Degree Programs:

- Forestry - MS (http://bulletin.auburn.edu/thegraduateschool/graduatedegreesoffered/forestrymnrmsphd_major/forestry_ms)
- Forestry - PhD (http://bulletin.auburn.edu/thegraduateschool/graduatedegreesoffered/forestrymnrmsphd_major/forestry_phd)

Graduate study in forestry leads to the Master of Natural Resources (MNR), Master of Science (MS), or Doctor of Philosophy (PhD) degrees. In addition to meeting Graduate School admission requirements, applicants are evaluated and recommended for admission by the graduate faculty of the School of Forestry and Wildlife Sciences based on an examination of their scores on the Graduate Record Examination (GRE), TOEFL tests for international students, their previous academic record, experience, and recommendations. While exceptions may be made, the faculty generally expect a minimum GPA of 3.0 in previous academic course work and minimum scores both verbal and quantitative in the 50 percentile range for the GRE. Course deficiencies are identified by the student’s advisory committee and approved by the GPO with due consideration for the student’s previous training and experience.

Degrees offered:

- Master of Natural Resources - Three MNR options are available.
  
  - **Natural Resource Management** option is available for individuals with a biologically related baccalaureate degree who are interested in careers in the management and policy making for our natural resources. This option can be completed in 3-4 semesters depending upon coursework selected and requires a minimum of 36 semester hours of graduate courses.
  
  - **Advanced Forestry Studies** for students with undergraduate degrees in forestry. It will also involve primarily advanced course work and can be completed in 3-4 semesters. This option requires a minimum of 36 semester hours of graduate courses.
  
  - **Professional Forester** option for individuals with baccalaureate degrees in fields other than forestry and who are interested in becoming Registered Foresters in Alabama. This option is a two-year program which begins with a 10 week summer Field Practicum and requires a minimum of 70 semester hours (34 hours of specified undergraduate course work plus 36 hours of graduate course work).

- Requirements for all three MNR options include a MNR paper (FORY7980) and Graduate Seminar FOWS7950. All MNR students are required to pass a comprehensive oral examination conducted by their Graduate Committee.

- **Master of Science (MS)** A research proposal and thesis based on original research are major components of the MS degree. The program normally requires 2 – 3 years for completion, and can be tailored for students with interests in forest management, ecology and environmental sciences, economics, engineering, or business. The MS degree program requires a minimum of 30 hours beyond the bachelor degree at the graduate level, 21 hours of which must be in the major. A minimum of 4 but not more than 6 hours in Research and Thesis (FORY7990) is required. All MS students are required to take Research Methods (FORY7510) and Seminar (FOWS7950).

- **Doctor of Philosophy (PhD)** may be tailored for any of the topical areas listed under the M.S. A research proposal and dissertation based on original research are required as major components of the PhD degree program. The degree requires 60 semester hours beyond the bachelor degree. There must be a minimum of 30 semester hours in graded coursework at the 7000-level or above. Of the remaining 30 semester hours, 10 hours must be Research and Dissertation (FORY8990) and 20 hours of 6000-level or above. While some of these 60 hours can be from previous graduate work, such as a MS degree, a minimum of 25 hours of graded coursework at the 6000-level or above must be completed at Auburn. All PhD students are required to take Research Methods (FORY7510) and Seminar (FOWS7950). Oral and written preliminary exams are required for advancement to candidacy; The preliminary exams must be completed no less than two academic terms prior to graduation. The written and oral preliminary examinations for PhD students will normally consist of questions from each committee member regarding technical competency and other related issues.

An urban forestry minor, administered in cooperation with the Department of Horticulture, is available for MNR, MS, and PhD degrees.
