

# Sustainability Studies Minor

---

Problems of environmental degradation, social justice, and economic inequality have never been more pressing, and the demand for people with the determination and skills to address them has never been greater. With a diverse selection of courses from colleges across the university, the interdisciplinary minor in sustainability studies offers students the opportunity to gain wide-ranging expertise and hands-on experience with the most crucial issues in contemporary society.

For more information on the minor in Sustainability Studies, see the program's website at <https://cla.auburn.edu/academic-sustainability/>.
