Certificate in Artificial Intelligence Engineering

Online and On-Campus options

The undergraduate certificate program in Artificial Intelligence Engineering (AIEN-UCRT) is open to all Auburn University undergraduate students who are majoring in computer science, software engineering or another STEM discipline, or have relevant professional experience that provides necessary background knowledge of programming, computing, and mathematics. It entails 12 undergraduate credit hours. All students are required to take three required courses (COMP 5130, COMP 5600, COMP 5630) and three credit hours of department-approved electives relevant to artificial intelligence.

Code	Title	Hours
COMP 5600	Artificial Intelligence	3
COMP 5630	Machine Learning	3
COMP 5130	Data Mining	3
Approved AI Elective		3
Total		**12**
