The Department of Management and Entrepreneurship prepares students in basic business functions as well as the process of management. The program imparts knowledge that will assist future managers to be good decision makers for their organizations.

Management

The Management program provides students a comprehensive overview of the skills necessary to compete in a managerial position in business. The program emphasizes such areas as behavioral dynamics, leadership skills, project management, business processes and logistics, international relations, as well as the management of information technology. It is designed to focus on those issues generic to both the manufacturing and service industries. These management skills, when complemented with the solid foundation provided by the business core courses, equip students with the necessary knowledge to become successful managers. One unique aspect of the program is a community service project geared toward helping the students understand the importance of community service and philanthropy in today's global economy.

Several complementary minors are offered for the management major: Human Resources Management, Entrepreneurship and Family Business, and Organizational Development and Change.

College of Business pre-requisites are strictly enforced. Junior standing and compliance with College of Business academic standards are required for all 3000 and above level courses.

Business Administration

The Business Administration program is an interdepartmental degree designed to provide maximum course flexibility and a broad-based preparation for future career opportunities. Students are required to demonstrate basic oral and written communication skills, familiarity with technological tools, and an understanding of the interrelationship between the United States and foreign countries with a comprehensive education in business management. The Business Administration program prepares students for entry-level managerial and staff responsibilities in business, government, and non-profit organizations.
