School of Accountancy

The School of Accountancy is dedicated to advancing the field of accounting and preparing tomorrow's accounting leaders. Throughout the undergraduate program, accounting majors experience numerous opportunities to network with prospective employers and gain insight on career opportunities within the accounting profession. During the senior year, students are strongly encouraged to intern for the firm or corporation where they desire to work full-time after completing their education. The majority of students receive full-time job offers at the conclusion of their accounting internships and before enrolling in the Master of Accountancy (MAcc) Program.

Students who desire careers in public accounting must obtain 27 additional hours beyond the 123 hours required for the undergraduate degree in order to academically qualify for the Uniform CPA Examination. Most students pursue those additional hours through the MAcc Program. The MAcc Program provides students additional technical skills, research and communication skills, as well as focused preparation on passing the Uniform CPA Examination on the first attempt.
