Majors in Liberal Arts prepare students for immediate employment after receiving undergraduate degrees, for example, as journalists, public relations experts, archivists, interpreter/translators, curators, social scientists, counselors, fine arts and entertainment industry professionals, education support specialists, management professionals, or technical communicators. Students also receive strong academic backgrounds for graduate study or professional education. The College of Liberal Arts consists of four academic areas, each of which is divided further into departments and the program in Interdisciplinary University Studies.

- Humanities: English, History, Philosophy, and World Languages, Literatures, and Cultures, awarding Bachelor of Arts degrees.
- Fine Arts: Art, Music, and Theatre and Dance, awarding Bachelor of Arts, Bachelor of Music, and Bachelor of Fine Arts degrees.
- Communication: Communication and Journalism, and Speech, Language, and Hearing Sciences, awarding Bachelor of Arts and Bachelor of Science degrees.
- Behavioral and Social Sciences: Aviation, Economics, Political Science, Psychological Sciences, and Sociology, Anthropology, and Social Work, awarding Bachelor of Arts and Bachelor of Science degrees.

Becoming a Liberal Arts Major

Entering a Major: Incoming freshmen and external transfer students are admitted directly to the College of Liberal Arts. The following majors have additional admission requirements beyond university admission: Art-BFA, Aviation-Professional Flight, Communication, Health Services Administration, Interdisciplinary University Studies, Journalism, Music, Public Relations, Media Studies, Social Work, Speech, Language, and Hearing Sciences, and Theatre-BFA. Students should contact the department that houses their intended major to determine specific entrance requirements.

Declaring a Major: All students must declare a major by the end of the semester in which they complete 65 semester hours of credit, including transfer and other college credit. Students transferring into the College of Liberal Arts with 65 or more semester hours of credit must declare a major upon admission. If a major is not declared at the time of admission, students will follow the requirements for the College of Liberal Arts and will be identified as pre-majors in a curriculum or by the designation UNLA for undeclared students.

Required Courses for All Liberal Arts Majors

Most majors in the College of Liberal Arts require students to complete a one-year sequence in a world language other than English. Students are placed into each sequence based on results of a placement exam administered by the Department of World Languages, Literatures, and Cultures. Students in Aviation, Interdisciplinary Studies, and those pursuing BFA degrees in Art and Theatre are exempted from the language sequence requirement. Most majors in the College of Liberal Arts also require students to complete LBAR 2010: Liberal Arts Careers Preparation; majors not requiring that class have identified other specific places in their curricula addressing career preparation for students.

Policies for Concurrent Degrees and Double Majors

To earn a second baccalaureate degree, students must complete a separate body of knowledge appropriate for the degree. The Dean's Office in the College of Liberal Arts determines when it is possible for students to earn a second baccalaureate degree. Auburn University academic policy stipulates the minimum hours necessary in addition to the primary degree or curriculum. The College of Liberal Arts requires that, at a minimum, 30 additional hours of non-overlapping course work must be accomplished in the second baccalaureate degree program.

To earn a double major, students must complete all the major courses in both majors. Of these major courses, at least 20 hours of each major must be unique, rather than being used as major, support, or core courses in both majors. If at least 20 hours of unique courses do not exist for each of the two majors, students cannot pursue a double major.

For complete information on concurrent degrees and double major requirements, please see the Academic Policies section.
Special Academic Opportunities

To augment the learning experiences available through majors in the College of Liberal Arts, students can take advantage of the following possibilities:

- **Concurrent Degrees with the College of Engineering.** Students can receive a degree from a Liberal Arts major and a degree from a major in the Samuel Ginn College of Engineering, including specially designed programs pairing engineering and modern language training. To ensure that all requirements are met, students should see advisors in both colleges. Typically, five to six academic years are necessary to complete concurrent degrees.

- **Pre-Law Study.** While students interested in preparing for advanced study of the law should consider the major in Law and Justice, most degrees in Liberal Arts are accepted by law schools as appropriate preparation for the study of law. However, students should consult with the pre-law advisor in Haley Center 7002 in preparing for law school admission and the study of law. The pre-law advisor will suggest the most useful courses to take.

- **Pre-Health Study.** Most majors in Liberal Arts are accepted as preparation for professional degrees in health, including medicine, dentistry, optometry, physical therapy, and occupational therapy. Generally, students will need to take particular courses in science, mathematics, and philosophy as their university core requirements. They will also need to take additional courses in science and mathematics not required by most Liberal Arts majors and attend a Pre-Health Professional Orientation course offered during fall semester. To ensure they complete the necessary requirements and to get assistance in applying to graduate or professional programs in health fields, students should meet with the pre-health advisors in the College of Science and Mathematics. Students should also consult with advisors in the College of Liberal Arts.

- **Teacher Certification through the College of Education.** Students holding baccalaureate degrees in English, history, French, or Spanish may gain teaching certification through enrolling in the Alternative Master’s Certification Program in the College of Education. Upon successful completion of the program, students are awarded a master’s degree in education (MEd), and they will be eligible to apply for Alabama Class A certification (master’s level certificate).

- **University Honors College.** Students with extraordinarily high academic aptitude can receive individual learning opportunities through the Honors College. For more information, see the “Academics Policies” section of this Bulletin.

- **Study Abroad.** Students can gain course credit either through class instruction or internship in Study Abroad programs. For more information, students can contact the Office of International Programs or the departments or colleges that house these Study Abroad opportunities.

- **Cooperative Education Programs.** Students receive opportunities to integrate classroom education with work experience in Cooperative Education Programs. Students alternate each semester between attending classes and working for companies. Cooperative Education Programs are available in the Departments of Art, English (Professional Writing and Public Writing track), Political Science (Health Services Administration and Public Administration majors), Psychology, and Sociology, Anthropology, and Social Work. Interested students should contact the director of the Cooperative Education Program.

- **The Caroline Marshall Draughon Center for the Arts and Humanities.** Students may be interested in the programs and other activities sponsored through the Caroline Marshall Draughon Center for the Arts and Humanities at Pebble Hill. The mission of the Center is to strengthen the bonds between the College of Liberal Arts and the public by creating and implementing arts and humanities programs that explore our individual and collective experiences, values, and identities through the past, in the present, and for the future. The Center also creates occasions and space for dialogue, intellectual community, and cross-disciplinary scholarship.
