School of Industrial and Graphic Design

The School of Industrial and Graphic Design (SIGD) offers the only NASAD-accredited programs in the state of Alabama. The B.F.A. in graphic design focuses on visual communication with an emphasis in typography, branding, UI/UX, publication, motion, illustration, packaging, app, and wayfinding design. The bachelor of industrial design program is known for product innovation, point of purchase design, marketing design, commercial environments and branding. The Master of Industrial Design prepares students to shape a sustainable future by designing products and systems that consider human interaction, manufacturability, profitability, and environmental impact.

In addition, SIGD offers a Bachelor of Science in Industrial Design Studies for students who would like to pursue a Master of Industrial Design but do not have a design background. Another option for students is the minor in industrial and graphic design processes which equips students from diverse disciplines to work more effectively to advance design innovation within an organization.
