

Tiger ID/Tiger Club Accounts

The Tiger ID is the official form of identification for every Auburn University Student. It is used to check out books at the university libraries, gain access to buildings or labs, gain entry to university related events, and may be required for other campus functions. A Tiger Club Account provides a convenient means of making purchases on campus and at selected off-campus locations using the student's Tiger ID. This account can be used at bookstores, dining facilities, vending locations, grocery stores, and other student services.

To make purchases at selected off-campus locations using the AU Tiger ID, an AU student first must deposit funds into an established Tiger Club Account. Purchases will be debited from the available funds in the student's account. Cash withdrawals are not permitted, and balance refunds may be made only on a closed account. Refunds will be transferred to the Office of Student Financial Services and applied to any debt owed Auburn University. The Office of Student Financial Services will refund any remaining balance to the student.

Deposits into a Tiger Club Account must be made electronically at www.auburn.edu/tigercard (<https://www.auburn.edu/administration/tigercard/>). Students may view Itemized statements for recent transactions online.

Additional information regarding the Tiger ID/Tiger Club Accounts may be obtained by contacting the Tiger ID Office.
