

Statistics Minor

Auburn University offers a graduate academic minor in Statistics administered by the Graduate School in cooperation with the Department of Mathematics and Statistics. The objective of the minor is to provide education and training for students whose graduate research includes a substantial amount of statistical methodology and/or data analysis. Students are required to complete 12 hours of graduate level statistics (STAT) graded course work. Courses that count towards the graduate minor in Statistics are only those designated with the STAT prefix.

For verification of graduate minor completion and other inquiries, please contact the Statistics Program Coordinator in the Department of Mathematics and Statistics.
