departmental approval. Credit will not be given for both CIVL 5230 and CIVL 6230/CIVL 6236.

CIVL 6240/6246 AIR POLLUTION (3) LEC. 3. Nature, sources and effects of air pollutants; effects of atmospheric conditions on dispersion; dispersion modeling theory and design of control devices; legal/administrative control. Departmental approval. Credit will not be given for both CIVL 5240 and CIVL 6240/CIVL 6246.

CIVL 6250/6256 BIOLOGICAL PRINCIPLES OF ENVIRONMENTAL ENGINEERING (3) LEC. 3. Pr. CIVL 3230. Fundamentals of aquatic biology and microbiology as applied to environmental engineering; microbial growth, microbial metabolism, microbial population dynamics, wastewater treatment microbiology, environmental impacts, toxicity testing, and biomonitoring. Departmental approval. Credit will not be given for both CIVL 5250 and CIVL 6250/CIVL 6256.

CIVL 6330/6336 LANDFILLS (3) LEC. 3. Pr. CIVL 3310. Landfill siting design, construction and operational practices; regulations, terminology, closure regulations and procedures. Credit will not be given for both CIVL 5330 and CIVL 6330/CIVL 6336.

CIVL 6340/6346 GEOSYNTHETICS AND SOIL IMPROVEMENT (3) LEC. 3. Pr. CIVL 3310. Use of geosynthetics in civil engineering design: reinforcement, retaining walls, filtration, slopes, roads and erosion control. Evaluation and testing of geosynthetics. Improvement of soil properties for civil engineering design: principles and practice of densification, grouting, reinforcement, stone columns, soil nailing. Credit will not be given for both CIVL 5340 and CIVL 6340/CIVL 6346.

CIVL 6350/6356 EARTH RETAINING STRUCTURES (3) LEC. 3. Pr. CIVL 3310. Analysis and design of earth retaining structures. Shear strength; earth pressure theory; gravity, mechanically stabilized, flexible sheet, and anchored structures. May count either CIVL 5350 or CIVL 6350/CIVL 6356.

CIVL 6410 GEOGRAPHIC INFORMATION SYSTEMS IN CIVIL ENGINEERING (3) LEC. 3. Pr. CIVL 2010. Departmental approval. Basic principles and the development of geographic information systems and practical experiences in the field of civil engineering. Credit will not be given for both CIVL 5410 and CIVL 6410.

CIVL 6430/6436 CONSTRUCTION SAFETY (3) LEC. 3. Pr. CIVL 3410. Departmental approval. Various causes of construction accidents and adopted strategies preventing worksite injuries and illnesses are investigated. Emphasis on OSHA standards, insurance, and health and safety hazards. Credit will not be given for both CIVL 5430 and CIVL 6430/CIVL 6436.

CIVL 6440/6446 CONSTRUCTION EQUIPMENT AND METHODS (3) LEC. 3. Pr. CIVL 3410 and CIVL 3310 and CIVL 3510. Selection of equipment for heavy construction operations, production rates, owning and operating costs, fleet management. May count either CIVL 5440 or CIVL 6440/CIVL 6446.

CIVL 6450 EROSION AND SEDIMENT CONTROL TECHNOLOGIES IN CONSTRUCTION (3) LEC. 3. Pr. CIVL 3310 and CIVL 3410. Process of erosion, sediment transport, and sedimentation along with strategies adopted to prevent and manage erosion on construction sites. May count either CIVL 5450 or CIVL 6450.

CIVL 6460 PROJECT ESTIMATING (3) LEC. 3. Pr. CIVL 3410. Conceptual and definitive estimates, overhead and profit determination; claim change order pricing. May count either CIVL 5460 or CIVL 6460.
CIVL 6480/6486 LEGAL ASPECTS OF CIVIL ENGINEERING PRACTICE (3) LEC. 3. Pr. CIVL 3410. Covered is the law of contracts, agency, association, property, and labor law, studied generally and in the context that the practicing civil engineer encounters them. Departmental approval. May count either CIVL 5480 or CIVL 6480/CIVL 6486.

CIVL 6500/6506 TRAFFIC ENGINEERING ANALYSIS (3) LEC. 3. Pr. CIVL 3510. Capacity analysis of rural and suburban highways, 2-lane highways, freeways, weaving sections, ramps and intersections. May count either CIVL 5500 or CIVL 6500/CIVL 6506.

CIVL 6510/6516 TRAFFIC CONTROL SYSTEMS DESIGN (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. Fundamental design concepts for highway traffic control systems. Control requirements and warrants; hardware operation and equipment selection; development and implementation of timing plans for isolated intersections and intersection networks. May count either CIVL 5510 or CIVL 6510/CIVL 6516.

CIVL 6560/6566 TRANSPORTATION PLANNING (3) LEC. 3. Pr. CIVL 3510 and STAT 3010. The planning process for urban and regional transportation development. Topics include planning objectives and data requirements; planning inventories; modeling of trip-making behavior, development and evaluation of alternate plans; multimodal applications, including railway operations. Departmental approval. May count either CIVL 5560 or CIVL 6560/CIVL 6566.

CIVL 6580/6586 INTELLIGENT TRANSPORTATION SYSTEMS (3) LEC. 3. Pr. CIVL 3510. Introduction to intelligent transportation systems, covering applications of information and communications technologies to transportation, with emphasis on operations of traffic management and traveler information systems. Departmental approval. May count either CIVL 5580 or CIVL 6580/CIVL 6586.

CIVL 6600/6606 ADVANCED REINFORCED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Analysis and design of continuous beams and one-way slabs, bond and development length, torsion, slenderness effects in columns, two-way slabs, footings, and retaining walls. May count either CIVL 5600 or CIVL 6600/CIVL 6606.

CIVL 6620/6626 PRE-STRESSED CONCRETE DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties and behavior of pre-stressed concrete, pre-stressing systems and end anchorages, analysis and design of beams for flexure and shear, camber and deflection, cable layout, pre-stressed concrete slabs. May count either CIVL 5620 or CIVL 6620/CIVL 6626.

CIVL 6630/6636 ADVANCED CONCRETE MATERIALS (3) LEC. 3. Pr. CIVL 3820. Comprehensive coverage of concrete materials. Topics include cement and aggregate properties; concrete microstructure; mechanical properties; supplementary cementing materials, chemical admixtures; durability issues; special concretes. May count either CIVL 5630 or CIVL 6630/CIVL 6636.

CIVL 6640/6646 STRUCTURAL MASONRY DESIGN (3) LEC. 3. Pr. CIVL 4600. Properties of masonry component materials; behavior and design of unreinforced and reinforced masonry assemblages and structures. May count either CIVL 5640 or CIVL 6640/CIVL 6646.

CIVL 6650/6656 ADVANCED STEEL DESIGN (3) LEC. 3. Pr. CIVL 4650. Composite construction, open web joists, torsion, plate girders, plastic analysis and design, highway bridges, computer applications. May count either CIVL 5650 or CIVL 6650/CIVL 6656.

CIVL 6690/6696 TIMBER DESIGN (3) LEC. 3. Pr. CIVL 3610. Properties and behavior of timber and plywood; design of timber beams, columns, floor and wall assemblies and wood formwork; timber trusses and laminated arches. May count either CIVL 5690 or CIVL 6690/CIVL 6696.

CIVL 6700/6706 DESIGN FOR LATERAL LOADS (3) LEC. 3. Pr. CIVL 3610 and (CIVL 4600 or CIVL 4650). Wind meteorology and loadings, effects of wind loadings, building code wind pressures and load provisions, fundamentals of structural vibrations, earthquake characteristics and loadings, building code earthquake provisions, building lateral load resisting systems. May count either CIVL 5700 or CIVL 6700/CIVL 6706.

CIVL 6710/6716 STRUCTURAL REPAIR (3) LEC. 3. Pr. CIVL 4600. Evaluation of causes of distress; condition; repair materials; methods of repair; protection methods; and structural strengthening in structural concrete applications. May count either CIVL 5710 or CIVL 6710/CIVL 6716.

CIVL 6810/6816 PAVEMENT DESIGN AND CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820 and CIVL 3310 and CIVL 3510. General concepts, traffic factors, material characterization, layer thickness selection, earthwork, base and sub-base construction, surface course construction quality control/assurance. May count either CIVL 5810 or CIVL 6810/CIVL 6816.
CIVL 6820/6826 DESIGN AND PRODUCTION OF ASPHALT PAVING MIXTURES (3) LEC. 2. LAB. 3. Pr. CIVL 3820. Selection and optimization of component materials based on physical properties, specification criteria, performance expectations, and costs. Production and quality assurance. May count either CIVL 5820, CIVL 6820 or CIVL 6826.

CIVL 6970 CIVIL ENGINEERING SPECIAL TOPICS (3) LEC. 3. Departmental approval. Special topics of an advanced undergraduate nature pertinent to civil engineering. Specific prerequisites will be announced for each course offering. Credit will not be given for both CIVL 5970 and CIVL 6970. Course may be repeated for a maximum of 6 credit hours.

CIVL 7170/7176 NUMERICAL METHODS IN HYDRAULICS AND HYDROLOGY (3) LEC. 3. Pr. CIVL 3230. Numerical approximations of ordinary and partial differential equations representing problems common to civil engineering including groundwater flow, soil consolidation, and mass transport. The formulation and computational solution of diffusion and equilibrium problems are emphasized. Computer programming is required.

CIVL 7210/7216 METHODS OF POLLUTANT ANALYSIS IN ENVIRONMENTAL ENGINEERING (3) LEC. 2. LAB. 3. Pr. CIVL 6210 or CIVL 6216. Fundamentals of identifying and quantifying environmental pollutants: review of pollutant chemistry, quality and quantity of pollutants, statistical basis of sampling, environmental sampling techniques, analytical techniques, and data analysis.

CIVL 7220/7226 WATER AND WASTEWATER OPERATIONS AND PROCESSES I (3) LEC. 3. Pr. CIVL 3230. Departmental approval. Physical and chemical principles applied to water and wastewater treatment. Advanced mathematical and modeling concepts.

CIVL 7230/7236 WATER AND WASTEWATER OPERATIONS AND PROCESSES II (3) LEC. 3. Pr. CIVL 7220 or CIVL 7226. Departmental approval. Rigorous analysis of unit operations and processes used in modern water and wastewater treatment systems. Mixing, coagulation, sedimentation, filtration, and chemical precipitation.

CIVL 7240/7246 WATER AND WASTEWATER OPERATIONS AND PROCESSES III (3) LEC. 3. Pr. CIVL 7220 or CIVL 7226. Departmental approval. Design and analysis of unit operations and processes used in modern water and wastewater treatment systems are rigorously examined: adsorption, ion exchange, membrane filtration, reverse osmosis, gas transfer, corrosion, and treatment residuals processing.

CIVL 7260/7266 ENVIRONMENTAL NUTRIENT CONTROL PROCESSES (3) LEC. 3. Pr. CIVL 7250 or CIVL 7256. The nature, sources, and impacts of aquatic nutrients in the environment: microbial nutrient cycles, biological nutrient removal processes, chemical nutrient control processes, natural systems for nutrient removal.

CIVL 7280/7286 SURFACE WATER QUALITY MODELING (3) LEC. 3. Pr. CIVL 3230. Departmental approval. Physical, chemical, biological and hydrological considerations relating to the degradation and self-purification of streams, lakes, and estuaries. Water uses and water quality goals, objectives and criteria. Principles of water quality modeling and waste load allocation.

CIVL 7310/7316 FOUNDATION ENGINEERING (3) LEC. 3. Pr. CIVL 3310 and CIVL 4600. Analysis, design and construction of shallow and deep foundation systems.

CIVL 7330/7336 SOIL PROPERTIES (3) LEC. 3. Pr. CIVL 3310. Soil behavior, shear strength, compressibility, hydraulic conductivity, and measurement of soil properties.

CIVL 7340/7346 SOIL DYNAMICS (3) LEC. 3. Pr. CIVL 3310. Soil behavior during dynamic loads, wave propagation, dynamically loaded foundations, geotechnical earthquake engineering.

<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIVL 7390/7396</td>
<td>IN SITU TESTING OF SOILS</td>
<td>3</td>
<td>CIVL 4310. In situ tests used in geotechnical engineering: test procedures, interpretation of results, and designing from in situ geotechnical data.</td>
</tr>
<tr>
<td>CIVL 7410/7416</td>
<td>TEMPORARY STRUCTURES AND FACILITIES</td>
<td>3</td>
<td>STAT 3010 and CIVL 3310 and CIVL 3610. Construction loads, applicable codes and standards, and design principles for temporary structures; planning and implementation of construction facilities; economic analysis of alternatives.</td>
</tr>
<tr>
<td>CIVL 7500/7506</td>
<td>TRAFFIC FLOW THEORY</td>
<td>3</td>
<td>Basic phenomena underlying traffic stream movement and individual vehicle behavior. Topics include flow parameters and relationships; microscopic and macroscopic flow models; equations of motion and state; single and multi-regime flow models.</td>
</tr>
<tr>
<td>CIVL 7520/7526</td>
<td>PUBLIC TRANSPORTATION</td>
<td>3</td>
<td>CIVL 3510. Departmental approval. Technology and characteristics of public transportation; transportation demand analysis; transit users; innovative technologies.</td>
</tr>
<tr>
<td>CIVL 7540/7546</td>
<td>TRANSPORTATION SAFETY</td>
<td>3</td>
<td>Departmental approval. Transportation safety problems and the engineer's role in developing and administering safety programs. Topics include hazardous location identification; analysis of accident data; development and evaluation of accident countermeasures and safety programs.</td>
</tr>
<tr>
<td>CIVL 7550/7556</td>
<td>ROADSIDE DESIGN</td>
<td>3</td>
<td>Departmental approval. Concepts of roadside design that can prevent or reduce crash severity. Topics include design, selection, placement and construction of longitudinal barriers, crash cushions, bridge rails, transitions, end terminals, sign posts, and other roadside features.</td>
</tr>
<tr>
<td>CIVL 7620/7626</td>
<td>STRUCTURAL DYNAMICS II</td>
<td>3</td>
<td>CIVL 7610 or CIVL 7616. Analysis of MDOF systems by direct numerical integration, continuous systems, nonlinear dynamics response, earthquake response of structures.</td>
</tr>
<tr>
<td>CIVL 7630/7636</td>
<td>ADVANCED STRESS ANALYSIS</td>
<td>3</td>
<td>CIVL 3610. Hooke's 1-D, 2-D, 3-D stress-strain relations and applications, stress and strain transformations and Mohr's circle, material properties and failure theories, biaxial bending, unsymmetrical bending, composite material members, shear center, torsional stress, stress concentrations, beams on elastic foundations.</td>
</tr>
<tr>
<td>CIVL 7640/7646</td>
<td>STABILITY OF STRUCTURES</td>
<td>3</td>
<td>CIVL 6670. Introduction to stability and failure of compression members, rigid bar buckling, elastic and inelastic buckling of columns, approximate methods of buckling analysis, beam-columns, buckling of frames, torsional buckling, lateral torsional buckling of beams.</td>
</tr>
<tr>
<td>CIVL 7650/7656</td>
<td>ADVANCED ANALYSIS OF FRAMED STRUCTURES</td>
<td>3</td>
<td>CIVL 6670 or CIVL 6676. Matrix analysis of framed structures, elastic supports, specified displacements, member end releases, principle of minimum potential energy, geometric non-linearity, frame stability, substructures.</td>
</tr>
<tr>
<td>CIVL 7660/7666</td>
<td>FINITE ELEMENT METHODS IN STRUCTURAL MECHANICS</td>
<td>3</td>
<td>CIVL 6670 or CIVL 6676. Departmental approval. Introduction to finite element analysis; variational principles. 1D, 2D and 3D element formulation; nonlinear (geometric and constitutive) formulations and solutions; eigenvalue problems.</td>
</tr>
<tr>
<td>CIVL 7670/7676</td>
<td>NUMERICAL TECHNIQUES IN STRUCTURAL ANALYSIS</td>
<td>3</td>
<td>CIVL 6670 or CIVL 6676. Basic concepts of non-linear analyses, formulation of the continuum mechanics incremental equations, total and updated Lagrangian formulations, finite elements for non-linear analyses, non-linear solution strategies.</td>
</tr>
<tr>
<td>CIVL 7680/7686</td>
<td>FATIGUE AND FRACTURE MECHANICS</td>
<td>3</td>
<td>CIVL 4650. Departmental approval. Linear-elastic and elastic-plastic fracture mechanics, fatigue, yield criteria, applications to highway structures.</td>
</tr>
<tr>
<td>CIVL 7690/7696</td>
<td>ANALYSIS OF PLATE AND SHELL SYSTEMS</td>
<td>3</td>
<td>CIVL 6670 or CIVL 6676. Departmental approval. Analysis of isotropic and anisotropic plates with various shapes and boundary conditions due to lateral and in-plane loads; large deflection considerations; numerical techniques; bending and membrane behavior of isotropic shells.</td>
</tr>
<tr>
<td>CIVL 7710/7716</td>
<td>APPLIED ELASTICITY</td>
<td>3</td>
<td>CIVL 6670 or CIVL 6676. Departmental approval. Analysis of stress-strain; generalized stress-strain relationships; solution of elasticity problem by potentials; thick cylinders, disks and spheres; energy principles and introduction of variational methods.</td>
</tr>

</table>
CIVL 7720/7726 EARTHQUAKE ENGINEERING (3) LEC. 3. Pr. (CIVL 7610 or CIVL 7616) and (CIVL 5670 or CIVL 6670 or CIVL 6676). Principles of earthquakes and earthquake engineering; Analysis and design of steel and reinforced concrete buildings for earthquakes. May count either CIVL 7720 or CIVL 7726.

CIVL 7770/7776 VARIATIONAL METHODS IN STRUCTURAL MECHANICS (3) LEC. 3. Pr. CIVL 6670 or CIVL 6676. Departmental approval. Calculus of variations; derivation of Euler's equations and boundary conditions; applications of energy principles to structures; variational approaches to finite element methods.

CIVL 7810/7816 ADVANCED CONSTRUCTION MATERIALS (4) LEC. 3. LAB. 3. Pr. CIVL 6810 or CIVL 6816. Departmental approval. Evaluate soils, unbound and stabilized materials, hot mix asphalt, and cement concrete products; stress-strain relationships; thermal expansion; design and testing of non-traditional construction products.

CIVL 7820/7826 ADVANCED PAVEMENT DESIGN AND REHABILITATION (3) LEC. 3. Pr. CIVL 7810 or CIVL 7816. Pavement management concepts, life cycle costs analysis, design and rehabilitation alternatives, serviceability concepts, empirical thickness selection models, reliability.

CIVL 7830 ASPHALT CONCRETE MIX DESIGN (3) LEC. 2. LAB. 3. Marshall and Superpave mix design methods and QC/QA for asphalt concrete are covered. Topics include aggregate, asphalt and mix properties, laboratory testing and proportion optimization.

CIVL 7840/7846 PAVEMENT MANAGEMENT AND REHABILITATION (3) LEC. 3. Pr. CIVL 3820. Departmental approval. Topics include: network and project level management, pavement distress surveys, non-destructive testing for condition measurements, flexible and rigid pavement maintenance and rehabilitation practices.

CIVL 7860 PAVEMENT CONSTRUCTION (3) LEC. 3. Pr. CIVL 3820. Operation, quality control and specifications of component construction processes for asphalt and concrete paving; and overview of major rehabilitation strategies.

CIVL 7870 ADVANCED CHARACTERIZATION OF PAVEMENT MATERIALS (3) LEC. 2. LAB. 3. Pr. CIVL 3820. This course introduces theories and procedures for determining fundamental properties of asphalt materials for advanced material evaluation and pavement design.

CIVL 7950 GRADUATE SEMINAR (1) SEM. 1. SU. Course may be repeated for a maximum of 6 credit hours.

CIVL 7970/7976 SPECIAL TOPICS IN CIVIL ENGINEERING (1-3) LEC. Individual student or group endeavor under direct faculty supervision involving special topics of an advanced nature in civil engineering. Course may be repeated for a maximum of 9 credit hours.

CIVL 7980/7986 ENGINEERING PROJECT (1-10) LEC. Departmental approval. Directed study on an engineering project or research supervised by an individual graduate faculty member. Course may be repeated for a maximum of 10 credit hours.

CIVL 7990 RESEARCH AND THESIS (1-10) MST. Departmental approval. Credit to be arranged. Course may be repeated for a maximum of 10 credit hours.

CIVL 8990 RESEARCH AND DISSERTATION (1-10) DSR. Departmental approval. Credit to be arranged. Course may be repeated with change in topics.

**Clinical Pharmacy Practice - PYPP**

**Courses**

**PYPP 5023 PATIENT ASSESSMENT 1** (1) LAB. 3. SU. Performing a basic physical assessment and obtaining a medical and medication history.

**PYPP 5323 PATIENT ASSESSMENT 2** (2) LEC. 1. LAB. 3. Advanced physical assessment and interpretation of findings.

**PYPP 5643 PRIMARY AND AMBULATORY CARE 1** (3) DSL. 3. Advanced practice experience in providing pharmaceutical care to patients as they initially access the health care system.

**PYPP 5653 PRIMARY AND AMBULATORY CARE 2** (3) LEC. 3. Pr. PYPP 5643. Continuation of PYPP 5643.

**Communication - COMM**
Courses

COMM 1000/1003 PUBLIC SPEAKING (3) LEC. 3. Oral communication theory and practice in a public speaking setting, with emphasis on content, organization, delivery, and adaptation to the audience.

COMM 2010 COMMUNICATION IN SOCIETY (3) LEC. 3. Theory underlying the construction of rhetorical messages as well as critical perspectives for the analysis of public discourse.

COMM 2400/2403 COMMUNICATION IN ORGANIZATIONS (3) LEC. 3. Communication in modern organizations, emphasizing practice in areas such as interviewing, managing meeting, and conducting professional presentations. May count either COMM 2400 or COMM 2403.

COMM 2410 SMALL GROUP COMMUNICATION (3) LEC. 3. Theory and practice of competent communication in task-oriented small group settings such as committees. Topics include roles, leadership, decision making, problem solving, and conflict management.

COMM 2910 COMMUNICATION PRACTICUM (1-3) AAB/PRA. SU. Pr., Departmental approval. Practical experiences in potential career fields gained while working in professional settings. Course may be repeated for a maximum of 3 credit hours.

COMM 3100 SPEAKING BEFORE AUDIENCES (3) LEC. 3. Pr. COMM 1000 or COMM 1003. Refining the knowledge and skills necessary for communicating clearly and effectively in oral presentations.

COMM 3110/3113 PERSUASION (3) LEC. 3. Understanding and analyzing persuasive messages. Survey of theoretical approaches to attitude formation and change. Developing skills as a critical evaluator of persuasive messages.

COMM 3300 COMMUNICATION AND CONFLICT (3) LEC. 3. Enhance awareness of and develop skills in managing conflict processes in interpersonal relationships.

COMM 3450/3453 INTERCULTURAL COMMUNICATION (3) LEC. 3. Different types of problems encountered when communicating with different cultures.

COMM 3500 FOUNDATIONS OF HUMAN COMMUNICATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Theories examining the nature of human communication.

COMM 3510 RESEARCH IN HUMAN COMMUNICATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Introduction to and application of quantitative and qualitative methods of communication research. May count either COMM 3200 or COMM 3510.

COMM 3600 FOUNDATIONS OF RHETORIC AND SOCIAL INFLUENCE (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. Rhetorical theory from its classical roots to contemporary thinkers. Relates rhetorical theory and analysis to understanding persuasive discourse in our society.

COMM 3610 RESEARCH IN RHETORIC AND SOCIAL INFLUENCE (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103). Exploration of how to perform a critical analysis of various rhetorical artifacts.

COMM 3700/3703 ARGUMENTATION (3) LEC. 3. Examination of the critical tools necessary to evaluate arguments in current public discourse.

COMM 3970 SPECIAL TOPICS IN COMMUNICATION (3-6) LEC. Topics that range beyond what is covered in other courses within the COMM curriculum. Specific subject matter is left up to the individual instructor. Course may be repeated for a maximum of 6 credit hours.

COMM 4100/4103 COMMUNICATION STRATEGIES OF SOCIAL MOVEMENTS (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) or (COMM 3200 and COMM 3600 and COMM 3500) and (COMM 3510 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Examination of persuasive strategies used in social movements to attract members, solidify support, and effect social change.

COMM 4400 GENDER COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) or (COMM 3200 and COMM 3500 and COMM 3600) and (COMM 3510 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Examination of the ways in which gender is communicated through dyads, through small groups and organizations, and through the mass media.
COMM 4410 THEORIES OF LEADERSHIP (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) or (COMM 3200 and COMM 3500 and COMM 3600) and (COMM 3510 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Examination of theory and research in leadership as a communication variable and behavioral practice in small group and organizational settings.

COMM 4470 HEALTH COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. History, functions, and concepts central to the practice of health communication.

COMM 4500 MESSAGE STRUCTURES AND INFORMATION PROCESSING (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Relationship between message structures and information processing in both cognitive and affective domains during speaking and listening.

COMM 4600 POLITICAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Critical analysis and evaluation of political communication. May count either COMM 4600 or COMM 5600.

COMM 4700 LEGAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Examination of the trial process, including jury selection, opening statement, direct examination, cross examination, and closing arguments.

COMM 4800 INTERPERSONAL COMMUNICATION (3) LEC. 3. Pr. COMM 3500 and COMM 3600 and (CMJN 2100 or CMJN 2103) and (CMJN 3510 or CMJN 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Relationship between communication and the formation of self identity and maintenance of relationships.

COMM 4810 NONVERBAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600 and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Theory of non-language based communication and the impact of these messages on the overall communication process.

COMM 4850 DISCOURSE IN SOCIAL LIFE (3) LEC. 3. Pr. COMM 3500 and COMM 3600 and (CMJN 2100 or CMJN 2103) and (COMM 3510 or COMM 3200 or COMM 3610) or (MDIA 3300 or MDIA 3303). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Language and social interaction as they reflect and shape identity of self, relationships, and group members.

COMM 4920 INTERNSHIP (3-6) AAB/INT. SU. Pr. COMM 3500 and COMM 3600 and (CMJN 2100 or CMJN 2103) and (COMM 3510 or COMM 3200 or COMM 3610). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV and admission to the internship program. Opportunity to apply classroom experience to career setting. Internship must be a supervised, closely monitored work experience, appropriate to the major, that takes place. Course may be repeated for a maximum of 6 credit hours.

COMM 4930 DIRECTED STUDIES IN COMMUNICATION (3) IND. 3. Pr. COMM 3500 and COMM 3600 and (CMJN 2100 or CMJN 2103) and (COMM 3510 or COMM 3200 or COMM 3610) or (MDIA 3300 or MDIA 3303). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, MDIV or Departmental approval. Independent study on a specific topic of interest not already addressed in any regular COMM course.

COMM 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. CMJN 2100 and CMJN 2103 and COMM 3600. and COMM 3500 and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV. Course may be repeated for a maximum of 3 credit hours.

COMM 4970/4973 SPECIAL TOPICS IN COMMUNICATION (3) LEC. 3. Pr. COMM 3500 and COMM 3600 and (CMJN 2100 or CMJN 2103). and Declared major in AGCO, COMM, JRNL, PRCM, MDIA, or MDIV or Departmental approval. Topics in communication. Course may be repeated with a change in topic. Course may be repeated for a maximum of 6 credit hours.

COMM 4997 HONORS THESIS (1-3) IND. Pr. Honors College. COMM 3500 and CMJN 2100 and CMJN 2103. and COMM 3600 2.3 GPA. Declared major in AGCO, COMM, JRNL, PRCM, MDIA or MDIV. Course may be repeated for a maximum of 3 credit hours.

COMM 5600 POLITICAL COMMUNICATION (3) LEC. 3. Pr. (CMJN 2100 or CMJN 2103) and COMM 3500 and COMM 3600. This course will examine the communication strategies involved in the varied contexts of politics. Students will be exposed to relevant theories and ideas and asked to apply this knowledge to current political activity. May count either COMM 4600 or COMM 5600.
COMM 6300 SEX, GENDER, AND SPORT (3) LEC. 3. Focuses on sport, as a gendered institution. The course examines intersections of gender with age, sexual orientation, social class, gender identity, race and ethnicity and politics.

COMM 6600 POLITICAL COMMUNICATION (3) LEC. 3. This course will examine the communication strategies involved in the varied contexts of politics. Students will be exposed to relevant theories and ideas and asked to apply this knowledge to current political activity.

COMM 7000 COMMUNICATION THEORY (3) LEC. 3. Critical examination of contemporary theories in communication.

COMM 7010 HISTORICAL, DESCRIPTIVE, AND CRITICAL APPROACHES TO COMMUNICATION RESEARCH (3) LEC. 3. Consideration of the scope and nature of these types of research and their contribution to understanding human communication.

COMM 7020 EMPIRICAL APPROACHES TO COMMUNICATION RESEARCH (3) LEC. 3. Quantitative research in communication; emphasis on understanding and doing empirical research.

COMM 7230 RHETORICAL CRITICISM (3) LEC. 3. Advanced methods in rhetorical criticism, including tools for the analysis of persuasive messages.

COMM 7300 APPROACHES TO STUDYING LANGUAGE AND SOCIAL INTERACTION (3) LEC. 3. Major approaches to studying language and social interaction that collectively make up discourse analysis.

COMM 7410 DEVELOPMENT OF RHETORICAL THEORY (3) LEC. 3. Historical survey of rhetorical theory from ancient to contemporary era; special attention to the role of rhetoric in shaping attitudes towards persuasion.

COMM 7420 SEMINAR IN PERSUASION AND ATTITUDE CHANGE (3) LEC. 3. Critical examination of current theory and research in the persuasive act and its effects.

COMM 7430 SEMINAR IN AMERICAN PUBLIC ADDRESS (3) LEC. 3. Investigation of key issues and debates that have emerged in post-World War II America.

COMM 7440 SEMINAR IN ARGUMENTATION AND DEBATE (3) SEM. 3. Analysis of the fundamental theories of argumentation.

COMM 7450 SEMINAR IN INTRAPERSONAL PROCESSES IN COMMUNICATION (3) SEM. 3. Theories of cognitive and affective processing of information during speaking and listening.

COMM 7460 SEMINAR IN INTERPERSONAL COMMUNICATION (3) SEM. 3. Theories of the structure and function of interpersonal (dyadic) communication focusing on conversational behavior, traits, relationships, and persuasion.

COMM 7470 SEMINAR IN SMALL GROUP COMMUNICATION (3) SEM. 3. Advanced study of the principles of communication as they apply to the small group setting.

COMM 7480 SEMINAR IN ORGANIZATIONAL COMMUNICATION (3) SEM. 3. In-depth approach to the study of communication processes within the setting of modern organizations.

COMM 7490 HEALTH COMMUNICATION (3) LEC. 3. Examination and application of social science research approaches to the study of health communication.

COMM 7500 GENDER COMMUNICATION (3) LEC. 3. Exploration of current theories and research on the relationship between communication and gender.

COMM 7600 MASS COMMUNICATION THEORY (3) LEC. 3. Exploration of major areas of concern to the theoretical study of mass communication and the social impact of mediated messages.

COMM 7610 STUDIES IN POPULAR CULTURE AND MASS COMMUNICATION (3) LEC. 3. Critical approaches to identifying, interpreting and experiencing popular culture texts within historical, cultural and communication contexts.

COMM 7620 BROADCAST PROGRAMMING AND CRITICISM (3) LEC. 3. Exploration of critical, theoretical, and organizational issues relevant to programming and the production of culture within mass media environments.

COMM 7630 MEDIA MANAGEMENT (3) LEC. 3. In-depth analysis of current management issues specific to media managers in a multi-cultural world.
COMM 7640 SEMINAR IN FILM THEORY AND CRITICISM (3) SEM. 3. Exploration of classical and contemporary film theories and criticism.

COMM 7650 THE MASS MEDIA AND AMERICAN POLITICS (3) LEC. 3. Examination of the role of the mass communication system in the American political system.

COMM 7660 CULTURAL STUDIES IN MASS MEDIA (3) LEC. 3. Examination of communication research approaches to the study of culture and media.

COMM 7670 CONTEMPORARY ISSUES IN FIRST AMENDMENT LAW (3) LEC. 3. Exploration of controversial issues and cases in First Amendment Law that have been recently decided, are currently before courts, and have shaped the constitutional landscape in the United States.

COMM 7680 SPORTS, MEDIA, AND CULTURE (3) LEC. 3. Cultural implications of the relationship between sports and media.

COMM 7810 PUBLIC RELATIONS THEORY (3) LEC. 3. Current areas of concern in the theoretical study of public relations.

COMM 7820 PUBLIC RELATIONS CAMPAIGNS (3) LEC. 3. Application of public relations and communication concepts to campaign challenges.

COMM 7830 PUBLIC RELATIONS CASE STUDIES (3) LEC. 3. Examination of research on public relations case studies to provide a theoretical basis for analyzing similar situations in on the job.

COMM 7840 COMMUNICATION TRAINING AND CONSULTING (3) LEC. 3. Theory, concepts, and skills needed to be an effective communication trainer or consultant.

COMM 7930 DIRECTED STUDIES (1-3) IND. Conferences, readings, research, and reports in general communication, mass communication, or public relations. Course may be repeated for a maximum of 3 credit hours.

COMM 7970 SPECIAL TOPICS IN COMMUNICATION (3) SEM. 3. Advanced treatment of contemporary topics, trends, current research findings, and opportunities. Course may be repeated for credit with change in topic.

COMM 7980 NON-THESIS PROJECT IN COMMUNICATION (3-6) LEC. SU. Pr. COMM 7000 and COMM 7010 and COMM 7020. and Minimum 27 graduate hours. Professional experience in communication area of interest. Must include managerial experience. Only 3 hours will apply to the degree.

COMM 7990 RESEARCH AND THESIS (1-6) MST. Course may be repeated with change in topics.

Communication Disorders - CMDS

Courses

CMDS 2500/2503 COMMUNICATION DISORDERS IN SOCIETY (2) LEC. 2. Information on stuttering, speech, language, voice disorders and hearing impairment and how to interact with individuals with communication disorders.

CMDS 3000 INTRODUCTION TO SPEECH PATHOLOGY-AUDIOLOGY (3) LEC. 3. Survey of the field of speech pathology-audiology. Includes history of the profession, the inter-relatedness of the various pathologies, general principles of evaluation and therapy and the profession itself.

CMDS 3400 ANATOMY AND PHYSIOLOGY OF SPEECH (3) LEC. 3. The study of anatomy and physiology of speech production including respiratory, laryngeal and articulatory-resonance systems and the process swallowing. Speech acoustics will be introduced.

CMDS 3410 PHONETICS (3) LEC. 3. Principles of phonetics and their application to speech.

CMDS 3560 NEUROANATOMY FOR COMMUNICATION DISORDERS (3) LEC. 3. Anatomy and physiology of the central nervous system as it relates to speech, language, hearing and swallowing function and disorders.

CMDS 4400 ADULT NEUROGENIC COMMUNICATION DISORDERS (3) LEC. 3. Study of the disorders of speech, language, and swallowing in adults occurring as a result of CNS pathologies and their evaluation and treatment.

CMDS 4510 ARTICULATION DISORDERS (3) LEC. 3. Principles of normal and deviant articulation acquisition.

CMDS 4520 LANGUAGE ACQUISITION (3) LEC. 3. First language acquisition in childhood and its change throughout the life span.
CMDS 4530 FLUENCY DISORDERS (3) LEC. 3. Departmental approval. Principles of fluent and disfluent verbal behavior.

CMDS 4540 VOCAL DISORDERS (3) LEC. 3. Principles of normal and deviant vocal behavior.

CMDS 4560 CHILD AND ADOLESCENT LANGUAGE DISORDER (3) LEC. 3. Pr. CMDS 4520. Departmental approval. Overview of research dealing with the nature, assessment and treatment of language disorders in child and adolescent populations.

CMDS 4580 INTRODUCTION TO CLINICAL PROCEDURES IN SPEECH-LANGUAGE PATHOLOGY (3) LEC. 3, CLN/LEC. 30. Pr. CMDS 4510 and CMDS 4520. Orientation to clinical activities, management methods and preparation of professional reports.

CMDS 4600 INTRODUCTION TO AUDIOLOGY (3) LEC. 3. Principles of auditory reception and the problems involved in measuring, evaluating and conserving hearing.

CMDS 4620 HEARING REHABILITATION (3) LEC. 3. Pr. CMDS 4600. Departmental approval. Rehabilitation problems of children and adults in the area of auditory training, speech reading and speech conservation; includes clinical practice.

CMDS 4650 INTRODUCTION TO CLINICAL PROCEDURES IN AUDIOLOGY (3) LEC. 3. Pr. CMDS 4600. Audiological instrumentation and test procedures.

CMDS 4910 CLINICAL PRACTICUM IN SPEECH-LANGUAGE PATHOLOGY (1) PRA. 1. Pr. CMDS 4580. Departmental approval. Course may be repeated for a maximum of 2 credit hours.

CMDS 4930 DIRECTED STUDY IN COMMUNICATION DISORDERS (1-3) IND. Departmental approval. Directed learning experience in communication disorders involving bibliographic research, writing, gaining expertise with laboratory/clinical procedures or conducting directed research. Course may be repeated for a maximum of 6 credit hours.

CMDS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 3 credit hours.

CMDS 4997 HONORS THESIS (1-3) RES. Pr. Honors College Course may be repeated for a maximum of 6 credit hours.

CMDS 5810 PRIVATE PRACTICE (3) LEC. 3. Concepts and strategies for private practice in the areas of clinical and industrial audiology.

CMDS 7500 CLINICAL PROBLEMS IN SPEECH (1) PRA. 1. Pr. CMDS 4580 and CMDS 4910. Clinical practicum in evaluation and treatment of individuals with speech-language disorders. Course may be repeated for a maximum of 4 credit hours.

CMDS 7510 ADVANCED ARTICULATION/PHONOLOGICAL DISORDERS (3) LEC. 3. Pr. CMDS 4510. Empirical and theoretical bases for articulatory pathologies.

CMDS 7520 LANGUAGE DISORDERS: BIRTH TO FIVE (3) LEC. 3. Empirical and theoretical bases for evaluation and treatment of language disorders for the birth to five population.

CMDS 7530 ADVANCED FLUENCY DISORDERS (3) LEC. 3. Pr. CMDS 4530. Empirical and theoretical bases for dysfluency disorders, diagnoses and therapies.

CMDS 7540 ADVANCED VOICE DISORDERS (3) LEC. 3. Pr. CMDS 4540. Empirical and theoretical bases for voice pathologies, diagnoses and therapies.

CMDS 7550 ADULT APHASIA (3) LEC. 3. Pr. CMDS 4520. Empirical and theoretical bases for adult language disorders associated with CNS pathologies, diagnoses and therapies.

CMDS 7560 CRANIOFACIAL ANOMALIES (3) LEC. 3. A review of syndromic and non-syndromic craniofacial disorders including cleft lip/palate. Assessment and treatment of speech and language problems associated with these anomalies is emphasized.

CMDS 7570 EVALUATION OF RESEARCH IN SPEECH PATHOLOGY AND AUDIOLOGY (3) LEC. 3. Survey of experimental designs and statistical procedures used in speech-language pathology/audiology literature for consumers of research.

CMDS 7600 CLINICAL PROBLEMS IN HEARING (2) LEC. 2. Pr. CMDS 4650 and CMDS 4600 and CMDS 4620. Course may be repeated for a maximum of 12 credit hours.
CMDS 7700 CLINICAL PROBLEM SOLVING I (2) LEC. 2. This course will help students develop problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

CMDS 7720 CLINICAL PROBLEM SOLVING II (2) LEC. 2. This course will promoted advanced problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

CMDS 7740 CLINICAL PROBLEM SOLVING III (2) LEC. 2. This course will promoted advanced problem-solving skills that can be applied to clinical practice in Speech-Language Pathology.

CMDS 7810 MOTOR SPEECH DISORDERS (3) LEC. 3. Pr. CMDS 7800. Empirical and theoretical bases for motor speech disorders, diagnoses and therapies.

CMDS 7820 DYSPHAGIA (3) LEC. 3. Pr. CMDS 7800. The role of speech-language pathology in diagnosing and treating swallowing disorders in children and adults. Emphasis will be placed upon clinical and instrumental assessment and treatment strategies.

CMDS 7840 AUGMENTATIVE AND ALTERNATIVE COMMUNICATION (3) LEC. 3. Process and specific equipment involved in assessment, prescription and intervention with adults and children who are unable to use traditional communication modes.

CMDS 7860 SPEECH SCIENCE (3) LEC. 3. Pr. CMDS 3550. Acoustic properties of speech, physiology and perception of the speech signal, and an orientation to instrumentation used in speech science.

CMDS 7920 INTERNSHIP IN SPEECH-LANGUAGE PATHOLOGY (5) LEC. 5. SU. Completion of all academic course work. Successful completion of comprehensive exams or enrollment in graduate thesis. Course may be repeated for a maximum of 10 credit hours.

CMDS 7930 DIRECTED STUDIES (1-3) IND. Conferences, readings, research or reports in a specialized area of communication disorders. Course may be repeated for a maximum of 3 credit hours.

CMDS 7970 SPECIAL TOPICS SEMINAR (1-3) SEM. Advanced treatment of contemporary topics and trends, as well as current research aspects of audiology and speech-language pathology. Course may be repeated for a maximum of 3 credit hours.

CMDS 7990 RESEARCH AND THESIS (1-5) MST. Course may be repeated with change in topics.

CMDS 8100 HEARING SCIENCE (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Departmental approval. Introduction to instrumentation and calibration of audiometric equipment. Auditory perception in normal-hearing and hearing impaired listeners.

CMDS 8110 AUDITORY PHYSIOLOGY (3) LEC. 3. Pr. CMDS 4600. Departmental approval. Detailed study of the anatomy and physiology of the human auditory, and vestibular system over the lifespan.

CMDS 8120 AUROLOGY CLINICAL METHODS (3) LEC. 3. Use of audiometric equipment, administering audiological tests, recording test results, and interpreting test findings, including otoscopy, and cerumen management.

CMDS 8200 DIAGNOSTIC AUDIOLOGY (3) LEC. 3. Pr. CMDS 4600 and CMDS 4650. Basic and advanced audiometric techniques to assess auditory system's site of lesion, including otoscopy, cerumen management, otoacoustic emissions and immittance.

CMDS 8210 MEDICAL ASPECTS OF HEARING DISORDERS (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Departmental approval. Study of the disorders of hearing including their medical diagnosis, evaluation, and treatment.

CMDS 8220 AMPLIFICATION I (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Departmental approval. Background and development of hearing aids and other amplification systems; performance standards and measurement techniques; selection, fitting and dispensing procedures.

CMDS 8230 CLINICAL LEVEL I (2) LEC. 2. Pr. CMDS 4650. Didactic and practical training for performing audiological testing and patient management including speech and language development and characteristics across lifespan.

CMDS 8300 CENTRAL AUDITORY PROCESSING (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Selected clinical procedures in audiology, including electrophysiologic and behavioral tests of central auditory functioning.

CMDS 8310 AURAL REHABILITATION (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Departmental approval. Psychosocial aspects on hearing loss; clinical and therapeutic management of older persons with hearing disorders including counseling of the hearing-impaired and their families.
CMDS 8320 CLINICAL LEVEL II (2) LEC. 2. Pr. CMDS 8230. Didactic and practical training in use of instrumentation for testing, programming, fitting and verifying amplification.

CMDS 8400 PEDIATRIC AUDIOLOGY (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Departmental approval. Normal development of speech, language and hearing losses' effect on communication, etiologic factors, screening, audiologic assessment, differential diagnosis and clinical management.

CMDS 8410 AURAL HABILITATION (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. The parameters involved in the management of hearing-impaired school-aged children.

CMDS 8420 AMPLIFICATION II (3) LEC. 3. Pr. CMDS 8220. Review of recent trends in hearing aid technology including digital and Programmable instruments.

CMDS 8430 CLINICAL LEVEL III (2) LEC. 2. Pr. CMDS 8230 and CMDS 8320. Didactic and practical training for selection, administration, and interpretation of behavioral and electrophysiologic tests, including auditory processing disorders.

CMDS 8450 ELECTROPHYSIOLOGICAL PROCEDURES IN AUDIOLOGY (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Selected neurophysiological clinical procedures in audiology, including electronystagmography and auditory evoked potentials.

CMDS 8451 CLINICAL LEVEL IV (2) LEC. 2. Pr. CMDS 8230 and CMDS 8320 and CMDS 8430. Didactic and practical training for selecting, conducting, and interpreting tests to identify disorders of balance and other auditory related systems.

CMDS 8452 HEARING CONSERVATION (3) LEC. 3. Pr. CMDS 8310. Studies the effects of noise on auditory system and implementation of hearing conservation programs in industry, schools and the military.

CMDS 8453 EVALUATION OF RESEARCH IN AUDIOLOGY (3) LEC. 3. Survey of experimental designs and statistical procedures used in audiology research.

CMDS 8454 BALANCE DISORDERS (3) LEC. 3. Pr. CMDS 4600 and CMDS 4620. Detailed coverage of the assessment and treatment of patients with balance disorders using nystagmography and other techniques.

CMDS 8455 IMPLANT TECHNOLOGY (3) LEC. 3. Detailed study of the assessment and treatment of patients with cochlear implants.

CMDS 8456 OUTCOME MEASURES IN AUDIOLOGY (3) LEC. 3. Pr. CMDS 6120. Application of research methodology to demonstrate efficacy in clinical service delivery in all areas of audiologic practice.

CMDS 8457 COUNSELING IN AUDIOLOGY (3) LEC. 3. Advanced course in the counseling component of rehabilitative audiology.

CMDS 8458 PROFESSIONAL ISSUES (3) LEC. 3. Legal and ethical issues in clinical audiology.

CMDS 8459 THE NEUROLOGICAL BASES OF COMMUNICATION DISORDERS (3) LEC. 3. Anatomy and physiology of the central nervous system as it relates to speech, language and hearing function and disorders.

CMDS 8460 PRIVATE PRACTICE (3) LEC. 3. Concepts and strategies for private practice in the areas of clinical and industrial audiology.

CMDS 8461 CLINICAL PROBLEMS IN HEARING (2) LEC. 2. Pr. CMDS 4650 and CMDS 4600. Departmental approval. Clinical practicum involving evaluation and management of patients of all ages with disorders of auditory, vestibular, and other auditory related systems.

CMDS 8462 CLINICAL INTERNSHIP (5) INT. 5. SU. Pr. CMDS 8910. Intensive clinical experience at off-campus setting up to 20 hours per week of supervised practicum.

CMDS 8463 CLINICAL RESIDENCY (6) INT. 6. SU. Pr. CMDS 8920. A full time, supervised, nine month residency at an off-campus facility that provides audiological services. Fall, Spring.

CMDS 8464 AUDIOLOGY GRAND ROUNDS (3) LEC. 3. Discussion/Seminar in timely clinical issues in audiology, clinical problem solving and case studies in contemporary audiological service delivery.

CMDS 8465 CAPSTONE PROJECT (1) IND. 1. A third year project involving applied clinical research or development of an innovative clinical procedure.
Communication and Journalism - CMJN

Courses

CMJN 2100/2103 CONCEPTS IN COMMUNICATIONS AND JOURNALISM (3) LEC. 2. LAB. 1. Introduction to the basic principles of various communication forms, the dominant communication theories, and communication industries. May count either CMJN 2100 or CMJN 2103.

CMJN 2910 COMMUNICATION AND JOURNALISM PRACTICUM (1-3) PRA. Departmental Approval. Practical experiences in potential career fields gained while working in professional settings. One to three hours variable credit. Course may be repeated for a maximum of 3 credit hours.

CMJN 3110 SPORTS MEDIA RELATIONS (3) LEC. 3. Focuses on the major concepts and theories of the management sports media relations. Will include discussion of issues, philosophies and cases. May count either sections CMJN 3110 or MDIA 4350.

CMJN 3210 NEWS AND SPORTS ANNOUNCING (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103 or Departmental approval. This class focuses on the theory and practical technique of studio and field announcing. Primary emphasis will be placed on announcing for news and sports. Additional attention will be given to voice over announcing.

CMJN 3350/3353 VISUAL COMMUNICATION (3) LEC. 3. Visual literacy, cognition, aesthetics, critical evaluation, and technology in human communication, with emphasis on impact of visual media in informative, interpretive, and persuasive message.

CMJN 3410 INTRODUCTION TO SPORTS VIDEO PRODUCTION (3) LEC. 2, LST. 1. Introduction to multi-camera live sports production, video and audio editing techniques, how to operate equipment, create basic animated graphics, learn work crew positions and understand a script. Students will complete work for the SEC Network and War Eagle Productions.

CMJN 3650 RHETORIC OF SPORTS (3) LEC. 3. Examination of sports in the public sphere, using rhetorical theories to understand how sports contribute to social issues such as identity, community, ethnicity, gender, and politics. May count either CMJN 3650 or COMM 3650.

CMJN 4000 MASS MEDIA LAW AND REGULATION (3) LEC. 3. Pr. CMJN 2100 or CMJN 2103. and junior or senior standing. Laws and regulations that govern journalists, media content and industries.

CMJN 4410 ADVANCED SPORTS VIDEO PRODUCTION (3) LEC. 2, LST. 1. Pr. CMJN 3410. This course is designed to give students in-depth training that covers advanced video editing techniques and effects. In addition, students will gain experience with advanced camera operation and techniques, focusing on high-quality production throughout the process.

CMJN 4430/4433 SPORTS, MEDIA AND SOCIETY (3) LEC. 3. Cultural and professional implications of the relationship between sports and media. May count either CMJN 4430 or JRNL 4430.

CMJN 4970 SPECIAL TOPICS IN COMMUNICATION AND JOURNALISM (3) LEC. 3. Specialized topics related to the study and practice of Communication, Journalism, Media Studies and/or Public Relations.

Community Planning - CPLN

Courses

CPLN 5000 HISTORY AND THEORY OF URBAN FORM (3) LEC. 3. The vocabulary and historical development of urban design, focusing on the environmental and cultural forces that design, shape, build, and redevelop the urban fabric.

CPLN 5010 INTRODUCTION TO COMMUNITY PLANNING (3) LEC. 3. Examines the basic principles of community design and planning, and introduces areas of specialization with the professional of planning.

CPLN 5040 LAND USE PLANNING (3) SEM. 3. Students will develop the critical and analytical skills, as well as analyze relevant literature, that will arm them with the necessary tools in order to implement, administer, and analyze a wide range of plans.

CPLN 5050 LAND AND URBAN ECONOMICS (3) LEC. 3. Examines the historical development and contemporary functioning of cities from an economic perspective, with focus on land use and transportation.

CPLN 5060 TRANSPORTATION AND MOBILITY (3) SEM. 3. Program approval for non-majors and ABM students. This topical seminar addresses issues related to transportation and mobility within the context of sustainable, healthy cities. Specific course content may vary from semester to semester. May count either CPLN 5060 or CPLN 6060.
CPLN 5070 PLANNING AND THE ENVIRONMENT (3) SEM. 3. Program approval for ABM students and non-majors. Addresses issues related to land use, environmental impact and policy, and sustainability. Specific course content may vary from semester to semester. May count either CPLN 5070 or CPLN 6070.

CPLN 5080 HOUSING AND NEIGHBORHOOD CONSERVATION (3) SEM. 3. Program approval for ABM students and non-majors. This topical seminar addresses planning issues related to housing and neighborhood conservation. Specific course content may vary from semester to semester. May count either CPLN 5080/6080.

CPLN 5090 COMMUNITY AND ECONOMIC DEVELOPMENT (3) SEM. 3. Program approval for ABM students and non-majors. Planning issues related to community and economic development content may vary from semester to semester. May count either CPLN 5090 or CPLN 6090.

CPLN 5400 PRESERVATION PLANNING (3) LEC. 3. Planning for the preservation, restoration, conservation, adaptive reuse of historic buildings, sites and districts within the comprehensive planning process.

CPLN 5450 PLANNING HISTORY AND THEORY (3) LEC. 3. This course provides future practitioners with the theoretical and historical tools and knowledge to effective in the planning field. May count either CPLN 5450 or CPLN 6450.

CPLN 5460 DIGITAL APPLICATIONS (3) LEC. 3. Program approval for non-majors and ABM students. Basic concepts of geographic information systems and digital planning applications. Emphasis on spatial decision-making and visualization of planning scenarios. May count with CPLN 5460 or CPLN 6460.

CPLN 5970 SPECIAL TOPICS: CURRENT ISSUES IN PLANNING (3) LEC. 3. Elective seminar addresses current issues in planning. May count either CPLN 5970 or CPLN 6970.

CPLN 6000 HISTORY AND THEORY OF URBAN FORM (3) LEC. 3. The vocabulary and historical development of urban design, focusing on the environmental and cultural forces that design, shape, build, and redevelop the urban fabric.

CPLN 6010 INTRODUCTION TO COMMUNITY PLANNING (3) LEC. 3. Examines the basic principles of community design and planning, and introduces areas of specialization with the professional of planning.

CPLN 6040 LAND USE PLANNING (3) SEM. 3. Students will develop the critical and analytical skills, as well as analyze relevant literature, that will arm them with the necessary tools in order to implement, administer, and analyze a wide range of plans.

CPLN 6050 LAND AND URBAN ECONOMICS (3) LEC. 3. Examines the historical development and contemporary functioning of cities from an economic perspective, with focus on land use and transportation.

CPLN 6060 TRANSPORTATION AND MOBILITY (3) SEM. 3. Program approval for non-majors and ABM students. This topical seminar addresses issues related to transportation and mobility within the context of sustainable, healthy cities. Specific course content may vary from semester to semester. May count either CPLN 5060 or CPLN 6060.

CPLN 6070 PLANNING AND THE ENVIRONMENT (3) SEM. 3. Program approval for ABM students and non-majors. Addresses issues related to land use, environmental impact and policy, and sustainability. Specific course content may vary from semester to semester. May count either CPLN 5070 or CPLN 6070.

CPLN 6080 HOUSING AND NEIGHBORHOOD CONSERVATION (3) SEM. 3. Program approval for ABM students and non-majors. This topical seminar addresses planning issues related to housing and neighborhood conservation. Specific course content may vary from semester to semester. May count either CPLN 5080 or CPLN 6080.

CPLN 6090 COMMUNITY AND ECONOMIC DEVELOPMENT (3) SEM. 3. Program approval for ABM students and non-majors. Planning issues related to community and economic development. Content may vary from semester to semester. May count either CPLN 5090 or CPLN 6090.

CPLN 6100 URBAN DESIGN METHODS (3) LEC. 3. Techniques and methodologies in urban design problem-solving and strategies for implementation.

CPLN 6400 PRESERVATION PLANNING (3) LEC. 3. Planning for the preservation, restoration, conservation and adaptive reuse of historic buildings, sites and districts within the comprehensive planning process.

CPLN 6450 PLANNING HISTORY AND THEORY (3) LEC. 3. This course provides future practitioners with the theoretical and historical tools and knowledge to effective in the planning field. May count either CPLN 5450 or CPLN 6450.
CPLN 6460 DIGITAL APPLICATIONS (3) LEC. 3. Program approval for non-majors and ABM students. Basic concepts of geographic information systems and digital planning applications. Emphasis on spatial decision-making and visualization of planning scenarios. May count with CPLN 5460 or CPLN 6460.

CPLN 6970 SPECIAL TOPICS: CURRENT ISSUES IN PLANNING (3) LEC. 3. Elective seminar addresses current issues in planning. May count either CPLN 5970 or CPLN 6970.

CPLN 7200 URBAN DESIGN STUDIO (3) STU. 3. Basic principles of urban design are explored, with an emphasis on the planner's role in shaping the built environment. Exercises and projects provide hands-on experience in making good urban places.

CPLN 7240 QUANTITATIVE METHODS FOR PLANNING (3) LEC. 3. Development of working knowledge of planning techniques such as data collection, basic statistics, demographic analysis, economic analysis, social research, transportation, and evaluation.

CPLN 7430 PLANNING LAW AND ETHICS (3) LEC. 3. This course covers three key elements of the planning profession: ethics, law and plan implementation.

CPLN 7600 SYNTHESIS STUDIO I (3) STU. 3. Pr. CPLN 7400. Serves as the primary opportunity for the student to demonstrate their competency in community design and planning by translating knowledge into action through the development of a practical plan.

CPLN 7610 SYNTHESIS STUDIO 2 (3) STU. 3. This class is the second required plan-making studio in the Master of Community Planning Program. Synthesis Studio 2 is the second in a two-semester series of classes that will critically consider a real-world planning project involving a city. Course may be repeated for a maximum of 6 credit hours.

CPLN 7800 SYNTHESIS PROJECT (6) AAB/STU. 12. Departmental approval. Demonstration of competence in community planning and design through production of an original, comprehensive project that integrates knowledge and experience in addressing a complex planning and design problem.

CPLN 7920 PLANNING INTERNSHIP (1-6) AAB/INT. Departmental approval. Professional experience in public, private or non-profit planning or planning-related agency.

**Community and Civic Engagement - CCEN**

**Courses**

CCEN 2000 INTRODUCTION: COMMUNITY AND CIVIC ENGAGEMENT (3) LEC. 3. Introduction to Community and Civic Engagement introduces students to the context, issues, skills, and experience of citizenship and civic leadership in a democratic society.

CCEN 2100 WOMEN AND LEADERSHIP (3) LEC. 3. An interactive exploration of the social, political, economic, and cultural implications of women's current and historic leadership roles.

CCEN 3000 CAPSTONE IN COMMUNITY AND CIVIC ENGAGEMENT (1) PRA. 1. SU. Completion of 15 credits toward Minor in Community and Civic Engagement. This course is required for minors in CEE. The capstone requires students to draw upon the knowledge obtained throughout their coursework and to perform relevant service projects.

CCEN 5100 ENGAGE, INTERACT, LEAD (3) LEC. 3. Pr. CCEN 2000. An interactive exploration of classic texts of leadership, civic engagement and daily reading resources available through social media.

CCEN 6100 ENGAGE, INTERACT, LEAD (3) LEC. 3. Pr. CCEN 2000. An interactive exploration of classic texts of leadership, civic engagement and daily reading resources available through social media.

CCEN 7900 COMMUNITY LEADERSHIP PRACTICUM (3) LEC. 3. This course provides graduates in CCL an opportunity to integrate course content, personal commitments, and real world experience. Completion of 9 credits toward Graduate Certificate in Collaborative Community Leadership.

**Computer Sci & Software En - COMP**

**Courses**

COMP 1000/1003 PERSONAL COMPUTER APPLICATIONS (2) LEC. 2. Introduction to personal computers and software applications, including word processing, spreadsheets, databases, and presentation graphics; generation and retrieval of information with the Internet; integration of data among applications.
COMP 1200 INTRODUCTION TO COMPUTING FOR ENGINEERS AND SCIENTISTS (2) LEC. 2. Computer programming in a high-level language, with emphasis on use of the computer as a tool for engineering or science.

COMP 1201 INTRODUCTION TO COMPUTING LABORATORY (1) LAB. 2. Coreq. COMP 1200. Laboratory activities focused on computer programming in a high-level language.

COMP 1210 FUNDAMENTALS OF COMPUTING I (3) LEC. 2. LAB. 3. Introduction to the fundamental concepts of programming from an object-oriented perspective. Emphasis on good software engineering principles and development of the fundamental programming skills in the context of a language that supports the object-oriented paradigm.

COMP 1217 HONORS FUNDAMENTALS OF COMPUTING I (3) LEC. 2. LAB. 3. Pr. Honors College Introduction to the fundamental concepts of programming from an object-oriented perspective. Emphasis on good software engineering principles and development of the fundamental programming skills in the context of a language that supports the object-oriented paradigm.

COMP 1AA0 COMPUTER COMPETENCY TEST (0) TST. SU. A comprehensive test of all material covered in COMP 1000 and COMP 1003.

COMP 2000 NETWORK PROGRAMMING WITH HTML AND JAVA (3) LEC. 3. Pr. COMP 1000 or COMP 1003 or ENGR 1110 or ENGR 1113. Introduction to network programming using HTML and Java to build web pages and web-based applications; presentation graphics; retrieval of information from the Internet; integration of data among applications. Pr., COMP 1000 or higher, or ENGR 1110.

COMP 2210 FUNDAMENTALS OF COMPUTING II (4) LEC. 3. LAB. 3. Pr. COMP 1210 or COMP 1217. Software development in the context of collections (e.g., lists, trees, graphs, hashtables). Communication, teamwork, and a design experience are integral course experience.

COMP 2710 SOFTWARE CONSTRUCTION (3) LEC. 3. Pr. COMP 2210. Intensive experience in software construction, to include topics such as testing, debugging, and associated tools; configuration management; low-level file and device I/O; systems and event-driven programming.

COMP 3000 OBJECT-ORIENTED PROGRAMMING FOR ENGINEERS AND SCIENTISTS (3) LEC. 3. Pr., Departmental approval. Fundamentals of object-oriented design and programming principles; data abstraction, identifying objects, problem decomposition, design and implementation of classes. Credit for the major will not be given to CSCI and SWEN, and WIRS majors.

COMP 3010/3013 SPREADSHEET-BASED APPLICATIONS WITH VISUAL BASIC (3) LEC. 2. LAB. 3. Pr. A grade of D or higher in COMP 1200-3000 COMP 1200 or higher. Design and implementation of applications such as simulations, spreadsheet front-ends for modeling, interfaces to databases, and multimedia applications.

COMP 3220 PRINCIPLES OF PROGRAMMING LANGUAGES (3) LEC. 3. Pr. COMP 2210. Study of programming language principles supporting procedural abstraction, data abstraction, storage allocation, and parallel execution; language types and examples; language translations.

COMP 3240 DISCRETE STRUCTURES (3) LEC. 3. Pr. COMP 1210 or COMP 1217. Characterization of computer science data structures and algorithms in terms of sets and relations, functions, recurrence relations. Use of propositional and predicate calculus to describe algorithms. Proving correctness and running time bounds for algorithms by induction and structural induction.

COMP 3270 INTRODUCTION TO ALGORITHMS (3) LEC. 3. Pr. COMP 3240 and COMP 2210. Algorithms for standard computational problems and techniques for analyzing their efficiency; designing efficient algorithms and experimentally evaluating their performance.

COMP 3350 COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE PROGRAMMING (3) LEC. 3. Pr. ELEC 2200 or ELEC 2210. Stored Program Computers, hardware and software components; data representation, instruction sets, addressing modes; assembly language programming; linkers, loader, and operating systems.

COMP 3500 INTRODUCTION TO OPERATING SYSTEMS (3) LEC. 3. Pr. COMP 2710 and (COMP 3350 or ELEC 2220). Structure and functions of operating systems; processes and process scheduling; synchronization and mutual exclusion; memory management; auxiliary storage management; resource allocation and deadlock; security, privacy, and ethical concerns; design tradeoffs.

COMP 3510 EMBEDDED SYSTEMS DEVELOPMENT (3) LEC. 3. Pr. COMP 2710 and (COMP 3350 or ELEC 2220). Operating system design and analysis for embedded systems: Real-time issues, resource management, scheduling, exception handling, device driver development, kernel development, synchronization, network support.
COMP 3700 SOFTWARE MODELING AND DESIGN (3) LEC. 3. Pr. COMP 2710. Current processes, methods, and tools related to modeling and designing software systems. Communication, teamwork, and a design experience are integral course experiences.

COMP 3710 WIRELESS SOFTWARE ENGINEERING (3) LEC. 3. Pr. COMP 2710. Software engineering for wireless applications: specification, process, testing, and performance evaluation. Design and development of wireless application layer software, including current protocols.

COMP 4000 SYSTEMS ADMINISTRATION FOR INFORMATION TECHNOLOGY (3) LEC. 3. Pr. COMP 2000 or Departmental approval. Principles and techniques of systems administration, including configuration of mail, file servers, print servers, databases systems, and networks.

COMP 4200 FORMAL LANGUAGES (3) LEC. 3. Pr. COMP 3240. Fundamentals of formal languages including mathematical models of regular sets, context-free languages and Turing machines; deterministic and non-deterministic models.

COMP 4270 ADVANCED ALGORITHMS (3) LEC. 3. Pr. COMP 3270 or Departmental approval. Fundamentals of designing and analyzing advanced algorithms. Algorithm design theory; computational complexity; relationship of data structures to algorithm design; study of design strategies including divide-and-conquer, the greedy method, and dynamic programming.

COMP 4300 COMPUTER ARCHITECTURE (3) LEC. 3. Pr. COMP 3350. Comparison of computer architectures, emphasizing the relationships between system software and hardware. Includes processor control and datapath organization, memory subsystem design, instruction set design, processor simulation, and quantitative analysis of computer performance.

COMP 4320 INTRODUCTION TO COMPUTER NETWORKS (3) LEC. 3. Pr. COMP 3500 or COMP 3510 or Departmental approval. Fundamentals of computer networks, OSI model, LAN, WAN, packet transmission, interworking, Internet Protocol, WWW and Java technology.

COMP 4650 INTERFACE DESIGN FOR WIRELESS APPLICATIONS (3) LEC. 3. Pr. COMP 3270. Principles of user interface design, usability, for wireless devices: Consequences of low bandwidth network connections for interface design; consequences of battery power, small screen, other limited resources on interface design; case studies; design project using technology such as WAP.

COMP 4710 SENIOR DESIGN PROJECT (3) LEC. 3. Pr. COMP 3700 or COMP 3710. Development of requirement definitions, architectural design specification, detailed design specification, testing plan and documentation for the software and/or hardware components of a comprehensive project.

COMP 4730 COMPUTER ETHICS (1) LEC. 1. Pr. (PHIL 1020 or PHIL 1023 or PHIL 1027) or PHIL 1040. Application of ethical principles to computing-related topics, including privacy, property rights, autonomy, access, and diversity. Communication and teamwork are integral course experiences.

COMP 4960 SPECIAL PROBLEMS (1-4) IND. Course may be repeated for a maximum of 6 credit hours.

COMP 4970 SPECIAL TOPICS (3-4) LEC. Departmental approval. Investigation of current topics in computer science and software engineering. Course may be repeated for a maximum of 6 credit hours.

COMP 4997 HONORS THESIS (3-6) IND. Pr. Honors College. Departmental approval. Individual student endeavor consisting of directed research and writing of honors thesis. Course may be repeated for a maximum of 6 credit hours.

COMP 5000 WEB APPLICATION DEVELOPMENT (3) LEC. 3. Departmental approval. Design and implementation of web sites and associated applications. Emphasis on user interface design and information organization and presentation. Fall, Spring.

COMP 5010 INTERACTIVE APPLICATIONS IN VISUAL BASIC (3) LEC. 3. Pr. COMP 5000. Departmental approval. Design and implementation of applications like simulations, front-ends to Excel for modeling, interfaces to databases and multimedia applications.

COMP 5020 ADVANCED WEB APPLICATION DEVELOPMENT (3) LEC. 3. Pr. COMP 5000. Departmental approval. Design and implementation of interactive web applications in Java as applets and servlets. Use of concepts like security, internationalization, multi-threading and server/client architectures.

COMP 5030 OBJECT-ORIENTED TECHNOLOGIES (3) LEC. 3. Pr. COMP 5000. Departmental approval. Object-oriented design and implementation of a variety of applications including databases and intelligent agents with one or more object-oriented programming language.

COMP 5120 DATABASE SYSTEMS I (3) LEC. 3. Pr. COMP 3270. Theoretical and applied issues related to the analysis, design, and implementation of relational database systems.
COMP 5200 THEORETICAL COMPUTER SCIENCE (3) LEC. 3. Pr. COMP 4200. Departmental approval. The nature of the recursive sets and recursively enumerable sets. Decidability. Context-sensitive grammars and linear-bounded automata, including closure properties; oracles; reduction; the arithmetic hierarchy; the analytic hierarchy.

COMP 5210 COMPILER CONSTRUCTION (3) LEC. 3. Pr. COMP 4200 and COMP 3220. Compiler organization; lexical analysis; parsing; syntax- direction translation; symbol tables; basic dependence analysis; intermediate forms; interpreters vs. compilers; runtime storage management; code generation; error detection and recovery.

COMP 5220 ADVANCED TOPICS IN PROGRAMMING LANGUAGES (3) LEC. 3. Pr. COMP 3220. Advanced topics in programming language concepts, design, and implementation.

COMP 5230 DECLARATIVE PROGRAMMING LANGUAGES AND PRINCIPLES (3) LEC. 3. Pr. COMP 3220. Functional and logic programming theoretical foundations, models and implementation issues; example language studies.

COMP 5280 OBJECT ORIENTED PROGRAMMING LANGUAGES AND PRINCIPLES (3) LEC. 3. Pr. COMP 3220. Object oriented language principles and study of the language support for these principles. Example languages and distributed object programming principles.

COMP 5330 PARALLEL AND DISTRIBUTED COMPUTING (3) LEC. 3. Pr. COMP 3500 or COMP 3510. Overview of hardware and software issues in parallel systems: fundamental parallel architectures, programming languages, tools and algorithms, parallel applications.

COMP 5340 NETWORK QUALITY ASSURANCE AND SIMULATION (3) LEC. 3. Pr. COMP 4320 or ELEC 5220. Theoretical and practical aspects of network simulation and quality assurance.

COMP 5350 DIGITAL FORENSICS (3) LEC. 3. Pr. COMP 2710 or ISMN 3080 or (MNGT 3080 or MNGT 3087). Departmental approval. Computer compromise and forensics, with focus on computer crime and ways to uncover, protect, and exploit digital evidence.

COMP 5360 WIRELESS AND MOBILE NETWORKS (3) LEC. 3. Pr. COMP 4320. Departmental approval. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless TCP personal communication systems, and GSM.

COMP 5380 PERSONAL AREA NETWORKS (3) LEC. 3. Pr. COMP 4320 or ELEC 5220. Fundamentals of very low power, short-range high-bandwidth personal network technologies such as Bluetooth and direct diffusion.

COMP 5390 3G AND 4G WIRELESS (3) LEC. 3. Pr. P/C COMP 5360 or P/C ELEC 5110. Exploration of technology types, design issues for handset and network systems, economics. Exploration of standards such as CT2, CT3, IS-91A. Future challenges for 4G.

COMP 5400 FUNDAMENTALS OF COMPUTER GRAPHICS (3) LEC. 3. Pr. COMP 2710 and MATH 2660. Graphics hardware and software components, coordinate systems, 2-D and 3-D transformations, 3-D viewing and projection, clipping and windowing, scan conversion and algorithms, visibility determination and shadowing, and software projects using a graphics software package.

COMP 5500 DISTRIBUTED OPERATING SYSTEMS (3) LEC. 3. Pr. COMP 4320. Basic concepts of distributed systems. Concurrent process communication and synchronization mechanisms, distributed process scheduling, distributed file systems, distributed shared memory, distributed system security and case studies.

COMP 5510 NETWORKED MULTIMEDIA SYSTEMS (3) LEC. 3. Pr. COMP 4320. Departmental approval. Basic concepts, architecture and design of networked multimedia systems.

COMP 5520 NETWORK AND OPERATING SYSTEM ADMINISTRATION (3) LEC. 3. Pr. COMP 4320. Studies of the installation, configuration and management of traditional, distributed and networked system software. Network integration of different systems. Performance monitoring, safety and security issues together with policies, politics and the laws regarding system software management.
COMP 5600 ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. COMP 3270 and COMP 4640. Departmental approval. Introduction to intelligent agents, search knowledge representation and reasoning, machine learning.

COMP 5610 ARTIFICIAL INTELLIGENCE PROGRAMMING (3) LEC. 3. Pr. COMP 5600. Departmental approval. Design and implementation of advanced artificial intelligence techniques including expert systems, planning, logic, and constraint programming, knowledge representation and heuristic search methods.

COMP 5620 USER INTERFACE DESIGN AND EVALUATION (3) LEC. 3. Pr. COMP 4640. Departmental approval. Theory and practice of designing interfaces for interactive systems, usability engineering techniques; implementing and evaluating interfaces.

COMP 5640 INTELLIGENT AND INTERACTIVE SYSTEMS (3) LEC. 3. Pr. COMP 3270. Theory and design of intelligent and interactive software; treatments of intelligent agents and human-computer interaction.

COMP 5700 SOFTWARE PROCESS (3) LEC. 3. Pr. COMP 3700 or COMP 3710. Departmental approval. Process models of the software life cycle as well as methods and tools for software development.

COMP 5710 SOFTWARE QUALITY ASSURANCE (3) LEC. 3. Pr. COMP 3700 or COMP 3710. Departmental approval. Processes, methods, and tools associated with the production of robust, high-quality software.

COMP 5720 REAL TIME AND EMBEDDED SYSTEMS (3) LEC. 3. Pr. COMP 3500 or COMP 3510. Concepts of real-time and embedded computer systems. Studies of real-time algorithm issues such as timeliness, time-constrained scheduling and communication. Embedded system issues such as limited memory, low power, and high latency communication. Fall, Spring.

COMP 6000/6006 WEB APPLICATION DEVELOPMENT (3) LEC. 3. Departmental approval. Design and implementation of web sites and associated applications. Emphasis on user interface design and information organization and presentation. Fall, Spring.

COMP 6010/6016 INTERACTIVE APPLICATIONS IN VISUAL BASIC (3) LEC. 3. Pr. COMP 6000 or COMP 6006. Departmental approval. Design and implementation of applications like simulations, front-ends to Excel for modeling, interfaces to databases and multimedia applications.

COMP 6020/6026 ADVANCED WEB APPLICATION DEVELOPMENT (3) LEC. 3. Pr. COMP 6000 or COMP 6006. Departmental approval. Design and implementation of interactive web applications in Java as applets and servlets. Use of concepts like security, internationalization, multi-threading and server/client architectures. Fall, Spring.

COMP 6030/6036 OBJECT-ORIENTED TECHNOLOGIES (3) LEC. 3. Pr. COMP 6000 or COMP 6006. Departmental approval. Object-oriented design and implementation of a variety of applications including databases and intelligent agents with one or more object-oriented programming language.

COMP 6120/6126 DATABASE SYSTEMS I (3) LEC. 3. Departmental approval. Theoretical and applied issues related to the analysis, design, and implementation of relational database systems.

COMP 6200/6206 THEORETICAL COMPUTER SCIENCE (3) LEC. 3. Departmental approval. The nature of the recursive sets and recursively enumerable sets. Decidability. Context-sensitive grammars, and linear-bounded automata, including closure properties; oracles; reduction; the arithmetic hierarchy; the analytic hierarchy.

COMP 6210/6216 COMPILER CONSTRUCTION (3) LEC. 3. Departmental approval. Compiler organization; lexical analysis; parsing; syntax- direction translation; symbol tables; basic dependence analysis; intermediate forms; interpreters vs. compilers; run-time storage management; code generation; error detection and recovery.

COMP 6220/6226 ADVANCED TOPICS IN PROGRAMMING LANGUAGES (3) LEC. 3. Departmental approval. Advanced topics in programming language concepts, design, and implementation.

COMP 6230/6236 DECLARATIVE PROGRAMMING LANGUAGES AND PRINCIPLES (3) LEC. 3. Departmental approval. Functional and logic programming theoretical foundations, models and implementation issues; example language studies.

COMP 6280/6286 OBJECT ORIENTED PROGRAMMING LANGUAGES AND PRINCIPLES (3) LEC. 3. Departmental approval. Object oriented language principles and study of the language support for these principles. Example languages distributed object programming principles.

COMP 6320/6326 DESIGN AND ANALYSIS OF COMPUTER NETWORKS (3) LEC. 3. Departmental approval. Computer networks design, including multiplexing, switching, routing, internetworking, transport protocols, congestion control, and performance evaluation.
COMP 6330/6336 PARALLEL AND DISTRIBUTED COMPUTING (3) LEC. 3. Departmental approval. Overview of hardware and software issues in parallel systems: fundamental parallel architectures, programming languages, tools and algorithms, parallel applications.

COMP 6340/6346 NETWORK QUALITY ASSURANCE AND SIMULATION (3) LEC. 3. Departmental approval. Theoretical and practical aspects of network simulation and quality assurance.

COMP 6350/6356 DIGITAL FORENSICS (3) LEC. 3. Pr. COMP 2710 or ISMN 3080 or (MNGT 3080 or MNGT 3087). Departmental approval. Computer compromise and forensics, with focus on computer crime and ways to uncover, protect, and exploit digital evidence.

COMP 6360/6366 WIRELESS AND MOBILE NETWORKS (3) LEC. 3. Departmental approval. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless TCP personal communication systems, and GSM.

COMP 6380/6386 PERSONAL AREA NETWORKS (3) LEC. 3. Departmental approval. Fundamentals of very low power, short-range high-bandwidth personal network technologies such as Bluetooth and direct diffusion.

COMP 6390/6396 3G AND 4G WIRELESS (3) LEC. 3. Pr. P/C COMP 6360 or COMP 6366 or P/C ELEC 6110 or ELEC 6116. Departmental approval. Exploration of technology types, design issues for handset and network systems, economics. Exploration of standards such as CT2, CT3, IS-91A. Future challenges for 4G.

COMP 6400/6406 FUNDAMENTALS OF COMPUTER GRAPHICS (3) LEC. 3. Departmental approval. Graphics hardware and software components, coordinate systems, 2-D and 3-D transformations, 3-D viewing and projection, clipping and windowing, scan conversion and algorithms, visibility determination and shadowing, and software projects using a graphics software package.

COMP 6500/6506 DISTRIBUTED OPERATING SYSTEMS (3) LEC. 3. Departmental approval. Basic concepts of distributed systems. Concurrent process communication and synchronization mechanisms, distributed process scheduling, distributed file systems, distributed shared memory, distributed system security and case studies.

COMP 6510/6516 NETWORKED MULTIMEDIA SYSTEMS (3) LEC. 3. Departmental approval. Basic concepts, architecture and design of networked multimedia systems.

COMP 6520/6526 NETWORK AND OPERATING SYSTEM ADMINISTRATION (3) LEC. 3. Departmental approval. Studies of the installation, configuration and management of traditional, distributed and networked system software. Network integration of different systems. Performance monitoring, safety and security issues together with policies, politics and the laws regarding system software management.

COMP 6600/6606 ARTIFICIAL INTELLIGENCE (3) LEC. 3. Departmental approval. Introduction to intelligent agents, search knowledge representation and reasoning, machine learning.

COMP 6610/6616 ARTIFICIAL INTELLIGENCE PROGRAMMING (3) LEC. 3. Pr. COMP 6600 or COMP 6606. Departmental approval. Design and implementation of advanced artificial intelligence techniques including expert systems, planning, logic and constraint programming, knowledge representation and heuristic search methods.

COMP 6620/6626 USER INTERFACE DESIGN AND EVALUATION (3) LEC. 3. Departmental approval. Theory and practice of designing interfaces for interactive systems, usability engineering techniques; implementing and evaluating interfaces.

COMP 6640/6646 INTELLIGENT AND INTERACTIVE SYSTEMS (3) LEC. 3. Pr. COMP 3270. Theory and design of intelligent and interactive software; treatments of intelligent agents and human-computer interaction.

COMP 6700/6706 SOFTWARE PROCESS (3) LEC. 3. Departmental approval. Process models of the software life cycle as well as methods and tools for software development.

COMP 6710/6716 SOFTWARE QUALITY ASSURANCE (3) LEC. 3. Departmental approval. Processes, methods, and tools associated with the production of robust, high-quality software.
COMP 6720/6726 REAL TIME AND EMBEDDED SYSTEMS 125 (3) LEC. 3. Departmental approval. Concepts of real-time and embedded computer systems. Studies of real-time algorithm issues such as timeliness, time-constrained scheduling and communication. Embedded system issues such as limited memory, low power, and high latency communication. Fall, Spring.

COMP 7120/7126 DATABASE SYSTEMS II (3) LEC. 3. Pr. COMP 6120 or COMP 6126. Departmental approval. Theoretical and applied issues related to the analysis, design, and implementation of object-oriented database systems.

COMP 7270/7276 ADVANCED TOPICS IN ALGORITHMS (3) LEC. 3. Departmental approval. In-depth study of advanced topics in algorithms.

COMP 7300/7306 ADVANCED COMPUTER ARCHITECTURE (3) LEC. 3. Departmental approval. Modern instruction level parallel computer design, including superscalar and very-long instruction word processor design.

COMP 7310/7316 VLSI CAD TOOL DESIGN (3) LEC. 3. Pr. COMP 6210 or COMP 6216. Departmental approval. Design of CAD tools for VLSI design, including high-level synthesis and hardware-software co-design, logic synthesis, floor planning, optimization, placement and routing. Software development of a CAD tool as a comprehensive project.

COMP 7320/7326 ADVANCED COMPUTER NETWORKS (3) LEC. 3. Pr. COMP 6320 or COMP 6326. Departmental approval. Advanced network topics, including ISDN, ATM, active networks, security, Internet, wireless and mobile networks, and network management.

COMP 7330/7336 TOPICS IN PARALLEL AND DISTRIBUTED COMPUTING (3) LEC. 3. Pr. COMP 6330 or COMP 6336. Departmental approval. Parallel programming languages, environments and tools, parallel algorithms performance issues, distributed memory systems, group communication, fault tolerance.

COMP 7340/7346 HIGH SPEED NETWORKS (3) LEC. 3. Pr. COMP 6320 or COMP 6326. Departmental approval. High-speed networks design, including ATM and gigabit Ethernets, quality of service, ATM traffic, congestion control ATM switching, and signaling.

COMP 7350/7356 MULTIMEDIA NETWORKING (3) LEC. 3. Pr. COMP 6320 or COMP 6326. Departmental approval. Multimedia network requirements, coding, compression, multicast, traffic shaping and analysis, quality of service, scheduling, buffer design and congestion control.

COMP 7360/7366 WIRELESS AND MOBILE NETWORKS (3) LEC. 3. Pr. COMP 6320 or COMP 6326. Departmental approval. Mobile IP, wireless routing, location management, ad-hoc wireless networks, wireless TCP, personal communication systems, and GSM.

COMP 7370/7376 ADVANCED COMPUTER AND NETWORK SECURITY (3) LEC. 3. Pr. COMP 6370 or COMP 6376. Departmental approval. Advanced, research-based examination of computer network attack and defense techniques, viruses and other malware; operating system vulnerabilities and safeguards.

COMP 7400/7406 ADVANCED COMPUTER GRAPHICS (3) LEC. 3. Pr. COMP 6400 or COMP 6406. Departmental approval. Advanced 3-D topics including visual realism issues, visible surface determination algorithms, illumination and shading models, surface and solid modeling, advanced modeling techniques, special purpose graphics architectures, and animation. Software projects will be assigned.

COMP 7440 SIMULATION OF COMPUTER NETWORKS (3) LEC. 3. Departmental approval. Research-based examination of network simulation, including TCP/IP networks, wireless networks and verification and validation of a network simulation.
COMP 7500/7506 ADVANCED TOPICS IN OPERATING SYSTEMS (3) LEC. 3. Pr. COMP 6500 or COMP 6506. Departmental approval. Advanced topics in operating system concepts, design and implementation.

COMP 7600/7606 COMPUTATIONAL INTELLIGENCE (3) LEC. 3. Pr. COMP 6600 or COMP 6606. Departmental approval. A study of computational intelligence with emphasis on the design and implementation of neural, genetic and fuzzy computing techniques.

COMP 7610/7616 COMPUTATIONAL COGNITION (3) LEC. 3. Pr. COMP 6600 or COMP 6606. Departmental approval. Computational models of cognition, including knowledge representations and process mechanisms like means-ends analysis, semantic networks, frames.

COMP 7620/7626 HUMAN-COMPUTER INTERACTION (3) LEC. 3. Departmental approval. Coreq. COMP 6620. Theoretical principles and practical aspects of interaction between humans and computers, design and evaluation of interactive systems.

COMP 7700/7706 SOFTWARE ARCHITECTURE (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Methods and tools related to the analysis, specification and design of software architecture.

COMP 7710/7716 SOFTWARE ENVIRONMENTS (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Issues associated with the design, implementation, and use of software engineering environments.

COMP 7720/7726 SOFTWARE RE-ENGINEERING (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Process, methods and tools associated with re-engineering software systems.

COMP 7730/7736 FORMAL METHODS FOR SOFTWARE (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Precise, abstract models for characterizing and reasoning about properties of software systems.

COMP 7740 AGENT-DIRECTED SIMULATION (3) LEC. 3. Pr. COMP 6700 or COMP 6706. Departmental approval. Covers entire simulation software development life cycle including problem formulation, system and objectives definition, conceptual modeling, model design, implementation, analysis of simulation data, and credibility assessment including verification and validation. Special emphasis is given to modeling aspects using agent-directed simulation methodology.

COMP 7930 DIRECTED STUDY (1-3) IND. Course may be repeated with change in topics.

COMP 7950/7956 INTRODUCTION TO GRADUATE STUDY IN COMPUTER SCIENCE AND SOFTWARE ENGINEERING (1) LEC. 1. SU. Introduction to graduate research and study topics in computer science and software engineering.

COMP 7970/7976 SPECIAL TOPICS (1-3) LEC. Course may be repeated with change in topics.

COMP 7980/7986 MASTER OF SOFTWARE ENGINEERING DESIGN PROJECT (1-15) IND. SU. Planning, implementation, and completion of a design project. Project culminates in both a written report and an oral presentation. Course may be repeated with change in topics.

COMP 7990/7996 RESEARCH AND THESIS (1-15) MST. May count either COMP 7990 or COMP 7996. Course may be repeated with change in topics.

COMP 8120 CURRENT TOPICS IN DATABASE SYSTEMS (3) LEC. 3. Pr. COMP 6120 or COMP 6126. Departmental approval. Theoretical and applied research issues related to database systems. Topics will reflect current research in the field.

COMP 8220 RESEARCH TOPICS IN PROGRAMMING LANGUAGES (3) LEC. 3. Pr. COMP 7220 or COMP 7226. Departmental approval. Topics of current research in the area of programming languages, their design, and implementation.

COMP 8330 ADVANCED TOPICS IN PARALLEL AND DISTRIBUTED COMPUTING (3) LEC. 3. Pr. COMP 6330 or COMP 6336. Parallelizing compiler, theory of concurrency, advanced parallel algorithms, load balancing, migration, performance evaluation, distributed architectures. Departmental approval

COMP 8400 CURRENT TOPICS IN COMPUTER GRAPHICS (3) LEC. 3. Pr. COMP 7400 or COMP 7406. Departmental approval. In-depth study of current research topics in computer graphics. Topics may include theoretical, performance implementation, and system integration issues. Extensive literature survey, issue identification, performance comparison, and future research trends will be discussed.
COMP 8500 RESEARCH TOPICS IN OPERATING SYSTEMS (3) LEC. 3. Pr. COMP 7500 or COMP 7506. Departmental approval. Topics of current research in the area of operating systems their design, and implementation.

COMP 8600 ADVANCED TOPICS IN ARTIFICIAL INTELLIGENCE (3) LEC. 3. Pr. COMP 6610 or COMP 6616 or COMP 7600 or COMP 7606 or COMP 7610 or COMP 7616. Departmental approval. In-depth study of current research topics in Artificial Intelligence, e.g., reasoning mechanisms, heuristic search methods, cognitive modeling.

COMP 8620 ADVANCED TOPICS IN HUMAN-COMPUTER INTERACTION (3) LEC. 3. Pr. COMP 7620 or COMP 7626. Departmental approval. In-depth study of current research topics in Human-Computer Interaction, e.g., evaluation and assessment methods, multimodal interfaces, educational technology.

COMP 8700/8706 CURRENT TOPICS IN SOFTWARE ENGINEERING (3) LEC. 3. Pr. (COMP 6700 or COMP 6706) and (COMP 6710 or COMP 6716). Departmental approval. Current theoretical and applied research issues in software engineering.

COMP 8930 DIRECTED STUDY (1-3) IND. Course may be repeated for a maximum of 6 credit hours.

COMP 8970 SPECIAL TOPICS (1-3) IND. Course may be repeated with change in topics.

COMP 8990/8996 RESEARCH AND DISSERTATION (1-15) DSR. Course may be repeated with change in topics.

Consumer and Design Sciences - CADS

Courses

CADS 1000 STUDIO I: INTRODUCTION TO INTERIOR DESIGN (4) LEC. 3, LST. 3. Introduction and application of design theory to interior design and consumer products.

CADS 1100 TECHNICAL PROCESSES OF INTERIOR DESIGN (4) LEC. 2, STU. 6. Space planning and delineation of interior systems for residential, institutional, and other consumer environments.

CADS 1600 TEXTILE INDUSTRIAL COMPLEX (3) LEC. 3. Introduction to the composition, characteristics, and products of the network of fiber producers, textile manufacturers, dyers, finishers, apparel manufacturers, and retailers.

CADS 1740 AESTHETICS FOR FASHION (3) LEC. 3. Elements and principles of design and their application in industries such as textiles, apparel, and retail.

CADS 2000/2003 GLOBAL CONSUMER CULTURE (3) LEC. 3. Sustainability and social responsibility provide a framework for the study of cultural, commercial, and aesthetic factors influencing the selection and usage of consumer products and services that create and express social identity. Credit will not be given for both CADS 2000 and CADS 2007.

CADS 2007 HONORS GLOBAL CONSUMER CULTURE (3) LEC. 3. Pr. Honors College Sustainability and social responsibility provide a framework for the study of cultural, commercial, and aesthetic factors influencing the selection and usage of consumer products and services that create and express social identity. Credit will not be given for both CADS 2007 and CADS 2000.

CADS 2100 STUDIO III: VISUAL PRESENTATION OF INTERIOR DESIGN I (4) LEC. 2, LST. 6. Pr. (CADS 1100 or CAHS 1100 or CAHS 1103 or CAHS 1107) and (CADS 1000 or CAHS 1000 or CAHS 1003 or CAHS 1007). Development of visual communication skills for interior design and consumer products.

CADS 2200 STUDIO IV CAD FOR INDS (4) LEC. 2, LST. 6. Pr. CADS 2100 or CAHS 2100 or CAHS 2103. Application of graphic visualization and computer-aided design techniques to represent interior design.

CADS 2300 HISTORY, THEORY, AND CRITICISM OF INTERIOR DESIGN (3) LEC. 3. Pr. CADS 3400 or CAHS 3400. Historical survey of interior design and the decorative arts from antiquity through present.

CADS 2400 INTERIOR MATERIALS AND COMPONENTS (3) LEC. 3. Pr. (CADS 1000 or CAHS 1000) or CAHS 1003 or CAHS 1007. Survey of finishes, textiles, materials, and components. Introduction to health, safety, and environmental issues that impact consumers.

CADS 2500 STUDIO V: VISUAL PRESENTATIONS II (4) LEC. 2. Pr. CADS 2100 or CAHS 2100 or CAHS 2103. Development of color visual communication skills for interior design ideas and concepts.

CADS 2700/2703 INTRODUCTION TO NONPROFIT ORGANIZATIONS (3) LEC. 3. Introduction to mission, structure, and impact of nonprofit organizations at the local, state, national and international levels. May count either CADS 2700 or CADS 2703.
CADS 2740 ILLUSTRATION TECHNIQUES FOR APPAREL (3) LEC. 1. LAB. 4. Pr. CADS 1740 or CAHS 1740. APDP Major or Departmental approval. Creative approach to illustrating apparel through the use of varied media and development of illustrative style appropriate for portfolio presentations.

CADS 2750 PRODUCT DEVELOPMENT: TECHNICAL DESIGN (4) LEC. 2, LST. 4. Pr. (CADS 2740 or CAHS 2740 or CAHS 2743) and (CADS 2800 or CAHS 2800 or CAHS 2803). Apparel pattern development through drafting, flat pattern manipulation and draping; custom apparel production.

CADS 2760 VISUAL MERCHANDISING (4) LEC. 2, LST. 6. Pr. CADS 1600 or CAHS 1600 or CAHS 1607. History, equipment, application, and theory of display techniques in store and non-store settings. (2.0 gapped GPA). AMDP major.

CADS 2770 COMPUTER-AIDED DESIGN FOR APPAREL (4) LEC. 2, LST. 4. Pr. (CADS 1600 or CAHS 1600 or CAHS 1607) and (CADS 2740 or CAHS 2740 or CAHS 2743). Principles of aesthetics applied to apparel product development including computer aided design and other presentation techniques.

CADS 2780 APPAREL PRODUCTION MANAGEMENT (4) LEC. 3. LAB. 3. Pr. CADS 1600 or CAHS 1600 or CAHS 1607. Introduction to apparel industry terminology, technology, production methods, and engineering quality into apparel products.

CADS 3100 STUDIO VI: LIGHTING DESIGN/ENVIRONMENTAL SYSTEMS (4) LEC. 2, LST. 6. Pr. (CADS 2200 or CAHS 2200 or CAHS 2203 or CAHS 2207) and (CADS 2400 or CAHS 2400 or CAHS 2403) and (CADS 2500 or CAHS 2500 or CAHS 2503). Application of principles and processes of lighting, mechanical, and environmental systems to interior design.

CADS 3200 RESIDENTIAL INTERIOR DESIGN (4) LEC. 2. LST. 6. Pr. (CADS 2200 or CAHS 2200 or CAHS 2203 or CAHS 2207) and (CADS 2300 or CAHS 2300) and (CADS 2400 or CAHS 2400 or CAHS 2403) and (CADS 2500 or CAHS 2500 or CAHS 2503). Application of human factors and consumer needs to programming and design process of residential interiors.

CADS 3380 STUDY ABROAD OPPORTUNITIES IN HUMAN SCIENCE (1) LEC. 1. Exploration of study abroad opportunities for students interested in the International Minor in Human Sciences.

CADS 3400 COMMERCIAL INTERIOR DESIGN (4) LEC. 2. LST. 6. Pr. (CADS 3100 or CAHS 3100) and (CADS 3200 or CAHS 3200). Application of programming and presentation techniques to commercial spaces.

CADS 3500 BUSINESS PRACTICES IN INTERIOR DESIGN (3) LEC. 3. Pr. (P/C CADS 2200 or P/C CAHS 2200 or P/C CAHS 2203 or P/C CAHS 2207) and (CADS 2300 or CAHS 2300) and (CADS 2400 or CAHS 2400 or CAHS 2403). Professional practices in the design business. Orientation to internship experience.

CADS 3600 TEXTILES (4) LEC. 3. LAB. 3. Pr. (CADS 1600 or CAHS 1600 or CAHS 1607) and (CHEM 1020 and CHEM 1021). Organic compounds, polymers, fibers, yarns, fabrics, and chemical finishes for apparel and household textiles with laboratory evaluation. 2.0 gapped GPA. AMDP major.

CADS 3700/3703 GENDER, WEALTH AND PHILANTHROPY (3) LEC. 3. Study of wealth and philanthropic theories, principles, and applications as it applies in gender.

CADS 3707 GENDER, WEALTH AND PHILANTHROPY (3) LEC. 3. Pr. Honors College Study of wealth and philanthropic theories, principles, and applications as it applies in gender.

CADS 3750 PRODUCT DEVELOPMENT: APPAREL DESIGN (4) LEC. 2, LST. 4. Pr. (CADS 2750 or CAHS 2750) and (CADS 2800 or CAHS 2800 or CAHS 2803) and (CADS 2740 or CAHS 2740 or CAHS 2743). Advanced design techniques, including couture production; portfolio and internship planning. 2.0 gapped GPA. ADMP major.

CADS 3800 CONSUMER DECISION MAKING FOR APPAREL AND FASHION PRODUCTS (3) LEC. 3. Pr. (CADS 2000 or CAHS 2000 or CADS 2003 or CAHS 2003) or (CADS 2007 or CAHS 2007). Analysis of consumer decision making for apparel and fashion products and the factors that impact consumer decisions. Credit will not be given for both CADS 3800 and MKTG 3410. AMDP major.

CADS 3850/3853 MERCHANDISE PLANNING AND CONTROL (3) LEC. 2. LAB. 2. Pr. (COMP 1000 or COMP 1003) and (CADS 1600 or CAHS 1600 or CAHS 1607) and ACCT 2810. Application of principles of merchandise management and retail buying to the retailing of consumer goods and services. Credit will not be given for both CADS 3850 and CADS 3853.

CADS 3900 DIRECTED STUDIES (1-3) AAB/IND. SU. Departmental approval. Directed readings and/or individualized research project. 2.0 gapped GPA. Course may be repeated for a maximum of 6 credit hours.
CADS 3920 INDUSTRY EXPERIENCE (3) INT. 3. Pr. CADS 1600 or CAHS 1600 or CAHS 1607. Departmental approval. Supervised industry experience requiring students to spend time working in the industry under supervision. 2.0 GPA. Course may be repeated for a maximum of 6 credit hours.

CADS 3940 STUDY TRAVEL IN CONSUMER AND DESIGN SCIENCES (1-3) AAB/FLD. Departmental approval. Concentrated study in the U.S. or abroad. 2.0 GPA. Course may be repeated for a maximum of 6 credit hours.

CADS 3970 SPECIAL TOPICS (1-3) AAB. Course may be repeated for a maximum of 9 credit hours.

CADS 4200 STUDIO IX: PORTFOLIO DEVELOPMENT (3) STU. 5. Pr. (CADS 3400 or CAHS 3400) and (CADS 3500 or CAHS 3500). Portfolio development, critique, and review.

CADS 4500 PORTFOLIO DEVELOPMENT FOR DESIGNERS (4) LEC. 2, LST. 4. Pr. P/C CADS 3750 or P/C CAHS 3750. Survey of advanced techniques in design presentation including computer-aided design and graphics software. Portfolio development in print, computer slide show, and web formats. Open to AMDP majors in Apparel Design Option.

CADS 4750 PRODUCT DEVELOPMENT: SPECIALIZED DESIGN (3) STU. 6. Pr. (CADS 3750 or CAHS 3750). Specialized design development concepts, techniques, and applications for target markets including children's wear, performance wear, and bridal markets.

CADS 4800 APPAREL ENGINEERING (4) LEC. 3. LAB. 3. Pr. CADS 2800 or CAHS 2800 or CAHS 28003. Planning and problem solving throughout the apparel production process, including methods engineering, time study, costing, CAD. 2.0. AMDP major.

CADS 4900 UNDERGRADUATE TEACHING ASSISTANT EXPERIENCE (1-3) LEC/LST. Student must have previously earned an "A" in the course s/he is assisting with. Departmental approval. Student participation as an undergraduate teaching assistant (UTA) for the Consumer and Design Sciences course under the supervision of a faculty member. Course may be repeated for a maximum of 6 credit hours.

CADS 4910 PRACTICUM IN PHILANTHROPY AND NONPROFIT ORGANIZATIONS (3) PRA. 3. Pr. (CADS 2700 or CAHS 2700) or (CADS 2703 or CAHS 2703) and (CADS 3700 or CAHS 3700) or (CADS 3703 or CAHS 3703) or (CADS 3707 or CAHS 3707). Departmental approval. Supervised practicum experience with a philanthropic or nonprofit organization.

CADS 4920 INTERNSHIP (8) AAB/INT. 8. Supervised 10 week professional internship. Departmental approval. 2.0 GPA. Junior standing.

CADS 4960 SPECIAL PROBLEMS IN DESIGN (1-3) LEC. Departmental approval. A) Apparel, B) Interior Design, C) Visual Merchandising, D) Textile Design. Creative solution of design problems. 2.0 GPA. Course may be repeated for a maximum of 9 credit hours.

CADS 4967 HONORS SPECIAL PROBLEMS (1-3) IND. SU. Pr. Honors College. Departmental approval. Readings in specialized topics. Course may be repeated for a maximum of 6 credit hours.

CADS 4980 UNDERGRADUATE RESEARCH IN CONSUMER AND DESIGN SCIENCES (1-3) IND/LEC. SU. Pr. 3.50 GPA Departmental approval. Participation as an undergraduate research assistant (URA) for a Consumer and Design Sciences research project under the supervision of a CADS faculty member. Course may be repeated for a maximum of 6 credit hours.

CADS 4997 HONORS THESIS (3) IND. 3. SU. Pr. Honors College. CADS 4967. Departmental approval. Research in specialized topics.

CADS 5300 STUDIO X: HOSPITALITY DESIGN (4) LEC. 2. LAB. 6. Pr. CADS 3400 or CAHS 3400. Development of a large scale hospitality project with emphasis on design of environments that serve the needs of multiple users. May count either CADS 5300 or CADS 6300.

CADS 5310 SUSTAINABLE DESIGN AND LEED ACCREDITATION (3) LEC. 3. Sustainable certification standards and professional accreditation requirements related to sustainability. May count either CADS 5310 or CADS 6310.

CADS 5400 STUDIO XI: HEALTH CARE DESIGN (4) LEC. 2. LAB. 6. Pr. CADS 5300 or CAHS 5300 or CAHS 5303. Development of a large scale institutional project with emphasis on design of a healing environment. Credit may only be used for CADS 5400 or CADS 6400.

CADS 5450 HISTORY OF COSTUME (3) LEC. 3. Pr., Core History or departmental approval. 2.0. AMDP major. Historical roles of dress in western civilization. Cultural, social, and physical evolution. Credit will not be given for both CADS 5450 and CADS 6450.
CADS 5460 FASHION INDUSTRY SINCE 1910 (3) LEC. 3. Departmental approval. Fashion history, designers and businesses from 1910 to the present. May count either CADS 5460 or CADS 6460. P/C: Core History, Core Literature

CADS 5500 PROFESSIONAL DEVELOPMENT: MERCHANDISING PORTFOLIO (3) LEC. 3. Pr. P/C CADS 5850 or P/C CAHS 5850 or CADS 5860 or CAHS 5860. Portfolio Development in print, digital, and web formats for merchandising students. May count either CADS 5500 or CADS 6500.

CADS 5600 GLOBAL SOURCING IN TEXTILES AND APPAREL (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) and (ANTH 1000 or ANTH 1003 or ANTH 1007 or GEOG 1010 or GEOG 1013 or GEOG 1017 or PSYC 2010 or PSYC 2013 or PSYC 2017 or SOCY 1000 or SOCY 1007) or Departmental approval. The role of fiber, textile, and apparel industries in the international economy. 2.0 GPA. AMDP major.

CADS 5610 GLOBAL RETAILING STRATEGIES FOR TEXTILE AND APPAREL PRODUCTS (3) LEC. 3. Pr. (CADS 2000 or CAHS 2000 or CADS 2003 or CAHS 2003) or (CADS 2007 or CAHS 2007) and (CADS 3850 or CADS 3853 or CAHS 3850 or CADS 3853 or CADS 2853 or CAHS 2853). Strategies for successful global business expansion for textile and apparel retailers. Credit granted for only one of: CADS 5610, CADS 6610, MKTG 4330.

CADS 5650 TEXTILE AND APPAREL EVALUATION (4) LEC. 2. LAB. 6. Pr. CADS 3600 or CAHS 3600. Testing procedures for characterization and evaluation of fabrics and sewn products for apparel and interiors. Credit will not be given for both CADS 5650 and CADS 6650. 2.0 GPA. AMDP major.

CADS 5700 ENTREPRENEURSHIP IN APPAREL AND INTERIORS (3) LEC. 3. Departmental approval. Analyzing business opportunities in textiles, apparel, and interiors; developing marketing concepts and entrance strategies. Credit will not be given for both CADS 5700 and CADS 6700.

CADS 5730 HISTORY OF TEXTILES (3) LEC. 3. Pr., Core History or departmental approval. Cultural, economic, material, technological, and aesthetic perspectives on the evolution of textiles. Credit will not be given for both CADS 5730 and CADS 6730.

CADS 5750 APPAREL LINE DEVELOPMENT (4) LEC. 2. LAB. 6. Pr. (CADS 3750 or CAHS 3750) and (CADS 4800 or CAHS 4800 or CAHS 4803 or CAHS 4807). Team driven design, production, and market research. Development of apparel lines. Credit will not be given for both CADS 5750 and CADS 6750. 2.0 GPA. AMDP major.

CADS 5760 FASHION ANALYSIS AND FORECASTING (3) LEC. 3. Pr. (CADS 1600 or CAHS 1600 or CADS 1607 or CAHS 1607) and (CADS 2740 or CAHS 2740 or CAHS 2743 or CADS 2760 or CAHS 2760). Theories explaining fashion dynamics and techniques for forecasting change, with case applications in textiles, apparel, and retailing. Credit will not be given for both CADS 5760 and CADS 6760. 2.0 GPA. AMDP major.

CADS 5850 APPAREL MERCHANDISING AND RETAIL MANAGEMENT (4) LEC. 3. LAB. 2. Pr. CADS 3850 or CAHS 3850 or CADS 3853 or CAHS 3853. Problem-solving and decision making strategies for retailing apparel, textiles, and other consumer products. Credit will not be given for both CADS 5850 and CADS 6850. 2.0 GPA. AMDP major.

CADS 5860 ADVANCED RETAIL BUYING (3) LEC. 2. LAB. 1. Pr. CADS 5850 or CAHS 5850. Planning, executing and evaluating retail buying to maximize ROI. 2.0 GPA or departmental approval. Credit will not be given for both CADS 5860 and CADS 6860.

CADS 6300 HOSPITALITY DESIGN (4) LEC. 2. LAB. 6. Development of a large scale hospitality project with emphasis on design of environments that serve the needs of multiple end users. May count either CADS 5300 or CADS 6300. Graduate standing.

CADS 6310 SUSTAINABLE DESIGN AND LEED ACCREDITATION (3) LEC. 3. Sustainable certification standards and professional accreditation requirements related to sustainability. May count either CADS 5310 or CADS 6310.

CADS 6400 STUDIO XI: HEALTH CARE DESIGN (4) LEC. 2. LAB. 6. Pr. CADS 6300 or CAHS 6300 or CAHS 6306. Development of a large scale institutional project with emphasis on design of a healing environment. Credit may only be used for CADS 5400 or CADS 6400. Graduate standing.

CADS 6450 HISTORY OF COSTUME (3) LEC. 3. Historical roles of dress in western civilization. Cultural, social, and physical evolution. Credit will not be given for both CADS 6450 and CADS 5450. Departmental approval. Graduate standing.

CADS 6460 FASHION INDUSTRY SINCE 1910 (3) LEC. 3. Departmental approval. Fashion history, designers and businesses from 1910 to the present. May count either CADS 5460 or CADS 6460. Graduate standing.
CADS 6500 PROFESSIONAL DEVELOPMENT: MERCHANDISING PORTFOLIO (3) LEC. 3. Pr. (CAHS 5850 or CADS 5850) or CADS 5860 or CAHS 5860. Portfolio Development in print, digital, and web formats for merchandising students. May count either CADS 5500 or CADS 6500.

CADS 6600 GLOBAL SOURCING IN TEXTILES AND APPAREL (3) LEC. 3. Departmental approval. The role of fiber, textile, and apparel industries in the international economy. Credit will not be given for both CADS 5600 and CADS 6600. Graduate standing.

CADS 6610/6616 GLOBAL RETAILING STRATEGIES FOR TEXTILE AND APPAREL PRODUCTS (3) LEC. 3. Strategies for successful global business expansion for textile and apparel retailers. Credit given for only one of: CADS 5610, CAHS 6610, MKTG 4330. Departmental approval.

CADS 6650 TEXTILE AND APPAREL EVALUATION (4) LEC. 2. LAB. 6. Pr. CADS 3600 or CAHS 3600. Departmental approval. Testing procedures for characterization and evaluation of fabrics and sewn products for apparel and interiors. Credit will not be given for both CADS 5650 and CADS 6650. Spring.

CADS 6700 ENTREPRENEURSHIP IN APPAREL AND INTERIORS (3) LEC. 3. Departmental approval. Analyzing business opportunities in textiles, apparel, and interiors; developing marketing concepts and entrance strategies. Credit will not be given for both CADS 5700 and CADS 6700.

CADS 6730 HISTORY OF TEXTILES (3) LEC. 3. Departmental approval. Cultural, economic, material, technological, and aesthetic perspectives on the evolution of textiles. Credit will not be given for both CADS 5730 and CADS 6730.

CADS 6750 APPAREL LINE DEVELOPMENT (4) LEC. 2. LAB. 6. Team-driven design, production, and market research. Development of apparel lines. Credit will not be given for both CADS 5750 and CADS 6750. Departmental approval. Graduate standing.

CADS 6850 APPAREL MERCHANDISING AND RETAIL MANAGEMENT (4) LEC. 3. LAB. 2. Departmental approval. Problem-solving and decision making strategies for retailing, apparel, textiles, and other consumer products. Credit will not be given for both CADS 6850 and CADS 5850.

CADS 6860 ADVANCED RETAIL BUYING (3) LEC. 2. LAB. 1. Departmental approval. Planning, executing and evaluating retail buying to maximize ROI. Credit will not be given for both CADS 5860 and CADS 6860.

CADS 7040 PROTOCOL FOR GRADUATE STUDY (1) LEC. 1. SU. Introduction to policies, practices, and expectations for successful completion of the graduate degree.

CADS 7050 RESEARCH METHODS IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Departmental approval. Research and investigation methods appropriate to the study of consumer and textile design sciences.

CADS 7060 SURVEY OF CONSUMER AND DESIGN SCIENCES RESEARCH (3) LEC. 3. Presentation and discussion of a broad array of research topics to support literature review development.

CADS 7100 ENVIRONMENTAL DESIGN THEORIES AND APPLICATIONS (3) LEC. 3. Pr. CADS 5400 or CAHS 5400 or CAHS 5403. Departmental approval. Theories, methodologies, and current issues relevant to interior design; sociological, psychological, ecological, and post-modern perspectives.

CADS 7200 AESTHETICS THEORY IN CONSUMER AND DESIGN SCIENCES (3) LEC. 3. Pr. CADS 7050 or CAHS 7050 or CAHS 7056. Departmental approval. Review of theories of aesthetics focusing on aesthetic experience and response as a function of object, perceiver, and situational properties.

CADS 7530 ECONOMICS OF APPAREL AND TEXTILES (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Departmental approval. Economic issues involving the manufacture, distribution, and consumption of textiles and apparel.

CADS 7670 SOCIAL PSYCHOLOGICAL THEORIES IN CLOTHING BEHAVIOR (3) LEC. 3. Pr. CADS 7050 or CAHS 7050 or CAHS 7056. Departmental approval. Clothing as a factor in the physical, social, and psychological environment; response to and use of clothing in social behavior.
CADS 7690 CONSUMER THEORY IN APPAREL AND INTERIORS (3) LEC. 3. Pr. CADS 7050 or CAHS 7050 or CAHS 7056. Departmental approval. Overview of various theories used in consumer research with an emphasis on their application in apparel, merchandising, design, and interiors.

CADS 7900 DIRECTED STUDIES (1-3) IND. SU. Course may be repeated for a maximum of 6 credit hours.

CADS 7910 SUPERVISED TEACHING IN CONSUMER AND DESIGN SCIENCES (1) AAB/IND. 1. SU. Departmental approval. Practical experience teaching in the classroom. Course may be repeated for a maximum of 3 credit hours.

CADS 7920 GRADUATE INTERNSHIP (3) INT. 3. Departmental approval. Supervised professional experience in the United States or internationally.

CADS 7930 ADVANCED DESIGN PROJECTS (1-6) IND. SU. Departmental approval. Independent execution of advanced design work. (A) Apparel; (B) Interiors; (C) Visual Merchandising; (D) Textile Design. Course may be repeated for a maximum of 6 credit hours.

CADS 7940 STUDY/TRAVEL IN CONSUMER AND DESIGN SCIENCES (1-3) FLD. SU. Departmental approval. Concentrated study/travel in the U.S. or internationally. Course may be repeated for a maximum of 6 credit hours.

CADS 7950 SEMINAR (1) SEM. 1. SU. Departmental approval. Research presentations and discussion. Course may be repeated for a maximum of 3 credit hours.

CADS 7960 SPECIAL PROBLEMS (1-3) IND. SU. Departmental approval. Directed readings in textiles, apparel, interiors and retailing. Course may be repeated for a maximum of 6 credit hours.

CADS 7970 SPECIAL TOPICS IN DESIGN (1-6) RES. Departmental approval. (A) Apparel; (B) Interiors; (C) Visual Merchandising; (D) Textile Design. Independent execution of advanced design work. Course may be repeated for a maximum of 6 credit hours.

CADS 7980 GRADUATE PROJECT (1-3) RES. Departmental approval. In-depth, integrative research in a particular project related to apparel, textiles, interiors or consumer behavior. Course may be repeated for a maximum of 6 credit hours.

CADS 7990 RESEARCH AND THESIS (1-10) AAB/MST. Course may be repeated with change in topics.

CADS 8100 APPAREL AND INTERIORS BRANDING (3) LEC. 3. Pr. CADS 7050 or CAHS 7050 or CAHS 7056. Departmental approval. Critical examination of theories and methodological issues in branding research and application in apparel and interior product and service branding.

CADS 8950 INDUSTRY ISSUES SEMINAR (1) LEC. 1. SU. Departmental approval. Research presentations and discussions on issues facing the global textile industrial complex. Course may be repeated for a maximum of 6 credit hours.

CADS 8960 CURRENT ISSUES IN INTEGRATED TEXTILE AND APPAREL SCIENCE (2) LEC. 2. Departmental approval. Directed readings on current issues in the global textile industrial complex. Course may be repeated for a maximum of 6 credit hours.

CADS 8970/8976 SPECIAL TOPICS (1-3) LEC. Departmental approval. Topics related to various aspects of the integrated textile and apparel complex. Course may be repeated for a maximum of 9 credit hours.

CADS 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

Cooperative Education - COOP

Courses

COOP 4920 COOPERATIVE WORK EXPERIENCE (0) PRA. Departmental approval. A practical, professional, full-time, curriculum-related work experience in industry, business, or government. Under joint supervision of employer and university.

Counselor Ed, Counseling P - COUN

Courses

COUN 1000 CAREER ORIENTATION EXPLORATION (2) LEC. 1. LAB. 2. The process of career decision-making through hands-on activities, in-class exercises, and job shadowing.
COUN 2000 LIVING AND COMMUNICATING IN A DIVERSE SOCIETY (3) LEC. 3. The class developing cultural competence in context of relationships, issues, and trends in a multicultural and diverse society related to such factors as culture, ethnicity, nationality, age, gender, sexual orientation, and mental and physical abilities/disabilities.

COUN 2900 DIRECTED STUDIES (1-3) IND. SU. Reading, research, or other work undertaken by a student focused on an area of special interest. Directed by faculty member. Course may be repeated for a maximum of 9 credit hours.

COUN 2940 DIRECTED FIELD EXPERIENCE (1-3) FLD. Course may be repeated for a maximum of 9 credit hours.

COUN 2970/2973 SPECIAL TOPICS IN COLLEGE STUDENT DEVELOPMENT (1-3) LEC. Selected topics in college student development. Fall, Spring. Course may be repeated for a maximum of 12 credit hours.

COUN 3000/3003 CAREER SUCCESS (2) LEC. 2. Developing a career plan via instruction on researching careers, writing resumes, developing portfolios, interviewing, net working and other career development practices. May count either COUN 3000 or COUN 3003.

COUN 3100 COUNSELING AND HUMAN SERVICES (3) LEC. 3. Counseling concepts and skills appropriate in the helping professions. Not open to graduate students in counseling education.

COUN 3980 SUPERVISED RESEARCH EXPERIENCE IN COUNSELING (3) LAB. 3. SU. This course provides students with the opportunity to gain supervised research experience in counselor education, counseling psychology, and special education programs. Students will work with the faculty instructor to gain experience in a range of research activities.

COUN 7100 INTRODUCTION TO SCHOOL PSYCHOLOGY (3) LEC. 3. Orientation to profession of school psychology; history of the profession, professional roles, ethical and legal standards, and current issues.

COUN 7200 INTRODUCTION TO MEASUREMENT AND ASSESSMENT (3) LEC. 3. Pr. COUN 7100 or (COUN 7400 or COUN 7406) or COUN 8530. Introduction to the history and theory of measurement and assessment as it applies to counselors and psychologists.

COUN 7210 APPRAISAL IN COUNSELING AND PSYCHOLOGY (3) LEC. 3. Pr. COUN 7200 and COUN 7350. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, attitude tests. Includes assessment interview, behavioral observation.

COUN 7230 CAREER DEVELOPMENT AND VOCATIONAL APPRAISAL (3) LEC. 3. Career development theories appraising vocationally related interests, aptitudes, and personal characteristics. Laboratory practice in test procedures.

COUN 7240/7246 COUNSELING CHILDREN AND ADOLESCENTS (3) LEC. 3. Course provides awareness, knowledge, and skills for counseling children and adolescents using effective theoretical approaches, counseling modalities, and specific techniques. May count either COUN 7240 or COUN 7246.

COUN 7250/7256 ADVANCED ASSESSMENT AND DIAGNOSIS IN COUNSELING (3) LEC. 3. Pr. COUN 7100 or (COUN 7400 or COUN 7406) or COUN 8530. Assessment/diagnostic skills related to counseling: intake, assessment, diagnostic criteria, treatment planning, counseling interventions. May count either COUN 7250 or COUN 7256.

COUN 7310/7316 COUNSELING APPLICATIONS OF LIFESPAN DEVELOPMENT (3) LEC. 3. Theories and current research in development across the lifespan with emphasis on applications to counseling. May count either COUN 7310 or COUN 7316.

COUN 7320/7326 COUNSELING THEORIES (3) LEC. 3. Study of major counseling theories. May count either COUN 7320 or COUN 7326.

COUN 7330/7336 COUNSELING DIVERSE POPULATIONS (3) LEC. 3. Departmental approval. Special counseling and advocacy issues. Needs of diverse populations are considered.

COUN 7340 GROUP COUNSELING (3) LEC. 3. Leading, developing, evaluating a counseling group; including group proposal, session development, group dynamics, group leadership and evaluation, treatment planning; group intervention, counseling skills.

COUN 7350 INTRODUCTION TO COUNSELING PRACTICE (3) LEC. 3. Pr. (COUN 7320 or COUN 7326) or (COUN 7400 or COUN 7406) or COUN 8530. Methods, interventions, and skills essential to counseling.
COUN 7360 ADVANCED COUNSELING PRACTICE (3) LEC. 3. Students must successfully pass the Introduction to Counseling Practice (COUN 7350) course before they are permitted to enroll in Advanced Counseling Practice. An intensive study of advanced counseling skills with supervised experience. Class format will include lecture, group discussion, role play, case and videotaped counseling practice analysis, observational analysis and evaluation of counseling techniques.

COUN 7400/7406 ORIENTATION TO PROFESSIONAL COUNSELING (3) LEC. 3. Orientation to the counseling field with emphasis on philosophical, historical, psychological, and organizational foundations of professional practice.

COUN 7410 ORIENTATION TO CLINICAL MENTAL HEALTH COUNSELING (3) LEC. 3. Orientation to clinical mental health counseling to include roles, responsibilities, systems, theories, professional issues, and history.

COUN 7420 ORIENTATION TO SCHOOL COUNSEL (3) LEC. 3. Orientation to the role and activities of the K-12 school counselor. Emphasis on the components of a developmentally-oriented school counseling program.

COUN 7430 COLLEGE STUDENT DEVELOPMENT (3) LEC. 3. Theory and practice of counseling and student services in higher education.

COUN 7500/7506 CRISIS INTERVENTION IN COUNSELING (3) LEC. 3. Development of skills and knowledge for crisis intervention and management in counseling, including prevention planning, intervention strategies and evaluation.

COUN 7510 ADVANCED CLINICAL MENTAL HEALTH COUNSELING INTERVENTIONS (3) LEC. 3. Pr. COUN 7320 or COUN 7326. Advanced counseling interventions, practices, techniques and methods for mental health counselors, including treatment planning, counseling processes, and evaluation.

COUN 7810 COUNSELING CONSULTATION THEORY AND PRACTICE (3) LEC. 3. Counseling consultation theories, models, practices, legal and ethical standards, and interdisciplinary approaches in school and clinical mental health settings.

COUN 7820 PSYCHOEDUCATIONAL INTERVENTIONS: ACADEMIC (3) LEC. 3. Pr. COUN 7100 and COUN 7220. Intervention approaches designed to address children's academic success across all content areas including: reading, mathematics, written language and other academic enablers.

COUN 7900 DIRECTED STUDIES (1-3) IND. SU. Independent learning effort directed at desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

COUN 7910 PRACTICUM (3) LEC. 3. SU. Departmental approval. Supervised experiences appropriate to student's program emphasis area. Course may be repeated for a maximum of 9 credit hours.

COUN 7920 INTERNSHIP (1-9) INT. SU. Pr. COUN 7910. Departmental approval. Supervised on-the-job experiences. Course may be repeated for a maximum of 9 credit hours.

COUN 7940 DIRECTED FIELD EXPERIENCE (1-10) FLD. SU. Course may be repeated for a maximum of 10 credit hours.

COUN 7960 SPECIAL PROBLEMS (1-10) IND. SU. May be taken more than one semester. Course may be repeated for a maximum of 10 credit hours.

COUN 7970 SPECIAL TOPICS (1-3) AAB. An in-depth study of a current topic(s) impacting the professions related to departmental programs.

COUN 7990 RESEARCH AND THESIS (1-10) MST. Course may be repeated with a change in topic. Course may be repeated with change in topics.

COUN 8100 PERSONALITY AND INDIVIDUAL DIFFERENCES (3) LEC. 3. Origins and structure of individual differences in personality and intelligence, and their application to counseling.

COUN 8110 COUNSELING ASSESSMENT ACROSS THE LIFESPAN (3) LEC. 3. Development, administration, scoring and interpretation of personality, interest, aptitude, achievement, and attitude tests across the lifespan.

COUN 8200 INTELLECTUAL ASSESSMENT OF ADULTS (3) LEC. 2. LAB. 3. Pr. COUN 7200. Theory and measurement of adult intelligence. Administration and interpretation of selected tests.
COUN 8210 TEST ADMINISTRATION AND PROFESSIONAL PRACTICE (3) LEC. 3. Pr. COUN 7200 or ERMA 8350 or FOUN 8350 and COUN 7210. Coreq. COUN 8200. Administration and scoring of selected tests, primarily WAIS-IV, to familiarize students with measurements for assessment of adult intelligence.

COUN 8400 PROFESSIONAL SEMINAR COUNSELING PSYCHOLOGY (1-3) LEC. Scientific foundations of the counseling psychology profession and application of that foundational knowledge in counseling interventions. Course may be repeated for a maximum of 9 credit hours.

COUN 8510 CONTEMPORARY ISSUES IN COUNSELOR EDUCATION (3) LEC. 3. Departmental approval. History, development, current issues. Philosophical assumptions, legal and ethical considerations, new research service initiatives.

COUN 8520 CONTEMPORARY ISSUES IN SCHOOL PSYCHOLOGY (1-3) LEC. History, development, and current issues. Legal and ethical considerations, research and service initiatives, and new client populations. Course may be repeated for a maximum of 3 credit hours.

COUN 8530 CONTEMPORARY ISSUES IN COUNSELING PSYCHOLOGY (3) LEC. 3. History, development, and current professional issues. Philosophical and cultural assumptions, legal and ethical considerations, and current research topics.

COUN 8540 COUN SUPERVISION-THEORY & PRAC (3) LEC. 3. Advanced theories, skills, models and methods used in counseling supervision including counselor development, supervisory processes and evaluation.

COUN 8550/8556 COUNSELOR EDUCATION PEDAGOGY (3) LEC. 3. Counselor Education pedagogical skills and knowledge including; theories, course and curriculum development methods, and professional responsibilities. May count either COUN 8550 or COUN 8556.

COUN 8610 ADVANCED THEORIES: EXISTENTIAL/HUMANISTIC (3) LEC. 3. Theory and practice of humanistic/existential approaches to individual and group therapy.

COUN 8630 ADVANCED THEORIES: PSYCHODYNAMIC THEORIES (3) LEC. 3. Departmental approval. The origins, current status, and emerging applications of psychodynamic approaches to counseling.

COUN 8800 PROFESSIONAL DEVELOPMENT INTERNSHIP SKILLS (3) LEC. 3. This three-hour required course is designed to help students solidify their professional identity and effectively apply for their one-year Counseling Psychology internship.

COUN 8910 PRACTICUM (3) LEC. 3. SU. Departmental approval. Advanced supervised experiences appropriate to student's program emphasis. Course may be repeated for a maximum of 9 credit hours.

COUN 8920 INTERNSHIP (1-9) INT. SU. Departmental approval. Advanced supervised on-the-job experiences appropriate to doctoral-level study. Course may be repeated for a maximum of 9 credit hours.

COUN 8930 INTERNSHIP IN COUNSELING PSYCHOLOGY (0) INT. SU. Departmental approval. Supervised, full-time experience in Counseling Psychology at the doctoral level. May be repeated to satisfy 2000 clock hour accreditation requirement.

COUN 8970 SPECIAL TOPICS (1-3) SEM. An in-depth study of the current educational, sociological, psychological, economic, health, legal, technological, and professional issues impacting the professions related to departmental programs. Course may be repeated for a maximum of 9 credit hours.

COUN 8980 FIELD PROJECT (1-10) FLD. SU. Departmental approval. Required for completion of the Education Specialist degree. Course may be repeated for a maximum of 10 credit hours.

COUN 8990 RESEARCH AND DISSERTATION (1-10) DSR.

Crop, Soil, and Environmental Sciences - CSES
Courses

CSES 1000/1003 BASIC CROP SCIENCE (4) LEC. 3. LAB. 2. Agronomic principles of classification, growth, structure, and soil-plant relationship of field crops, with emphasis on influence of man and environment, and importance of crop production. Credit will not be given for both CSES 1000 and CSES 1003.

CSES 1010 SOILS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Practical applications of important soil properties and their function in everyday life. Connections between soils and human life will be made. Topics include food security, sustainable agricultural production, soil and water quality, and waste disposal.

CSES 1020 CROPS AND LIFE (4) LEC. 3. LAB. 2. Science Core. Essential role of crop plants to human life. Topics will include historical development of crop science, impact of crop science on human development, and major issues and problems facing modern crop science and technology.

CSES 2040/2043 BASIC SOIL SCIENCE (4) LEC. 3. LAB. 2. Pr. (CHEM 1010 and CHEM 1011) or (CHEM 1030 and CHEM 1031). Formation, classification, properties, management, fertility and conservation of soils in relation to the growth of plants. Fall, Spring.

CSES 2910 TURFGRASSES: USES AND CARE FOR SPORTS AND LEISURE (2) LEC. 2. Introduction to the commonly used turfgrasses of the southeastern United States including of these turfgrasses for golf courses, athletic fields and home lawns will be included. This course may not be substituted for CSES 3150.

CSES 3100 SOILS IN AGRICULTURAL AND EARTH SYSTEMS (4) LEC. 3. LAB. 2. Pr. (GEOL 1100 or GEOL 1103 or GEOL 1107 or GEOL 1007) and CHEM 1010. The role of the soils as key components in changing earth and agricultural systems. Intended for those who will teach earth science at the middle school level. Credit will not be given for CSES 3100 and either CSES 2040 or CSES 3040. Spring, Summer, Fall.

CSES 3120/3123 PRINCIPLES OF WEED SCIENCE (4) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043) and (BIOL 1020 or BIOL 1027). Weed identification and biology, methods of weed management and classification of herbicides and how they are used in weed control. Laboratory subjects are weed identification and sprayer calibration. Fall.

CSES 3150/3153 TURFGRASS MANAGEMENT (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043 or AGRN 2040 or AGRN 2043) and (BIOL 1020 or BIOL 1027). The management of recreational and home area turfgrass will be studied including establishment and maintenance of turf and the effect of light, traffic, soil fertility and water on its growth. Fall, Spring.

CSES 3200 APPLIED TURF MANAGEMENT (3) LEC. 1. LAB. 4. Pr. (P/C CSES 3150 or CSES 3153) or (AGRN 3150 or AGRN 3153). Familiarize students with the operation and maintenance of the equipment used for turfgrass maintenance. Effects on turfgrass performance will also be covered.

CSES 3920 INTERNSHIP (3) INT. 3. Departmental approval. Practical experience under the supervision of an approved employer and the department. Internship may be in the areas of production, business, turf or science.

CSES 3960 SPECIAL PROBLEMS (2) LAB. 2. Departmental approval. Individual and group problems investigations in crop, soil or weed science. Course may be repeated for a maximum of 4 credit hours.

CSES 3970 SPECIAL TOPICS (3) ST1. 3. New topics in agronomy and soils.

CSES 4200 SOIL JUDGING (2) LEC. 1. LAB. 4. Description, evaluation and interpretation of soil-profile characteristics. Fall. Course may be repeated for a maximum of 8 credit hours.

CSES 4210 ADVANCED SOIL JUDGING (2) LEC. 1. LAB. 2. Pr. CSES 4200 or (AGRN 4200 or AGRN 4203). Advanced description, evaluation, and interpretations of soil-profile characteristics. Spring. Course may be repeated for a maximum of 8 credit hours.

CSES 4950 SENIOR SEMINAR (2) LEC. 2. This course will cover professional presentations, both oral and written, in the area of Agronomy and Soils.

CSES 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College

CSES 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Course may be repeated for a maximum of 3 credit hours.
CSES 5000 SOILS & ENVIRONMENTAL QUALITY (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Role of soils in bio-geochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 5010/5013 ANALYSIS OF PLANT, SOIL, AND ANIMAL DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 5020/5023 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 5030/5033 ADVANCED CROP SCIENCE (3) LEC. 3. Pr. (CSES 1000 or CSES 1003) or (AGRN 1000 or AGRN 1003 or AGRN 1007) or (AGRN 2040 or AGRN 2043) and (CSES 2040 or CSES 2043) and (BIOL 1030 or BIOL 1037). Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030.

CSES 5060/5063 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Pr. BIOL 3200. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 5080/5083 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 5080 Summer. CSES 5083 Fall.

CSES 5100/5103 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 5150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 5160/5163 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 5180 SPORTS TURF MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043) or (AGRN 3150 or AGRN 3153). Design, construction and management of sports fields and the turfgrass cover on such fields.

CSES 5200 APPLIED WEED SCIENCE TECHNOLOGY (3) LEC. 3. SU. Pr. (CSES 3120 or CSES 3123) or (AGRN 3120 or AGRN 3123). Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 5300/5303 SOIL CHEMISTRY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.

CSES 5400/5403 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 5500/5503 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops. Spring. May count either CSES 5500 or CSES 5503.
CSES 5590 ENVIRONMENTAL SOIL PHYSICS (4) LEC. 3. LAB. 2. This course is designed to make the students understand basic soil physical properties and processes occurring in soils. All concepts are based on sound physical and mathematical principles. May count either CSES 5590 or CSES 6590.

CSES 5960 SPECIAL PROBLEMS (1-3) IND. Work under the direction of a staff member on special problems in crop, soil or weed science. Course may be repeated for a maximum of 6 credit hours.

CSES 6000 SOILS & ENVIRONMENTAL QUALITY (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Role of soils in bio-geochemical cycling of major elements and compounds of environmental concern; interactions of pollutants with soils and aquatic and atmospheric environments; methods to minimize or correct pollution; risk assessment.

CSES 6010/6016 ANALY PLANT, SOIL & ANI DATA (3) LEC. 3. Pr. (MATH 1130 or MATH 1133) or (STAT 2510 or STAT 2513). Principles of data analysis based on real examples will be discussed. Topics include measures of central tendency, dispersion, confidence intervals, sampling issues, probability distributions, etc.

CSES 6020/6026 NUTRIENT MANAGEMENT (3) LEC. 3. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Lectures and problems illustrate principles of nutrient management as related to soil or growth media, plant, fertilizer practices, management systems and environment. Required for all students majoring in Agronomy and Soils. Spring.

CSES 6030/6036 ADVANCED CROP SCIENCE (3) LEC. 3. Application and integration of principles from undergraduate agricultural, biological and physical sciences courses in management of crop production systems. May count either CSES 5030/CSES 6030 or CSES 5033/CSES 6036.

CSES 6060/6066 SOIL MICROBIOLOGY LECTURE (3) LEC. 3. Pr. BIOL 3200. Ecology, physiology, and biochemistry of soil microorganisms with emphasis on soil microbial processes that are important to environmental quality and soil productivity. Spring.

CSES 6061 SOIL MICROBIOLOGY LAB (1) LAB. 2. Pr. (P/C CSES 6060 or P/C CSES 6066) or (P/C AGRN 6060 or P/C AGRN 6066). Laboratory exercises illustrating ecology, physiology, and biochemistry of soil microorganisms. Credit will not be given for both CSES 5061 and CSES 6061. Spring.

CSES 6080/6086 SOIL RESOURCES AND CONSERVATION (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soils as a natural resource for land-use planning; their use and management for sustainable crop production, urban and industrial development and ecosystem protection. CSES 6080 Summer. CSES 6086 Fall.

CSES 6100/6106 PLANT GENETICS AND CROP IMPROVEMENT (3) LEC. 3. Pr. BIOL 1030 or BIOL 1037. Principles related to mendelian, population, and molecular genetics of plants including inheritance of qualitative and quantitative traits, and plant transformation. Improvement of crop plants including heritability, role of environment, pedigree selection, recurrent selection, the backcross method, and marker-assisted selection. Fall

CSES 6150 SOIL MORPHOLOGY (4) LEC. 3. LAB. 2. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Physical, chemical and mineralogical properties of soils are studied in relation to their distribution and classification for environmental, engineering and agricultural use and interpretations. Spring.

CSES 6160/6166 ADVANCED TURFGRASS MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (BIOL 3100 or BIOL 6130) or (AGRN 3150 or AGRN 3153). Factors affecting the turfgrass plant as a component of a dynamic community. Influence of soil chemical and physical conditions, management practices and climate are discussed. Theoretical and practical aspects of turfgrass management practices are discussed along with design and construction of golf courses and other athletic purpose turf areas.

CSES 6180 SPORTS TURF MANAGEMENT (3) LEC. 3. Pr. (CSES 3150 or CSES 3153) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043) or (AGRN 3150 or AGRN 3153). Design, construction and management of sports fields and the turfgrass cover on such fields.

CSES 6200 APPLIED WEED SCIENCE TECH (3) LEC. 3. SU. Pr. (CSES 3120 or CSES 3123) or (AGRN 3120 or AGRN 3123). Advanced weed identification, pesticide application technology, identification of herbicide injury symptomology, and develop of interaction techniques and problem solving skills for dealing with potential herbicide efficacy problems. Course may be repeated for a maximum of 6 credit hours.

CSES 6300/6306 SOIL CHEMISTRY (4) LEC. 2. LAB. 4. Pr. (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). An introduction to the basic soil chemical properties of mineral composition, weathering, absorption, cation exchange, acidity, alkalinity, salinity and soil reactions with fertilizers, pesticides and heavy metals. Spring.
CSES 6400/6406 BIOENERGY AND THE ENVIRONMENT (3) LEC. 3. The role of bioenergy in reducing environmental problems related to use of fossil fuels and certain agricultural practices, and in addressing declining rural economies.

CSES 6500/6506 FORAGE PRODUCTION AND UTILIZATION (3) LEC. 3. Pr., In major or departmental approval. Grass and legume forage crops. The crops are considered from the standpoint of (a) pasture crops, (b) hay and silage crops, (c) soil-improving crops and (d) energy crops. May count either CSES 6500 or CSES 6506.

CSES 6590 ENVIRONMENTAL SOIL PHYSICS (4) LEC. 3. LAB. 2. This course is designed to make the students understand basic soil physical properties and processes occurring in soils. All concepts are based on sound physical and mathematical principles. May count either CSES 5590 or CSES 6590.

CSES 6906 DIRECTED STUDIES (1-3) DSL. SU. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6936 ADVANCED DIRECTED STUDIES (1-3) DSL. SU. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 6960/6966 SPECIAL PROBLEMS (1-3) IND. Conferences, problems and assigned reading in soils and crops, including results of agronomic research from the substations and experiment fields. Course may be repeated for a maximum of 6 credit hours.

CSES 7016 ENVIRONMENTAL SOIL SCIENCE (3) LEC. 3. Departmental approval. Science of the environment and the role of soil science in the environmental arena. Important chemical, biological, and physical processes that influence compounds.

CSES 7080/7086 EXPERIMENTAL METHODS (3) LEC. 3. Pr. STAT 7000. Experimentation in the agricultural sciences including experimental techniques, interpretation of research data, use of library references, and preparation of publications. Problems, assigned readings and lectures. Summer.

CSES 7120 CYTOLOGY AND CYTOGENETICS (4) LEC. 2. LAB. 4. Pr. BIOL 3000 or BIOL 3003. Cell structure and function with emphasis on cell reproduction and factors contributing to the evolution of organisms. Fall.

CSES 7140/7146 CHEMISTRY AND USE OF HERBICIDES IN CROP PRODUCTION (4) LEC. 3. LAB. 2. Pr. CHEM 1040. Principles and use of herbicides in agronomic crops. Methods of herbicide application, including time, incorporation and formulation, the fate of herbicides in soil and the ecological impact on succeeding plant species. Fall.

CSES 7150 SEMINAR IN GENETICS (1) SEM. 1. Pr. BIOL 3000 or BIOL 3003. Reports by students and staff members on current research and literature in the field of genetics. Spring.

CSES 7160 GENETIC DATA ANALYSIS (3) LEC. 3. Pr. (CSES 5100 or CSES 5103) or (CSES 6100 or CSES 6106) and STAT 4020 or (AGRN 5100 or AGRN 5103) or (AGRN 6100 or AGRN 6106). Introduces procedures to study the genetic characteristics of individuals and populations. Computer models will be used to simulate genomes and traits. Application of quantitative methods to experimental populations used to plan breeding programs. Fall.

CSES 7170 ADVANCED PLANT BREEDING (3) LEC. 3. Pr. CSES 7160 or (AGRN 7160 or AGRN 7166). Estimation and interpretation of genetic variance components, heritability, selection response, yield stability indices and their effect on choice of breeding method. Recurrent selection theory and breeding for resistance to plant stresses.

CSES 7180 CROP ECOLOGY (3) LEC. 3. Pr. (BIOL 6130 or CSES 7250) or (AGRN 7250 or AGRN 7256) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Analysis of structure and function of crop and pasture farming systems with emphasis on production processes and resource management.
CSES 7190 ADVANCED FORAGE MANAGEMENT AND RESEARCH METHODS (3) LEC. 3. Principles involved in successful establishment, maintenance and management of crops used for grazing, hay and silage, and research methods related to this field. Field trips will be made to research stations and private farms to observe management practices. Spring.

CSES 7250 CROP PHYSIOLOGY (3) LEC. 3. Pr. BIOL 3100. Integrates principles of plant physiology, biochemistry, ecology, and genetics as they relate to plant growth and development and crop yield. The effect of management practices and abiotic stress on plant growth and development will be discussed.

CSES 7276 SOIL MICROBIOLOGY (4) LEC. 4. Pr. (BIOL 1020 or BIOL 1027) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Soil as a medium for microbial growth, the relation of microbes to important mineral transformations in soil, the importance of biological equilibrium and significance of microbes.

CSES 7286 APPLIED GEOSTATISTICS (3) LEC. 3. Departmental approval. Application of regionalized variable theory to surface and subsurface landlords using semivariograms and kriging.

CSES 7316 ENVIRONMENTAL SOIL CHEMISTRY (3) LEC. 3. Pr. (CHEM 1010 or CHEM 1011) and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043). Study of soil chemical processes (sorption, desorption, ion exchange, precipitation, dissolution, and redox reactions) of nutrients and inorganic and organic contaminants in soils and organic matter.

CSES 7326 WETLANDS SOILS (3) LEC. 3. Departmental approval. Application of regionalized variable theory to surface and landforms using semivariograms and kriging.

CSES 7540/7546 PRINCIPLES OF PLANT NUTRITION (3) LEC. 3. Pr. CSES 6020 or CSES 6026 or (AGRN 6020 or AGRN 6026). Processes of nutrient flux to plant roots growing in soil. Chemistry and properties of soil in relation to the nutrition and growth of plants. Summer.

CSES 7550 SOIL AND PLANT ANALYSIS (4) LEC. 1. LAB. 6. Pr. CHEM 3050 and (CSES 6020 or CSES 6026) or (AGRN 6020 or AGRN 6026). Principles, methods and techniques of quantitative chemical analysis of soils and plants applicable to soil science. Fall.

CSES 7560 CLAY MINERALOGY (4) LEC. 3. LAB. 2. Crystal structure and properties of the important clay-size minerals of soils and clay deposits combined with identification techniques involving x-ray diffraction and spectroscopy, differential thermal analysis, electron microscopy, specific surface analysis, and infrared absorption.

CSES 7586 SOIL PHYSICS (3) LEC. 3. Pr. PHYS 1500 and (CSES 2040 or CSES 2043) or (AGRN 2040 or AGRN 2043).

CSES 7950/7956 SEMINAR (1) SEM. 1. SU. Required of all graduate students in Agronomy and Soils. Fall, Spring. Course may be repeated for a maximum of 2 credit hours.

CSES 7970 SPECIAL TOPICS (1-4) LEC. Advanced topics related to Crop, Soil and Environmental Sciences. Course may be repeated for a maximum of 8 credit hours.

CSES 7990/7996 RESEARCH AND THESIS (1-10) MST. Research and thesis on problems in the soil and crop sciences. Course may be repeated with change in topics.

CSES 8570 PHYSICAL SOIL CHEMISTRY (3) LEC. 3. Pr. (CSES 6300 or CSES 6306) and CHEM 6070 or (AGRN 6300 or AGRN 6306). Interpretation of soil properties and chemical reactions in terms of ion exchange, solubility diagrams, solutions equilibria, electrochemistry and electrokinetics of charged particles. Fall.

CSES 8580 FATE AND TRANSPORT OF CHEMICALS IN SOILS (3) LEC. 3. Pr. MATH 1720 and (PHYS 1600 or PHYS 1607) and CSES 7590. Transport phenomena in soils. Physical principles and analysis of the storage and movement of water, solutes, heat, and gases in soils. Spring.

CSES 8990 RESEARCH AND DISSERTATION (1-10) DSR. Research and dissertation on problems in the soil and crop sciences. Course may be repeated with change in topics.

**Design Build - DBLD**

**Courses**

**DBLD 5620 DESIGN CONSTRUCTION STUDIO (6)** LEC. 6. Pr. ARCH 4020. Second of three-studio progression. Skills associated with formation and schematic design phases of architectural project, with emphasis on rigorous design research methods, program development, and interdisciplinary team collaboration. Project initiated in 5620/6620 continues in subsequent semester.
DBLD 5640 SUSTAINABILITY FOR INTEGRATED PROJECT DELIVERY (3) LEC. 3. Departmental approval. Principles, terminology, and methods of sustainable design and construction, with emphasis on role of interdisciplinary design collaboration.

DBLD 6620 DESIGN CONSTRUCTION STUDIO (6) LEC. 6. Pr. DBLD 6610. Second of three-studio progression. Skills associated with formation and schematic design phases of architectural project, with emphasis on rigorous design research methods, program development, and interdisciplinary team collaboration. Project initiated in 5620/6620 continues in subsequent semester.

DBLD 6640 SUSTAINABILITY FOR INTEGRATED PROJECT DELIVERY (3) LEC. 3. Departmental approval. Principles, terminology, and methods of sustainable design and construction, with emphasis on role of interdisciplinary design collaboration.

DBLD 7020 INTEGRATED BUILDING PROCESSES I (3) LEC. 3. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability.

DBLD 7030 CONSTRUCTION INFORMATION MANAGEMENT (3) LEC. 3. Applications of advanced information technology in construction.

DBLD 7040 INTEGRATED BUILDING PROCESSES II (3) LEC. 3. Departmental approval. Construction project delivery, from pre-construction service through ownership. Topics include project management, pre-construction services, pre-planning, procurement, site utilization, subcontracts, commissioning, closeout, building operation, and long-term ownership.

DBLD 7550 COLLABOR PROCESS DES CONSTRU (3) LEC. 3. Current integrated delivery models and decision-making strategies related to interface of design and construction disciplines from professional, contractual, and technological perspectives. Emphasis on risk quantification between parties involved in integrated delivery.

DBLD 7551 COLLABORATIVE PRACTICE LAB (1) LAB. 4. Pr. DBLD 6620. Coreq., DBLD 6620 (students in design track). Problemsolving exercises related to effective pre-construction practices employed by design and construction professionals.

DBLD 7630 DESIGN CONSTRUCTION SUMMARY COMPREHENSIVE STUDIO (7) LEC. 7. Pr. DBLD 6620 or (DBLD 7550 or DBLD 7551) or (BSCI 7550 or BSCI 7556). Third of three-studio progression. Development of design and construction for architectural project in interdisciplinary teams, including analysis of constructability, projected construction cost, and scheduling.

DBLD 7650 EXECUTIVE ISSUES (3) LAB. Individually proposed problems or projects related to the construction industry. Students must prepare a written proposal with defined deliverables.

DBLD 7950 GRADUATE SEMINAR (1) SEM. 1. Departmental approval. Project manifestation and development preceding design and construction phases with emphasis on the project owner's perspective, the financial parameters, and the speculative demand driving project viability. Course may be repeated for a maximum of 3 credit hours.

Early Childhood Educ - CTEC

Courses

CTEC 3020 PRIMARY MATH AND SCIENCE (3) LEC. 3. Exploration of learning and pedagogy for the development of math and science concepts appropriate for children in Kindergarten through Grade 3.

CTEC 3030 INTUITIVE THOUGHT AND SYMBOLIC FUNCTION (3) LEC. 3. Coreq. CTEC 4911. Young children's intuitive thought for pre-service teachers.

CTEC 3150 LANGUAGE DEVELOPMENT: IMPLICATIONS FOR THE CHILDHOOD EDUCATOR (3) LEC. 3. Applications of language development theories to teaching children. Emphasis on the effects theories have on curriculum and teaching.

CTEC 3200 A WORKING THEORY FOR THE CONSTRUCTIVIST EDUCATOR (3) LEC. 3. Constructivist theory for pre-service teachers preparing to teach at the early childhood level.

CTEC 4210/4213 THE CONSTRUCTIVIST TEACHER: GROWING PROFESSIONALLY (1) AAB. 1. Pr. P/C CTEC 4920 or P/C CTEC 4923. Admission to Clinical Residency. The roles and responsibilities of being an early childhood professional. May count either CTEC 4210 or CTEC 4213.
CTEC 4900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Reading, research or other work undertaken independently by a student focused on a content area of special interest. Course may be repeated for a maximum of 6 credit hours.

CTEC 4910 PRACTICUM (1-6) PRA. SU. Departmental approval. Students and faculty cooperatively select and execute an appropriate field experience. Course may be repeated for a maximum of 6 credit hours.

CTEC 4911 PRACTICUM IN THE PRESCHOOL (2) LEC. 2. SU. Pr. CTEC 3200. Laboratory experiences with children from birth to five years of age designed to help students relate theory to practice. Course may be repeated for a maximum of 3 credit hours.

CTEC 4912 PRACTICUM IN PRIMARY GRADES (2) LEC. 2. SU. Pr. CTEC 3200. Coreq. CTEC 4200. Laboratory experiences with children 5 through 9 years of age help students relate theory to practice. Course may be repeated for a maximum of 3 credit hours.

CTEC 4920/4923 CLINICAL RESIDENCY (11) AAB. 40. SU. Pr. P/C CTEC 4210 or P/C CTEC 4213. Admission to Clinical Residency. Experience in a setting serving pre-primary or primary-school children with varying abilities. Admission to internship. May count either CTEC 4920 or CTEC 4923.

CTEC 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College Individual readings program. Departmental approval. Course may be repeated for a maximum of 3 credit hours.

CTEC 4997 HONORS THESIS (1-3) IND. Pr. Honors College. Departmental approval. Student thesis is finalized in this course. Course may be repeated for a maximum of 3 credit hours.

CTEC 7200/7206 EARLY CHILDHOOD EDUCATION PERSPECTIVE (3) LEC. 3. Historical overview of current issues, trends, and programs in early childhood education. May count either CTEC 7200 or CTEC 7206.

CTEC 7210/7216 ORIGINS OF THOUGHT (3) LEC. 3. Piaget's theories of how thought develops in young children. Comparison of the social and biological roots of thought. May not count either CTEC 7210 or CTEC 7216.

CTEC 7260/7266 PLAY AND EARLY CHILDHOOD EDUCATION (3) LEC. 3. Examination of children's play from a constructivist theoretical perspective and translation of theory into early childhood educational practice. May count either CTEC 7260 or CTEC 7266.

CTEC 7270/7276 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of a problem related to the thought, writing and research that form the theoretical foundations of constructivist approaches in early childhood education. May count either CTEC 7270 or CTEC 7276. Course may be repeated for a maximum of 9 credit hours.

CTEC 7510/7516 RESEARCH STUDIES IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. How to read, review, analyze and interpret significant research studies in early childhood education. May count either CTEC 7510 or CTEC 7516.

CTEC 7520/7526 CURRICULUM AND TEACHING IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Reappraisal of experiences and content for children by focusing on the nature of the learner and the nature of the knowledge to be learned. May count either CTEC 7520 or CTEC 7526.

CTEC 7530/7536 ORGANIZATION OF PROGRAM IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Organization, administration, and supervision of early childhood programs. May count either CTEC 7530 or CTEC 7536.

CTEC 7540/7546 EVALUATION OF PROGRAMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Assessment and evaluation of all program components from a constructivist perspective. May count either CTEC 7540 or CTEC 7546.

CTEC 7900 DIRECTED STUDIES (1-6) IND. SU. Departmental approval. Independent learning objectives related to the student’s area of specialization. Includes evaluation at regular intervals by professor and student. Course may be repeated for a maximum of 6 credit hours.

CTEC 7910/7916 PRACTICUM IN AREA OF SPECIALIZATION (1-6) PRA. SU. Experience relating theory and practice, usually in a school setting. Departmental approval. May count either CTEC 7910 or CTEC 7916. Course may be repeated for a maximum of 6 credit hours.

CTEC 7970 SPECIAL TOPICS (3-9) AAB. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 7990/7996 RESEARCH AND THESIS (1-10) MST. Course may be repeated with change in topics.
CTEC 8240/8246 RESEARCH IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. Review, analysis and interpretation of available research with emphasis on designing new research to meet the needs of young children. May count either CTEC 8240 or CTEC 8246.

CTEC 8270/8276 THEORY-BASED PROBLEMS IN EARLY CHILDHOOD EDUCATION (3) LEC. 3. In-depth exploration of problems related to the thought, writings, and research that form the theoretical foundations of constructivist approaches to early childhood education. Master's Degree. May count either CTEC 8270 or CTEC 8276. Course may be repeated for a maximum of 6 credit hours.

CTEC 8720/8726 DESIGNING EARLY CHILDHOOD CURRICULUM (3) LEC. 3. Application of early childhood history, philosophy, program analysis and constructivist theory to the design of early childhood curriculum. Master's Degree. May count either CTEC 8720 or CTEC 8726.

CTEC 8850 CONSTRUCTIVIST INVESTIGATIONS IN EARLY CHILDHOOD SETTINGS (3) LEC. 3. Analysis and interpretation of the design of constructivist investigation. Master's Degree.

CTEC 8950 SEMINAR (3) SEM. 3. Selected concepts and theoretical formulations of common interest. Course may be repeated for a maximum of 12 credit hours.

CTEC 8970 SPECIAL TOPICS (3-9) LEC. Departmental approval. Cooperative pursuit of selected concepts and theories, normally in small groups. Course may be repeated for a maximum of 9 credit hours.

CTEC 8980/8986 FIELD PROJECT (1-3) FLD. SU. Students conduct research on an educational problem and defend a field project report. Departmental approval. May not count either CTEC 8980 or CTEC 8986. Course may be repeated for a maximum of 3 credit hours.

CTEC 8990/8996 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with a change in topic. Course may be repeated with change in topics.

Economics - ECON

Courses

ECON 2020/2023 PRINCIPLES OF MICROECONOMICS (3) LEC. 3. Economic principles emphasizing scarcity and choice, consumer behavior, supply and demand, markets, production and cost, globalization of markets, role of government, and market and government failure.

ECON 2027 HONORS PRINCIPLES OF MICROECONOMICS (3) LEC. 3. Pr. Honors College Economic principles emphasizing scarcity and choice, consumer behavior, supply and demand, markets, production and cost, globalization of markets, role of government, and market and government failure.

ECON 2030/2033 PRINCIPLES OF MACROECONOMICS (3) LEC. 3. Economic principles emphasizing economic aggregates, including measuring economic performance, macroeconomic theory, inflation and unemployment, money and banking, and fiscal and monetary policy. May count either ECON 2030 or ECON 2033.

ECON 2037 HONORS PRINCIPLES OF MACROECONOMICS (3) LEC. 3. Pr. Honors College Economic principles emphasizing economic aggregates, including measuring economic performance, macroeconomic theory, inflation and unemployment, money and banking, and fiscal and monetary policy.

ECON 3020 INTERMEDIATE MICROECONOMICS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Theory of pricing under varying market conditions and distribution of income among the factors of production.

ECON 3030 INTERMEDIATE MACROECONOMICS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. A study of national economic aggregates and the market determination of output, employment, and inflation. Introduction to economic monetary and fiscal policy on the economy.

ECON 3040 CONSUMER ECONOMICS (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) or (ECON 2030 or ECON 2033 or ECON 2037). A broad study of consumer economics at both the household level and the national consumption aggregates.

ECON 3100 LAW AND ECONOMICS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Description of the many substantive areas in which law has an economics foundation and an analysis of how law affects economic relations.

ECON 3200 MONEY AND BANKING (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Theoretical and institutional analyses of monetary systems, foreign exchange, and commercial banking.
ECON 3300 ECONOMICS OF SPORTS (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Economic analysis of professional and collegiate sports, including the structure of competition and performance in individual and team sports.

ECON 3500 COMPARATIVE ECONOMIC SYSTEMS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Analysis of alternative government approaches to solving basic economic problems.

ECON 3600 MATHEMATICAL METHODS FOR ECONOMISTS (3) LEC. 3. Pr. ECON 3020 and (MATH 1690 or MATH 2630 or MATH 2637). Fundamental mathematical and quantitative methods employed by economists. Application of calculus, probability, statistics, and linear algebra to economics.

ECON 3700 HISTORY OF ECONOMIC THOUGHT (3) LEC. 3. Pr. ECON 2030 and ECON 2037. Development of economic ideas, principles and systems of analysis from early times to the present.

ECON 3800 PUBLIC CHOICE (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Economic analysis of public sector decision making. Emphasis on actions taken by voters, bureaucrats, and lobbyists elected to influence public sector outcomes.

ECON 4000 ECONOMICS OF WORK AND PAY (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Theoretical and institutional examination of the labor market, including wage theories, unionism, occupational choice, and public policy.

ECON 4100 INDUSTRIAL ORGANIZATION (3) LEC. 3. Pr. ECON 2020 or ECON 2023 or ECON 2027. Relationship of market structure to the pricing behavior and economic performance of firms. Topics include regulation, research and development, and technical change.

ECON 4200 GOVERNMENT, BUSINESS AND SOCIETY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or ECON 2020 or ECON 2023 or ECON 2027. Economic role of government in a free enterprise economy. Application of microeconomic theory to policy issues, particularly antitrust and regulation.

ECON 4300 INTERNATIONAL ECONOMICS (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Economic consequences of free trade, including identification and measurement of gains and losses. Analysis of trade restrictions, such as quotas, tariffs, VERs. Examination of labor and capital movements between nations.

ECON 4400 ECONOMICS OF INNOVATION (3) LEC. 3. Pr. (ECON 2020 or ECON 2023 or ECON 2027) or (ECON 2030 or ECON 2033 or ECON 2037). Study of how innovation and technological change impacts the individual firm and the national and global economies.

ECON 4600 ECONOMETRICS I (3) LEC. 3. Pr. ECON 3600 and (STAT 2010 or STAT 2017 or STAT 2510 or STAT 2513 or STAT 2610 or STAT 2600). Basic statistical toolbox to analyze economic data and evaluate economic models. Topics include simple and multivariate linear regressions, maximum likelihood estimation, serial correlation and heteroscedasticity, simultaneous equations, qualitative response models, and basic time series.

ECON 4920 INTERNSHIP (1-3) AAB/INT. SU. Pr. ECON 2030 or ECON 2033 and ECON 2037 or departmental approval. Course may be repeated for a maximum of 3 credit hours.

ECON 4967 HONORS SPECIAL PROBLEMS (1-3) IND. Pr. Honors College. ECON 3020 or Departmental approval. Directed readings on a topic of special interest. Course may be repeated for a maximum of 3 credit hours.

ECON 4970 SPECIAL TOPICS (1-3) AAB/IND. SU. Pr., Departmental approval. Investigation and research into economic problems of special interest to the student and instructor. Course may be repeated for a maximum of 6 credit hours.

ECON 4997 HONORS THESIS (1-3) IND. Pr. Honors College. ECON 3020 or Departmental approval. Directed honors thesis research. Course may be repeated for a maximum of 3 credit hours.

ECON 5020 ADVANCED MICROECONOMICS (3) LEC. 3. Pr. ECON 3020 and (MATH 1610 or MATH 1613 or MATH 1617) or Departmental approval. Mathematical analysis of market-based pricing and production. Includes the economics of information and uncertainty, and strategic behavior.

ECON 5030 MACROECONOMIC THEORY AND POLICY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Analysis of the national economy and impact of government policies on aggregate economic variables.

ECON 5100 ECONOMICS OF GROWTH AND DEVELOPMENT (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Cause and effects of economic growth and development, for example, ways of measuring growth, role of government policy, effects of growth and trade, and effects of investment.
ECON 5200 URBAN AND REGIONAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and ECON 3020. Nature and causes of state and local economic development, including plant location, residential location, interregional trade and factor flows, and public policy.

ECON 5400 ECONOMIC HISTORY OF THE UNITED STATES (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Survey of the economic advancement of the United States from European origins to the present.

ECON 5600 BUSINESS AND ECONOMIC FORECASTING (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and (STAT 2610 or STAT 2010 or STAT 2017) or Departmental approval. Interpretation of macroeconomic forecasting methods and development of competency in forecasting at the firm level.

ECON 5700 HEALTH ECONOMICS (3) LEC. 3. Pr., Departmental approval. Analysis of the economics of health care, including demand for and supply of health care and health care policy.

ECON 5800 GOVERNMENT SPENDING AND TAXATION (3) LEC. 3. Pr., Departmental approval. The economic rationale for government expenditures, economic consequences of public spending, and methods of taxation and funding of government programs.

ECON 6020 ADVANCED MICROECONOMICS (3) LEC. 3. Pr. ECON 3020 and (MATH 1610 or MATH 1613 or MATH 1617). Mathematical analysis of market-based pricing and production. Includes the economics of information and uncertainty and strategic behavior.

ECON 6030 MACROECONOMIC THEORY AND POLICY (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037 or Departmental approval. Analysis of the national economy and impact of government policies on aggregate economic variables.

ECON 6100 ECONOMICS OF GROWTH AND DEVELOPMENT (3) LEC. 3. Causes and effects of economic growth and development, for example ways of measuring growth, role of government policy, effects of growth and trade, and effects of investment.

ECON 6200 URBAN AND REGIONAL ECONOMIC DEVELOPMENT (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and ECON 3020. Nature and causes of state and local economic development, including plant location, residential location, interregional trade and factor flows, and public policy.

ECON 6400 ECONOMIC HISTORY OF THE UNITED STATES (3) LEC. 3. Pr. ECON 2030 or ECON 2033 or ECON 2037. Survey of the economic advancement of the United States from European origins to the present.

ECON 6600 BUSINESS AND ECONOMIC FORECASTING (3) LEC. 3. Pr. (ECON 2030 or ECON 2033 or ECON 2037) and (STAT 2610 or STAT 2010 or STAT 2017) or Departmental approval. Interpretation of macroeconomic forecasting methods and development of competency in forecasting at the firm level.

ECON 6700/6706 HEALTH ECONOMICS (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Analysis of the economics of health care, including demand for and supply of health care and health care policy.

ECON 6800 GOVERNMENT SPENDING AND TAXATION (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Economic rationale for government expenditures, economic consequences of public spending, and methods of taxation and funding of government programs.

ECON 7000 MANAGERIAL ECONOMICS (3) LEC. 3. Pr., Consent of MBA program director. Microeconomic theories of the firm and of markets, with emphasis on their applications to current business issues.

ECON 7110 MICROECONOMICS I (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Consumer behavior and market models of competition and monopoly. Traditional and contemporary theories of consumer and household behavior under constraint; models of competitive behavior.

ECON 7120 MICROECONOMICS II (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Analysis of producer behavior, including production theory, cost theory, profit maximization, theories of various market structures, and derived demand for inputs.

ECON 7130 MATHEMATICAL ECONOMICS (3) LEC. 3. Pr. ECON 3020 and ECON 6030 or Departmental approval. Fundamental mathematical methods in economics and econometrics, including linear and matrix algebra, calculus, comparative statistics, optimization, concavity, constrained optimization dynamics difference equations, and differential equations.

ECON 7210 MACROECONOMICS I (3) LEC. 3. Pr. ECON 6030 or Departmental approval. Evaluation of fundamental theoretical and policy-oriented issues in macroeconomics, emphasizing post-Keynesian developments.
ECON 7220 MACROECONOMICS II (3) LEC. 3. Pr. ECON 6030 or Departmental approval. Foundations of macroeconomics, neoclassical production and growth theory, overlapping generations models, optimal saving, open economy macroeconomics, applied time series macrodynamics.

ECON 7310 ECONOMETRICS I (3) LEC. 3. Pr., Departmental approval. Advanced treatment of the standard linear model of least square theory, including assumptions and properties of the SLM and the statistical testing of behavioral hypotheses.

ECON 7320 ECONOMETRICS II (3) LEC. 3. Pr. ECON 7310. Econometric techniques employed in advanced empirical research. Topics include estimation and inference in simultaneous equation systems, limited dependent variables, non-nested testing, time-series analysis.

ECON 7330 MICROECONOMETRICS (3) LEC. 3. Pr. ECON 7310. Econometric techniques for applied microeconomics. Limited dependent variable models, survival and count data analysis, and selection bias.

ECON 7410 HISTORY OF ECONOMIC THOUGHT I (3) LEC. 3. Pr. ECON 3700 or Departmental approval. Analysis and study of classical contributions to economics, from early times to Karl Marx.

ECON 7420 HISTORY OF ECONOMIC THOUGHT II (3) LEC. 3. Pr. ECON 3700 or Departmental approval. Neoclassical economics, including the theories of Mill, Jevons, early Austrians, early French contributors, Veblenian institutional economics, and Alfred Marshall.

ECON 7990 RESEARCH AND THESIS (1-6) MST. Course may be repeated with change in topics.

ECON 8110 ADVANCED MICROECONOMICS I (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Advanced analysis, integrating the economics of time and uncertainty into mainline price theory.

ECON 8120 ADVANCED MICROECONOMICS II (3) LEC. 3. Pr. ECON 7120. or Departmental approval. Advanced analysis, integrating imperfect information and strategic behavior into economic models of trade and investment.

ECON 8210 TOPICS IN MACROECONOMICS (3) LEC. 3. Pr. ECON 7220 or Departmental approval. Goals, procedures and achievements in attaining monetary objectives domestically and abroad. Emphasis on macro-money models and effects of monetary policy on economic activity.

ECON 8420 ECONOMIC INSTITUTIONS AND CONTEMPORARY ECONOMIC THEORY (3) LEC. 3. Pr., Departmental approval. How contemporary economic theory helps explain the emergence, hey-day, and decline of economic institutions, including social and regulatory institutions.

ECON 8510 ECONOMICS OF TAXATION (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Examines tax structures in the United States, evaluates tax reform proposals, and studies the effects of taxation on resource allocation and economic welfare.

ECON 8520 PUBLIC CHOICE (3) LEC. 3. Pr., Departmental approval. Advanced analysis of governmental expenditures and other not-for-profit sectors of the economy.

ECON 8530 ECONOMIC ANALYSIS OF THE LAW (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Advanced analysis of the substantive areas in which law has an economic foundation and ways law affects economic relations.

ECON 8540 SEMINAR IN ENVIRONMENTAL ECONOMICS (3) LEC. 3. Pr. ECON 3020 or Departmental approval. Advanced analysis of pricing and allocation of renewable and non-renewable resources.

ECON 8550 EXTERNALITIES AND PUBLIC GOODS (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Advanced analysis of pricing and allocation of economic goods when property rights are not well defined.

ECON 8610 INDUSTRIAL ORGANIZATION I (3) LEC. 3. Pr. ECON 7120. or Departmental approval.. Determinants of market structure, effects of market structure on industry performance, theory of the firm, research and development, advertising, and vertical integration.

ECON 8620 INDUSTRIAL ORGANIZATION II (3) LEC. 3. Pr. ECON 7120 or Departmental approval. Case studies in the history and current practice of regulation in the United States at all levels.
ECON 8710 INTERNATIONAL TRADE (3) LEC. 3. Pr., Departmental approval. Trade theory, including classical, neoclassical, factor proportions, and industrial organization. Applied trade theory and empirical applications.

ECON 8720 INTERNATIONAL MACROECONOMICS (3) LEC. 3. Pr., Departmental approval. Theoretical and applied time series analysis at open economy macroeconomic models, international monetary and financial theory, balance of payments theory, and exchange rates.

ECON 8810 LABOR MARKET ANALYSIS (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Analysis of labor markets, and determination of wages and other terms of employment. Emphasis on academic studies of labor market issues.

ECON 8820 TOPICS IN LABOR ECONOMICS (3) LEC. 3. Pr. ECON 7110 or Departmental approval. Selected topics, including education and on-the-job training. Labor mobility and immigration, employment discrimination, and the impact of labor unions.

ECON 8970 SPECIAL TOPICS (1-3) IND. Pr., Departmental approval. Advanced topics related to economics. Course may be repeated for a maximum of 12 credit hours.

ECON 8980 ECONOMICS WORKSHOP (1) LEC. 1. Pr., Departmental approval. Individual research projects, presentations, and discussions of the economics profession.

ECON 8990 RESEARCH AND DISSERTATION (1-10) DSR. Course may be repeated with change in topics.

**Ed Res Methods & Analysis - ERMA**

**Courses**

ERMA 7100 ADVANCED STUDY OF EDUCATIONAL MEASUREMENT AND EVALUATION (3) LEC. 3. Educational measurement and evaluation with special emphasis on uses of measurement data such as standardized testing and emerging evaluation models such as alternative and authentic assessment.

ERMA 7110 EDUCATIONAL PSYCHOLOGY AND ASSESSMENT (3) LEC. 3. Study of educational psychology as it applies to understanding the teaching-learning process. Measurement and evaluation skills will also be covered.

ERMA 7200/7206 BASIC METHODS IN EDUCATION RESEARCH (3) LEC. 3. Major modes of inquiry in contemporary educational research including experimental, casual comparative, descriptive, qualitative inquiry, and action research models. May count either ERMA 7200 or ERMA 7206.

ERMA 7210 THEORY AND METHODOLOGY OF QUALITATIVE RESEARCH (3) LEC. 3. Major modes of qualitative research, their underlying philosophical assumptions about knowledge, and the major strategies for collecting and analyzing relevant data.

ERMA 7220 APPLIED QUALITATIVE RESEARCH (3) LEC. 3. Pr. (ERMA 7210 or FOUN 7210 or FOUN 7216). Study of detailed strategies of data collection, principles of observation, interviewing, focus groups, recording and coding data, triangulation, strategies for analyzing coded data, and writing up of one's findings.

ERMA 7300/7306 DESIGN AND ANALYSIS IN EDUCATION I (3) LEC. 3. Basic methods of inferential analysis including t-tests, between and within subjects ANOVA, mixed ANOVAs and hierarchical designs as they are utilized in educational research. Departmental approval. May count either ERMA 7300 or ERMA 7306.

ERMA 7310/7316 DESIGN AND ANALYSIS IN EDUCATION II (3) LEC. 3. Pr. (FOUN 7300 or ERMA 7300) or (FOUN 7306 or ERMA 7306). Bivariate and multiple correlation and regression analysis, trend analysis, analysis of covariance, and logistic regression, as they are utilized in educational research. Departmental approval. May count either ERMA 7310 or ERMA 7316.

ERMA 7320/7326 APPLIED QUANTITATIVE RESEARCH (3) LEC. 3. Pr. (ERMA 7200 or ERMA 7206 or FOUN 7200 or FOUN 7206) and (ERMA 7300 or ERMA 7306) or (FOUN 7300 or FOUN 7306). The study and application of detailed strategies of research study designs, data collection, analysis, and reporting of quantitative data. May count either ERMA 7320 or ERMA 7326. Course may be repeated for a maximum of 6 credit hours.

ERMA 7400 MIXED METHODS RESEARCH (3) LEC. 3. Pr. ERMA 7200. Overview and introduction to the use of mixed methods research in the social and behavioral sciences.

ERMA 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student's learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.
ERMA 7970 SPECIAL TOPICS IN FOUNDATION OF EDUCATION (3-6) LEC. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education. Course may be repeated for a maximum of 6 credit hours.

ERMA 8100/8106 PROGRAM EVALUATION (3) LEC. 3. Study of various theories and models of curriculum evaluation, methodological issues regarding planning and conducting evaluation studies, reporting and using information from evaluation. May count either ERMA 8100 or ERMA 8106.

ERMA 8120 TEACHER EVALUATION (3) LEC. 3. Analysis of research on teaching, classroom observation methods, teaching portfolios, supervision of teachers, license and certification assessment, ethical and legal consideration, and using information to improve teaching.

ERMA 8200/8206 SURVEY RESEARCH METHODS (3) LEC. 3. Overview of survey research, sampling issues, selection and construction of survey instruments, response effects, issues influencing response rate, reliability and validity of survey data, and analysis of survey data. May count either ERMA 8200 or ERMA 8206.

ERMA 8210/8216 PREP RESEARCH FOR PUBLICATION (3) LEC. 3. Pr. (ERMA 7300 or ERMA 7306) and (ERMA 7310 or ERMA 7316) and ERMA 7210 or (FOUN 7210 or FOUN 7216) or (ERMA 7300 or FOUN 7306) or (ERMA 7310 or FOUN 7316). Preparation of graduate student research for publication or presentation at professional conference through practice, group discussions, peer review and feedback from experienced editorial board members. May count either ERMA 8210 or ERMA 8216.

ERMA 8320/8326 DESIGN AND ANALYSIS IN EDUCATION III (3) LEC. 3. Pr. (ERMA 7300 or ERMA 7306) or (ERMA 7316 or FOUN 7316). Discriminate analysis, MANOVA, canonical correlation, path analysis, exploratory and confirmatory factor analysis, and hierarchical linear modeling as they are utilized in educational research. Departmental approval. May count either ERMA 8320 or ERMA 8326.

ERMA 8330 NON-PARAMETRIC DATA ANALYSIS IN EDUCATION RESEARCH (3) LEC. 3. Pr. FOUN 7300 or FOUN 7306 or ERMA 7300 or ERMA 7306. Departmental approval. Common non-parametric statistical tests appropriate for use with nominal and ordinal data in educational applications. These include rank-order correlation, sign tests, median tests, analysis of variance of ranks and log-linear analysis.

ERMA 8340 A PRACTICAL INTRODUCTION TO STRUCTURAL EQUATION MODELING (3) LEC. 3. Pr. (ERMA 7300 or ERMA 7306) and (ERMA 7316 or FOUN 7316). Departmental approval. Theory and practice of structural equation modeling techniques as they are utilized in educational research will be developed by expanding concepts of multiple linear regression and exploratory factor analysis to allow for correlation and causally related latent constructs.

ERMA 8350 ADVANCED MEASUREMENT THEORY (3) LEC. 3. Pr. FOUN 7300 or ERMA 7300 or ERMA 7306 or FOUN 7306. Introduction to classical and modern (IRT) test theory, measurement properties, differential item functioning, standard and adaptive testing.

ERMA 8990/8996 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with change in topics.

Educ Psychology - EPSY

Courses

EPSY 7400/7406 ED PSYCH & EDUCATIONAL IMPLICA (3) LEC. 3. Educational psychology theory and research addressing critical problems, challenges, and opportunities in education or other growth-oriented settings. Content ranges from the study of learning to educational evaluation and authentic assessment. May count either EPSY 7400 or EPSY 7406

EPSY 7410 THE INDIVIDUAL IN THE TEACHING-LEARNING PROCESS (3) LEC. 3. The study of human growth, development, and motivation theory and research, including culture, socio-economic status, language, gender and race as a base for understanding individual differences and their sources.

EPSY 7420/7426 LEARNING THEORY AND EDUCATIONAL PRACTICE (3) LEC. 3. Advanced study of learning theory and research with an emphasis on application to effective design, implementation, and evaluation of instruction. May count either EPSY 7420 or EPSY 7426.
EPSY 7430 MOTIVATION AND ACHIEVEMENT (3) LEC. 3. Social, cultural, and psychological antecedents of achievement motivation are examined. This process requires reviewing theories and research, and emphasis is placed on discerning implications for practice and policy.

EPSY 7440 CLASSROOM MANAGEMENT: SKILLS AND REFLECTION (3) LEC. 3. Advanced study and analysis of existing classroom management discipline models including observation research activity.

EPSY 7450 PERSONAL AND PROFESSIONAL DEVELOPMENT AND PERSONALITY DYNAMICS (3) LEC. 3. Survey of different theories and models of personality leading to in-depth study of theories and models most applicable for use in conceiving of and building personal and professional development plans.

EPSY 7900 DIRECTED STUDIES (1-6) IND. SU. Special study in which the student’s learning efforts are guided toward desired objectives. Course may be repeated for a maximum of 6 credit hours.

EPSY 7970 SPECIAL TOPICS IN FOUNDATION OF EDUCATION (3-6) LEC. Consideration of historical, philosophical, social, psychological, measurement, statistics or research issues, and their impact on education.

EPSY 8410/8416 LEARNING IN THE SOCIAL CONTEXT (3) LEC. 3. Examination of the complex nature of learning as a socially-shared and individualized process. Topics may include the social construction of knowledge, scaffolded instruction, cognitive apprenticeships, and problem based learning. May count either EPSY 8410 or EPSY 8416.

EPSY 8430 TOPICAL SEMINAR IN LEARNING, COGNITION, AND INSTRUCTION (3) LEC. 3. An intensive and advanced study of research and theory on selected topics. Examples include folk theories of mind and alternative methods of studying thinking.

EPSY 8440 ED PSYCH APPRENT SEMINAR (3) LEC. 3. Focuses on the historical foundations of educational psychology as well as possibilities for future disciplinary development.

EPSY 8540 EDUCATIONAL PSYCHOLOGY RESEARCH APPRENTICESHIP SEMINAR (3) LEC. 3. A structured context for students to begin applying what they have learned from their research methods and statistic courses. Students will design and conduct research that contributes to the educational psychological knowledge base.

EPSY 8640 EDUCATIONAL PSYCHOLOGY LEARNING AND INSTRUCTION APPRENTICESHIP SEMINAR (3) LEC. 3. A structured opportunity for students to begin applying educational psychological concepts and theories in the classroom. Students will study theories of learning and instruction and begin to translate and implement these theories into practice.

EPSY 8990/8996 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertations. Course may be repeated with changes in topic.

Educational Leadership - EDLD

Courses

EDLD 7200 SUPERVISION AND PERSONNEL MANAGEMENT (3) LEC. 3. Supervision theory and practice with responsibility for leadership in the recruitment, evaluation and staff development of employees.

EDLD 7210/7216 MULTIPROFESSIONAL LEADERSHIP (3) LEC. 3. Theories, concepts and principles of leadership from a multi-disciplinary, multi-professional perspective. Students will apply knowledge to practice in diverse settings and situations. May count either EDLD 7210 or EDLD 7216.

EDLD 7220 ORGANIZATIONAL AND SCHOOL MANAGEMENT (3) LEC. 3. Procedures and practices in school educational management. Covers business management, facilities, student activities, library services, transportation, and student records.

EDLD 7230 STUDENT SERVICES ADMINISTRATION IN POSTSECONDARY EDUCATION (3) LEC. 3. Organization, administration and evaluation of student personnel services in post-secondary education.

EDLD 7330 INTRODUCTION TO CURRICULUM AND INSTRUCTIONAL LEADERSHIP (3) LEC. 3. Principles of curriculum development and the leadership skills required to enact it with emphasis on school settings.
EDLD 7340 OVERVIEW OF CURRICULUM PROCESSES (3) LEC. 3. Curriculum as a field of study; the first course required for the ASC concentration in curriculum; an overview of curriculum history, processes, models, and designs.

EDLD 7500 PRINCIPAL LEADERSHIP (3) LEC. 3. Designed to serve instructional leaders in K-12 settings concerning leadership dispositions and leadership theory important to promoting student success and achievement.

EDLD 7510/7516 ACTION RESEARCH AND DATA ANALYSIS (3) LEC. 3. Research methodologies to improve instructional and school-based decision-making action, qualitative, and case study techniques applied to school, classroom, or school-community observation. May count either EDLD 7510 or EDLD 7516.

EDLD 7520/7526 LEADERSHIP AND THE LEARNING ORGANIZATION (3) LEC. 3. Management of schools as learning organizations; issues related to student learning and achievement through attention to organizational components. May count either EDLD 7520 or EDLD 7526.

EDLD 7530/7536 PLANNING AND CONTINUOUS IMPROVEMENT (3) LEC. 3. Development of frameworks for collection, analysis, and use of school data for the improvement of instruction, the learning environment, and student achievement. May count either EDLD 7530 or EDLD 7536.

EDLD 7540/7546 INSTRUCTIONAL AND CURRICULAR LEADERSHIP (3) LEC. 3. Curriculum design and development; areas of study include student needs, organizational mission and goals, data driven improvement, change process, diverse faculty, curriculum alignment tools. May count either EDLD 7540 or EDLD 7546.

EDLD 7550/7556 EDUCATIONAL FINANCE AND RESOURCE MANAGEMENT (3) LEC. 3. Preparation of pro-active leaders in school business affairs; use of action research and components of a comprehensive, ongoing, planning and budgeting program; facilities management. May count either EDLD 7550 or EDLD 7556.

EDLD 7560 EDUCATIONAL SYSTEMS AND COMMUNITIES (3) LEC. 3. Change theory, forecasting, trend analysis and application of these concepts to student achievement and school improvement efforts.

EDLD 7570 LEGAL AND ETHICAL ISSUES (3) LEC. 3. Ethical and legal provisions for education communities: emphasis on the support of and belief in the cultural value of a diverse and educated democratic society.

EDLD 7580/7586 SUPERVISION AND PERSONNEL ISSUES IN EDUCATION (3) LEC. 3. Policies and practices related to teacher recruitment, selection, evaluation, and professional development; faculty/staff developmental processes that impact student achievement and school improvement efforts. May count either EDLD 7580 or EDLD 7586.

EDLD 7900 DIRECTED STUDIES (1-9) IND. SU. Independent study directed toward desired objectives. Includes evaluation by professor and student at regular intervals. Course may be repeated for a maximum of 9 credit hours.

EDLD 7910/7916 PRACTICUM (1-6) PRA. Experience closely relating theory and practice, usually conducted in realistic settings. May count either EDLD 7910 or EDLD 7916. Course may be repeated for a maximum of 6 credit hours.

EDLD 7920 ADMINISTRATIVE INTERNSHIP (1-6) AAB/INT. Departmental approval. Opportunities for interns to internalize and employ administrative skills learned during graduate coursework. Course may be repeated for a maximum of 6 credit hours.

EDLD 7930 ADMINISTRATIVE INTERNSHIP/RESIDENCY (1-6) INT. Ongoing field-based experiences in educational administration; observation, participation, and leading with practicing administrators in school systems. Course may be repeated for a maximum of 6 credit hours.

EDLD 7970 SPECIAL TOPICS (1-9) LEC. Variable content for advanced studies in the area of educational leadership. Course may be repeated for a maximum of 9 credit hours.

EDLD 8200/8206 ASSESSMENT AND EVALUATION IN LEARNING ORGANIZATIONS (3) LEC. 3. Study of assessment and evaluation practices that enable learning organizations to use data for decision-making purposes. May count either EDLD 8200 or EDLD 8206.

EDLD 8210 EDUCATIONAL LEADERSHIP: THEORY AND PRACTICE (3) LEC. 3. Leadership theory and applications for K-12 settings.

EDLD 8220/8226 PERSONAL AND PROFESSIONAL DEVELOPMENT (3) LEC. 3. Includes theoretical frameworks and applications for successful and systematic mentoring of professionals in organizations. May count either EDLD 8220 or EDLD 8226.
EDLD 8230 SYSTEMIC PLANNING AND BUDGETING (3) LEC. 3. Covers the components and implementation of a comprehensive ongoing planning and budgeting program for learning organizations.

EDLD 8240/8246 TRENDS AND ISSUES IN EDUCATIONAL ADMINISTRATION (3) LEC. 3. Trends and issues affecting educational institutions with particular attention to development of administrative procedures to cope with educational changes. May count either EDLD 8240 or EDLD 8246.

EDLD 8250 ORGANIZATIONAL POWER, POLITICS AND POLICY FORMATION (3) LEC. 3. Analysis of social forces, antecedent movements, and political actions affecting organizations. The study of policy development and practice.

EDLD 8260/8266 THEORY AND DEVELOPMENT OF ORGANIZATIONS (3) LEC. 3. Theoretical frameworks of educational organizations. May count either EDLD 8260 or EDLD 8266.

EDLD 8270/8276 LEADERSHIP IN FINANCE AND MANAGEMENT (3) LEC. 3. Theory and practice of instructional leadership related to personnel and fiscal management of a school or school district. May count either EDLD 8270 or EDLD 8276.

EDLD 8280 THE SUPERINTENDENCY IN EDUCATION (3) LEC. 3. Theoretical frameworks of educational organizations.

EDLD 8300 CURRICULUM THEORY AND PRACTICE (3) LEC. 3. Pr. EDLD 7340. Advanced course dealing with application of curriculum theories with an emphasis on the impact of philosophical and theoretical beliefs on practice. Departmental approval; or other General Curriculum course.

EDLD 8310/8316 LEADERSHIP IN THE DEVELOPMENT AND APPLICATION OF CURRICULUM AND THEORY DESIGN (3) LEC. 3. Application of transformative leadership in the design, delivery, and evaluation of curriculum in a wide variety of organizational settings. May count either EDLD 8310 or EDLD 8316.

EDLD 8320/8326 CURRICULUM LEADERSHIP FOR ORGANIZATIONS (3) LEC. 3. Pr. EDLD 7340 and EDLD 8300 and EDLD 8310 or EDLD 8316. For those considering a career in upper level management. focuses on context, societal, and political influences related to curriculum processes and organizational change. Departmental approval. May count either EDLD 8320 or EDLD 8326.

EDLD 8340 TRANSFORMATIONAL PROCESSES AND ORGANIZATIONAL CHANGE (3) LEC. 3. Organizational and transformational change at personal, interpersonal, and institutional levels.

EDLD 8400/8406 ETHICS FOR LEADERS (3) LEC. 3. Theory and practice of ethics and the role of ethical and personal integrity for leaders in the context of educational organizations and the communities they serve. May count either EDLD 8400 or EDLD 8406.

EDLD 8480 INSTITUTIONAL RESEARCH AND DECISION SUPPORT (3) LEC. 3. Components of institutional research and assessment programs that can support the comprehensive planning, decision support, and management needs of the institution.

EDLD 8500 THE PROFESSORIATE (3) LEC. 3. Study of differences and similarities in faculty roles, work, and career paths using various disciplinary and institutional lenses.

EDLD 8510 SEMINAR IN COLLEGE TEACHING (3) LEC. 3. Overview of major issues in Higher Education and methods of instruction in college teaching. Involves use of experiential learning, group and collaborative activities such as microteaching, case studies, e-mail dialogue and reflective writing.

EDLD 8600/8606 MENTORING FOR CAREER DEVELOPMENT (3) LEC. 3. Assist graduate students in discovering how mentioning can enhance their career/professional development and benefit their organizations. May count either EDLD 8600 or EDLD 8606.

EDLD 8940/8946 DIRECTED FIELD EXPERIENCE IN EDUCATIONAL LEADERSHIP (1-6) FLD. Field-based experience in diverse settings to develop knowledge, skills, and abilities in an area of special interest. Course may be repeated for a maximum of 6 credit hours.

EDLD 8950 SEMINAR (3) SEM. 3. Professional and social integration into doctoral program; enhancement of professional knowledge through structured inquiry, professional dialogue, and reflective thinking. Course may be repeated for a maximum of 6 credit hours.

EDLD 8980/8986 PROJECT ANALYSIS (3) LEC. 3. Problem solving, reflective practice and action research and used for continuous school improvement. Provides opportunities to engage in diverse field based research projects. May count either EDLD 8980 or EDLD 8986.

EDLD 8990/8996 RESEARCH AND DISSERTATION (1-10) DSR. Individualized support and direction for students writing their dissertation. Course may be repeated for a maximum of 10 hours. Course may be repeated with change in topics.
Educational Media - EDMD

Courses

EDMD 3300 UTILIZATION OF INSTRUCTIONAL TECHNOLOGY FOR EDUCATORS (2) LEC. 1. LAB. 2. Basics of current and emerging instructional & communication technologies with primary emphasis on curricular integration. Location, selection, and application of technology resources (WWW, commercially authored software, etc.) for curricular needs with emphasis on developmental stages, learning styles and learning technologies. Limited to majors requiring teaching certification.

EDMD 5000 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments.

EDMD 5100 MEDIA FOR CHILDREN (3) LEC. 3. Examination and evaluation of current literature in print and other formats, including oral literature. Focuses on literary and instructional criteria for selecting and utilizing media.

EDMD 6000/6006 INSTRUCTIONAL TECHNOLOGY FOR TEACHING AND LEARNING (3) LEC. 3. Introduction to the systematic application of instructional technologies in teaching and learning environments. May count either EDMD 6000 or EDMD 6006.
