

Genetics — Pre-Med (MGEN), Pre-Den (DGEN), Pre-Opt (OGEN)

The genetics major provides a broad foundation in the biological, physical, and mathematical sciences fundamental to the study of heredity and evolution. The major is flexible in order to serve students interested in genetics, either as a basic discipline or in its application in biotechnology, agriculture, environment/conservation, and medicine.

Total Hours: 120

Long range schedules for COSAM courses are online at <http://aub.ie/cosamlrs>

Courses in **BOLD** will be used to calculate GPA in major.

Options for courses labeled CORE are in the Auburn University Bulletin (www.auburn.edu/bulletin) under Core Curriculum.

Students should declare a major by the time they earn 60 hours.

Students must complete all requirements for that major prior to graduation.

¹ The Chemistry 1110/1111-1120/1121 sequence can automatically substitute for CHEM1030/1031-1040/1041.
