## Accelerated Bachelor's/Master's Curriculum for the Department of Horticulture

The Accelerated Bachelor's/Master's Program (ABM) offers outstanding students in the Department of Horticulture an opportunity to earn both the bachelor's and the master's degrees in less time and at less cost than usual. The ABM program allows these exceptional horticulture students to count up to 9 hours toward both the bachelor's and master's degrees.

The Bachelor of Science in Horticulture can lead to a Master of Science in Horticulture or a Master of Agriculture in Horticulture in the ABM track. Please see the Department of Horticulture website for additional information, ABM tracks and curriculum models.

Below is a chart of all the approved courses that can be taken in the ABM program and what course that replaces at the undergraduate level.
