

Wildlife Enterprise Management (WLEM)

Wildlife Enterprise Management

Students successfully completing the WLEM Curriculum will have an understanding of the principles of wildlife management as they apply to consumptive enterprises and will appreciate the ecological principles that lie at the foundation of conservation biology and ecotourism. The objective of this degree program is to prepare students to manage a wildlife or outdoor enterprise; to provide students with a set of baseline skills related to customer service, food and lodging; to expose students to legal issues related to operating a wildlife or outdoor enterprise; and to prepare students to effectively market and advertise a wildlife or outdoor enterprise. In addition, students who follow the curriculum will qualify for a Business Minor offered by the Harbert College of Business.

Freshman

Fall	Hours	Spring	Hours
ENGL 1100 English Composition I		3 ENGL 1120 English Composition II	3
BIOL 1020 Principles of Biology		3 BIOL 1030 Organismal Biology	3
