Interdepartmental Graduate Program in Sociology:
Rural Sociology MS Thesis & MS Nonthesis

Degree Programs:

- Rural Sociology - MS (http://bulletin.auburn.edu/thegraduateschool/graduatedegreesoffered/sociologymsma_major/ruralsociology_ms)
- Sociology - MA, MS (http://bulletin.auburn.edu/thegraduateschool/graduatedegreesoffered/sociologymsma_major)
- Agricultural Economics - MS, MAg (http://bulletin.auburn.edu/thegraduateschool/graduatedegreesoffered/agriculturaleconomicsandruralsociologymsmag_major)

The master's program in rural sociology is part of the Interdepartmental Graduate Program in Sociology (IDGPS). The Program is administered by co-directors representing the Departments of Sociology, Anthropology & Social Work (College of Liberal Arts) and Agricultural Economics & Rural Sociology (College of Agriculture).

IDGPS offers study and research leading to the degrees of Master of Science in Rural Sociology and Master of Arts or Master of Science in Sociology. Anthropologists, social work faculty, rural sociologists, and sociologists make up the faculty. For additional information, please visit http://www.cla.auburn.edu/sociology/sociology-program/graduates/the-interdepartmental-masters-program/.

Admission Requirements

Applicants are required to have a bachelor's degree from an accredited institution, and they are generally required to have a minimum GRE score of 290 (150 V and 140 Q) and a GPA of 3.0 on all completed coursework. The applicant's statement of interest and letters of recommendation are also considered in making a decision on admission.

Applicants should ensure the following materials are submitted to the Graduate School web-based application system:

- Official scores from the General Test of the GRE
- Official transcripts from every college and university attended
- If an international student, the official score from the TOEFL exam
- Three recommendations

Rural sociology applicants should ensure that the following is submitted to the Co-Director for Rural Sociology in the Department of Agricultural Economics & Rural Sociology.

- Statement of interest

Applications to the Program are reviewed, year round, by the Co-Directors who will evaluate each dossier.

Thesis and Non-Thesis Options

Thesis and non-thesis options are available for the MS degree in Rural Sociology. These two degree options are designed to serve the needs of differing types of students. The thesis option is recommended for students who are interested in gaining research experience or who might be interested in pursuing advanced graduate work. The non-thesis option is designed for individuals who are in mid-career, who wish to learn new skills in order to be more productive professionally, and who do not plan to pursue a more advanced graduate degree.

The thesis option requires a minimum of 30 semester hours, with 6 semester hours of this total being for research and thesis (RSOC7990 Research and Thesis). The non-thesis option requires 36 semester hours of course credit and the completing of a capstone paper.

Required Core Courses

All IDGPS students take three core graduate courses:

- SOCY7000 Advanced Sociological Theory
- SOCY7100 Statistical Analysis of Survey, Aggregate, and Large Data Sources
- RSOC7700 Methods of Social Research
Students without undergraduate coursework in these core areas may be required to take additional courses. Additional courses at the 6000-level and above are taken with the advice of the student's graduate advisory committee.

**Financial Aid**

A variable number of graduate teaching assistantships (GTA) and graduate research assistantships (GRA) are available on a competitive basis to support graduate students in the program. Strong preference is given to funding students pursuing the thesis option.

Admission to the program is determined by the program's Co-Directors after consultation with faculty, but funding decisions are made by the individual departments. To be considered for funding, applicants should have a completed application and have submitted the following:

- Application for Graduate Assistantships form.

Most graduate assistantships require the commitment of 13-15 hours of work per week. Given these responsibilities, graduate students holding assistantships are expected to take no more than 9 hours of graduate credit coursework per semester.

Graduate Teaching Assistantships (GTAs) are associated primarily with students in the Department of Sociology, Anthropology & Social Work. GTAs work with faculty teaching in the undergraduate core curriculum. In contrast, Graduate Research Assistantships (GRAs) are associated primarily with students in Agricultural Economics & Rural Sociology. GRAs require working with faculty conducting research on a variety of topics dealing with, but not limited to, environment and natural resources, food and agriculture, and community and rural development. While funding from grants may become available throughout the year, GRAs are generally made available in February or March for the following academic year. Please contact the Co-Director in Rural Sociology for further information.
